# THE TRIBUNE

VOL. 20 No. 33 THIEF RIVER FALLS, MINNESOTA, FRIDAY, JULY 2, 1920 *Official Paper of Pennington County*

MINNESOTA HISTORICAL SOCIETY

## NOW IS TIME TO PUT IN YOUR BEST EFFORTS

Historical Society

**TRIBUNE CAMPAIGN MAKING RAPID HEADWAY AND WORKERS BUSY**

If a man came to you today and said, "For the next four weeks I will pay you two hundred dollars a week, for your services in my work"—would you accept his offer? Ten to one, you would—and you'd go farther and make those four weeks the busiest weeks of your career, in an attempt to fully earn the large salary I paid you.

The Tribune will pay to some wide-awake man or women living in or near Thief River Falls four hundred and fifty dollars a week for the next four weeks—will give away on July 31st a Buick "Six" touring car, worth eighteen hundred dollars. And you have as much chance to win that car as anyone. You have a great store of determination and perseverance—your ability is as great and your circle of friends as large—and you can win.

You have just as much chance to win the Buick "Six" as any worker now in the race. What if you have done but little work so far—what if other rivals are far in the lead—what if you feel that your territory is not as large or as productive as those of other workers? Go in and work with all your might—and there's not a one of the worker's who can beat you!!

So far, only three or four workers have done much real work—the majority of those who entered are just glancing along, keeping up a steady flow of work, but not accumulating a winning vote strength. There's not one worker entered who cannot be beaten. You can start work for subscriptions today—you can keep your friends behind you and keep them working for you—you can get your publicity and your personal advertising developed to such a pitch as to bring to your support every friend and neighbor in miles—and can win the car—if you want to.

All you need to do is to start work for subscriptions today. The Tribune will provide you with a sample copy of the Farm Account book which has been secured to be offered with subscriptions to The Tribune, and this book will help you a great deal. You may give the book free with three and five year subscriptions—which means that you will secure a large number of the long-term subscriptions and thus a large amount of votes—and it can be given for $1.50 plus the cost of the subscription with one year subscriptions. Your photograph will be published in The Tribune with an advertisement appealing for the help of your friends, free of charge; circular letters asking for subscriptions will be furnished in any number you may order—in fact, the management of the automobile campaign will do everything that is fair and square to help you win.

All that you will be asked to do is to do the best work possible for subscriptions. And now is the time to do that work.

Get started today—work hard—keep going all the time—and win the Buick "Six" on July 31st.

"Make it a hot one"!!!

## MUSIC COMPANY NOW LOCATED IN NEW HOME

**SECURE BUILDING ON THIRD STREET, DIRECTLY OPPOSITE FORMER LOCATION**

The Thief River Music Company are now located in their new home at Third street, directly opposite their former location. They have been located temporarily in the Meehan block at the corner of Second and Main streets. Since the reorganization of the company they have enjoyed a nice increase in business and with the new location they are certain to have a very pronounced increase. The former location, at Second and Main was a little small for the display of merchandise and the company was seriously hampered for room. They now have a very fine store and while they could use more room they are in better shape than they have been for some time past. They have installed demonstration booths in the rear quarters for the testing and demonstrating of phonographs and all musical instruments. The interior of the building is finished in white ivory enamel and it surely presents a neat and inviting appearance.

### Enjoys New Potatoes

Mr. Gordon Olson, west of town on the Jefferson highway reports fine, new potatoes on his table June 20th. In the garden cabbage with leaves four feet across, finest tame grass crop he has ever raised, with oats excellent and corn more than knee high. Old Pennington is going over the top again this year. Good farmers, like Mr. Olson, are the biggest resource our country possesses. We are proud of our country and we are more proud of our good farmers

### Married Wednesday

The home of J. B. Conner was the scene of a very pretty home wedding on the afternoon of June 30th, when Miss Stella Conner was united in marriage to Otto Hauck Jr., of Oak Park, Grygla. After the marriage ceremony which was conducted by Rev. J. B. Smith, of the Methodist church, a sumptuous repast was enjoyed by the many guests who enlivened the occasion by their hearty congratulations. The wedding party motored to Glygla where Mr. and Mrs. Hauck will make their future home. Miss Conner has a host of friends in the city who will follow her with their best wishes for a long and prosperous life journey.

## CITY PRINTERS ARE NOW ON UNION BASIS

**UNION OF PRINTERS ORGANIZATION STARTS YESTERDAY MORNING**

The printers of the city have formed an organization and the same is now in force. The rules of the new organization and for an eight hour day with increased pay all around. The men have secured their charter from the International headquarters at Indianapolis, Indiana, and are now a full fledged organization, receiving label parchment and all the benefits of the International Typographical Union.

The forming of this organization means that all printing done in this city henceforth will be done by union printers and the union label will be used on all printing. The labels have not yet arrived from Indianapolis but will no doubt be here in the course of a few days. It is the intention of the men to live up to all the rules and regulations of the union and like they will do without question. The printer's union, so far as we have been able to judge in our years of experience, is without doubt one of the most sincere and square organizations in America. Never in the history of the organization has there been trouble but what it was settled in an amiable manner and without loss of time, generally, and with no ill feeling in any case. Everything is argued on a sane basis and the printer considers the employer's side the same as he does his own, which no doubt accounts for the fact that there is seldom or never a walk-out among printers.

The Tribune is strongly in favor of this organization and was the first to sign the agreement when it was presented by the printers of this city. We believe in organized labor, first, last, and always, and are with them in everything that is fair and above board. Organized labor is entitled to consideration and recognition and The Tribune is proud to announce that this office is manned by union printers. We are for them and will do all that is possible to uphold the principles of the International Typographical Union.

### Marries Couple at Badger

The Rev. J. B. Smith, of this city, was called to Badger to officiate at the wedding of Edwin Rankin and Miss Barbara Rankin. The groom is a graduate of the Thief River Falls high school and is at present a civil engineer at Mahnomen. The bride is the daughter of one of the sturdy Scotch farmers who have played such an important part in the development of the northwest. A large number of guests were present at the ceremony and all seemed to enjoy the bountiful feast provided for the occasion. After a brief stay in Roseau county the newly wedded couple will make their home at Mahnomen.

It pays to advertise in The Tribune.

## RECEIVES LARGE SUM IN VERDICT

**FRED BRENDECKE GETS $11,000 VERDICT IN CASE AGAINST RAILROAD**

A verdict of $11,000 damages in favor of the plaintiff was returned by the jury in district court in the case of Fred Brendecke vs. the United States Railroad Administration, last Wednesday night.

Brendecke had brought suit for the sum of $40,000 alleging that the loss of his foot in an accident on October 24, 1918, was due to defective equipment. Plaintiff alleged that while firing an engine in the Great Northern yards he stepped from the cab, and, on attempting to recover, slipped on a defective step, catching his foot beneath the front wheel of the tender, where it was so badly crushed that amputation was necessary.

The case occupied nearly two days, the taking of testimony being completed Wednesday afternoon. The jury was out only a short time, and returned a sealed verdict which was read on the opening of court at 9 o'clock Thursday morning.

Attorneys for the plaintiff were Sam A. Anderson, of Minneapolis, and Ilms Chomnie of this city. Representatives for the administration were A. L. Janes, Great Northern railroad counsel, and E. M. Stanton, of this city.

### Building Many Silos

The Rambeck-Stone company are erecting many new silos in the immediate vicinity of Thief River Falls; the first to be erected is on the farm of E. O. Green, northwest of town. The silo being erected on Mr. Green's farm is of concrete and is 150 tons capacity. The silos are made by a firm at Sheffild, Iowa, and molds for the casting of the cement blocks are sent to the Rambeck-Stone company at this place, who cast the blocks and erect the silo complete. They are claimed to be one of the best on the market and to date they have several orders signed up for the erection of these silos. P. W. Roark is hauling out the material for the erection of a silo on his place north of town and when completed it will be a mighty valuable addition to his farm. The farmers of the county are coming more and more to see the benefits of a silo and are long in fact be a familiar sight to see a silo on practically every farm in the entire county. They are a fine addition to any farm and mean much in the raising of stock.

### Presbyterian Church

Rev. R. L. Barackman, Pastor

On July fourth, our National Independence day, Sunday school will meet at ten o'eock. At eleven o'clock the hour of morning worship, the church will observe Holy Communion In the evening at the eight o'clock hour of worship, the subject of the address will be in harmony with Independence day. The men who have served in the armies of the republic are invited to be present as guests.

## MIGHTY FINE CROP FUTURE IS ASSURED

**COUNTY NOW IN FIRST CLASS CONDITION AND CROPS LOOK FINE**

Conditions generally in Minuesota and particularly Pennington county are excellent with reference to the crop outlook. A drive thru the country these days is well worth the time spent and in making such a trip it is very noticeable that the conditions are as good as they have been for a bumper crop was never better. Especially is this true of small grain. The cool weather with just the proper amount of rainfall has helped materially in bringing the small grain to the front and from every indication and in conversation with farmers generally the county over, it is easy to see the year holds forth bright promises in the way of good crops.

Travelers in this state and the Dakotas pronounce the crops to be equally as good in other sections as they are in this county. A great many have stated that so far as they are able to judge the entire northwest is in very fine condition and prospects for bumper crops never looked brighter. This is specially true in Pennington county, we know, and we are sure that the farmers of this section, by their painstaking effort to attend the crops in the time they needed attention most are to receive handsome returns for their labor this year.

The potato crop looks very good and it seems as if the cost of potatoes and to be forced down in the very near future. It is claimed that potatoes are running as good as the average years and from all the reports possible to gather, it would seem as if there was a possibility of a good potato crop along with other crops.

A report by the Van-Dusen company, in the Minneapolis News of recent date with reference to the outlook in this state and North Dakota will no doubt prove of interest to every farmer in this county and is herewith reproduced:

Bumper crops through the Northwest states and western Canada, with sufficient labor in sight to harvest them, was indicated in crop reports from many sources today.

Fine headway has been made in the last week by crops in Minnesota, North and South Dakota, and Montana, according to the Van Dusen-Harrington report, while good progress has been made in Manitoba, Saskatchewan and Alberta, says a report issued by the Canadian branch of the U. S. chamber of commerce.

Both in the Northwest states and in Canada the crops are described as showing the best condition for this month since 1904.

Assurance that trouble from labor shortage need not be anticipated is given by Hugh Jennings, of the Federal employment bureau.

"Farmers in my district are planning for a banner year," declared Benjamin Mulford, owner of a farm near Summit, N. D., who passed through the city today on a motor trip to southern Minnesota. "If the present climatic conditions hold, there is every indication of the largest crop in years then the entire Northwest."

The labor situation will not cause trouble in harvesting this year, according to Mr. Jennings, who bases his prediction on the fact that seeding was two weeks late in the Northwest.

"With farmers offering from $5 to $7 a day and board for laborers, I anticipate no trouble getting an adequate supply of men to all of the Northwest. Harvesting is nearly complete in Oklahoma, Texas, and other southern districts. By the time grains are ripe here, the men in that section will move thru this country in large numbers."

Minnesota farmers have sent in offers of from $5 to $6 a day, although they will be no general demand until the haying season opens, he said.

The Van Dusen-Harrington crop report says that in the Northwest the weather has been fairly warm with plenty of rain for the places that need it. Montana getting a specially heavy precipitation. Pastures and grain fields that a year ago were burned out, are said to be growing splendidly.

Corn is reported in fine condition, in spite of considerable rain. Seed this year is said to have been exceptionally good.

## MERCHANTS ASSOCIATION PLANS MEET

**EFFORTS NOW BEING MADE TO SECURE PRYOR IRWIN TO APPEAR HERE**

Pryor Irwin, one of the foremost retail counselors and trade investigators of the nation, will be brought to the city in the near future to conduct an institute for merchants, if negotiations now being conducted by the Merchants' Association come to a successful close.

Mr. Irwin, as head of The Retail Merchants' Institute, conducts a series of get-together meetings of local merchants and business people who are interested in retail merchandising. The general object of the meetings is to make available to local merchants the best plans and methods for retail advertising in use at present. It is a series of meetings for the exchange of helpful merchandising ideas. Mr. Irwin, from personal close contact with all phases of the business of selling, has accumulated a large store of ideas and plans for promoting retail advertising, which promise to be of great value to the merchants of this city.

Some of his major points, in his institute, are: Meeting today's competition. Getting the most out of your business. Opportunities in retail advertising, etc.

The service which Mr. Irwin can give applies to the great service to local merchants, and a large attendance is expected if it is found possible to bring him to this city.

### Barn Dance

There will be a fine barn dance on the Carl Zuer farm, southwest of this city on Saturday evening of this week. The dance is given by Olson brothers and a splendid time is assured all who attend. This is the first barn dance of the season and it is certain to attract a good crowd from all sections. The boys who are staging the dance announce they have secured excellent music for the occasion and promise there will be nothing missing at the big roundup.

### Young Couple Married

Walter E. Smith, the young banker from Mavie, and Miss Mary A. Jackson, of Willmar, Minn., were married Thursday, June 24, at the home of the bride. The ceremony took place in the presence of the immediate relatives of the bride and the happy couple departed on the afternoon train for the Twin Cities. After spending some time there they returned to Thief River via Bemidji, where they made a brief visit to the brother of the groom. The future home will be at Mavie. The nuptial knot was tied by Rev. J. B. Smith, pastor of the groom. The Tribune joins in congratulations.

### Enjoy Picnic

The ladies' aid societies of the Methodist churches at Thief River Falls and St. Hilaire enjoyed a picnic at Anhol's grove, six miles south of this city on June 30. The grove on the river bank is certainly one of the beauty spots of the neighborhood with its many beautiful trees, the river nearby and the beauty of the landscape on the opposite side of the river. The picnic dinner and social character of the event alike delighted all who were privileged to lighted all who were privileged to to Mr. Anhol for his kindness in permitting the use of the grounds.

## RESULTS OF N. DAKOTA PRIMARIES

**LATE DISPATCHES FROM GRAND FORKS SHOWS TREND OF VOTE IN THAT STATE**

The primary election of North Dakota which was held on June 30th, and which has created more or less interest in this state, is fast nearing a total showing as the returns from the 2,000 precincts of the state filter in, and from all appearances it looks as if Langer is piling up a lead that will be hard to overcome. However a small majority of the precincts are in and it is difficult to say just how the result is going to turn out. Both sides are claiming victory. Langer's lead late last evening showed a total of 12,000, but the report from Grand Forks this morning at ten o'clock only gave Langer a lead of 3,500 with 500 precincts yet to hear from. In the opinion of the editorial department of the Grand Forks Herald, it looks as if the league candidates were sure to win out. In the 500 precincts yet to hear from, it is claimed they are practically all league precincts and it now looks as if they were sure to carry the state and reelect Frazier as governor. The lead of 3,500 which Langer had at ten o'clock is considered to be a safety small margin, especially in view of the fact, that the majority of the votes yet to come is in the league territory. The final result is generally conceded by the entire state and it seems certain that the lead which Langer held at ten o'clock will be materially whittled down by the course of a few hours and the majority turned in favor of Frazier.

Information received from the Grand Forks Herald at 2:30 this afternoon is to the effect that Langer is still in the lead with a majority of 2,400. There are four hundred precincts yet to be heard from, which lie mostly in the western part of the state and in view of the fact that this is considered league territory, the total result is conceded to Frazier.

The Grand Forks Americano in their report at 2:45, state that our of the six hundred precincts yet to be heard from, Frazier leads by 705, and they estimate his majority will run around 8,000. The precincts to be heard from are all rural and it is conceded by everyone that Frazier has won.

## FAIR THIS YEAR TO BEAT ALL OTHERS

**SECRETARY AND BOARD WORKING DILIGENTLY FOR BIG FAIR**

Secretary A. Herard says announces that he is signing up new contracts practically every day for, new and interesting features for the Pennington County Fair which comes on August 4, 5 and 6 this year.

He has closed a contract with Art Williams, who is known in the country over as the biggest showbill with regard to his manuvers in the air, that it is possible for any body of Williams crawls over the wing of an aeroplane while in mid air, also hanging by his knees and performing other hair raising stunts, among which is a drop from the plane while 5,000 feet in the air in a parachute. His record has so far never been equalled for thrilling performances in the air and it is certain visitors to the fair this year will certainly get all the thrills they may reasonably expect and a few more thrown in for good measure.

Many other new and interesting attractions are being booked and every indication points to a snappy and interesting program for the year. Everything that has even been given before with many new features added, will be presented for the approval of Pennington county on these three big days. The fair board are leaving nothing undone to make this year's fair the big success of the time and with the proper co-operation from the citizens of the county it certainly will be a fair worth attending and one which it will be hard to equal, in big or little cities.

A detailed program of the attractions will appear in a short time and as soon as all arrangements and contracts have been signed it is the intention of the secretary to announce in full, everything that is to appear on the program.

Keep the dates well in mind and start laying plans right now to attend the big event.

# .....Automobile Campaign News.....

"LABOR WINS ALL."—Tacitus

### A LITTLE ADVICE

**What can defeat a strong man with a strong heart, who believes in himself and cannot be ridiculed, talked down, defeated by any obstacle or disheartened by by any temporary rebuff?— Orison Swett Marden.**

**Self-reliance is the best capital in the world.—Anon.**

**Sloth, like rust, consumes faster than labor wears, while the used key is always bright. —Poor Richard's Almanack.**

**Nothing can bring you success but yourself. In you and your effort and your perseverance lie the only keys to success.—Marshall.**

**The worker has always won out. Never in history has there been a time when anything less than plain hard work could achieve a worth-while end.— Woodworth.**

**Believe in yourself—work—adhere always to the one straight road which leads to your goal—and there is nothing in the world that can hold you from that which you seek. —Williamson.**

## HOW ABOUT YOUR PHOTOGRAPH

You have a lot of friends, in and around The River Falls and living at some distance from your home, or in your community, who have never heard of your candidacy in The Tribune's great $3,600 automobile campaign. Those friends have not yet learned of your work—and it's up to you to announce your progress to them by the most effective method possible. The management of The Tribune's great race is willing to help you do this.

If you will write your name and address plainly on the back of your latest photograph, and mail it in an adequately protective wrapper to the Manager, Automobile Campaign Department, The Tribune, you will receive an announcement of the most effective native possible. The announcer will send your photograph to an engraving agency for preparation of a newspaper electro-type, and will then insert your picture, together with a brief sketch, describing your candidacy, giving your address and a few facts about your length of residence in the community, etc., in this column of The Semi-Weekly Tribune.

This service will cost you nothing —this service will come to you in a manner which will give your candidacy much valuable advertisement —AND WILL BE ABSOLUTELY FREE.

Furthermore, if you desire it, the automobile campaign manager will prepare a printed circular for you, bearing your photograph and a few details of your campaign, with a plea for help in securing the votes with which to win—and send the circulars to you without charge.

After publication for the first time your photograph will be returned to you unharmed, and if you wish sample copies of the insertion containing your photograph will be mailed to you for distribution among your friends.

SEND IN YOUR BEST PHOTOGRAPH WITHOUT DELAY!!—IT WILL HELP YOU TO WIN THE BUICK "SIX"!!!!

## JUST A LITTLE WORK

Only a little work will it take to win the first grand prize in The Tribune's great $3,000 automobile campaign. Only an hour or so a day, of REAL WORK, kept up constantly and consistently, can win the Buick "six" for you on July 31st. Victory is easy—and you cannot lose

But—don't get in the habit of wasting time—don't begin to lose time or allow yourself to lag, for any reason. Remember that only one hour wasted may mean loss for you and victory for your rivals—remember that a day or a week wasted because of weariness or some equally weak reason MAY LOSE THE BUICK "SIX" FOR YOU.

Put in just a little work, each day, if you wish—BUT SEE THAT THE WORK DONE IS GOOD WORK AND HONEST WORK AND CONSISTENT WORK, and KEEP GOING ALL THE TIME UNTIL THE END.

MAKE IT A HOT RACE—AND WIN!!!!

## FOUR HUNDRED A WEEK

Four hundred dollars a week—seventy dollars a day—is what The Tribune is willing to pay you for work done soliciting subscriptions to The Tribune during the next four weeks of its great automobile campaign.

YOU CAN WIN THE BUICK "SIX", first grand prize, for work done during the remaining days of the campaign—whether you are already an active worker or not. For some worker can go to work right now, start an active and determined drive for subscriptions and votes—and in FOUR WEEKS WIN A LUXURIOUS AUTOMOBILE WORTH EIGHTEEN HUNDRED DOLLARS.

And—the person who stands highest at the end of this period will stand highest at the end of the race —almost inevitably. YOU'VE GOT TO HAVE VOTES AND LOTS OF THEM, IN ORDER TO WIN—AND NOW IS THE TIME TO GET THEM. Consider this—a three year subscription, taken after Saturday, July 10th, will count 25,000 votes—ONE HALF AS MUCH AS AT PRESENT. THAT AMOUNT OF VOTES MAY MEAN ALL THE DIFFERENCE BETWEEN A GLORIOUS VICTORY AND A SMALL ACHIVEMENT FOR YOU. When you remember that this same decrease effects every other subscription length proportionately, YOU'LL UNDERSTAND THE NEED OF DOING YOUR BEST WORK AT ONCE.

DON'T HESITATE FOR A MINUTE!! DON'T SLOW UP AT ALL!! JUST GO AHEAD WITH ALL YOUR MIGHT IN A WHIRLWIND DRIVE AND A WHIRLWIND FIGHT FOR VOTES WHICH WILL WIN THE BUICK "SIX" FOR YOU AND KEEP IT UP—ALL THE TIME—STRAIGHT THROUGH TO THE END.

DON'T WAIT ANY LONGER!! DON'T SACRIFICE THE WINNING VOTES BY HOLDING BACK UNTIL AFTER THE END OF THE FIRST PERIOD!! YOU'LL ALWAYS REGRET IT—IF YOU FAIL TO DO YOUR BEST AS RIGHT NOW!! GET YOUR SUBSCRIPTIONS RIGHT NOW—ALL THAT YOU CAN OF THEM—AND EARN FOUR HUNDRED AND FIFTY DOLLARS A WEEK FOR THE BALANCE OF THE CAMPAIGN.

YOU CAN WIN!!!

Hard work—determined effort—constant application—can win the Buick "six" for you on July 31st. DON'T LET YOUR LIFE'S GREATEST OPPORTUNITY GO BY UNSEEN—DO YOUR BEST WORK RIGHT NOW AND WIN!!

## AS A MAN THINKETH

A man is literally what he thinks; his character being the complete sum of his thoughts. A man is made or unmade by himself—his achievements are the measure of his determination and his confidence. Man is the master of thought, the moulder of condition and destiny—if he will but realize it.

Thoughts of doubt and fear never accomplish anything, and never can. They always lead to failure. Purpose, energy, power to do and all strong thoughts cease when doubt and fear creep in. The will to do springs from the belief and the firm restoration of the belief that we CAN do.

THE MAN WHO THINKS THAT HE CANNOT WIN—HAS NOT A CHANCE IN THE WORLD! And the man who knows that he can do the thing he has set out to do—will do it, in spite of every obstacle and every difficulty. It is only the man who believes in himself who can reach the goal—only the man whose mind and heart and soul affirm determinedly and repeatedly that he WILL achieve, who can ever rise from the rut of life.

Make it your first task, then, to cultivate a belief in yourself and an eager determination to make good that will win the goal for you. When you have done this you have gone a long way toward the top.

It is only the man with confidence in himself who can rise above the crowd. It is only the man who believes that he has the ability and the opportunity and the determination to RISE who will ever reach a worthwhile goal.

CULTIVATE BELIEF IN YOURSELF AS A PARAMOUNT TRAIT —AND THERE'S NOTHING THAT CAN DEFEAT YOU!!

* * *

It is a fact that people are always willing to help that person who seems to need help the least. A winner—potential or actual—will pull more support than a wisher who doesn't seem to have the strength or stamina to make his wishes come true. The most successful man is the man who seems always most successful.

Nowhere is this more true than in The Tribune's great $3,600 automobile campaign; nowhere is self-confidence more essential and self-reliance more necessary than in this great race for prizes.

The worker that wins any one of the cars—or any one of the cash prizes—now earns a fair-sized commission check, even—WILL BE ONE WHO BELIEVES IN HIMSELF.

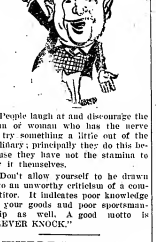
Make up your mind to win—and tell everyone with whom you talk that you're GOING to win. Tell them that you KNOW that you can win, and that you need them to help you put it over. Then—make good on your promise to win by working harder and longer for subscriptions —by increasing the volume and hettering the quality of your work for subscriptions.

INSIDE OF A MIGHTY SHORT TIME YOU'LL FIND THAT IT IS PAYING YOU—THAT YOU ARE GAINING A BIG LEAD, SIMPLY THROUGH YOUR ASSERTION OF SELF.

Start work today, if you are in the race but have done little work. Redouble your efforts today, if you have already done good work. MAKE EVERY MOMENT AND HOUR COUNT TO THE UTMOST—AND PROMISE YOURSELF AND YOUR FRIENDS THAT YOU'RE GOING TO WIN—AND THEN GO AHEAD AND DO IT!!

SELF CONFIDENCE AND HARD WORK WILL WIN A CAR. FOR YOU!!!

## HOW TO GET SUBSCRIPTIONS



In your locality there are probably more than fifty per cent of the families already readers, if not subscribers, to The Semi-Weekly Tribune. Every person now taking The Tribune is good for a renewal, of from one to five years. The mailing lists which The Tribune will furnish to workers in its great new campaign will give the names of those already subscribers, together with the date on which their subscriptions expire. Go to all these whose names appear on these lists—tell them of your candidacy and show them how their subscriptions may win for you —and you'll find that they will be glad to renew. THEY BEING ALREADY SUBSCRIBERS TO THE TRIBUNE KNOW THAT IT IS A GOOD PAPER—AND ARE READY TO RENEW THEIR SUBSCRIPTIONS.

Make up a list of particular friends in the locality, whom you feel will be willing to help you beyond giving their own subscriptions. Give them receipt books—these books will be furnished to you in any number you may order—and have them pick up all the subscriptions they can. Just as a politician must build up an organization to back his candidacy for a certain office—so it is well for you to build up an organization to back your drive for the wonderful Buick "six," first grand prize in The Tribune's great $3,600 campaign.

THERE ARE HUNDREDS OF SUBSCRIPTIONS TO BE HAD IN AND AROUND YOUR IMMEDIATE TERRITORY—IF YOU GO AFTER THEM BEFORE SOME RIVAL GETS THEM. BUT YOU MUST START WORK FOR THEM WITHOUT DELAY—YOU MUST BE GOING GOOD BEFORE SOME OPPONENT COMES IN AND STEALS YOUR FIELD OF WORK.

"MAKE IT A HOT ONE!!"

## Mr. B. Busy Says

People laugh at and discourage the man or woman who has the nerve to try something a little out of the ordinary; principally they do this because they have not the stamina to try it themselves.

Don't allow yourself to be drawn into an unworthy criticism of a competitor. It indicates poor knowledge of your goals and poor sportsmanship as well. A good motto is "NEVER KNOCK."

## WHERE HERE'S A WILL

(Note: This true story of a young man's great success, unaided by riches or influence, in a campaign exactly similar to that now being conducted by The Tribune, and written by that young man several years ago, will appear in installments in this column during the progress of The Tribune's great $3,600 campaign. READ IT—DON'T MISS IT—IT HAS MUCH IN IT FOR YOU.)

**(By Robert Douglas)**

**Chapter Eight**

Bill Morton lives at the bottom of the long grade from the hills down into the old river bottoms—the long grade which is the joy of bicycle riders, when GOING DOWN, and the bane of automobile drivers, when COMING UP.

Billy's sixty-five, but he's the best bundle pitcher in the country, and he can shuck as much corn in an hour as most lady-like farm hands can in a week. He's six feet tall and there's not an ounce of fat on him. His grizzled mustache and white hair merely serve to set off the ruddy clearness of his skin and the clear blue of his eyes. He's about the fittest and the strongest and the handiest man of his age that I've ever known.

When Billy, who was down in the barnyard feeding his pigs, saw me driving up the lane, he climbed over the fence with the easy grace of a lad of twenty, and came striding up the yard toward me.

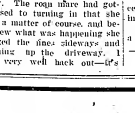
"Well—well—and if it isn't Bob! You're lookin' fine, my boy—how are you and your mother getting on?" Billy always has been interested in us, and I couldn't begin to tell the many decent things he's done for us. We walked toward the house, and I started to take out my receipt book, preparatory to opening the attack.

"Put it up—put it up—" he smiled. "I know all about it, Bob, and I'm just going to get some money for you. Wait just a minute." He took the back steps in two leaps, and was into the house. A second later, and he was back again. "I'll take two years, now, Robert, and if you need any more help I'll be glad to give it to you. Come and see me again, my boy—I'm a pretty lonesome old man nowadays." Billy's daughter and sons are all out in the world for themselves—one of the sons is far down in Mexico with some one of the various revolutionary parties, and another is practicing law in Skagway, away up in Alaska.

I drove out and started down the road, happy as a king. But—I SOON GOT OVER IT.

In the next five farms, one after another turned me down, two of them after a little argument, and the other three without even giving me a chance to show them my proposition.

I turned off the main pike onto one of the country roads—a road in good repair but evidently used very little. The first house I came to was a little one—it didn't look as though it had been painted for two or three years, and the clapboarding was patched in spots with two by fours and ancient shingles. The roof of the porch sagged dispiritedly and the fence had only a few lonely pickets. The windmill in the yard groaned dismally—it must have been a year since the last time it had been oiled, and one of the barn doors on one hinge. Altogether, it was not at all promising—it looked like about as poor a seed as any I had struck.



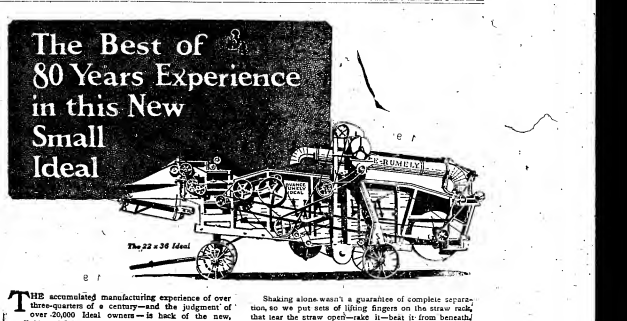
I considered, while I drove toward it, whether or not to pass it by. I was pretty much discouraged just then, and another flat failure—and the house seemed to hold out hopes of nothing but failure—didn't exactly appeal to me. But I learned right then that, even if I had almost made up my mind to go on without stopping, I wasn't the only member of the party. The roan mare had gotten so used to turning in that she did it as a matter of course, and before I knew what was happening she had nudged the fence sideways and was turning up the driveway. I couldn't very well back out—it's pretty hard to persuade the roan to back, anyhow, and besides I didn't thing it'd look very good, so I let her go.

An old man was standing in the big old barn's doorway. He smiled, and spoke. "Well, how are you today, my boy? Fine morning, isn't it?"

It was indeed—and the sunny reception, the first one that I'd received in some miles, went to my heart.

"You bet it is," I said. "This is a wonderful country in nice weather.

(Continued on Page 3)



## CO-OPERATION

BEHIND the average financial success will be found the close co-operation of a loyal, helpful bank.

THE officers of this bank are particularly proud of its record in that respect.

CITIZENS STATE BANK

THE accumulated manufacturing experience of over three-quarters of a century—and the judgment of over 20,000 Ideal owners—is back of the new, small 22 x 36 Ideal Thresher.

You know the record and reputation of the larger sizes of the Ideal—there's no farming community that hasn't its Ideal outfits with their satisfied customers. When we were called upon to build a smaller size separator, we didn't just "turn one out"—we built along the same lines as the Ideal, determined that our small threshers would be leaders in their class just as are the larger.

So in the small as well as the larger Ideals you will find those features that mean the difference between a "save" and a "guesswork" job. Ideal thresher owners will tell you that.

Bunching, or cylinder winding, is unknown in the Ideal—because the Ideal is designed on the principle of a steady, even flow of straw through the machine from the time it enters the cylinder until, free from all grain, it leaves through the stacker.

First of all, we placed the Ideal grates exactly right in relation to the cylinder. Then we designed the Ideal rack-elling slatted rake to take the straw from the cylinder and carry it to the straw rack. Result—more grate surface and a steady even flow of straw, making choking impossible.

Shaking alone wasn't a guarantee of complete separation, so we put sets of lifting fingers on the straw rack, that tear the straw open—rake it—beat it from beneath. Result—complete separation and no waste.

Then, to take care of the increased capacity due to these inventions and to make the Ideal do a perfect job of cleaning, we put in extra chaffer area. The chaffer in the cleaning shoe, with the adjustable sieve and our special system of wind control, guarantees a perfect job of cleaning without waste. Result—the kind of cleaning that gets "no dockage" at the elevator.

Such construction shows why the small 22 x 36 will handle up to 900 bushels of wheat in a day's run—the 28 x 44 up to 1,500 bushels.

The Ideal is built in five sizes—22 x 36, 28 x 44, 28 x 48, 32 x 52 and 36 x 60—standard in design and construction, and meeting all needs, from the man who owns his own power and wants to do his own threshing, to the custom thresher.

There's an Ideal in your neighborhood.

*The guaranteed oil-burning, oil-cooled OilPull Tractor is built in sizes to fit every size Ideal.*

## WHERE THERE'S A WILL

Continued from Page 2.

isn't it? And, by the way, sir, I've something here that will help you a whole lot to keep in close touch with this country, if you are interested. I would like to show you my proposition, if you have the time—" and I reached into my pocket and dragged out the circulars and receipt books I carried always.

He didn't interrupt me—he didn't even try to stop me—and before I'd gotten very far in my talk I found he was beginning to look interested. Suddenly he interrupted me:

"How much is your paper, did you say?"

"Three dollars and a half a year, sir. However, on a three years subscription, which is the longest term I am allowed to take, the rate is reduced a trifle, to an even ten dollars. I would honestly advise you, if you are going to subscribe at all, to do so for a long term. Paper, print supplies, and every other thing that goes into the production of a newspaper are going to increase in price again within the next few months—or I have reliable information to that effect, at least. Naturally, if you subscribe for a long term, you will protect yourself against this increase in price. Don't you think it good business policy to get your order in before the increase in rates takes effect?"

"Quite right—quite right. Will you make me out a receipt?—for three years! I'll write the check for you."

He took a check book from his pocket—a check book upon which was printed in gold letters "Drover's & Merchant's bank, Holton." Holton is a town of about thirty thousand, due west of Horton, and a town which dominates the whole section in business.

I tore out the receipt and handed it to him, receiving in return a check which I looked over—I have found it good business to always inspect checks as people sometimes inadvertently make mistakes which are apt to void the check. The name stood out in strong, vigorous letters, written in purple ink by a hand whose very signature was that of power. The name was Aaron Lang—and Aaron Lang was head of the biggest real estate firm in northwestern Missouri! He has accumulated a fortune, in his years of hard work, and stands among the foremost men of the state in business and in politics.

"Why—why—do you really want The World, Mr. Lang?" I asked, stammering from sheer astonishment.

"I surely do. You see, I'm out here today to look over this place—we have just bought it and are going to remodel and extend it. We're planning extensive real estate operations out here in the next few months—quite a few men from the east are buying land from us and plan to settle here. And, by the way—I'd like to make a little business proposition to you. There will be at least five tenants move onto our farms in the near future and every one of them will be wanting a local paper. So—I'll just buy five more yearly subscriptions to The World, and give a subscription to each of them, just as a measure of good feeling. What will be the total amount?"

Truly, it never pays to judge by appearances. And I gave out—but the room was neglected to turn in—I should have missed a deal which secured for me six subscriptions and 7.50 in cash.

The best way to do is to try EVERY PLACE YOU COME TO. And then you know you're playing safe.

(To Be Continued Tuesday)

## LINCOLN COUNTY STOCK GROWERS SET THE PACE

To the Lincoln County Livestock Breeders association belongs the distinction of operating the first special livestock demonstration train ever run in Minnesota. The train expenses, amounting to $500, were paid by the breeders who sought to carry the purebred livestock gospel to their neighbors. Four cars of purebred stock—Shorthorn, Hereford, Holstein and Red Poll cattle, Poland China and Duroc hogs, Shropshire sheep, and several varieties of poultry—and a passenger coach for the breeders and their friends and a party of speakers made up the train. The first stop was at Lake Benton on June 15, the second at Hendricks on the following day, and the third and fourth at Ivanhoe and Tyler on the last day out. A public meeting and a parade of livestock were held in each town, an evening picture show and a good roads meeting closing the activities of the day. W. H. Peters, T. A. Erickson and N. E. Chapman, from the Minnesota college of agriculture, gave several addresses each day. The tour culminated at Tyler where 250 persons sat down to a banquet presided over by O. S. Remsberg, county agent of Lincoln, and listened to an inspiring address on livestock production by W. A. McKerrow of University Farm. It was a great week for the livestock interests of Lincoln county.

### Newspapers Necessary to Business

A dispute over print paper charges caused newspaper proprietors of Winnipeg to suspend publication. A recent dispatch from Winnipeg furnishes the sequel. The customary activity and gayety of the street largely disappeared. Wildest rumors became current as to the local and world-wide news development, with the great mass of the people unable to tell what to believe and what not to believe. Tremendous decrease in business was felt. Mercantile houses usually crowded by bargain hunters and other customers at this time of the year suffered great losses. Traction companies, theaters, and other enterprises and industries reported a decline in the volume of business. The conclusion generally drawn from Winnipeg's experience is that business cannot be effectively transacted and the daily life of the city cannot function without newspapers

## PERSONALS

Mrs. C. E. Russell and children of Superior, Wis., arrived here Tuesday to be the guests of Mr. and Mrs. Christ Christenson for a few days.

Mrs. R. Aldermun, who has been visiting at the C. Matheson home, left for her home at Grand Forks Wednesday.

Mr. and Mrs. J. A. Paulson of Alexandria, motored down to visit at the Chris Christianson home for a few days.

Mr. and Mrs. J. B. Conner left Thursday evening for Denver, Colo., where they will visit with friends and relatives for two or three months.

Rev. George Larson returned home from Baudette Wednesday, where he had been on business.

Mrs. Julia Johnson returned home Wednesday after visiting with her parents at Steiner for a few days.

Miss Gladys Nelson left Wednesday morning for Radium, where she will be the guest of Miss Dorothy Loen for a few days. Miss Gladys will also attend the fair at Warren which is on this week.

Miss Esther Bjom, of Middle River, accompanied by Miss Ruth Langseth, of Grand Forks, left for the former's home Wednesday, after receiving medical treatment here for a few days.

Calla Nordquist, of Roseau, who has been visiting in different parts of Wisconsin, left for her home Wednesday morning.

James Monsebraat left for his home at Fargo, after visiting friends and relatives here for a few days.

Mrs. Jake Grenly and daughter, Bertha, left for their home at Alvarado Wednesday, after visiting with friends and relatives in this city for the past two weeks.

Mr. and Mrs. John Larson left for Alvarado, N. D. last Wednesday, to attend to matters of business.

Miss Josie Larson left for Hatton, N. D., where she will visit friends and relatives for an indefinite time.

Albert Nelson left for Fairdale, N. D. Wednesday morning, where he will be employed during the summer.

Miss Cora Amundson left Wednesday for Warren, where she will visit friends for an indefinite time.

Mrs. Alfred Carlson, of Middle River left Wednesday morning for Warren, where she will receive medical treatment.

Mr. and Mrs. Olaf Bergren, of Grafton, N. D., who have been visiting at the Sev. Hanson and Andrew Mauson homes, left for their home Wednesday morning.

Misses Alice and Addie Paulson left for Warren Wednesday, where the latter will receive medical treatment.

Mrs. H. O. Frederich, who has been visiting with friends and relatives at Kennedy, returned home last Wednesday evening.

Mr. and Mrs. H. Frederich arrived here Tuesday evening to visit at the H. O. Frederich home for an indefinite time.

Miss Anna Mnrvin, of Minneapolis who has been visiting relatives at Erie, returned to her home Tuesday evening.

Oscar Knutson, of Gryglia, left for Minneapolis Tuesday morning, he returned Wednesday evening.

Mrs. J. R. Wixson, of Duluth, arrived here Tuesday evening to visit with friends and relatives for some time.

Rev. I. T. Aastad returned Wednesday evening from Detroit where he attended to matters of business.

Miss Emma Wattsgnard left for her home at Oberly, N. D., after visiting for the past three weeks with relatives.

Mrs. A. F. Lauska, left for Grand Forks where she will visit for an indefinite time with friends and relatives.

Mrs. Selmer Quamen and three daughters left Tuesday for Grand Forks where they will visit for an indefinite time with relatives.

Arthur Dargen of Fargo visited at the J. Thill home between trains on Tuesday.

Misses Olen and Agnes Koglin left Tuesday for Grand Forks where they will visit for two weeks with friends and relatives.

Pennington Printing Company
Publishers

Thos. A. Way, President

Published every Tuesday and Friday at
Thief River Falls, Minn.

R. B. McWilliams, Editor and Manager

Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

The Goodyear Tire and Rubber company of Akron, Ohio, are offering their stock for sale in an effort to raise $30,000,000.00: They say:

In twelve years the business of the company has increased more than one hundred times, earnings on outstanding common, after preferred dividends, have averaged 54%; stock dividends have been paid as follows: 1908, 100%; 1909, 100%; 1911, 100%; 1913 20%; 1915, 100%; 1920, 150%.

We are offering the unsold portion of $20,000,000 7% Cumulative Preferred and of $10,000,000 Common stock in blocks of three shares (2 Preferred and 1 Common) at $300 per block.

Borton & Borton, Investment Securities, Leader building, Cleveland. Kalman, Matteson & Wood, McKnight building, William W. Eastman Co., Security building, Minneapolis. The information contained in this advertisement is obtained from sources we believe to be reliable although we do not guarantee its accuracy.—Minneapolis Tribune.

The men that buy the rubber pays the 54%. If you buy a tire or a piece of belting or a rubber heel or rubber goods in any line made by this company you are paying these profiteers unreasonable salaries, overhead expenses, honorariums, perquisites and plummings of all kinds and then an admitted profit of 54%. If we complain, the big duffies say "Why this unrest, in these troublesome times?" The Minneapolis Tribune recommends not only the company but the plan when they run this advertisement.

Here is another one in the Minneapolis Tribune: Good investments for July Funds. 8% Preferred stock. Old established company. Limited amount of participating cumulative capitalization of successful concern with nearly 50 years earning record. 1920 earnings at rate of 140% increase over 1919. Circular K2001. Elston and Company investment securities, McKnight Bldg., Minneapolis. Telephone Main 1509. Milwaukee 1st. Wis. Bank Bldg.; Chicago, 108 So. La Salle St.

140% increase over 1919—and ashamed to say what 1919 earnings were. The consumer pays the 140%. Minnesota should not permit the sale of a stock in a company—producing a necessity—that pays 140% per annum. Profiteering must be measured by some limited percentage. Certainly 140% is far above the limits of reason.

HAVE WE LEARNED NOTHING?

Philadelphia Public Leader: In any case, everybody is talking bluntly and brutally today of wars to come. No one is daring to risk the smallest policy looking towards assured peace. Every great nation is spending millions on armament though most of them need the money most tragically for other purposes. France hardly knows which way to turn to pay her debts, and her industries clamor for man-power; yet she feels that she must maintain a costly standing army and a big navy. Foch makes no bones of predicting an early German war revenge. Italy, staggering under an enormous debt, keeps an expensive army to watch her extended frontiers. Even Britain and America are voting colossal millions for warships for which no visible foe exists. This is a great change from the heyday of the winter of 1918-19. Were we all fools then? Was there never a chance? Must the hideous curse of war continue to take our first-born and our best-beloved forever? Or did we just miss the millennium for want of faith?

? WELL, LET'S FIND OUT

President Wilson has broken all precedents by giving an interview to the New York World, in which he appeals for a fight to a finish on the league of nations. Presidents do not give out interviews, but Wilson abhors precedents. It will be recalled that he made a famous pre-election appeal to the people at one time.

The New York World is to be congratulated on being made the organ which has carried the president's message on the league to the people. It was generally conceded that the New York Times was the administration's greatest defender, but it seems that the World called the game and got the interview, which is some "scoop" for even a New York newspaper.

But as to the fight on the league. President Wilson wants a fight to a finish, and it looks like he would get it since he has sought for it so long and ardently.

Borah and Johnson and the never-say-die crowd will seize the hindmost that Mr. Wilson invites them to take up, and will wield it with vigor and venom. Senator James Reed, the Missouri democrat, will also continue to take the side of the league. The invitation to the dance will be accepted by them and they will even hire the dodger so that they can step out, not on the league's planks and provisions, but to romp all over it, and it will be some romping, one may be assured.

Then, too there is the San Francisco convention. It is the convention of the party that took Mr. Wilson up and did so much for him, and it remains to be seen if democracy at the Golden Gate will stand hitched, hitched to and on the league.

The people of the United States have a right to settle once and for all the fate of the league of nations, if it is a serious problem, and it is. There has been so much said for and against the league that it is time that the court of last resort, the people, that ghost which walks once every four years, and then only for one day, a November day, should have something to say on the league.

The league has been ding donged at us until it is time to test the metal of the bell. So many times have been played on it that some of them have proven to be rank dissonances. It does sound like it was out of tune with the Monroe doctrine, with all Americanism, and that it is simply a trouble maker for the United States, a new sort of internationalism.

Let's get the thing into or out of our national system. Let's reject or approve it. Let's see whether the people's "eyes are jaundiced" or not.

GOING SOME

One new-paper correspondent declares or predicts that Tom Marshall will be the democratic candidate and will run on a platform of leaving to the individual states the manufacture of beer and light wines. But there isn't much comfort in this thought for the thirsty. It is a long way to Tipperary if you go this route.

Roughly speaking it is 267 miles to the place where Tom Marshall gets the nomination.

It is 198 miles to such a plank in the democratic platform.

It is 1,862 miles to the election of the democratic ticket on such a platform.

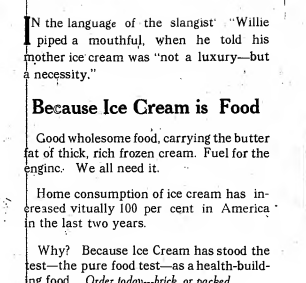
It is 14,222 miles to the point where 36 state legislatures would vote aye to repeal the beer and wine provision of the 18th amendment to the constitution, such repeal being necessary to the submission of the beer and wine proposition to the individual states.

It is 147 miles to the place where the supreme court would render its decision on the constitutionality of the repeal legislation.

It is 840 miles to the state legislation necessary to permit the manufacture of wine and beer.

This is a total distance of 18,536 miles, and it is a certainty that anybody who is dry now would be dead before the distance could be made.

WHAT FIVE YEARS BROUGHT



New York Evening Post: At Sotheby's auction rooms in London last week was sold a manuscript of 1½ pages, folio, by Abraham Lincoln, being the draft of a portion of one of the speeches made in the Lincoln-Douglas debates. The draft reads:

"Yet I have never failed—do not fail—to remember that in the republican cause there is higher aim than that of mere office—I have not allowed myself to forget that the abolition of the slave trade of Great Britain was started a hundred years before it was a final success; that the measure had its open, fire eating opponents; it's stealthy 'don't care' opponents; its dollar and cent opponents; its inferior race opponents; its Negro-equality opponents and its religious and good order opponents; that all these opponents got offices and their adversaries got none. But I also remember that, though they blazed like tallow candles for a century, at last they flickered to the socket, died out, stank in the dark for a brief season, and were remembered no more even by the smell. * * * I am proud in my passing speck of time to contribute an humble mite to the glorious consummation, which my own poor eyes may not last to see."

With this manuscript was an autographed letter by Robert T. Lincoln, dated September 17, 1892, describing it as follows:

"This manuscript is not a note made in preparing one of the speeches in the joint debate between Mr. Douglas and my father in 1858. The campaign was for a seat in the United States senate, and the political issue was the extension of the system of slavery to the free territory of our county. My father did not know that in less than five years a proclamation under his own signature would not only end all questions of the extension of slavery to the free territories of the United States but would free all the slaves in all the states."

When in need of Job Printing phone The Tribune.—No. 33.

IN the language of the slangist "Willie piped a mouthful, when he told his mother ice cream was "not a luxury—but a necessity."

**Because Ice Cream is Food**

Good wholesome food, carrying the butter fat of thick, rich frozen cream. Fuel for the engine. We all need it.

Home consumption of ice cream has increased virtually 100 per cent in America in the last two years.

Why? Because Ice Cream has stood the test—the pure food test—as a health-building food. *Order today---brick or packed.*

**Puritas Ice Cream**

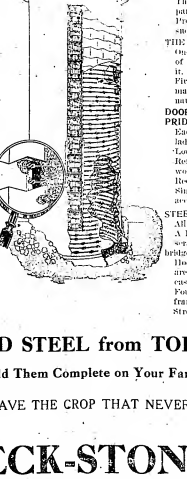
**Keystone Silos**

(Patented)

**Keystone Silos Stand Winter's Supreme Test**

BETTER YOUR FARM---SAVE YOUR WASTE---BUILD A SILO THIS YEAR



FILLING HOLE
Large size—galvanized frame—hinged. Place where wanted. Heavy ribbed wire glass cover, admits light. No broken glass can fall into feed.

MORTARLESS JOINTS
No mortar joints in a Keystone silo.
Joints are sealed with cement wash after wall is built.

THREE WALLS IN A KEYSTONE
Outside Skin—waterproofed cement wash.
Concrete Block—containing steel reinforcing.
Inside Skin—waterproof cement wash.
This makes a dry wall and a warm wall because it's dry.

THREE INCHES THICK
Thick enough for strength.
Thin enough that wall will warm quickly when the sun shines in cold weather.
Bottom of pit level with top of foundation leaves silo wall from bottom to top without projections to interfere with silage settling uniformly.

4 in 1 CONCRETE
Keystone Blocks are made of 3 parts of clean sand and gravel and 1 part Portland cement.
Always factory made and cured.

HOOP STRENGTH—REINFORCING
5-8 in. steel rods, bedded in concrete, close this silo from bottom to top.
These hoops are seven inches apart.
Proper hoops strength means a successful silo.

THE STEEL RAFTERS . . . . . .
One each two feet carry the weight of this concrete roof and reinforce it.
Fire—Wind—Lightning Proof—Permanent. Keeps out cold—retains natural silage heat.

DOOR SYSTEM
PRIDE OF THE KEYSTONE SILO
Each door a unit. Hinge and ladder combined.
Locks open automatically.
Refrigerator type seal, 2-ply Redwood doors—paper insulated.
Reduced resists fire and rot.
Single simple lock. Impossible to accidentally lock yourself in.

STEEL RODS PROTECTED
All reinforcing is buried in concrete. A Keystone silo is built like "Skyscrapers" and huge concrete bridges.
Hoop style reinforcing of steel are bolted securely to the heavy cast iron door frame.
Four hoops fasten to each door frame casting.
Strength where strength should be.

**CONCRETE AND STEEL from TOP to BOTTOM**

We Build Them Complete on Your Farm

BUILT TO SAVE THE CROP THAT NEVER FAILS

**Capital Prizes**

The Buick "Six" touring car will be awarded to the candidate in any district who secures more votes than any other candidates in all districts.

The Overland "Four" touring car will be awarded to the candidate in any district who secures the second largest number of votes in all districts.

### First Capital Prize---Buick 'Six' Cost $1,790.00

The Buick Model K-Six-49

Purchased from and on display at
The People's Auto Company, Thief River Falls, Minn.

The Tribune is going to give away on July 31st a Buick "Six" and a Overland "Four" and nearly one thousand dollars in cash prizes. You can take your pick of these prizes---you can win any one of them, by simply working hard for subscriptions. Good work done before the end of the first period will give you a strong vote reserve---good work done from the end of the first period to the end of the campaign will win a car for you, backed up by the strong vote reserve you can now obtain. YOU MUST DO YOUR BEST WORK NOW IN ORDER TO WIN!! Make the next week win a car for you by doing your very hardest work!!

# ST. HILAIRE NEWS ITEMS

Mr. and Mrs. S. J. Amble, accompanied by their grand-daughter, Evelyn Brown, came over from Grand Forks Saturday to spend a few days at home, after which they will return to N. D., the former to transact business in connection with the Park Region nursery and Mrs. Amble to visit relatives.

Miss Lilly Johnson was at Crookston over Friday night to visit with a friend, who was entroute from Fosston to her home in North Dakota.

A carload of household goods and machinery, consigned to Ed Wiff, arrived from Gonvick Friday and was taken out to his farm near Wylie.

Miss Violet Westphal, who is employed as a nurse at Minneapolis, arrived Saturday for a visit with her folks residing west of the village.

Mrs. H. F. Hanson, Misses Nellie and Inga Fullstad were among the Thief River Falls visitors, Saturday.

Mr. and Mrs. A. Satterberg were on a combined business and pleasure trip to the Twin Cities over the week-end.

Mrs. C. Biglow and sons recently arrived in this part of the country from Oklahoma, where they spent the winter. The family has taken up their abode at Thief River Falls.

A very interesting game of baseball was played on the local diamond Sunday between the Red Lake Falls and St. Hilaire teams. The visiting team brot with them the band and a number of baseball enthusiasts, but all encouragement which they received, the it urged the players to put up a more gallant fight, could not prevail against the locals and the hard-fought game resulted in a score of 2 to 3 in favor of St. Hilaire. The game was largely attended.

A very pretty wedding took place Thursday, June 24, at the home of Mr. and Mrs. D. Patterson, when their daughter, Ethel, was united in marriage with Cecil F. Brattet of Aurora, Ill. The bride was charmingly attired in a gown of ivory satin and wore a veil. The couple was unattended had as they entered the room which had been tastily decorated with a profusion of pink and white lady-slippers, the beautiful Mendelssohn wedding march was played by Miss Harriet Mathers. Rev. A. F. Nelson read the impressive ceremony and only relatives and very intimate friends of the contracting parties were present for the occasion.

The bride, a cultured and accomplished young woman, was born and reared in our midst and has the respect and admiration of all who know her. After her graduation from the St. Cloud Normal, she has taught in the public schools of Little Falls and Wadena, and everywhere she went her charming personality won for her many warm friends. The groom is a highly respected and estimable young man who represents a large publishing concern of Aurora, Ills.

The young couple left Thursday evening, via the Soo line on a honeymoon tour to various points in this state, after which they will make their home in Aurora. A host of friends extend congratulations and good wishes for a happy and successful journey thru life.

Misses Ada Bratner and Harriet Mathers, who were here to attend the Patterson-Bratner wedding, left Friday; the former returning to her home at Marshall and the latter to St Cloud where she is employed as a commercial teacher.

Wild strawberries are ripening and the weather this season has been especially conducive to their growth, so they are very plentiful, but mosquitos are also plentiful and very troublesome to the berry pickers.

Mr. and Mrs. L. Giese and children motored over Sunday from their home near Euclid to attend the half game and spend a few days at the H. O. Jackson home.

Walter Berg arrived Monday from Minneapolis for a visit at the home of his mother, Mrs. Ole Sherin.

A railway bridge building crew is at work putting in a new railroad bridge over the creek in the southern part of town.

The Ladies' aid of the Nor. Luth. church will be entertained Friday, July 9, by Mesdames Miller Peterson, Gabriel Peterson and K. T. Dalager at the rooms over the Nelson store.

Death removed Mrs. Adolph Anderson to her final rest, Wednesday, June 23; a rest which was deserved and welcome after eighty-nine years of life. The deceased was born in Sweden, but had lived in this country for many years. She and her husband and elder children settled in Polk Centre township when this entire country was but a vast wilderness, and to her are attributed many of the virtues which go to make up a fine pioneer woman. Mrs. Anderson had been ill for some time with a complication of diseases peculiar to old age, and her advanced years lessened the power of resistance and eventually led to death. She is survived by her aged husband, several grown children, who have all gone to homes of their own, a number of grand children and great-grand children. The entire community extends sympathy to the bereaved family. Funeral services were conducted Saturday by Rev. A. F. Nelson at the Black River Swedish Lutheran church and the remains were gently laid to rest in the adjoining cemetery.

Miss Cornelia Brevik returned Monday from a brief visit with her brother, A. O. Brevik, who runs a newspaper at Finlayson.

Mr. and Mrs. Erick, Adolphson of Fresno county, California, who were visiting at nearby points, arrived here Friday in answer to a message, telling of the death of the former's mother, the late Mrs. Anderson.

Rev. C. M. Grimsrud was at Halma, Kittson county, to attend a Mission meeting early in the week.

Miss Inez Patterson left Monday for Sauk Center, after having spent her ten days vacation at her parental home.

Miss Ester Pricker returned Monday from Gryglа, where she had spent a week at the home of her sister, Mrs. V. Nelson. She returns to Gryglа the latter part of this week to remain until after the Fourth of July.

Miss Gertrude Hooper returned Tuesday from a fortnight's visit with friends in the Twin Cities, after having represented the local Rebecca lodge at the Assembly at Mankato.

J. A. Grimsrud left Tuesday enroute to his home in Wisconsin, after having spent a few weeks very pleasantly at the home of his brother, Rev. C. M. Grimsrud.

Mrs. Carl Johnson and daughter, Lilly were at Thief River Falls Wednesday evening to attend the Sundum-Holt Wedding.

Hon. Halvor Steenerson was in the village Monday renewing acquaintances and doing campaign work in the interest of his candidacy for U. S. congressman.

Miss Alice Fricker went to Thief River Falls Wednesday evening to remain for a few days visiting with relatives and friends.

Miss Anna Vik left yesterday to visit friends at Twin Valley and Detroit.

G. I. Fellman attended an I. O. O. F. initiation at Thief River Falls Wednesday evening.

There is to be a picnic church festival at Oak Ridge church Sunday, July 4.

**Thief River Music Co.**

# STORES CLOSED

## Mon., July 5th

In view of the fact that July 4th falls on Sunday the stores of Thief River Falls will be closed all day Monday July 5th in order that their employees may celebrate the day.

Take notice and buy accordingly on Saturday, July 3rd.

**MERCHANTS' ASSOCIATION**

## ROSEWOOD

The confirmation exercises of this years class were held last Sunday forenoon at the Rindal church, under the lead of Rev. Geo. Larson of Thief River Falls. The church was filled to capacity with over two hundred attendants, quite a number of whom came by car from the neighboring cities and towns bringing dinner along and attending also the communion services held in the afternoon. Rev. Larson delivered a stirring sermon to the class and audience and the exercises by the confirmants gave proof of previous hard work and drilling, and was a recommendation to as well themselves as their leader. Ten pupils, four boys and six girls were confirmed.

A special meeting of the New Solum farmers club was called at the Edgewood school house last Saturday evening for the purpose of organizing a community potato growers association, to take care of the marketing and storing of this fall's potato crop.

The Rosewood Shipping Association will ship mixed stock from Rosewood again on Saturday, July 10. Those who were unfortunate in not having their orders in for the shipment last Saturday may list their stock for the next shipment.

Mr. and Mrs. Anton Remmen and family from Thief River Falls, and Mr. and Mrs. Ole Norhagen and family from Norden and Mrs. Gulseth of Viking were Sunday visitors at the Anton Gulseth home.

A few auto loads of the local people attended the test meeting south of Viking last Sunday evening.

Axel Bloon, who is employed at the Loyd Crown farm in town of Rockshire, spent Sunday at his home south of town.

The Remmlen, Berg and Nyhus families of Thief River Falls were Sunday guests at the Swen Swenson home.

Misses Olga and Esther Thoreson of Thief River Falls were in town last Sunday to attend the confirmation of their sister, Alma, and to visit briefly with their parents.

Miss Viola Axelson, who is employed at Black's Sweet Shop, at Thief River Falls, was home for a visit with her folks last Friday and Saturday.

Mrs. O. M. Hobson and daughter, Lilly, left last Wednesday for Newfolden where they will visit with friends over the fourth.

The A. Anderson, M. Petterson and M. Dalstrom families from Wylie were in town a couple of days last week to attend the mission meetings and to visit at the Axel Krow home.

The Mission meetings at the Congregational church on Wednesday and Thursday were fairly well attended at all meetings and the spirit thruout the session was the best. The speaking ministers were Revs. Segerstrom of Viking, Franz Lindholm of Tyler and Leonard Lindholm of Minneapolis.

Bankers I. M. and Albert Myrho, of Viking, were in town Friday evening on a brief business tour.

Thom Holten returned last week from Denilson, where he has been to attend the funeral of his mother.

Miss Thresia Soderberg returned home last Wednesday from Bellingham, Washington, where she has been employed at factory work the last two years and will spend a well earned vacation with her parents here.

Mrs. J. Sjolvold accompanied by one of the small Dicken boys, arrived Saturday morning from Thief River Falls and will visit with former neighbors north of town for several days.

Mrs. Petterson left Tuesday morning for Fargo, after visiting with relatives here for a week.

Steinor Johnson returned the beginning of last week from Fargo where he had been in attendance at the Norwegian Haugneulaget and to visit for a couple of weeks.

A. Osseth has purchased Steiner Johnson's forty acres of land adjoining this town on the east and it is the intention to move both Mr. Osseth's and B. Ranum's residences to this land which has a more preferable residence location than where they are now located. Mr. Johnson has purchased a lot in the eastern part of town from B. P. Sorgaard and will move his residence thereon as soon as possible.

The Norwegian Parochial school will stage an ice cream social and program at the Rindal church grounds next Sunday afternoon, July 4, for the benefit of this year's pupils as well as their relatives and friends. Everybody is invited to attend.

The A. C. Vorseth family motored to Thief River Falls Wednesday evening to attend the Sacerlaget stevne at the auditorium.

Mr. and Mrs. A. C. Vorseth and daughter, Elsie and Joel and Mary Shoberg spent Sunday evening at Viking as guests with Mrs. J. Styrlund.

Mrs. Johanne Nyhus of Thief River Falls has spent a few days in town this week to attend the Mission meetings and to visit with friends.

O. A. Flaun, of Thief River Falls returned home Friday evening, after looking after his real estate affairs here for a few days.

Mr. and Mrs. Henry Whitehead and Edna and Albin Rye of Moro, arrived here in car last Saturday for a short visit with the E. P. Johnson folks and later leave for Canada, where they anticipate making their future home.

Mr. and Mrs. W. W. Prichard arrived from Thief River Falls last Saturday to look after their farming interests north of town.

Mr. and Mrs. Oscar Blomberg and family arrived by car from Crookston last Saturday and will spend a weeks vacation at the Haugen Bros. home.

## WET WEATHER HALTS GRASSHOPPER MENACE

The menace of a hopper plague in western Minnesota has been greatly lessened, though not necessarily removed by frequent and heavy rains. This is the finding of A. G. Ruggles of University Farm, state entomologist, who has been making investigations in Minnesota, North Dakota, Manitoba and Saskatchewan. Wet weather, says Mr. Ruggles, develops fungous diseases which kill myriads of the insects. Further wet weather, he says, serves to keep the insects close to the ground where they cannot thrive as usual. Again, the rank vegetation along road sides and in untilled fields, where most of the hoppers breed, is furnishing plenty of food for the young insects, and a strong movement toward cultivated fields is not seen.

## MINNESOTA GIVES READY RESPONSE

Minneapolis, June 28.—With but two days left to mark the close of the official year for the Near East Relief, gratifying results have been accomplished thru the generosity of the people of Minnesota. At this time it is impossible to state the exact amount raised during the year as the final returns from several counties in the state have not reported to this office. Nevertheless our records show that Minnesota has acquitted herself nobly by raising $420,070.21 in cash and pledges for the suffering Armenians, for the year 1919-1920.

A National Convention of all the state directors for the Near East Relief is now in session at the New York headquarters. Before leaving for New York today, Dr. Westenberg, state director for Minnesota and North Dakota expressed his opinion of the new plan to be adopted for the coming years work. "People are tired of drives and the dollar signs, but they are still ready to respond to the cry of human needs thru different channels," said Dr. Westenberg. Every county in Minnesota will be given a definite quota of orphans to care for. Then if a county fails it will mean the are directly responsible for a certain number of deaths among these little children. In other words Minnesota's quota will be read in terms of human life instead of dollars and cents

An extensive campaign for old clothes is now being carried on in all the churches, Sunday schools, young peoples societies, womens clubs, fraternal and social organizations in the state, in an effort to alleviate the suffering in Armenia this winter. This appeal for clothing is meeting a ready response from all classes of people. Many that were unable to contribute money here-tofore are now doing their bit in giving their old clothing.

## COMING TO FAIR

The Savages, who come to the Pennington County Fair on August 4th, 5th and 6th

### Nothing Missed in Community Paper

When the average person reads a magazine he reads the stories and when he gets the daily paper he reads the headlines. But when he gets the community paper he slouches down into a comfortable position and reads every line from start to finish. After he reads it thru, he goes back over it to make sure he hasn't missed anything.—Watertown (S. D.) Herald.

Clerk of Court A. C. Swandby reports having issued marriage licenses during the past week to the following parties: Carl H. Aas to Clara H. Knutson, Charles S. Christenson to Anna Abrahamson, Axel E. Knutson to Mathilda Olson, G. Henry Dippie to Adeline Carpented, Charles W. Lundquist to Elvira A. P. Larson, James Opsahl to Selma H. Hedquist, Albert Horter to Jane Ruch and Carl M. Svena to Signe M. Swenson.—Warren Sheaf.

**MOTHER'S BREAD!**

Pound for pound the steels in a
**MAXWELL**
equal those in any car

The tendency in cars today is to reduce weight, to cut out unnecessary pounds, to take those extra burdens off the power of an engine. In a Maxwell there is hardly a superfluous pound. Like a great cross-country runner it carries no handicap in weight.

It is made of fine steels, and these steels have the combination weight and great extra strength.

These steels are made to order for Maxwell. They are treated in great furnaces and they are strong beyond belief.

Pound for pound they equal the steels in any car built.

But they more than repay for their high cost.

They wear. They stand terrific abuse they defy time.

But their greatest task is to lighten the burden of the Maxwell engine, enable it to perform brilliantly, and make gasoline delivered extended mileage.

Thus you will understand that rise of Maxwell the world over, that ever growing friendship. More than 400,000 re in use today.

## ...THE ATTAS TRIO...

Acrobatic Novelty Act that is sure to please all. Coming to the Big Pennington County Fair

## SOCIETY

### Heininger-Wiener

On Tuesday morning at 9:30 at the Catholic church occurred the marriage of Miss Tillie Wiener, of Pennington county, to Joe Heninger, of St. Paul. Miss Frances Wiener and Casper Wiener, sister and brother of the bride acted as witnesses. The bride wore a white net dress with ruffled ribbons and carried a beautiful bouquet of peonies and carnations. The bridesmaid wore a blue georgette crepe over satin and carried a bouquet of pink carnations.

Immediately after the ceremony they left for the bride's home in Smiley, where a five-course dinner was served to near relatives.

The young couple left Wednesday for St. Paul where they will make their future home.

The many friends join in wishing them all the joys of a happy wedded life.

### In Honor of Miss Sharboneau

Mrs. Henry Holt pleasantly entertained a number of friends at a parcel shower Wednesday evening, given in honor of Miss Stella Sharboneau, who will soon become a bride. The color scheme used was pink and white. The evening was spent in music and duneing after which a light lunch was served.

Miss Sharboneau was the recipient of many beautiful gifts. Those present were: Misses Annie Aaspelund, Lillian Provencher, Belle Hermanson, Louise Majeres, Myrtle Blair, Jessie Barnett, Ann Doucet and Meadames Ann Dock, Lyle Mauther, B. Bloomquist, Julien Provencher, J. Biederman and Anna Ohm.

### Hanck-Conner

On Wednesday afternoon, June 30, occurred the marriage of Miss Stella Conner, daughter of Mr. and Mrs. J. B. Conner, 720 LaBree ave. N., to Otto Hanck, of Gryglà, in the presence of the immediate relatives. The bride wore white silk crepe de chine and carried a bouquet of carnations.

Immediately after the ceremony the young couple left for Gryglà where the groom is engaged in farming. The young couple were presented with many beautiful gifts. Their many friends wish them all the joy of a happy wedded life.

The out of town guests were: Mr. and Mrs J. Hanck of Minneapolis and Mr. and Mrs. R. Hanck of Gryglà.

### Mrs. Sapero Entertains

Mrs. Abe Sapero pleasantly entertained a number of ladies at a Bridge party on Tuesday afternoon, June 29, at her home, 225 Duluth avenue north. The tables were prettily decorated with white flowers and roses. The afternoon was spent in cards after which light refreshments were served.

Mrs. T. A. Way entertained at a six o'clock dinner in honor of Mrs. Dr. H. Hieber and her mother, Mrs. Parmley of Sioux Falls, last Thursday evening.

Mr. and Mrs. Abe Sapero pleasantly entertained their employees at a six o'clock picnic dinner on Wednesday evening, June 30. The evening was very much enjoyed by all present.

# CHAS. LIEBERMAN

MINNESOTA HISTORICAL SOCIETY

# THE TRIBUNE

VOL. 20 No. 34 THIEF RIVER FALLS, MINNESOTA, TUESDAY, JULY 6, 1920 *Official Paper of Pennington County*

## FAIR BOOSTERS PREDICT LAR[illegible] ATTE[illegible]ANCE

### ATTRACTIONS GALORE SECURED AND FINE FAIR IS ASSURED ALL

As the date draws nearer for the big Pennington county fair interest grows apace in general and from all indications there is every possibility of this year's fair being one of the largest and most helpful from an educational standpoint of any fair held by the county in recent years. The industrial exhibit of the schools alone is certain to be a mighty big and interesting exhibit. Supt. Ziegler, who is in charge of this exhibit, states that he has arranged an exhibit that will do the schools of the city full justice and which will also be interesting to those who watch the growth and progress of our schools. The ladies of the county also are certain to furnish some mighty fine exhibits for this year's fair, and as these are all to be exhibited in the city auditorium, it is positive no small amount of labor is going into this exhibit alone in order to make the same full of interest and beneficial to the county generally.

Secretary Smith states that he now has the majority of the amusements all lined up and he is certain the fair this year is to present a line of attractions that will do justice to fairs many times larger. He has secured two airplane attractions that are usually given at the larger fairs, including the state fairs, and he is confident that these two attractions are going to prove well worth the time and effort spent in bringing them to this city. The flying circus, a squad of airplane daredevils, has the reputation of being a thriller that is seldom equalled and the stunts of Lieut. Lambee, who walks over the plane while in mid air, hanging by his knees and then making a parachute drop of five thousand feet while the plane is traveling at a lively clip thru the clouds, is also one of the attractions that is sure to create a great amount of interest and enthusiasm.

The above's all bear the reputation of being high class and better than the ordinary and in this connection, the fair board is to be congratulated.

Nothing but the best is considered good enough for the people of this county and the management of the fair this year have endeavored to get nothing but the very best that exists for this year's fair.

It is more than likely there will be several high class attractions signed up at the last minute, as is always the case, but in any event, regardless of whether or not anything further is signed up, this year is going to see a mighty fine fair and one that will do the old county proud. It is time for all to begin planning for the big annual event and to get behind the fair board and offer what assistance they can, and to boost the fair with all their might. It is going to be a "regular" fair, and it is to be the interest of all that the same be given a boost at every opportunity.

### To Avoid Accidents

Elsewhere in this issue of The Tribune is a warning from the city police department to all who have been in the habit of swimming near the bridge and especially those who swim under the bridge, causing the spectators on the bridge to race back and forth to watch the swimmers. Several near accidents have been caused by the boys on the bridge racing from one side to the other to see the swimmers come under the bridge and it is for this reason that the police department has taken the matter in their hands and issued this warning. Traffic across this bridge is usually heavy and it is impossible for those driving cars to tell when a lad is going to dash in front of the car, and it is the desire of the police that the practice be discontinued at once.

### To Promote Pure Bred Stock

The First National bank of Thief River Falls is doing its utmost to promote pure bred dairy stock in Pennington County by giving $50.00 in premium money as well as a banquet to the members of the dairy calf club. While attending a club meeting Mr. Hansen explained the value of such clubs and why Pennington county should have one of the strongest clubs in the state.

Much interest is displayed by the youngsters and eighteen boys and girls have already registered in the Farm Bureau office. Their calves are being cared for in the best way possible and will present a fine showing at the calf show held in the fall. Any boy or girl wishing to join should send their names to C. L. Hansen of the First National Bank of Thief River Falls or direct to the Farm Bureau Office in the city auditorium.

It pays to advertise in The Tribune.

## PREUS VISITS CITY

J. A. O. Preus, republican nominee for governor, visited Thief River Falls for a short time Saturday morning en-route for Greenbush, where he was scheduled to make a fourth of July address. The Tribune acknowledges a pleasant visit and we are very pleased to meet Mr. Preus. He is a very pleasant gentleman and one in whom the republicans of the state have made no mistake in selecting to carry the standard of the party. His visit in this city was very short, but he says he intends to come back again and get better acquainted with the people of this section.

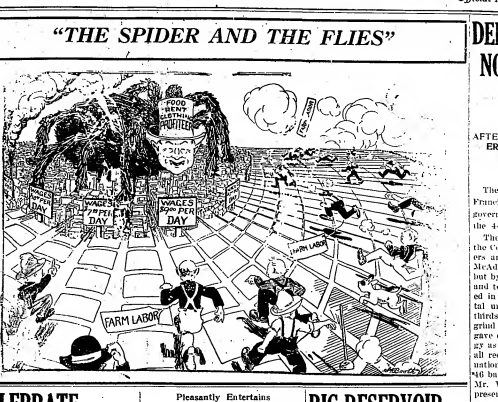
## Lose to St. Hilaire

### TRIM PARK RIVER TEAM SATURDAY AND LOSE TO ST. HILAIRE SUNDAY

The Thief River ball team has been indulging in some fast and furious games the past three days and in none of the games they have come off victorious and in others they have been beaten badly. In Saturday's game with Park River, N. D., played at Warren, they walloped the North Dakota team by a score of 8 to 16. And in view of the fact that the Park River team is an all salaried team, the credit of beating them is something to boast of and to crow about. The next day the locals journeyed down to St. Hilaire where they were taken into camp by a score of 3 to 0. No explanation or excuses are offered for this defeat. They were simply beaten by St. Hilaire and that is all there is to it. St. Hilaire simply outplayed the locals and as a result came off the winner. In the game Monday at Middle River when St. Hilaire played that town, two of our players, Brazil and Gradin, are given the credit for winning the game for Middle River. Brazil and Gradin were hired by the Middle River team to play in the game Monday, and as the game grew warmer, St. Hilaire forged ahead of their opponents and it looked for awhile as tho they were also going to trim the Middle River team. But toward the last Grudin connected with the ball and landed a single. Brazil then came to bat and knocked out a three bagger, scoring Gradin and thus winning the game for Middle River. This is a situation that is hard to comment upon without referring to the game the day before when St. Hilaire trimmed the locals, and it might be said that it possibly was thru a fluke that they managed to trim the locals, but it is a matter that is best passed over and credit given the St. Hilaire team.

## PENNEY STORES TO LOCATE IN THIS CITY SOON

### SECURE LEASE ON DOBNER-MEEHAN BLOCK—TO OPEN AUGUST FIRST



Another business institution is to be added to those now located in Thief River Falls, the new firm being the J. C. Penney stores. This company has hundreds of stores in different parts of the country and are considered high class merchants in every town in which they are located.

The store to loate here has secured a lease on the Dobner-Meehan block, corner of Second and Main, and it is their plan to get started by August first if possible. The building is to be remodeled considerably in order to make the rooms suitable and it is expected it will take some little time in order to get the rooms remodeled and it is doubtful if the new firm will get started as soon as they hope for. They have secured a lease of three years with the privilege of five, and it is the intention of the management of this branch to make this one of the very best stores.

The new firm will handle everything in ready to wear, groceries, etc. They carry a complete line of everything and are considered mighty keen competition by merchants in the cities in which they have stores. They carry a high grade line of merchandise and sell at a very close margin, and with their buying for several hundred stores, they are able to secure goods at prices which would be hard to secure otherwise.

Ladies' Home Journal now on sale at Laird's Specialty Shop.

## "THE SPIDER AND THE FLIES"

## CELEBRATE THE 4TH IN SANE MANNER

### PICNICS AND PARTIES ABOUND IN THIS LOCALITY ON "TWO DAY FOURTH"

The "glorious fourth" has come and gone and was properly celebrated in a sane and safe fashion so far as Pennington county is concerned. Thief River Falls did not celebrate the day as it is commonly celebrated by n great many towns, but it is doubtful if others had a more enjoyable and saner celebration. Picnics and neighborhood parties were the principal celebration of the two day fete and with the occasional popping of firecrackers in the hands of children, the day passed off orderly and everyone enjoyed themselves in their own way and were ready at the close to hop back into the harness and start producing.

A great many of our citizens spent the day at other towns where celebrations with all the noise and pomp possible to secure, were staged before the public with the information that there was plenty to go around and then some and for all to get a line and help. Middle River and Grygla were the only towns in this immediate vicinity that celebrated the day. Grygla celebrated Saturday and Middle River on Monday. The celebration at Grygla was a success and a great attendance on the big day with our neighbors. Then came Sunday and a rest was taken. Again on Monday the day was started out with attending the celebration at Middle River. This celebration was also a success and a large and enthusiastic crowd was on hand early in the day to assist our neighbors on theh north make the eagle scream. The day at Middle River was full of fun and fireworks and everyone had a fine time.

Many of our citizens made auto trips in different directions. A great many hiked into the country, others travelled to neighboring cities "just for the trip." Detroit was the scene of a great many visitors from this city, some driving quite a ways in the train. Fishing parties without number were also highly in fashion and many are the fish stories of the big ones caught and the larger ones which got away, that are now being repeated for the benefit of those who were not so fortunate as to be where the fish were appareutly the thickest and where they fairly jumped to get a chance at the bait of the Isaac Waltons.

The east side staged a celebration Monday evening for the benefit of the children who reside across the river. A large display of high class fireworks were placed on the opposite banks of the river and in the evening the old and young alike watched with interest while the rockets whizzed thru the air and the stars sputtered in all directions. Ice cream was also part of the entertainment for the youngsters, and by no means the smallest. It was a glorious time for the kiddies and many of the older ones again became kids and enjoyed the treat along with the youngsters.

All in all, this "fourth" was a hummer, and as proof of this we refer you to the kids of city. They know.

### Svare-Bye

Melvin Svare and Betsy Bye, of Erie, were united in marriage at the Zion Lutheran parsonage July 2nd, Rev. George Larson officiated in the presence of Glen Svare and Clara Bye.

### Pleasantly Entertains

Mrs. Scott Laird very pleasantly entertained a party of fifteen of her lady friends last Friday afternoon at a launch party taken up the river for about five miles. The launch was prettily decorated in our national colors and with flowers. During the trip a most delicious lunch was served and this unique party was very much enjoyed by the ladies.

## HARD WORK FOR ONE WEEK CAN WIN FINE PRIZE

### LAST WEEK OF FIRST PERIOD MAY DECIDE WINNER—ENDS SATURDAY NIGHT

Now is the time to do your best work in The Tribune's great $3,600 automobile campaign. Today is the time to win—during the balance of this week you must win or lose, in the greatest prize race ever conducted in northern Minnesota.

It's not a question of work in the future—it's n question of work now. Next week, subscriptions will count for but one half as much, and it will be just twice as hard to get a winning lead. By next week, contestants in their last minute efforts during the remainder of the Big vote period will have come into your territory and taken the subscriptions which should have been yours. By next week you can be so decisively beaten that there will not be any hope or chance for victory—by next week you can be so far distanced by hard working rivals that there will not be any opportunity to win a car. Absolutely—now is the time tiunt you must win!!

Go to the friends who promised you subscriptions—and get them. Go to the friends who promised to help you "when you needed it"—for you need help now. Go back to those who subscribed once, and get them to extend their subscription. In short—call in every resource, draw on every supporter, work with all your might—and keep it up until Saturday night at ten o'clock, when the First Period closes!

Make this last week count to the utmost. Give every moment of your time that you can possibly spare, to the work of getting subscriptions. Use the Farm Account Book to win for you, by securing long term subscriptions with it and thus getting larger vote totals—as they can win, if you simply go to work and put up the fight of your life for the balance of the campaign.

Make an effort to better your own work. Try to get more subscriptions and more subscription cash into the offices of The Tribune during this week than during any other. And keep trying—keep fighting—keep going without letting up or giving in to any rival.

You can't get discouraged. Every contestant is going to find it just as hard as you to get ahead, at times. Every worker has off days—days when things refuse to go right and when subscriptions will not come. But it's only the winning worker who has the stamina and the nerve-force to go ahead in spite of defeat who can hope to win.

You—keep going. And—you'll win!! Remember only that this last week of the First Period is the most important week of the whole campaign—that during this week your fate must be decided. And, remembering this—go to the work of winning with all your might—and win the Buick "Six"! You CAN win!!

"MAKE IT A HOT ONE"!

## BIG RESERVOIR PLANNED FOR LAKE DISTRICT

### IT IS CLAIMED PROPOSED LATERALS WILL RECLAIM MUCH LOW LAND

Members of the Red Lake Drainage and Conservancy district board, accompanied by Drainage Engineer George W. Walker, Thief River Falls, are making a trip up the Clearwater and Red Lake Rivers, where extensive drainage improvements are contemplated.

The trip is being made with autos up to Red Lake, where the outlet into Red River will be viewed. Petitions have been approved by the drainage board for deepening, widening and straightening both Red Lake and Clearwater Rivers. Upon the issuance of an order by Judge Andreas Grindeland of the District court for preliminary funds for expenses, the work of making a survey will proceed.

A great deal of interest is being taken in the work because hundreds of thousands of acres of land needing better drainage will be greatly benefited when the proposed improvements are completed.

The plan contemplated provides for Red Lake being made into a huge reservoir to store the surplus water during flood periods until the rivers are able to carry it off. Added water power will result from this plan.

The members of the board making the trip of inspection are C. G. Selvig, Crookston, president; Andrew Johnson, Gonvick; Axel Nelson, Holt; William Kashewitz, Grygla; Ed Anbol, St. Hilaire, and the attorney for the board, C. E. Boughton of Red Lake Falls. It is expected that three days will be consumed in going over the territory to be drained.

### Married.

On July 3, Albert Brekke and Selma Nordin, of Fosston, were united in marriage at the Presbyterian manse, Rev. R. L. Ramskman officiating. They were accompanied by the bride's brother and her friend, Miss Johnson. The bride was beautifully attired in white satin and full bridal veil and carried a luxurious bouquet of roses. The young people go to Kelliher to make their new home. Their many friends and acquaintances wish them bon voyage.

### On Road to Health

A letter from Arthur Alnes to friends in the city and dated at Thomas hospital, Minneapolis, announces his gaining in general condition and expecting to get away soon to a southern location. This will be good and welcome news to the very large number of friends of Mr. Alnes in this city. Arthur Alnes is one of the brightest and best boys of Thief River Falls. He attended the public schools here, and made an enviable record in all departments. Had all friends among his teachers and associates. He went to France with the A. E. F. and came home with a highly honorable record. We are certainly glad to know that this fine soldier boy is on the road to complete recovery and health.

### Motor to Detroit

Mr. and Mrs. Nels Christianson motored to Detroit Saturday afternoon in their new Buick. Supt. Barnard's car was on the siding and a grand dianer awaited the arrival of the motorists. A fine day was enjoyed at the lakes on the Fourth, Mr. and Mrs. Christianson returning Monday.

## DEMOCRATS NOMINATE GOV. COX OF OHIO

### AFTER LONG SESSION OHIO GOVERNOR NOMINATED ON 44th BALLOT

The democratic convention at San Francisco is over and James M. Cox, governor of Ohio, was nominated on the 44th ballot at noon yesterday.

The race was principally between the Cox forces and the McAdoo backers and it looked for awhile as tho McAdoo would win the nomination, but by hanging on and fighting tooth and toe nail, the Cox forces succeeded in wearing down the McAdoo total until they won the final two thirds and the nomination. The long grind at the San Francisco convention gave every promise of being as dragy as the Baltimore convention when all records were broken in the nomination of President Wilson. It took 46 ballots at that convention to place Mr. Wilson in nomination and the present convention ran a mighty close second. The results of the balloting from the 34th ballot to the 43rd are given as below:

**Thirty-fourth Ballot**

McAdoo, 420½; Cox, 379½; Palmer, 184; Davis, 54; Owens, 37; Clark, 24½.

**Thirty-fifth Ballot**

McAdoo, 409; Cox, 376½; Palmer, 222; Davis, 59; Owens, 38½; Clark, 25.

**Thirty-sixth Ballot**

McAdoo, 390; Cox, 377; Palmer, 241; Davis, 58; Owens, 26; Clark, 2.

**Thirty-seventh Ballot**

McAdoo, 405; Cox, 386; Palmer, 202½; Davis, 50½; Owens, 33.

**Thirty-eighth Ballot**

McAdoo, 405; Cox, 385½; Palmer, 211; Davis, 50; Owens, 30; Clark, 3.

**Thirty-Ninth Ballot**

McAdoo, 440; Cox, 368½; Palmer, 74; Davis, 74½.

**Fortieth Ballot**

McAdoo, 467; Cox, 430; Palmer, 10; Davis, 76.

**Forty-first Ballot**

McAdoo, 467; Cox, 497½; Palmer, 12; Davis, 55½.

**Forty-second Ballot**

McAdoo, 477; Cox, 510½; Palmer, 8; Davis, 49½.

**Forty-third Ballot**

McAdoo, 489; Cox, 570; Palmer, 7; Davis, 37½.

### Non Partisans to Meet

The Nonpartisan league has called a meeting of its political workers Wednesday in Minneapolis to decide whether to place a ticket in the field for the November general election.

Before the primaries the farmer-labor party, backed by the league, nominated a ticket for the state offices, but as there were no contests the names of the candidates did not go on the primary ballot.

League officials in a call sent out to all league workers, asked for a conference to decide whether a new ticket shall be filed by petition and then give candidates to the head, for every office in which the league now has no candidate.

### Ladies Aid to Meet

The Ladies Aid of the Trinity Lutheran church will meet in the church basement Thursday afternoon at 3 o'clock, entertained by Mrs. H. S. Dahlen, Mrs. Lars Larson, Mrs. Chas. Shirley and Mrs. Targe Brekke.

When in need of Job Printing home The Tribune.—No 33.

## WOMEN OF PENNINGTON COUNTY, ATTENTION

It is especially urged that all women of Pennington county arrange to bring in as many exhibits for the fair this year as possible in view of the fact that the Auditorium has been secured for the display of all exhibits. It is certain that no damage will befall any article left on exhibit. The old building formerly used on the fair grounds for these exhibits will not be used this year, and as building costs are prohibitive, it is impossible to build this year, and the Auditorium has been secured for this exhibit. Every article left on exhibition will be well taken care of. No danger from rain or dust will be possible and the ladies are especially urged to bring in their exhibits. This includes everything in the line of fancy work and art exhibits.

# .....Automobile Campaign News.....

"LABOR WINS ALL."---Tacitus

This column conducted by Automobile Campaign Department, The Tribune.

## A LITTLE ADVICE

The best preliminary arguments to selling are these: That you have a good thing, and that it has been advantageous to others to purchase it. You thus bring out the good points of the article for sale, without any loss of time.—Shaw.

The only road to advancement is to do your work so well that you are always ahead of your competitors.—Hamilton D. Mabie.

If thou dost love life, then do not squander time, for that is the thing that life is made of. —Benjamin Franklin.

Be Somebody in the Crowd —Make Yourself Count!!— Collins.

If you work for a thing—in heaven's name work for it!! I believe that you cannot achieve your ambition by frorking for it part of the time, or half-heartedly—you must work all the time with all your might and keep it up all the time until you have achieved your end.—Elbert Hubbard.

He who knows that his power and his strength are in is mind, and who will then seek to develop them and use them as a weapon for achievement—to him comes all of the best of life.—Theron.

Nothing is impossible to industry.—Periander of Corinth.

## LUCK---AND WORK

Is a "lucky man" really lucky?

It is the habit of the average person, seeing someone who has worked beside him and hence for whose ability he has little respect, climbing toward the top, to call him "lucky" —to say that the office has gotten the best of the thing in Fate's awarding of prizes.

And the person who is lucky is usually well aware of the fact that it's NOT luck—but plain, hard, grinding work and constant effort, which has put him at the top.

YOU CAN'T GET AHEAD IN THE WORLD IF YOU SIMPLY WAIT FOR FORTUNE TO COME ALONG AND TAP YOU ON THE SHOULDER —AND RESOLVE TO WORK YOURSELF. The only man who can win is the worker—and he must be a REAL worker—one whose labor consists not only in the appearance but in the actuality of endeavor.

YOU'VE GOT TO WORK AND WORK HARD IF YOU WANT TO GAIN YOUR GOAL!!

Never in this life can you get something for nothing—and only in a very few instances can you get anything for very little. THE TRIBUNE'S GREAT $3,000 AUTOMOBILE CAMPAIGN PRESENTS ONE SUCH INSTANCE.

Some worker is going to win a car worth $1,700.00 for six weeks of work—for four weeks, really, now that the end of the campaign is so near. This person will have devoted about two hours a day or more on week days to the work of soliciting subscriptions to The Tribune and will be equivalent to a reward of seventy-five dollars a day for these days of work.

THAT PERSON CAN BE YOU!

No one has yet piled up sufficient votes to win this car, or any other of the prizes offered—prizes ranging from a Buick "Six," worth $1,700, to cash prizes of $25.00 each. YOU CAN TAKE YOUR PICK OF ANY ONE OF THE PRIZES OFFERED— AND WIN IT!!

All you need to do is to start hard work for subscriptions without delay. All you need to do in order to win the Buick "Six" is to begin to work hard and long for subscriptions—at once. Advertising, publicity of all sorts, supplies and helpful information, and so on, will be given you gladly by the management of the automobile campaign department. YOU WILL BE GIVEN EVERY FAIR ASSISTANCE TO HELP YOU WIN A CAR.

IN SHORT—THE TRIBUNE WILL HELP YOU IN EVERY POSSIBLE WAY—WITH ABSOLUTELY NO OBLIGATIONS TO YOU.

Start hard work today—and win a car on July 31st.

THIS IS YOUR GREATEST OPPORTUNITY. YOU DARE NOT SACRIFICE IT!! GET STARTED TO WORKING HARD TODAY—AND COME OUT ON JULY 31st WINNER OF THE BUICK "SIX."

"MAKE IT A HOT ONE!"

## YOUR OPPORTUNITY

How much money are you making? Very probably, there are times when you average more than others —especially if you are a farmer or a merchant.

At any rate—you're not making as much money as you would like—that's certain—for as much money as you CAN make, if you take advantage of the great opportunity now presented to you.

The Tribune is willing to pay to you, or to any other wide-awake person living in the trade territory of Thief River Falls, a reward equivalent to seventy-five dollars a day— FOR SPARE TIME WORK AT AN EASY OCCUPATION.

Figure it out for yourself: The First Prize offered in The Tribune's great $3,000 automobile campaign is a Buick "Six" touring car, costing $1,790.00. The Tribune is also giving to workers a list of prizes ranging from an Overland "Four", as second grand prize, down to a prize of $25.00 in gold. The first prize the Buick "Six," can be yours if you win in The Tribune's great campaign —AND THERE'S NOTHING IN THE WORLD TO KEEP YOU FROM WINNING!! You can win this Buick "Six," worth $1,790—or the equivalent of $75.00 a day, more money than any subscription solicitor ever made in his life in one day—AND MORE MONEY IN ALL PROBABILITY THAN YOU YOURSELF ARE MAKING JUST NOW. All you have to do is to do your best work during this week—the last week of the First, or "Big Vote" Period of The Tribune's great prize campaign. All you need to do is to go in heart and soul—to work with all your might ALL THE TIME FOR SUBSCRIPTIONS—and keep it up until you know that you have a winning vote reserve.

YOU CAN DO IT—YOU CAN WIN THE BUICK "SIX"—YOU CAN EARN EIGHTEEN HUNDRED DOLLARS IN FOUR WEEKS—IF YOU START HARD WORK AT ONCE.

GET YOUR SUBSCRIPTIONS IN TODAY!!

START YOUR RACE FOR VOTES WITHOUT DELAY!!

## DON'T BE TO CONFIDENT

Let us suppose that you have, all then the progress of The Tribune's great $3,000 automobile campaign, done good work for subscriptions. By that is meant that you have worked hard, for votes to get a lead which will win a car—that you have applied yourself closely to the work of getting into the lead in the great prize race.

Now, you come almost to the end of the First Period, with a strong vote total. Very probably, your work has been of such uniform success as to convince you that you have won—that you are in the lead. You may even come to believe that YOU'RE BOUND TO WIN.

DON'T DO IT!!

In this great prize race, you can't be sure at any time that you are the leader in the race. The standing in The Tribune gives you but little information and you can secure information from no other source. For all you know, your next rival may have three times as many votes as you. For all you know, you may be far in the rear, rather than far in the lead.

DON'T BE TOO CONFIDENT!!

Believe that you are going to win —yes. But believe that you HAVE WON—NO!!! Victory isn't going to come as the result of three or four or five weeks of good work for subscriptions—it will come after weeks and months of hard and earnest application.

YOU CAN'T BE TOO SURE OF VICTORY!! No matter if you ARE in the lead right now—you don't know that you will hold that same position tomorrow or next week. And no matter if you ARE far behind today—you can, by doing your HARDEST AND MOST EFFICIENT WORK FOR THE NEXT FOUR WEEKS—leap into the lead.

THE THING TO DO IS TO DO YOUR BEST WORK ALL THE TIME RIGHT UP TO THE END—WITHOUT LAGGING AND WITHOUT CEASING. The only way to win is for you to put in every possible minute IN HARD DETERMINED WORK for subscriptions. And you've got to KEEP IT UP ALL THE TIME.

DON'T BE TOO CONFIDENT OF SUCCESS—OR TO AFRAID OF FAILURE. THERE'S NO DOUBT BUT THAT YOU CAN WIN at YOU DO WINNING WORK—BUT YOU MUST WORK CONSTANTLY AND CONSCIENTIOUSLY TO DO SO. DON'T SLOW UP—DON'T LAG BEHIND BECAUSE OF OVER CONFIDENCE OR DESPONDENCY—JUST KEEP WORKING AND FIGHTING ALL THE TIME FOR THE VOTES THAT WILL WIN A CAR.

KEEP UP THE GOOD FIGHT— AND WIN!!

## FINAL INSTRUCTIONS

In order to take advautage of the big votes offered on subscriptions turned in during this perid—GET YOUR SUBSCRIPTIONS IN AS EARLY AS POSSIBLE. First Period votes will be allowed on all subscriptions orders which are brought into the offices of the Automobile Campaign Department, at The Tribune building, before TEN O'CLOCK SATURDAY NIGHT, JULY 10th. The doors will be closed promptly at ten o'clock, no subscriptions to count votes can be turned in to count FIRST PERIOD VOTES after that hour. Subscription orders may be left at the offices of the Automobile Campaign Department, The Tribune, and will count FIRST PERIOD VOTES if MARKED BEFORE TEN O'CLOCK SATURDAY NIGHT, JULY 10th. In case, therefore, that you are not able to come into the offices in person, you may MAIL your order, taking especial care to see that your local postmaster postmarks it BEFORE TEN O'CLOCK PROMPTLY. However, it is urged that you come in if possible, for a conference with the manager about your Second Period votes, and to get fresh supplies for the hard work that is to come. AND—GET YOUR ORDERS IN AT ONCE.

## NO SPECIAL OFEERS

THERE WILL BE NO SPECIAL OFFERS OF ANY KIND IN THE TRIBUNE'S GREAT AUTOMOBILE CAMPAIGN. At no time will additional votes, or special cash prizes, or special offers of any kind, be made. And at no time will the original vote scale or the original prize list be deviated from or changed or altered in any way. THE PRIZE LIST AND THE VOTE SCALE ANNOUNCED AT THE OPENING OF THE CAMPAIGN ARE TO CONTINUE IN EFFECT.

Therefore—it's mighty poor business for any contestant to hold back subscriptions, counting on another special vote offer or a special prize offer. It means merely a big loss in votes and a corresponding loss in power to win a car, to so delay your work and your remittances. And it means almost inevitable defeat for you to fail to get your biggest orders in before the end of the First or "Big Vote" Period, Saturday night at ten o'clock.

GET YOUR ORDERS IN AT ONCE —AND MAKE THEM AS BIG AS YOU CAN, ONLY BY SO DOING CAN YOU HOPE TO WIN. ONLY BY WORKING HARD AND LONG FOR SUBSCRIPTIONS CAN YOU HOPE TO ACQUIRE THE VOTE RESERVE THAT WILL WIN.

DO YOUR BEST WORK NOW— AND WIN A FINE CAR JULY 31.

## Mr. B. Busy Says

You'll never catch up with tomorrow. The fellow that waits for tomorrow to do his whining work usually finds it mighty hard to live today.

You can't hope to win when your work consists of hoping. Get out and put some life and some pep and some push into your work—get out and show the ones you're fighting that there is in you a stronger will and a stronger power and a greater ability —and you will achieve your goal.

You've got to believe in your product, if you want others to believe in it. Convince yourself—and then go about the work of convincing others.

## WHERE THERE'S A WILL

(Note: This true story of a young man's great success, unaided by riches or influence, in a campaign exactly similar to that now being conducted by The Tribune, and written by that young man several years ago, will appear in installments in this column during the progress of the Tribune's great $3,600 campaign. READ IT—DON'T MISS IT—IT HAS MUCH IN IT FOR YOU.)

(By Robert Douglas)

### Chapter Nine

The next morning I started out at nine o'clock to drive over into the bottoms section—a section which I had not yet touched to any great extent. It's the locality in which some of the best land in the middle west is located—as well as some of the worst.

The first stop I made was at a little farm, just below Grassy Hill. An old woman, bent and shriveled, but smiling a most wonderful smile from beneath wind-blown grey hair, met me at the door. She talked a moment and invited me in very courteously. She was very nice—told me all about the crops and the illness of her step daughter's pet dog and so on—and ended up by giving me a subscription for a year.

The next house I ran into something I'd not so far found. A woman met me at the door, looked me up and down in quite the same fashion as that of a grand dame of London meeting a plebian from "the states" —utter contempt and not a little distaste.

"Well—whaddya want? Whaddya sellin'—soap or magazines? Y'ain't collectin' air yuh?"

"No, madam, I'm not collecting. I just came out here to see if you wouldn't care to subscribe for The World, for about two years."

"Well—I don't know about that. Whaddya git outa it—ef'n I do subscribe fere yer paper? It ain't no sort of contest, is it?"

"Well—not exactly." I told her. "You see, The World is going to give away three cars and some other prizes to the people that take subscriptions over a term of eight weeks. The fellow that turns in the most subscriptions gets the biggest car—and that's the one I'm working for."

She began to smile, and I thought I had cinched the sale—for to have a prospect smile is equivalent to a promise of case in selling.

But my hopes were dashed when she burst into a raucous laugh—throwing her head far back and venting shrill peal after peal of laughter.

Yuh—yuh—say, yuh poor innercent child, do yuh really think yuh'll ever git anythin' out of thet? Why —say, listen—don't yuh know them contests is all crooked? They ain't goin' t' give yuh nothin,' an' yuh air plumb foolish ef'n yuh work for em!"

"I'm afraid you don't understand me, madam," I countered, half angry, but also a trifle amused. Do you think for a minute that any paper as big as The World could afford to put over a graft like that? In the first place, they'd never be able to get away with it—and besides that, what would be the gain in it. A newspaper don't live on subscriptions —it lives on the advertising which those subscriptions bring—and the only way they can get advertising is

(Continued on Page 3)

## CO-OPERATION

BEHIND the average financial success will be found the close co-operation of a loyal, helpful bank.

THE officers of this bank are particularly proud of its record in that respect.

CITIZENS STATE BANK

Have The Tribune come to your home

There's always room at the top

for Highest Possible Quality at Lowest Possible Price

Well bred and a good looker

That's Spur. The kindest, gentlest, most-likable cigarette that ever was bred from the world's best.

Blended in a new way that brings out that good tobacco taste. Crimped, too—not pasted —making a slower-burning, easier-drawing cigarette.

Everybody wants to move behind a winner. Spur cigarettes at 20 cents for 20—colors brown and silver—are leaving the field behind.

Smoke a Spur. Say it yourself: "Spurs win."

Spur Cigarettes

# Where There's A Will

Continued from Page 2.

to have the good will and approval of every reader. You dont suppose they would have any desire to cut their own throats—and that is what it would be! Perhaps you know more about it than I do—but I don't like to have the company I work for called crooks—and I'll not stand for it! If you want to subscribe some time later—do so. But I've no more time to waste, hearing my company and my work made fun of. Good day!" and I jammed on my hat and started down toward the gate, where the roan mare pawed impatiently.

"Say, young feller—come back here! Yuh ain't got no call gettin' sore like that. I just wanted t' tease yuh a little. Tell yuh what yuh do—wait a minute while I go an' get some money. I'll be right out agin—don't yuh go away!" and she sped into the house after the money for a subscription.

I was dazed for a moment—dazed but happy. It hadn't been altogether a fake for me—I really was pretty sore, for a minute, but now that my little fit of passion had brought such good results—well, I WAS GLAD I HAD FOUND AN EXCUSE TO BECOME ANGRY ABOUT SOMETHING!

In a moment she was back, to press a couple of bills into my hand. "Gimme a receet for two years" she said. "Yuh cain't go back t' town an' tell 'em I hain't got no manners, now—can yuh?"

I was too happy just then to remember my anger, so I assured her very meekly that I wouldn't even think of such a thing—and wrote a receipt which she grasped in a none-too-clean hand, preparatory to returning to her work.

"Well—well—say, young feller—wish yuh back—lots of it!" and she swung back into the house.

And the roan mare and I went merrily down the sandy road toward the old Missouri—she certain of a good feed ahead—I feeling already the wheel of a huge and gloriously luxurious car between my hands.

(To Be Continued Friday)

REMEMBER—ONLY FIVE DAYS ARE LEFT OF THE FIRST OR "BIG VOTE" PERIOD OF THE TRIBUNE'S GREAT $3,600 AUTOMOBILE CAMPAIGN. THE PERSON DOING THE BEST WORK DURING THE REMAINDER OF THE WEEK WILL PROBABLY WIN THE BUICK "SIX." MAKE THAT PERSON YOURSELF—BY DOING YOUR BEST WORK TODAY!! GET IN EVERY SUBSCRIPTION POSSIBLE BEFORE SATURDAY NIGHT!! "MAKE IT A HOT ONE"!!—AND WIN!!!!

## SERVICE MAN KNOCKS OUT DEFENDER OF MRS O'HARE

Wheaton.—While Sergeant Odenborg, a student at the University of Minnesota and with his two brothers among the first to enlist from Wheaton at the outbreak of the war, was condemning the release of Mrs. Kate Richards O'Hare, in talking with a group of friends of the street, a young man named Trotzke, said the O'Hare woman was right. When the fuss was over, Trotzke was taken to a doctor's office for repairs.

## First Picture of Democrats Nominating Their Candidates

This first picture of the Democratic convention at San Francisco shows the vast concourse of 10,000 delegates and spectators in the new million-dollar Auditorium. Senator Robinson of Arkansas, permanent chairman, can be seen on the platform, immediately under the giant electric amplifier, which carries the speaker's voice to every corner of the big hall. In the foreground are members of the press, newspapermen from all over the world. The various state delegations are on the ground floor under state banners.

## Local News

Miss Anna Dobson, of Hazel, left for Cobb, Wisconsin, where she will visit for an indefinite time with friends and relatives.

Mrs. G. L. Stoemerson and daughter, Ida, who have been visiting at Renstad and Minneapolis, returned home Thursday evening.

Mrs. R. A. Preston returned to her home at Plummer on Thursday after shopping here between trains.

Mrs. C. Knutson, of Russel, passed thru here Thursday enroute to Glenwood where she will visit friends and relatives for an indefinite time.

Mrs. L. M. Halverson of Plummer shopped here Thursday between trains.

Carl Gustafson, of Viking, arrived here Thursday where he will be employed.

Mrs. Ed. Larson, of Hazel, returned home Thursday after visiting with friends and relatives in this city for the past week.

Charles Dostal, who has been employed at Hibbing, returned home to visit here for a few days.

Lenly Dobson returned home to Hazel last Thursday after visiting here for a few days.

Mrs. F. O. Bogg and children left for South Haven last Thursday where they will visit for a few days with friends and relatives.

**Bees' Antiseptic.**

Bees suck up the nectar, which does not pass into their stomach but into an expansion of the oesophagus. There it undergoes a partial chemical transformation, under the influence of a substance called invertase, which acts as a ferment. When the bee disgorges the honey into the wax cells it discharges a little invertase at the same time, and before closing the cell a tiny drop of venom from the bee's sting is added, this to prevent fermentation. "Thus," says Bounier, "the bees invented antiseptics before Pasteur or Lister!" It is this drop of poison that preserves the honey for years.

**Gold Horseshoes**

**Expense is not efficiency. Don't pay for gold horseshoes when you buy your printing. Sensible printing on sensible paper—Hammermill Bond—will save you money and get results for you.**

**That is the kind of work we do and the kind of paper we use.**

**Use More Printed Salesmanship. Ask us.**

Mrs. M. Baldwin and children, of Rollet, N. D., passed thru here enroute to points in southern Minnesota, to visit for some time with relatives and friends.

Mrs. R. Bartley, of Minneapolis, arrived the first of the week to visit with her daughter, Mr. H. D. Keenes, for several weeks.

Arthur Lemerson left for Alvarado last Friday morning where he will be employed.

Mrs. R. Paulson and daughter, Norine, left for Fairdale for an extended visit.

John Williams went to Warren Friday to attend to matters of business.

Miss Edna Miller left last Thursday for Crookston where she will visit her grandmother for a few days.

Mrs. Carl E. Johnson and son, Gardian, of this city, left Wednesday evening for Winnipeg, Canada, to visit with the former's parents.

Richard Lund returned to this city Wednesday, after spending the past two months visiting at different points in Canada.

Charles and Louis Stein of Goodridge visited with friends in this city Thursday.

Mrs. Pat Drool left for Grand Forks Thursday to visit for an indefinite time.

Misses Emma Ptacek and Lena Horton, of Mavie, visited with the latter's brother, Willie Horton, who is a patient at the Physicians hospital this week.

Miss Lulu Allen and sister, of St. Hilaire arrived here Thursday morning and shopped between trains.

Mrs. Fred Flody and sister, Miss Bertha, arrived here Thursday morning to be guests at the Andrew Hansen home for a few days.

Mrs. Henry Evenson left for her home at Warroad, after visiting with friends and relatives in this city for the past week.

Mrs. S. Funk and children left for Badger Thursday morning to visit with friends for a few days.

Miss Esther Miller left for Middle River where she will be the guest of her sister, for a couple of weeks.

Harry Ahlberg left for his home at Strathcona, after visiting here for a few days.

Miss Esther Bennet arrived from Vergas Wednesday, where she has been visiting with friends and relatives since last Friday.

Misses Lena Evenson, Theone Walker, Louise Majerus, Gladys Anderson and Anna Brodke left last Wednesday for Detroit, where they will spend a couple of weeks camping at the lake.

Miss Olga Gieffie of Greenbush left Thursday for Superior, where she will visit friends for a couple of weeks.

Mrs. Allan Sund left for her home near Argyle, after visiting with friends in this city.

Mrs. Robert Anderson and son left for Roseau Thursday where they will attend the fair.

Miss Ella Peterson, who has been visiting with her sister, at Nelsvale, returned home Thursday.

Mrs. Ivor Monroe left for her home at Branson Thursday morning after visiting here for the past two weeks.

Misses Alodie and Alice Pinkson returned Wednesday evening from Warren, where the former received medical treatment.

Miss Shirley Desjardin left for Alvarado Thursday, where she will be employed for an indefinite time.

Miss Nora Rylin left for her home at Alvarado after visiting here with friends and relatives for a few days.

Joseph Messby left for his home at Fairdale after visiting with friends and relatives here for the past two weeks.

Mr. and Mrs. J. L. Bean left last Wednesday morning for Wisconsin where they will visit friends and relatives for about two weeks.

**He's as Good as Dead**

Lexington Herald: Now that Mexico's new president has been sworn in it's up to the family to get ahead with the funeral arrangements.

**Faults Common To All**

On the whole we make the most of faults, Faults? The greatest of faults I should say, is to have none.

When you advertise you go half way. There's a meeting place for the seller and the buyer of real estate. This meeting place is in the classified advertising columns of this paper. The owner is represented by his advertisement. The prospective buyer turns to these columns—and if the ad enlists his interest the transaction is under way.

Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

ORGANIZATION OF IGNORANCE

Chicago Tribune: "No intellectual man above the class of the laborer in intelligence, is given an opportunity to go to the polls" in Russia, says John Clayton, "unless he is a member of the communist party."

By killing off a large proportion of those who did not agree with them, by starving, terrorizing and depriving others of their right to speak, write, or vote in opposition, the bolshevik leaders have maintained their government, with the help, latterly, of ill-advised external pressure which forced all patriotic Russians to unite against invasion and dismemberment.

The basic tactic of bolshevism is the organization of ignorance. That part of the Russian people who have least knowledge and least mental capacity are organized by the Lenine-Trotsky group by appealing to their simple desires, to their fear and suspicions, to their class feeling. They were promised peace, land and bread. That was easy to understand. Then followed the slaughter of opponents of the bolshevik leaders, suppression, regimentation of labor, iron discipline. The ignorant masses could not deal with their leaders. Counter leaders were destroyed. Discussion was abolished. A red guard of zealots enforced obedience. Foreign invasion excused military organization.

All this time the bolshevik leaders assert and doubtless believe is on behalf of the Russian people and of human progress. They hold to the Marxian doctrine that the manual worker produces all wealth. Therefore they justify the abolition of the bourgeoisie and of the intellectuals, except those who subscribe to their ideas.

This is the threat of bolshevism to civilization and human progress. Neither was created nor maintained by the manual worker, but by the brain of the thinker. If we had nothing but manual work we should all be living in caves and reed huts. It is invention, not the movement of the hands in labor that creates wealth on the modern scale. It is invention, organization, and capital which makes possible the comforts of modern life of which labor is demanding and receiving a larger and larger share. If labor as in Russia, destroyed the inventor, the organizer, the right to private property and individual liberty, which are men's incentive to labor, it would destroy the very advantages it is seeking.

Bolshevism is a denial of the facts of human progress. By trying to destroy the thinkers and the directors it is turning men back to the stage from which they have worked their way thru ages of thought. No such destroying philosophy has even risen among men. The human race must work forward by the control of the brain over the hands, not by the enslavement of the brain by the hands.

Hon. William Howard Taft in Minneapolis Tribune.

The League is Socialist, unpatriotic, anti-American, despotic, dishonest in its methods and lives only because of the totally blind prejudice and ignorance of the great body of its supporters. It may be successful today but it contains the seeds of its own destruction. The sooner the victory over it the less injury it can do.

May the I. V. A. win today.

We can understand now why the Times was such a roaring Taft adherent when we were sending delegates and an occasional alternate to the Chicago convention.

The democrats in convention at San Francisco treated the liquor question with contempt. They were divided in sentiment, therefore on this great public question they said nothing.

W. J. Bryan received all applause and no support at the convention. His numerous platform amendments on the great public questions of the day were presented with eloquence, received with applause and put thru the blower and into the discard with alacrity and dispatch.

Mr. Bryan yielded ten minutes time "to that snappy little Welsh woman" Mrs. Peter Olson and she proceeded to lambast the Nonpartisan league for the defeat of Volstead. Mrs. Olson brought Minnesota conspicuously to the front on many occasions.

None of the Minnesota delegates or alternates gained fame for the state by a position high up in the freak columns of the daily press. That's a gain.

The steam roller is an ossified, antiquated and obsolete piece of crude and forgotten machinery, compared with the new electric air cooled at San Francisco, as demonstrated at the convention. It was noiseless, but not wireless. In fact it was connected to wires from Washington. Even so it was a one man machine, and it rolled, pressed, cleaned and laid 'em away.

It took the democrats nine days and forty-four ballots to do it. No wonder they felt a yearning for a liquor man.

With the nomination of Cox by the democrats we are wondering how the temperance advocates and new order women on the pay roll of the democratic party will enjoy their place as attorneys for the defense.

THE PART TIME JOB

These are the days of the part-time worker. There never has been a period in the history of the country when there were so many openings for people of this class. City industries of all sorts are advertising for men and women who can give a few hours a week or a day. Farmers and their wives would gladly avail themselves of such assistance.

For the woman who wishes to make a little extra money there are many openings and in arranging her own work to provide the hours of freedom necessary for the part time task she will acquire new efficiency in the administration of her household.

The man whose regular work does not fill all his time, or who wishes to add to his income will find farm work, either for the entire summer or for a part of each week, crying out to be done. He will find railroads panting for men to help out Industries with hooks to be set in order and garden and lawn work without end. And in the outside hourly job he may find the thing which he has been seeking all thru his business career, the thing for which he is best fitted and in which he will attain success.

The lazy or snobbish will find little solution for their difficulties in the present situation, but the industrious person who sees the job as a means to an end, has today the chance of his life.

NO PANIC IMPENDS

Pessimists who croak prophecies of a "panic" or serious slump in business may do well to consider the steel industry, accepted as the barometer of business conditions generally. The United States Steel Corporation reports that it has on its books at the present time about 20,000,000 tons of unfilled orders. That is the largest volume of orders the Steel Trust ever had at one time except in July, 1917, when it was overwhelmed with war orders. The total is mounting up right along: it increased nearly 600,000 tons last month. If not one new order were received, the Steel Trust would be kept busy for a year or more filling these orders. The independent steel companies are said to be in a similar situation.

A market that is ordering steel in vast and increasing quantities is not a panic market, not a depressed market. The depression is so often mentioned that it seems to be a superficial fear not based on solid facts. The nation wants steel, the basic commodity, and wants other commodities of all kinds, in bigger quantities than ever before, and will take years to get "fed up" with them. There is no overproduction, and none in prospect—nothing but over consumption, until that still distant time when the waste of war shall have been fully made up.

Business has been handicapped lately by transportation difficulties, and in some lines by excessive prices. Improvement is being made. As the freight blockades are cleared, production will speed on, and with increased production will come a still greater volume of new orders. The market may say temporarily, in this or that trade section, merely as a protest against exorbitant prices and profits. The general, all-round national market does not say, and will not, if manufacturers and dealers play fair with the public.

**Zion Lutheran Church.**

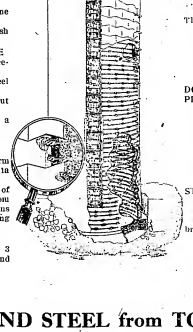
# Keystone Silos

(Patented)

**Keystone Silos Stand Winter's Supreme Test**

BETTER YOUR FARM---SAVE YOUR WASTE---BUILD A SILO THIS YEAR



**FILLING HOLE**
Large size—galvanized frame—hinged. Place where wanted. Heavy ribbed wire glass cover, admits light. No broken glass can fall into feed.

**MORTARLESS JOINTS**
No mortar joints in a Keystone silo.
Joints are sealed with cement wash after wall is built.

**THREE WALLS IN A KEYSTONE**
Outside Skin—waterproofed cement wash.
Concrete Block—containing steel reinforcing.
Inside Skin—waterproof cement wash.
This makes a dry wall and a warm wall because it's dry.

**THREE INCHES THICK**
Thick enough for strength.
Thin enough that wall will warm quickly when the sun shines in cold weather.
Bottom of pit level with top of foundation leaves silo wall from bottom to top without projections to interfere with silage settling uniformly.

**3 to 1 CONCRETE**
Keystone Blocks are made of 3 parts of clean sand and gravel and 1 part Portland cement.
Always factory made and cured.

**HOOP STRENGTH—REINFORCING**
3-8 in. steel rods, bedded in concrete, circle this silo from bottom to top.
These hoops are seven inches apart.
Proper hoops strength means a successful silo.

**THE STEEL RAFTERS**
One each two feet carry the weight of this concrete roof and reinforce it.
Fire—Wind—Rattle Proof—Permanent. Keeps out cold—retains natural silage heat.

**DOOR SYSTEM**
**PRIDE OF THE KEYSTONE SILO**
Each door a unit. Hinge and ladder combined.
Locks open automatically.
Refrigerator type seal. 2-ply Redwood doors—tongue insulated.
Redwood resists fire and rot.
Single simple lock. Impossible to accidentally lock yourself in.

**STEEL RODS PROTECTED**
All reinforcing is buried in concrete.
A Keystone silo is built like "Skyscrapers" and large concrete bridges.
Hoop steel reinforcing of steel rod bolted securely to the heavy cast iron door frame.
Four hoops fasten to each door frame solidly.
Strength where strength should be.

**CONCRETE AND STEEL from TOP to BOTTOM**

**We Build Them Complete on Your Farm**

BUILT TO SAVE THE CROP THAT NEVER FAILS

# $3,600.00

# AUTOMOBILE CAMPAIGN AT CRITICAL STAGE

## Big Vote Period Will End Saturday at 10 P. M.

### INSTRUCTIONS---IMPORTANT

The first period of the vote scale in the $3,600 automobile campaign being conducted by The Tribune will end Saturday night at 10 o'clock July 10th. All candidates and their assistance should remember the importance of getting every subscription possible in before that time, in order to take advantage of the remaining days of the "Big Vote" period.

This does not mean however, that votes given on subscriptions turned in during the first period must be turned in and published; it is only necessary to get your subscriptions in before midnight on Saturday, if you wish to receive votes on them at the present schedule. No contestant is obliged to have the votes thus secured published, but instead they can be withheld even to the closing day of the great race. To receive First Period votes on their subscriptions all candidates must adhere clssely to the following instructions:

FIRST—Candidates may call personally at the office of the Manager, Automobile Campaign Department, to turn in subcriptions, at any time up to midnight Saturday. (Note:--Offices of campaign department are located at The Tribune Building.)

SECOND:—Candidates who cannot CALL at the Manager's office can MAIL their subscriptions at any time up to midnight on Saturday. When these subscriptions arrive, First Period votes will be credited on them---PROVIDED the post mark shows that they were mailed before 10 P. M. July 10th.

Remember these instructions. Bear in mind that midnight of Saturday is the hour. With the passing of the First Period will go the schedule of votes that has prevailed since the beginning of the prize campaign. This means that where you now get 50,000 votes on a three year subscription, you will, after midnight of Saturday, obtain 25,000 votes for the same subscription---should you choose to hold it until the Second Period. During the Second Period this decrease will be proportionate on on all subscriptions. Every subscription turned in before the end of the First Period means BIG VOTES --AND YOU NEED VOTES.

During the remaining days of this week is the time for every bit of work you can do. You can't afford to slow up for one minute!!

See that your work keeps pace with, and beats, that of your rivals. Exert your strongest efforts in securing subscriptions. The votes received for them will make you a winner. Get them now while they are offered in largest numbers. Turn your subscriptions in this week. You will never have a better opportunity for getting votes during the campaign. There will be no special vote offers---subscriptions now earn as much as they will at any time.

Get all the subscriptions you can at once.

## Standing of Contestants

### District Number One

| | |
|---|---|
| Harry Lund, City | 230,000 |
| Mrs. Edwin O. Erickson, City | 203,000 |
| O.L. Cronstrom, City | 220,000 |
| Miss. Agnes Oftedahl, City | 10,000 |
| Mrs. Lawrence Hermanson, City | 10,000 |
| Robert Halvorson, City | 170,000 |
| Leo Miller, City | 10,000 |
| Mrs. Henry Sandee, R.F.D., City | 10,000 |
| Julius Liden, R.F.D., City | 10,000 |
| Mrs. Thomas Rowan, City | 175,000 |
| Luella Peterson, City | 60,000 |
| Mrs. H. F. Boreen, City | 10,000 |

**District Prizes**

One hundred and twenty five dollars in cash will be given to the worker in each district who secures the highes vote total in his district.

Seventy five dollars in cash will be given to the worker in each district who secures the second highest vote total in his district.

Sixty five dollars in cash will be given to the worker in each district who secures the third highest vote total in his district.

Fifty dollars in cash will be given to the worker in each district who secures the fourth highest vote total in his district.

Twenty five dollars in cash will be given to the worker in each district who secures the fifth highest vote total in his district.

## Standing of Contestants

### District Number Two

| | |
|---|---|
| Betty Johnson, Holt | 90,000 |
| Sylvia Pierson, St. Hilaire | 230,000 |
| Olive Wing, Middle River | 10,000 |
| Martha Albin, Plummer | 125,000 |
| Ethel Anderson, Wylie | 75,000 |
| Lorraine O'Hara, Newfolden | 10,000 |
| William Novak, Wylie | 10,000 |
| Borghild Berg, Middle River | 10,000 |
| Bertha Olson, Middle River | 10,000 |
| Mrs. E. Singer, Erie | 240,000 |
| Gunder Tviet, Golden Valley | 90,000 |
| Arthur Olson, Middle River | 10,000 |
| Emma Anderson, Middle River | 10,000 |
| B.O.Norby, Goodridge | 110,000 |
| Anna Knudson, Kratka | 10,000 |
| Lawrence Rierson, Box 672,Holt | 10,000 |
| Mrs. C. E. Lundgren, Viking | 60,000 |

**Capital Prizes**

The Buick "Six" touring car will be awarded to the candidate in any district who secures more votes than any other candidates in all districts.

The Overland "Four" touring car will be awarded to the candidate in any district who secures the second largest number of votes in all districts.

## Votes Will Determine the Prize Winners

Turn in your subscriptions this week. Only by so doing can you hope to win. For, on Saturday, the first period ends---and after Saturday comes a fifty percent decrease in the value of all subscriptions. Votes will win---you know that---and you also know that it is going to take A LARGE NUMBER OF VOTES to make your campaign successful. Therefore you must have all the votes you can get---right now!! Never again during the race will you have an opportunity to secure votes in such large numbers as now. Never again will such a chance to build up a strong vote reserve be given to you. Now is the time when you must win or lose! Get all the subscriptions you can this week---KEEP WORKING and WIN!!

# AMERICA'S BEST COAL GOES TO EXPORT TRADE WHILE COUNTRY FACES FAMINE AND HIGH PRICES

### EUROPE PAYING $11.50 NET TON, LAR BETTER AND GETS COAL ALWAYS READY TO BID DOL-

— Hampton Roads.—Practically the entire output of Pocahontas, West Virginia Splint and Kentucky Block coal is flowing east for export thru Hampton Roads and other Atlantic ports.

The movement is so great that these three, the highest grades of American domestic coals, have virtually disappeared from the domestic market and cannot be bought by Americans at a price within reason.

No matter how big the American retailer bids, the exporter goes him a dollar better—and gets the coal.

The export drain is particularly strong on the output of Pocahontas mines and the upper ground Fairmont and New River, W. Va. To get this cream of American coal, exporters are paying as high as $11.50 a net ton, with correspondingly higher prices for Pennsylvania anthracite.

Coal jobbers say that if this price were cut in half, the operators would still be getting a fair price.

The heavy export demand sets the price pace for the American who buys in the domestic market.

Americans either pay the export price or don't get their orders filled at the mines, for the demand for coal at Tidewater is now unlimited. Exporters are taking every ton they can get.

No matter how scarce coal is, no matter how scarce coal cars are, the exporter's order is mied first.

These export shipments, as they flow east, have clogged the railroads so that New England mills have run up an S. O. S. signal. They want some of this coal diverted from Hampton Roads and other points and hauled into New England.

Senator Walsh of Massachusetts, is demanding embargo of some form on coal exports. He points to England, which has recently clamped on the lid by limiting coal exports to 10 per cent of her total production, the in 1913-1914 England exported 34 out of every 100 tons of coal from her mines.

England, according to Walsh, is keeping her coal at home, then buying American coal and using it as a medium of exchange for acquiring Cuban sugar, Argentine beef and raw materials from Mediterranean countries

Walsh has compiled figures showing that about 2,000,000 tons of coal were shipped out of the United States during April. His information from coal men is that by mid-summer the export shipments may be as high as 4,000,000 tons a month.

This would be at a yearly rate of 48,000,000 tons. In other words, out of every 11 tons of coal mined in the United States, one would be exported.

Americans who want this coal, but can't bid against the export price, point out that as the coal shortage gets more acute every ton taken from the domestic market and shipped abroad is an increasingly greater drain.

Canada is a big factor in our coal-export market. Her mines supply only 41 per cent of her coal needs, and in 1920 she will probably buy about 22,000,000 tons of American coal.

Canada has thousands of American coal cars which she is holding as hostages until American railroads locate and send home other cars that belong in Canada but haven't been returned to her.

Attempts to get these goudols and hopper coal cars back to the United States will apparently be ineffectual until our railroad congestion is unraveled and an exchange can be made.

Coal jobbers say consumers will pay at least $6 a ton more for their winter's coal if present alarming conditions continue.

There are 5,000 operators, with about 7,000 mines. Many of these are getting no cars, and making little or no profit.

Others, favored by the railroads, and getting some cars, are taking profits in a few weeks that reach, in extreme cases, as high as 75 to 100 per cent of their total capital invested.

### Legion Old Army Name

The first "American Legion" was founded in 1792, and its existence, by that name, terminated in 1796. War department records show that when the regular army was reorganized in 1792, following the Revolutionary war it was first officially designated the "Legion" and was divided into four "sub-legions," of which the 4th United States infantry was a part.

The idea of designating the United States army as the legion originated with General Knox, secretary of war under George Washington. The army was patterned after the Roman legion, the old military organization under which Julius Caesar and his successors conquered as much of the world as was then known.

The American "Legion" was commanded by Gen. Anthony Wayne ("Mad Anthony") and was organized under his direction at Pittsburgh, Pa., in May 1792. President Washington instructed General Wayne "do not spare powder and lead, so that the men be made marksmen." The Legion fought its only battle as a legion at Miami Rapids in the Kentucky-Ohio-Indian country Aug. 20, 1794, engaging a force of hostile Indians. In 1796, it having been decided that the Roman formation was not suitable for fighting Indians, the Legion was disbanded and reorganized into four regiments of infantry.

## Wait!--- Don't Operate!

**Take Stoilgal, a doctor's prescription for dissolving gall stones, and complicated sotmach ailments.**

One box gives instant relief in all cases of GALL STONES, liver and stomach trouble, such as indigestion, dyspepsia, chronic appendicitis, gas, sour stomach, sheers, catarrh, pains in stomach and back, constipation, etc. Don't wait but get a box of Stoilgal from your druggist today. Price $1. Attention! No fake testimonials, but positive facts. Stoilgal has helped thousands of people and it will positively give you relief in all ailments mentioned regardless of your age or duration of trouble. Write for free literature to Dept. F. Digestive Chemical Company, St. Paul, Minn. Sold in Thief River Falls, by Dr. H. B. Nevell, Lambert's Pharmacy, also leading druggists everywhere.

### JUNIOR CLUB WORK BOON TO ALIEN-BORN

Writing to the state club headquarters at University Farm, a woman who has served as judge at the recent Koochiching county breadmaking contest at International Falls shows how boys' and girls' club work is helping foreign born people to be better American Citizens. She says:

"I cannot half tell what club work means to the people up here. The best loaf of bread in Class B was made by a little Austrian girl who never had white bread in her home until she had the contest work in school. There were three of these little Austrian girls from the same school. They drove 30 miles with an ox team to reach the railroad. They had never seen a train before, or an electric light or a moving picture show. They stayed in an American hotel in a real American bed and wore nightgowns for the first time. The gowns had been made in school under the direction of the teacher. They could scarcely sleep, their teacher said, for thinking how funny they looked in their long white robes. One of these girls made the best loaf of bread. You are doing a wonderful work for the foreign homes of northern Minnesota.

# TWO MINUTE TALKS TO AMERICANS.

America First Association.

## RECKLESS WASTE AND SPENDING

*By* JOHN H. RICH, *Prominent Financier, Chairman Federal Reserve Bank, Minneapolis.*

With living costs at the highest point since the close of the Civil War, and with the general public indulging in a prolonged period of reckless extravagance; the time has come when sober-minded men must stop thinking in general terms. They must consider the present situation from the standpoint of personal and individual responsibility, if the dangers in the near future that should be readily apparent to every one, are to be avoided.

"Social unrest arises from many causes, but mostly I think from the commonpiace fact that it takes about everything the average man can make to keep pace with the outgo. This unrest, which is provocative of labor troubles, the slacking up of individual production, carelessness about money spending, and many other evils, has, I hope, reached its high point. It is easily evident that it cannot spread very much further without great danger to the whole country.

"It has been habitual to associate unrest more with the laboring classes than with other classes of the public. Nowhere in the United States is unrest more acute or bitter feeling more prevalent than among the agricultural population in the Ninth Reserve district. Since the beginning of the war farmers have been under heavy pressure to attain the highest possible production. They have been enjoying the highest prices that have ever prevailed in the Northwest, yet there is widespread dissatisfaction and complaint.

"Part of this is due to vicious propaganda based on false economics which has been spread through all the farming districts. The farmers have been deliberately misled and have not had the benefit of corrective education at the hands of those competent to tell the truth about the economic problems that are serious to the agricultural class. Part of this is due to the feeling of surprise and bitterness upon realizing that while enjoying high prices, their anticipated profits have been out by rising costs. The two influences combined have made many thousands of men who have ordinarily been clear and level headed in their views, critical and antagonistic toward ever government and bitterly hostile toward business interests at the larger centers which they have been led to believe are antagonistic toward them. A division between country and city would be one of the most unfortunate things that could happen.

"Those who have the confidence of the farmers can do the latter a genuine service and perform a service to their country in annihilating the false doctrine that has been spread about. The causes of complaint should be analyzed and identified, and if they rest upon injustice these should be ruthlessly eliminated. To a certain extent, the farmer, like every one else, must work out his own salvation, but the community, as a whole, is seriously at fault, if it permits the farmer, because of his isolation and his lack of close contact with other sections of the public, to become the victim of either those who are radical propagandists for profit or those who are propagandist because they hate their government, and who are seeking to overturn the very foundation stones upon which the truest and best democracy in the world is founded.

"The general public do not recognize the significance of the warning signs that are apparent in present conditions. there is no way of avoiding a situation which undoubtedly contains elements which simply invite disaster."

### "BEAUTIFYING THE COUNTRY HOME WITH ADVERTISING SIGNS

"Beautifying" country homes with advertising signs no longer is appreciated by the dwellers of the country. Such "decorations," while lending color to the landscape, are not regarded as works of art by most farmers, who have come to discourage the use of barns and shade trees as a background for daring signs telling the virtues of wares.

An utter disregard for shade trees is shown by those who have tacked up signs of all kinds, sizes and descriptions. Apparently the sign man has no regard for the trees that beautify the country roads. It would only be doing justice to all who persist in using trees for this purpose to destroy every sign so attached, in the opinion of the county farm bureau. Wounds made by use of nail's nails and spikes and tacks cause dead and decayed cavities to form, resulting in a great amount of damage later, possibly shortening the life of the tree.

Signs have their place and should be kept there within reason. The use of fence posts to tack signs on should be discouraged as it has the effect of making the farm home look like a junk yard. The painting of large signs on roofs and side walls of barns and outbuildings cheapens the surroundings.

How can the farm owner, asks the country bureau, make headway in beautifying his place when dozens of signs adorn his driveway or main highway along his place? What would happen if the sign posting habit became general in the residence districts of Thief River Falls? How many firms pay to place their advertising along the highway? Any one may admire taste in sign advertising but the advertising should be placed with regard for surroundings.

### WILSON FREES SOCIALIST SENTENCED AS WAR SPY

New York.—A pardon signed by President Wilson was received by Marshal James M. Power for Morris Zucker, a Brooklyn dentists and Socialist, convicted in 1918 for violation of the espionage act and sentenced to serve 15 years in the federal prison at Atlanta. Zucker appealed his case and had never served any time in prison.

It pays to advertise in The Tribune.

### HORNSBY YOUNGEST OF MAJORS' BIG STARS

Rogers Hornsby, brilliant infielder and batsman with the St. Louis Nationals, is the youngest of the "big league" baseball stars. He was born at Winters, Texas, April 26, 1896—now being but 24 years old. He has starred since 1915.

### WOMAN'S CASE AMAZES THIEF RIVER FALLS

A business man's wife could not sew or read without sharp pains in her eyes. For years her eyes were red and weak. Finally she tried simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. The result produced by a single bottle amased everyone. We guarantee a small bottle Lavoptik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. F. J. Stebbins, druggist. T-4

When the Chiropractor by scientific adjustment removes the pressure from the nerves and helps Nature to restore Health, the operation seems a simple one. Yet the knowledge is one that is gained only after a great deal of investigation, for Chiropractic is just as much a science and a profession that has to be learned as any other Health-method.

## Knowledge of Spine and Nerves

The Chiropractor must intimately know the body. He must know what nerves feed every organ and just where these nerves branch out from the spine, so that he can place his finger right on the point of pressure that is causing trouble in a certain part of the body.

Because of this expert knowledge of why he adjusts, when and how to do it, the Chiropractor can, by examining the spine, tell what is the trouble without a patient telling him anything. The spine is the key. Spinal pressure on a certain nerve leads to weakness and disease in a certain organ. That's why the Chiropractor adjusts a certain part of the spine to relieve headaches and another part of the spine for stomach or abdominal troubles, etc. In

CHIROPRACTIC
THE BETTER WAY TO HEALTH

no drugs or knife are used. If you are not as well as you should be, have your spine adjusted and the cause of your troubles removed, so Nature can make you strong and healthy again. Information, or a spinal analysis given without obligation. Investigate.

# WOOL PRICES JUMP ON CREDIT PROMISE

Wool prices in the Northwest have jumped 25 cents a pound with the announcement of the Federal Reserve banks that credit will be extended to wool growers who have been unable to dispose of their crop owing to the demoralization of the wool market, according to John H. Rich, chairman of the Minneapolis Federal Reserve bank.

Three representatives of Boston wool firms have already gone to Montana to purchase wool of the 1920 clip. Mr. Rich was advised by Thomas A. Marlow of Helena, chairman of the branch bank of the Minneapolis Federal Reserve bank at Helena.

Wool had declined 15 to 25 cents a pound in the Northwest as a result of the accumulation of a surplus of wool in this country and England. Last year growers in the Northwest received from 45 to 65 cents a pound for wool.

## STEINER

Mrs. Frank Slack and son, Ernest, drove to Holt Saturday evening.

Mr. and Mrs. S. R. Rogers and family spent Sunday at the R L. Muzzy home.

Louis Meyer and Miss Amy Whitman attended the Warren fair, July 3rd.

Edgar Utter visited at the Whitman home Sunday.

William Meyer, who has been in Texino, Washington, for several months, returned home Friday.

Mr. and Mrs. Church and family of Aurora visited at the S. Warring home Sunday.

G. L. Leisner went to Minneapolis the middle of the week to attend to business matters.

Hobson Rogers and William Meyer attended the dance in Holt Saturday evening.

### Cooked and Uncooked Food.

Some one with an analytical turn of mind long ago differentiated man from other animals as "the cooking animal," and if we may believe the Greek legend, it was Prometheus who stole fire from heaven with which man might cook. Yet so far as man's diet is concerned, if we may believe many writers on dietetics, Prometheus made a mistake and shortened the lives of men by making the kitchen range possible. They hold to the theory that man should, like the other animals, eat his food raw and uncooked, and that the span of his years would lengthen far beyond the threescore and ten assigned to him by the psalmist, and centenarians would be as plentiful almost as blackberries in summer time.

Get the One Who Can Help You Sell Your Goods

WE have the ability to help you sell your goods and we can do this at a reasonable cost to you.

Economy and standardization are the watchwords here. We use Hammermill Bond, the standard, economical, business paper and we turn out a grade of printing that brings results for our customers.

LET US SHOW YOU

There are cold towns, friendly towns and DEPENDABLE TOWNS.

The greatest of these—according to authoritative surveys—is the town that can be depended upon.

This town of OURS is a dependable town.

—"I like to deal in you town"—a country shopper remarked to a business man the other day. "I can get anything on earth I want here—as cheap or cheaper than anywhere else."

That unsolicited testimony shows that the town can be "DEPENDED upon—that shoppers are learning the value of the real SERVICE the merchants and business men are daily striving to establish."

In this hustling day, a man's too busy to stand for very much LOST MOTION. Slow mails, unreliable transportation facilities —substitution of articles for the one ordered—delays — irritations —DISAPPOINTMENTS, are some of the usual mail order buying trials today—aside from the DISLOYALTY of failing to support your town and community TRADE.

If you can buy it ANYWHERE, you can buy it right here. There is EVERYTHING here—and the hitchiring is OUT on every business and public door in this town.

## FARMER DOES NOT GET WHEAT MONEY

W. J. Louck, consulting economist for the railroad brotherhoods, charges the "middlemen," with profiteering to the extent of 18 million dollars. "Johnny" wartime profiteer being actual criminals," he charges. He says millers of flour made profits 376 per cent greater in 1917 than four years previous.

### Sea-Horses With Prehensile Tails.

Queerest of queer fishes is the sea-horse, Hippocampus, often seen in aquaria, which hangs itself from or supports itself on seaweeds by means of a prehensile tail, which moves dorsoventrally, not laterally, as in other fishes. It has a rapidly vibrating unpaired fin on its back, and the peculiarity of rolling its large eyes independently of one another. Now, it is curious that the far-renowned chameleon, which is a quaint arboreal lizard, should show the same sort of prehensile tail as the sea-horse, only more so, and the same independent rolling of the eyes.—New York World.

### Pretty Italian Fashion.

In the old palaces in Italian cities, small cupboards flush with the wall are a familiar feature, and these are made more attractive sometimes by the addition of paintings placed on the inner side of the doors. Thus, when these are opened, not only is the inside of the cupboard and its contents displayed to view, but little paintings may appear, providing an unexpected and welcome piece of decoration. A lily or some such flower, standing in a simple vase of a good design, looks charming. Modern decorators may, perhaps, see their way to making use of this pretty fashion.

### Concerning Mummies.

Mummifying is a process of dehydration, signifying merely the withdrawal of all moisture from the body. In the Peabody museum at Cambridge, Mass., is a baby that may be thousands of years old. It was found in a cliff-dweller's cave, fastened to a board cradle, and so perfectly preserved that even the eyes are intact. Interesting experiments have recently been made in the "restoration" of mummies obtained from caves in the Southwest. So shrunken are they by desiccation that the body of a 90-pound man is reduced to about fourteen pounds, the parchment-like skin holding the bones like a bag. When such a mummy is placed in a closed box, and steam is slowly introduced, it gradually absorbs the moisture and resumes somewhat of the contours of the person in life, giving a notion of what he looked like. But thereafter it must be kept in alcohol, else decay would set in.

## GET PUBLICITY ON CALENDAR

### That Form of Advertising Is the Most Popular With the Merchants of China.

It has been known for a long time what a relative task it was to go visiting in China—that is, if you happened to be a lofty dignitary and must therefore carry along a card of uncomfortable dimensions. Advertising, it seems, shows a corresponding divergence not only from occidental methods, but from those of sewfoy Japan. There are thousands upon thousands of newspapers in China, but they are not very firmly established, and when they do not soon disappear altogether, they are almost sure to change name frequently, as has been known to happen with certain American products. Newspapers of the republic have an average daily circulation of 3,000, which is larger than it looks, since the papers are carefully passed from hand to hand. There is, then, to be sure, newspaper advertising as well as posters. But the most popular form of publicity for merchants is—the calendar! Nowhere is that humble domestic article more important than in China. Advertisements here placed are looked upon every day. And after all, when you look at the calendars that begin to arrive about this time of the year, isn't it possible to imagine that China is not so far from the West as it might be?—Christian Science Monitor.

## TO OPERATE AIRSHIP FLEET

### Ambitious Plans Credited to English Company Well Within the Realm of Possibility.

A company has been formed in England for the purpose of operating a fleet of airships to various parts of the world. The syndicate desires to acquire ground near Southport, where it proposes to erect a tower 120 to 150 feet high to which airships may be moored, and an elevator will take the passengers up the tower and into the gondolas of the ships. The syndicate intends to have a fleet of non-rigid airships in commission next spring; the smaller will carry 32 passengers and crew and the larger 40 passengers and crew. The company also anticipates running some of the larger rigid airships now in course of construction. These will have a carrying capacity of 150 passengers and be able to travel to any part of the globe. It is proposed to use the smaller non-rigid airships to feed the larger ones and meet them at the principal centers. The cost per mile is put at about half the cost of a taxicab fare today, approximately about 18 cents per mile. —Scientific American.

### Reasons for Feeding Birds.

By feeding the birds in cold weather one provides ammunition against the mosquitoes of June, explains a member of the Animal Protective league. It seems that birds feed their young on mosquitoes, thus destroying great numbers of the pests. Little or natural food is available for birds in the winter except in the extreme South, and even there less can be found by them at this season than in the summer. So when the table or pantry shelf is cleared of crumbs if the contents of the crumb tray are scattered outdoors instead of being put in the garbage can, the birds will be thankful, and will show their gratitude by saving the food-giver many a mosquito bite next summer.

Mosquitoes are only one of the many excellent reasons why birds should be fed during the winter. The others are all the other insects which hamper the production of the garden, and all pleasures of song and plumage.—St Joseph Gazette.

## VOICE OF THE PEOPLE

Editor The Tribune:

If ever the people of Thief River Falls—merchants, jobbers and citizens—had just cause to complain over the manipulation of the city water department they had it last Saturday, when without warning the entire city was deprived of city water for half a day.

Not only was the fire hazard a grave one but the health of the city was likewise endangered by a lack of water for toilets, etc. Housewives were handicapped in their housework except those few who more fortunately than the great majority possessed soft water plants or wells which furnish drinking water.

With three issues a week of newspapers in the city the city water department could readily have given sufficient notice to all water users to be prepared for the period during which water was to be shut off for necessary alterations in the water system. It is to be hoped that the people will not again be inconvenienced as they were last week.

Yours for better service,
Scott Laird,
Sec'y. Commercial Club

## PERSONALS

Mrs. Kiertride Severson, who has been visiting in Superior with Mrs. R. Flinn, returned home Friday. Carl Flinn accompanied her and will visit at the Severson home for a couple of weeks.

Misses Ida Larson and Thora Ness, who have been employed at Fairhault for the past eight months, returned home Thursday evening to remain about a month.

Miss Mabel Hustad left Saturday morning for Warren where she will remain for a few days with relatives and friends.

Miss Inez Johnson left Saturday morning for Park River, where she will spend the Fourth of July. She will return Monday evening.

Mrs. R. Thune and son Ole motored up from Hazel Friday to visit with friends and relatives.

Mr. and Mrs. Carl Nordquist, Miss Inga Thune and Carl Melby motored to Germantown Sunday where they visited at the Nordquist home.

Miss Alice Anderson arrived from McIntosh Friday to visit here with friends and relatives.

Robert Farem left for St. Paul Friday evening to visit with friends and relatives for an indefinite time.

Mrs. Albert Johnson and son, Harry, of Duluth arrived Friday to visit friends over Sunday.

Mrs. H. M. Hicks and son, Harold, motored to Wood Lake, N. D. Sunday.

Charles Krause and children motored to Bemidji Friday for a visit with relatives. They will be gone a couple of weeks.

## TIME TO BE WISE

Des Moines Register: The folly of the proposal to declare peace with Germany independent of the treaty of Paris was apparent the moment anybody asked himself what the United States would do after the declaration had been made. We should at once be confronted with the need of entering into some sort of working relations with Europe for the future. Were we ready to set ourselves up as against the combined judgment of all other nations?

Precisely the same situation now presents itself with reference to the league of nations. The republican platform declares for "an international association." But suppose we win on that declaration and the question comes to us what sort of international association we mean. Are we ready then to set ourselves up against the combined judgment of the forty nations who have already organized the league?

We can get this point more clearly if we allow the argument to come from a disinterested source, disinterested at least insofar as our domestic politics is concerned in this campaign. Here are a few paragraphs from a recent editorial by J. Dafoe of the Winnipeg Free Press that are well worth the serious consideration of every American:

"March, 1921, will soon be here. It may, probably will see a republican president in the white house with a congress behind him republican in both branches. The field will, therefore, be clear to go ahead. The difficulties of the treaty will then begin at once. They will first have to decide what they will do with the war with Germany, which still stands on the official. It may be very greatly doubted whether the republicans, in power and able to give effect to their plans, will care to set the precedent of declaring peace by simple congressional resolution. By thus fixing peace the United States will forego safeguards and advantages secured by the treaty of Versailles. The constitutional power of congress to decare peace might also be challenged in the courts. The alternative would be to negotiate a new treaty of peace with Germany. The making of this treaty would not be without its difficulties and perplexities; and after it was duly completed and signed Senator Lodge, as chairman of the foreign relations committee, would have to pilot the treaty thru the senate. He might conceivably have some trouble in getting it thru, for the democratic minority will certainly be numerous enough to block, if they chose, the ratification of the treaty under the two-thirds vote provision. They would naturally be in the mood to make trouble for a republican president. Senator Lodge and the republican leaders generally. So much for the peace treaty proper.

"The United States looking about for an 'international association' for peace preservation purposes would find that there was already in existence an association which, in the opinion of practically all the other nations of the world, sufficiently met the purposes which the United States desires to further. Already forty nations are included in the league of nations. The list include all the countries who took part in the late war on the allied side save the United States and practically all the neutral nations of Europe and America. Additions to the membership will be made during the coming year. Applications from Bethonia and the Ukraine are pending; and the admission of some of the enemy states within the next twelve months is certain. The admission of Germany at an early date is a possibility.

"Under these conditions, which will prevail next year, what will the United States do? It will have to recognize the fact that the league of nations is in existence, that it is functioning, that it has accepted and is discharging responsibilities under the peace treaty which it dare not abandon; that it has the backing of an overwhelming majority of the nations of the world. A meeting of the assembly of the league is a certainty for 1921. The United States will surely not expect the league to meet and solemnly vote itself out of existence in order that an 'international association' more agreeable to Senator Lodge and his colleagues shall take its place. If the league were to disappear it would be a long way before it or anything like it would reappear. The one hope for the future is that the league, defective though it may be, will continue and will develop until it becomes the power in the world that its founders expected it to be.

"The United States will, in fact, have to go with the other nations in the existing league, or remain outside it in an isolation about which there will be nothing splendid. The American people will not be content long to remain in a position of aloofness from a movement which makes so strong a moral appeal to the consciences of the world. The league needs the United States and can never do the work which awaits it without its support and co-operation; and the United States will feel increasingly the obligation to associate itself with the other nations of the world in the great causes to which the league is dedicated."

### Ambition Spoiled

"Her one aim was to live a spotless life."

"Well, she can't do it now; she's had an attack of the measles."—Baltimore American.

## WANT ADS

WANTED — ASSISTANT LAUNdress at Physicians hospital.

STRAYED—CAME TO OUR FARM on June 22 four red ball calves. Owner can have same by paying for the expense of keeping and advertising. Sam Hauseby, Rose-Wood, Minn., 2½ miles SW of Rosewood on the Oen farm.

MINNESOTA HISTORICAL SOCIETY

# THE TRIBUNE

VOL. 20 No. 35 THIEF RIVER FALLS, MINNESOTA, FRIDAY, JULY 9, 1920 *Official Paper of Pennington County*

## LAST WEEKS TO DECIDE WINNER OF GRE[illegible] RACE

Electrical Section

### HARD WORK DURING NEXT THREE WEEKS CAN WIN BUICK "SIX"

Tomorrow night at ten o'clock, the First Period of The Tribune's great $3,600 automobile campaign comes to a close.

After that date, subscriptions will decrease one half in value—just exactly one half the amount of votes now credited on subscriptions sent in by contestants will be given after that time. It will be harder to get ahead—and harder to get subscriptions. It will be almost impossible to attain a sufficient vote reserve to make victory certain. And it will be almost impossible for any contestant to feel so certain of victory now as to slow up work before the end of the race.

The contestants enter the Second Period with no one in the lead—with just about an even break between them. What may be the decision on July 31st, when every vote is in, depends on the work done from now to the close of the race. Whether you shall come out winner on July 31st—or a failure—depends on your work from now on to the end.

Make the last three weeks count to the utmost. Whether you believe, now, that your are in the lead, or whether you fear that you are far in the rear—keep going with all your might. Don't let the fact that the first need for hard work seems to be over, keep you from doing your best work during the Second Period. Don't slow up or lag behind—don't let your tide of orders [illegible]. Just keep right on going, all the time—just keep on trying, with all your might—just keep on fighting desperately and determinedly—and keep it up until you win!!

Get all the subscriptions possible into this office before ten o'clock Saturday night, July 10th. The offices of the manager, automobile campaign department, which are located in The Tribune building, will be open to that hour, and subscriptions may be brought in at any time before ten o'clock. Subscriptions may be mailed, also by those contestants who do not find it possible to come into the city in person, if the postmark on the letter containing the order is in before ten o'clock Saturday night, July 10. In case you fear that your subscription will not be mailed in time take especial pains to have the postmaster place the official stamp on the envelope, before ten o'clock. Only by following these conditions can your order be credited with First Period votes—and you can't afford to miss the added incentive which big votes will give you.

And, after mailing your last big order—go right on working! Don't slow up for a moment—don't lag behind or give up in disgust. Simply keep working with all your might, with just one goal—the first car. Simply keep trying, all the time, for win the Buick "Six". And, if you work hard and constantly, efficiently and successfully—You'll win!!

Let the last three weeks win the Buick "six" for you!!

"Make it a hot one!!"

### W. C. T. U. To Meet

The W. C. T. U. will meet next Tuesday afternoon at the home of Mrs. Isenberg east of 8th street bridge, invited by Mrs. Christenson. As this is the annual meeting and election of officers every member is requested to be present.

### Know These Men?

Postmaster John Morgan has two letters addressed to Agmund E. N. Elness and Celia Ondahl, both former service men. In case their address is known, it should be given to the local postmaster so the mail may be forwarded.

### Visiting Adkins

Mr. and Mrs. Warrick, daughter and son, of Bellingham, Washington, are visiting at the home of Dr. and Mrs. Adkins this week.

### Presbyterian Church

Rev. R. L. Barackman, Pastor

On Sunday, July eleventh, the regular meeting will continue. In the morning Sunday school at ten o'clock and public worship at eleven o'clock. In the evening at eight o'clock, the evening hour of worship.

### Ladies Aid to Meet

The ladies aid of the Methodist Episcopal church will meet with Mrs. Noper, one half mile west of town, next Wednesday, July 14, at 2:30 p. m. There will be conveyances provided, at the church to take members to the Noper residence. Entertainment will be provided by Mrs. Noper, Mrs. Smith and Mrs. Pope. All members are urged to attend.

## WANT GOOD EXHIBITS

The womans club of Thief River Falls displayed a thrift exhibit at Warren during the district federation in May and it was so favorably commented on that the club was asked to send it to headquarters in Minneapolis.

The exhibit has gone on record as one of the most interesting evidences of thrift which any one who saw it will testify.

The Woman's Club is anxious to have a larger and better exhibit at Thief River Falls and it asks for the hearty co-operation of the club members and all the women in the county.

For particulars inquire of Mrs. E. Mogeasen, Secy.

## BIG BAND TO PLAY IN CITY ON JULY 21ST

### WILL GIVE CONCERT AT SQUAW POINT AND FINISH DAY WITH BIG DANCE

Harold Backman, director of the Million Dollar Band which is to play in Thief River Falls on the 21st of July, announces as a special feature Robert Bruce, the world's greatest Indian clarinetist, who is now playing under Mr. Backman's baton for the fourth consecutive season.

Educated at the leading Indian schools of the United States, namely Haskell and Carlisle, Mr. Bruce began his musicent studies at a very early age. After his graduation from Carlisle he played with Arthur Pryor's famous band at Atlantic City and then played with the famous Bethlehem Steel Works band at Bethlehem, Pa., where he created quite a furore over the entire east with his wonderful cornet solos played in full Indian costume, war paint and all.

From this engagement, Mr Bruce came to the band which Mr. Backman had organized for overseas and served in the army nearly two years, fifteen months of this time being spent over-seas.

During the past year with The Million Dollar Band, Robert Bruce has made a tremendous hit all over the country and he is at present looked upon as one of America's finest soloists. In fact he does several

ROBERT BRUCE, CORNETIST

stunts on the coronet that no other cornetist has been known to perform. His tone is soft and velvety and his technique nothing short of marvelous.

At school Mr. Bruce was prominent in athletics as well as musical circles. He was a member of the Carlisle football team at the same time that Jim Thorpe, the world's greatest all around athlete played. He and Mr. Thorpe are warm friends.

Mr. Bruce appears on every program given by The Million Dollar Band

The concert will be played at Squaw Point providing the weather permits, otherwise the program will be carried out in the Auditorium. The admission to this concert is 50c for adults and 25 cents for children.

### Bible Chautauqua

The Scandinavians of Thief River Falls consider themselves very fortunate in having a Bible chautauqua held in their own language. The meetings are attended with great interest. All Scandinavians are invited to the chautauqua tent to hear the following subjects: Friday evening, "Will Christ come again the second time? How and When?" Sunday evening, "Are we living in the time of the end? May we know when it began?" Come at 7:45 o'clock.

## AGED COUPLE ARE INJURED IN RUNAWAY

### MR. AND MRS. MAT BRUDE NARROWLY ESCAPE DEATH WEDNESDAY EVENING

Mr. and Mrs. Mat Brude had a very narrow escape from death Wednesday evening about six o'clock when the horse they were driving became frightened, running away and throwing the couple head first from the buggy.

The cause of the accident as near as it can be figured out, is due to the harness becoming loose, causing the shafts to fly up and frightening the horse. They were coming up First street and in making the turn at Main the buggy tipped and both were thrown headfirst into the street. No one was near when the accident occurred and it was first noticed by Judge Grindeland, who was in the court room upstairs. He immediately notified Sheriff LaBree who rushed into the street to find the couple lying unconscious in the street and bleeding freely from their wounds. They were picked up and Mr. Brude seemed to be the worst injured of the two, she was taken to the hospital while Mr. Brude was rushed to the office of a physician where his wounds were dressed and in a short time he fully recovered.

Mrs. Brude did not recover as quickly as her husband, but at this writing she is fast on the road to recovery and will be alright again in a few days.

As both parties are well along in years it was feared for a time that their injuries might prove serious but it is fortunate that neither of them are seriously injured and will soon be as well as ever.

### NATIONAL DEBT OF WORLD POWERS SHOWN

Of the $220,000,000,000 added to the world national indebtedness since the beginning of the European war, approximately $200,000,000,000 or more than nine tenths, was created by the seven great countries participating in the war, Great Britain, France, Italy, the United States, Russia, Germany and Austria-Hungary.

Per capita debts of principal countries, 1913 and 1920, as compiled by the National City Bank or New York, compare as follows:

| | 1913 | 1920 |
|---|---|---|
| United States | $ 11 | $ 225 |
| Great Britain | 78 | 850 |
| France | 160 | 1,150 |
| Italy | 83 | 365 |
| Germany | 18 | 800 |
| Russia | 27 | 125 |
| Austria | 63 | 525 |
| Hungary | 70 | 387 |
| Austria | 18 | 318 |
| Canada | 70 | 159 |

*Exclusive of debts of German states since 1917, as 1918.

A. E. Possum, of Herreid, S. D., came over from Grand Forks to spend the 4th with his parents, Mr. and Mrs. T. A. Possum.

## GIVEN A BIG BOOST AS LIVE STOCK CENTER

### PRIZE CATTLE BEING EXHIBITED AT ALL FAIRS IN THIS TERRITORY

The Guernsey breeders of Pennington county are doing much to boost the Guernsey breed in the northwest by showing a carload of their best animals on the show circuit in this part of the state. This car-load was loaded in Thief River Falls on Tuesday, June 29, and shipped to Ada where the county fair was held on July 1, 2 and 3. From there the show stock will be shipped to Fertile and shown on July 5, 6 and 7, at Crookston on July 8, 9 and 10, at Fargo July 12 to 17 and at Grand Forks July 19 to 24. After making this circuit the car will return to Thief River Falls in time for the Pennington county fair on August 4, 5 and 6.

The herds are appropriately and attractively labled with signs of the individual owners and one large sign advertising Pennington county as the Guernsey center of the Northwest, coming from a locality with more accredited herds than any county in the United States.

The show stock is taken care of by Roman Paulson and Elder Conklin of Thief River Falls. These two boys have done much to fit the stock for the show ring and will bring the animals through the circuit in fine showing condition.

### Big Men Get Together

J. C. Briley, Bays Crossing, Indiana, writes: "I notice that some of our national leaders have been openly criticising the nomination made at Chicago or some of their rival candidates to the convention, and others seem to be skulking in their tents. I believe that the rank and file of the republican party, now that the nomination has been made, would like for our leaders to set a better example, quit their quarreling with one another, keep their feet on earth and their heads level and put their things back to normal in this old U. S. A. again. Our orders should be big enough to be friendly in defeat as well as in victory. Now that Harding and Coolidge have been nominated, if we expect to save the country we must all get behind them and make them sure of republican victory. The Lord knows we have had enough trouble in the last eight years and if our government is going to endure we must have something more stable and sound. So, big men, forget your troubles, love one another, do your duty and we little fellows will do the rest."

### Swedish Ev. Mission Church.

O. J. Lundell, Pastor.

Sunday, July 11, Sunday school at 10 a. m. No morning service. Service at 8 p. m. conducted by Rev. W. Drotts of Viking. Rev. Drotts will also preach at Black River at 3 p. m.

### GET NICE INCREASE

Local postal employees and rural carriers received a ten per cent increase in salary starting the first of this month, which means in the neighborhood of $200 a year more in salary. This increase is general and all offices in this United States are to receive the increase. The size of the increase is based upon the class of the office, and as this office is a second class, the increase is based accordingly.

It is needless to say that the increase is welcome to all the local employees with the high cost of living showing very few signs of settling down and again coming back to earth.

## AUTO TOUR TO BE MADE NEXT TUESDAY

### WILL BE MADE IN INTERESTS OF BIG PENNINGTON COUNTY FAIR

A real booster trip is to be made on the morning of Tuesday, July 27th under the auspices of the auto club, the purpose being to help along the big fair that is coming early in August and to get acquainted with our neighbors. The trip will be made by auto and it is believed there should at least be fifty cars in the parade when the final count in made and the trip is started. A meeting of the Auto club last evening was called and it was decided that the tour should take in all the towns north along the Great Northern beautifying at Warroad. The towns to be visited on the trip north will include Hoot, Middle River, Strathcona, Badger, Roseau, and Warroad. On the return trip the Soo line will be followed back thus making a complete circle of the trade territory adjacent to Thief River Falls. It is believed this trip will do much to help boost the fair along and will also help in a business way for the entire city. The fund is to be carried along and a grand and glorious time is assured all who make the trip. The return trip will be made on Wednesday and those who contemplate making the trip should hand their names in so the proper number may be known and arrangements made up the line to take care of the crowd. It is figured that there should be at least one hundred and fifty or two hundred make the trip and it is certain that those who do make the trip will feel that they have spent the time well and to advantage. Remember that the tour leaves this city early next Tuesday morning and everyone who can go should be on hand bright and early.

President H. M. Stanton of the Commercial club has named H. W. Protzeller, Dr. C. R. Crandall and W. R. Fuller as a committee from the club to co-operate with the Automobile club, Merchants association and Fair association in making arrangements for the proposed auto tour of towns north and south of Thief River Falls.

### Drive to Henning

Mr. and Mrs. Alfred Bredeson, accompanied by Miss Louise Erickson, left Saturday morning for Henning via auto to spend two weeks on an outing.

### Visit at Bemidji

Mr. and Mrs. A. S. Sapero spent the week end visiting at Bemidji. They made the trip in their car and report a very enjoyable time in that city.

### UNCLAIMED LETTERS

The following is a list of the unclaimed letters held at the Thief River Falls, Minn., post office for the week ending July 3, 1920. If not called for within two weeks from the above date they will be sent to the Dead Letter Branch, Chicago, Ill.

Bminger, Mr. William
Bostrom, Rev. O. F.
Bryam, Mr. Sythe
Clark, Miss Mae
Folden, Miss Mary
Grams, Emil
Hobart, Mrs. Stella
Kemp, Mr. Wm. J.
Larson, Soren
Mogan, Thomas
Myrs, Mr. Olaf
Peterson, Miss Belle
Staley, Wm.
Stich, Mr. Leon % John Steven
Tommerdahl, Mr. H. C.

When calling for the above letters please state that they were advertised.

John Morgan, P. M.

## EXHIBITS IN ALL DEPARTMENTS ARE WANTED

### USE OF AUDITORIUM THIS YEAR INSURES BEST OF CARE FOR EXHIBITS

Only a trifle more than two weeks from today the big Pennington county fair will be going in full force and judging from the list of attractions that have been lined up by Secretary Smith, this certainly is going to be one of the big events of the fall.

Amusements of every kind have been secured and it is anticipated that there will be several more added of the last minute, which is always the case, and which usually prove to be attractions that have engagements at other points but for unknown reasons fail to make connections and play the nearest fairs open at that time. Mr. Smith states that he is confident that the county fair has in the way of attractions this year is going to be instrumental in bringing the largest crowd to the Pennington county fair that has so far been seen in this city. He is confident that all will agree with him that he has secured the best features possible in view of the fact that this cannot be considered one of the bigger fairs, but with his persistent efforts in attempting to secure nothing but high grade attractions, he is certain that the fair his year will surpass all other attempts and will easily eclipse other years in a great many respects.

Special attention is called to the fact that the Auditorium is to be used this year for the housing of the exhibits of the schools and the fancy work and art exhibits of the ladies of the county. It has been considered impossible to use the present building on the fair grounds because as this building is not considered safe for leaving the valuable exhibits over night and other damage that might come as the result of rain. The Auditorium is to be used strictly for these two exhibits only and it is certain that no harm can befall any of the exhibits in this building. There will be no danger from rain or dust and especial care will be taken to see that every article is returned in as good shape as it was the day it was brought in. In addition to the exhibits of the schools and the fancy of the city here across will be install booths for the display of their wares and special efforts to secure demonstrators from the stores. Many of the fair dues are being made and no doubt there will be several interesting demonstrations on the floor when the large building is thrown open to the public. Tickets for the fair grounds and the exhibit at the Auditorium will be sold at the price of one and those attending the fair will also be privileged to attend the exhibit at the Auditorium for the price of the fair alone. Two tickets will be issued, one for the fair and one for the exhibit at the Auditorium, both for the price of one. The ladies of the county are especially requested to bring in all the exhibits possible with the full assurance that they will be amply protected and that there will be nothing to fear in the way of damage. It is hoped that every lady in the county will have some exhibit and that this year will see one of the best and largest exhibits ever on display in the history of the county.

### Big Game Sunday

The local baseball team will meet the huskies from Radium in this city next Sunday at the fair grounds and in the opinion of those who know both teams, it is the general prediction that this game is going to be fast and furious. The local team have settled down into the harness and promise that the team from Radium will know that they have been up place when the game is over. The local hops are playing some mighty fine games and well deserve the support of the entire community. It is hoped that as many as possible will attend, the game Sunday and lend their support to the home team. They are playing mighty good ball and deserve your support. Attend the game Sunday and root for the home team.

### Return From Outing

Mrs. M. Benson and children returned Wednesday evening from Detroit where they have been enjoying an outing for the past two weeks. Mr. Benson, who accompanied his family to Detroit, returned the first of last week.

### Have Enjoyable Trip

Mr. and Mrs. W. A. Pratt returned the first of the week from a motor trip which included the towns of Otterail and Detroit. They had a very enjoyable trip and enjoyed be outing immensely.

Mr. and Mrs. Geo. Patton, of Malcam passed thru Thief River Falls Tuesday to Federal Dam where they will make their future home with their son, F. S. Patton.

# .....Automobile Campaign News.....

## "LABOR WINS ALL."---Tacitus

This column conducted by Automobile Campaign Department, The Tribune.

### A LITTLE ADVICE

You cannot make a successful fight unless you believe in yourself. The key to the gates of victory is embodied in the power that is in you—in the belief you have in yourself and in the stamina you have to back up that belief—Herbert Kaufman.

The supply of time is truly a daily miracle, an affair genuinely astonishing when it is examined. Time is yours. It is the most precious of possessions. No one can take it from you. It is unstealable, and no one receives either more or less than you. The only limit to the things that time can do for you is your own utilization of it.—Arnold Bennett.

Don't stop part way!! Don't be satisfied with half done work!! Face about—work harder—climb higher!! Climb higher, and keep climbing until you reach the pinnacle. Show that you have the will-power and the strength to reach the top.—Drummond.

Never talk of failure in anything. Half the failures of the world are due to the fact that those making them have not learned how much success depended on BELIEF IN SELF. —H. K. Newcomb.

Be glad to give in time and labor full value for that which used to profit TODAY will accumulate power for you TOMORROW.—Archer Brown.

### TOMORROW---AND MONDAY

Saturday night, tomorrow night, at ten o'clock, the First Period of the greatest automobile campaign ever conducted in Northern Minnesota will close. After that time, subscriptions will count just ONE HALF as much in votes—it will be just twice as hard to get the subscriptions which will win the car. Perhaps that time, therefore will be scant, opportunities scarce.—TO WAIT UNTIL AFTER TOMORROW NIGHT TO DO YOUR BEST WORK IS TO LOSE ABSOLUTELY.

NOW is the time to get in your best and biggest orders. Now is the time to do your best and hardest work. TODAY AND TOMORROW may win the Buick "Six" for you. Hard work today and harder work right up to the last hour of the race, may mean a glorious victory for you. GET EVERY SUBSCRIPTION POSSIBLE INTO THE CAMPAIGN OFFICES BY TEN O'CLOCK SATURDAY NIGHT. And then—go right ahead with your hardest work for subscriptions, all thru the Second Period. True, it's going to take harder work, for subscriptions will count less and it will be harder to get them, probably—BUT IT'S WORTH THE WORK.

HARD WORK DURING THE SECOND PERIOD IS TO DECIDE THE WINNER—RIGHT NOW THE FIELD IS TOO CLOSE FOR ANY ONE TO BE SURE OF VICTORY OR AFRAID OF DEFEAT.

GO AHEAD AND MAKE THE SECOND PERIOD WIN FOR YOU!!!

### REQUEST TO CONTESTANTS

It is important that when a subscription is sent to The Tribune, it be specified to whom that subscription is to be credited. Several complaints have come in from friends of contestants who subscribed to The Tribune to serve two purposes—to help their favorite contestant to get a good paper—because the subscription has not been properly credited. Since The Tribune was not informed at the time of the receipt of these subscriptions, to whom they were to be credited, it is manifestly impossible now to adjust them. SO—IF YOU WANT YOUR SUBSCRIPTION TO BE CREDITED TO YOUR FAVORITE CANDIDATE—KINDLY SPECIFY ACCURATELY THE CONTESTANT'S NAME AND ADDRESS.

Furthermore, it is urgently requested that contestants give the best care possible to the work of making out their reports LEGIBLY AND ACCURATELY. In cases where the spelling of a name is not certain—ask the subscriber. Be sure to get full information, as route number, box or street number, town and state, together with correct initials. Where a new subscription is started, it is practically impossible for the management of the automobile campaign to fix up the order, when nothing is known as to the accurate address of the subscriber.

MAKE YOUR REPORTS LEGIBLY AND ACCURATELY—KEEP WORKING CONSISTENTLY AND CONSTANTLY—AND WIN!!

Find out your weak points. If your efforts to secure subscriptions are resulting monotonously in failures—if you're not getting over with your sales-talk as often as you believe you should—find out where you are failing and whether or not your approach or system of securing interest fails to work out—and then correct it. Find out your point of failure—and remove it.

### PUNCH---PEP---PERSEVERANCE

Punch, pep and perseverance—THE THREE P'S—have made the success of many a great man. And the lack has meant failure where everything seemed to point to success.

PUNCH — PEP — PERSEVERANCE—have you utilized them in your work? Have you in your daily efforts a superabounding belief in your product in yourself, and a confident knowledge of the value of that which you sell, that convinces your prospect as it has convinced you? Have you cultivated in yourself an ability to KEEP GOING—to come back in spite of rebuffs and to rise up in spite of hard defeats—to show stamina where most people show the white feather? Have you achieved such a determination and belief as to be able to disregard everything except that which helps you toward your goal? AND ARE YOU PUTTING INTO YOUR WORK THE VERY BEST THAT IS IN YOU OF PEP AND PERSEVERANCE—OF EFFICIENCY AND CONSISTENCE?

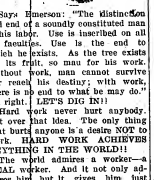
If you ARE utilizing THE THREE P'S—YOU'LL WIN. And, if you're not—NOW IS THE TIME WHEN THEY WILL HELP YOU THE MOST.

PUNCH — PEP — PERSEVERANCE—THEY CAN WIN FOR YOU!

It is not only in promising yourself to succeed, that achievement lies. It is also in the honest effort to make good what follows that promise—in the determination to prove yourself worthy of success—that achevement lies. And only then determined and honest effort can you ever hope to win. THINK IT OVER!!!

### YOUR GREATERT NEED

Your friends, a great many of them, promised you their subscriptions "when you needed them." Perhaps they did this merely to get rid of you—perhaps they really meant it. If they are friends of yours, it is certain that they will be more than glad to help you, given an opportunity.



AT, my rate—go back to every one of those who has refused you before, and tell them that you are in desperate need of subscriptions right now—that you'll never need their subscriptions worse than you do right now. Tell them that YOU'VE GOT TO HAVE THEIR HELP AT ONCE TO WIN— AND STICK UNTIL YOU GET IT.

There are hundreds of subscriptions to be had right now in your territory. Despite the fact that there ARE a great many actively working contestants — still YOU, knowing your territory and the people in it, have by far THE BEST CHANCE to secure subscriptions—IF YOU GET INTO THE RACE AT ONCE.

MAKE IT A WHIRLWIND FINISH AND A WHIRLWIND SUCCESS —MAKE EVERY DAY OF THE SECOND PERIOD COUNT TO THE UTMOST FOR VICTORY—KEEP IT UP—AND THERE'S NO ONE WHO CAN BEAT YOU.

WORK HARD—AND WIN!!

### Mr. B. Busy Says

Says Emerson: "The distinction and end of a soundly constituted man is his labor. Use is inscribed on all his faculties. Use is the end to which he exists. As the tree exists for its fruit, so man for his work. Without work, man cannot survive nor reach his destiny; with work, there is no end to what he may do." All right. LET'S DIG IN!!

Hard work never hurt anybody. Get over that idea. The only thing that hurts anyone is a desire NOT to work. HARD WORK ACHIEVES ANYTHING IN THE WORLD!!

The world admires a worker—a REAL worker. And it not only admires him, but it gives him just about whatever he wants. YOU'VE GOT TO BE A WORKER—A REAL WORKER AND A CONSTANT WORKER—IF YOU WANT TO SUCCEED!!

Advertise yourself. Don't hesitate to publish your work and your needs wherever an advertisement will assist you in any remote way. IF EVERYONE WAITED FOR ADVERTISEMENT FROM OTHERS—AND NEVER DID ANY HIMSELF—WE'D NOT GET VERY FAR!!

### HITS FOR SUCCESS

Don't be afraid to ask your friends for help to win. Tell them what you are working for and of the good work you have done so far—show them what a large reward you can win, for good work—and they'll be more than glad to help you. Remember—when a close friend gives you subscription to help you in your work—he's doing you a favor—but he is also getting more than his money's worth in actual news. Show him the value of The Tribune—its market reports twice a week, its twice a week publication of NEWS WHEN IT IS NEWS, its farm clientele—and there are very few who won't be more than glad to help you with a long term subscription.

Also, wherever possible—work for long term subscriptions. Subscriptions for one year, after ten o'clock July 10th, entitle you to 5,000 votes —subscriptions for three years to 25,000, and subscriptions for five years to 50,000. Thus it may be plainly seen that as the subscription amount increases, the vote total credited increases even more.

Advertise yourself. Tell your friends—and convince them—that you are in to win. Let everyone in your neighborhood know about your campaign and about your belief in yourself. ORGANIZE EVERY FRIEND AND ACQUAINTANCE AND NEIGHBORLIN A SOLID BODY BEHIND YOU—GET THEM TO WORK FOR YOU AND HELP YOU IN EVERY WAY POSSIBLE—AND IT WILL TAKE A MIGHTY GOOD WORKER TO BEAT YOU.

And—most important of all—DON'T SLOW UP FOR A MOMENT. Keep up your work just as you did during the First Period—without flagging or halting for a moment. Don't let anyone discourage you—don't let any temporary failure or rebuff sour you against the work. Just keep working and keep going—keep trying and keep fighting—AND WIN!!

WORK HARD—AND WIN!!

Every day brings joy and sorrow to all. Forget the discouraging events. You're not having any worse work getting ahead than any of your rivals. The difficulties that confront you come also to halt the progress of your opponents. You CAN win if you simply keep your heart up. The man who makes up his mind to win a car—who works always forward with that one goal in mind—who turns every possible opportunity to his advantage—who disregards every discouraging event and remembers only the wonderful chance he has to win—WILL WIN THE CAR HE WANTS. Nothing is impossible to him who keeps trying. One of the cars can be YOURS!

GO IN AND GET IT BY WORKING HARD RIGHT NOW!!!

### WHERE THERE'S A WILL

(Note: This true story of a young man's great success, unaided by riches or influence, in a campaign exactly similar to that now being conducted by The Tribune, and written by that young man several years ago, will appear in installments in this column during the progress of The Tribune's great $3,600 campaign. READ IT—DON'T MISS IT—IT HAS MUCH IN IT FOR YOU.)

**(By Robert Douglas)**

**Chapter Ten**

The vote standing appeared Wednesday, giving the names and vote totals of all the contestants entered in the race.

I found something in it which gave me a whole lot of concern—something that really frightened me for a while. A girl named Sterling, living only a few miles from my home, had leaped from the bottom to a big lead over all the workers. I had heard rumors from time to time that she was putting up a hard fight, but had never before thought much about it. Right then I decided to see that Miss Sterling didn't get any further ahead—and to make my mighty hardest effort to take the lead away from her.

I worked harder that week than I ever had before. Up early in the morning—to bed late at night—and busy all the time. Somehow, I began to wonder if the really wonderful offers I had taken at the beginning of the campaign weren't more flukes than anything else—if I hadn't simply had the proverbial "beginner's luck." I was down in the mouth and discouraged. It was hard work mighty hard—and I had to fight all the time. It was a close fight and a hot one—every contestant was working desperately, and every one of them was a dangerous rival. I'll give you just a few samples of the kind of things I had to go up against.

One old duffer—a bit of a crab, anyway—told me, when I approached her for a subscription: "You're working for a crooked bunch—and I wouldn't help you even if I did want to take The World. You'll never get anything out of it—and you ought to know it."

Another one—"What do I want that paper for, anyway? You can't tell me there isn't a string tied to it somewhere—that it isn't a fake—you know they couldn't afford to give away all that stuff for nothing. You'll get stung and stung bad—and I don't want to be tangled up in any hard feelings afterward."

And what I told both of these could be compressed into mighty few words—THAT THEY SIMPLY DIDN'T KNOW WHAT THEY WERE TALKING ABOUT. I showed them The World was a good paper—and they admitted it. Then, I argued—would a good newspaper, a paper with the standing of The World, DARE to cheat its readers and friends in any such manner? Would any respectable newspaper—a newspaper drawing its sole support from satisfied readers and satisfied advertisers—BE FOOLISH ENOUGH TO CUT ITS OWN THROAT IN SUCH A MANNER? And, last of all—I did this solely as a bluff, tho I would have made good if necessary —I GUARANTEED TO THEM THAT THE CAMPAIGN WOULD BE FOUND ENTIRELY SQUARE BY JUDGES AT THE END OF THE RACE, And they kicked in with subscriptions—because I told them politely that I was going to keep on trying until they did!

The offer looked too good to be true—and it was. But I determined to go on working and fighting and trying right up to the last day—I DETERMINED TO WIN THE FIRST.

* * * * * *

I told Mr. Silver that our price was fifteen dollars for three years—being very careful not to mention shorter terms.

He hesitated: "Er—now—honestly, Douglas—I'm not at all sure that I care—that I care to take your paper just now."

I came back quickly: "Mr. Silver —how many farms do you own?"

"Why—why—I have about thirty listed right now. You understand that I own an interest only in these farms. But—what has that to do with it?

"On most of the farms, you have tenants working and selling grain and stock on shares with you—haven't you?"

"Why, yes—but what—"

"How do you know whether they are selling the product that belongs partly to you at top prices or not? How do you know when you can get the best price—and when the prices are low for buying?"

"Why—I always call up the Midland Elevator—down by the depot, when I want to know anything like that—"

"Yes, and half the time you don't get information or satisfaction, because the one who handles the market report from the Board of Trade isn't always in. Wouldn't you rather have the market report delivered RIGHT TO YOUR DOOR OR HERE AT THE OFFICE? Admitting that the manager is a friend of yours—don't you think you'd rather not impose on him all the time?"

"Well—I—"

The World brings you the market report three times a week. You get an absolutely up to date, correct and accurate report—you can paste it our and file it or give it away or do anything with the report—and you don't have to go to the annoyance of phoning for it. And The World brings you more than that. In The World is the latest local news—the real estate transactions—the national news—THE WORLD IS YOUR ONLY SAFE BET AS A NEWSPAPER!!" I abstracted my receipt book from my desk, and started to fill it out. I filled it out completely—for THREE YEARS—saying not a word in the meantime.

"This receipt is for three years, Mr. Silver. You're getting The World at a time when the price is lower than it is likely to be in the future—and at the same time are helping me tremendously. Ten dollars is the correct amount—"

"Say—why—oh, well, I guess it's all right. Ten dollars, did you say?" and he swung to his desk and started to fill out a check for that amount.

"All right, Bobby—here you are," and he handed me the check. I turned and started out, after thanking him most deeply. "Say—Bobby—did you ever think of being a book agent?"

(To Be Continued Tuesday).

## ROSEWOOD

The Parochial school picnic held last Sunday afternoon at the Rinda church grounds in commemoration of the closing of a successful five weeks term of school under the direction of Mrs. Inga Berg of Thief River Falls, was a very demonstrative and educational entertainment and brought out several hundred attendants many of which came by car from nearby cities including Thief River Falls, Viking, Newfolden, Holt and others. A short speech was given by Rev. G. Larson of Thief River Falls and a lengthy program including many selections of readings, solos, duets, recitations, etc., was very admirably rendered by the school.

The music and singing was lead by Mrs. Rudolph Sagmoen of Anita. Refreshments of various kinds were on sale after the program on the grounds and the afternoon was very pleasantly passed in conversation and the meeting of friends.

Mrs. Axel Axelson is at this writing in a very low condition caused by blood poisoning of the knee following an infected small sore by poisonous weeds when picking strawberries. She is under constant care by physicians from Thief River Falls and her condition is considered very serious.

Mr. and Mrs. A. S. Holm, John Sagmoen and Joel Shoberg spent Saturday evening at Warren to attend the county fair.

Gust Opstad and Axel Larson were home from Radium where they were last Sunday to visit with friends.

Another sharp decline in the beef prices in South St. Paul has caused the Red-wood Shipping Association to postpone their next shipment of mixed stock until Saturday, July 17, to watch the trend of the market. Local buyers are this week offering as low as 2½ cents for canner cows and slightly above for better grades.

Joel Shoberg and Axel Blegs spent Sunday afternoon at Hazel as guests with the J. Shoberg family.

Miss Annie Blom, who has been employed east of Thief River Falls for some time returned home this week.

Miss Ethel Kron will leave the beginning of this week for Fargo where she will seek employment for the summer months.

Miss Laura Kron spent Sunday at Wylie to visit with friends and relatives.

Mr. and Mrs. Alec Gullseth from Pinewood, are visiting this week with the Anton Gullseth people in town.

A number of friends, neighbors and relatives surprised Mrs. Gullseth northwest of town last Sunday in commemoration of her birthday.

Emil Mellem from Nekoma, N. D., arrived the latter part of the week to visit with his parents, Mr. and Mrs. T. Mellem during the fourth.

The Rinda ladies aid held their monthly meeting at the home of Mrs. Gust Nakken last Tuesday afternoon and the young peoples' society of the same congregation met at the church the same evening, both meetings were well attended and successful. Rev. Geo. Larson of Thief River Falls was in attendance. The next ladies aid meeting will be held at the home of Mrs. M. Jarsaw on the afternoon of August 3.

Miss Ingn Sangen, a nurse from the Thief River Falls hospital is spending her vacation with her mother north of town.

The A. C. Vorseth family in company with some friends spent Monday at Middle River as guests with the Emil Peterson family.

Lars Lee a former resident of this place who is now making his home farther south in the state, arrived here Saturday morning for a few days visit with friends.

Mrs. James Johnson and son, Earl, arrived Saturday morning from Thief River Falls to visit over the fourth at the John Hedquist home.

Gust Nakken returned last week from Fargo and Moorhead where he spent a week to visit and attend to business. Crops between Fargo and this place, according to Mr. Nakken, are in fair shape but not much ahead of this community excepting certain stretches which are not infected with the destructive milk weed and in consequence show more even seasonage.

Sven Swenson spent a few days of this week attending to business matters in Newfolden.

Bunker and Mrs. A. S. Holm, John Sagmoen and Joel Shoberg left Saturday evening for Warren to attend the county fair.

Mrs. T. Mellem left Wednesday morning for Viking where she will visit for a day with her daughter, Mrs. S. S. Nordnaard.

## SHEENFUL CROWN OF NEW LISERE

This new summer hat is very creative with its crown of sheenful lisere. The band of rose buds at the base of the crown pleasingly accentuates the origin of the brim of tinted satin which casts its colorful glow in reflected light on Dilly's face. The short brim on the left and back gives the model a chic appearance—almost inclined to rakishness.

"Fritz" Rafteseth came Saturday from Pipestone where he is employed to spend the fourth with his parents here.

Herbert Carlson and Miss Gena Aos left Saturday morning by car for Devils Lake, N. D., where they will visit for the day with Mr. Carlsons brother, Holmer, who is employed at that place.

Mr. and Mrs. A. H. Halverson from Clay county, arrived here by car last Saturday for a brief visit with Mrs. Halverson's brother, Anton Gullseth, and other relatives.

Freddie Johnson of Holt left on the Thursday evening train here for Thief River Falls where he will attend to business.

### Cooperstown.

Probably the most complete monument to an American writer is existence is Cooperstown, a picturesque village in northwestern New York on Lake Otsego, near the source of the Susquehanna. It was named after James Fenimore Cooper's father. It was the writer's home and is his burial place; the scenes of his various stories are laid around it and the greater part of its population at present is made up of his relatives or connections by marriage. In fact the whole place is flavored with the essence of Cooperism. A well-worn path to the writer's grave in the old churchyard gives mute testimony to his popularity.

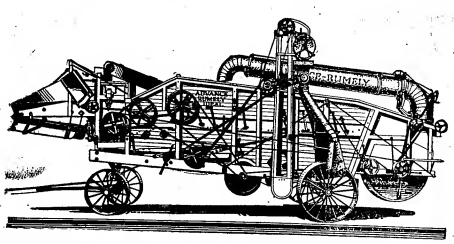
# 6 Big Reasons Why You Should Prefer an Ideal

BACKED BY WRITTEN GUARANTEE ADVANCE-RUMELY

1. *Large Capacity*—The Rumely Ideal can't help but be a big capacity machine: it is built on the common sense principle of *keeping the straw moving*. There's absolutely no chance for slugging, winding, choking, bunching or any other hindrance to large capacity, when the straw is *kept on the move* as it is in the Ideal.

2. *Saving the Grain*—Saving all the grain is just as important as producing it—of course. The Rumely earned the name "Save-all-the-grain Ideal"—*by saving it*. In any kind of straw—headed, bundled or loose rakings—dry, wet or frozen—the Ideal handles all jobs the same—without waste.



3. *Clean Work*—This is accounted for by the extra large chaffer area, the adjustable sieve in the shoe, and the Ideal system of wind control—a guarantee of a perfect job of cleaning without waste, under every condition. The Ideal does the kind of cleaning that gets you no "dockage" at the elevator.

4. *Strongly Built*—One-piece timber can't pull apart, sag or rot, as spliced or bolted members will. The Ideal is a one-piece job—sills, posts, deck rails, straw rack sides. Then, there are the heavy, substantial trucks, and all shaker hanger bearings running in adjustable boxes. That's the kind of construction that *insures* long life.

5. *No Vibration*—Vibration makes a young machine old before it has served its time—it wears out the bearings and pulls the shafts out of alignment. Counter balancing of all moving parts in the Ideal—perfect balancing of the cylinder—make the Rumely so steady running that when compared to other separators vibration simply does not exist.

6. *Easy to Operate*—You don't have to crawl inside the Ideal to get at the working parts. All bearings, concave adjustments and regulation of the blast are on the outside of the machine, also all oil and grease cups, where you can take care of them while the Ideal is running.

**The Ideal is built in five sizes—22x36, 28x44, 28x48, 32x52 and 36x60.**

# THE TRIBUNE

SEMI-WEEKLY

ESTABLISHED 1901

*Official County Paper*

Pennington Printing Company
Publishers

Thos. A. Way, President

Published every Tuesday and Friday at
Thief River Falls, Minn.

R. B. McWilliams, Editor and Manager

Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

We hope every business man in Thief River Falls will take an interest in the sweet clover this year. The crop has been planted by many farmers and others for the first time. Sweet clover will do more for Pennington county than any other crop. The business men have the same general interest in the crop as the farmer. Drive out into the country, look over the sweet clover fields, talk with the farmer and learn all about it. You will know when you come back, you will feel better, and you will be a sweet clover booster.

Wonder if the San Francisco convention will endorse the stand taken by President Wilson in issuing a pardon to Kate Richards O'Hare the anarchist, who in a speech in North Dakota referred to the mothers of boys in the service of their country as brood sows? This incident will undoubtedly cost the democratic nominee several votes more, as it should, for a person of the O'Hare stripe is not fit to be at large.—Donald S. D. Record.

James M. Cox, the democratic nominee for president, is governor of Ohio. He is a so-called personal liberty man and is classed as a wet. He is a self made man, and smokes a pipe. He comes up from the people and they call him Jim. He received the news of his nomination and went first to the composing room of his newspaper to tell the printers, and next in a taxi at four in the morning to break the news to his best friend. Later he went alone to the cemetery and bowed down in reverence and in prayer at his mother's grave. The burden of eight years of Wilson has doubtless placed the prize of the presidency beyond the reach of any democrat at this time. Upon issues we may agree, or disagree with propriety and respect for those who differ with us. To the sentimentalists who are shedding tears of regret over the horror of the Cox nomination, we would suggest that the hardest thing the republicans will have to meet in the coming campaign is the extremely high standard, outstanding Americanism and honest, hardy manhood represented by candidate Cox. We may beat him. If we do it must be on issues. James M. Cox is a man, honors the party that has named him as it's standard bearer.

Our office has been most highly honored during the past week. We were favored with calls by several notable and eminent men. Among them Hon. Jake Preus, republican nominee for governor. Mr. Preus is a delightful, genial and common good man. He is sure of election, and will be one of the big men of the state to occupy the Governor's chair. Minnesota has made a wise selection in Mr. Preus.

E. C. Blackert, of Selkirk, Manitoba. While Mr. Blackert has a position of importance as a business man and prominent citizen in Manitoba affairs, we like best to remember him as an old timer, and type setting editor, journalist and diplomat for twenty years on the Spirit Lake, (Iowa) Beacon. Mr. Blackert called on Iowa friends in the city and made them happy.

Hon. A. B. Funk, home in Des Moines, citizen at large. Mr. Funk has farms and friends in Iowa, Minnesota and Manitoba. He was with Mr. Blackert during all the years of Beacon ownership. He is known in Iowa as the premier editorial writer of the state. He has had large holdings of land for many years in Pennington and adjoining counties. He has extensive land interests in Manitoba and makes annual trips here to look after his property. Mr Funk was for many years in the Iowa senate. He declines the governorship of Iowa because of illness in his family, was a candidate for United States Senator. He has been drafted three times by Iowa governor to fill important places on boards at critical times, and is now chairman of the Industrial Commission. Mr. Funk has had many honors at the hand of Iowa people. He has deserved them all. It is such men as Mr. Funk with his high ideals, strict integrity and substantial ability that have given Iowa a conspicuous place in the nation as a safe, sane and reliable state.

## PALMER, PROVOCATEUR

Which is the worse, to be a passive friend to Anarchists, or an active provocateur of anarchy? If even he's that is responsibly said about them is true, that is the choice which we must make between Mr. Louis F. Post, Assistant Secretary of Labor, and Mr. Mitchell Palmer (if that is still the approved form of his name), Attorney-General of the United States.

The charge against Mr. Post is made by Mr. Palmer, who says that the Assistant Secretary of Labor has shown himself a sympathizer with "Reds" of the worst type, has made "wholesale jail deliveries," has released self-confessed Anarchists, has cancelled hundreds of legal warrants issued by the Department of Justice, has nullified the purpose of Congress in passing the deportation act, has hamstrung the Department of Justice with "outrageous and unconscionable falsehoods," and has committed other heinous acts too numerous to mention.

So much for Mr. Post. Now what of Mr. Palmer himself? Here is a part of the astounding indictment which is made against his department:

Maintenance of agents provocateurs for the purpose of joining and becoming officers of radical organizations and inciting their members to criminal activities; wholesale arrests and imprisonment of men and women without warrants or pretense of warrants, and illegal searches and seizures, in violation of the Constitution; forgery by agents of the department to make cases against innocent persons; criminal thefts of money and other personal property from victims of raids by agents of the department; cruel and unusual punishments visited upon prisoners taken into custody with and without warrants; the use of Government funds in violation of law to spread newspaper propaganda; compulsion of prisoners to be witnesses against themselves; brutal and indecent treatment of women; refusal to let prisoners communicate with friends or lawyers.

These amazing accusations against Mr. Palmer's Department of Justice are backed up with chapter and verse, with specifications of names, dates and places, and literal citations from official documents of the Department. Here, for example, is a statement concerning the treatment of some men who were arrested on suspicion of being Anarchists:

In the jail were four punishment rooms all alike, unventilated and absolutely dark, four feet three inches by eight feet ten inches, with solid concrete floors and no furniture of any kind, and placed over the pump room of the boiler so that the temperature became unbearably high. A number of supposed Anarchists or Communist prisoners, probably ten or fifteen, were confined in these rooms for periods of thirty-six to sixty hours. During their imprisonment, in the suffocating heat, they were given one glass of water and one slice of bread every twelve hours. Some of them on being released had to be revived before they could be carried to their cells. These prisoners were practically buried alive for five months, being even denied the privilege of seeing their relatives. That there were no substantial charges against at least one of them is known by the fact that after being held in $10,000 bail for two months and a half, these ten were released without bail.

No, that was not in the Petropoulovsky Fortress in the reign of Alexander III and Pobiedonoseff. It was in the jail at Hartford, Connecticut, under the Administration of President Woodrow Wilson and his Attorney-General, Mr. Mitchell Palmer.

To this appalling indictment the Attorney General pleads in three distinct and separate ways. To some counts he pleads not guilty, declaring that they are "vicious, slanderous, and unlawful [sic]." To some he pleads guilty, and quotes in the fact. Thus he supports his agents in requiring excessive bail, quite regardless of the Constitutional prohibition thereof. Also he heartily approves the practice of refusing to let prisoners have the benefit of counsel, in order that the prosecution may extort from them all possible information and confessions before they are advised as to their legal rights—a piece of cynical immorality for which it would be difficult to find a parallel.

His third answer is an impudent attempt to discredit his accusers, on the old principle of "No case; abuse the opposite attorney." With an asinine affectation of ignorance of men who are his professional superiors, he queries "if they are reputable lawyers," and declares that he, the Hon. Mitchell Palmer, is "not much impressed" by them. Perhaps they do not amount to much in his estimation, but one of them is merely the Dean of perhaps the most famous University Law School in America,—that of Harvard; five others are merely professors of law in four of the foremost American schools of law, one is merely a former Judge of a United States Circuit Court, one is merely a former United States District Attorney, and so on. Why should he Hon. Mitchell Palmer be "much impressed" by them? Probably he was "not much impressed," either by the stinging words of Judge Anderson, of the United States District Court in Boston, which we have already quoted, but which are worthy of repetition in confirmation of these new charges against the Department of Justice. Said Judge Anderson:

I wish you would show one case in which the Department of Justice has the authority to arrest persons and hold them for two weeks without warrants. A more lawless proceeding is hard to conceive. I can hardly sit on the bench & an American citizen and restrain my indignation. I view with horror such proceedings as this.

Mr. Palmer charges Mr. Post with seeking to transform America into something like the Rus a of the Soviets. But by his testimony of a distinguished lawyers, by the judgment of a distinguished Judge of a Federal Court, and by his own defiant confession, Mr. Palmer is trying to transform America into something like a mixture of the Russia of the Czars and the France of the lettres de cachet. Recurring, then, to the question already asked, ye must recign that Mr. Palmer is by far the worse offender of the two. That is partly because of his higher official rank than Mr. Post's; partly because the doing of injustice by the Department of Justice is incomparably revolting; and partly and chiefly because such practices as his are far more likely to tempt or impel men into Anarchism than all the doctrinaire fiddlings of Mr. Post. It is notorious that Anarchism and Nihilism were provoked and fostered in Russia by precisely such proceedings as these with which Mr. Palmer's department is charged and which in part he admits and seeks to uphold; and it is axiomatic that like causes produce like effects. That is why we must regard Mr. Palmer as probably the most pernicious provocateur of Bolshevism and Anarchy now menacing the peace and integrity of the United States.—Harvey's.

## OLD COMPANY FLOURISHES

Lincoln Journal: The Hudson Bay company began its work in Canada 250 years ago, when it had the entire field at its disposal. It may surprise the public to know that the encroachment of civilization has not reduced the number of branches maintained by this organization. It has 155 fur posts thruout Canada, the largest number in its history, and it is preparing to extend its operations during the coming year. This will be done by opening new posts far in the north, by building and operating boats, and by cultivating the field of general commerce in the well settled portions of the country. The big source of fur has led to the intensive cultivation of the industry. Canada is expected to furnish a permanent supply of pelts, not only from its unsettled northern districts but from the fur farms which are being established here and there thruout the dominion.

## SPLENDID CANDIDATES

Statement by Will H. Hays, Chairman, Republican National Committee.

Senator Harding possesses just those vital qualities of mind and heart necessary today and in the time just ahead. His poise of mind, his soundness of judgment, his appreciation of the needs of today and of tomorrow, his love of the people from whom he came and of whom he is one, and his faith in them; his magnificent grasp of large affairs, his great native ability and his training in statesmanship, his regard for the opinion of others, his experience and success in the handling of men, his proper appreciation of his country's position as a responsible factor in the world's future, his with the fullest realization of the absolute impotence of our own supreme nationalism, his sterling Americanism, his righteous character and manhood, and withal his thorough humanness, all qualify him in the most exceptional degree for the tremendous responsibilities which will soon be his. He will make a splendid candidate and a great president. The country will love him, honor him, trust him and follow him, just as all who know him love and trust him, and the world will honor him.

Too, in Governor Cooldge we have a candidate for vice-president that measures up to every requirement of a presidential candidate. Fortunate indeed is the country.

## POLAND'S FAILURE

It is America's duty in friendship to warn Poland against the disastrous imperialism of her government whenever there is excitement in eastern Europe it is usually because another Polish adventure in militarism is afoot. Poland is becoming the new Prussia of Europe. Dountnegging sabre rattling seems to be the ambition of her most conspicuous public men.

America has long sympathized with Poland. It was the insistence of this country's representatives at the peace conference that gained for Poland her Baltic port of entry at Danzig. Without America's aid, Poland would still be partitioned among Russia, Germany and Austro-Hungary. Free Poland has stirred America's imagination. But, America cannot approve the Germanized spirit which has grown in Warsaw since the Poles were given their independence.

The latest of Poland's mad adventures is ending disastrously. The belief of the Polish army that it could successfully invade Russia after the European powers had failed to destroy Russia's ever renewed military strength, has met with its predicted failure. After a spectacular dash into Ukraine and the capture of Kiev, the Ukrainian capital, the Poles have had to abandon the city and retreat toward their own territory.

They are reported to have committed many acts of vandalism, including the destruction of the Kiev cathedral. Whether or not reports of savagery are true, there was never any legitimate reason for the Ukraine campaign. It was purely a raid for more territory and power. It has still further delayed the opening of Russia's grain ports to the world. It has needlessly added to the suffering of eastern Europe.

## THEY SIMPLY LIED

DeSmet Independent: Speaking of profiteering, grafting, or whatever you want to call it, we find it almost everywhere, but it is the big industries engaged in the manufacture or necessities of life such as shoes and clothing that attracts the most attention because everyone suffers from it. Just now we are coming nelled to pay two or three prices for clothing. The boost in clothing prices, the manufacturers have been telling us for the past two years, is due to the scarcity of wool. They told us that it would be ten years before the supply of wool would catch up with the demand and the, trade get onto a normal basis. They lied to us. Today the warehouses in the large centers are full, and the wool buyers refuse to make any kind of a bid on the 1920 wool crop. The bulk of the 1919 crop is still in the warehouses. Shoes are much the same. Scarcity of leather they told us was responsible. It was going to be years and years before there would be enough to go around. Of course, they lied to us. Hides are selling today cheaper than for several years. Art Back, the meat market man, shipped a cow hide the latter part of last week, and what do you think he got per pound? Seven cents a pound. The average cow hide at that price brings about $4.20, with the freight to be deducted from that. At that rate it takes about three cow hides to buy one pair of common fine shoes, or two hides to buy a pair of very ordinary every day shoes. This talk of short production of raw material is mostly "bunk."

The Times almost said something in their Thursday edition. They straddled as usual, with a leg for the republicans, a leg for the democrats, a leg for the non partisans and two legs dangling, reserved for the La Follett and prohibition parties. Some centipede, the Times is, on public questions, with a leg for all of them and willing to ride anything that prances.

The crop situation in Pennington county, according to all reports, and in appearance was never better. The favorable season is best evidenced by the very rich heavy and abundant tame grass crop. The rye, especially the winter rye, is excellent. Wheat, oats, barley all fine. We think flax shows better than it ever has. The plant is well advanced, hardy and vigorous. All garden crops are most excellent. The past two or three weeks has been a trifle dry in some places. We have had many small local showers but no general rain. Nothing is suffering for rain. The numerous new fields of sweet clover have done well everywhere. Every one who has planted sweet clover is delighted with the actual meanmuch to "get on" with a good result the first year with this great crop, and we are "on" this year with sweet clover and everything else. Good old Pennington county is bringing home the bacon again as she always does. Mr. Farmer, Laborer, Businessman, a big business is looking you straight in the face, get ready for it.

## NOTICE OF ANNUAL SCHOOL MEETING

Notice is hereby given that the annual meeting of the qualified voters of Independent School District number eighteen of Pennington county, Minnesota, will be held at the Auditorium in the city of Thief River Falls in said county on July 17, 1920, at seven o'clock P. M., for the purpose of electing two directors, each for a term of three years, to succeed P. F. Haynes and H. S. Dahlen, whose terms will expire, and to transact any other business which may come before the meeting

The following are the names of the candidates for the office of school director for whom applications have been filed and their names be placed on the ballot as such candidates at said meeting, to-wit: None.

July 7, 1920.

P. O. Myhrum
Clerk.

## Notice To Contractors

Sealed proposals will be received at the office of the town clerk of the Town of North, County of Pennington, State of Minnesota until Two o'clock P. M. on the 21st day of July 1920 for the construction of two piers and one abutment on the Long Bridge. Plans for the proposed work may be seen at the Town clerk's office Thief River Falls, Minn.

July 7th, 1920.

T. H. Bjerke
Town Clerk, Town of North.
July 9-16-23

## And Thence Your Success in The Tribune's Great $3,600 Automobile Campaign Depends on Your Subscription Work During the Second Period

Monday morning, July 12th, the automobile campaign enters a new period.

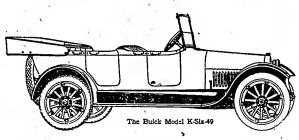
There are three weeks of this period—three weeks during which the hottest fight of the whole campaign is almost certain to develop—three weeks during which YOU will win or lose. Every day of the next three weeks will becrammed full of opportunity and offering to candidates the prospect of realizing lifetime dreams. During the last period the real fight will come—during the last period the decision of the campaign will come.

Look over the list below. You will find it much shorter than at any past time, but you will also find that every one of those candidates whose names appear on the list is a REAL WORKER bent on winning the Buick "Six" and working desperately to accomplish that object. Between you and these contestants will come the last desperate struggle for votes to win—and it's up to you to see that YOU come out ahead.

Make every day and every hour of the last three weeks count. You have as good a chance as any rival—it will be as easy for you to secure subscriptions as it will be for any of your opportunity. Don't allow temporary set backs to discourrge you—don't slow up because of the slight failure or disarrangement of your plans. To every worker will come the same disopponents and the same obstaccles as come to you. And if you are in the race to win you will not allow anything to retard you—you will go on over every obstacle until you win.

The remaining time will pass quickly. All contestants are urged to start in Monday on a last whirlwind campaign for votes during the Second Period— a last effort that will put them ahead. Make the last weeks win for you—DO YOUR BEST WORK NOW!

## CONTEST STANDING



### District No. One

| | | | |
|---|---|---|---|
| Harry Land, city | 380,000 | Mrs. Henry Sandee, RFD, city | 10,000 |
| Mrs. Edwin O. Erickson, city | 425,000 | Julius Lides, RFD, city | 10,000 |
| O. L. Cronstrom, city | 405,000 | Mrs. Thomas Rowan, city | 275,000 |
| Mrs. L. Hermanson, city | 10,000 | Luella Peterson, city | 60,000 |
| Robert Halvorson, city | 220,000 | Mrs. H. F. Boreen, city | 10,000 |
| Leo Miller, city | 10,000 | | |

### District No. Two

| | | | |
|---|---|---|---|
| Betty Johnson, Holt | 90,000 | Gunder Tviet, Golden Valley | 150,000 |
| Sylvia Pierson, St. Hilaire | 285,000 | Arthur Olson, Middle River | 10,000 |
| Martha Aslin, Plummer | 328,000 | Emma Anderson, Middle River | 10,000 |
| Ethel Anderson, Wylie | 75,000 | B. O. Norby, Goodridge | 110,000 |
| Borghild Berg, Middle River | 10,000 | Mrs. C. E. Lundgren, Viking | 60,000 |

## First Capital Prize---Buick 'Six' Cost $1,790.00

The Buick Model K-Six-49

Purchased from and on display at
The People's Auto Company, Thief River Falls, Minn.

## SATURDAY

The First Period of the vote schedule in the wonderful $3,600 automobile campaign comes to a close Saturday night, July 10th, at midnight. During the First Period every worker has been constantly urged to obtain as many votes as possible. And every contestant HAS DONE SO—so that the race comes to the turning point with the workers bunched closely---with no worker with a really strong lead and no worker far behind. All contestants must make even harder and more succsseful efforts during the last weeks! Keep going, constantly, with but one objective in view---TO WIN THE BUICK "Six" OR NOTHING! And stick to that resolution until you win!

### SUBSCRIPTION RATES AND VOTE SCHEDULE

Votes will be allowed on all prepaid subscriptions to The Tribune. No subscriptions will be accepted to count votes unless accompanied by full amount in cash.

**FIRST PERIOD**
**("Double Vote" Period)**

From May 29th to July 12, Semi Weekly Tribune, by Mail or Carrier.

| | Price | Votes |
|---|---|---|
| 1 Yrs. Sub. | $ 2.00 | 10,000 |
| 3 Yrs. Sub. | 6.00 | 50,000 |
| 5 Yrs. Sub | 10.00 | 100,000 |

**SECOND PERIOD**

From July 12th to July 31st, Semi-Weekly Tribune, by Mail or Carrier.

| | Price | Votes |
|---|---|---|
| 1 Yrs. Sub. | $ 2.00 | 5,000 |
| 3 Yrs. Sub. | 6.00 | 25,000 |
| 5 Yrs. Sub. | 10.00 | 50,000 |

For further information, address
Manager, Automobile Campaign
The Tribune
Office open evenings Phone 50

## MONDAY

The second period of the vote schedule will open Monday, July 12th. The votes to be given on subscriptions during the coming three weeks---the last three weeks of the greatest campaign ever conducted in northern Minnesota---have decreased in volume to some extent---but hard work will make up for that decrease. No matter if you did lose out, for any reason, during the First Period---the Second Period gives you an opportunity to win back lost ground, to regain the lead which you have forfeited. The race is so close right now, that the car may still go to anyone---no matter if that person is now in the lead or far behind. Hard work will win---and you've got to do that kind of work. Make the last weeks win a car for you---do your hardest and most efficient work during the last period. You CAN WIN!

## GERMANTOWN

Mr. and Mrs. C. Struble were guests at the D. Dan home Tuesday evening.

Mrs. Hans Dahl visited at the M. Johnson home Monday.

Miss Hattie Klockmun was a Germantown caller last Monday.

Mr. and Mrs. Olaf Tharaldson and children, Silva and Gehart, and Henry Tharaldson motored to the Bendickson home Tuesday evening.

Silva Bendickson was a caller at Dahls Thursday of the past week.

Mrs. John Phipps visited at the C. Klockman home Friday.

Mrs. Hans Dahl visited at the Martinus Johnson home last Monday.

H. Berve was a caller at Germantown last Monday.

Miss Clara Johnson was a guest at the Henry Roller home last Tuesday.

Miss Bertina Haggy left for Minneapolis where she will visit friends for a couple of weeks.

Silva Bendickson was a caller at Dahls Thursday evening.

Florence Johnson visited with relatives and friends for some time.

Mrs. Emil Henson visited at the Hans Dahl home Tuesday.

Bessie Roller was a Germantown caller last Tuesday.

Messrs Olaf and Henry Tharaldson called at the Bendickson home Friday.

Bernard Bendickson returned from Garrison, N. D., where he has been visiting for a couple of weeks.

Mrs. Ritze and children of Thief River Falls visited at the Carl Klockman home over Saturday.

## VIKING

Sunday, July 18, the Sunday school children of the Swedish Mission church will have their Sunday school festival at the Peter Erickson farm.

Mrs. Al Axelson returned home from Winnipeg, Canada, last Monday evening, where she had visited with friends and acquaintances and also with her husband who has his business at that place.

A large number of Viking people attended the Marshall county fair in Warren July 1, 2 and 3.

Miss Hilda Hanson visited at the home of her sister, T. Wasley's, Sunday.

Frank Johnson, who is employed near Crookston, spent Sunday at his home here.

Walter Lindell, of Oslo, spent Sunday at his home in Viking.

Every body is busy these days picking wild strawberries which are reported to be quite plentiful this year.

Mr. and Mrs. Peter Lindquist left for the cities last week where they will spend some time visiting at the home of their daughter, A. Kohl's and also with numerous other relatives.

The Viking people celebrated the 5th at different places, Red Lake Falls, Middle River Strandquist, etc.

Miss Vern Axelson of Winnipeg, Canada, is visiting at her home at present.

Arthur Anderson left for St. Paul Saturday evening for a few days visit.

The Albert Tornell family motored to Karlstad Sunday where together with their relatives, Emil Tornells of Warren and Turnquists of Roseau, they spent a very pleasant day.

Services were held in the Swedish Mission church last Sunday forenoon and evening. Rev. Segerstrom officiator.

The young peoples society will meet in the church Friday evening, July 9. A. Axelson will serve. Everybody is invited to attend.

Mrs. John Larson and Martha Benson were guests with Mrs Loge of Oslo several days of last week.

## The Proudest Daddies and Wives in the U. S.

New pictures of the Republican prominees taken since they were named to lead the ticket—and the proud "I told you so" group of daddies and wives of the two families. The picture of the house is where the Republican National Committee will conduct its campaign. It is the Christian residence at Marion, Ohio; next door to the home of Senator Harding. Governor Harding will conduct his campaign from his own front porch—making only a few major speeches—according to present plans.

**Thief River Produce Co.**

| | |
|---|---|
| Hens, light, per lb | .14 |

| Milk, per quart | .10 |

### THIEF RIVER FALLS PLEASED BY QUICK RESULTS

Everyone is pleased with the quick results of simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. One man's eyes were so badly strained he could not read without pain. Two applications relieved him. A lady with weak, inflamed eyes was greatly helped by ONE bottle. We guarantee a small bottle of Lavoptik to help ANY CASE of weak, strained or inflamed eyes. F. J. Stebbins, druggist.

### Beecher and Ingersoll.

It happened at one time that Henry Ward Beecher and Robert Ingersoll met on a platform during a public meeting in New York city, and both were speakers. During his address Mr. Beecher incidentally referred to the splendid oratorical ability of Colonel Ingersoll. The latter declared during his address that his utterances on the public platform against religion would have been impossible if all ministers had been as broad and liberal as Mr. Beecher. These pleasantries were duly applauded by the press at that time.

### COULD GET NO HELP SO FARMS AT 82

With his farm property, valued at more than a quarter million dollars, facing neglect, Louis Bolger of DuPage county, Illinois, 82 years old, is back into work harness and is suiting a lively pace. He was forced to it through the farm labor shortage.

### Making Pets of Fish.

It is probably not generally known, but fish can be made pets of just as any domestic animal. They gradually begin to know the person who feeds them, and when he or she approaches the aquarium they will show every sign of pleasure and delight, wagging their tails as dogs do on the approach of their master. They will also respond to the call of their name and come to the top of the aquarium when summoned. They also show signs of jealousy, and their manner of life in the aquarium with their companions is an interesting source of study.

### New Process in Sculpture.

A process for producing bas-reliefs by photography is the fruit of the invention of an Italian scientist. The basis of the invention is the property possessed by a film of chromium gelatin of swelling in proportion to the intensity of the light falling upon it. The swelling is greater with a low than with a high intensity, so that the light passing through a photographic negative ... "nces upon a chromium gelatin plate a positive in distinct relief. The transparency of an ordinary negative, however, is not truly proportional to the relief of the original model, but by an ingenious automatic device involving double exposure this difficulty is avoided and a negative is obtained having its lights and shades correctly graded to produce the effect in bas-relief.

A St Paul man was fishing in Lake Traverse recently. He caught a Great Northern pike, the biggest he had ever landed in his long and busy life. He was elated. He was erazed with joy, and he telegraphed his wife "I've got one. Weighs seven pounds and is a beauty." The following is the reply he got: "So have I. Weighs 10 pounds. Not a beauty—looks like you. Come home."

### Really Something in a Name.

The Hebrew nomenclature is full of long and difficult names, but the most illustrious biblical characters, from Adam to Maccabeus, have borne names that slip smoothly from the tongue. The same is true of Greek and Roman history, as is illustrated by Pericles, Alexander, Caesar, Cicero, Augustus; and in more modern history by Leo, Charles, Edward, William, Cromwell, Napoleon, etc. American history furnishes no exception. Washington, Lincoln, Grant, Sherman, Sheridan and all the presidents had fine-sounding names.

### Win Fight on Yellow Fever.

In 1916 the Rockefeller foundation sent a sanitary commission to Ecuador for the purpose of arranging with the Ecuadorian government to take the responsibility of eradicating yellow fever from Guayaquil. The proposal was accepted June 10, 1918, when a celebrated bacteriologist arrived and began his work. He succeeded in discovering the germ which causes yellow fever, his investigations promising to produce not only a preventive, but also a cure for this malady.

### The "Lower Calling."

The Principal—Miss Brown, I wish you would give up this idea of marriage. The training of children is a far higher calling than the mere bearing of them.

The Teacher—Yes, Miss Matthews; but if it weren't for those of the lower calling, whom would you have to train?—Life.

## The One Food Above All

It is delicious

It is wholesome

It is absolutely the only economical food to be bought today.

FRESH EVERY DAY

MOTHER'S BREAD!

## Wait!... Don't Operate!

**Take Sto-lı-gal, a doctor's prescription for dissolving gall stones, and complicated sotmach ailments.**

One box gives instant relief in all cases of GALL STONES, liver and stomach trouble, such as indigestion, dyspepsia, chronic appendicitis, gas, sour stomach, ulcers, catarrh, pains in stomach and back, constipation, etc. Don't wait but get a box of Sto-lı-gal from your druggist today. Digestive Chemical Company, St. Paul, Minn. Sold in Thief River Falls, by Dr. H. B. Newell. Lambert Pharmacy, also leading druggist everywhere.

MURINE FOR YOUR EYES

Night and Morning. *Have Clean, Healthy Eyes.* If they Tire, Itch Smart or Burn, if Sore, Irritated, Inflamed or Granulated, use Murine often. Soothes, Refreshes. Safe for Infant or Adult. At all Druggists. Write for Free Eye Book. Murine Eye Remedy Co., Chicago

# LUMBER plus SERVICE

This what we are giving to builders. Not a perfunctory kind of service, but real, honest-to-goodness help. From the time you first come to us—Mr. Home Builder—until your home is ready to occupy, we give you the best of our advice and assistance.

Here are "Plus service" features—complete floor plans, detailed cost estimates, help in selecting the best of lumber, paint, plumbing and fixtures. In short, we perform the duties of consulting architect and in many cases those of building contractor, when you buy lumber.

The value of this building assistance would be hard to estimate in dollars and cents. We gladly give it, though, because it makes home building easier, eliminates mistakes, and is of real benefit to our patrons.

## Prichard Lbr. Co.

## CO-OPERATION

BEHIND the average financial success will be found the close co-operation of a loyal, helpful bank.

THE officers of this bank are particularly proud of its record in that respect.

## CITIZENS STATE BANK

## MIDDLE RIVER'S CELEBRATION AN UNPRECEDENTED SUCCESS

### ARGEST CROWD EVER SEEN ERE AND PROGRAM CARRIED OUT IN FULL

The celebration held here on July 5th is now a matter of history and it is with feelings of pride and gratification that the Pioneer tells about it. The day was ideal as to weather and road conditions, and the affair having been widely advertised, the people came from far and near. We noticed people from Thief River Falls, St. Hilaire, Warren, Oslo, Argyle, Greenbush, Holt, Newfolden—in fact from all the towns and cities within a radius of fifty miles. There were busloads of people too, who were strangers to us and to most of our townspple, and whose places of residence do not know. In fact half the ord were strangers, which indies that the attendants were drawn m long distances.

And the most gratifying part of the ne matter is, that the monster rd was agreeably entertained by ogram of "something doing" all long. The Oslo band under the torship of Prof. P. M. Kleidrvof Minto, N. D., was on hand ptly ready for service early in morning and discoursed splendid ic at frequent intervals all day

The morning program in the hall s given exactly as advertised, and it with an enthusiastic reception the packed audience in the hall ich was entirely inadequate to ld the people that would have flocked hear it, there being hundreds who ere unable to get into the building. The address by P. A. McClerman was along different lines from the usual spread eagle Fourth of July oratory, dealing with the present day problems that confront the public. He held the undivided attention of the audience and was heartily applauded time and again.

The street sports after dinner were pulled off promptly and were full of pep. The ball game commenced at about four o'clock between Middle River and St. Hilaire was a warm one. Despite the fact that our local team has been mostly on the losing side this summer, they won this game by a four to three score and put up a fine exhibition of base ball.

Brasil and Grodin of Thief River Falls were the battery for the locals which added strength to the team and put just the necessary confidence into the home boys to enable them to show what really is in them.

Accompanying the band was Kiedrowski's orchestra, of Minto, composed of Prof. Kiedrowski, four of his daughters and another young lady, who furnished the music for the big dance in the Middle River hardware garage. And say boy, they did furnish some swell dance music, that was thoroly enjoyed and appreciated by the big crowd of dancers that was altogether too big for the floor space. The dancing commenced at sunset in the evening and was kept up until sunrise in the morning. It is to be regretted that a lowery about four times the size of the garage was not provided. But, anyhow the crowd made the most of the accomodations at hand and made a night of it.

## ARE ... OF CARPENTER

This new American photograph taken of the French heavyweight champ, Georges Carpentier, shows best perhaps what is called his "hypnotic eye." Carpentier is credited with dazing his opponent through his intense gaze. Carpentier's manager is shown whispering instructions to him. Carpentier meets Baptiste Lorinsky in New Jersey early in October in his first American appearance.

Hausen's tent moving picture show was an additional attraction not on the original bills, and both it and Caspar's Snare's movies were thronged ed all afternoon and well into the night. It had been feared that the eating accomodations would not be sufficient to accomodate the crowd, but with the several stands serving coffee and lunch and the Lutheran ladies aid running two long lunch tables, it appeared that no one went hungry. Of course nearly all auto parties brought their picnic dinners along else the crowd would have completely swamped the eating places.

There are various estimates of the size of the crowd. M. N. Gullikson avers that he counted 400 automobiles and knows he did not get anywhere near all of them. Erick Modin counted 150 cars at the ball grounds and that bunch were hardly missed from the streets. It is a reasonably safe bet that there were between 600 and 700 autos here, which would make the visiting crowd who came by autos from 3000 to 3500.—Middle River Pioneer.

## *The Business Situation*

Duns, discussing the business situation and prospects fails to find the usual seasonal influences sufficiently explanatory of the shrink. Transportation and labor difficulties, monetary restrictions and price uncertainties are offered as prevailing causes. These are elements that have lately combined, with some other phases, to appreciably curtail commercial transactions, and the prevailing lull, in view of its bounce, may prove to be more than a passing development.

That fundamental economic changes are in progress, differing at bottom from those which have been witnessed on previous occasions since the war's ending, is not only demonstrated by movements in some leading trades and industries, but also by the reversal of sentiment among both sellers and buyers, and by statistics of bank clearings and failures. The business adjustment, moreover, is not confined to any one section of the country, although perhaps more apparent in the East than elsewhere, and the price declines which are a part of it are clearly not limited to the reductions sales at retail.

That the main trend of wholesale markets is also downward is evidenced by Dun's list of quotations, which again discloses more recessions than advances, and the continued disinclination of many interests to commit themselves extensively for the future is largely based on expectations of further prices reduction to follow. While the sudden and sharp fall of prices of some commodities, as of raw silk and raw wool, may not be duplicated in other lines, yet each week adds to the indication of yielding, which may later spread to food products if present prospects for abundant grain crops are realized.

Briefed reports to Dun's from leading centers bear out the agency's conclusions:

Philadelphia—Manufacturers and wholesalers of men's and women's clothing state that sales have fallen off, and some houses report the receipt of cancellations of orders. Similar conditions prevail in footwear. On the other hand, hardware, electrical and plumbing specialties, glass, cement, paints, oils, wallpaper, lumber, bricks, and all kinds of building material are in good request.

Boston—There has been no improvement in the commercial and industrial situation, as a whole. Mills and factories, in most instances, are running part time or are entirely shut down. Business at wholesale and retail is of moderate volume.

Buffalo—Retail trade is reported in fair volume, and a general markdown in prices of wearing apparel continues. Wholesale buyers continue to show considerable hesitancy in placing orders for future delivery. Altho trade, on the whole, is reported fair.

Omaha—Retailers thruout this section report much better sales of summer goods, due to favorable weather, and wholesalers note an increasing attendance of visiting buyers.

St. Paul—Merchants are buying cautiously, and general business is somewhat below that of this period last year.

Los Angeles—Retail trade conditions have been marked by uncertainty for some time past, particularly as relates to luxuries and articles of apparel for both men and women.

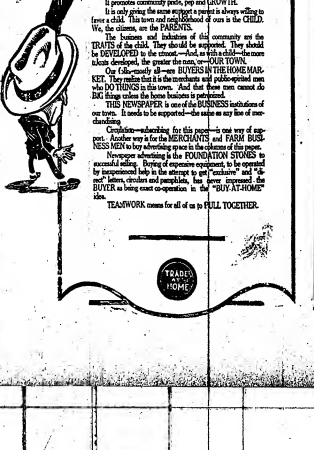
San Francisco—General conditions have not shown a great deal of improvement. The tightening of the money market has quite seriously affected various branches of trade. In automobile circles, it is stated that there are more automobiles in warehouses than in many months. Inability on the part of dealers to float automobile paper has prevented the release of cars from warehouses.

## PERSONALS

Miss Olga Strand left for Badger Saturday where she will visit for an indefinite time with friends and relatives.

Joe Geiser and daughters, Laura and Virginia, left for Greenbush where they will visit for a couple of weeks before returning to their home at Sask., Canada.

Semby Glefer left for Lancaster Saturday where he will attend to matters of business.



Miss Mathilda Marck, who has been employed at Fargo, arrived here Saturday and spent the fourth at her parental home.

Joe Wallen left for his home at Crookston Friday, after visiting with friends here for a few days.

### Intelligence

Doctor—Did you give the patient the insomnia medicine I ordered?

Amateur Nurse—Yes, doctor, but he got so mad whenever I woke him up to give it to him.

## TWO MINUTE TALKS TO AMERICANS.

America First Association.

### INDUSTRY THE KEYNOTE

*By W. F. Schilling, Prominent Farmer and Stockman, Northfield, Minn.*

There is a misunderstanding in America, and this misunderstanding is costing us life, wealth, and happiness.

There are two classes of people who see things through illfocused lenses. There is the one class that has mistaken the dollar sign ($) for United States, and has become so thoroughly steeped in the idea that gold is King that they have given up the worship of Almighty God and have substituted instead the worship of the Almighty dollar. They have become so powerful and mighty that they have forgotten to divide their illgotten goods with those who helped make it, and this means serious unrest.

Then there is another class, honestly intentioned, who have been harangued by Hapshurg hirelings into the belief that might is right, and that to labor for an honest wage, no matter how large, is to be a scavanger in serfdom.

We have been living in a golden age, and too fast. Money has been showered upon us because America is rich in everything that goes to make up a great nation—but we have made wealth so fast we have forgotten to tabulate our citizenship, and our country has become filled with traitorous subjects of foreign lands, whose only object is to sow seeds of dissension and discord.

What is the remedy? It is a long program, but is the only one that will bring results. Our children must be taught industry at home and in the schools. They must be taught the love of home and the art of good home tact. They must be taught that the best milker or tradesman in the neighborhood is as great as the best foot ball player. When the press of the country pays as much attention to the man who produces thirty-five bushels of wheat per acre and helps him to market it, as it does to the fellow who is a scientific pugilist, product will be on the increase; and let me sound a warning now that unless more attention is paid to a greater production in the near future, there will be cries for more bread in America inside of twenty-five years.

Lastly, our people must learn to co-operate closer, and learn to know each other better. Ours is a social misunderstanding first rather than financial or political.

### Locke

Gentleness is far more successful in all its enterprizesthan violence—indeed violence generally frustrates its own purpose, while gentleness scarcely ever fails.

### "Give till it hurts"

Grown ups may learn something from little Johnnie. On the morning of his birthday this notice was found pasted on the door of his room:

"Remember my birthday; give till it hurts."

### Not in the Race

Belle—I wouldn't marry the best man on earth.

Nell—Of course, you wouldn't Somebody else long ago beat you to it.

### An Enthusiast

"Cleanliness can be carried to far."
"Impossible." NNN
"It can. If I don't stop her my wife would scour the lettuce with soap."

### Think of Others

When on the slippery street you set
Your feet and get a twist,
Think of what the others get;
Just be an altruist.

### An Agreement

"The court gives him the convicted rascal a suspended sentence."
So did the mob. They lynched him.

### Had His Doubt

The Counsellor—What, you broke after having a hand in that big box job? I thought you fellows had a gentlemen's agreement to share the loot.

The Yegg—We had. But I suspect some of the parties to it were not gentlemen.

Register of Deeds in Book 13 of Mortgages on page 495, will be foreclosed by a sale of the premises in said mortgage and in this notice described, at the Sheriff's office in the Court House in the City of Thief River Falls, in the County of Pennington and State of Minnesota, at 10:00 o'clock in the forenoon of the 30th day of July, 1920, to satisfy the amount then due on said mortgage, together with Fifty Dollars ($50.00) as attorney's fees and the costs of this foreclosure, as stipulated in said mortgage.

That the lands described in said mortgage and which will be sold are Lot One (1), Two (2) and Three (3) in Block Twenty-Two (22) of the Original Townsite of Thief River Falls, according to the plat thereof on file and of record in the office of the Register of Deeds in and for the County of Pennington and State of Minnesota:

That pursuant to a provision in said mortgage to that effect, the said mortgagee has elected to declare and does hereby declare the balance of the whole sum secured by said mortgage immediately due and payable on account of default having occurred in the payment of interest due on January 15th, 1920.

That there now is due the sum of Seven Hundred Thirty and 71-100 Dollars ($730.71) on said mortgage.

# Keystone Silos

(Patented)

## Keystone Silos Stand Winter's Supreme Test

BETTER YOUR FARM—SAVE YOUR WASTE—BUILD A SILO THIS YEAR

FILLING HOLE
Large size—galvanized frame—hinged. Place where wanted. Heavy ribbed wire glass cover, admits light. No broken glass can fall into feed.

MORTARLESS JOINTS
No mortar joints in a Keystone silo.
Joints are sealed with cement wash after wall is built.

THREE WALLS IN A KEYSTONE
Outside Skin—waterproofed cement wash.
Concrete Block—containing steel reinforcing.
Inside Skin—waterproof cement wash.
This makes a dry wall and a warm wall because it's dry.

THREE INCHES THICK
Thick enough for strength.
Thin enough that wall will warm quickly when the sun shines in cold weather.

Bottom of pit level with top of foundation leaves silo wall from bottom to top without projections to interfere with silage settling uniformly.

3 to 1 CONCRETE
Keystone Blocks are made of 3 parts of clean sand and gravel and 1 part Portland cement.
Always factory made and cured.

HOOP STRENGTH—REINFORCING
3-8 in. steel rods, bedded in concrete, circle this silo from bottom to top.
These hoops are seven inches apart.
Proper hoops strength means a successful silo.

THE STEEL RAFTERS . . . . . .
One each two feet carry the weight of this concrete roof and reinforce it.
Fire—Wind—Rattle Proof—Permanent. Keeps out cold—retains natural silage heat.

DOOR SYSTEM
PRIDE OF THE KEYSTONE SILO
Each door a unit. Hinge and ladder combined.
Locks open automatically.
Refrigerator type seal. 2-ply Redwood doors—paper insulated.
Redwood resists fire and rot.
Single simple lock. Impossible to accidentally lock yourself in.

STEEL RODS PROTECTED
All reinforcing is buried in concrete.
A Keystone silo is built like "Skyscrapers" and large concrete bridges.
Hoop style reinforcing of steel are bolted securely to the heavy cast iron door frame.
Four hoops fasten to each door frame making Strength where strength should be.

**Sea-Horses With Prehensile Tails.**

Queerest of queer fishes is the sea-horse, Hippocampus, often seen in aquaria, which hangs itself from or supports itself on seaweeds by means of a prehensile tail, which moves dorsoventrally, not laterally, as in other fishes. It has a rapidly vibrating unpaired fin on its back, and the peculiarity of rolling its large eyes independently of one another. Now, it is curious that the far-removed chameleon, which is a quaint arboreal lizard, should show the same sort of prehensile tail as the sea-horse, only more so, and the same independent rolling of the eyes.—New York World.

## Sedan Convenience at Low Cost

**Overland Sedan Averages 27.6 Miles Per Gallon in Los-Angles-Yosemite Run**

THE OVERLAND SEDAN is proving to owners everywhere the advantages of closed-car summer motoring. A permanent top keeps off sun and rain; plate glass windows shut out wind and dust. And now the 355 mile Los Angeles-Yosemite Economy Run shows remarkable fuel average of 27.6 miles per gallon—a striking endorsement of this Sedan's economy and the riding qualities of Triplex Springs.

**Northwestern Auto Co.**

K. A. Sundahl, Prop.

# THE TRIBUNE

VOL 20 No. 36 THIEF RIVER FALLS, MINNESOTA, TUESDAY, JULY 13, 1920 Official Paper of Pennington County

## HARD WORK FOR THREE WEEKS TO DECIDE WINNER

Election Stories

CAN WIN AUTOMOBILE FOR THREE WEEKS' WORK IN TRIBUNE'S PRIZE RACE

WORK!!!

That is the soundest advice that can be given to you, right now, for the conduct of your campaign for votes, in The Tribune's great $3,000 automobile campaign. Work! Work! all the time.

Go after subscriptions with renewed vigor—with renewed and strengthened energy—with increased vigor and more determination. Don't let anything get by you—don't let a single subscription escape you. Simply—work!!

The First Period is over—and with it subscriptions have decreased enormously in value. From now to the close subscriptions will entitle contestants to just one half the amount of votes hitherto awarded. And—there will be no increases. It would not be fair to the contestants, now, to make increases or special offers—and the polly of The Tribune, throughout the greatest of all great prize campaigns is absolute fairness, all the time. Your work will entitle you to the same amount of votes as at the close—there will be no last-minute special offers or sudden and unexpected and unheralded increases.

Therefore—now is the time to work hardest. You have, right now, a good territory. a territory, in which you can secure many subscriptions. This territory can win for you, if unvassed at once—or you can lose by relying on it, if you wait too long to do your best work.

Every contestant reached the end of the First Period almost convinced that he needed fresh territory. Whether or not they were right it is for the contestants themselves to say—but it is certain that if you don't get your territory canvassed to the limit right now—someone else will!! The subscriptions which wait for you taking today won't be there tomorrow. —they'll be added to the winning total of some other worker, more energetic than your or more lucky.

You've got to do your hardest work now. The next three weeks mean the world to you—means success, total and wonderful, or failure, total and absolute. You're at the turning point of the race—at the most crucial stage of the whole great drive for votes and prizes. From now to the end you can accumulate such a huge total of votes as to win without question—or you can fail behind so far as to make victory out of the question.

Which shall it be?

The decision rests with you—your work and your application and effort for the next three weeks will decide the victory for you. In justice to yourself and to those dependent on you—you've got to win!! and —there's only one way for you to do so. That is—by doing your hardest work from now to the end.

Go out after subscriptions with all your might!! Put up the hardest fight of which you are capable—keep going all the time—don't flag or hesitate. Don't allow yourself to become discouraged—don't let anyone persuade you that the race is unfair or not just to you. The Tribune guarantees that this race will be absolutely fair! Behind every promise made you stands the word of The Tribune and the representative business men in the organization of that publication. With such an assurance of fairness and integrity—with your own knowledge of the wonderful prizes to be awarded and the fact that you can win anyone of them that you happen to want—you know what the race means to you.

Go ahead and win, by doing your best work now—win the Buick "Six", the finest automobile made—win the prize you seek and win it without one cent of cost to yourself.

Work! work! work!—and win!

**Former Pastor Critically Ill**

Rev. Claire B. Boyden, former pastor of the Presbyterian church at this place, but who now resides at Eden Prairie, Minn., is critically ill at his home with cancer of the stomach and no hope is held out for his recovery. He was pastor of the local church for many years and is well known to the citizens generally. Rev. Boyden is a man held in the highest esteem by all who know him and his illness will be learned of with great regret by his many acquaintances at this place.

**At St. Paul on Business**

Scott Laird was called to St. Paul Sunday evening to consult with the board of relief in connection with the flood sufferers of northern Minnesota. Mr. Laird says the work in this connection is progressing most favorably and he rather expects to see the entire matter fully adjusted to the satisfaction of all in a short time.

### PLANS FOR PICNIC

Local Elks are notified to be in attendance at a meeting to be held Friday evening of this week when plans for the holding of the annual picnic of the Elks will be discussed. It is desired that every member who can possible do so plan to attend this meeting and lend what suggestions he may have for the big picnic. It is thought the picnic will be held the latter part of August and it is for the purpose of deciding the date and the place for the picnic that this meeting is called.

Those who may have any ideas for this big picnic are requested to be at the meeting Friday evening and let the rest of the members hear of them. Do not wait until after the picnic has been held and then come forth with a number of suggestions.

Be at the meeting Friday evening.

## Locals Show Pep

LOCAL NINE WINS FROM VISITORS BY A SCORE OF 13 TO 4

The local ball team took the Radium teams into camp in this city Sunday afternoon by a score of 13 to 4. In view of the fact that Radium is supposed to have an especially strong team when the game is reported that the majority of their aggregation were salaried players, it was the expectation of the local fans to see a hotly contested game, but the case with which the locals walked thru the visitors was so brisk as to lose its edge.

The Radium team did their very best all the time, however, and not for one minute did they attempt to lay down. They played the game hard from the start to the finish but by being out-classed and playing in considerable hard luck, they were easily defeated and the outcome of the game could be seen after the second inning.

The local players showed unusual ability in finding the ball at will and they certainly were in backward when it came to slugging out hits. The pitcher for the Radium team was clever in his work but he could not find the number of the locals and as fast as they saw it they slammed out their hits with ease.

Some extra fine field work on the part of the locals helped in holding the score down to the visitors, but the pitching of Brault and George also had them guessing and their inability to locate the ball at the critical time, helped case the game. They were indeed fortunate in getting as many as four runs, and if it had not been the will of the locals, it is doubtful if they would have scored at all.

The game was well attended and was interesting to a certain point. In the beginning it looked as the it might turn out to be a walkaway session, but the case with which the local team waded thru all difficulties left no doubt in the minds of the spectators that when they so desired the Thief River team could play real ball and were mighty tough opponents.

## JUNE TERM OF DISTRICT COURT COMES TO CLOSE

SHORT BUT ACTIVE TERM COMES TO CLOSE LAST FRIDAY AFTERNOON

The June term of the district court, Judge Andrew Grindeland presiding, closed last Friday afternoon after a short but active session. The last case to come for hearing and the last one decided was the divorce case of Mrs. Maurice Giller. The judge granted a decree for divorce in about ten minutes yesterday morning.

The first case on the docket, that of the Paine & Nixon company, vs Olaf Neset was dismissed. The case of A. O. Anderson and Frank Anderson vs J. W. Denhart and Esther Denhart will be tried later. In the case of Hartman and Christie vs Halvorson, the Prichard Co., et al, the case was continued and will come up for hearing at a later date. The cases of F. J. Dudley vs the Reserve Life insurance company was settled out of court, as also was the cases of O. A. Westlu, Frank Monnely, et al vs Consolidated School District No.8. C. Gustafson & Son vs Sluger Bros., and Trail Lumber and Hardware Company vs John and Emma T. Homme.

## OUT OF A CLEAR SKY

## CROP OUTLOOK EXCEEDINGLY ENCOURAGING

SUGAR BEET CROPS ARE LOOKING GOOD AS WELL AS ALL OTHERS

The sugar beets on the Barzen farm, west across the track on First street are a sight worth seeing. Drive out or walk out and look them over. We have right here in this field the evidence of something good in store for the country and town. Sugar beets are highly profitable, the ground is very materially benefitted by the cultivation of the crop. Sugar beets make sugar, and sugar brings money as we know. The great majority of sugar beets are raised on $400, $500 and $800 per acre land. Our land is as good for sugar beets as the best. When we raise the beets in sufficient quantity we will get a million dollar factory right here in Thief River Falls, Mr. Barzen is helping us to realize this prospect. Go out and see the beets. It will be an inspiration and will make you a real booster for the good old home town and county.

If you want to see something beautiful and grand drive out to Mr. Kettleson's farm and see his splendid crop of sweet clover on the 85½ of 18 Sanders township, two miles south, one mile west and one half mile south. He has 45 acres of sweet clover, some of it is seven feet high, an excellent crop. It looks like ten bushels to the acre, and this means more than $200 per acre which means $9,000 for the seed on 45 acres. Some crop. Every business man in Thief River Falls should see this crop.

**Visiting at Lawrence Home**

Mr. and Mrs. W. B. Lawrence, of Doland, S. D., arrived last Friday for a few weeks visit at the home of their son, L. H. Lawrence. They were accompanied by Mr. and Mrs. Arthur Lawrence, also of Doland. While here they will visit the Lake of the Woods, try out some of the fishing spots adjacent to this city and enjoy themselves generally. Both these gentlemen are retired farmers and extensive land owners.

**Married Monday**

Melvin Olson and Miss Nelle G. Sholes were wedded on Monday the twelfth instant at the Presbyterian manse, Rev. R. L. Barackman officiating. The bond was sealed by giving and receiving the wedding ring. The bride had chosen to be married in georgette over white satin. Mr. Olson is manager of the co-operative store at Salol, where the young people will make their home after a short trip. Their many friends in this city and elsewhere wish them a prosperous experience.

**Visiting at Johnson Home**

Mrs. J. G. Holty and children of St. Louis, Mo., arrived the latter part of last week for a visit at the home of her sister, Mrs. Albert Johnson. They will remain the greater part of the summer, Mrs. Holty was met at Minneapolis by Mrs. Johnson.

## DATE FOR BIG BAND IS DRAWING NEAR

WILL GIVE OPEN AIR CONCERT IN THIS CITY ON JULY 21st

Graydon Lower, Euphonium soloist with Harold Bachman's "Million Dollar Band" will appear in Thief River Falls on the 21st of July, on his second season with that organization. During the war Mr. Lowden was leader of a cavalry band which achieved considerable reputation. He was recognized as one of the finest euphonium players in the army service. Mr. Lower was one of the hits of the season with the "Million Dollar Band" last season and comes back to the organization this summer after a successful season in Illinois and Iowa as a director of a 12-piece concert orchestra under his own name. In addition to his work with the brass sextette and quartette that Mr. Bachman is featuring this summer, Mr. Lower will be heard on this specialty on the euphonium.

As a special attraction with his Million Dollar Band, Mr. Bachman is presenting a very talented violin soloist, Mr. Erdine Soshil, of Duluth. Mr. Sodahl has studied with the finest teachers in the northwest and comes to the Bachman band from Duluth with the highest recommendations from the press and critics of that city. Sodahl's repertoire consists of the more popular of the violin classics. Some of his accompaniments are played by Walter F. Klugman, of Louisville, Ky., at the piano, and some are played by the band. Mr. Bachman says that the most difficult thing his band has to do is to pay accompaniments for the violin solos and it is this class of work that the real art of his organization is best displayed.

Mr. Sodahl is also a splendid pianist and a saxaphone soloist. He was featured in special saxophone numbers with the "Million Dollar Band" at the Palace Music Halls in Chicago last year.

**Here From South Dakota**

E. Blankenburg of Emery, South Dakota, is in the city looking after his land interests. Mr. Blankenburg is one of the reliable and substantial farmers of his section and is considered one of the big men of South Dakota. He says Pennington county is fast coming to the front and he can plainly see that in the course of a few years it will be up with the best of them. He is well satisfied with his land interests at this place and feels that his investment in Pennington county will was a wise one.

**New Potatoes**

Gordon Olson was in this morning with new potatoes for the market. He had in one measure 20 pounds of spuds. He sold them for $2.25. The potatoes averaged 4 oz. each and were very fine indeed. Mr. Olson, as reported in The Tribune before had new potatoes on June 20th. He reports all crops just jumping since our fine rain last night.

### MILLION DOLLAR RAIN

A fine rain fell in this vicinity Sunday and Monday and was welcomed by all. The crops were just at the right stage for a good gentle rain and the arrival of the rain could not have been more timely had it been ordered.

The general crop outlook is excellent and the best crops in years are predicted. Small grain was never in better shape and the stand is all that could be asked for. Potatoes and all garden truck is extra fine and with an abundant yield from every source it now looks as if Pennington was going to forge far in the lead this year. Everything points to a bumper crop and conditions generally are exceptionally pleasing.

## Boosters Coming

ST. PAUL BOOSTERS COMING BY SPECIAL TRAIN JULY 21ST

About one hundred of the leading wholesale merchants and manufacturers of Saint Paul will visit Thief River Falls on Saturday, July 31 arriving at 7:45 a. m. and remaining for one hour and 45 minutes.

The trip will be conducted under the direction of the Saint Paul Association of Public and Business affairs to which all the important jobbers and manufacturers of the city belong.

These excursions have become a regular feature of the work of the Association's Sub-division of Jobbing and Manufacturing and affords an opportunity for the business men of Saint Paul to meet the business men of other cities of the northwest.

Territory covered will be by special train over the lines of the Soo road going from St. Paul to Glenwood; from Glenwood to Oakes; from Oakes to Valley City; from Valley City to Minot; from Minot to Kenmare and Portal; and from Thief River Falls to Detroit.

The Trade tour will occupy the entire week of July 26th, being made by special train of eleven cars including a dining and dining car so that the entire party can live on the train during the week.

The Soo Line State band of twenty-five pieces will accompany the party and concerts will be given in each town in which the train stops. The feature of the visit will be the parade of the entire party thru the main streets of the city immediately upon their arrival. Numerous souvenirs will be distributed to the children.

The object of these trips is that the wholesalers and manufacturers may have an opportunity to personally meet their friends and customers in the towns visited, see their places of business and acquaint themselves with business conditions in the various cities and towns visited.

The special train schedule has been approved by the operating department and it is expected that schedule will be maintained.

## CHILD POISONED FROM DRINKING WINTERGREEN

SMALL SON OF MR. AND MRS. CARL ANDERSON HAS CLOSE CALL

The young son of Mr. and Mrs. Carl Anderson, Tindolph avenue, is seriously ill as the result of drinking a portion of oil of wintergreen late last Friday afternoon. In company with some other children he was playing in the home of a neighbor and the children were playing dentist and using the oil of wintergreen for toothache and then later used it for rheumatism. Thinking the medicine was good for rubbing on purposes, the boy figured out that it should do as much good if taken internally and as a result he swallowed a large portion, the exact amount unknown.

As the boy is only a trifle past three years of age, it was difficult for the attending physician to ascertain just how much of the wintergreen he had taken and it was feared for some time that it would be impossible to save his life. As oil of wintergreen, when taken in quantities is akin to wood alcohol, it is very dangerous and hard to combat, but by persistent efforts the lad was saved and is at the present time on the road to recovery.

## FINE SHOWS AND MIGHTY GOOD EXHIBITS

THIS YEAR'S FAIR HAS ALL THE FEATURES NECESSARY TO A HUMMER

The date for the Pennington county fair draws nearer and with each one receiving day some new and special attraction is booked, assuring patrons of a high class fair and a round of real enjoyment and amusement.

The Little Giant shows, which are booked for the three days of the fair, are held by all who have witnessed their attractions to be a clean and pleasing attraction, equal to anything that has so far been given in this city. The company carry a merry-go-round, ferris wheel and an airplane carousal. They are at present playing the grain belt of North Dakota and are giving entire satisfaction at all points. They have a number of high class shows in connection with their outside amusements and the fair board have been assured that nothing but clean and high class attractions will appear on the fair grounds. There will be no "fly-by-nights" or anything even resembling such, and the fair board announce that where any complaint reaches them concerning any of the shows that same will be closed down immediately and not allowed to continue.

There are attractions that have been booked are now guaranteed to be clean and attractive. The big attraction is reported to be one of the big headliners of all fairs this year and it is felt that it will make an instant hit in this city. The aerial stunts of Lieut. Larabee are well advertised all over the country and from all reports he has been giving some mighty good exhibitions. Imagine a person from the plane in a parachute while it is 3,000 feet in mid air is one of the novel stunts and in addition he walks all over the plane while it is high in the air. This is guaranteed to be one of the most daring and interesting acts possible for any fair to secure, are we sure. The coming of these two high class attractions in connection with the many other attractions and free acts that have been booked, are certain to pull the largest crowd this fair has seen for many years.

The industrial exhibit to be held in the auditorium is fast getting into shape and those in charge of this feature of the fair confidently expect this to be the popular part of the fair. Exhibits from every corner of the county are expected and it is the desire of those in charge that all entrys be made as early as possible in order that same may be properly displayed and ready for the opening day of the fair. Twenty back merchants have signified their willingness to make booths in the auditorium for the above days and it is certain some neat and attractive booths will be the result. It is now planned that a number of girls are endeavoring to secure other donations of this sort who will be a good sized number of booths when the first day arrives.

The fair board have decided to have the admission to the fair at the same price, 50c grand stand and 25c for children. The attractions for this year are running twice as high as last year, but the directors feel that it will be best to leave the admission price the same as last year, hoping that the increased attendance will take care of the additional expense this year.

Season tickets will be sold for all three days of the fair at the price of $2, and these tickets will be good for any member of the family for all three days and the evenings as well. The day prices of the fair this year will be as follows: Adults 50c, Children 25c. Evening prices: Adults 25c, children 10c.

**Leaves Soon on Vacation**

Rev. R. L. Barackman, pastor of the Presbyterian church has been granted a well earned vacation and expects to start early next week for Pennsylvania, his native state. He expects to spend some time with his aged father, with his sister who is a missionary in Africa and is home on furlough, and with other relatives and boyhood friends. From Pennsylvania the distance is not great to New York City where Mr. Barackman's brother lives on the Jersey side. He expects to return in time to resume his duties on August 22. Meanwhile the church auditorium will receive some needed repairs.

**Returns From Iowa**

Mrs. F. F. Daynes and daughter, Esther, and sister, Miss Cora Toffelmeire, returned Saturday from Mason City, Iowa, at which place they have been visiting for the past three weeks. They report an enjoyable visit.

## "LABOR WINS ALL."---Tacitus

This column conducted by Automobile Campaign Department, The Tribune.

### A LITTLE ADVICE

"God helps them that help themselves."—Benjamin Franklin.

"Mistakes are opportunities for learning."—Emerson.

"Go on and make errors and fail and get up again. Only—GO ON!"—Anne C. Brackett.

"Be of good courage and everlasting energy—that is the main thing!"—Thoreau.

"Men are born to succeed—NOT to fail!"—Thoreau.

"He that rises again and continues his race has never fallen."—Molineux.

"You may fancy that the water will be warmer next week. It won't. It will be colder. Putting off a thing is merely a step to increase the necessary effort. NOW is the time to do the thing which must be done."—Arnold Bennett.

### ON SAVING TIME

"Time is worth a great deal more than money," says Arnold Bennett in his famous essay on "How to Live on Twenty-Four Hours a Day." "You can only waste the passing moment—you cannot waste the next hour—for it is kept for you. No object is served in waiting until next week or even until tomorrow. The gain in self-confidence which the performance of hard work gives, is worth all the world to you."

In other words—TIME IS MONEY—the struggle for success has a real value beyond its potential results, in that it strengthens you physically and morally.

And, for the thinking man or woman, there's a lot of real inspiration in this. It's a fact that tomorrow never gets to you—that if you keep putting off a certain thing—you'll never do it. Remember when you were a little fellow—how you hated to get up those cold winter mornings, and lay there comfortably while your mother called you again and again—and shivered and shuddered at the thought of the bitter cold floor and the colder air—and then how much better you felt when you DID get up?

Putting off work is criminal, worse than criminal. Where today opportunity may await you on every corner—tomorrow you may find yourself beaten before you start. YOU CAN'T AFFORD TO PUT OFF FOR A MOMENT THE WORK WITH WHICH YOU PLAN TO ACHIEVE ULTIMATE SUCCESS!!

Pick out the thing you want to do—concentrate on the kind of effort which will help you the most—and then STICK TO IT. It doesn't matter how hard the task, or how long the time you must work—if you concentrate and work with all your might, without losing any time—YOU'LL GET THERE. Concentration is a means of discipline to the thinking machine—concentration is the only key to success.

AND—DON'T WASTE YOUR TIME—ANY TIME!!

* * * *

Right now, The Tribune is giving you the opportunity to win one of two wonderful automobiles or one of ten large cash prizes, totalling altogether nearly $4,000 in value—and the only requisite is that YOU CEASE TO PUT OFF DOING HARD WORK.

The First Period is over—it came to a close with contestants almost even, with no one in the lead. THE DECISION OF THE RACE IS STILL TO COME!!! From now to the close, Saturday night at eight o'clock, July 31st, it's going to be a continual fight and a hard one, all the time, for winning votes. Every contestant is going to work at top speed all the time—if they wish to win. And you, wishing to win as you do—must do likewise.

DON'T SLOW UP OR LAG BEHIND! Don't let the end of the First Period induce a temporary slowing up of your work which may lose for you. KEEP RIGHT ON WORKING. Keep right on trying. MAKE EVERY DAY AND EVERY HOUR COUNT TO THE UTMOST. Get every subscriber, old or new, that you possibly can. Get every order that can be secured. Every day lost means actual money lost. Every time that you miss a subscription you might have secured, you are passing up a real and tangible opportunity.

TIME IS THE MOST VALUABLE THING THERE IS—AND NEVER WAS IT MORE SO THAN RIGHT NOW! KEEP WORKING!! YOU HAVE A GOOD START—YOU HAVE A STRONG VOTE RESERVE—YOU ARE WELL AMONG THE LEADERS—IMPROVE ON YOUR ADVANTAGE AND WIN BY DOING EVEN HARDER WORK FROM NOW TO THE CLOSE.

"MAKE IT A HOT ONE!!"

Says Daniel Webster: "Things don't turn up in this world until somebody turns them up." If you seek opportunity—don't wait for opportunity to come to you. WATCH FOR YOUR CHANCE—AND THEN TAKE ADVANTAGE OF IT.

### WHAT ABOUT YOU

Mr. and Mrs. ——— were out peking cars the other day. Two thousands, three thousands, and so on—the figures left them dazed and a little frightened. Mr. ——— is making pretty good money—but the expense of keeping a large and healthy family in these days of profiteering, leaves very little money to be banked, over and above expenses. He is forced to put quite a little money back into the business—for he, with true foresight and economy, is building the business for the future. And, because the initial outlay seems too heavy—they've given up buying the car that they have wanted for many years.

HOW ABOUT YOU?

Remember—you don't need to pay for yours, save in hard work and careful application and determined effort. Your hard work during the next two weeks will win one of two fine cars for you—free of charge. WHY NOT WIN THE BUICK "SIX"? You can do it by putting in YOUR VERY BEST EFFORT for the balance of the campaign.

THE WORKER WINS!

### A FULL DAY'S WORK

A full day's work—hard, determined, earnest, energetic—that can win almost anything for you. A constant stream of remittances, obtained wherever and whenever possible by you—can win the Buick "Six" for you during the next three weeks—the last weeks of the campaign.

And—YOU'VE GOT TO DO MIGHTY GOOD WORK AND LOTS OF IT!! The next three weeks will see the decision of the race—and whether it shall be victory or defeat depends altogether on you and your work. IF YOU WANT TO WIN—INCREASE THE AMOUNT AND TIME OF YOUR WORK.

It may sound hard—it may mean cutting down your leisure hours still more or forswearing on those hours you have set apart for other pursuits. But—it's worth it! A full day's work on your farm or in your business means money to you—but a full day of good, clean, honest work for subscriptions can mean EVEN MORE TO YOU in The Tribune's great $3,000 automobile campaign.

IT'S WORTH THE TIME AND THE EFFORT—THE PRIZES OFFERED ARE WORTH EVERY BIT OF WORK AND EVERY BIT OF TIME THAT YOU CAN POSSIBLY PUT INTO THE RACE. You've the opportunity to earn an automobile worth eighteen hundred dollars—to win a luxurious and high-powered automobile free of charge. You've the greatest opportunity of your life right now—and mere write-ups are enough to take advantage of it at once. YOU'VE GOT TO GO AHEAD WITH ALL YOU MIGHT, THO, IN ORDER TO WIN.

Rather increase your efforts than decrease them, during the last three weeks. THE RACE IS NOT YET WON OR LOST FOR YOU—you can't feel sure either of victory or of defeat. The only way to play safe is to PUT IN A FULL DAY'S WORK EVERY DAY FOR THE BALANCE OF THE RACE.

WORK YOUR VERY HARDEST AND BEST—GET EVERY BIT OF GOOD WORK DONE THAT IS POSSIBLE—MAKE YOUR RACE DETERMINED AND ENERGETIC AND CONSTANT AND BRILLIANT—AND KEEP IT UP UNTIL YOU WIN!!

"MAKE IT A HOT ONE!!"

July 31st—the greatest day in the year for some of the workers in The Tribune's great $3,000 automobile campaign. Will you be one of them? It depends on you—if you work hard and harder, you will and—if you work along without really doing much more than usual, you'll LOSE. It's up to you. WHAT WILL THE DECISION BE?

### Mr. B. Busy Says

The WORKER wins—always. And that means not the man who is WILLING to work, when it is absolutely necessary, but the man who is GLAD to work, and who realizes fully that WORK ALONE can win for him.

When you are before your customer, everything you say or do should be part of a carefully laid plan of sale. You should be prepared to put before him the VERY BEST POINTS of your proposition. You should be prepared to bring to bear upon him EVERY AVAILABLE INFLUENCE. You should be prepared to answer EVERY OBJECTION that he may make.

Remember Andrew Carnegie? "Put all your eggs in one basket. And then—watch that basket!!" Carnegie knew what he was talking about. PUT ALL YOUR ENERGY INTO THE WORK OF WINNING—SEE THAT YOU FORGE AN ORGANIZATION TO BACK YOU—ALSO DETERMINED TO PUT YOU OVER FOR A WONDERFUL VICTORY—AND THEN WATCH YOURSELF UNTIL YOU HAVE DONE IT!!

Concentrate your energy, thought and capital exclusively on the business in which you are engaged.—Charles M. Schwab.

Follow Schwab's precept—turn every energy, every advantage, every slight lead, to the one purpose of achieving the TOPMOST GOAL—and follow up that precept and its application by plain, hard work!!

### WHERE THERE'S A WILL

(Note: This true story of a young man's great success, unaided by riches or influence, in a campaign exactly similar to that now being conducted by The Tribune, and written by that young man several years ago, will appear in installments in this column during the progress of The Tribune's great $3,000 campaign. READ IT—DON'T MISS IT—IT HAS MUCH IN IT FOR YOU.)

(By Robert Douglas)

Chapter Twelve

All the next morning I worked about the place. About eleven o'clock, Mother came out and called me. When I went up to the house she told me that the chicken-house was somewhat out of repair—that the roof had leaked so badly during the last storm as to nearly drown the hens. So I went to work and put in the rest of the day, or until almost three o'clock, working on that shed, until at last the most critical observer would have been forced to admit, no matter how unbeautiful the room might be from an architectural standpoint, it was certainly rain and weather-proof.

When I reached the house, mother told me that Jim Bufton was waiting for me on the porch.

"Say, Bob," he grinned, "I'm going down town today with a couple of wagons of watermelons—I'm thinning up the crop. Want to make a little money? If you do, come on and drive my white team for me, and I'll give you a fourth of Billy Bufton wagon-load sales for. Is it a go?"

"You bet it is!!"

I didn't give Jim a chance to back down on his offer, for I knew how much money there might be in it for me.

And so we went over to Jim's farm and hitched up the teams. When we had reached town, Jim swung down the street and stopped the two wagons on the corner of Oregon and Fourth street—the busiest corner in the little town. Down in front could try the women-folks do their Sunday's marketing Saturday afternoon, down at the big open market, and Jim with his auctioneering type of hawking was just the one to get the most out of his products. To each woman whom he thought would buy, Jim was handing a huge and juicy watermelon, adjuring them the while to get theirs while there was still a chance. Jim did the talking and I did the measuring, making change and handing out melons—and between the two we made a wonderful success of it. At five o'clock, after everything was sold and Jim was chinking gold and silver in his huge pouch in the contented fashion of a dog with a new bone, I left him and started home.

The next morning at eight o'clock I started out after subscriptions, and was all set for a day of trial and tribulation—I didn't have the pep and energy that had been mine at the start of the race—but I was determined to MAKE THE BEST RECORD POSSIBLE anyhow.

The first house I came to was that of old Angus McLeod—a hard old sinner who had all the temper and stinginess and none of the kindliness of his Scotch ancestors. He's one of the hard bargainers in the country and one of the richest men—naturally.

He was in the yard in front of the big white house in which he lives, sawing limbs from the elm and maple trees in order to make their growth more even and regular—the fetish of his life was ORDERLINESS.

. He looked me over with that dour disdain and distrust which is the birthright of every true Scot, and then demanded what I wanted.

When I told him, I honestly feared for a moment that he was going to shoot me. Honestly, he did everything but jump up and down and tear his hair—just because I had tried to persuade him to spend a little money for something that he didn't think he needed.

I talked three-quarters of an hour—working from the point that he could save money by taking The World—a talking point which I've found is almost always effective with people of his type. I told him that he was losing money every day that he paid out his good money for a farm paper which came only semi-monthly and carried stale news and stale market quotations and articles—told him how The World would give him all the market reports WHILE THEY WERE STILL NEW, and then told him how cheap it really was. I talked to him confidentially—pretending to tell him more than I should, as to the cost of paper and print supplies and the unusually severe conditions under which The World and all other newspapers were then laboring. A farmer is always ready to talk over the topic of high prices—and when I showed Angus that prices had gone up for us just as for him, he was satisfied that I was honest and above-board. And, when I told him what a shrewd man he was—he was sure of it!

I went away from there at ten o'clock, with his subscription for two years—and the old Scot stood at the gate to watch me drive away—half convinced that I'd put something over on him, but not sure enough so as to feel safe in telling me about it.

*Shrunken Dollars*

While a dollar will not buy as much as formerly, it will still earn 5% if left here in a savings account.

Also—a day is coming when these shrunken dollars will buy twice as much as they will buy today—perhaps more.

Then will be the time to SPEND them. TODAY is the day to SAVE them. A savings account here was never so good an investment as it is today. Start one NOW.

*Citizens State Bank*

BOYS

BOYS are well-known. You don't have to go to far lands or to the County Fair to look upon them. Everywhere, it is still the style to have Boys.

Perhaps you are trying to run one or more Boys right this minute. Then you will know that since the world began they were never so tremendously important as now. Your hopes and your aims center on them. You must deliver them out of Boyhood into successful Manhood.

Will your sons stay with the land, or will the will-o-the-wisp of the cities call them away? Armies of country Boys, who could be happiest and most successful on farms, respond to the artificial glamour of town life before they are old enough to know their own minds. They do not know that the rewards of country life—in money, health, and happiness—are far greater. Make them realize that! Guide the restless ambitions of your Boys and spare no pains!

Machines have been a powerful factor in stemming the flow to the cities. Machines banish drudgery and make labor interesting; machines foster the love of mechanics in the Boy; machines are builders of fortunes.

You now own many of the machines made by the International Harvester Company. We are headquarters for the International Full Line, including Titan tractors, International engines, and manure spreaders, Primrose cream separators, McCormick and Deering harvesting, haying, and corn machines, tillage tools, P&O plows, etc. Give the Boys every chance for liking farming and farm life. Perhaps more of these machines will help keep them contented.

# WASTE OF WOMAN POWER A MENACE

## FARM WOMEN SHOULD HAVE THE MODERN METHODS

Washington, D. C.—The waste of woman power is one of the greatest menaces to the rural life of the nation, according to the deductions that specialists of the United States department of agriculture draw from a farm-home survey conducted in the thirty-three northern and western states. The survey was made under the direction of Miss Florence E. Ward, in charge of extension work with women, office of Extension Work, North and West, States Relations Service. The record covers 10,015 farm homes, averaged by taking typical communities of the counties in which the survey was made. Much of the information was gathered personally by home demonstration agents, who are field representatives of the United States department of agriculture and the state agriculture colleges.

Miss Ward points out, from the facts shown by the survey, that a reasonable amount of planning and well directed investment in modern equipment for farm homes would prevent a large part of this wastage of the energy of the nation's rural home makers. "This is a serious matter," she continues, "because we have a live national problem now in working out the economies of country living in such a way as to make them satisfied to stay on the land and help build it up. Perhaps the greatest factor in bringing this about will be the healthy, alert, and expert home maker who will see to it that part of increased production from the farm goes into improvement of the home. At a time like this, when the dearth of farm labor is a limiting factor in production, it is a very doubtful business policy for farmers to use increased income to buy more land instead of using a part of it to raise standards of living so that women and young people will not want to go to the cities in search of attractive living conditions and amusement."

### Picture Woman's Work Day

The survey discloses a number of reasons why many women do not find farm life attractive. The working day of the average farm woman as shown by the survey is 13.3 hours the year 'round. In summer, it is 13.12 hours. And 87 out of each 100 women have no regular vacation during the year. On the average the farm woman can find only 1.6 hours of leisure during the summer hours and only 2.4 hours in the winter. Half of the farm women are up and at work at 5 o'clock in the morning.

Forty per cent have water in the kitchen but the other per cent must go to the spring or the pump to bring the water for cooking breakfast. Thirty-six per cent heap with the milking. On the average the farm woman has a seven-room house to keep in order. Sixty-nine per cent have kerosene lamps to trim and fill. Ninety-six per cent do the family washing, about half of them have washing machines and the other half do the work with tub, washboard and boiler. Twenty-six per cent have gas or electric irons to make more comfortable the task of ironing. Ninety-two per cent do some or all of the family sewing. Garden work is done by fifty-six per cent; ninety-four per cent make all or part of the family bread and sixty per cent have churns or do so. Eighty-nine per cent of all poultry flocks are cared for by women. One-fourth of the farm women help to feed and bed the live stock, and twenty-four per cent of them spend over six weeks in the year assisting with some part of the field work. All of this in addition to cooking the family meals and caring for the children.

This, of course, is the dark side of the shield. It does not take into consideration the many compensations that come with the woman's daily round of work for the comfort of her family, and anyone who has experienced the satisfaction of living in the open country knows that the average farm woman is more fortunately placed than her average city sister. But the task is sufficiently grinding, as Miss Ward says, to send the farm woman to bed "breathing a prayer that her strength may equal tomorrow's duties."

### Labor Saving Equipment

What is to be done about it? The department suggests some very definite things. "The interest of the department of agriculture in the returns from these studies as to labor, working equipment, and compensations of the farm woman are as practical," says Miss Ward, "as its interest in farm studies regarding labor, machinery and crop returns, and for the same general reason." The farm woman's working hours might be shortened, she continues, if the principles of modern business were applied to the farm home. Running water for sixty-one per cent who now have to carry water, and bath rooms for the eighty per cent who now have none, are other things that would lighten the woman's labor and add to her comfort and contentment. Labor would be lessened if the farm house were as well equipped as the up to date barn, which the farmer looks upon as so much currency with which to buy efficiency. The installation of modern lighting systems would release some of the time of women in the seventy-nine per cent of homes where kerosene lamps are used. The initial cost would be small when weighed against the convenience and comfort. The installation of heating systems would release some of the time of the fifty-four per cent of women who care for two cook or wood stoves.

"As power on the farm is the greatest time and labor saver for the farmer," Miss Ward's report says, "so power in the house is the greatest boon to the housewife." Forty-eight per cent of those covered by the survey reported power for operating farm machinery, but only twenty-two per cent have this advantage.

WASTE OF WOMAN POWER Contrast for the home. "That," says Miss Ward, "is a singular fact when we consider that frequently it is a simple matter to connect the engine used at the barn with the household equipment." The washing machine is another labor saver. Selling the cream to a creamery whenever possible instead of churning it at home is still another. In short, the same sort of intelligence and a fraction of the money applied in making field and barn work convenient would, if applied to the home, save untold drudgery for the women of the farm and would add both to the profit and the comfort of farm life.

# WHEAT PRODUCTION COST CALLED $2.15

## HALF OF FARMERS WOULD HAVE LOST AT THIS PRICE, DEPARTMENT SAYS

Washington—Cost of producing wheat of the 1919 crop averaged $2.15 a bushel, according to a survey made by the department of agriculture. At this price the department says, half the farmers would have lost money. The government guaranteed price was $2.23.

The survey included a compilation of statistics from 481 farmers. Nine representative winter wheat areas in Nebraska, Kansas and Missouri and five spring wheat areas in Minnesota, North and South Dakota were visited by field men of the office of farm management.

For winter wheat 284 records were taken and for spring wheat, 197.

On two farms the cost was as low as $1 a bushel. On 20 farms it was $5 or over. There was one farm in the winter wheat area where the cost reached $2.80. The average cost of producing winter wheat was $1.87. In the spring wheat areas the average cost was much higher—$2.65—the range running from $1.10 for one farm to $5 and over for 17 farms. If the price received had equaled the average cost, between 50 and 55 per cent of these wheat growers would have failed to break even.

Yields averaged 14.9 bushels an acre for the winter wheat farms, and 8.4 bushels for the spring wheat farms. The cost per acre was $27.80 for winter wheat, as against $22.40 for spring wheat.

Department specialists state that to allow a profit of 80 per cent of the wheat produced on the farms covered, the price should have been about $2.30, as compared with an average cost of $2.15. At a price covering the average cost plus 10 per cent, 85 per cent of the crop would be covered, but 40 per cent of the growers still would fail to break even.

### One Assurance

"Do you think the tale Miss Flirty told was made up on the face of it?"

"Maybe not, but she was."

### NOTICE OF MORTGAGE FORECLOSURE SALE

NOTICE IS HEREBY GIVEN, That a certain mortgage made by Joseph F. Kokesh and Mae R. Kokesh, his wife, as mortgagors, to James H. Eustice, as mortgagee, to secure the payment of the sum of Seven Hundred Seventy Five Dollars ($775.00) dated January 15th, 1919, filed for record in the office of the Register of Deeds of Pennington County, Minnesota, on the 1st day of August, 1919, at 1:00 o'clock P. M., and duly recorded in the office of said Register of Deeds in Book 13 of Mortgages on page 493, will be foreclosed by a sale of the premises in said mortgage and in this notice described, at the Sheriff's office in the Court House in the City of Thief River Falls, in the County of Pennington and State of Minnesota, at 10:00 o'clock in the forenoon of the 20th day of July, 1920, to satisfy the amount then due on said mortgage together with Fifty Dollars ($50.00) as attorney's fees and the costs of this foreclosure, as stipulated in said mortgage.

That the lands described in said mortgage and which will be sold are Lot Que (1), Two (2) and Three (3) in Block Twenty-Two (22) of the Original Townsite of Thief River Falls, according to the plat thereof on file and of record in the office of the Register of Deeds in and for the County of Pennington and State of Minnesota;

That pursuant to a provision in said mortgage to that effect, the said mortgagee has elected to declare and does hereby declare the balance of the whole sum secured by said mortgage immediately due and payable on account of default having occurred in the payment of interest due on January 15th, 1920.

That there now is due the sum of Seven Hundred Thirty and 71-100 Dollars ($730.71) on said mortgage.

James H. Eustice
Mortgagee.

Dated June 2nd, 1920.

J. J. Trunx,
Attorney for the Mortgagee
843-45 Plymouth Building,
Minneapolis, Minnesota.

### Test of Nerves

First Doctor—How are the patients nerves?

Scond Doctor—Fine he can read all the headlines in the daily paper now without a tremor.

## ST. HILAIRE

While on an auto tour to various points in this state, Ben Gestie of Bricelyn, accompanied by his uncle, Nels Gestie visited at the home of the latter's sister, Mrs. Carl Johnson, for a few hours Friday afternoon enroute from Thief River Falls to Fosston.

The interior of the postoffice building has recently been renovated by a coat of paint.

Roy Wallin, who is employed at Minneapolis, arrived the latter part of last week to visit at the home of his mother.

Miss Mabel Patterson became very ill Wednesday evening. The attending physician found that she was suffering from an attack of appendicitis. Accordingly she was taken to the hospital at Thief River Falls and an operation was performed. At this writing she is getting along as well as could be expected.

Mr. and Mrs. Ole Loberg left Friday for Baudette to spend a few days with relatives.

Ed Dahl motored to Crookston Saturday evening, and returned with Gust Anderson, P. Ernstad and Andy Dahl who are employed at various building activities in that city, and who returned to their respective homes for a fourth of July visit.

The baseball team of Thief River Falls and St Hilaire met on the local diamond Sunday afternoon, and played one of the most exciting games of the season. The battle was hard fought and resulted in victory for the locals with a score of 0 to 5 in their favor. The good roads and fine weather made it possible for a large number of baseball enthusiasts to come from far and near.

Mr. and Mrs. Oscar Stearns of Rugley motored up Sunday to visit with friends until the following day. Mrs. Barness, who prior her marriage was Miss Mae Berrage, formerly taught in the local schools and has many friends in the village who were glad to see her again.

Mr. and Mrs. F. Steinhauer and children of Holt motored down Sunday to enjoy a brief visit at the A. Sonverson home. Mr. Steinhauer and caler son returned home the same evening but his wife and younger son remained for a couple of days.

Mr. and Mrs. Oscar Stearns of Minneapolis, who have spent a few days at the home of the latter's parents, Mr. and Mrs. P. Simonson, left Monday for a brief visit with Mr. Steaurs' parents in North Dakota before returning to Minneapolis.

Walter Berg visited with frends at Warren and Hallock over the week-end.

An auto party comprising the K. C. Girstad family of this village and the Anton Anderson family of Rockabury township motored to Honeyford, N. D., Saturady evening and visited at the C. Foss home, returning Sunday evening.

The baseball team and a number of the base ball enthusiasts of the village journeyed to Middle River Monday to take part in the Independence Day celebration. In the baseball game between Middle River and St. Hilaire, one of the many attractions of the day, the former team was victorious with a score of 3 to 4 in their favor.

Mrs. O. T. Boeher, of Charles City, Iowa, left Monday for home, after a pleasant visit at the home of her parents, Mr. and Mrs. Wm. Brandt of Black River township.

Mr. and Mrs. W. Jahnds and baby, who reside near Thief River Falls, motored down Sunday afternoon for a brief visit at the H. Kalland home.

Mr. and Mrs. G. F. Laffler arrived Saturday to visit at the home of the latter's mother, Mrs. M. Miller of Black River township. Mr. Laffey left again Tuesday for their home at Madison, Wis., but his wife remained for a longer visit.

The T. K. Hovet family left Saturday afternoon on an auto tour to Fisher, Mina and Buxton, N. D., returning Tuesday afternoon.

After a week's enforced vacation, due to the delay in securing cement for building purposes, C. Bengtzen and Henry Gunstad left Tuesday for Beltrami to resume their employment as carpenters.

Mr. and Mrs. Chas. Hooper of Madison, Wis., arrived Saturday to spend a few days at the home of the former's parents, Mr. and Mrs. G. W. Hooper, returning Wednesday.

Mrs. John Hedman of McIntosh is visiting at the home of her uncle, A. Satterberg, and with other relatives in this locality.

Mr. and Mrs. E. O. Burkee returned Monday from a brief sojourn at Detriot.

E. W. Gallagher recently arrived from Kermare, N. D., to assume charge of the G. N. depot. His household goods arrived Wednesday and the family are to reside in the Jos. Amble cottage on North Water street.

Miss Lulu Aden left Monday for a fortnight's visit with friends near Northwood, N. D.

Miss Clara Loberg and her brother Martin, who are attending summer school at the Bemidji Normal, arrived Friday to visit with the home folks until the first of the week.

Mr. and Mrs. G. W. Hooper, Mr. and Mrs. Chas. Hooper and Mrs. Norman Patterson enjoyed a motor tour to Maple Lake Monday.

E. T. Gestie, the well-known salesman of Fargo, transacted business in the village Wednesday afternoon and motored to Crookston early Thursday morning.

The Sun May Be Shining Bright

to-day and to-morrow the worst storm in years may break. It's the same with fire situation. You never can tell when the devouring element may devour your property and cause you irreparable loss. There is only one sure protection—a policy of fire insurance. In such strong companies as we represent. If you are not protected, see us without delay. Don't let another night pass unless you are covered.

## ANOTHER COSTLY VETO

On the second day of the convening congress, President Wilson saw fit to veto the budget bill. Representing the work of a joint budget committee, composed of members of both the senate and the house, who had held protracted hearings and given months of study to the question, the measure was designed to co-ordinate revenue and expenditures of the government in such a way as to bring an annual saving to the people of hundreds of millions of dollars. Mr. Wilson admitted that he favored the general policy of the proposed law, but because the bill did not bestow upon him the power to remove two of the officials appointed under it, he assumed the grave responsibility of throwing the whole measure into the discard.

There have been few acts of congress that have received the attention at the capitol and the discussion through the public press that have been given to the budget bill. Practically everyone has recognized the substantial economies in Federal financing that would be effected under its terms. Its passage represented the culmination of the efforts of public-spirited men in both houses of congress over a period of years, during which time many bills pertaining to the subject have been introduced and considered. Special exertion was made during the closing days of the session to get the budget bill through in order that the estimates for the fiscal year ending June 30, 1922, might be prepared under its provisions. Congress succeeded in doing its part in the great reform. After exhaustive study the measure was passed by both houses, a conference committee compromised the differences in thought between the senate and house of representatives, and its report was accepted. The bill was put into final form and sent to the White House for the signature that would make it law. With a few strokes of the pen Mr. Wilson vetoed the measure and nullified the painstaking study which its sections represented.

That the veto should have come on the eve of adjournment is peculiarly unfortunate, and an added tax of billions will be placed upon the country in consequence. Congress will not meet again until next December. In the meantime the estimates upon which will be based the appropriation for the next year will have been prepared in the same old way under the terms of the obsolete law which the budget law sought to replace. There will be the same competition between departments for funds, the same jealous rivalry between bureau chiefs to see who can squeeze the most dollars from the public treasury, and the same disregard of what revenues will be available to meet the expenditures that will be urged. The public will be compelled to stand the burden and pay the cost of an antiquated financial system that everybody concedes should be abandoned—all because Wilson insisted that he be given the power to remove in his discretion two of the officials who were to administer the budget system.

## WAR ASSETS

Whether a "favorable trade balance is really as favorable as we used to think has been questioned a good deal lately. There is no doubt that as to the main fact of the present balance, and little doubt as to its ultimate benefits.

During the war and since, this country has piled up such a balance of $17,000,000,000. This means simply that the rest of the world, mostly Europe, has gone in debt to us to that extent. It is incomparably the largest trade balance ever run up for or against any nation.

If the $10,000,000,000 of this vast sum represents war bonus to the Allies. None of these loans were made in money; they were merely credits —we sold the Allies war materials and commodities and took their notes for the stuff. Thus the whole $17,000,000,000 represents merchandise sold by Americans abroad, in excess of merchandise imported.

About $5,000,000,000 of this sum has been wiped out, $4,000,000,000 of it in the form of American securities formerly owned abroad and used in payment for our goods, and $1,000,000,000 in gold shipments to this country. Thus Europe still owes us about $12,000,000,000.

That fact, of course, is responsible for much of our high prices and inflated credit. But let it not be forgotten that it is a valid debt, an asset which can be put over against our war liabilities. Practically all of it is certain to be repaid sometime, in some form or other—rapidly if international co-operation and reconstruction proceed well, and slowly if they lag. There seems to be little reason to doubt, too, that the interest will be paid, unless the United States in some moment of unusual generosity should decide to make the Allies a gift of the interest.

Here, then, is an asset which, along with our government owned ships and minor items that can be liquidated, makes a volume of resources equal to about half our war debt. We are not so badly off, after all, providing we do our part in promoting Europe's ability to pay what it owes us.

## CRIME AND LIQUOR
(Sioux City Journal)

The New York Times, an open advocate of a liberal prohibition law and a constant opponent of the prohibition amendment, says editorially that prohibition is reducing crime in New York state." If that is a fact, why should not prohibition remain the permanent law? Is not one of the most ardent wets that the saloon is not only a breeder of crimes but for years has been its extermination was a dangerous influence in politics, the gagged in legitimate business. He had voice in all parties than the man enhis political politics and cast their influence because the soaks who drank at his bar were ready to cast their votes as he desired. When he could no longer "set 'em up on the house," the inebriates lost interest in his political positions and cast their votes accordingly to their sober instead of their soused judgments.

It was alleged that the elimination of the saloon tax would increase taxation. But the contrary has been found true. The reduction of crime directly due to the elimination of the saloon and the drink evil has reduced the public expenditures for the prosecution of crime and the protection of society more than the income from saloon license would have brought in. Prohibition has been a saving instead of an expense to the tax payer.

There is food for thought in the confession of the New York Times just now when the democratic party is divided in counsel and votes on the question of holding that which has been gained by prohibition or returning to the saloon, for if the wets win in the platform fight at San Francisco and the party should by any accident win in the November election, immediately upon assuming power it will take steps to repeal the prohibition amendment and the whole fight will have to be waged again in the states. The liquor interests realize how that they cannot beat down the amendment as it stands. They understand it can be repealed only by submitting an amendment to repeal it to the states for ratification. That is what they propose to do. That is what the wet plank at San Francisco is for. It is the opening wedge. The election of the party on that platform in November would be a widening of the cleft and the other conditions naturally would follow.

## ANOTHER PROPOSED SURRENDER

The State Department under the present administration proposes another surrender of American rights and interests.

Secretary of State Colby has sent to the Senators a letter outlining a proposed fisheries treaty between the United States and Great Britain which would grant to Canadian fishing vessels preferential privileges in ports of the United States with freedom from port dues or charges.

The privileges of entry and sale in American ports now is the exclusive prerogative of fishing vessels of the United States. It is a part of the great American doctrine of protection to American interests.

The proposed treaty will give the fishing vessels of the United States, pre-unably like interests and rights in the ports of Canada, and in addition the right to land and sell in Canadian ports without the payment of duty.

The right of American fishing vessels to land in Canadian ports for supplies, etc., already is available under the treaty of 1818. The proposed treaty will surrender the American markets to Canadian market—a hard bargain of inestimable value to Canadians. The present administration proposes to exchange the American market for the Canadian market—a hard bargain for the United States. This is another chapter in the Free Trade story of the Wilson administration.

If this proposed treaty is ratified, within five or six years, there will not be a single fishing vessel on the Atlantic or North Pacific coast or the Great Lakes flying the American flag. American fishermen will be driven from these waters.

This is another surrender of American interests suggested by the Wilson administration.

## THANK THE REPUBLICANS

It is stated with authority that 17,500,000 women will vote for the president in thirty states.

Altogether in the United States there are 27,000,000 women of voting age.

The difference, 9,500,000 will vote if the nineteenth amendment is ratified in time.

Of the eighteen states where these 9,500,000 reside, ten are democratic and eight republican.

In the states where the 17,500,000 women will vote, the normal popular majority is republican in two-thirds of them.

The republicans have nothing to lose and much to gain by hastening the ratification of the nineteenth amendment. Already they have the support of a large majority of the 17,500,000 women and will gain the support of at least one-third of the remaining 9,500,000 women.

The majority will be the republicans undoubtedly.

To republican majorities in congress the 117,500,000 owe their right to vote.

To republican sympathy and support the 9,500,000 remaining women will owe the acquisition of their rights in case the nineteenth amendment is put through. Which state is the vehicle, is unimportant. Who finally crowns the right is still more unimportant. The only important matter is that the amendment is ratified and the 9,500,000 women given the right to vote for president this year.

Not the president who reluctantly comes in at the last moment after the battle practically has been won, but the man and the men who have been in the fight from the first and borne the brunt of the battle, are deserving of credit.

President Wilson and the democrats who are making this suffrage move in Tennessee, are playing politics. Senator Harding and the republicans who have been in the fight from the first, are responding to right, justice and principle.

Women promoters of suffrage will be just and give credit where credit belongs.

---

Party cheers and partisan eulogies cannot take the place of principles or truth.

---

Already Son-in-law McAdoo is charged with insincerity, not by republicans, but by democrats.

---

The business man and laboring man go their way. We are all rising together. We throw over a surplus baggage occasionally, but in the main what helps one helps all. Let's be thankful, cheerful, grateful for the most bountiful year.

---

It appears that the greatest risk the soldiers now run is the War Risk Bureau. Scandals in this department come thick and fast.

---

It appears that "bit 'em again" was the key-note of the Democratic National Convention. So this is the high-tide of Wilson Democracy.

---

The Lord sends the rain, the rain aids the crop, and the crop makes the farmer rich. The farmer aids the business man and furnishes the food for the laboring man.

---

"My policy; my programme; my will," was the key-note of the San Francisco convention. Where, oh where, is the Jeffersonian democracy?

---

On the second day of theconvention, Mr. Bryan was sufficiently aroused to call it "an administration controlled convention." It was all that.

---

Postmaster General Burleson charged with "nullification" of portions of the retirement law. "Nullification seems to be a favorite word of the Democrats.

---

## Big Auto Tour the 27th

All who plan to take in the big auto tour to be held on Tuesday, July 27th, should notify the secretary of the commercial club and the secretary of the auto club in order that they may know how many plan to make the trip and to make the necessary arrangements up the line for the accomodation of the party. It is planned to leave this city early in the morning and make Warroad that evening, stopping over night at that place and making the return trip the next day down the Soo line route. The trip north will be made up the Great Northern route and will be in the interests of the fair and a general get acquainted trip. The band will be taken along and it is planned to make stops of one half hour in each place. A general good time is anticipated and it is hoped there will be a large turnout when the procession is formed.

## The Congregational Church of Rosewood

Rev. Werner Drotts, Pastor

Services will be held next Sunday at 10:30 a. m. and 8 p. m. Young people meeting will be held next Saturday at 8 p. m. Coffee and cake will be served. All are welcome.

## Ladies Aid

The Presbyterian Woman's Missionary society will meet with Mrs. Barnehaum on Friday, July 16 at 2 p. m.

## Sell Much Machinery

Speller brothers of Mavie are doing a big business in farm machinery and turning out much new machinery to the farmers in that vicinity. Last week they sold a Clerrac tractor to J. C. Lindberg at that place and are figuring on several more tractor prospects at the present time. The territory in and around Mavie is on the upgrade and good farmers are fast making that one of the valuable sections of the country.

## Visits in City Friday

Mrs. Emma Harwood, the well known editor of Roosevelt, visited in this city Friday with friends on her return from a visit in North Dakota and an inspection tour of the Yellowstone park.

## The Bible Chautauqua

We wish to announce to the public that the Bible chautauqua that is being conducted in the tent on the corner of LaBree avenue and Fourth street will continue for some time to come. A new subject of vital interest to everyone is presented every night. That the attendance is large need not be mentioned, as you have no doubt heard about the large tent being filled. If you understand the Scandinavian language, these meetings are for you! The meetings are free and we invite you to come and bring your friend.

---

Miss Clara Myhre left Tuesday for her home in Minneapolis, after spending several weeks with Mrs. Orne and other friends in this city.

## NOTICE OF ANNUAL SCHOOL MEETING

Notice is hereby given that the annual meeting of the qualified voters of Independent School District number eighteen of Pennington county, Minnesota, will be held at the Auditorium in the city of Thief River Falls in said county on July 17, 1920, at seven o'clock P. M., for the purpose of electing two directors, each for a term of three years, to succeed F. P. Haynes and H. S. Dahlen, whose terms will expire, and to transact any other business which may come before the meeting

The following are the names of the candidates for the office of school director for whom applications have been filed and their names be placed on the ballot as such candidates at said meeting, to-wit: None.

July 7, 1920.

P. O. Myhrum
Clerk.

## Notice To Contractors

Sealed proposals will be received at the office of the Town clerk of the Town of North, County of Pennington, State of Minnesota until Two o'clock P. M. on the 31st day of July 1920 for the construction of two piers and one abutment on the Long Bridge. Plans for the proposed work may be seen at the Town clerk's office Thief River Falls, Minn.

July 7th, 1920.

T. H. Bjerke
Town Clerk, Town of North.
July 9-16-23

# The Fordson Operates All Makes of Threshers Including the Geiser

## Of Course, You Want A Fordson

The Fordson is an ideal tractor for your farm. It is built compactly, simply, yet with abundant power. It pulls a two-bottom plow and will do a proportionate amount of other farm work.

The Fordson engine is unusual. It is simple, easily cared for, and so designed that the farmer can give any attention requird in service. The entire head of the cylinders, which are cast enbloc, can be removed for grinding valves.

The air is cleaned with an improved air washer. A special carbureator allows the use of kerosene—without any of the trouble that is commonly associated with this fuel

### Remember The Fordson Service

We carry a complete stock of Fordson parts. Should you have an accident or a bad breakdown, you need only to phone us and we will have a Fordson mechanic on the way. We can make any repairs to a Fordson within a few hours. The cost is low compared with the other tractors.

## A Famous Tractor---The Fordson

The Fordson tractor has attracted the attention of every civilized country. It is used by thousands in Europe today. It has shown the way to make farms produce more—in every country— and of evry size. Built right—simple, durable, economical, easy to operate—easy to care for; the Fordson fulfills every requirement. It will make your farm a more profitable investment, will take worries off your shoulders. Burns kerosene, all gears are enclosed.

The Fordson is built especially to meet the needs for a tractor which must be cared for by the operator himself.

# McFarland Auto Company

Thief River Falls, Minnesota

# FARMER CREDIT LACK DENIED BY BANKERS

**Labor Greatest Need, Cash Being Paid for Goods—Loans Held Back for Luxuries**

Minnesota farmers need farm help more than farm loans, bankers of the state agreed in answer to recent letters sent out by J. H. Hay, state deputy commissioner of agriculture, urging liberal credit to enable farmers to buy labor saving machinery, toward increasing crop production.

Most farmers of the state have cash and are paying cash for everything, the bankers reported.

Some bankers complained of inability to finance needs of farmers because they cannot discount paper with the Federal Reserve bank, Mr. Hay said. The replies indicated generally, however, that the farmers' need of credit is being cared for, and that enrollments are mainly on requests for loans to buy automobiles, lighting plants and expensive machinery.

"While the farmer, generally speaking, is a level headed fellow," wrote one Minnesota banker, "yet the germ that seems to be inoculated into the brain of Americans today to buy gasoline engines instead of milk cows is not encouraged by us. We are more than glad to back the farmer for anything he wants, but if the time spent in uselessly driving cars was spent in developing stock there would be a first class creamery where there is a gas tank in many places today."—Minneapolis Tribune.

This banker probably knows more about "gas tanks" than he does about banking, farming, or cows. The farmer owns all the cows and some of the autos, and we do not know anyone more entitled to the auto's. Sitting on cushions and giving advice to the farmer is old stuff and becoming more and more unpopular.

### Armistice Off

Louise—Clare and Edith have not spoken to each other for months, but now they are inseparable again. They go everywhere together.

Julia—Yes; they decided to renew hostilities.

## WHEN HARDING GOT HIS DAD'S OKEH AT MARION

When Warren G. Harding, Republican presidential nominee, returned to his home at Marion, O., July 6, the first time since the nomination, one of the most touching scenes was the meeting of father and son. Dr. Geo. T. Harding, now 76 years old, is still practicing medicine at Marion. This photo shows Senator Harding and wife with Dr. Harding. The inset is of James Sloan, former secret service man, who has been known as "Jimmy" to three presidents—Roosevelt, Taft and Wilson. He has been engaged to guard Harding and has established his post on the front porch of the Harding home in Marion.

# ANTHRACITE COAL RAISES $1.95 PER TON

**PRICES OF ALL SIZES TO ADVANCE 10 CENTS MONTHLY TRADE JOURNAL SAYS**

Anthracite coal is $1.95 a ton higher, no steam coal is on hand and not coal is being sold at $16.30 a ton, according to the Coal Trade Journal. Discussing the coal situation in the twin cities, the Coal Trade Journal in its current issue says:

"Twin city coal consumers can cheer up with full assurance, apparently, that the worst is yet to come. Orders for anthracite for immediate delivery are being taken at many of the shops at an advance of about $2 a ton above the close of the 1919-1920 coal year. Considerable anthracite has been received.

"June prices for anthracite at retail are: Nut, $16.30; stove, $16.20; egg, $16; pea, $14.60; buckwheat, $12.90. These prices afford a better margin for the dealer against the time of settlement with mine owners. Also they cover an advance of wages for teamsters, increased cost in other respects and advancing prices for material. The price of all sizes will advance automatically 10 cents a ton the first of every month. It is expected that before the winter campaign is over prices will be still higher.

"Twenty-two years ago nut anthracite coal sold for $6 a ton in the twin cities. Rates have not far to go before they will have trebled the rates of two decades ago.

"State expenses took another upward leap when contracts were let for 84,700 tons of coal for state institutions at prices averaging about $2 a ton more than were paid last year."

### A Share

Barber—Hair cut, sir?

Customer—No cut a hair cut; only a mouthful of lather, 15 minutes of onion breath and the tip of my ear cut off.

# THE LIMIT IS IN SIGHT ON GASOLINE

**BUREAU TELLS AUTO OWNERS TO "DRIVE ON"**

Gasoline supplies are increasing. The latest bureau of mines report shows that the reserve stocks on hand at the refineries in March totaled over 626,000,000 gallons, and serves to offset some of the startling statements that have been made regarding the gasoline supply.

In fact, this gasoline scare has been largely psychological, in the opinion of the federal trade commission. The failure in certain north Texas fields upset some of the oil men and made an immediate shortage seem possible.

The year 1920 has been fortunately, however, and there are a good many factors which point to increased production.

Refiners can get twice the amount of gasoline from oil by using the new "cracking" processes. The big mid-west companies using the modern methods are getting a 35% per cent yield from crude; but refiners elsewhere are getting only 12 to 22 per cent. The cost of installing the new processes will make the change slow, but if any absolute shortage should confront the market, oil men say this means can be taken to meet it. This would mean an increase of 60 per cent in our present supply.

### Mexico an Oil Empire

Mexico is another source of future supply which has been almost doubling its shipments to the American market every year. In 1919 the Mexican market shipped 52,622,000 barrels of crude oil to the United States, most of it to the Atlantic coast.

David White of the United States geological survey sees infinite possibilities in oil obtainer from shale, altho this great supply has not been tapped in great quantities until more machinery has been developed.

Mr. White says: "The oil shale deposits of the United States are a possible source of oil in amounts far greater than all the available natural petroleum of this hemisphere. They form an enduring asset, sufficient to sustain an enormous ultimate total for an indefinite period."

### Joy Killer

Our idea of a pessimist is a person who can't admire orange blossoms for thinking of the lemon crop.

**Citation for hearing on Petition for Administration.**

Estate of August O. Schneider

State of Minnesota, County of Pennington in Probate Court.

In the matter of the Estate of August O. Schneider, Deceiset.

The State of Minnesota, To Thersa Schneider and all persons interested in the granting of administration of the estate of said deceedent: The petition of Theressa Schneider having been filed in this Court, representing that August O. Schneider, then a resident of the County of Pennington, State of Minnesota, died intestate on the 29th day of May 1920, and praying that letters of administration of his estate be granted to Nick Bundhund and the Court, having fixed the time and place for hearing said petition: THEREFORE, YOU AND EACH OF YOU, are hereby cited and required to show cause, if any you have, before this Court at the Probate Court Rooms in the Court House, in the City of Thief River Falls in the County of Pennington, State of Minnesota, on the 24th. day of July, 1920, at Ten o'clock A. M., why said petition should not be granted.

Witness, the Judge of said Court, and the seal of said Court, this 29th. day of June 1920.

OUR PRINTING on HAMMERMILL BOND Will Save You Money

## TWO MINUTE TALKS TO AMERICANS.

America First Association.

### UNITED AMERICANS

By William C. Deming, *Editor Stockman and Farmer, Cheyenne, Wyoming.*

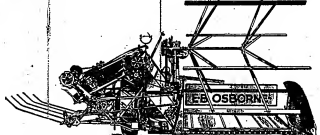
Because of the unsettled condition of affairs throughout the country, the growing unrest among laboring classes, the activity of radicals, particularly from foreign lands, and the disposition in certain quarters to attack private property and even overthrow the government, if possible, conditions which have been disclosed by congressional hearings and official investigations, a nation wide movement is in progress to bring all good American citizens together upon the proposition to uphold the government and the constitution, to preserve property rights, to respect national and state laws, to stabilize business and promote a program of reconstruction.

It is proposed to accomplish this by a new organization called the United Americans, to be established in every state and to co-operate with a national organization of the same name and same object.

This movement is not against anyone or anything except elements which are destructive of American ideals, but it is distinctly for the American government, the American constitution and the American flag.

Every American citizen, native born or naturalized is eligible to membership.

It is hoped we can soon register fifty million 100 per cent Americans who will be known hotb by the lives they lead, and the little bronze button on the lapel of the coat.



Let's go.

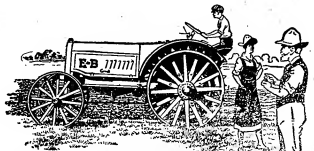
☞ FATHERS, MOTHERS, CHILDREN, WORKMEN, AND EMPLOYERS OF LABOR—ALL LOYAL AMERICANS—will you not devote five minutes today, to an earnest study of some of *the great truths of our National life?*

# Harvest Time is Near at Hand

ARE YOU READY?

Do not wait until you are about to start in the field before getting ready with what new machinery you may need and any new repair work that is needed. Everything will be difficult to get from now on, and the farmer who prepares is the one who'll profit.

## A FEW BINDERS LEET



Out of several carloads of new binders we only have a few left that have not been sold. We expect a couple of carloads in this week and when they are gone we will not be able to secure any more for this season. Remember that our stock of binders is limited, as we have already sold a large number of them. We will only be able to take care of eight or ten more orders for binders.

## GEISER

Small Tractor Thresher

ANY AND ALL MAKES OF TRACTORS INCLUDING THE FORDSON, OPERATES THIS THRESHER

E. B. Geiser Nos. 4 and 5 Threshers are ideal machines for farmers or groups of farmers doing their own threshing. They efficiently meet the large and increased demand by gas TRACTOR OWNERS for a compact light weight, yet durable, SMALL TRACTOR THRESHER with a big capacity. Every grain growing TRACTOR OWNER can save money time and labor with an E-B Geiser.

**The Tractor That Mother, Son or Granddad Can Operate**

## 25% More Power, Too

This new E-B 12-20, S. A. E. rating, Tractor pulls as much as a 15-25. Pulls a full 12-20 load with ample reserve for emergencies.

The Most Power for the Weight and Money ever offered.

All gears are enclosed and dust-proof—running in oil. Only 3 grease cups to be filled daily.

It's a four-wheel tractor—all wheels out of furrow.

The engine is standard E-B 4-cylinder Lycoming Motor.

This is the tractor for your work. Come in and see it.

We carry a full line of everything in Farm Machinery, Power Washing Machines, Cream Separators, Gasoline Engines and other modern conveniences. Remember that we're here to serve you the best on the market at the lowest prices.

Across from Auditorium **RAMBECK-STONE COMPANY**

# SUGAR PROFITEERS ESCAPE REGULATION

## Federal Attorney Tells of Being Balked By Courts and Poor Laws

Denver, Colo.—In a strong letter to the Gunnison (Col.) Empire, written on June 3, Harry S. Tedrow, United States attorney, explains how he was blocked by poor laws and courts from restraining the sugar profiteers of Colorado.

Attorney Tedrow's letter reads in full as follows:

Hon. C. T. Ruvalt,
Gunnison, Colorado.

My Dear Mr. Ruvalt: The three different prices for sugar made by jobbers at practically the same time for Gunnison possibly find an explanation in the following:

The northern Colorado territory is served by the Great Western Sugar company, whose price to the jobber is $12.82 per hundred. The Arkansas valley, the south and western parts of the state, are supposed to be served by the factories in their respective localities. These latter charge a higher price to the jobber than the Great Western, claiming that their cost of production is greater. The department of justice has recognized as reasonable a profit of 1 cent per pound to the jobber and 2 cents per pound to the retailer, or 3 cents per pound between the refiner and the consumer. The Gunnison dealer who buys of the Denver jobber would find his cost based upon the northern Colorado refiner's price. The dealer, who buys in Pueblo would find his cost based upon the Arkansas valley refiner's price. My information is that the sugar refinery which is supposed to serve the western slope did not reserve any sugar this year for the people of that region, but sold it elsewhere, and so it is necessary to bring in sugar from outside the state for western Colorado, including cane sugar from the Pacific coast. Here would create the possibility for a third and higher price.

### Enjoined by Court

I have been enjoined from prosecuting under that feature of the Lever act, which forbids exacting excessive or unreasonable prices, and can not proceed until the supreme court of the United States passes upon its constitutionality. In the case of the 13 Denver merchants versus Tedrow, I construed the hoarding provisions of the act as authorizing prosecution of speculators for shipping sugar out of the state, and that it empowered me to keep in Colorado that proportion of its own sugar to which it is entitled, and I made some arrests, procured indictments, and seized some sugar. Yesterday, in connection with one of these indictments, the federal court ruled that my position in that respect is legally unsound, so that at this writing the entire Lever act, so far as it applies in Colorado is practically inoperative.

### No Adequte Law

There is no federal law death, with profiteering except the Lever act. Furthermore, its life is expressly dependent upon the existence of a state of war with Germany, and when peace comes it dies indeed, congress may kill it before then. Is there any hope that congress would pass a substitute, if this piece of legislation expires? The limited powers of the national government give room for the legal claim that the national government can not deal with profiteering at all in times of peace, although with this I personally do not agree, in view of the latitude which the courts have given congress under the interstate commerce and internal revenue provisions of the Constitution. However, the state undoubtedly do have a clearer right, and it is too bad that the states keep eternally surrendering their powers to the national government, or at least, depend upon Washington to do everything for their people. The proper spirit would be co-operation between the states and the national government in this complex problem of increased cost of living. It is to be regretted that the governor of Colorado declined to incorporate the subject in the call for the extra session of the general assembly, when petitioned to do so. Something might have been accomplished. The state of Colorado can do something in the way of coal, for it actually owns coal mines. The extinction of the middleman when possible would contribute toward lowering costs to the consumer, and at the same time tend to bring to the producer that greater proportion of the products of his toil which is absolutely imperative.

You may use any part of the foregoing for print which you desire. I wish I had time to write a book upon "the thoughts that arise in me."

With best wishes, I remain,
Sincerely,
HARRY B. TEDROW
United States Attorney.

# IMPERIALISM RUINS SAYS FINANCIER

## SIR GEORGE PAISH SEES CHAOS BROUGHT BY PRESENT POLICIES

New York City — Sir George Paish, one of the best known men in international finance, who has served England on financial missions to America on several important crises, is the latest to denounce the policies agreed on by the peace council and pursued since that time.

None of the European labor or Socialist leaders engaged in fighting imperialism in their respective nations have denounced it in more open terms than does Paish in a current number of a London magazine, Ways and Means.

"Nations, capitalists and working forces are vying with each other," says Paish, "in their effort to secure individual advantage and are bringing the world to ruin.

"Until now I have, from time to time, directed attention to the economic and financial situation in confident expectation that the dangers could and would be averted when those in power became aware of their existence. Never was there greater need of a liberal policy of international understanding and of international co-operation, but probably never were the individual nations more intent upon pursuing their own narrow interests regardless of the disaster which such policy at this time must entail.

### Imperialism Destroys

"Notwithstanding the suffering of war brought about by the intention of the central powers to promote their own narrow interests; regardless of the inevitable injury which they would commit against humanity and themselves, the victorious powers are now pursuing a similar policy which must entail an even greater degree of suffering not only upon the central powers but upon themselves as well.

"Never was it so necessary for the powers to seek their own good by promoting general good and never were they less willing to do so.

"So far as it is possible to come to definite conclusions the course the nations are pursuing threatens to bring about almost complete paralysis of trade and commerce within the next few months. I cannot now see any possible method of preventing the fraue from falling as far or nearly as far as the mark, while depreciation of the lire may be nearly as great. Nor can I discover any step likely to be taken until after the mischief has been done, which can prevent the pound from falling from its present of under $4 to $3 or even lower.

### New Spirit Needed

"The nations, one after the other, are falling into the abyss of poverty and privation created by the war and by the nature of the peace.

"If the peoples are to be preserved from starvation and civilization from destruction, not a moment must now be lost in making the people aware of their great danger and in assisting them to co-operate. In order to overcome it the world must be animated by a new spirit or perish."

### PIONEER OF ST. PAUL IS DEAD AT CROOKSTON

The funeral of David H. Turner, St. Paul pioneer, who died at Crookston yesterday after an illness of three years will take place there tomorrow. He was 68 years old.

He was born in St. Paul in 1857. He entered the employ of Pollock, Donaldson & Ogden, now Merrill, Green & Chapman, at the age of 18 and had been with the firm ever since.

Mr. Turner was an active member of the Minnesota Territorial Pioneers and a close friend of J. J. Hill and J. C. Burbank. He urged the erection of a Hill memorial in a "Burbank Square," to be developed from the block between Smith Park and the new Union Station.

He leaves a widow, who was Miss Lizzie C. Bohrer, daughter of J. M. Bohrer of St. Paul, and three daughters.

### IN APPRECIATION OF DAVID H. TURNER DIED AT CROOKSTON, MINN. JULY 7th, 1920

Mr. Turner entered the employ of Pollock, Donaldson & Ogden on September 24th, 1874, at the age of seventeen years, beginning an association which continued without a break for forty-six years, the longest in the history of the business.

About 1882 Mr. Turner became a traveling representative for the house. The hard times and grasshopper years of the seventies were past, and railroads were pushing into the northwest in the wake of immigration. His route followed the main line of the Northern Pacific to its advancing terminus, and included everything north to the Canadian boundary.

Now eight routes have been established in territory that Mr. Turner pioneered in company with men who became his life long friends, making team trips in advance of the railroads that were measured by hundreds of miles and weeks of time.

As a salesman, Mr. Turner's standards were high. He was loyal to his house; always watchful for the interests of his customers, who recognized his sterling integrity of character, and learned to rely upon his sound judgment.

Mr. Turner was not only a good business man, but a good citizen. His early home at St. Paul in 'old lower town' gave him acquaintance with men who became leaders in the development of the Northwest, including Mr. James J. Hill, who was his per-onal friend. He was a useful citizen of Crookston, and aggressive in everything that affected the welfare of St. Paul.

As a member of the Minnesota Historical Society, and Territorial Pioneers, he gave invaluable service.

The friends who have sympathized with the sorrows that came to Mr. Turner's home, will remember that they were not few, nor such that time assuages, but each was met with characteristic fortitude.

After three years of retirement from active service, weak in body, but strong in spirit, 'Dave' passed away in his sleep, leaving the memory of a devoted father, a loyal friend, a worthy citizen.

At the funeral services in Crookston, on Saturday at two o'clock, Mr. Greer, Mr. Sorenson, Mr. Bekman and Mr. Storbolm were our representatives.

The funeral took place Saturday at two o'clock from the First Congregational church.

### Learned Something

They were looking down into the depths of the Grand Canyon.

"Do you know," asked the guide, "that it took millions and millions of years for this great abyss to be carved out?"

"Well, well," ejaculated the traveler. "I never knew this was a government job."

### Modest

Ethel I understand she was very modest at her birthday.

Helen—Well, I should say so; she didn't have half as many candels as she ought to have had on per cake.

When you advertise you go half way. There's a meeting place for the seller and the buyer of real estate. This meeting place is in the classified advertising columns of this paper. The owner is represented by his advertisement. The prospective buyer turns to these columns—and if the ad enlists his interest the transaction is under way.

# DO YOU REALIZE

## That Just Three Short Weeks Remain

## of The Tribune's Great $3,600 Auto Campaign?

### During That Time You Can Win A Buick "Six"

BY doing your best work for subscriptions without delay. The great race is going to be won or lost during the next three weeks. The race has been so close, all during the initial weeks, that not one worker has attained a sufficiently large vote reserve to feel even mildly certain of victory. The race is really just starting—the deadlock which was in force at the end of the First Period forces the decision to come during the last period.

You have as much chance to win during the next three weeks as anyone. No one has a very large vote reserve—and no one is far enough ahead of you to cause you any fear or uncertainty. It is a fact that you can begin a whirlwind campaign for last minute votes today, continue it until the end of the race, July 31st—and come out a winner of the Buick "Six"!!

Isn't it worth the effort? Isn't the Buick "Six" worth doing hard work for, for three weeks? You can't afford NOT to make these last weeks your best weeks—for only by so doing can you hope to win—and you are in to win. Get every subscription possible. Call in all the reserves upon which you have any claim. Make every friend give you his best possible assistance. And keep working every minute—until the end.

The last three weeks can win or lose for you. What shall it be? It depends on you and your work for the next three weeks. MAKE THEM WINNING WEEKS—DO YOUR BEST WORK NOW!!

## You've Got to Work---and Work Hard!---If You Want to Win!!

# The Best of 80 Years Experience in this New Small Ideal

THE accumulated manufacturing experience of over three-quarters of a century—and the judgment of over 20,000 Ideal owners—is back of the new, small 22 x 36 Ideal Thresher.

You know the record and reputation of the larger sizes of the Ideal—there's no farming community that hasn't its Ideal outfits with their satisfied customers. When we were called upon to build a smaller size separator, we didn't just "turn one out"—we built along the same lines as the Ideal, determined that our small thresher would be leaders in their class just as are the larger.

So in the small as well as the larger Ideals you will find those features that mean the difference between a "sure" and a "guesswork" job.—Ideal thresher owners will tell you that.

Bunching, or cylinder winding is unknown in the Ideal—because the Ideal is designed on the principle of *a steady, even flow of straw through the machine* from the time it enters the cylinder until, free from all grain, it leaves through the stacker.

First of all, we placed the Ideal grates exactly right in relation to the cylinder. Then we designed the Ideal travelling elated rake to take the straw from the cylinder and carry it to the straw rack. Result—more grain surface and a steady even flow of straw, making choking impossible.

Shaking alone wasn't a guarantee of complete separation, so we put sets of lifting fingers on the straw rack that tear the straw open—shake it from beneath. Result—complete separation and no waste.

Then, to take care of the increased capacity due to these inventions and to make the Ideal do a perfect job of cleaning, we put in extra chaffer area. The chaffer is the cleaning shoe, with the adjustable sieve and our special system of wind control, guarantee a perfect job of cleaning without waste. Result—the kind of cleaning that gets "no dockage" at the elevator.

Such construction shows why the small 22 x 36 will handle up to 600 bushels of wheat in a day's, run—the 28 x 44 up to 1,500 bushels.

The Ideal is built in five sizes—22 x 36, 28 x 44, 28 x 48 32 x 52 and 36 x 60—standard in design and construction, and meeting all needs, from the man who owns his own power and wants to do his own threshing, to the custom thresher.

There's an Ideal in your neighborhood.

*The gasoline-kerosene oil-burning, oil-cooled OilPull Tractor is built in sizes to fit every size Ideal.*

MINNESOTA HISTORICAL SOCIETY

# THE TRIBUNE

VOL. 20 No. 37 THIEF RIVER FALLS, MINNESOTA, FRIDAY, JULY 16, 1920 *Official Paper of Pennington County*

## SHORT TIME UNTIL FAIR GATES OPEN

Historical Society

**BIGGER AND BETTER THAN EVER IS THE SLOGAN OF DIRECTORS**

Just a trifle more than two weeks remain until the opening day of the Pennington county fair and the fair board are working mighty hard to get everything in readiness for this annual event. They have made all necessary arrangements for taking care of the largest crowd in the history of the association and it is felt that this year's attendance will far exceed that of any previous year. The exhibits are also expected to be better than usual this year due to the wonderful crop prospects and from every hand is heard the expression that the county fair this year is certain to be the best ever and that no cause for complaint will be given in the presentation of the shows and free attractions.

Art Williams, who is considered the most fearless of all flyers, will be here every day of the fair and will give two exhibitions on each day. He is the man who walks all over the plane while it is high in mid air, dropping in a parachute while the plane is five thousand feet in the air. He is rated as one of the big attractions of all county fairs and has been giving entire satisfaction wherever he has appeared. Lieut. Larrabee has also been secured for the fair and will give some thrilling exhibitions in the air. He has one act that is called the falling leaf. In this act he lets all control of his plane go and drops from a height of 5,000 feet, alighting his plane while but eighty feet from the earth. He also has a large number of thrilling acts that will be given for the benefit of those who attend this annual event of Pennington county.

The flying circus also is scheduled for every day of the fair and their act is calculated to raise the hair on the head of a wooden man. They have stunts that have seldom been tried before and their act is called one of the best that the people of this state have been fortunate in seeing. They carry a large crew of people with them and give everything that could be hoped for in this line of amusement and then a little more. They are booked for all three days and from all indications and reports they are well worth seeing.

Many more acts and special features are to be booked and everything points to a wonderful and interesting three days when the big Pennington county fair gets in full swing.

## JUDGE HOLDS INJUNCTION IN PAVING INVALID

**SO DECIDED AT WARREN ON WEDNESDAY OF THIS WEEK —CITY TO PAVE**

Judge Andrew Grindeland has decided against the paving injunction signed by a few of the citizens of the city asking that all work on the paving program mapped out by the city for his year be held up. The decision was reached by Judge Grindeland at his home in Warren and the city council are now going ahead with the preliminary work of paving. It is not known how much of the work can be accomplished this year, but an effort will be made to get in action on the work at once and if possible to complete as much as possible before cold weather sets in. The opinion of the judge is as follows:

"Under said Chapter 65 the city has the power to issue certificates for the payment of the 'whole or part of said improvement' and section nine thereof provides that the 'amount of any such certificates at any time outstanding shall not be included in determining any such municipality's net indebtedness under the provisions or any applicable law.'

"From a fair and reasonable construction of said Chapter 65, Laws 1919, the court is of the opinion that the city can issue the certificates in payment of the city's proportionate share of the cost of the improvement as well as that which is to be borne by special assessment against abutting property. Hence the city can raise by such certificates a sufficient amount to pay the entire cost of the improvement and pay the contract price complained of. The said Chapter 65 further provides that the city shall provide funds to meet the certificates as they become due. The court can see no valid reason presented by the pleadings whereby the city cannot appropriate from the general revenue fund of said city each year a certificate falls due a sufficient amount, plus the amounts received by the city for special assessments, to meet the certificates as they fall due, and this may cover a period of 20 years if the city so desires, and there is nothing in the pleadings which would indicate to the court that the city will be unable to meet the certificates as they fall due.

"The court is of the opinion that the complaint fails to state a cause of action and the application for an injunction is therefore denied and the restraining order vacated and set aside."

## *Boosters in City*

**THIRTY AUTOMOBILE LOADS OF BOOSTERS HIT CITY AT NOON TODAY**

In the neighborhood of thirty automobiles visited this city at noon today, loaded with boosters from Grand Forks boosting for the Grand Forks fair which is to be held at that place this month.

The cars were met north of town by Secretary Scott Laird of the Commercial club and Geo. Streeter, president of the Pennington Auto Club and piloted into town. They were accompanied by a band and when lunch the band gathered at the intersection of Third and LaBree streets for a short concert. The boosters arrived in the city on schedule time and with the blowing of horns and the noise created were the greater share of the population on their way into town.

Another booster excursion is due in this city on July 31st when the St. Paul boosters arrive. They are coming by special train and will be accompanied by the Minnesota State band. They will remain in the city for a little more than an hour before continuing on their way southward.

**Dance Following Concert**

There will be a big dance held at the auditorium next Wednesday evening following the concert by the Million Dollar band at Squaw Point. The band will furnish the music for the dance and it is expected there will be a large attendance.

## PETITION FILED MONDAY FOR TWO DITCHES

**BOTH ARE TO BE LOCATED WEST OF THE CITY AND MEAN BIG IMPROVEMENT**

A petition for two large ditches came up for hearing on Monday evening and the plans for the work were turned over to Engineer Irving E. Quist. O. A. Naplin acted in the capacity of attorney for the petitioners and drew up the petition. Nothing of special importance was done at the meeting Monday evening other than the preliminary work, and the meeting was adjourned until Tuesday evening of next week.

The two proposed ditches, numbers 68 and 69, are both to be established west of town. Ditch 68 is to begin at the state road, four miles west and run straight south five miles, emptying into county ditch number one. Ditch 69 is to begin one mile south in the town of Sanders and also run south, emptying into county ditch number one. This ditch is to be one mile east of ditch 68.

The meeting to be held Tuesday evening is to determine whether or not the project shall be started and carried thru. No opposition at the present time has appeared but it is expected there will be some or less opposition. This is true of every county ditch that is placed and it is felt this project will prove no exception to the rule. However those interested in the establishing of these ditches are prepared to push the project thru to the finish and believe they will be able to carry the same thru to a successful conclusion.

**Bible Chautauqua**

Those who have been at the meetings are coming again; are you not coming? If you understand the Scandinavian language you should come and hear the following subjects on Friday and Sunday evenings respectively: "The Saint's Inheritance," "Shall the Jews return to Palestine and become a nation again?" Meeting every evening at 7.45, except Saturday and Monday evenings.

Jelly, Preserve, Vegetable and Relish labels—all ready to stick on the jars—at Laird's.

## CONCERTS BY BIG BAND SURE TO PLEASE ALL

**NOTED MILLION DOLLAR BAND HOLDS ALL RECORDS FOR BEING TIP-TOP**

Every one wants to know how Harold Bachman's band came to be known as the Million Dollar Band. Mr. Bachman tells the story as follows:

"It was on Christmas day, 1917, that the 116th Engineer's band was doing its best to cheer up the lonely soldiers of the 41st Division, who were spending their first Christmas away from home. General Hunter J. Liggett was the guest of honor at a celebration for the men at which this band furnished most of the music. Noting the cheering effect which the music had on this men, the General paid close attention to he program which Director Bachman had arranged, especially for Christmas day. At the close of one number General Liggett's chief of staff come to the band and after presenting the compliments of the General to the director, said: 'General Liggett wishes me to inform you that in all his forty-one years experience he has never heard a better band in the American army.' This compliment must have inspired the band members to even greater efforts, for after the next number General Liggett turned to Colonel Walker, commander of the 116th Engineers, and exclaimed, "Colonel, that band is worth a million dollars to the United States army."

The concert to be given July 21, at Squaw Point by this band promises to be a hummer. The price of admission is only 50 cents for adults and 25 cents for children.

**Pass Thru City**

Mrs. W. R. Whities and son, Robert, of Iowa City, Iowa, passed thru the city last night enroute to Detroit. Mrs. Whities and Robert are well known in Thief River Falls where they have visited on many occasions. They went to Los Angeles in November and were just returning via the North coast and Canadian route. Doctor Whittes will join his family at Detroit, where they own a cottage and grounds, for a six week's vacation.

**Large Sweet Clover Acreage**

County Agent McCann advises us that 24,000 pounds of sweet clover seed was sowed in the county this year or a little over 2,000 acres. This points toward more than $200,000. An even greater benefit will accrue to the land by reason of planting the crop. Remember, it improves the quality of the land, shades the ground and cleans up foul weeds. The roots left in the ground are a great fertilizer, ten to twenty tons of roots per acre from a seed crop remain as fertilizer. Sweet clover will pay interest, taxes and the mortgage debt. It will pay for the farm and make a poor farm a good farm.

It pays to advertise in The Tribune.

## PENNINGTON CATTLE TAKE ALL RIBBONS

**GUERNSEYS FROM THIS COUNTY WIN SWEEPSTAKES AT OUTSIDE FAIRS**

Leonard Hounke, State Dairy and Food Inspector has written in to the Farm Bureau office in Thief River Falls giving the results of the premiums awarded on the Guernseys from Pennington county at the North Dakota state fair. Kildee, of Ames, did the judging and both grand championships were awarded to the Guernseys of Pennington county, in competition with herds shown at the National Dairy Show last year and which will be shown again this year.

F. B. Conklin won the grand champion on his cow Clf. H. C. Woolson on his sire, Robert's Boy of Minnesota. Mr. Conklin won first on cow three years old and first on cow two years old also on senior heifer calf and senior yearing calf. Mr. Woolson won first and senior grand champion on aged bull, first on junior bull calf and second on cow in a class of strong competition with herds from the North Dakota Agricultural college and three others from Montana.

Pennington county Guernsey's have taken all premiums at the other fairs on the show circuit in Ada, Fertile and Crookston. They are now showing in Fargo and will make the Grand Forks fair during the week of July 19. This exhibition is making Pennington county famous for its purebred Guernseys and the exhibitors from this place have had opportunities to sell every head of stock that they the exhibiting.

**Play Grygla Sunday**

The local ball team goes to Grygla Sunday and will meet that team in what promises to be one of the fast games of the season. The Grygla team have been playing some mighty good ball and it is expected the game on Sunday will draw a large crowd of rooters from all sections. Several of the local fans plan to accompany the team from this place and if rooting will do any good they expect to put the local team across the plate for victory.

**To Entertain Boosters**

At the Merchants meeting held Wednesday evening, a committee for the entertainment of the many boosters that are coming here from St. Paul on July 31 was appointed and plans for the booster trip were also made and arrangements for the perfection of the tour were taken up and discussed. Those appointed for the entertainment of the St. Paul boosters are F. H. Herrick, chairman, E. O. Mogensen and L. L. Cohen. The committee for the booster tour to be made on July 27 is, Geo. Loken chairman, E. O. Mogensen and W. A. Hall.

**Zion Lutheran Church**

George Larson, Pastor.

Services in city at 11 a. m. Mission fest at Sam Groven's grove Sunday afternoon at 2 p. m.

**Father Dies**

Wm. Michelet left last evening for Minneapolis where he was called on account of the death of his father. The news has been expected for some time as Mr. Michelet has been in poor health most of the summer.

**Married.**

The M. E. parsonage was the scene of a quiet wedding on Saturday last, July 10, when Ormond H. Elton and Miss Mary G. Johnson were united in the bonds of matrimony by Rev. Jno. B. Smith. The ceremony took place in the presence of Otis Berg and Miss Esther Johnson. The contracting parties hail from Goodhue county and their marriage will be a surprise to their friends in Red Wing and vicinity.

## *Take River Trip*

**ALL PHYSICIANS AND NURSES TAKE PICNIC UP RIVER THIS AFTERNOON**

All the physicians and nurses of the city were absent from duty this afternoon when a large picnic party was made up and they all hiked to the river edge where launches and boats were waiting and an excursion up the Red River was made. The party went up the river about five miles and then landed, enjoying a picnic supper. The wives and families of the physicians also accompanied the party and there were twenty-five at the dock when the full party assembled.

The physicians provided for an emergency in case of an accident by leaving their office girls in charge and also by having a launch ready at the river edge in case any of them were needed. For the first time in the history of the city there was not a doctor within a short distance in case anything serious turned up. On no occasion in the past has this been done with the precautions taken by the city physicians, with a view of being reached in an emergency. The city was not disappointed and continued the even tenor of its way, all unaware that they were without medical protection temporarily.

## NEW HOME OF BANK NEARING COMPLETION

**FIRST AND PEOPLES STATE BANK TO HAVE MODEL BANKING HOME**

The new home for the First & Peoples State bank is fast nearing completion and if nothing unforseen occurs the new building will be ready for occupancy in the course of a few weeks. The delay caused by the non-arrival of stone for the front has been overcome and all material necessary for the completion of the building are now on the ground and the work of completing the new home of the bank is being rushed.

The bank is to be equipped with the very latest in modern banking facilities. An extra fine line of workmanship in the way of a vault is installed and nothing like it short of the larger places has been placed in the smaller communities. The door of the vault is two inches thick and is made of solid steel.

A special feature of the new institution will be the modern conveniences that are now installed facilitate the work of the employees. Everything that is known to modern banking is to be in readiness when the new home is opened to the public. One feature is a special room which is built for the adding machines, so that they will do away with much unnecessary noise in the bank proper and will add to the efficiency of the entire force.

The building now occupied by the bank has been purchased by the Walker-Gessel Land Company, who are to take possession as soon as the bank vacates. The building now occupied by the Land company has been leased by the Laird Specialty Shop. The building now used by the Laird shop is part of the building leased by the J. C. Penney Company who are to open a large store in the Meehan block.

These changes are notable for the fact that it is a step forward in the business life of the city and mean that the city is progressing in spite of the high cost of all building materials and labor.

**Meeting July 24th**

The Minnesota Public Health association will hold a meeting at the Auditorium in this city on Saturday, July 24. Dr. Pearce, child specialist of St. Paul, will be present and conduct the clinic. All mothers are invited to be present and bring the children to this clinic.

## MUST NOT SLOW UP IN RACE FOR TWO BIG PRIZES

**WORKERS IN TRIBUNE'S $3,000 AUTOMOBILE CAMPAIGN URGED TO WORK HARD**

"No," said he, "its mighty hard work—and, anyhow—what's the use of keeping on working when I know I can't win anything?"

This contestant was discouraged —mighty discouraged, things had gone wrong—subscriptions upon which he had counted had been refused him or given to other workers, friends upon whom he had looked for help had refused to give it. And, all in all—things looked pretty bad.

Admittedly—there wasn't that degree of smoothness which is always to be hoped for. But, what was the use of wanting to give up the race, simply because one day's work had been met with obstacle after obstacle? Would you ever see a business man or a farmer sell his property at a ruinous figure, simply because one day's work or one month's effort had gone for nothing? Would you ever find any sensible man or woman ready to give up everything they had gained, simply because one little project had failed?

Of course you would not—and the contestant himself was losing a mighty valuable investment, a mighty worthwhile experience, when he threw in the sponge at the first real rebuff and discouragement who's going to win—it's the worker with strong heart and will and determination who will ultimately come out of the race in the lead.

Work—and work—work without cessation—is the only key to success. And you can't do winning work when all the time you are convinced that you are losing—that you're out in the race—that you can't win. When you begin to believe that the race holds nothing for you but failure—you have lost.

But if you keep on working, turn in your determination to win the Buick "Six" or nothing—can't beat you. All that it will take to win is constant work and good work from now to the end of the race—two weeks from tomorrow night.

So—put in your very hardest effort from now to the end. Don't be welmeaning friends discourage you or dishearten you—don't let little obstacles and little defeats persuade you to slow up. Remember—you've not having one trouble that isn't also coming to everyone of your rivals. To every worker comes the very sorts of troubles—and it's only the exceptional worker, the winning worker, who can keep on in spite of them.

If you are in to win—now is the time to do so. If you are in the race in the hope of winning the Buick "Six"—now is the time to do your best work.

Go ahead and work with all your might and win!!

**Locate at Santa Anna**

Word comes from California to the effect that Dr. Gambell has invested in a fine home and twenty acres of orange grove property right in the city limits of Santa Anna, California. The family will move there from their present home in Los Angeles in a few weeks, and the doctor will establish himself in practice. Doctor Gambell and his fine family have many friends by their presence. The doctor served nearly two years in the Russian War Zone in Red Cross work and will enjoy his new home and settled down situation. No liar family ever lived in Thief River Falls, no liar family never lived in Santa Anna.

**Allow Large Sum**

The sum of $25,000 was allowed last Monday by the State Board of Relief to care for expenses incurred in the distribution of relief among flood sufferers by State Appraiser Scott Laird last winter and Spring.

Mr. Laird went to St. Paul Sunday night and met with the board in special session Monday morning, submitting his estimate of the probable total amount which will have been spent when all of the hills and seed grain notes have been liquidated and allowed. The figures brought the total up to $200,000 and as only $175,000 had previously been allotted the above action was necessary.

No additional allotments are being made by Mr. Laird to flood sufferers as some have thought from reading accounts in some of the newspapers wherein it was stated that an additional $25,000 had been appropriated.

# .....Automobile Campaign News.....

"LABOR WINS ALL."—Tacitus

This column conducted by Automobile Campaign Department, The Tribune.

## A LITTLE ADVICE

Diligence is the mother of good luck, and God gives all things to industry.—Franklin.

Trust yourself, rather than others.—Emerson.

Always be cheerful! It pays in its effect on the customer, and in its effect on yourself. The man who believes he is going to succeed, will find his customers and his friends gradually coming to believe the same thing.—Stanley.

The trouble with the average salesman who is a failure is that he doesn't stop to think, and does not learn by his mistakes or his successes. He who will apply the lessons which experience has taught him, to the carrying out of his work, will find it easy to get ahead. —Woodworth.

Men can only improve their circumstances by improving themselves. The man who does not shrink from temporary discomforts or difficulties, so long as they aid him to accomplish his object, will surely reach the goal upon which his heart is set.—Allen.

Any salesman, to be successful, must cultivate the art of close observation, and the ability to reach a decision from the facts observed will come to him.—From "Success and the Man."

Not one really great man has achieved success except by coming over a path of hardships and disappointments. It is because he has had the courage to keep on in spite of difficulties and reverses and disappointments, that he has succeeded.—Greene.

Hard work—continuous, never-ceasing—is the only royal road to success—and it may be followed by one man as well as by another.—Addison.

Why pay hard-earned cash for an automobile? Join The Tribune's great automobile campaign with all your might, work hard and work constantly, put up a brave fight and a strong fight—and get one free for three weeks' work.

## DON'T HOLD BACK SUBSCRIPTIONS

When you take a subscription, for no matter what length of time—send it in without delay. Wait only until you have a fair-sized order—don't, for any reason, hold back the subscriptions for any length of time.

There is no object to be gained by so doing—and there is much to be lost. The average man, when he subscribes for a newspaper, wants that newspaper without delay—he doesn't want to wait and wait for weeks before receiving it.

You can't afford to have one of your friends become angry because of the kind of service you are giving. You can't afford to allow any antagonistic feeling to spring up, right now. And—there's no quicker way to lose the support of your friends than by holding back their subscriptions. To send in your order at once means to get the subscriptions started at once—means to satisfy your friends, and to leave such a good feeling that, later, you can go back and get their help further.

SEND IN YOUR SUBSCRIPTIONS AT ONCE—AND KEEP SENDING THEM IN ALL THE TIME. WORK HARD—AND WIN!!

Possibly a few—a very few—people have come to you and told you that you've not a chance in the world; that the great $3,600 automobile campaign is unfair and not to be decided by merit—in short, that the deal is not square. DON'T BELIEVE THEM!!! Behind every published or written promise made stands the word of The Tribune. What you win—you will receive. Your work and your work alone can win or lose for you, MERIT WINS!!

## WHAT IT MEANS

Eighteen hundred dollars for three weeks' work—six hundred dollars a week—one hundred dollars a day—twenty dollars an hour.

THAT IS MORE MONEY THAN YOU ARE MAKING RIGHT NOW —THAN YOU CAN POSSIBLY MAKE. IT IS MORE MONEY THAN YOUR FARM OR YOUR BUSINESS IS PAYING YOU ABOVE EXPENSES. And it is more money than you can afford to lose.

Yet, since The Tribune will give the equivalent of that amount to some worker in the great $3,600 automobile campaign now entering its second stage, and since your work has made you an active contender for this amount—TO SLOW UP NOW MEANS TO LOSE IT ALL!!

The great has not yet been decided. No one contestant has a lead which can assure him or her of victory—no worker is far enough behind to feel sure of defeat. The tables may be turned by July 31st—those now in the lead may be far behind, and those who are now in the rear may win. IT ALL DEPENDS ON THE KIND OF WORK EVERY CONTESTANT DOES FOR THE NEXT TWO WEEKS.

If that work is good work—hard work—consistent work and determined work—then victory is almost assured. But if, on the other hand, any one contestant allows himself to slow up, to lag behind, to cease trying—DEFEAT IS CERTAIN.

This campaign means a wonderful victory to you and a wonderful profit. With the money that your victory will earn for you, you can do many things—can renovate your farm home, can add new machinery or purchase additional stock, can increase your farm acreage, can put yourself thru college, can add new stock to your store. Eighteen hundred dollars will buy so many things for you—will do so much for you and those dependent on you.

AND NEVER IN YOUR LIFE WILL YOU COME TO A TIME WHEN IT IS EASIER TO MAKE SUCH A LARGE SUM OF MONEY THAN RIGHT NOW.

Go out and dig in with all your might—work all the time and with all your might for subscriptions. Go to every friend and every acquaintance and every neighbor and tell every one of them that you want and need his assistance—and why you need it. AND STICK UNTIL YOU GET IT. Call in every available resource get all the back promises and the back subscriptions that you can. SIMPLY DO THE VERY BEST WORK HUMANLY POSSIBLE.

And—keep it up until the end!

The next two weeks will mean victory or defeat for you. WHICH SHALL IT BE? MAKE THE DECISION VICTORY BY WORKING HARDEST FROM NOW TO THE END!!!

"MAKE IT A HOT ONE!!!"

The man who acts today is the man who gets there. The man who waits until tomorrow never arrives. Do your best work today!!

## Mr. B. Busy Says

Subscriptions are easy to get, if you go after them in the right way. Don't tell your prospect how much the subscription will help YOU—tell him how much it will help HIM. Don't ask for the subscription in that whining, dispirited tone which leaves the impression that without the subscription you are sure to fail. GO TO YOUR PROSPECTIVE SUBSCRIBERS WITH A STRAIGHT BUSINESS PROPOSITION—SHOW THEM HOW MUCH IT MEANS TO YOU AND TO THEM—TELL THEM THAT YOU WANT THEIR SUBSCRIPTIONS NOW IF AT ALL BECAUSE YOU ARE GOING TO WIN DURING THE NEXT TWO WEEKS —AND THEY'LL BE GLAD TO HELP YOU!!

Any man can learn to do a thing as well as any other man has ever done it, if he will only apply himself well to the doing of it. The mere fact that other are meeting with or have met with more success than you in your work, doesn't mean you can't, by hard work and constant application, pass THEM. Stick—work—and WIN!

Go to the bottom of the causes of the success of any man, and you will find that the foundation of the structure has been built in made of HARD AND HONEST WORK. You cannot escape or deny the fact that only persevering, determined effort, kept up without lagging, will ever achieve a worth-while goal for you.

THE WORLD ADMIRES A FIGHTER. The world admires a worker, as it must, because only the worker and the fighter ever achieve anything worth while. And the reason that the world admires such a man is because that man is THE MAN WHO DOES THINGS WORTH-WHILE. You've got to work to win. HOW HARD ARE YOU WORKING?

THE WORKER WINS!!

What is the customary way to treat obstacles? Archer Brown says that it is human nature to DODGE HARD WORK—to slip past difficult places and to shy the obstacles which seem to mean a little extra work. YOU'VE GOT TO GO OVER RATHER THAN AROUND YOUR OBSTACLES NOW—YOU'VE GOT TO OVERCOME DEFEAT AND RISE UP ABOVE REFUSAL. AND YOU'VE GOT TO STICK—AND KEEP WORKING—TO WIN.

## JUST TWO MORE WEEKS

Just two more weeks remain in The Tribune's great $3,600 automobile campaign. Just two weeks from tomorrow night, the whole fight will end—just two weeks from tomorrow night at eight o'clock, the judges will commence a count of votes and cash which will give to hard workers a total of two automobiles and ten large cash prizes. And—the question for you to consider right now is this—WILL YOU BE ONE OF THE WINNERS?

Be honest. Go back over the work you have done, and review the work you plan to do during the next two weeks—the last two weeks of the campaign. Tell yourself, if you can do so honestly, that you are ENTITLED to success—and then remember that the only guide to the awarding of prizes in The Tribune's great prize race will be MERIT and RESULTS. If you have done work of winning quality—YOU WILL WIN. If you have not—YOU WILL FAIL.

You may feel that, for some reason, you have fallen behind your rivals. What of it? The next two weeks will be the greatest and the hardest weeks of all—the weeks during which the most desperate fighting for subscriptions, the most determined work for votes, the most consistent labor for subscription cash, will be done. Next week may change the whole complexion of the great race. You, who are today a little below a winning position, may do enough good work to place yourself in line for one of the two fine automobiles. You, who feel today that you are beaten already and that there is no use in struggling further, may be able to pile up a sufficient vote reserve to win THE WONDERFUL BUICK "SIX."

So—don't slow up now!! Rather —increase your efforts. These last weeks are the most important of the whole race; now or never, you've got to do the work that will win for you. Your friends will realize your need, when you tell them that only two weeks remain of the campaign. They will see now why it is that you have redoubled your solicitation for their assistance. They will be glad to give you their own subscriptions and to help you secure the subscriptions of other acquaintances; now more than ever before will they stand behind you and work with you. YOU CAN STILL WIN—OR YOU CAN STILL LOSE. The decision rests with you. Hard work will win for you—poor work will lose. You have invested so much now, in valuable time and hard effort and constant application that you CAN'T AFFORD to sacrifice your advantages by letting your rivals get ahead at the last moment. YOU ARE IN A POSITION TOWIN—OR TO LOSE.

WHICH SHALL IT BE?

YOUR LAST TWO WEEKS' WORK WILL TELL THE TALE. Make those weeks winning ones, by working with all your might, by fighting all the time, by keeping going all the time—in short, BY PUTTING UP THE HARDEST RACE OF WHICH YOU ARE CAPABLE!!!

YOU CAN WIN— YOU ARE BOUND TO WIN—IF YOU MAKE THESE LAST TWO WEEKS WEEKS OF WORK AND APPLICATION AND EFFORT.

An honest man—there is not a thing in life that he cannot achieve. There is not a victory that will not come to him, or post in life that he cannot reach. The greatest and most important form of honesty right now is HONESTY WITH YOURSELF. You've got the chance to win—you've the opportunity to achieve a wonderful goal, BUT YOU'VE GOT TO DO THE WORK WHICH WILL MERIT THAT REWARD—AND YOUR OWN HON-

Shrunken Dollars

While a dollar will not buy as much as formerly, it will still earn 8% if left here in a savings account.

Also—a day is coming when these shrunken dollars will buy twice as much as they will buy today—perhaps more.

Then will be the time to SPEND them. TODAY is the day to SAVE them. A savings account here was never so good an investment as it is today. Start one NOW.

Citizens State Bank

BOYS

BOYS are well-known. You don't have to go to far lands or to the County Fair to look upon them. Everywhere, it is still the style to have Boys.

Perhaps you are trying to run one or more Boys right this minute. Then you will know that since the world began they were never so tremendously important as now. Your hopes and your aims center on them. You must deliver them out of Boyhood into successful Manhood.

Will your sons stay with the land, or will the will-o-the-wisp of the cities call them away? Armies of country Boys, who could be happiest and most successful on farms, respond to the artificial glamour of town life before they are old enough to know their own minds. They do not know that the rewards of country life—in money, health, and happiness—are far greater. Make them realize that! Guide the restless ambitions of your Boys and spare no pains!

Machines have been a powerful factor in stemming the flow to the cities. Machines banish drudgery and make labor interesting; machines foster the love of mechanics in the Boy; machines are builders of fortunes.

You now own many of the machines made by the International Harvester Company. We are headquarters for the International Full Line, including Titan tractors, International engines, and manure spreaders, Primrose cream separators, McCormick and Deering harvesting, haying, and corn machines, tillage tools, P&O plows, etc. Give the Boys every chance for liking farming and farm life. Perhaps more of these machines will help keep them contented.

## Automobile Campaign News

Continued from Page 2.

ESTY WILL TELL YOU WHAT THAT WORK MUST BE LIKE. Honest effort will win you a wonderful prize. GO AHEAD AND WORK AND WIN!!

### WHERE THERE'S A WILL

(Note: This true story of a young man's great success, unaided by riches or influence, in a campaign exactly similar to that now being conducted by The Tribune, and written by that young man several years ago, will appear in installments in this column during the progress of The Tribune's great $3,600 campaign. /READ IT— DON'T MISS IT—IT HAS MUCH IN IT FOR YOU.)

(By Robert Douglas)

Chapter Thirteen

"Listen, Mrs. Sloan," I said "If you've got too much reading matter already; it's a sure thing that you're not reading what you've got. If you read at all, you want something to read that is worth-while—that doesn't waste your time without giving you any return for the time given. The World carries more real news than any other newspaper in Brown county—it gives the people that read it better and quicker service than any newspaper published anywhere in the United States. YOU CAN'T AFFORD TO PAY MORE THAN YOU PAY FOR THE WORLD —and you can't afford to pay less and get less value for your money."

"Just what do you mean?" she asked "I always thought The Star carried just as much news as The World."

That was the opening I wanted—for she had admitted, tacitly, that she MIGHT be willing to change—if I could convince her that it was worth her while. So I went into detail, giving her every feature of The World separately, and emphasizing every one. I took of the editorials, written sanely and intelligently about topics of everyday interest and meaning to thinking Americans, of the news handled so that it was fresh and really NEWS, of the correspondence from neighboring towns and of the market page, of the advertisements, and the want ad page —every feature that The World boasted. I explained to her why the advertisements in a three-weekly newspaper meant more to her than in a weekly publication—since as they were published oftener they were newer and more up-to-date, giving her an opportunity to get in on sales and special offers while they were new.

She didn't have a chance to interfere or stop my flow of talk, and after I had talked for nearly ten minutes, she didn't want to. All she could do was to take out her check-book—hatter and egg money to be used only for imperative necessities—and write out a check for ten dollars, for a three-year's subscription to The World. "Honestly, Bob—I didn't know you had it in you," she smiled. "You talk just like one of them city salesmen—the feller that always makes Holcomb and them other grocers buy so easy."

She bade me good-day with a smile, and I went out of there walking on air—pretty much convinced that my sales-talk was good.

At the next farm, I wasn't so lucky, for only the lady of the house was at home, and she was of the type who do nothing without their husband's consent—a very praiseworthy trait, no doubt, but one which is very hard on subscription solicitors. At the next, and the next, I got six month subscriptions, after talking perhaps ten minutes at each.

Then I came to Frank Smith's farm—old Frank Smith, the greatest miser in the country—a deacon on Sundays, but whose religion never blinded his shrewd sense of money values.

Luckily, he was in the kitchen when I called, instead of being away, as I had feared. He didn't hire a hoss-keeper—his wife had ligured for years—because all hoss-keepers wasted too much food. He was washing his clothes in a battered tub when I entered, and met me at the door with a hard-bitten smile that didn't do a lot to reassure me.

"Woo, whaddya want?" he growled.

"Why—why—" I was pretty much scared, at first—then I determined to show this sour-faced old miser that he couldn't bluff me. "I came out here today to take your subscription to The World!" I blurted out boldly and without hesitation.

"Don't want it!! Wouldn't have it as a gift!! Papers ain't no good no more anyhow!!" he rasped.

"Just a minute!" I pretended to get a little bit angry. "You've no right to tell me that a thing is no good, when you've not investigated it. How do you know that you've not wasting money by NOT taking The World?"

"Aw—what's th' use o' payin' four or five dollars a year for a paper that's half lies an' half advertisin's?" he demanded.

"As to the lies—I've nothing to say—beyond the fact that I know better, and so do you. But—you've just admitted the truth of my claim that you couldn't afford NOT to take The World." He stared curiously and amazedly at me. "Do you know that everyone of those advertisements represents real, hard cash to you? Do you realize that you can, by buying from one of these advertisements and by comparing prices and selecting the lowest one, save hundreds of dollars a year? Don't you know that these advertisements are meant to reach just such men as you"—his jaw thrust out suddenly—"live, wide-awake, sensible business men?"—he relaxed and a smile began to crinkle around his lips. "Honestly, Mr. Smith," I went on, warming up to my subject and waxing more and more earnest as I realized the thought of my argument, "You're getting more all the time if you don't take The World. Prices of everything are going up—newspapers with none an exception—now is the time to get a bargain and insure yourself against future increases by subscribing now for a long term."

He was almost convinced—I knew that. But Smith hadn't gotten the name of the hardest customer in fourteen counties for nothing. "I can't afford it!"

"Mr. Smith, I don't believe you mean that," I said. "A man who, as you do, markets large quantities of grain and stock, must know when is the best time to sell —when prices are highest. We carry, in The World, a full market page, which gives you full quotations and all the information you need about market conditions. Farmers all over the country have complimented the managers of The World on their business and market section. If you take The World, you'll not only save money by getting more than what you pay for, but you'll also MAKE money, thru receiving information daily that will enable you to market your products at higher prices."

I had found the secret of the man —with his eternal lust for saving money, anything that suggested something for nothing" or receiving more than he payed for, appealed to him. I complimented him again and again, boldly, for his business foresight and "honest judgment"—and he liked it.

At about eleven o'clock, I was on the road again, with hiss subscription for three years in my pocket.

And even the horse was happy as we started down the road.

(To Be Continued Tuesday)

### Notice of Sale of Bonds

School District No. 15, Pennington County, Minnesota.

Public notice is hereby given that bids will be received by the School Board of School District No. 15, Pennington County, Minnesota, at Clerk's office in Mavie, in said District on the 30th, day of July, 1920, at 8 o'clock P. M. for School Bonds issued by said District for the purpose of erecting and equiping a new school house in said District No. 15, Pennington County, Minnesota, said bonds to be in the aggregate amount of $5,500.00, in denominations of $500.00 each, to be 10 in number and numbered from 1 to 10 inclusive, payable semi-annually on the 1st days of January and July of each year until paid, to be dated July 1, 1920, and to be absolutely due and payable July 1st, 1925, without option of prior payment.

No bids will be received for less than par and accrued interest and the right to reject any and all bids is reserved by the board. All bids must be unconditional and accompanied by an unconditional certified check payable to the order of the Treasurer of said School District for $500.00 The School Board will furnish the legal opinion of Elmer L. Williams of Minneapolis, Minn., as to the legality of said issue.

All bids shall be addressed to Carl Talley, Clerk.

By order of the School Board of School District No. 15, Pennington County, Minnesota.

Dated this 13th day of June 1920.

Carl Talley

Clerk of School District No. 15, Pennington County, Minn.

## COW IS GUEST OF HONOR AT BANQUET

Willie Algstars, world's champion jersey, "steps out" and dines in luxury. Mayor George L. Baker of Portland, Ore., in the foreground, proves that he has not forgotten the days back on the farm when serving fresh milk for some of the toasts.

### ESPLEE

Mr and Mrs. Wm Gerrulat were callers in Esplee Tuesday.

Mrs. O. H. Olson and children have spent a short time visiting with relatives and friends near Gully. Anton Knutson of Gully, a brother of Mrs. Olson, returned home with them on Sunday. He will look after his farm here and then return to Gully accompanied by his niece, Dena Olsou.

Henry Olson returned from Beuligh where he has been working since spring.

Wm. Gerrulat will have a auction sale on July 15 on account of Mr. Gerrulat's health not being good.

Mr. and Mrs. P. Sund and family enjoyed a brief visit from Ole Ness and Guttorm Korvik, from Alaska, the latter being a nephew of Mrs. Sund. They left Saturday enroute for their parental home in Helgeland, Norway.

Mr. and Mrs. L. Henricks and Pete Henricks of Thief River Falls visited at the home of P. P. Sund on Sunday.

Oscar H. Olson visited with Jacob Eiuerson of Bear Grove on Sunday.

Mrs. B. Gullenback called on friends in Esplee Tuesday.

Mrs. Peter Straud is enjoying a visit with friends and relatives in Chicago and the near by cities this summer. Mrs. Stromberg is keeping house at the Straud home during Mrs. Straud's absence.

Riley Chapman, of Drayton, N. D., is here for a short visit with friends and relatives. He announced that his father, James A. Chapman, was united in marriage on July 4th in Dakota. Mr. Chapman is well known at this place and we extend to the newly weds a wish of a happy life.

J. E. Baiou called on Mr. Sund Tuesday.

Mrs. W. E. Chapman, who has been visiting in Iowa for the past four weeks, returned home last Saturday.

A hard rain fell here last Sunday. There was a little hail but not enough to do damage to the crops, but further north from here the damage was quite great as the hail was very large and fell in abundance.

P. P. Sund and Geo. Hook, contractors of keeping State road No. 12 in good condition were very busy last week grading and leveling a piece of new grade just put in where the wash outs since the spring rain were and now the road looks pretty good.

Max Konig wasa caller in Esplee Sunday.

Warren Lewis is spending a short time at his home after working in Dakota since spring.

Mr. and Mrs. Dahlstrom enroute for their home at Thorhult, were callers in Esplee Tuesday between trains.

On Saturday, July 17, the school election will be coming off and we trust that everybody will be good and turn out. Fellows, take your better half and come, show that you mean business.

Axel and Arthur Sund were business callers at Allyn Turnbull's Tuesday evening.

The members of the "Seven up" telephone line had their meeting at Allyn Turnbull's home last Friday evening.

The last rain put a stop to the many who were haying for the present.

P. P. Sund transacted business at Thief River Falls Wednesday and Thursday of this week.

Allyn Turnbull was a Goodridge caller Wednesday.

Ida Raglund left Wednesday for Grand Forks where she will be employed for some time.

Ed Martinson and Pete Nelson were business callers at Esplee on Wednesday.

### FARM WAGES HIGH; WILL TEMPT LABOR

What farmers are willing to pay for labor in Minnesota is being found out by F. L. French, secretary of the Minnesota Farm Bureau Federation. Thru the county agents Mr. French is gathering statements from farmers as to what they must pay for wages.

Reports from 32 counties widely distributed have been received. These have just begun coming in. The day farmers fix the wage on an average at $3.15, for work by the month for 8 months, $68.80; for work or haying by the day, $2.80; shocking, $4.30; threshing, $4.35; full work, $3.35; corn picking, per bushel, 8 cents; winter work per month, $44. To these wages room and board should be added.

Labor is going to be tempted to leave the city for the farm, thinks Mr. French, inasmuch as such wages with room and board added give the laborer more than he can earn, according to the present scale in the cities.

### MINNESOTA GETS FIRST GRADUATE FROM MARINE CORP INSTITUTE

Sergeant Henry H. J. Kruger, Trailford, Minn., whose enlistment in the Marine Corps expired July 11, 1920, has the distinction of being the first Marine Corp institute cadet to complete the automobile course of the MCI at Quantico, Va. Sergt. Kruger enlisted in the Fair and has served with the Marines at Mare Island, Cal.; Nicaragua, Panama; Key West, Fla.; Norfolk, Va.; New York, N. Y.; France, Philadelphia, Pa., and Quantico, Va. He is an expert rifleman and has made an exceptional record having been awarded a Good Conduct medal.

Upon reporting to the commanding officer of the vocational schools he was appointed orderly for the administration office and enrolled in the complete automobile course and made rapid progress until he has developed into the best instructor and examiner in his class of over one hundred students.

Sergeant Kruger will go out into civil life well fitted to command a large salary because of the exception, al training he has received and the thorough manner in which he has applied himself. His loss will be felt both by his instructor associates and fellow-cadets. He is a Marine through and through and the entire school wishes him a world of success in his new field of endeavor.

The Best of 80 Years Experience in this New Small Ideal

The 22 x 36 Ideal

THE accumulated manufacturing experience of over three-quarters of a century—and the judgment of over 20,000 Ideal owners—is back of the new, small 22 x 36 Ideal Thresher.

You know the record and reputation of the larger sizes of the Ideal—there's no farming community that hasn't its Ideal outfits with their satisfied customers. When we were called upon to build a smaller size separator, we didn't just "turn one out"—we built along the same lines as the Ideal, determined that our small thresher would be leaders in their class just as are the larger.

So in the small as well as the larger Ideals you will find those features that mean the difference, between a "save" and a "guesswork" job. A Ideal thresher owners will tell you that.

Bunching, or cylinder winding: Is unknown in the Ideal—because the Ideal is designed on the principle of a steady, even flow of straw through the machine from the time it enters the cylinder until, free from all grain, it leaves through the stacker.

First of all, we placed the Ideal grates exactly right in relation to the cylinder. Then we designed the Ideal traveling slatted rake to take the straw from the cylinder and carry it to the straw rack. Result—more grate surface and a steady even flow of straw, making choking impossible.

Shaking alone wasn't a guarantee of complete separation, so we put sets of lifting fingers on the straw rack that tear the straw open—rake it—beat it from beneath. Result—complete separation and no waste.

Then, to take care of the increased capacity due to these inventions and to make the Ideal do a perfect job of cleaning, we put in extra chaffer area. The chaffer in the cleaning shoe, with the adjustable sieve and our special system of wind control, guarantee a perfect job of cleaning without waste. Result—the kind of cleaning that gets "no dockage" at the elevator.

Such construction shows why the small 22 x 36 will handle up to 900 bushels of wheat in a day's run—the 28 x 44 up to 1,500 bushels.

The Ideal is built in five sizes—22 x 36, 28 x 44, 28 x 48 32 x 52 and 36 x 60—standard in design and construction, and meeting all needs, from the man who owns his own power and wants to do his own threshing, to the custom thresher.

There's an Ideal in your neighborhood.

ESTABLISHED 1901

*Official County Paper*

Pennington Printing Company
Publishers

Thos. A. Way, President

Published every Tuesday and Friday at
Thief River Falls, Minn.

E. B. McWilliams, Editor and Manager

Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

When Harding becomes president we may have a real investigation of the print paper profiteers that will mean something. Drop in print paper prices, we hope.

Washington—The government will appeal from Federal Judge Mack's decision dismissing indictment against the American Woolen Company of New York and Massachusetts. This was announced by the department of justice.

McAdoo can still live "in silence" at his home in New York. The convention is over and the country is saved from any possible misrule from a man who has been largely responsible for present highly inflated financial conditions and labor troubles in this country.

It is not impossible that Pennington county may be the greatest sweet clover county in the United States. The crop this year may prove that. We have broken other records in agricultural pursuits. We may easily be the top notch county of the union in the production of this recent and profitable crop. The Tribune will give you the comparative information at the close of the season.

Frank Day says the nomination of Cox "is an insult." How many times, Frank, are you going to allow yourself to be "plunged in deep despair" before you give up trying to be a Democrat? Remember the time the president vetoed the Volstead bill, and what tears you shed? You wondered then if "that wet duck of a Tumulty wasn't to blame for getting our president in bad with the good people of the country." You can't blame Tumulty for the nomination of Cox. He was for that noble sacrifice offered upon the alter of the administration who reduced the high cost of living—Minneapolis Tribune.

## MACHINERY FOR STATE MILL TO COST $300,000

Bismarck,—Contracts for machinery, the estimated cost of which is about $500,000 will be let soon and installed on the power house of the state, mill and elevator under construction in Grand Forks, it was said following a meeting of the state industrial commission.

Figures on the machinery needed for the power plant were submitted for the board and engineers are engaged in checking them.—Grand Herald.

## FINANCIAL NOTES

Boston—Mills of the American Woolen company thruout New England, New York state, yesterday suspended activities indefinitely in the first great reaction from the wartime rush which had fallen upon American industry. More than 40,000 workers are idle and the exodus from mill cities has begun. Lack of business, cancellation of many orders and the indictment of the company by the government for profiteering are given as the reason for the shutdown.

Please note that 40,000 employes are idle. This is a shut down upon the part of the mill owners to "stabalize" (meaning control) the market so cloth will remain high. This is criminal profiteering. Where is the Department of Justice? Where is the statesman who kept us out of war?

## WOMEN'S VOTES

There is nothing either flattering or pleasing to the great majority of women in this country in any promise of having suffrage granted as a vote-bribing scheme. Nor are they any better pleased at those mistaken members of their sex who are threatening that the women's vote will be thrown to the party which first secures final ratification of suffrage.

Whatever the circumstances are of final ratification, neither party is entitled to any pledge of the feminine vote because of it. There are men active in both parties who are true champions of suffrage, who have worked to secure it without regard to party politics, have voted for it consistently. There are men in both parties who have fought it bitterly and still hope that women will not be given the ballot in time for the coming election. While the republican party is largely responsible for the law which will permit women to vote, neither party is entitled solely to the women vote as a reward for obtaining suffrage; neither merits the wholesale withdrawal of feminine support on the ground of having denied it.

Suffrage is not a question of political parties, but of citizenship, and citizenship involves the right to the ballot, and the inalienable right to exercise party affiliations unhampered.

Whatever the mistaken ideas of false hopes of either male or female politicians may be, when the clean-cut, thinking American women gets the vote, she will accept it not as a bribe, but as her right, and she will use it as her conscience and judgment dictate.

## DUN'S PREDICTS LOWER PRICES.

The fact that sellers no longer dominate about all markets is made clear by each succeeding week's dispatches, and the desire to move goods is more pronounced in channels where the changed attitude of the consuming public, which does not now purchase so extravagantly as in the past, or with so little regard to prices, is fully appreciated. The development of such phases as these had not been unexpected, and this duration of the present lull in business will depend largely upon how soon the price decline becomes widespread, and to what extent it is carried. That much work is yet to be done to offset the war-time restraint upon private enterprise, is not to be doubted; but prices that are still far above the 1914 level are not conducive to sustained mercantile and industrial activity under peace conditions as many cancellations and revisions of orders have demonstrated.

Observers of economic conditions have not failed to detect signs of price reaction in reports from various markets, and some further evidence of the readjustment appears in current compilations of index numbers. As measuring by Dun's report, which is based on the estimated per capita consumption of many essential commodities, the general level of wholesale prices was about 0.7 per cent lower on July 1 than a month earlier, and 1.1 per cent under the high record of May 1, this year. After an extreme rise of nearly 120 per cent above the 1914 basis, the recent declines seems trivial, and prices are still more than 5 per cent higher, on the present, than they were when the present year opened.

Close analysis of the figures, however, discloses the fact that the sustained firmness of most foodstuffs has alone prevented a larger recession in the index number, and that the yielding in the clothing class has already made considerable progress. With a reduction in food costs, which cannot be indefinitely postponed if present prospects for abundant grain crops are realized, the price situation will assume more favorable aspects from the consumer's viewpoint.

## COAL

Sioux Falls Press: Attorney General Palmer has for some time insisted that there is no coal shortage in the country, now comes George H. Cruchfield managing director of the American Wholesale Coal association declaring there is no foundation for report of an impending stringency. Assuming that these officials are corknow is, where is the coal, if there is know is, where is the coal, if there is no shortage? Business in the northwest has been crippled for weeks for lack of ample supplies of fuel. Public service corporations in many communities have been using their meager supplies almost as fast as received and some towns have reported they are completely out. The vast docks at Duluth are hundreds of thousands of tons short of their normal quantity on hand at this time of year and it was late in June that the railroads entering Chicago were given notice by that city that if coal were not delivered immediately to meet the demands for light, fuel and heat the coal in the yards of the carriers would be confiscated. There may not be a shortage but such things as these look dangerously like it. It is true that there have not been enough cars to transport coal to communities in need of it, but this one element alone certainly has proven sufficient to create a shortage in at least some sections. There may be sufficient quantities of fuel for the nation's needs already taken from the mines and awaiting distribution, but a pile of coal as big as the whole state of Pennsylvania does not help the people if it is out of their reach. The interstate commerce commission but recently issued an order requiring railroads to accord preference to coal mines east of the Mississippi river in the assignment of open-top cars, and the one reason for this order was the shortage of fuel in various communities. The statements now going out from Mr. Cushing have already led to protests from certain business interests against enforcement of the interstate commerce commission order, on the grounds that if there is no coal shortage, cars should be released for the use of other industries. And as a result of much talk and little action the nation drifts toward winter with a big percentage of the coal bins empty.

Governor Burnquist of Minnesota has requested the governor of South Dakota and the executives of several other northwestern states to join with him in a request to the federal government for a temporary restoration of the fuel administration to solve the present fuel situation, but how far the movement will get is problematical. One thing is certain, however, and that is the northwest cannot afford to permit winter to come on with a shortage of coal in the most communities and many of them virtually out, and when we know that the docks at Duluth, which are our chief source of direct supply, have less than half their normal quantity on hand if there is plenty of coal, someone should get busy getting part of it out here. To know there is plenty of coal in Pennsylvania does the northwest as much good as knowledge that France is well supplied, if we do not get it transported and distributed where it is needed.

The coal problem today is not academic. It is a straight business proposition of getting fuel to the people and to industries that demand it. It is now midsummer, and the situation is little if any better than it was earlier in the year. Argument and thesis are not going to solve the problem. It is time for a little official pep looking to moving the coal after it is mined.

Mrs. L. G. Larson of Bridge street is announced as candidate for school director. The name of J. J. Reichter has been most favorably mentioned. Both ladies are admirably qualified for the position. If elected they will meet the requirements of the office with ability, courage and honesty. E. O. Mogensen has also been mentioned as a candidate. His qualifications are also unquestioned. The election is tomorrow—Saturday.

Jelly, Preserve, Vegetable and Relish labels—all ready to stick on the jars—at Laird's.

## ROSEWOOD

P. Sorenson returned Friday evening from Warren and Angus where he has spent a few days visiting with his daughters, Mrs. Anderson and Mrs. Strohle.

The Oscar Blomberg family returned to their home at Crookston the first of the week after spending a week's vacation with the Haugen Bros. families here. Their oldest son, Herman, remained and will spend a few additional weeks here.

The annual school meeting will be held at Rosebank next Saturday evening, July 17, both a new clerk and a new treasurer will be voted in besides other business pertaining to the school district. Both men and women of legal age and residence of the district may vote.

The Farmers State bank moved into their new building last Monday. This is the finest building in town, modern and up-to-date and a recommendation to the community.

### NOTICE OF ANNUAL SCHOOL MEETING

Notice is hereby given that the annual meeting of the qualified voters of Independent School District number eighteen of Pennington county, Minnesota, will be held at the Auditorium in the city of Thief River Falls in said county on July 17, 1920, at seven o'clock P. M., for the purpose of electing two directors, each for a term of three years, to succeed F. F. Haynes and H. S. Dahlen, whose terms will expire, and to transact any other business which may come before the meeting.

The following are the names of the candidates for the office of school director for whom applications have been filed and their names be placed on the ballot as such candidates at said meeting, to-wit: None.

July 7, 1920.

P. O. Myhrum
Clerk.

### Notice To Contractors

Sealed proposals will be received at the office of the Town Clerk of the Town of North, County of Pennington, State of Minnesota until Two o'clock P. M. on the 31st day of July 1920 for the construction of two piers and one abutment on the Long Bridge. Plans for the proposed work may be seen at the Town clerk's office Thief River Falls, Minn.

July 7th, 1920.

Special Steels Eliminate Useless Weight in a

# MAXWELL

The reason the Maxwell engine is so responsive and yet thrifty, the reason the tires roll into big mileage is due largely to one fact: A Maxwell is burdened with no useless weight.

Special steels make this so. They are made to Maxwell's own formulae. No other steels in any car are just like them.

These special steels are of great strength and make possible the ideal Maxwell construction of brute strength with light weight.

Obviously, they are high priced metals. They equal, pound for pound, the steels in any car built.

The wisdom of their use in the Maxwell becomes evident when one observes the rapid growth in public favor of this remarkable car.

Consider that nearly 400,000 of them are now in use; that 100,000 more will be added to this total in 1920.

THE GREAT SIGFRIED

The Champion Ski jumper of Sweden and holder of the Canadian Cross Country championship in an exhibition of that great Scandinavian National sport, the most novel and entertaining act appearing before the public. Sigfried is the only man in the world putting on such an exhibition in mid-summer.

THE ATLAS TRIO

In their death defying Triple Trapeze Casting Act, they defy every law of gravitation and turn the world upside down.

# CYCLONE NEAR MIDDLE RIVER SUNDAY CAUSES MUCH DAMAGE

## Buildings Razed and Scattered to the Four Winds; Two Horses Killed

The ominous looking cloud that was noticed in the northeast last Sunday moving southeast proved a disastrous tornado to a few parties to the east of town. Mars Erickson's farm two and a half southeast of Gatzke received the full force of it. His large frame barn was litterally torn to pieces and scattered over forty acres of ground. The barn contained five horses, two of which were killed, the other three being saved. His well house, machine shed and other smaller buildings all went too. His house being of logs set up endwise stood the strain and did not fail, tho it was somewhat wrenched, the walls in places being torn away from the floor a space of six inches. The kitchen part is a one story log addition on the east end of the house and at one instant the northeast corner of this addition raised up a foot from the ground and at that instant Mr. Erickson and the women-folks of his household expected the house to go over, but it settled back and the danger was over. Mr. Erickson and his household stayed near the south door and did not leave the building. Even the plastering did not fall off tho it was cracked up somewhat. A fine grove of poplar trees nearly surrounded the Erickson buildings and this grove is a complete wreck, few of the trees remaining undamaged and most of them broken over and the broken tops, twisted into snarls. Trees a foot in diameter were broken up the same as he smaller ones. Mr. Erickson's neighbors gathered there on Monday and gathered up and stacked what they could find of 20 or 30 tons of new tame hay that had recently been put in the barn. The Landsetter place a mile west of Erickson's was damaged some too, a threshing machine being demolished. A couple of parts of the Landsetter threshing machine were picked up in the Erickson grove, having been blown a full mile. Thus does a storm do strange pranks The Presbyterian church about three miles west of Erickson's and a mile northwest of Rollis was also destroyed. It stood on the C. E. Williams farm and the wreckage is scattered over probably forty acres of his land. The marks on the ground show that the building was first lifted off its foundation and skidded on the ground right side up for about fifty feet before going over. The cupola under which the bell hung was driven into the ground about 100 feet from the former site of the building. The stove which was a good sized round upright heater was standing right side up by the bell about 500 feet from the foundation, unbroken except that the doors and legs were gone from it. Pieces of the organ, chairs and other furniture and apparatus were scattered over a wide expanse of territory.

But the hardest hit town in all the storm swept area is George Curtiss who lived in town of Whitelord about five miles west of the Rollis church. His house, barn, machine shed and all other smaller buildings excepting the chicken house were demolished, household goods, machinery and all being broken and scattered. Mr. and Mrs. Curtiss and the smaller children were visiting at the W. J. Evans home half a mile north at the time, but the three older children were in the house and miraculously escaped unhurt, the oldest girl of the three pulling the younger two out from under the wreckage after the storm had passed. A mare and a couple of colts were tied in the barn but were unhurt, being found nearby tied to the two-by-four which had formed part of the manger. The tamarac grove near the Curtiss buildings was badly torn up by the wind too, tho it does not appear to have been as hard hit as was the Erickson grove. Mr. Erickson fortunately carried $1,500 in storm insurance which will help out some in making good his loss, but Mr. Curtiss, carrying no insurance and losing his house and household goods as well as his outbuildings, is left in a hard situation. It comes particularly hard on him as he is still feeling the effects of being completely drowned out in last years flood.

Along with the wind there was half that did some damage to crops in places, tho the hail damage was not general. According to reports the hail was worse further north and east, hail stones as large as a man's fist being reported from the country around Salol in Roseau county. Some minor damage to buildings, trees and outstanding property was done in the Hanson neighborhood ten miles northeast of town.—Middle River Pioneer.

### Advertising is an Asset

When the nation was at war and the German subs were sinking the shipping of the world, when we had to have ships by the millions of tons in hurried and the government took over the building of ships to win the war, Edward N. Hurley was placed at the head of the United States shipping board. This same man whose judgment was sought in the hours of the nation's peril now tells the Ad Club of America that advertising is not only a necessity but an asset. He says:

"Advertising today is a necessity and an asset. The time has arrived when the manufacturer and the merchant must figure advertising costs and carry in his budget as an expense just as essential as rent or labor. Advertising has been hurt by emotional appropriations—by spasmodic flares. For instance some men still advertise only when they have spare money and never put out a line when times are dull and they need business! The amount and nature of advertising is to be planned with the production scale. Only then can we stabilize manufacturing, merchandising and advertising."—Times Republican, Marshalltown, Iowa.

### THIS WILL ASTONISH THIEF RIVER FALLS PEOPLE

The quick action of simple witch-hazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash, will surprise Thief River Falls people. One girl with weak, strained eyes was helped by a single application. Her mother could hardly sew or read because of eye pains. In one week she too was benefited. We guarantee a small bottle of Lavoptik to help ANY CASE of weak, strained or inflamed eyes. Aluminum eye cup FREE. F. J. Stebbins, druggist. T-2

### ST. HILAIRE

Miss Ruth Gigstad left last Thursday morning via the Soo line for Honeyford, N. D., to visit at the C. Foss home.

After a three weeks' visit at the N. E. Beebe home, Miss Verna Thompson left Thursday for her home at Akeley.

This village is to be favored with a resident dentist in the person of Dr. J. F. Sprafka, who, upon investigating the surroundings, is satisfied that this will prove to be a splendid location for the practice of his profession. He has made arrangements for office rooms on the second floor of the Haga store building in the main part of town, and is installing a complete modern equipment. Dr. Sprafka has had several years of experience previous to his service in the army, from which he was discharged last fall, and is highly recommended. The M. E. parsonage has been leased for a place of residence and Mrs. Sprafka who is visiting relatives in Montana will join her husband in the near future.

The St. Hilaire base ball team accompanied by a number of their enthusiastic fans, journeyed to Oklee Sunday to play a matched game with a team of that village, but suffered defeat by a score of 3 to 9 in favor of Oklee.

The road on Minnesota avenue has been improved by replacing the wooden culvert near the A. Sevverson place, by an iron culvert, and what remained of the old board sidewalk, except across the creek on that avenue, is being removed.

Mr. and Mrs. E. M. Hoff and son, Abner, returned to Middle River Monday, having motored down Friday to visit with old-time friends.

Mr. and Mrs. G. W. Hooper accompanied by Mrs. Norman Patterson and son, motored to Fargo, N. D., Saturday and were guests at the A. Heahy home until Monday.

A picnic for the benefit of the Nor. Luth. Sunday school will be given Sunday afternoon, July 18, on the east side of the river between the Marix and Loberg places. A program will be rendered, lunch will be served and all may be assured of a welcome.

Miss Mabel Patterson returned Monday from the Physicians' hospital at Thief River Falls at which place she underwent an operation for appendicitis about ten days previous.

R. J. McKercher returned Tuesday evening from Wadena where he had represented the Potato Growers' organization of this community at a State Potato Growers' convention.

Miss Valhorg Sandum of Thief River Falls accompanied by her sister, Miss Lavina Nelson of Minneapolis, were visitors at the Carl Johnson home over Wednesday night.

After having spent a few days with the latter's parents, Mr. and Mrs. L. A. Carlson, and with other relatives in this community, Mr. and Mrs. L. Ludke left early in the week on the return motor tour to their home in the Iron Range.

Mrs. Rupert Nelson and children left Saturday for Langdon, N. D. to visit at the home of Mrs. Nelson's sister, Mrs. Powers.

After having spent a brief vacation at the home of her mother, who resides south of the village, Miss Ida Engh returned Saturday to Hillsboro, N. D., where she is employed as a nurse.

The Royal Rebekah lodge was in session Friday evening, when five new members namely, Mrs. M. Miller and son Marvin, of Black River township; Oscar and Frank Peterson of Hazel; and Roy Sumpter of this village were initiated into the lodge. Officers were also installed and the members of the lodge took the opportunity to make the event a festive one in honor of Mrs. C. Swanson, who is about to depart for Minneapolis. After the completion of business for the evening, various social diversions were indulged in and refreshments were served.

Mrs. Karl B. Johnson arrived Wednesday from Carlhous, Minn., for a fortnight's visit at the home of her uncle and aunt, Mr. and Mrs H. O. Jackson.

Roy Wallin left Wednesday for Minneapolis, after having spent a couple of weeks at the home of his mother, Mrs. R. Wallin.

### VIKING

Dr. Johnson of Newfolden was a Viking visitor Sunday.

The John Nelson family visited relatives in Holt Sunday.

The Y. P. S. met in the church Wednesday evening of last week. A. Axelson served the dainty refreshments for which the proceeds totaled $12.25.

Rev. Drotts conducted services in St. Hilaire Sunday.

Miss Jennie Anderson and her brother, Alfred, from Minneapolis, visited at the Frank Anderson home last week.

Mr. and Mrs. Gustav Larson were entertained at Fred Larson's Sunday afternoon.

Arthur Anderson returned home Monday morning from the cities where he had spent a week visiting.

The Farmers Shipping Association will ship stock Saturday, July 17.

Joe Jacobson, who has been employed in Wisconsin for some time, returned home this week.

Frank Anderson's entertained a large crowd of relatives and friends at dinner and supper Sunday in honor of Miss Jennie and Alfred Anderson, of Minneapolis, who are visiting them at present. The following were present: Fred Peterson and family and Mr. and Mrs. Gust Peterson of Warren; the Hed family and Miss Wingstad of St. Hilaire; Albert Tornell's family. Rev. Segerstrom, Mrs. E. Tungquist, Grandmother Tungquist, A. Axelson family and C. Lindell family.

Nels Berg's of north Viking gave a barn dance Saturday evening.

Mr. and Mrs. M. Myrho and Albert Myrho attended the funeral of their mother, Mrs Myrho of Washington, last week Mr. Sauds of Alvarado had charge of the bank during their absence.

Ed Bigiow is drilling a well on the Malcolm Tungquist farm.

Mrs. S. Hanson visited at the home of her daughter in Augus over Sunday.

The Oscar Drotts family attended services in Vega Sunday afternoon.

The Skonord young people took in the Y. P. S. Wednesday evening.

Mr. and Mrs. M. Tostrup arrived home from Frontier where they had been visiting.

Emil Mellem from Nekoma, N. D., was a Viking caller Wednesday and Thursday.

Mr. and Mrs. H. Backlund and children from Strathcona, Mr. and Mrs. Carl Bloom of Rosewood visited at S. S. Nordgaards Sunday.

# A Car—or Nothing—

## *Which Shall it Be--?*

IT rests with you---it rests with you whether you shall come out on July 31st the winner of the Buick "Six" in The Tribune's great $3,600 automobile campaign, or a complete failure. It rests with you, and with your work for subscriptions during the next two weeks. The great race for prizes is nearing it close----there is very little time in which to lag behind. If you're in the race to win---YOU'VE GOT TO WORK RIGHT NOW---and work MIGHTY HARD!

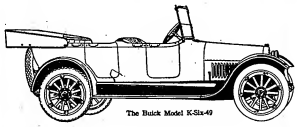
The race is almost over—true. But in the next two weeks will come the decision—for victory or defeat. The race is almost over—yet you can start work for subscriptions right now, and win a huge automobile on July 31st.

IT'S GOING TO TAKE REAL WORK TO WIN THE BUICK "SIX." It's going to take honest, conscientious, determined effort for subscriptions---and it's up to you to make a whirlwind campaign of the last few weeks, if you wish to win.

MAKE EVERY MINUTE COUNT. Don't let a moment or an hour go by without some good work done for subscriptions. Don't let a day go by without increasing your vote reserve—without increasing your lead. Keep working all the time—for in these last days must come the decision. NO ONE IS AHEAD RIGHT NOW—it's up to you to see that you come out a leader on July 31st. Make these hours and days win a car for you.

## CONTEST STANDING

### District No. One



| | | | |
|---|---|---|---|
| Harry Lund, city | 500,000 | Mrs. Henry Sandee, RFD, city | 10,000 |
| Mrs. Edwin O. Erickson, city | 533,000 | Julius Liden, RFD, city | 10,000 |
| O. L. Cronstrom, city | 553,000 | Mrs. Thomas Rowan, city | 450,000 |
| Mrs. L. Hermanson, city | 10,000 | Luella Peterson, city | 60,000 |
| R bert Halvorson, city | 300,000 | Mrs. H. F. Boreen, city | 10,000 |
| Leo Miller, city | 10,000 | | |

### District No. Two

| | | | |
|---|---|---|---|
| Betty Johnson, Holt | 90,000 | Gunder Teiet, Golden Valley | 500,000 |
| Sylvia Pierson, St. Hilaire | 465,000 | Arthur Oson, Middle River | 10,000 |
| Martha Alblu, Plummer | 503,000 | Emma Anderson, Middle River | 10,000 |
| Ethel Anderson, Wylie | 95,000 | B. O. Norby, Goodridge | 110,000 |
| Borghild Berg, Middle River | 10,000 | Mrs. C. E. Lundgren, Viking | 60,000 |
| Mrs. E. Singer, Erie | 500,000 | | |

The vote standing above does not contain a great number of names. From it has been culled every name of a contestant who could not keep up the work---from it has been taken every name but those of really WINNING candidates. But those which now appear represent dangerous competitors to you. Everyone them has done good work and is doing good work---and will keep on fighting for subscriptions and votes right up to the end---You must beat them in order to win. So---put up the hardest fight during these last weeks---You must do so in order to win. Work with all your might all the time-- Don't let a day or an hour go by without some good work well done for subscriptions. You CAN win---but in order to do so you've got to put up the hardest fight of your life during these last weeks. MAKE IT A HOT ONE!

**First Capital Prize---Buick 'Six' Cost $1,790.00**

T. Quale left Thursday evening for St. Paul where he will spend two or three days attending to business matters.

Mrs. Albert Hagen and daughter, Mildred, left Thursday evening for Minneapolis where they will spend a few days. From there they will go to Waukon, Ia., where they will visit with relatives for about four weeks.

Mrs. S. P. Childs, who has been visiting at the home of her daughter, Mrs. A. Bottelson, for the past six weeks left Thursday evening for her home in St. Paul.

Miss Gladys Johnson, a graduate of the local high school, left Thursday for Fort Wayne, Indiana, where she will attend a business college.

Mr. and Mrs. A. G. Gabrielson and Mrs Emma Orme motored to Oklee Thursday to spend the day with friends.

T. C. Orme left Thursday evening for Minneapolis to attend to business matters. He will be gone for about three days.

After spending two week's vacation with her parents in this city, Miss Ruth Wold returned to Langdon, N. D., Friday morning.

Mrs. A. J. Bästad, of Grand Forks, is spending a week visiting at the home of he mother, Mrs. T. Lee.

O. C. Hanson left Wednesday evening for Minneapolis in connection with some real estate deals he is interested in. He will be gone about one week.

Ross Potter, cashier Commercial bank, and Ellis Bloomfield, merchant, both of Mason City, Iowa, passed thru this city Wednesday afternoon on the Jefferson highway enroute to Winnipeg.

Mrs. Wm. Herron left Friday morning for Viking where she will spend a few days visiting with her daughter, Mrs. J. S. Jansen.

Miss Selma Peterson, of Roseau, spent Tuesday in this city consulting physicians.

Mrs. W. H. Thompson and daughters, Irma and Laverne, of Crookston, have spent the past week in this city visiting at the C. G. Mattison home.

Miss Evina Schmalenberg who has been employed for the past six weeks at the Thief River Wholesale house, left Thursday afternoon for Grand Forks where she has accepted a position with the Cressey Corporation

Fred Protz left Thursday for Crookston where he will attend the Mail Carriers convention. He will return Sunday.

Mrs. L. M. Rayson and daughters, Lucile and Lorraine, left Thursday for Red Lake Fal's, where they will spend the remainder of the week visiting with friends.

J. Thiel, who is employed in Red Lake Falls, motored over to this city Wednesday to spend the day with his family. He returned Thursday.

Miss Ida Bachaud of this city left Thursday for Grand Forks where she expects to be employed.

Harriet and Teddy Muzzey of Sauk Center, who have been visiting at the J. A. Wassgren home for the past week, left Thursday for Red Lake Falls, where they will be the guests of their grandmother, Mrs. W. Zaiser.

## SOCIETY

Mrs. Christerson entertained the W. C. T. U. last Tuesday afternoon at the Finberg home. Election of officers was held and the following were elected to office for the coming year: Mrs. Anna Watson, Pres.; Mrs. J. O. Sether, Vice Pres.; Mrs O. A. Naplin, Sec.; and Mrs. C. Hillard, Treas. Lunch was served on the lawn.

Mrs. E. J. Richards entertained last Tuesday evening in honor of Mrs. O. N. Russell, of Superior, who has been visiting in this city the past week. The evening was spent in sewing, conversation and music. The rooms were profusely decorated with wild flowers and at ten-thirty a delicious lunch was served. The guests were seated at small tables.

Mrs. J. E. Bloomquist pleasantly entertained a number of her most intimate friends at her home on Main avenue Thursday evening The evening was spent in music, conversation and sewing. At twelve o'clock a delicious lunch was served.

Mrs. N. J. Silk and Mrs. O. C. Hanson entertained at a one o'clock luncheon last Wednesday. The affair was in honor of Mrs. O. N. Russell, of Superior, and the Misses Sophie and Rowena Yotter, of Madison, Wis., who are visiting in this city. There were twelve guests.

The O. D. O. Club entertained the same ladies at a picnic held at Squaw Point Thursday afternoon. About thirty guests were present and an exceedingly enjoyable time was reported by all parties concerned.

"A Good Place to Trade"

Thief River Falls, Minn.

A Barn Does Not Need to Cost A Lot of Money to Be A Good Barn

OF course, size has considerable to do with the cost, but very often careful planning makes it possible to house more stock comfortably and successfully in less space than might be necessary in a barn not well planned.

A CAREFULLY MADE PLAN IS THE FIRST NECESSITY in building a new barn these days whether it be a large one or a small one. The barn of today and the future must be designed to fit the farm labor situation---everything must be convenient and every labor saving devise possible must be installed.

The barn must be built of good material ---built to last---built to withstand wear and tear---built so that repairs and upkeep will be cut to the lowest possible figure.

We can help you with such a barn for your farm and help you keep the cost down to the lowest possible figure.

VOL 20 No. 38 THIEF RIVER FALLS, MINNESOTA, TUESDAY, JULY 20, 1920 Official Paper of Pennington County

## BIG PROGRAM ARRANGED FOR FAIR VISITORS

(Unlimited Society)

### EVERYTHING THAT HAS BEEN GIVEN BEFORE AND MUCH MORE ASSURED

The nineteenth annual fair and industrial exposition of the Pennington County Agricultural Society which opens its gates for the big show on August 4th, 5th and 6th is surely going to be a record breaker from all indications.

Amusements and exhibits of every known brand and description are booked for this greatest event in the life of the country and according to all predictions this year is going to exceed anything of a like attempt. The directors have spared neither time nor money to make this the banner fair of them all and large crowds on each day of the fair are looked for.

Good, clean shows, free attractions that are only shown in the larger places are booked and everything presented will be of a high class and sure to please all. The aerial features alone are worth many times the admission price of the fair and these attractions have been booked at great expense to the fair. It is felt however the crowd will justify the extra expense and help cut down the initial outlay.

Exhibits in every department promise to surpass those of previous years and it is hoped that every one will make it a point to have some sort of an exhibit. The woman's department, which is to be housed in the auditorium with the school's industrial exhibit, is going every promise of being the best yet. The ladies of the county are making every effort to make their exhibit this year much larger and interesting to an extent never before attained. The industrial exhibit of the schools is also one that is going to be hard to equal and in the opinion of those in charge of this work, the exhibit is sure to be the best so far presented to the people of this county and will do the schools and their instructors full justice.

#### To Be Entertained

The Luther league of the Trinity Lutheran church meets Thursday evening, July 22, at 8 p. m. Lunch will be served by Mrs. A. Dybvik, Mrs. S. Qammen, Mrs. C. Larson and Mrs. J. J. Weeks. The following program will be given:

| | |
|---|---|
| Devotion | Arthur Rhell |
| Piano Solo | Palma Langseth |
| Reading | Gladys Nelson |
| Vocal Solo | Ella Miler |
| Speech | Reuben Agn |
| Piano Solo | Mrs. G. Ward |
| Vocal Number | Mixed Quartette |
| Business Meeting. | |

Everybody invited.

#### Says Colorado Looks Good

A line from J. B. Connor requesting that his Tribune be sent to his new address at Holyoke, Colorado, was received by The Tribune the first of the week. In his communication Mr. Connor states that "crop conditions are good in this locality. The estimated yield of wheat runs from thirty to forty bushels. Corn, cane, wheat and millet are the principal crops of this country. In the valley everything is all irrigated, sugar beets, alfalfa and wheat being the main crops."

#### Win Sunday's Game

The Thief River ball team journeyed over to Grygla on Sunday and took the Grygla team on for a nine round exhibition of the national pastime, ending with defeat for the Grygla team to the tune of 13 to 3. The Grygla aggregation played good ball and did all in their power to hold the score more even but were simply outclassed from the start and could not connect with the local organization at any stage of the game. The score at the finish stood 13 to 1 in favor of the locals and in the last half of the ninth the Grygla team managed to slide two more scores over the home plate, giving them a little larger tally on which to build their future hopes and aspirations. The local team is playing mighty clever ball and it takes a good team with plenty of pep and real ball playing qualities to take them into camp. When they settle down to the game in earnest it is hard to beat them and from all appearances they have settled down for the balance of the season, determined to clean up everything that comes along.

Miss Lena Bothman, of St. Hilaire, was in this city between trains Monday shopping and visiting with friends.

### BAND TO PLAY AT FAIR GROUNDS

The Million Dollar band, which was scheduled to play at Squaw Point tomorrow evening, is to play at the Fair Grounds instead. It was decide at the last minute that the Fair Grounds would be much more desirable and the committee in charge announce that the concert will be given at the Fair Grounds at the hour of 8:30 p. m. Remember the change and tell all your neighbors.

## Coming In Force

### LARGE DELEGATION OF MANUFACTURERS AND BOOSTERS FROM CITIES COMING

We are advised by the St. Paul Association of Public & Business Affairs that the annual Trade Tour which visits us on July 31 bids fair to have the largest delegation ever sent out on any trade tour by St. Paul's wholesalers.

The trip is over the Soo line to Portal and return via Detroit. The train will consist of five standard sleepers, two dining cars, observation car, two tourist sleepers for the band and train employees, and two baggage cars. The fact that the train travels at night and also very often at meal time makes it necessary to include sleeping and dining car facilities on the train.

The party will be accompanied by the Minnesota State band of twenty-five pieces which has a reputation over the entire Northwest as being a very fine concert band, and a high grade line of entertainment is assured our people.

The party will also have a community singer and everybody will be given an opportunity to do a little singing. Song sheets will be distributed to the school children and others. There will also be a good variety of souvenirs for distribution by representatives of the various houses participating in the trip.

Immediately upon the arrival of the special train there will be a parade, headed by the band, thru the business section of the city. Following the parade the band will play a concert on a main street while the St. Paul business men are calling upon their friends and customers.

The train schedule has been approved by operating officials of the railroad and barring accidents or unusual conditions of some kind the train will arrive on schedule.

## PLANS FOR BIG BOOSTER TRIP ARE PERFECTED

### GRAND TIME ASSURED ALL WHO TAKE IN TRIP NEXT TUESDAY

Next Tuesday morning bright and early will see the fair boosters all lined up in front of the Commercial club ready to start on their tour north to acquaint the good people of that section that Thief River Falls is very much on the map and still anxious to hold the good will and fellowship of their northern neighbors.

While the trip is taken primarily to boost the fair that is to be held next month, it is also a good will trip and a get acquainted excursion. The trip taken last year still lingers in the memories of those who were fortunate enough to participate in the same and it is certain there will be a large turnout next Tuesday morning to make the trip.

The trip will be made as originally planned, instead of taking the Great Northern route out, the Soo line route will be followed and the return trip made by the Great Northern road. The trip will end at Warroad and the party will stop over night. The return trip will be made the following day and all towns on the north of this city will be visited by the boosters.

Banners and advertising matter will be carried along boosting the fair and the members of the band will also be honored guests on the trip. Stops will be made at all the towns along the route and concerts given at each stop. It is the intention of those in charge of the tour to make this the best yet and it is hoped that all who can possibly do so have their cars out bright and early next Tuesday morning, all greased up and ready to go.

Walter Reed, of Badger, was a business visitor in this city Monday.

## AUTHORIZE FUNDS FOR DRAINAGE

### RED LAKE DRAINAGE BOARD IN SESSION GET SPLENDID RESULTS

The board of directors of the Red Lake Flood Control and Conservancy district obtained a court order from Judge Andrew Grindeland at this place last Monday providing for the raising of a preliminary fund of $5,000 from the various counties comprising the district, to pay for the surveying of the project and the preliminary expenses of organization. The amount apportioned to each county is in accordance with the area of the county within the district. The various counties are to pay as follows to S. E. Hunt, treasurer of the district: Red Lake, $350.86; Pennington $4703.87; Polk, $1,682.45; Marshall, $507.88; Beltrami, $1,766.18; Clearwater, $824.63; and Koochiching $298.08. The members of the chambers Monday were President C. G. Selvig of Crookston, Ed A. Aubol of St. Hilaire, and Axel Nelson of Holt, together with Attorney Chas. E. Boughton of Red Lake Falls.

"This district is really too big for the present laws," said Attorney Boughton, "in that under the present law the district can only raise $5,000 for preliminary expense and surveys, whereas Engineer James Walker has estimated that the cost of surveying the Red Lake and Clearwater rivers will come to $10,000 alone. All that can be done is for the engineers to start surveying and keep on as long as the money holds out. It will be necessary for the next legislature to amend the law so that enough money can be spent by the counties in the district to complete the survey."

#### Bring The Babies

Mothers bring your babies under five years of age to the free clinic at the auditorium in Thief River Falls, Saturday, July 24th, conducted by Dr. Pearce, Baby Specialist from St. Paul. Hours from 9 a. m. to 5 p. m. To avoid waiting make arrangements with Mrs. J. J. Richter. Telephone call 506.

#### Thune-Arneson

Ole Gerhard Thune and Miss Clara Eline Arneson, of Hazel, were quietly married on Saturday, July 17, at 10 a. m. at the Zion Lutheran parsonage, Rev. George Larson officiating. The bride was seated by giving and receiving the wedding ring in the presence of Clarence Arneson, a brother of the bride, and Alma Thune, a sister of the bridegroom.

The young couple left immediately for their home in Hazel where a wedding dinner was waiting for them. Their many friends wish them a prosperous and happy life.

#### Lutheran Picnic

Zion Lutheran congregation will have a Sunday school picnic at Tuscolph park Sunday afternoon at 2 o'clock. The program will consist of singing by the children and preaching by several in English and Norwegian.

Ice cream and cake served. The ladies of the congregation are asked to take a cake. All welcome.

## RETURNS FROM TRIP TO BIG CONVENTION

### CHAS. VORACHEK RETURNS SATURDAY FROM BANKERS CONVENTION AT DULUTH

Charles Voracheck, assistant cashier of the Citizens State bank, returned Saturday from the bankers convention held at Duluth on July 7 and 8. Mr. Voracheck was gone two weeks and took in every feature that the convention offered, making the boat trip from Duluth to Chicago, leaving Duluth on the 8th and spending four days on the boat. One day was spent in Chicago where the bankers of the state were the guests of the Chicago bankers and a splendid time was enjoyed by the guests, leaving Chicago on a special train, the entire party returned to the Twin Cities where the convention broke up and all returned to their homes.

At the convention held in Duluth C. L. Hunsen, president of the First National bank at this place, received the nomination and election to the office of state treasurer of the association, and carries on his new duties in that capacity at once.

Mr. Voracheck states that the sentiment expressed at the convention was that money be loaned only for necessities and that none should be put out on a speculative basis. Only legitimate and sound loans were to be considered and the needs of business to come first above all others.

Conditions generally are reported excellent by Mr. Voracheck and in his opinion the country is in fine shape and with the proper application in business and the proper handling of the nation's funds, everything is sure to be straightened out satisfactorily to all without serious inconvenience.

#### Ordered Out of Town

Municipal Judge Tarrant intends to keep the morals of the city straight under any and all circumstances and if it is necessary to deport a certain percentage of the city's population for that purpose he is right on the job and ready to hand out the traveling orders. Gussie Shoemaker, a notorious character who blew into the city a few weeks ago and who has since created more or less trouble in one way and another, was hailed into police court yesterday afternoon and told that she would be obliged to serve a sentence of sixty days in the city cooler and face a fine of $50 if she was found in town after the first train left. The southbound train on the Great Northern was due in ten minutes. Gussie made it.

#### Wool Growers Meet

The wool growers in the western part of the county will hold a meeting in the Farm Bureau office in Thief River Falls at 7:30 p. m. Friday, July 23.

The purpose of this meeting is to decide the advisability of pooling the wool with the National Wool Warehouse in Chicago. Prices are very low at the present time and according to the opinion of W. A. McKerrow of University Farm it is more advisable for all wool growers to pool their wool for a few months until prices raise.

#### Buys Fine Farm Home

M. T. McFarland closed a deal last Friday whereby he becomes the owner of the Robt. Olson farm, located three and a half miles east of the city, lying on the banks of the Red river. The purchase of this land gives Mr. McFarland one of the choice tracts of the county and it is his intention to erect a new brick bungalow and new barn, silo and other improvements. His intention is to go in for purebred cattle and he has decided on the Holstein strain. It is the intention of Mr. McFarland to live on the place, driving back and forth to his work in the city. This will make an ideal home for the McFarland's and when shaped around to suit will be one of the picture farms of this section.

## Election Is Quiet

### E. O. MOGENSEN AND MRS. L. G. LARSON ELECTED TO SCHOOL BOARD

The school election held last Saturday was rather quiet, only 84 ballots being cast. There were three names up for the decision of the voters, those of Mrs. L. G. Larson, Mrs. J. J. Rich or and E. O. Mogensen. When the final count was made the total showed the following vote: Mrs. L. G. Larson, 44; E. O. Mogensen, 23; Mrs. J. J. Richter, 19.

Very little excitement was created over the election as is evidenced by the total vote cast. The two elected are well qualified for the position and will undoubtedly make splendid members of the already efficient board.

#### Health Clinic Saturday

Saturday, July 24, at the Auditorium in Thief River Falls from 9 a. m. to 5 p. m. under the auspices of the Junior Red Cross Public Health Association, Dr. Pearce, Baby Specialist from St. Paul will conduct a free clinic for our children under five years of age.

A clinic will be held at the fair grounds on the second day of the fair and arrangements have been made for the appearance of a health clown on the second and third days in order that every child in the county may have the privilege of meeting the wonderful health clown. Mothers are especially requested to visit the clinic on these days and to bring the children.

## ISSUE ON PAVING CREATES MUCH DISCUSSION

### CONTRACTORS READY TO BEGIN WORK—APPEAL TO SUPREME COURT TAKEN

The paving question in this city is still up in the air and there is much discussion as to whether or not any paving will be done this year. The general impression is that the paving will be started, and in view of the fact that the contractors have signed their contract with the city and have seut for their paving equipment, which is expected to arrive in this city in the next two days, it may be admitted that it looks very favorable for paving.

However there is another element that enters into the contract and one which is liable to throw a large spoke in the wheels of activities. Those who object to paving this year have appealed their case to the supreme court and it is their intention to fight the paving every inch of the way. They maintain they will scrap a restraining order if necessary to stop the actual work of paving and are ready to meet the situation as fast as it comes along.

Therefore it now looks as if the paving matter will be tied up for some time, and the final admission of those who have worked the matter closely from the start, is that it now looks as tho the program was tied up for a longer period than at first.

The supreme bench has adjourned until September, which means that the petition of the objectors will not receive attention until the court convenes, and possibly not for some time then. In view of this they hold that the city will be restrained from entering into such a contract and that the contractors and bonding company will not be able to go ahead with the work under the order they hope to receive from the supreme court.

The next few days will tell the tale as the contractors are fully determined to start work unless something comes up to stop them.

Don't worry over the troubles of your neighbor. The modern way is to let him worry over yours.

## HARD WORK FOR TEN DAYS WILL WIN FINE CAR

### DECISION IN TRIBUNE'S PRIZE RACE TO COME DURING THE NEXT FEW DAYS

"The man who gets today is the man who gets there tomorrow."—Orrison Swett Marden.

Marden wrote this as a part of his great volume on "Success in Life"—but it will continue to be good advice for anyone.

And particularly is it good advice right now for workers in The Tribune's great $3,600 automobile campaign. "He who gets today gets tomorrow"—the worker working hardest and most efficiently today will come out in the lead on July 31st. For right now—in the short time remaining before Saturday night, at eight o'clock on July 31st—you can win the Buick "Six." The race is close—mighty close. No one has a worth-while lead—the worker has achieved such a position of strength as to feel safe in victory. You can go ahead and beat any worker in the field, by applying yourself with the very utmost of your ability and the very utmost of your energy—by working to the limit among your friends and acquaintances—by talking to you work and by making the work win for you.

You have the greatest chance right now that can ever come to you. For the race can be yours—you can win it decisively and completely—if you increase your efforts and redouble your work during the short time remaining.

Don't lag or hesitate. Don't allow yourself to slow up or lose step, now at the end of the race and under fully remunerative rules. Don't permit yourself to become discouraged or disheartened or self-satisfied in victory. You have not won—you are not yet defeated. The race is a long one—the decision may go in favor of you or against you—depending on your work for the balance of the race.

So—make that decision a favorable one. Increase your work!! Expect the loose end—go to those who promised subscriptions, and get them; go to friends who subscribed once, and get them to subscribe again; go to those who owe bills for arrears in The Tribune, if any, and collect from them. In short—do the very best and the most efficient and the most concentrated work possible for the rest of the campaign.

Make your victory assured by working harder than ever right now!! Don't wait a moment longer—don't slow up for an hour or a day—just keep working and keep figuring—and win!!

## BAND TO GIVE CONCERT AT FAIR GROUNDS

### COMMITTEE AT THE LAST MINUTE DECIDED ON FAIR GROUNDS

Tomorrow evening the Million Dollar band, under the direction of Harold Bachman, makes its appearance in this city, giving a concert at eight o'clock at the Fair Grounds and later playing for a big dance to be held in the Auditorium. The band makes its appearance in this city under the auspices of Elmer F. Kisland Post of the American Legion. The band played in this city last year and are remembered as a high class organization playing the latest and most popular selections with a skill seldom equaled by any organization.

There are several soloists in the band and a program that will please everyone is assured. The concert at the Fair Grounds is sure to be a record breaker so far as attendance is concerned, and the committees who are selling tickets announce they have met with very good success and from all indications the attendance will be large. A free bus will be run from the corner of Third and Labree to the concert grounds and those who have no other means of transportation will find this mighty convenient.

The big dance will be given immediately after the concert and the music will be furnished by a seven piece orchestra composed of members of the band.

An inquirer in a city paper wants to know if it is legal for a young man of thirty to adopt a young woman of twenty-five. It is—with a wedding ring.

# .....Automobile Campaign News.....

"LABOR WINS ALL."---Tacitus

This column conducted by Automobile Campaign Department. The Tribune.

## A LITTLE ADVICE

Learn to use your time.—George Matthew Adams.

The man who thinks he has no chance destroys his chance by acknowledgement of self-defeat.—Herbert Kaufman.

Make yourself more efficient by working harder. Hard work is the finest training there is. —Kellogg.

If you cannot do it one way, do another. But—get it done! —Colonel Charles F. Martin.

Never be discouraged. —Rothschild.

Keep your heart up and your nerves steady—and you'll do.—Robert Louis Stevenson.

Learn to walk past failure. —Matthews.

Push your work, and your work will push your fortunes for you.—Marden.

Don't stop part way! Don't become self-satisfied or content with work done! Face about —work harder and harder!! Climb higher, till you reach the pinnacle of success. Show that you have the will-power to reach success, by working until you have done so.—Shaw.

Success calls for hard work; devotion to your business at all times, day and night.—Henry C. Frick.

Procrastination is the thief of time.—Benjamin Franklin.

## DEVELOPE THESE TRAITS—

"A salesman, to attain the highest type of success, must have certain characteristics developed. And the most important of these characteristics are:

Punctuality.
Perseverance.
Confidence.
Enthusiasm.
System.
Judgment.
Respectability
Honesty.

This may look like a pretty stiff list to live up to, but it's a list which contains every one of those good points of character which the successful salesman must have. Everyone has these traits—if they'll only develop them." — American College of Commerce, Bulletin No. IV.

## WHAT DO YOU KNOW ABOUT IT?

A salesman cannot have too much knowledge regarding that which he sells—particularly if that salesman be a newspaper solicitor. For a salesman to go out in any line without having made a study of what he has for sale, is to invite failure. When you offer a certain thing to a prospect —he wants to know what he's getting and he wants all the information you can give him concerning it.

Get hold of all the general information you can concerning the newspaper business. Such facts as this:— That print paper is now so difficult to secure and of such high cost as to make it almost impossible for newspaper to sign up long term contracts for a supply. From this work to the statement that, since production cost, together with labor and supplies for newspaper preparation, have increased largely—THERE'S NO TELLING WHERE THE PRICE OF GOOD NEWSPAPERS MAY GO. Therefore, it is good business for the wide-awake business man or farmer to subscribe now FOR A LONG TERM—in order to protect himself against any increase.

Read over The Tribune carefully. Read the editorials—observe the stand-point which The Tribune maintains and has always maintained on all national and local problems a stand pointing to progressive construction. Note the large amount of correspondence from neighboring towns and localities which is a feature. Note the large and complete and accurate market page—remember that this is published twice a week, and hence is much more accurate than that of a weekly. Remember that the twice-weekly publication of The Tribune means MORE FOR THE MONEY INVESTED BY A SUBSCRIBER—means later news and more of it, means more advertising and more correct market reports. IN SHORT—LEARN FIRST YOURSELF THAT THE TRIBUNE IS THE WORTHWHILE NEWSPAPER OF THIEF RIVER FALLS—CULTIVATE IN YOURSELF A BELIEF IN THE VALUE OF THE TRIBUNE BEFORE YOU ATTEMPT TO SELL IT TO ANYONE ELSE. DON'T FORGET THAT A SALESMAN MUST HAVE CONFIDENCE IN HIS GOODS IN ORDER TO SELL THEM. Here's the whole thing in a nut-shell: —Read The Tribune and learn to appreciate its features—and then go out and tell your prospects about them.

You'll be surprised to find how easy it will be to secure the subscriptions you want and need.

GET GOING TODAY—KEEP IT UP ALL THE TIME WITH ALL YOUR MIGHT—STICK AND WORK —AND WIN!!

The man who never fails is the man who never succeeds. You may meet rebuff after rebuff, refusal after refusal, but, as long as you keep your heart in the work and maintain a firm determination to WIN—there's nothing can stop you! You succeed not by avoiding mistakes, but by making them. When you fail temporarily, when you make a mistake of some kind—let that mistake teach you how to avoid a repetition of the failure. AND KEEP WORKING!!!

## MAKE IT SNAPPY

Put into your work all the pep, perseverance and push you can possibly give it—invest in your effort for subscriptions every bit of determination and energy and ability you possibly can.

MAKE THE WORK OF SECURING SUBSCRIPTIONS YOUR CHIEF CONSIDERATION DURING THE NEXT TWO WEEKS. For in the next two weeks the great race will be won or lost—and it's up to you to win if possible.

SPEED UP! Give the work every bit of hard and fast work you can. Work not only with great energy but with great swiftness. For you have only two weeks left—and in that length of time you can win or lose.

SPEED UP! Don't slow up or keep pace with slower rivals. Rather leap into the lead by increasing the volume and energy of your work—leap far ahead by putting into the work of securing subscriptions MORE WORK AND BETTER WORK AND FASTER WORK than is being done by your rivals.

SPEED UP! Keep working AT TOP SPEED all the time. Keep trying WITH ALL YOUR MIGHT all the time! Keep fighting YOUR VERY BEST every minute of the time.

MAKE IT SNAPPY! Make your work snappy and persistent and efficient—and WIN!

## Mr. B. Busy Says

The only road to advancement is to do your work so well that you are always ahead of your rivals. To merely go on working well enough to keep even with the field is of no avail, nor does it give you any credit. But to leap ahead of the field of mediocre workers—to jump into the lead and to maintain that lead by hard, conscientous, determined effort—THAT is the first step toward success!

Who rises over time he falls will sometime rise to star.—William C. Morris.

What if you get turned down?—what if there are times when you feel that there's no use of continuing? It's not the fellow who never fails that succeeds—it's the worker who has the perseverance and stamina and determination to STICK and to KEEP ON WORKING who will win out in the end. IF YOU HAVE GOT ONCE—don't let it stop you! Rather—get up and go on again. And—keep going—until you win.

Five good rules for success are these: Hard work, common sense, good habits, practical experience, perseverance. Add to these a constant determined application, an energetic effort that will not acknowledge obstacles—and you'll succeed.

There's no profit in doing things by halves. To start a thing—to put any effort into it—to invest some time—and then to abandon the project, just when a little harder effort and a little more application can win for you, IS CRIMINAL TO YOURSELF AND TO THOSE DEPENDENT ON YOU. If you stop work now, you're going to lose the worth of your time and the return which might have been given you for the investment of that time—you're going to lose your chance at a potential fortune. YOU CAN'T AFFORD TO SLOW UP OR LAG BEHIND!!

MAKE IT SNAPPY!! When you go after a subscription, go after it with a firm determination to get it, if it is humanly possible, and stick until you find whether or not it can be obtained. When you set out to reach a certain goal, turn every energy and every advantage to the work of achieving it. And —MIKE IT SNAPPY!!!!

Time is worth money—is worth more than money, right now. Today and tomorrow and the rest of the few days left of The Tribune's great $3,600 automobile campaign represent ACTUAL CASH to you. The proper use of the time means much profit—the wrong use means a heavy loss. MAKE THE LAST DAYS COUNT FOR VICTORY!

## DON'T SLOW UP NOW

Whatever you do, in your work for subscriptions, in The Tribune's great $3,600 automobile campaign—don't slow up or lag behind for a minute!

Not so much because it will hurt you with your friends and supporters in the work—though it will inevitably do so—but because it means an ACTUAL MONEY LOSS TO YOU, if you slow up for one moment, from now to the end of the race.

You have invested, conservatively speaking, three hours a day of good work—if you have not, then it is certain that you have done the equivalent of that amount of work. If you wish to win at all. This work, augmented from now to the end, continued without flagging or loss of time, can win the Buick "Six" for you. And the Buick "Six" is worth $1,790. TO SLOW UP NOW MEANS TO LOSE OVER A THOUSAND DOLLARS, which you have, potentially, earned.

YOU HAVE INVESTED YOUR TIME AND YOUR ABILITY AND YOUR EFFORT IN YOUR CAMPAIGN FOR PRIZES. You, as a sensible, thinking man or woman, can't honestly show up and allow this invested time and effort to go for nothing—if you are awake to your own interests.

And there is another side to the matter. If you slow up your work now, after having worked hard for so long, you will definitely lose standing among your friends. They believe in you—they want to see YOU WIN—THEY KNOW YOU CAN win—can you afford to have them believe that you have not the stamina to continue the hard grind of work for subscriptions?

## Automobile Campaign News

Continued from Page 2.

BE WORKING!!! Don't slow up for a moment. Don't let any one or any thing persuade you to stop work. Don't allow anyone to fright-en you or to induce you to give up.

Simply stick—work—and win!

HARD WORK IS THE ONLY RECIPE FOR SUCCESS. Keep working hard—keep trying with all your might—and YOU'LL SUCCEED!!!

There are several contestants right in the same territory. All of them say that the territory is worked out. Yet the sum total of the subscriptions they have turned in is equivalent to only about ten per cent of the homes in their community—if it is that great. You've not worked out your territory until you've gone to EVERY HOME IN YOUR COMMUNITY—and worked in some of them several times. Ten per cent of the homes—ten per cent efficiency—isn't enough. IMPROVE YOUR AVERAGE—KEEP TRYING AGAIN AND AGAIN UNTIL YOU KNOW THAT YOU HAVE GOTTEN EVERY SUBSCRIPTION TO BE HAD—AND YOU'LL WIN!

The world admires a worker—a REAL worker. And the world not only admires a worker—but it gives him pretty nearly everything he asks for. YOU'VE GOT TO BE A WORKER—A REAL WORKER—IF YOU WANT TO SUCCEED. And especially must you be a worker from now until July 31st, in The Tribune's great $3,000 automobile campaign—FOR ONLY BY SO DOING CAN YOU POSSIBLY HOPE TO WIN!!

### PERSEVESANCE AS AN ART

How much of a rebuff can you take before you begin to get angry and discouraged? Can you take a turn-down and go on and take another and then come back and make sales at both places, on your return trip? Can you force yourself to forget your own private interests or temper in the cause of a sale which you want to make—in the interests of your company? If you can, then you are a good salesman—and you need not worry about your success.

For it's the man who perseveres who wins—who goes back again and again until he knows either that he positively cannot make a sale, or secures the order he wants. It's the man with the nerve to take a licking and not whimper—to go back again and take whatever punishment or rebuff is to come, until he gets the thing he's after—that wins. And, until you can develop this trait in yourself—until you can submerge self-interest or temperament in the interest of your company and in order to promote the sale of your product—you're not really a salesman. And you'll find yourself unable to achieve any very worth-while goal, until you DO this.

But—when you do—you've learned one of the cardinal points of good selling—and it should be easy to step from that to the goal you seek.

CULTIVATE PERSEVERANCE AND STAMINA AND DETERMINATION—APPLY YOURSELF WITH ALL YOUR MIGHT TO THE WORK OF WINNING—AND THEY CAN'T BEAT YOU!!

### WHERE THERE'S A WILL

(Note: This true story of a young man's great success, unaided by riches or influence, in a campaign exactly similar to that now being conducted by The Tribune, and written by that young man several years ago, will appear in installments in this column during the progress of The Tribune's great $3,000 campaign. READ IT—DON'T MISS IT—IF HAS MUCH IN IT FOR YOU.)

(By Robert Douglas)

There remained just one week of the campaign—I had left just one week in which I knew that I must win or lose. And, frankly, I was down-hearted. Things hadn't come as well as they might have—I was farther behind than I could afford to be—or so I believed then. And—I WANTED TO WIN. So, I determined NOT to stop—I promised myself that, no matter how hard the last week's grind, no matter how bitter the disappointment to come, I WAS GOING TO STICK RIGHT TILL THE END AND WORK ALL THE TIME.

And I did.

I hadn't a lot to do during the morning—rain had made it so muddy that there was little hope of getting very far until the side roads had had a chance to dry a bit. So I hitched up the roan mare and drove into town, to talk to Mr. Searles, the town's biggest real estate operator who had helped me so much. I talked for nearly an hour—telling him all the points of my selling talk, telling him how I had failed miserably to succeed, during the past few days, and asking for his honest opinion as to what was wrong.

"Maybe you let them get TOO MUCH INTERESTED, Bobby," he said.

"TOO MUCH INTERESTED—why—I don't get you—how CAN they be TOO MUCH interested? I thought that was the only way I could sell them subscriptions—by showing them my sample copies and the premiums that we're giving them." I was really at a loss—couldn't understand him—but wanted information at once.

"When I sell a man a piece of real estate—I let him look it over, tell him the good points of it—and then take him back to the office to finish up the sale. You let your prospects get so interested in the samples that they don't get half what you say—that they get more interested in the sample than in your selling talk."

It was a new idea to me—very new—and for a while it seemed almost preposterous. But I knew that Mr. Searles was always—so, nearly always—correct, and I decided to give his suggestion a fair trial before I condemned it.

When I walked into the offices of the Union Loan and Trust company, on the second floor of the First State bank, I carried nothing in my hand except my hat. I had a sample copy folded and thrust into a pocket of my coat—but, however, and when I got to Mr. Crocker, the man to whom I wished to speak, I took out this sample and shoved it to him.

He took it, looked at it, saw a financial article—Dun's forecast for the winter months—which pleased him, and started to read it. I waited—not saying a word. Finally he looked up—for he naturally couldn't quite get the idea of my silence.

"Well, what have you to say—?"

"Until you finish looking at the sample, sir, I've nothing to say." I answered very politely.

The courtesy pleased him—and saved my breath, for when he turned around, after reading the article, he was SOLD, without one word from me.

"I'm asking you to subscribe to The World, sir, for two reasons—first because your subscription will help me, and, second because it will help you. The World carries a full market page and a strong financial review, every issue. The World gives greater value for less money than any other paper of its size, published in this portion of the state—because it is published oftener. This means that the news carried is fresher and more up-to-date, the market quotations more accurate, the want advertisements and sale ads more complete and less distant. The World brings to you every bit of news that IS news, right when it is new. The World comes to you fresh and clean and reliable—honest and sensible and free from exaggeration. YOU GET THE FINEST PAPER POSSIBLE FOR YOUR NEEDS, IN THE WORLD! And your subscription will help me win a car, in the big campaign that they are conducting. With the votes which your subscription will give me, I may win—and I want to if possible. May I write your subscription receipt for three years?"

"Write it! How much money do you want?"

"Ten dollars, Mr. Crocker."

"All right. Here's your check—and luck to you!"

That sale had been easy—almost too easy. But I determined to use the same plan in other sales—and I found that it really worked. All that it amounts to is an attempt to save the prospective customer's time and breath—and yours as well. Where you can kill a sale and lose a prospect, by talking too long, by allowing your prospect to become so interested in your sample as to exclude thought of your proposal you can get the sale by the use of a little judicious flattery, a careful summary of features, a convincing and emphatic arrangement of the fine points of your newspaper, or a convincing appeal for help on the grounds of natural benefit. AND IF YOU DON'T BELIEVE IT WILL WORK—TRY IT!!

(To Be Concluded Friday)

### MINNESOTA MAN HEADS HORTICULTURISTS ASS'N

M. J. Dorsey, fruit breeding specialist of the Minnesota college of agriculture, has just been elected president of the Official Horticulturists Association of the Northern Great Plains, which held its third annual meeting at University Farm, July 6-8. This association is made up of representatives of state and national institutions in the north central states and in the central provinces of the Dominion of Canada. While its members are interested in all important horticultural problems, the great task which they have attacked is that of developing fruits, flowers, shrubs and trees hardy enough to stand the cold winters on the northern plains. They are trying to solve this problem by all sorts of hibratory tests in order to determine what constitutes hardiness in a plant, and by crossing of varieties that are known to be hardy with commercial varieties in order to secure hardiness, coupled with size, flavor, beauty and keeping qualities. The success of their work means added health, prosperity, and home comforts for the people of the northern great plains.

# Harold Bachman *and his* MILLION DOLLAR BAND

## SECOND TRIUMPHAL TOUR

HAROLD BACHMAN, Director

30 Artists

Real Americans

Real Musicians

5 Soloists, Every Member A Feature

ROBERT BRUCE
Indian Soloist

Harold Bachman, Director of the Million Dollar Band, which is to play in **THIEF RIVER FALLS, on Wednesday evening, JULY 21,** has had a career which fits him admirably for the position he now holds as director of a big concert band. After graduating from college, where he specialized in music for a period of eight years, he played for several seasons on the road with different concert organizations, among which was the famous Bohumir Kryl Concert Band of Chicago.

Between seasons he studied his chosen instrument, the cornet, with H. A. Vandercook of Chicago, and Mr. Vandercook counts Director Bachman as one of his most successful pupils, using his name on all his advertisements for his cornet school.

With this experience Mr. Bachman was well qualified to make a name for himself as director of an army band, in which capacity he served for about two years before taking his own band on the road to enter into the commercial band business.

The Duluth Herald has the following compliment to pay to the ability of Director Harold Bachman: Those who have heard the Million Dollar Band at the Rex feel sure that they have seen one who is to become one of the formost band leaders in the country. Conductor Bachman fairly dripped music from his finger tips and it is small wonder that his company of musicians did so well under his competent direction.

"Look Out Sousa," was the heading of an article in the Milwaukee News on the work of Mr. Bachman, who played to record-breaking audiences in the Miller Theatre of this city during the week of October 12th last season.

Mr. Bachman says that his band this year will be much better than ever before.

Milwaukee News: "Look out Sousa! The Million Dollar Band is a Whirlwind."

Billboard: "Conductor Bachman's Band has proved its right to be reckoned among the foremost bands of the country."

Chicago Vaudeville: "This band is far above the average and well worthy of its place in Big Time Vaudeville."

Minneapolis Tribune: "This band is far above the average and well worthy of its place in Big Time Vaudeville."

## Dance at Auditorium

immediately following concert. Music by 7-piece orchestra composed of members of this band

THE AMERICAN PRESS ASSOCIATION
Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

Harlow Sumner has 320 acres of flax out on the Angus road in Helgeland township that is hard to beat. The crop is all on new breaking. It is as even as a floor, a rich healthy color and promises a small fortune to the owner this year. Mr. Sumner did an exceptionally good job of breaking and seeding and the result will be a great crop. Flax is flax this year.

There was a regular parade Sunday on foot and autowise over forty-acre field on E. ½, Section 18, Sanders township. It's a sight worth seeing. The crop stands up there from six to seven feet high, and just as thick as it can stand. It shades the ground completely, thus keeping out weeds and foul grass. Sister clover innoculates the ground for alfalfa and other grasses. It greatly enriches the soil and is a highly profitable crop. Drive out and see the Kottelson crop. It's only three and a half miles from town. Every business man in town should see this crop.

The nine one inch rain on the 11th inclusive did a world of good. The weather has been cool all the time since. Just exactly right for crops. Some localities were suffering for rain, but in the main we were just ready for rain. We got it. The weather has been ideal since and crops look fine. Gopher is in full swing with some rye harvested. Pending, ton county is going to market with the double box on this year.

The travel from Thief River Falls from the west is decreasing north one mile to the old road, and has been all summer. This is caused largely by the trucks hauling gravel to other roads. The sand pit is almost as near the North road as to the Jefferson. Some steps should be taken to correct this trouble. We would suggest that the trucks haul on the North road especially when their haul is to the north. At any rate the present condition is very bad. Trade is being driven away from town, local travel inconvenienced, and thru travel greatly annoyed. Here is a fine chance for the Jefferson officers or Merchants association to do something for the town. This very bad link of three miles in an otherwise good road is bad business and should be corrected.

The school election Saturday was not largely attended. Mrs. L. G. Larson received 44 votes, L. G. Mogensen 23 votes, Mrs. J. J. Richter 19 votes. Fourteen other candidates received scattering votes. The newly elected directors enter upon their duties with the confidence of the people.

"LET US HAVE SERVANTS"
(From the World's Business)

However way it is hoped that the unity of the Republican party can be broken. This is the hope of democracy and it shows upon what a slender thread hangs the chance of this division of the hosts being realized. The Republicans are united for the same reason that the members of a ship's crew act together to attain a common purpose.

It has been clear to everyone who pretends to read the signs of the times that business men, artisans and the great majority of agriculturists are eager to see a change in the Federal administration. This is not due to partisan likes or dislikes, but to a full appreciation of the fact that the Wilson policies have led this country not only up to the threshold of socialism, but beyond the portal.

We have seen the "close-up" picture of industrialism in the management of the railroads.

We have seen the pernicious plan of giving public contracts on a cost plus basis, and we have had the unpleasant experience of living under an administration that has done nothing effective to check the high cost of living. With things as everpresent elements of our daily life and with no break in sight we cannot be lured into voting for the treaty. Even now, after months of retirement, his obsession is unabated and he calls upon his party to make the Wilson treaty the paramount issue of the present election. Could the unilateral slant or any question be more impressively drawn?

But it is not on a vague theory that this country is to vote this fall.

We want to solve some issues that are as plain as pike staffs.

We want to know once and for all time if this is to remain a Republic or if it is to be transmogrified into a unit of the International Soviets.

We want to know if this government can return to its proper sphere of activity and carry out the time-honored maxim of Jefferson, that the "least governed country is the best governed."

To find hope of safe and prompt solutions to these queries the voter turns to the Chicago platform. There is no quibbling about the railroad question, nor on any other vital subject is there evasion or deception. The voters are able to tell a real issue when they see it and no amount of unanimity sentimentality about this country not keeping its pledge is going to carry weight.

In the business world it is a proven rule to depend for results upon men of average ability and even temperment rather than place reliance in theorists or men who affect great mental superiority over their associates.

The time has come for the United States to again be governed by laws administered by servants of the people, and not by one-man rule in person or through satellites.

Let the full election make a clean sweep for the Chicago platform and its candidates. This will be the best insurance the people can have that prosperity, peace and progress under constitutional government will be secure.

The Minneapolis Chamber of Commerce commenced trading in wheat. The opening price was $2.73 per bushel. During the war the farmer was prevented by the government from getting the market price and during the period of world shortage of breadstuffs the farmer took half price for his grain. He was not deceived by the Wilson "guarantee." Now in the face of the greatest wheat crop ever raised the Chamber of Commerce pays $2.73 and by the way the Chamber of Commerce need not take any credit for being decent to the farmers, for they are not. Next to the Wilson administration they are the farmer's worst enemy. They are paying $2.73 because the wheat has a natural value of much more and because they only partly control the price.

The sum and substance of the democratic platform holds the party and the candidate to the Wilson league of nations. The republican platform denounces the Wilson league and the republican nominee declares against it. Thus, for the purpose of the average voter, the choice may be made as follows: Does the voter favor the covenant shaped at Paris? If so, he should vote the Democratic ticket. Does he oppose it? Then he should vote the Republican ticket. The amendment to the platform forced thru by Senator Walsh, of Massachusetts, does not alter the fact that the democratic party has committed itself wholly to the covenant; but it opens the way to evasions during the campaign, and enables democratic senators to set up the claim that they have stood in line with their party while favoring reservation making clearer the declarations of the United States.—The Washington Post.

# HIGH COST SHOE IS PINCHING OTHER FEET

## BOSTON FINANCIER SAYS SPECULATORS WHO BOOSTED LEVEL NOW ARE VICTIMS

Speculators whose manipulations in world's market brought the period of highest prices known in history are in turn being forced to disgorge, with the result that a gradual return to normal conditions is already under way in the opinion of William A. Paine of Boston, founder and president of Paine, Webber & Co., who was in the Twin Cities recently.

The stock market has already gone thru the process of liquidation and returned to a condition approaching normal following the inflation of all securities caused by war time and reconstruction activities and the commodity market is now entering upon a similar liquidation, Mr. Paine declared.

Mr. Paine would not venture to predict when the process of liquidation would be completed and declared it would be to the interest of the entire country to have the readjustment minimal. The pre-war level of prices is a likely ever to be reached, he said, owing to the fact that the abnormal conditions, low in its final phase has brought about a higher level of values than in the industrial field.

Mr. Paine said that in his opinion there is no reason why New England should receive a priority right in shipments of coal from mines, pointing out that New England can receive its coal by water the entire year, while shipments to the northwest are impossible after December 1. He said that the closing of factories in New England, which is already under way will undoubtedly work to the benefit of the Northwest by diverting coal to this section.

### Pertinent Paragraphs

A word to the wise is sufficient. To the fool it is one too many.

You can call some people hard names without insulting them, but you may give deadly offense. The truth never an insult.

A man can always dictate to his typewriter, but seldom to his wife.

A girl may not enthuse much over the man, but it's no trouble at all to go into raptures over the engagement ring.

The small boy with a hook, a line and a worm is never without joy. It is good for a nibble or two.

It's no disgrace for a brave man to admit that he has been licked by a better man. Only the craven tries to bluff it out afterwards.

We'd hate to think that the amount of hair a man possess is an index to the quality of his cerebrum. What would he say to our baldheads?

Life holds a barrel of joy for you if you want it. But it expects you to pull the plug out of the bunghole.

The young man with a multitude of ideas often finds that his multitude has become but a jumble.

# PEACE TIME ARMY TO LEARN FARMING

## WAR DEPARTMENT PLANS TO TEACH SOLDIERS ALONG PRODUCTIVE LINES

Washington, D. C., July 14—In line with the war department's plans to make the peace time army of the nation an intelligent, productive entity, as well as a fighting machine, agricultural courses are now flourishing in several of the large cantonments of the army, including Camp Dodge, the military reservation on the fringe of Des Moines.

The course of study at Camp Dodge includes truck farming, horticulture or fruit culture, agronomy or grain culture, farm mechanics, and farm economics, which includes courses in entomology and zoology.

An extensive course in animal husbandry, with horses, cows, pigs and chickens as the feature subjects, is also being taught. As the army endeavors always to get the best available materials, the best breeds of horses, cows, pigs and chickens are being sent to Camp Dodge.

The course at Camp Dodge also includes extensive knowledge on how to market the products, tho the regulations specifically stipulate that the products can not be shared in competition with outside interests.

Instructors at the camp are largely made up of graduates of the state agricultural colleges, and include men who have had extensive experience as successful practical farmers.

"The agricultural classes at Camp Dodge," said an officer of the general staff of the war department "ranks with the best that the army has. The men there are producing considerable, which helps to make the post self-supporting as far as mess is concerned. The army hopes thru these agricultural courses to aid in relieving the farm situation of the country, and to encourage the back-to-the-farm movement."

### Curtail Recruiting Campaigns

The recent decision of the war department to curtail recruiting campaigns in rural communities in order that the present farm labor situation will not be made more serious, has brought forth the commendation of the numerous farm organizations.

"Recognizing the extreme importance of agriculture," said O. S. Barrett, president of the National Board of Farm Organizations, "the war department is not only refraining from attempting to secure enlistments among farm hands, but is doing all in its power to increase knowledge of agriculture among the men in the army and thus induce them to go on farms upon the completion of their enlistments. With this end in view, a number of thorough courses in agriculture, combining class-room instruction and practical field work, have been established in the larger military camps. It is the intent to greatly enlarge and extend the scope of this work. In line with the army's present policy of returning men to civil life more useful citizens and fitted to earn a better living, every school in which not only is general education offered, but instruction in trades is carried on. The agricultural schools have taken a very important place in this scheme of instruction.

"The future army will not spend a part of the day in drill and the remainder in idleness. A nation's defense consists of something more than an army that can shoot straight, ride hard, manipulate an airship or bomb a town. A defensive army must be an army that can produce food as well as repulse an army of invasion and to this end it is the policy of the war department to make farmers of as many recruits as can by any means be induced to adopt the profession of agriculture."

# Help Wanted

The J. C. Penney Company, who expects to open Store 306 in Thief River Falls in August, are looking for some people to help conduct this business. They are open for applications to fill the following places:

One able, clean young man, with some experience in these lines, who can qualify for the strictest requirements of the organization, who can speak the Scandinavian language, who can appreciate an opportunity and make good use of it. (No user of cigarettes need apply.)

One intelligent, dependable young lady to act as cashier.

One experienced lady for ready-to-wear and dry goods.

One young lady who desires to become a real efficient store woman.

The manager will be in Thief River Falls about August 1st, and interview applicants.

Written applications may in the meantime be addressed to Mr. E. W. Hinrichs, care of J. C. Penney Co., Crookston, Minnesota.

# Why We Are Coming to Thief River Falls

***FIRST OF ALL, WE WILL BE HERE TO STAY***

Our investigation of conditions in and about Thief River Falls has convinced us that the majority of people will quickly appreciate the advantages offered to them by the service of this store. With new goods, always lowest prices every day and conscientious service at all times---this "different" store will fill a long felt want in the community.

People who have heretofore "sent away" for merchandise will find it will pay them to travel hundreds of miles if necessary, to partake of every day values we offer.

Make us a visit for proof. You will be quickly convinced "THIS IS THE STORE FOR EVERYONE"

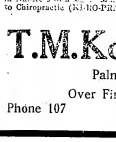
## How Spinal Defects Occur

MANY persons have asked how the spine can cause the nerves and shut off the life-giving energy that causes weakness and disease in certain parts of the body. The spine protects the spinal cord through which energy passes from the brain to the nerves of nerves. Each nerve every part of the body. The spine is composed of bones that are easily displaced and cause pressure on the nerves and jar.



### Causes of the Spinal Pressure

In fact there are many contributory causes of defective spines, but there is one cause that is before, during and after birth—the pressure on the nerves at the base of the brain. This pressure is caused by a misplaced bone in the neck. It is the first bone below the head and, on the proper adjustment of this bone depends the health of the entire body. At birth this bone is frequently displaced and often remains so throughout life, unless corrected. This pressure upon the nerves at the base of the brain, the "pain center," also causes pressure upon the nerves of the spinal cord, thus giving nerve energy to every organ in the body.

### CHIROPRACTIC CORRECTS SPINAL DEFECTS

It lifts the pressure from the nerves, permitting health to return to the whole body. Without an operation and all pain is removed. Then and organs. With normal nerve function restored, Nature brings about Healthy conditions in the organs of the body.

no drugs or surgery are needed. Adjustments made in Nature's own way. Scientific, natural way to Chiropractic (KI-RO-PRAK-TIK). Learn what it can

## GERMANTOWN

The sad news reached us that our dear friend Emma Haggy passed away at the sanatorium in Thief River Falls Thursday, after an illness of several months. Deceased was eighteen years old and will be very much missed at her home and among her many friends. Rev. H. Bjornson, of Roothsay, conducted the funeral services on Monday afternoon. Heartfelt sympathy is extended to the parents and relatives in their sorrow.

Mrs. Martinus Johnson was a caller at Goodridge last Saturday.

Gladys Roler was a caller at Germantown one day last week.

Miss Hannah Weber visited with Stella Philipp last Friday.

Mr. and Mrs. C. Boyce and children visited at the A. Rohrer home Sunday.

Mrs. Hans Dahl visited at the Martinus Johnson home Saturday.

Mr. and Mrs. Olaf Tharaldson and children, Gehart and Silva, visited at the L. Bendickson home Monday.

Bjarne Jorstad was a Sunday guest of Hans Johnsou.

Miss Silva Bendickson was a Germantown caller one day last week.

Hans Dahl was a caller at the Martinus Johnson home one day last week.

Mr. and Mrs. Olaf Tharaldson and children, Silva Gehart and Henry, were callers at the L. Bendickson home Sunday evening.

Mrs. Harry Weber and children, Violet and Hannah, were guests at the Philipp home Thursday.

Mr. and Mrs. C. Nelson and children, Vernal, Edith and Clifford, were guests at the L. Bendickson home Thursday.

Miss Bertina Haggy spent Thursday afternoon at Thief River Falls.

Bernard, Nettie and Silva Bendickson motored to Mavie Saturday evening.

Mr. and Mrs. C. Boyce and children called at the A. Rhorer home Sunday.

Hattie Klockman was a Germantown caller one day last week.

Mr. and Mrs. Olaf Tharaldson and children, Gehart, Silva and Henry, motored to Goodridge Monday evening.

Bernice Struble visited with Ruth Boyce Monday.

Mrs. C. Struble was a Sunday guest at the Henry Roler home.

Bernard, Nettie and Silva Bendickson motored to Goodridge last Sunday evening.

Guests at the Longevan home Sunday were: Misses Emma Rosett, Eleanor Cummings, Messrs. Edwin Rosett and Agland Cummings.

## ROSEWOOD

About a dozen Rosewood families motored out to the Alberts farm three miles east of town last Saturday evening to tender Mr. and Mrs. Thompson, a new family who has recently purchased land two miles south of town and intend to make their future home in this community a welcoming surprise. The evening was delightfully spent in conversation and dancing and a dainty luncheon brought along by the women was served at midnight. A massive solid oak sewing rocker was left with Mr. and Mrs. Thompson as a remembrance of the event. As there are no buildings on Mr. Thompson's land he is renting the Alberts residence until he has the opportunity of erecting suitable home quarters. The community is glad in welcoming all new settlers into their midst, and especially so, young and enterprising folks like the Thompsons. What we need is more people on the farms and a more closely settled farming district, with a co-operative congenial spirit prevailing it will build up the community and bring on universal prosperity. Glad to welcome you, Mr. and Mrs. Thompson, may your stay be pleasant and of a long duration.

Miss Jenive Swenson left last Saturday for Badger where she will visit with friends and relatives for some time.

Mr. and Mrs. Benhard Ranum and children, Stanley and Harry, motored to Roseau last Sunday to visit among relatives during the day.

Mrs. Nels Holm of Twin Valley and Mrs. J. W. Bowman and infant daughter, of Soudan, arrived here the middle of the week for a weekend visit with the A S. Holm folks in town.

Mr. and Mrs. John Blom and sons, Arthur and Helmer, spent Sunday at Middle River with the J. Blomquast family.

Selmer Severson, of Thief River Falls is visiting for a few days with his uncle, A. C. Vorseth here.

Mr. and Mrs. J. Johnson and son, Earl, of Thief River Falls, were Monday visitors at the Mr. and Mrs. Emil Anderson home.

Mrs. Axel Axelson is reported considerable better the latter part of the week and the doctors are giving fair hopes of a complete recovery.

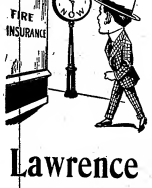
The first doctors whose diagnosis was that of external blood poisoning, is succeeded by that of Dr. Melby who states that it is a case of Rosea fever.

There will be services at the Congregational church at Rosewood next Sunday at 10:30 a. m. and at 8 p. m. The Young Peoples Society will meet at the church on Saturday evening, July 24, when lunch will be served at the close. Everybody is welcome.

Mr. and Mrs. Henning Backlund and family from Strathcona were Sunday visitors at the Carl Mellem home south of town.

Joel and Mary Sloberg spent Sunday afternoon at Holt as guests with the Martin Strom family.

Messrs. Olson and Anderson, two relatives of Mrs. A. Axelson arrived last Thursday from Wannaska for a brief visit at the Axelson home.



**Meeting July 24th**

The Minnesota Public Health association will hold a meeting at the Auditorium in this city on Saturday, July 24. Dr. Pearce, child specialist of St. Paul, will be present and conduct the clinic. All mothers are invited to be present and bring the children to this clinic.

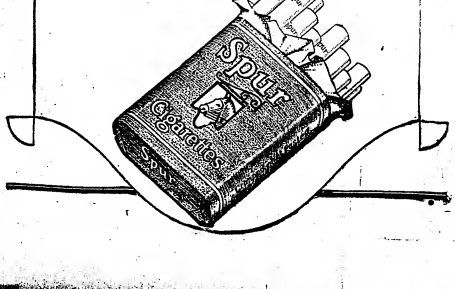
When you think of printing, think of The Tribune---Printing, that pleases

There's always room at the top
for Highest Possible Quality at Lowest Possible Price

RAISING THE LIMIT

MANY a smoker thought the limit had been reached. Could cigarettes be improved? We thought so. We knew there was room at the top for a better cigarette. But it would have to be something entirely new.



And it is—it's Spur.

An original blend that makes the rich Oriental tobaccos richer by pleasing combination with Burley and other home-grown tobaccos. A new method of rolling, the satiny imported paper by crimping, instead of pasting. A smart "brown-and-silver" package, with triple wrapping to keep Spurs fresh.

Spur offers you tip-top quality at rock-bottom price. What do you say?

LIGGETT & MYERS TOBACCO CO.

Spur Cigarettes

**YOU promised your friends you would win an automobile**

# NOW

# Make Good On That Promise!

## When You Entered

The Tribune's great $3,600 automobile campaign, you went in to win---with the primary intention of winning the Buick "Six," first grand prize in the wonderful prize list offered. You have worked, throughout the campaign, with the intention of winning the BEST PRIZE POSSIBLE---and have adhered closely to your original determination to make that prize the Buick "Six". Wishing to win this car, you have worked MIGHTY HARD for subscriptions. You told your friends what car you were working for, and they, in most cases, admired your pluck and ambition, gave you their subscriptions---to help you win that car. They believe in you—they believe that you will win—that is the reason that they gave you their help.

## The Winner In

The Tribune's great co-operative drive for subscriptions will be the worker who turns in the largest amount of business in the next two weeks—during the few remaining days of the campaign, before July 31st. This is true because the race is so close right now that it is still anybody's race---the decision must come during the time remaining. The worker who leads at the end of the campaign will earn the equivalent of eighteen hundred dollars. Make yourself that winner by doing your best work now!

## The Second Period

has been one during which every contestant did the best work he or she could do—and also a period during which the battle was so evenly fought that no one gained any very large lead, or no one fell very far behind. The second period is coming to a close with a tie for first place between five or six good workers---and correspondlng ties down the line. In other words, it is still anybody's race---there is still an opportunity for anyone to win. You have just as much chance now as you ever had---if you will only go to work and WORK HARD for subscriptions which you must have to win. It's not a question of who is ahead now---it is a question of who will be ahead on July 31st. The positions of the workers may be completely interchanged before the end of the race---and it's up to you to change them if you want to win!

## If You Want

to make good with your friends, you've got to win. If you want to justify the confidence they have shown in you and the expenditure of time and labor which you have made---you've got to win. And the only way for you to win is by doing better work during the balance of the campaign---better and harder work than ever before. Only a short time remains---only a few days before the end of the race---yet in that short time, by redoubling your efforts, by increasing the time and the labor you are putting into the work, by putting more spirit and pep into your selling---you can win the Buick. Make good with your friends and yourself---BY WORKING---BY WINNING!! Hard work during the rest of the campaign will win the Buick "Six" for you.

YOU CAN WIN A BUICK "Six" BY WORKING HARD FOR THE REST OF THE TRIBUNE'S AUTOMOBILE CAMPAIGN. YOU CAN WIN A SMALL FORTUNE BY DOING YOUR BEST WORK NOW----YOU CAN'T AFFORD TO LAG----TO DO SO MEANS DEFEAT!!

**Make Good With Your Friends and Readers By Getting Every Subscription Possible RIGHT NOW!**

# Make the Last Days Count for Victory!!

# Local News

Misses Vaiborg Samlum and Lavern Nelson returned to this city Friday, after spending a few days visiting with friends in St. Hilaire.

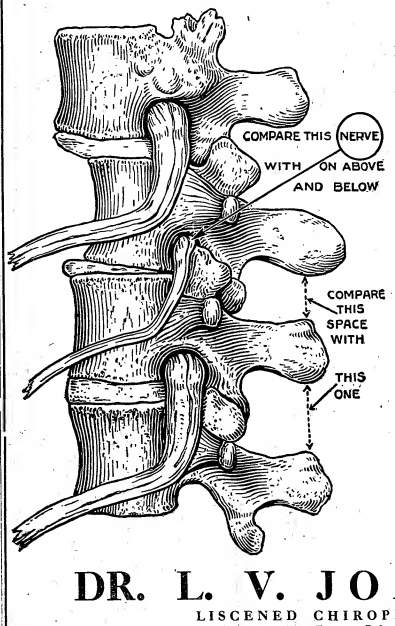
## There May Be Delay in Moving Your Telephone

If you order your telephone moved next week you may be told to expect a delay in getting it done.

Nearly half a million other telephone users in the United States will move their telephones this month, too. And for all of them many carloads of wire and other materials will be needed.

A general shortage of materials, as well as a lack of sufficient transportation facilities, is holding back factory output and the telephone companies can't get enough supplies.



In this emergency it will be greatly appreciated if you will order the least possible changes in your telephone equipment. And when you need to have something done please let us know as far in advance as possible.

**Northwestern Telephone Exchange Co.**

# SICK PEOLE

## Come to Me

## Impigned (pinched) Nerves Cause Disease

Here is shown a section of the spinal column with three nerves emerging from between the vertebrae (small bones of the spine). It will be noticed that the second vertebrae (reading from the top) is out of alignment, or, to use a Chiropractic term, subluxated. This causes an impingement (pinching) of the second nerve, and consequently the life force which should flow through that nerve to some particular organ, is interrupted. That organ, not receiving its full quota of life force, suffers from Dis-ease [lack of ease] and will continue to so suffer until the pinching is relieved. THIS IS WHERE THE SCIENCE OF CHIROPRACTIC COMES IN. The Chiropractor is called and he, with his bare hands only, adjusts the subluxated vertebra into its normal position so that it is in alignment with the other vertebrae, the pinching of the nerve is thus relieved, the life force flows uninterruptedly to the organ involved, and Health is the result. SIMPLE, isn't it?

DON'T SUFFER ANY LONGER!
DON'T GIVE UP!
DON'T WAIT ANY LONGER!
Try Chiropractic---it will help you.
CHIROPRACTIC EVENTUALLY---WHY NOT NOW!

Official Paper of Pennington County

MINNESOTA HISTORICAL SOCIETY

## MANY ADDED ATTRACTIONS FOR THE FAIR

### AUTO RACES FOR THE LAST DAY TO BE BIG HEADLINER FOR THE FAIR

Just a trifle more than one week until the big Pennington County fair again throws open its gates to the public and three big days of amusement and instruction.

Local exhibitors are getting in readiness for the exhibiting of a large number of articles, including machinery, automobiles, etc. The auditorium will be the scene of the woman's art department and the industrial exhibit of the schools. This is being done because of the fact that the building at the fair grounds is not in proper shape for the housing of these exhibits and it is felt that greater and more interesting exhibits will result if the women of the county are assured of the fact that their exhibits will be well taken care of and protected against the elements.

Amusements galore have been secured, there will be everything in the aerial exhibition line that has ever been given in the past with many new thrillers thrown in for good measure.

An especially interesting attraction has been practically secured for the last day of the fair by Secretary C. Howard Smith in the form of automobile races. The company to give these races are operating under the name of the American Motor Racing Company and carry five, racing cars and four motorcycles in addition to an aeroplane. They will give a series of eight races and one flying event in which the aeroplane races with one of their fastest cars. There will also be motor cycle races of a hair raising nature and thrillers galore will be furnished for lovers of the spectacular.

The cars are driven by experienced racers and men who have made good in the racing field. The company comes with high recommendations and the fair management feel that with this added attraction for the last day as a drawing card they will be able to increase the attendance remarkably.

The Great Sigfried, the champion ski jumper of Sweden and Canada will be here for an exhibition, using a greased runway for his slide. This is the only act of its kind on the road today and should prove an especially strong drawing card. There will be acrobatic acts and tumbling acts galore for the amusement of the children and the grownups. The Little Giant Shows, which have been secured for all three days carry a complete and interesting line of shows and amusements themselves. They have everything that is usually carried in the line of high class attractions and they bear the reputation of being strictly on the square and sure to please. The fair directors guarantee there will be nothing displeasing in the way of amusements on the grounds and where complaint is entered, they will close the show for the balance of the fair.

Especial attention is called to the fact that all exhibits should be entered as early as possible in order that the same may be properly taken care of before the opening day and that everything may be in readiness when the first day of the fair opens.

Something like twenty merchants have signified their intention of having booths at the Auditorium and they are also endeavoring to secure demonstrators from the different factories to be on hand with demonstrations of one sort and another.

Everything looks mighty promising for the big fair and from all sources is heard the prediction that this will be the biggest and best of years.

## H. BACHMAN'S BAND PLEASES LARGE CROWD

### EXCELLENT PROGRAM RENDERED AT FAIR GROUNDS WEDNESDAY EVE

The Million Dollar band, under the direction of Harold Bachman, gave a very interesting concert at the fair grounds Wednesday evening to a fair sized crowd. The program consisted of popular and classical selections and peppy marches. The entire organization is composed of high class musicians and their entertainment proved to be exceptionally interesting and as good as previous reports had led the people to believe.

Cars from all the neighboring sections of the country were present and everyone present enjoyed the entertainment exceedingly and feel that they received full value for their money.

Following the program at the fair grounds the band played for a dance at the auditorium and a large number were present and stayed thru till the finish.

The local post of the American legion, who were back of the band, did not clear anything on the venture, just barely coming out even. It was estimated at the fair grounds at the time that there must have been at least two thousand people in attendance, but when the total receipts were counted it was shown there was not even one thousand. This is explained for the reason that a many who attended in cars, left their cars and secured seats in the grandstand, and for the time it looked as if there were a large number present, in view of the fact that the grandstand was well filled and at least two hundred cars were parked on the grounds.

It is to be regretted that more people could not have been present and heard the splendid music of this organization as they are well worth traveling miles to hear.

## Prizes for Singers

### ST. PAUL BOOSTERS TO HOLD COMMUNITY SINGING WHEN THEY ARRIVE

We are advised by Mr. R. E. Hitchcock, secretary of the Trade Tour committee that all arrangements have been made for the Trade Tour of St. Paul's wholesale merchants and manufacturers who will visit our city on July 31.

It is planned to have the train pull in on schedule time. There will be a parade from the depot to the main section of the town and while the business men themselves are calling upon our business men the band will give its concert. There will also be community singing which will be conducted by Mr. Hal Geer, a well-known baritone singer. There will be a prize given to the boy and girl who sings the best and the loudest and in addition there will be souvenirs distributed to the children.

Any detailed information regarding the trip may be obtained from the agent of the Soo Line, who with other railway officials, is cooperating in making this trip a most successful one.

### To Conduct Hearing

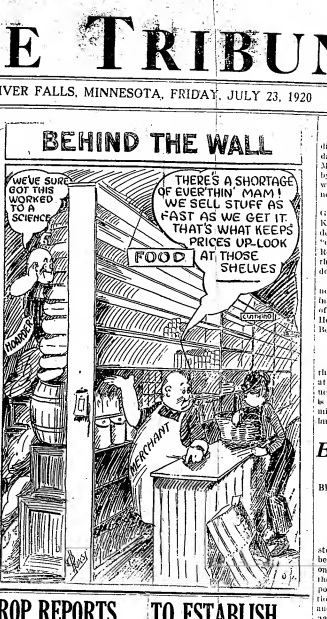
Governor Burnquist will conduct a hearing Saturday at 10 a. m. to determine which of the two projects for the division of Marshall county and the creation of a new county will be submitted at the November election.

One petition asks the creation of Liberty county, with Holt as the county seat. The petitioners are represented by Alvin B. Christofferson, a St. Paul attorney. The second petition proposes the establishment of Park county, with Middle River as the county seat.—Minneapolis Tribune.

### Build New Addition

The Thief River Music company is to have a new addition built to their new quarters 25x30 in size, which is to be used as a work room. The work is now being done by C. W. McAdams and the new addition is to be of brick and is made strictly modern. The present quarters of the Music company were a trifle cramped as there was not sufficient room for their repair department, and the proprietor, Geo. Christo, immediately got on the job and straightened out the situation by the addition of a new building. When completed this will give the company a most desirable work room and will be a big help to them in taking care of their repair work and picture framing.

### UNCLAIMED LETTERS



The following is a list of the unclaimed letters held at the Thief River Falls, Minn., post office for the week ending July 18, 1920. If not called for within two weeks from the above date they will be sent to the Dead Letter Braneh, Chicago, Ill.

Austin, Mr. O. A.
Austin, Mr. O. A.
Erickson, Mrs. E. M.
Jacobson, Mr. Theo.
Larson, Mr. Victor
Webber, Mrs. Mabel.
Webber, Mabel

When calling for the above letters please state that they were advertised.

John Morgan, P. M.

A. E. McIntyre, the well known piano tuner, will be in Thief River Falls in the near future. Those wishing their pianos tuned leave orders with Larson Furniture company. Country and near-by village orders given prompt attention and work guaranteed. add-3t

## CROP REPORTS FROM ENTIRE COUNTY GOOD

### BEST OUTLOOK IN YEARS FOR BUMPER CROPS IS THE PREDICTION

Crop conditions general in Pennington county and this section of the state are reported excellent better in fact than at any other point in the entire state. The small grain is coming along as well as it could be expected to and the outlook for bumper crops are very bright and encouraging. Light showers at the proper time together with the cool weather of the past few days has helped materially in putting the grain out of danger with every prospect for its early maturity and abundance in yield.

Harvesting will begin in a few days in most all localities and farmers the county over are getting ready for the harvesting of a big crop. The cutting of grain will be started in the next week or ten days and haying is well out of the way. The prospects in all lines of garden truck are exceptionally bright and those in position to know state this year will eclipse many previous years in the yield of bumper crops of all kinds.

Everywhere the conditions look exceedingly promising and all are optomistic over the outcome of this year's crops. The fields are clean and filled with a mighty fine stand of grain and Pennington county this year is certainly going to repay those who have placed their faith in this section in mighty good shape.

### A Splendid Rain

A splendid general rain of one inch or more last night followed by more rain today is bad for hay, but helpful to some localities that have been in need of rain badly, and splendid for flax everywhere. We really have the best crop of flax here we have had for many years. It looks fine, has looked fine all the time, and this rain just gives it the right jump. We have much to be thankful for this year in our crop result.

### Sugar "Melon" to Stock

The South Porto Rico Sugar company has declared a stock dividend of 100 per cent, payable August 6 to common stockholders of record July 24. It is announced the new stock will carry dividends for the current quarter beginning July 1. Application will be made for the listing of this stock on the New York stock exchange.—Minneapolis Tribune.

### First Evangelical Lutheran Church

Albin A. Larson, Pastor.

Services in the Swedish language at 10.30. Bible class and Sunday school at 11.45. Services in the American language at 7.45.

LOST—27 HEAD OF EWES, ONE buck and 20 lambs. Lambs all have long tails and weigh from 75 to 100 pounds. Ewes all have black face. Notify W. G Hamrick, Angus, Minn. 39-1t

## TO ESTABLISH NEW WHOLESALE HOUSE IN CITY

P. M. AND IRVING CARLSON OF ST. CLOUD TO LOCATE IN THIS CITY

Thief River Falls is to have a new wholesale house in the next thirty days. The Elson-O-Keen building on S. Main avenue has been leased by P. M. Carlson and Irving Carlson of St. Cloud, and these two young men will embark in the wholesale selling of candy starting about September first.

They plan to handle nothing but candy and the very best lines of candy possible to secure. They are both experienced in this line of business and at present are conducting a candy store in St. Cloud. They will close out their interests in that city and will be permanent residents of Thief River Falls in the course of the next few weeks. P. M. Carlson will have charge of the office work and the city trade and his brother, Irving will make the calls on outside trade. It is their intention to take in the trade territory as far north as Warroad and Baudette and the southern territory as far as Mahnomen. They will also work the east and west territory and feel confident of building up a big trade in the candy line.

The new firm will add to their force as the business expands and new lines will be added from time to time to take care of the trade. They announce that nothing but the very highest grade will be handled and a service from start to finish is to be their main object giving the retail trade the very best to be secured at a right price.

### Citizenship For Soldiers

There will be a hearing on citizenship and naturalization papers at the Court House on Friday, the 30th day of July, 1920, at 10 a. m. Any honorably discharged soldier who is not a citizen of the United States and who desires to become such can be admitted to citizenship immediately if he appears at the hearing. He must have his discharge papers and two witnesses who can identify him and who are citizens of the United States. He does not have to prove length of residence or jurisdiction of court and no fee is charged. For further information see the Clerk of Court at the Court House.

W. H. Larson, of Grand Forks, was in this city Tuesday attending to business matters.

Mrs. C. T. Christianson and daughters Thelma and Gladys left Thursday for Minneapolis and Nevada, Iowa, where they will visit for about three weeks.

Mrs. S. C. Goumbe was called to Vergas last evening on account of the serious illnes of her father.

FOR SALE—GOOD TEAM AND harness, Reasonable price. Call Mrs. J. J. Amble, 933 Horace avenue North. 2t

FOR RENT—ONE FURNISHED room. Telephone 515. 39-2pd

### Kvale is Disqualified

Rev. O. J. Kvale, of Benson, is disqualified as the Republican candidate for congress in the Seventh Minnesota district, in a decision filed by District Judge Albert Johnson, who heard the suit contesting Kvale's nomination.

Contesting Rev. Kvale's nomination was brought by 25 voters in the district who charged violation of the same corrupt practices act. Hearing of the suit was opened at Benson last week.

### Melby's To Lake

Dr. O. F. Melby and family left this morning via auto for a vacation at Detroit. They will be gone in the neighborhood of two weeks and it is certain that "Doc" will have some mighty interesting fish stories to relate on his return.

## Big Show Coming

### BIRTH OF A NATION TO BE AT LYCEUM THEATRE ON JULY 29 AND 30

In the twelve reels that tell the story of the "Birth of a Nation," to be exhibited at the Lyceum Theatre on July 29th and 30th, every phase of the human emotion is shown that is possible to portray. Every gradation of happiness, of sorrow, of pain, and of joy are shown. Life and death, human relations, hatred and friend-ship are there too, and in the depiction of friend-ship, one of the prettiest scenes of the entire twelve reels is shown. It is very short, only a minute or so does it flash on the screen. But you do not forget it. It is a scene which remains in the vision for weeks afterward.

A symphony orchestra appears with the "Birth of a Nation," and the management assure all who attend that the picture will be well worth the price and for those who have never seen this wonderful picture the treat of a lifetime is in store.

### The Bitter Sweet

Four million pounds of sugar arrived in Chicago during the latter part of June. It was purchased from Cuba by English merchants, sold to Canadian consignees, and resold in this country. This is one of those pleasing little instances growing out of Mr. Wilson's refusal to heed the appeal of President Menocal, of Cuba, to the Cuban sugar men at 6½ cents a pound, and of the Wilson-Palmer pandering to the Louisiana sugar barons. Small wonder that sugar is approaching 30 cents.

## TO OPEN NEW PENNEY STORE SEPTEMBER 1ST

### MANAGER HINRICHS TO MOVE HERE FROM CROOKSTON NEXT WEEK

E. W. Hinrichs, manager of the J. C. Penney store at Crookston and who is to be in charge of the store at this place, was in the city Thursday and made arrangements for moving his family to this city. He expects to be moved and located in his new home next week and will start active work on the arrangement of the new store.

The store is to be located in the Meehan block, corner Second and Main, and the interior of the building is to be remodeled completely for the new firm. They will install the latest in fixtures and modern conveniences and will carry a complete line of everything that is used in the home.

Mr. Hinrichs stated that it perhaps would be the first of September before the new store would be open in view of the fact that there is much to be done in the way of remodeling the building and securing the proper help and attending to all details which arise in the opening of a large establishment. He is confident that they will find this city a desirable location as is mightily pleased with the outlook.

The J. C. Penney company is considered one of the big and leading merchandise institutions of the country and they have been a big success in every locality in which they have located. Thief River Falls will without question prove a mighty fine field of operation for the new concern, and with her unlimited trade territory will give the new concern a much larger field than the ordinary city can offer.

## ONE WEEK LEFT OF TRIBUNE'S PRIZE CAMPAIGN

### JUST WIN OR LOSE DURING THE NEXT WEEK TO COME—CONTESTANTS CLOSE

One week from tomorrow night at eight o'clock, the greatest circulation promotion drive ever conducted in Northern Minnesota comes to an end—when The Tribune's great $3,400 profit-sharing campaign comes to a close. At this time, prizes aggregating well over $3,000 in value will be given away to wide-awake contestants, as well as large commission checks to those not winning other prizes.

Will you be one of the winners? The race is mighty close and mighty hot, right now—it will be even closer and more desperate, before the end. Every contestant realizes just how the matter stands—every worker understands that only good work and hard work and determined work will win for him.

It will be a finish desperately fought and hotly contested—and only real workers can hope to come out of the race with good reputation and winning votes to spare. Make yourself one of the winners! You can do so, if you simply work with and not against Tribune rules the week of the great prize campaign.

Plain, honest work will be the only deciding factor—plus merit alone will the rich prizes be awarded. If you have earned the best prize, the wonderful Ford "Sedan," at the end of the race you will receive it. If you have failed, you will not win—that is all.

And you can't feel sure right now, either of victory or defeat. It doesn't matter if you have a huge vote total, or if you are in possession of promises and receivers which will give you such a huge total. On the other hand, it does not matter if you have fallen down badly and again—if you have failed seemingly, in your right for the subscriptions to win.

You can make yourself a winner for a future—your work during the next week will decide which it is to be. If you work harder than ever during the next week, you will be certain to solidify your lead or increase your victory. And, if you are one of the few behind, your greatest—harder work than ever during the next week will give you the vote reserve to move you in the lead.

No other contest ever put prize and win-worth merit effort than you have so far made! Isn't the wonderful chance offered you worth more than the very hardest work you could do? And are you willing to work and work hard, for the consideration of the wonderful prize you can win?

Next week will win or lose for you! It is mighty near to you and on your work which it will be based.

Wind up your campaign with a whirlwind energy and a determination to win that will astonish your self. Put in more work than ever during the last week.

And keep it up and win!

## ONE WEEK LEFT OF TRIBUNE'S PRIZE CAMPAIGN

### JUST WIN OR LOSE DURING THE NEXT WEEK TO COME—CONTESTANTS CLOSE

One week from tomorrow night at eight o'clock, the greatest circulation promotion drive ever conducted in Northern Minnesota comes to an end—when The Tribune's great $3,400 profit-sharing campaign comes to a close. At this time, prizes aggregating well over $3,000 in value will be given away to wide-awake contestants, as well as large commission checks to those not winning other prizes.

Wind up your campaign with a whirlwind energy and a determination to win that will astonish your self. Put in more work than ever during the last week.

And keep it up and win!

### Grygla Here Sunday

A return game is to be played with Grygla at this place on Sunday and an opportunity will be given the Grygla team to get revenge on the Thief River team for the treatment they received last Sunday at Grygla They have a number of good men and aaway, put up an interesting game. They will come down for the game Sunday and the boosters in that locality claim the game to be played next Sunday will prove to be such a walk-away for the locals. Much interest in Sunday's game is manifested and a good crowd no doubt will be on hand to see the battle royal.

### Farm Wages High

What farmers are willing to pay for labor in Minnesota is being found out by F. L. French, secretary of the Minnesota Farm Bureau Federation. Thru the county agents Mr. French is gathering statements from farmers as to what they regard as fair wages.

Reports from 32 counties widely distributed have been received. These show that the general work by the day farmers fix the wage on an average of $3.15; for board by the month for 8 months, $68.86; for work at haying by the day, $3.80; shocking, $4.26; threshing, $4.35; fall work, $3.25; corn picking, per bushel, 8 cents; winter work per month, $44. To these wages room and board should be added.

Labor is going to be tempted to leave the city for the farm, thinks Mr. French, inasmuch as such wages with room and board added give the laborer more than he can earn, according to the present scale in the cities.

# .....Automobile Campaign News.....

"LABOR WINS ALL."---Tacitus

This column conducted by Automobile Campaign Department, The Tribune.

## A LITTLE ADVICE

You cannot make a successful climb unless you believe in yourself. The key to success is embodied in the power that be in you—in your self-confidence and self-reliance and self-help.—Kaufman.

Act—think—work. Don't believe that success can ever come to a half-hearted worker. —Shaw.

The successful salesman, of newspapers or pictures, of automobiles, or cards, must not only believe in the value of his goods, but HE MUST ALSO BELIEVE THAT IT IS HIS MISSION AS A SALESMAN TO MAKE OTHERS APPRECIATE THIS VALUE.—Woodworth.

Never show discouragement. The quitter is instinctively disliked by every man—and you can't secure audience or interest or assistance where your subject is out of sympathy with you.—J. H. Appel.

Having determined to rise to a certain goal—achieve it at all costs.—Arnold Bennett.

The first and most important element of success is the determination to succeed.—Auco.

One today is worth two tomorrows.—Poor Richard's Almanack.

Say to yourself: "My place is at the top"—and then go out and work until you get there. —Martin.

A competent worker can't be kept down—nor an incompetent one kept up.—Hall.

Take advantage of every circumstance that will help you achieve your resolutions. If have set out to do a certain thing, see that you turn every minute circumstance, every slight impetus, to your advantage—that you do, in short, your work so well as to win without doubt.—M. Field.

Men are inexcusable if they do not pursue that which their judgment tells them is laudable and worthy of effect.—Joseph Addison.

Next Saturday night at eight o'clock the great $3,000 automobile campaign comes to a close. After that time, as soon as the judges have completed the careful count which is to be made—subscriptions will do nothing to help you—you will find it impossible to get ahead—you will be THROUGH.

And whether you shall be, at that time, a glorious winner or a broken failure—depends entirely upon you. THERE IS A POSSIBILITY OF VICTORY—THERE IS A POSSIBILITY OF DEFEAT. And the decision for failure or victory will come during the week to come—during the last week of "the greatest prize campaign ever conducted in northern Minnesota." It's up to you to make every minute count—to make every day between now and Saturday night, July 31, at eight o'clock, count to the utmost in votes and subscriptions.

THERE'S STILL TIME TO WIN—THERE'S STILL TIME TO LOSE. What if you have fallen behind—for some reason which you could not avoid? THE RACE MAY BE WON NEXT WEEK!! And on the other hand, remember that the fact that you have an unusually good vote reserve, does not mean that you are safety in the lead—does not indicate that you are safe in slowing up your work or in ceasing to keep going all the time. YOU CAN'T FEEL SAFE IN VICTORY—OR DISAPPOINTED IN DEFEAT—YET. In justice to yourself—increase your efforts—work harder—work longer and with even more effort than at any previous time—during this, the last week of the great prize campaign.

By doing so, you can insure victory—by failing to do so you will lose. ISN'T THE PRIZE YOU CAN WIN MORE THAN WORTH THE EFFORT YOU NEED TO MAKE?

GO AHEAD AND WORK AND WIN!!

## RULES FOR CLOSE OF RACE

The second and last period of The Tribune's great $3,000 automobile campaign will close promptly at eight o'clock Saturday evening, July 31st.

Subscriptions may be brought into the automobile campaign offices at any time up to eight o'cock, either by contestants or their authorized agents. It is urged that an especial effort be made to have orders made out plainly and cash or check balanced accurately, so that there will be no unnecessary delay or no opportunity for inaccuracy on the part of those handling the final orders. The balloting will be open—contestants will be permitted to be present while judges tabulate and total returns and fix the vote totals. Last orders can be deposited in the office by contestants and left, with perfect confidence that at no time will there be any information given to any other worker. The management of The Tribune and of the automobile campaign department guarantee that there will be no information given, to any worker, as to the comparative standing of others.

Orders to be MAILED at any time up to eight o'clock, Saturday night, July 31st. It must be carefully noted, however, that all MAILED orders must bear a LEGIBLE POSTMARK as having been mailed at the contestant's post-office BEFORE EIGHT O'CLOCK, SATURDAY NIGHT, JULY 31st. Such MAILED orders will be turned over to the judges immediately they are received—and will be counted at once.

It is requested that, wherever possible, contestants give either personal or certified check for the amount of their order. That is it would be advisable for workers to deposit the money they take in for subscriptions to their own account, and then to draw a check for this amount. This saves mistakes or losses in handling checks.

GET YOUR ORDER IN EARLY!! KEEP THEM COMING ALL THE TIME!! MAKE THEM BIG ORDERS —AND WIN!!

## ON BEING A LEADER

"When you work, work. Put your whole mind and heart into it. Know nothing else. Do everything the best you can. Distance everybody about you. This will not be hard—for ten to one the other fellows aren't trying much—and if they are, all you need to do to beat them is to do even better work. Master details and difficulties. Be always ready for the next step up. No matter what you are, make yourself an expert at it—as much as is possible. All this is easy when the habit of conquering, the determination to win, the self-confidence in victory, take possession of your mind.

"Be yourself the leader—not the trailer. Set the standard—do not follow it. Then you will mold instead of being molded—will win instead of watching someone else win. —Archer Brown.

## KEEP GOING

Don't get discouraged, and begin to slow up just because you've not made enough subscription sales to satisfy you. Remember—every one in every line of business, has "off days," when it's impossible to make a sale. And remember that it's only the fellow who keeps going IN SPITE OF EVERY OBSTACLE AND IN SPITE OF ALL DIFFICULTIES —THAT EVER WINS.

Make yourself a winner—by starting your hardest work at once!!

## JUST NINE MORE DAYS!

Just nine more days—and your chances of entering The Tribune's great $3,000 automobile campaign or of winning one of the wonderful prizes offered—are over. Just nine more days—and the greatest prize ever conducted in northern Minnesota comes to a close.

WILL YOU BE A WINNER?

It rests with you. There's nothing any one else can do for you, now—it's got to be YOUR OWN work and YOUR OWN effort and YOUR OWN application from now to the end. YOU must win or lose alone—there is nothing else to say.

YOU KNOW THAT WORK WILL WIN. You know that the better the work the more certain the victory. And you want to win—the Buick "Six" or the Overland "Four" or one of the other wonderful prizes. YOU WANT TO WIN!! And there's only one way to win and that is by WORKING HARDER THAN EVER FOR THE REST OF THE CAMPAIGN—by winding up your drive for votes with a whirlwind energy and a desperate struggle that will make your opponents fall behind. You've got to do not only AS GOOD WORK AS YOUR RIVALS—but BETTER WORK THAN ANY OF THEM—if you wish to win.

Understand—there's no time now for hesitation—no leisure for consideration—no spare moments for you to think over the matter. YOU'VE GOT TO MAKE THE DECISION WITHOUT A MOMENT'S DELAY—you've got to win right now—or lose. THINK IT OVER!! Do you WANT to win badly enough to put in the kind of work you know is necessary? Do you WANT to come out in the lead badly enough to be willing to wind up your race with harder work than you have done yet? If you do—NOW IS YOUR TIME!!

You can't lose—absolutely. But get over the idea or the belief that YOU'RE BOUND TO WIN A BIG PRIZE—you're NOT!! Only your own effort will win for you—and you can't be sure until the decision of the judges is announced whether or not you have done so!

GET OVER YOUR SELF-COMPLAISANCE—FORGET YOUR BELIEF THAT YOU ARE IN THE LEAD. The decision is still to come! Whether it shall be favorable or not rests with you—with your hard work for the next nine days—with your conscientious effort.

WHICH SHALL IT BE?

The next nine days will tell!!! Wind up your campaign in a blaze of glory, a sudden wave of energy and determination, a struggle for votes which will leave your rivals gasping. The last week will win for you!! Get the subscriptions promised you at the first of the campaign—get the subscriptions from those who promised to renew again later. Remember that on second payment subscriptions you receive the difference between the amount given on your first order and the total amount for the total term subscribed for. For instance, if you took a subscription for one year during the first period, upon which you were given ten thousand votes, and now receive an added two years, or a total subscription length of THREE YEARS, you will be given the difference between 10,000 votes and 25,000 votes—or FIFTEEN THOUSAND VOTES.

GET EVERY SUBSCRIPTION POSSIBLE! GET EVERY ORDER POSSIBLE! GET ALL THE VOTES POSSIBLE!!

AND DO SO AT ONCE!!

## MAYIMS FROM ROTHSCHILD

The elder Rothschild, the greatest banker and financier that Europe ever knew, had the following maxims posted in conspicuous places on the walls of his many banks:

"Dare to go forward.

"Never be discouraged.

"Never tell business lies.

"Be polite to everyone.

"Be prompt in everything.

"Employ your time sensibly and well.

"Bear all trouble patiently.

"Maintain your integrity as a sacred thing.

The Spanish have a saying: "Let it go till tomorrow." That's why Spain is degenerating every year. It's the worker who always does his work TODAY, who wins in the end. "One today is worth two tomorrows."

## KEEP FIGHTING

What do you do, when, after giving your proposition to a customer, he refuses to consider your offer? Do you give up and walk away—do you cease trying to land the sale, and mark the prospective subscriber off as impossible to sell? Or do you keep on fighting—go over your proposition again and repeat your offer in another way? In your acceptance of rebuffs—in your manner of working, after the first refusal, lies the decision for success or failure in your campaign for subscriptions.

Suppose your prospect says "The price is too high"—what do you tell him? It is a fact that some workers give up, when this refusal is met, without trying further. Try it this way, just once: Remind him that the price of paper has gone up two hundred per cent; that printer's ink and labor cost from fifty to one hundred per cent more than they did in 1918. And apply the same rule that has forced increase in the price of newspapers to his own farm and the prices he received and pays. Go further—show him that he gets The Tribune TWICE A WEEK for the same price as any other WEEKLY newspaper published in Northern Minnesota.

Again, suppose that he tells you to "come back later." Do you walk away angry and discomfited, determined not to go back and "get any more "turn-downs?" Or do you go back again and again, until you DO get his subscription? One way of handling such an answer makes for success—another for failure.

In short—no matter what the rebuff or the refusal given you—have an answer or a way of meeting it. If you can't meet the prospect's argument at the time—let it go and then go back later, when you've the facts to handle his objections, AND KEEP RIGHT ON GOING BACK AGAIN AND AGAIN—KEEP RIGHT ON TRYING TIME AFTER TIME.

Eventually—you'll get it!!

And, above all, else—remember that NOW is the time for you to do your best work! The campaign closes next week—after next Saturday night, July 31st, there'll not be a chance in the world for you to get anywhere in the race. NOW IS THE TIME—NOW IS YOUR ONLY CHANCE TO WIN!!

Go ahead and work hard and determinedly—AND WIN!!

## Mr. B. Busy Says

There's only one way to find out whether or not a thing can be done —and that is to try it. Simply because a certain prospect LOOKS hard to sell to—don't let him get away from you. YOU DON'T KNOW TILL YOU'VE TRIED—till you've tried more than once.

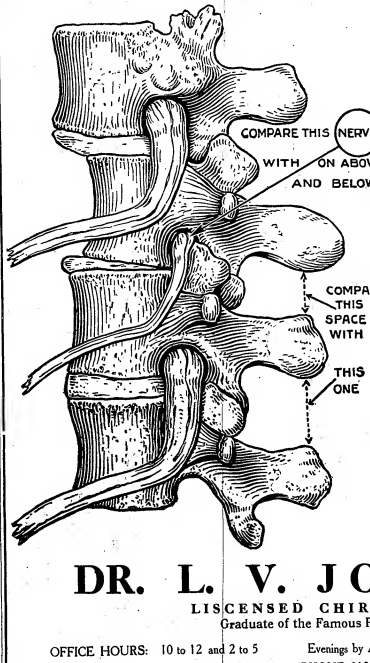
It isn't altogether a matter of luck, when some man or woman gets far ahead in the game of life. For luck is usually with the man who jumps the hardest, when crossing a ditch. And luck is always with the one who works hardest. ARE YOU A WORKER?

Give every man a square deal. Be honest, firm and conscientious; eager to serve and ready to work. Put into your life's work the best that is in you, of effort and ability. Be honest with every man—and especially with yourself. If you start to do a thing—your starting is continuous to a promise to do that very thing. DO IT!!

There's no one can beat you but yourself. There isn't anyone who can beat you, if you believe in your-self. Cultivate self-confidence and self-reliance—and win!

It takes a horse and buggy three hours to go eighteen miles after a doctor. It takes a good car less than half an hour. Some day you're going to want that car—and need it badly.

The Tribune will give you the finest and the sturdiest and the most dependable six-cylinder automobile on the market, or the highest and most efficient light four-cylinder car made—PRIZE OF CHARGE.



And work during next week will win it for you.

MAKE YOUR WORK WIN—IT'S MORE THAN WORTH THE EFFORT!!

SICK PEOPLE
Come to Me
Impigned (pinched) Nerves Cause Disease

Here is shown a section of the spinal column with three nerves emerging from between the vertebrae (small bones of the spine). It will be noticed that the second vertebrae (reading from the top) is out of alignment, or, to use a Chiropractic term, subluxated. This causes an impingement (pinching) of the second nerve, and consequently the life force which should flow through that nerve to some particular organ, is interrupted. That organ, not receiving its full quota of life force, suffers from Dis-ease [lack of ease] and will continue to so suffer until the pinching is relieved. THIS IS WHERE THE SCIENCE OF CHIROPRACTIC COMES IN. The Chiropractor is called and he, with his bare hands only, adjusts the subluxated vertebra into its normal position so that it is in alignment with the other vertebrae, the pinching of the nerve is thus relieved, the life force flows uninterruptedly to the organ involved, and Health is the result. SIMPLE, isn't it?

DON'T SUFFER ANY LONGER!
DON'T GIVE UP!
DON'T WAIT ANY LONGER!
Try Chiropractic--it will help you.
CHIROPRACTIC EVENTUALLY---WHY NOT NOW!

Continued from Page 2.

## WHERE THERE'S A WILL

(Note: This true story of a young man's great success, unaided by riches or influence, in a campaign exactly similar to that now being conducted by The Tribune, and written by that young man several years ago, will appear in installments in this column during the progress of The Tribune's great $3,600 campaign. READ IT—DON'T MISS IT—IT HAS MUCH IN IT FOR YOU.)

(By Robert Douglas)

(Chapter Fifteen—Concusion)

To be honest, there were days during the last week of the campaign when I was nervous—mighty nervous. There were so many workers —so many hard-working contestants —and, somehow, I had rather allowed some of my well-meaning friends to encourage me to believe that the race was unfair. There was a time when I didn't believe that I would be permitted to win—when I felt quite sure that all the other workers were trying to beat me by fair means or foul.

I told the Colonel so—expecting sympathy. Needless to say, I didn't get it. The Colonel hates a quitter worse than anything else in life—and you can hardly blame him. Quitting, just because the fight was a little hard and the end a little doubtful, would have showed me to have no stamina or courage—would have proved me absolutely worthless. And he told me so. It angered me for a while, but it did me good. Determined to SHOW him that I was NOT a quitter, I went into the work harder than ever.

I went to every one of those who had promised me subscriptions "later" —"when I needed them"—"when they had the money," etc—and got a mighty good share of them. I simply told them that I was doubtful of the results—but that I was certain of victory if they and the rest of my friends helped me with their subscriptions. I went back again and again to some of them—I called on one man three times in one day, until finally I got his order—and I've wondered ever since if the main reason that I got it wasn't because he was so anxious to get rid of me that he couldn't help but subscribe.

I went to friends whom I had missed before, or who had been away, and told them just how matters stood. I didn't attempt to discuss the state of matters at all—I told them that winning the race meant a whole lot to me—that I simply CAN'T AFFORD NOT TO WIN. And I told them also that The World was a mighty fine paper—that it was their logical paper. It surprised even me, optomistic as I had become, to find how readily they subscribed.

Finally, even the Colonel and mother caught the fever. In his big car, with a hard look in his eye, and a receipt book in his hand, the Colonel scoured the country. Did a farmer have the impertinence to refuse to Subscribe—"impertinence" from the Colonel's standpoint—he merely told him that he intended to come back until he got the subscription. Then, he would go on and work a couple of other houses, and come back to the first one. Very few of them escaped him.

Mother confined her work principally to the ladies of the town, church and club ladies whom she knew. She worked hard—too hard for her own good—but she was determined to see me win if it was possible at all.

And the people of the town were behind me—to a great extent. There wasn't one of them that didn't wish me luck—for I me that they hoped to see me win—that they would do all they could to help me. And I saw that they did. I wanted subscriptions—and I got them.

All in all, it was a long week and a hard one—a week marred by disappointments and heart-stopping failures at times—but nevertheless in the main successful. Along about this time, I began to hear terrible rumors concerning the vote strength of certain rival candidates. Such and such a young lady, so my informers said, had such an astonishing amount of votes as to be patently ridiculous. And in almost all cases of such rumors, I found that the count had shinning to have the most votes usually had the least. I simply made up my mind that they couldn't frighten me or discourage me—I was stubborn enough to determine that I wouldn't give them the satisfaction of believing they had frightened me out of the race. I WENT AHEAD AND WORKED IN SPITE OF IT ALL.

My last order went in at ten o'clock Saturday night—the closing hour of the campaign. We had worked all day Saturday for every moment of the time—I ate nothing from six in the morning until eleven at night—and the Colonel smoked at least half a box of his favorite cigars, one after another. Mother was terribly tired and excited—too nervous to sleep—but I forced her to go to bed and rest, nevertheless.

And then the Colonel and I sat on the anxious-seat, as the negroes call it—literally sharking with suppressed anxiety and worry—until the next evening at ten o'clock.

A shrill whistle at the gate, and I ran out to see what was happening. An A. D. T. messenger, of the usual gum-chewing cigarette-coking type, leisurely extracted a yellow envelope from several stuck hap-hazard beneath his cap brim, and threw it at me

"Sign 'er—" and he handed me a stubby pencil and a slip.

"All right—here you are—" and I started to open the envelope, with fingers that trembled and shook in spite of me.

"Mos' gen'lemen gen'rly gives me sumpthin', when I comes 's fur's this —yessir, yessir—c'mkt—" and he was off.

The telegram contained just ten words:

YOU WIN FIRST PRIZE AUTOMOBILE. DEEPEST CONGRATULATIONS. FULL DETAILS FOLLOW.

Mother, in the kitchen clear across the house, heard my wild whoop—and I verily believe that the Colonel, two miles away, did also, for I had hardly finished reading the telegram to mother when the telephone rang.

"Hah? ** Say, I bet old Joe Miller threw to one that you had won first ***he came over just now to collect it*** WHAT? **** GREAT!! ** Be right over!" and he slammed down the telephone receiver.

Altogether it was a great jollification that night—and it was worth it. And when at last I got to bed, I slept for eighteen hours straight—the let-down from the tension of the race had been so great.

*******

There isn't a whole lot of advice I can give you about a campaign—about how to pin your drive for votes so as to be sure of victory—beyond this one sentence:

WORK ALL THE TIME WITH ALL YOUR MIGHT!

Campaigns are in the main HONEST AND RELIABLE AND ACCURATE, general report to the contrary notwithstanding. For it is good business for newspapers to build up a good name, as west as a good circulation list—and there's only one way to do either. Depend upon it, if you work and work well you'll win. Simply—stick and work. Don't get discouraged—don't let anyone persuade you to drop out or slow up. Work wherever and whenever you can find an opportunity—and work always with only one aim: The first prize.

Be a fighter and a worker—not a quitter or a whiner. Trust to your own effort and your own ability and your own stamina—AND YOU'LL WIN.

And—here's wishing you all the luck in the world!

THE END

**Notice of Sale of Bonds**

School District No. 15, Pennington County, Minnesota.

Public notice is hereby given that bids will be received by the School Board of School District No. 15, Pennington County, Minnesota, at Clerk's office in Maple, in said District on the 30th, day of July, 1920, until 8 o'clock P. M. for School Bonds issued by said District for the purpose of erecting and equiping a new school house in said District No. 15, Pennington County, Minnesota, said bonds to be in the aggregate amount of $9,500.00, in denominations of $500.00 each, to be 19 in number and numbered from 1 to 19 inclusive, payable semi-annually on the 1st days of January and July of each year until paid, to be dated July 1, 1920, and to be absolutely due and payable July 1st, 1935, without option of prior payment.

No bids will be received for less than par and accrued interest and the right to reject any and all bids is reserved by the board. All bids must be unconditional and accompanied by an unconditional certified check payable to the order of the Treasurer of said School District for $500.00 The School Board will furnish the legal opinion of Rinner L. Williams of Minneapolis, Minn., as to the legality of said issue.

All bids shall be addressed to Carl Talley, Clerk.

By order of the School Board of School District No. 15, Pennington County, Minnesota.

Dated this 13th day of June 1920.

Carl Talley

Clerk of School District No. 15, Pennington County, Minn.

**Notice To Contractors**

Sealed proposals will be received at the office of the Town clerk of the Town of North, County of Pennington, State of Minnesota until Two o'clock P. M. on the 31st day of July 1920 for the construction of two piers and one abutment on the Long Bridge. Plans for the proposed work may be seen at the Town clerk's office Thief River Falls, Minn.

July 7th, 1920.

T. H. Bjerke

Town Clerk, Town of North.

July 9-16-23

**Wait!--- Don't Operate!**

SURE, WE'RE GOING!

You'll call them the finest exhibits in the world when you see them at the

*Minnesota State Fair*

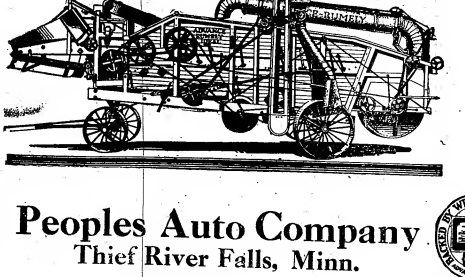
*September 4 to 11*

LA PORTE WORKS — ADVANCE-RUMELY COMPANY INC — LA PORTE IND.

**Big Reasons Why You Should Prefer an Ideal**

1 *Large Capacity*—The Rumely Ideal can't help but be a big capacity machine: it is built on the common sense principle of *keeping the straw moving*. There's absolutely no chance for slugging, winding, choking, bunching or any other hindrance to large capacity, when the straw is *kept on the move* as it is in the Ideal.

2 *Saving the Grain*—Saving all the grain is just as important as producing it—of course. The Rumely earned the name "Save-all-the-grain-Ideal"—*by saving it*. In any kind of straw—headed, bundled or loose rakings—dry, wet or frozen—the Ideal handles all jobs the same—without waste.



3 *Clean Work*—This is accounted for by the extra large chaffer area, the adjustable sieve in the shoe, and the Ideal system of wind control—a guarantee of a perfect job of cleaning without waste, under every condition. The Ideal does the kind of cleaning that gets you no "dockage" at the elevator.

4 *Strongly Built*—One-piece timber can't pull apart, sag or rot, as spliced or bolted members will. The Ideal is a one-piece job—sills, posts, deck rails, straw rack sides. Then, there are the heavy, substantial trucks, and all shaker hanger bearings running in adjustable boxes. That's the kind of construction that *insures* long life.

5 *No Vibration*—Vibration makes a young machine old before it has served its time—it wears out the bearings and pulls the shafts out of alignment. Counter balancing of all moving parts in the Ideal—perfect balancing of the cylinder—make the Rumely so steady running that when compared to other separators vibration simply does not exist.

6 *Easy to Operate*—You don't have to crawl inside the Ideal to get at the working parts. All bearings, concave adjustments and regulation of the blast are on the outside of the machine, also all oil and grease cups, where you can take care of them while the Ideal is running.

The Ideal is built in five sizes—22x36, 28x44, 28x48, 32x52 and 36x60.

*Official County Paper*
Pennington Printing Company
Publishers
Thos. A. Way, President
Published every Tuesday and Friday at
Thief River Falls, Minn.
E. B. McWilliams, Editor and Manager
Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION
Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

Candidate Cox announces he is in complete accord with Wilson on all League policies. Now we all know where we stand.

Mrs Peter Olson has been hazed as a democratic orator in Minneapolis because of her failure in San Francisco to stand by political friends. Such is pay roll politics.

Ex-President Taft, stand-pat ideal of the Shaw-McGinn-Ross-Timeo) is advocating a combination between democrats and sore head republicans in N Dakota to defeat Frazier. The more we see of Taft and his understudies, in opposition to the League, the more we are convinced of the justice and propriety of the League cause.

We have on hand a limited supply of farmer's bulletin 797, a government phamplet on sweet clover. These books are sent to us through the influence of Congressman Halvor Steenerson, and are for free distribution. The fact that Congresman Steenerson has noticed the keen interest taken in sweet clover in Pennington county and has sent along the books shows how alert he is on all matters of interest to his district. "Plant sweet clover, vote for Halvor, and you'll put one over on November, election day.

Ex. Governor of Iowa Warren Garst and wife, Warren Garst, Jr., and wife and Miss Garst of Des Moines, Iowa, spent the forenoon today in the city visiting with Iowa friends. They were enroute from Winnipeg to the lake region where they intend to stop for a few days. The party traveled in a large Hudson tourtier car, had been out two weeks —were camping and enjoying the trip immensely. Governor Garst has been in public life in Iowa for a decade. He is a big man honest, outspoken, fearless and humble. He has friends wherever Iowa people are to be found. Because of his natural gracious-ness he could not go by without spending a few hours with the Iowa colony here.

Wool is cheap, clothing is high. Cattle are cheap, meat is high. Hides are cheap, shoes are high. The wool, cattle and hides are the farmers products. The clothing, meat (dressed and cured) and shoes are the manufactures products. There is a profiteering and market control of the rankest and most flagrant variety in this country. We have unrest and distress, but apparently no redress. Market control and credit control commence in the Chamber of Commerce and in the big city banks, wholesale and jobbing houses. They give their orders. They do not ask us, they tell us. Our troubles are all economic troubles. The remedy will come from above by tolerance or some day it will come from below by intolerance.

Rev. O. J. Kvale won the nomination for congress in the seventh district by about 3,000 votes. He put out a circular about Volstead, attacking his religious belief, that proved to be untrue, and the courts have denied the minister the right to be on the ticket. The case has been appealed to the supreme court of the state. If co. Kvale has been in the primaries, he is now in the courts. Next comes the election, and finally he will be in congress or in the soup. We suspect that 3,000 majority was for Kvale and not especially against Volstead. The same vote may register again at the polls. While Kvale was doubtless wrong in his plan of campaign, it looks pretty slim for an o'dtimer like Volstead to try to get into congress by court action.

The booster crowd next Tuesday are requested to notice the roads from Thief River Falls to Warroad. This 103 miles of road is the best long road out of Thief River Falls, and has been the best all summer. On this road are Steiner, Holt, Middle River, Stratheona, Greenbush and the Roseau county towns. The Jefferson Highway should follow this route at least as far as Greenbush. We will have a paved road (under the Babcock law) on this route in a very short time, under the same law we will have a paved road to Warren on the north. We will never have a paved road on the present Jefferson Highway location across Marshall county The towns above named are our natural friends. Let's get to working with them. They can and will help us much more than we can help them. Study this Jefferson Highway proposition and be prepared to talk on your trip. There is no way you can render your own town a greater service. Instead of asking these people for something offer them something, offer them your cooperation in the matter of re-locating this road where they want it, and where it will do us the most good.

LABOR COMPARING COX AND HARDING

Washington—A comparison of the labor records of Governor James M. Cox and Warren G. Harding, democratic and republican presidential candidates will be issued by the American Federation of Labor soon. The data on the candidates followed the federation's statements on both platforms. The statement on the democratic platform says that the "democratic platform marks a measure of progress not found in the platform of the republican party."

$50,000 OFFERED ON HARDING AT ODDS

New York—The announcement was made by James W. Ball & Co. that a prominent stock exchange firm had placed in their hands $50,000 to wager, in whole or in part, at odds of 2½ to 1, that Senator Harding would be elected president of the United States. The best odds heretofore prevailing have been 2 to 1.

Another stock exchange firm offered to bet $40,000 on Cox to be elected, but demanded odds of 3 to 1. Neither of these wagers has been placed.

A FEW EXTRACTS

Extracts from a letter from a big wholesale cloth merchant to a tailor customer:

"As regards all fine goods, such as you and every high grade custom tailor requires, and such as we deal in, there will be no reduction in the prices possibly prior to mid-summer, 1921, and probably not then."

Because the controlled woolen factories are shut down to keep up the price of cloth.

"Foreign worsteds for spring next year will cost you from $5 to $15 per suit pattern more than you paid in the spring of 1920. Instead of such goods being more plentiful, there will be fewer of them obtainable and deliveries will be much delayed. Nearly everything published in the newspapers on this subject is apparently based upon absolute ignorance of the present condition and future probabilities."

Disregard the market reports, the statements of Congressional coms., the complaint of farmers because wool is low, and the howl of the customers because cloth is high. Shut your eyes and ears to all common sense information, statistics and all facts. We know it all, we and our affiliated price-juggling in-betweeners control the market. The public is ignorant.

"You need in your judgment, have no anxiety yet about future prices. We know exactly and precisely where of we speak, and we shall take good care that our customers have timely warning as to when we think caution will be advisable."

In ordinary business, caution is prudence and a proper business requisite, but here are brokers who insure their customers against even caution—follow us, do as we tell you and you will wear diamonds.

If the above is not an admission and a boast of control, we do not read it correctly.

Those alluring curves of the feminine form are rapidly ceasing to be attractive. The masculine mind soon loses interest in anything that becomes common.

We have reconsidered our hard and fast rule of not publishing the effusion of local poets. We now make a modest charge of a dollar a line, cash up and no discount.

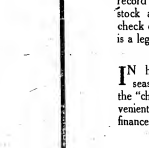
*Don't Wait for the Custom Thresher—*

# Do Your Own Work With an E-B GEISER

**An E-B Geiser Thresher for Your Individual Work is the Best Buy, because--**

The E-B Geiser is not an experiment. It is a proven success with many years of satisfactory service at home and abroad to its credit.

It is a small, compact machine with a big capacity. There is no waste space—it's all thresher and will do a clean job of threshing.



It cleans the grain without sieves. The cleaning is done by combs and grooved rollers, and is mechanically perfect.

It runs light—it hauls light—it is light. It has few parts and no unnecessary material to add weight. It is efficiently designed and built by skilled workmen.

The E-B Geiser is not a Junior, but a real threshing machine capable of doing, at your convenience, as efficient work as any big thresher.

## Rambeck-Stone

**Thief River Falls, Minn.**

*Farmers' Checking Accounts*

A CHECKING account is a business necessity to every farmer. It provides a complete record of income from crops, livestock and other sources. Every check drawn against these funds is a legal receipt.

IN harvest, feeding, planting season—all the year 'round, the "checkbook" way is the convenient way of handling farm finances.

*Citizens State Bank*

## Simonson's Meat & Grocery Market

"A Cool, Clean Market"

Telephone 115 Thief River Falls, Minnesota

# NEXT WEEK IS THE LAST WEEK
# Don't Be Late at The Finish!

THE Tribune's magnificent and generous $3,600 automobile campaign---a campaign embodying the richest and largest array of rich awards ever offered in a circulation campaign in northern Minnesota---closes next Saturday evening, July 31st at 8 o'clock. At that hour, the offices of the management of the Tribune's great campaign will close---no more ballots or subscriptions will be accepted at this office.

At that hour, the person standing highest in votes will win the luxurious Buick "Six" the greatest six-cylinder car in America. And it rests with you who that person shall be. You have right now as much chance to win the Buick "Six" as any of your rivals. You have just as many friends, just as much ability and just as great an opportunity---if you take advantage of that opportunity without delay and work harder than ever during the next eight days. You can win---if you make every moment of the last days count. So---make it a whirlwind finish. Work every moment of the time at top speed—work all the time with the utmost efficiency and the least amount of wasted time and effort. You have only a small number of rivals, but every one of them is a dangerous rival; and you must beat them all in order to win. Make every moment count—make every effort count for victory. WORK HARDER AND WIN!

### District No. One

| | | | |
|---|---|---|---|
| **Harry Lund**, city | 600,000 | Mrs. Henry Sandee, RFD, city | 10,000 |
| Mrs. Edwin O. Erickson, city | 608,000 | Julius Liden, RFD, city | 10,000 |
| O. L. Cronstrom, city | 603,000 | Mrs. Thomas Rowan, city | 585,000 |
| Mrs. L. Hermanson, city | 10,000 | Lucia Peterson, city | 60,000 |
| Robert Halverson, city | 452,000 | Mrs. H. F. Boreeu, city | 10,000 |
| Leo Miller, city | 10,000 | | |

### District No. Two

| | | | |
|---|---|---|---|
| Betty Johnson, Holt | 100,000 | Gunder Tviet, Golden Valley | 400,000 |
| Sylvia Pierson, St. Hilaire | 615,000 | Arthur Oson, Middle River | 10,000 |
| Martha Aubin, Plummer | 663,000 | Emma Anderson, Middle River | 10,000 |
| Ethel Anderson, Wylie | 95,000 | B. O. Norby, Goodridge | 110,000 |
| Borghild Berg, Middle River | 10,000 | Mrs. C. E. Lundgren, Viking | 60,000 |
| Mrs. E. Singer, Erie | 600,000 | | |

You can win, by applying harder efforts to your work---by working harder to secure votes which alone can win a prize. You can win, by working with all your might---by not stopping for any obstacle, or letting up in your race for a moment. You can win, if you're only willing to work---REALLY WORK---for the short time remaining of the campaign. The game is worth the effort---if you win you will receive a reward worth many times the time and effort you have invested. You CAN win, if you simply work hard to pass every rival; if you simply put up your hardest fight for subscriptions for the next eight days. Eight days can win or lose a car for you---eight days can mean fortune or failure to you! You can't afford not to work, because you can't afford not to win. Work wherever and whenever possible Work as hard as you can. Do the best work possible and win!!

## Here are Your Final Instructions---
### Read Them Carefully

Study the following explanations regarding the closing details of the great prize race. If they are not perfectly clear, ask for further information by mail, phone, or in person.

FIRST—All votes or subscriptions to count in the campaign must be in the hands of the Manager of the automobile campaign by eight o'clock on Saturday night, July 31st. (By votes is meant the vote certificates or the ballots issued when subscriptions are turned in.)

SECOND—The Manager's office will be open to candidates thruout the entire count of votes. Votes and subscriptions can be turned in up to 8 o'clock, but no subscriptions will be accepted after that hour.

THIRD—No orders may be mailed for credit in the offices of the Automobile Campaign Department after 6 p. m. Friday evening, July 31st. Inasmuch as candidates are requested to be present at the final count, which is to be open to all interested parties, it is suggested that these candidates be sure to bring in their final orders at the same time.

FOURTH—The final vote count to be published by the management of the Tribune's automobile campaign will be made for next Tuesday's publication in the Semi-Weekly Tribune. From that time forward, a sealed and locked ballot box will be in the offices of the manager, in which all orders can be placed. Candidates can if they wish, bring in their orders and deposit them in this box there to remain until the final count by the judges, which will commence immediately after 8 p. m. Saturday evening.

FIFTH—All subscriptions to be counted in the Tribune's great prize race must be fully covered by a remittance of cash, draft, certified check or money order. Use exceptional care in listing subscriptions, and write all names plainly. All additional instructions concerning subscriptions, as to time of starting, etc., must be marked plainly. Orders mailed to be accepted for the final count must be sent Special Delivery and directed to the Manager Automobile Campaign Department, The Semi-Weekly Tribune, Thief River Falls, Minn.

SIXTH—The final count will be closed in time to give candidates orders for their prizes, so that the winners of the cars may have them for use on Sunday, August 1st. The count will be open at all times and complaints or corrections can be made to the judges, to be passed upon by them.

Miss Silva Bendickson shopped at Thief River Falls Thursday.

Mr. and Mrs. Olaf Tharaldson and children Gehart and Silva and Henry Tharaldson called at the Bendickson home Monday.

Mrs. Sanders and daughter, Julia called at the O. P. Nelson home Monday.

## VIKING

The Sunday school children of the Swedish Mission church held their annual summer festival Sunday afternoon at the beautiful home of Peter Erickson four miles south of Viking. The children rendered a good program consisting of recitations and songs which were greatly appreciated. Rev. Soerstrom delivered a very interesting and instructive sermon. Ice cream and cake was served to all present. A large crowd attended and everybody enjoyed themselves, the day being ideal for picnicing. We wish to express our sincere thanks to the Peter Erickson family for their kindness in having the festival at their home.

Mrs. Engvid Lundgren spent the past week in Warren.

Miss Ida Peterson of Warren is visiting at the home of her sister, Mrs. E. Styrlund of this place.

Mrs. Frank Lesch went to Warren last week where she will seek medical aid.

Rev. Drotts officiated at the Y. P. S. in Rosewood Saturday evening and at the services Sunday forenoon and evening.

The local ball team played a fast game with Marshgrove last Sunday, resulting in a score of 13 to 14 in favor of Viking.

Mr. and Mrs. Gust Peterson and the Fred Peterson family of Warren spent Sunday evening at O. Lindell's.

The John Nelson family motored to Rosewood Sunday afternoon to attend the christening of the Carl Mellem baby.

Mesdames John Gustafson and Jacobson were Alvarado callers one days of the past week.

Mr. and Mrs. Albert Styrlund and children were Sunday guests at the Albert Peterson home.

C. Lundgren and son, Helmer, arrived Illinois last week.

Next Saturday evening at the Swedish Mission church the ladies aid will hold their annual auction sale. Ice cream and cake will be sold. Everybody is cordially invited to attend.

The members of the Grand Forks Commercial Club passed thru Viking Friday. Our town was among several places which were honored with a visit of this touring party. The band played several selections which were appreciated. Their next stopping point was Rosewood.

## ST. HILAIRE

Mrs. C. Fellman of Red Lake Falls arrived Friday for a brief visit with friends in the village.

The Slack residence, one of the oldest landmarks of the village, has been taken down and removed by a recent purchaser.

Mrs. A. H. Gunstad and daughter, Miss Lily, returned Friday from a visit with relatives in North Dakota.

The Norwegian parochial school closed last Friday and its completion was marked by a very successful picnic in the Martz grove last Sunday.

Mrs. Hage and son, Hawley, of Detroit, and Miss Bertha Moses, of Pelican Rapids were recent guests at the N. E. Beebe home.

Miss Anna Vik returned Friday from a visit with friends at Twin Valley and Detroit.

The baseball team of Oklee crossed bats with the St. Hilaire team on the local diamond last Sunday and the game resulted in a victory for the latter with a score of 2 to 0 in their favor.

Mrs. Wm. Olson and son, Harwood, went to Strathcona Saturday to visit at the home of the former's sister, Mrs. P. S. Haivard.

The ladies' aid of he Norwegian Lutheran church is entertained this afternoon in the church by Mesdames S. Benson, K. O. Gigstad and Neif Dahl

Mr. and Mrs. J. R. Severtson of Crookston visited with friends in the village for a brief time Saturday.

D. Collins and two children returned Monday to their home at Warroad, after having spent a few days with relatives and friends at Wylie and in this village.

Mrs. H. O. Jackson and Mrs. Karl B. Johnson left Monday for brief visits at Crookston, Bemidji and near Euclid.

Mrs. A. Potvin and two children left Wednesday for their home at Cass Lake, after a visit at the home of Mrs. Potvin's parents, Mr. and Mrs. P. Simonson. They were accompanied by Misses Selma and Pearl Simonson.

Mr. and Mrs. V. Lotgern accompanied by the latter's mother, Mrs. F. Hed, motored up the latter part of last week from their home near St. Peter to visit at the A. J. Hed home.

Anton E. Anderson, a prominent farmer of Rockshury township, was attacked by an angry bull Wendesday of last week and was badly bruised in the encounter.

Miss Selma Halverson, of Duluth, is a guest at the N. A. Nelson home.

Owing to a mistake the Kittle band which gave a concert here Tuesday evening, was not widely advertised, but those who attended were highly pleased with the performance and deplored the fact that so few had the opportunity of enjoying it.

After transacting business in this section of his territory E. T. Gestie motored to Crookston Thursday morning. He was accompanied by his sister, Mrs. Carl Johnson, who boarded the train at Crookston en route to Fosston to visit relatives.

St. Hilaire was well represented at the excellent open-air convcert given by the Million Dollar band at Thief River Falls, Wednesday evening, July 21st.

A class of seven boys and girls is to be confirmed at the Norwegian Lutheran church Sunday, July 25.

## BOLSHEVIKI GIVEN PICK OF WOMEN IN 'WEEK OF LOVE'

Cross-Atlantic Newspaper Service —Copyright. Special to Minneapolis Tribune.

Copenhagen, July 16.—"A week of love has been proclaimed by Lenin, according to a report from Moscow. All unmarried women under 45 are ordered by the decree to marry any Bolshevik desiring them. Women who have been married for four years and have not become mothers, are granted immediate divorce and are subject to the same orders, to hasten their re-marriage. All women affected by the proclamation are ordered to register immediately and later will be conducted to the winter palace for marriage in squads."

The report says that the state has taken charge of all children over three years of age, and that family life in Russia is completely disorganized.

## GRANGE OFFICIAL SCORES FARMERS IN NEW PARTY

Public Ledger-Minneapolis Tribune Service. Copyright, 1920, by Public Ledger Co.

Washington, July 16.—Condemnation of the participation of the farm elements of the United States in any partisan movement such as just has been effected by the Farmer-Labor party in its convention in Chicago was voiced today by T. C. Atkeson, Washington representative of the National Grange, one of the oldest farm organizations in the United States. Mr. Atkeson says that although the entry of the American farmer into partisan politics in the 70's and the 80's accomplished some of the things that were contemplated, the movement "failed of real achievement."

The conclusion reached by the National Grange official is such that partisan participation in political strife is bound to prove "detrimental to American agriculture."

"The experience of the Grange has been," says Professor Atkeson, "that in partisan politics or any alliance with partisan groups or class organizations for political purposes is detrimental not only to the best interests of the Grange, but also to the best interests of American agriculture.

"If this is objectionable to individuals or other groups who are now seeking to capitalize the high reputation for patriotism and Americanism of American farmers, that of itself repays the Grange for all that it has done."

## WOMAN'S CASE AMAZES THIEF RIVER FALLS

A business man's wife could not sew or read without sharp pains in her eyes. For years her eyes were red and weak. Finally she tried simple witchhazel, camphor, hydrastis, etc., as mixed in Lavopik eye wash. The result produced by a single bottle amazed everyone. We guarantee a small bottle of Lavopik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. F. J. Stebbins, druggist. T-4

## LARGE DAMAGE SUSTAINED BY ELECTRIC STORM

### NORTHERN WOODWORK COMPANY HAVE NEW PLANT RUINED FROM LIGHTNING

Lightning struck the building occupied by the Northern Woodwork Company last evening about 11:30, causing a loss estimated in the neighborhood of ten thousand dollars. The building which was completed this spring, is strictly modern throughout and is one of the fine buildings of the city. Last spring the company suffered a big loss when the entire back end of the building fell out as the result of frost forcing a large amount of dirt against the basement wall. This has only been repaired a short while and the company were just getting back on their feet in the way of operation and were getting ready to turn out a large amount of work when the lightning of last evening completely wiped out all prospects and practically ruined the entire building. The roof is practically all gone, nothing but charred embers of the roof being left. The basement escaped damage other than the water which was thrown into the building by the firemen. The back wall, which fell out last spring, is also down as the result of gases which exploded inside the building during the fire. The betting of the entire building is all destroyed which amounts to near $600 alone. In addition the stock that was on the floor and the completed work which was practically ready for delivery is also a total loss and the exact amount is hard to figure. The company have some insurance but they are doubtful if they have sufficient to take care of the entire loss. The loss in time is also to be taken into consideration and the company were swamped with orders for work.

The lightning struck in the southeast corner of the building and the electric wiring carried it on into the building. The fire was noticed short, ly after the lightning hit and the alarm was turned in within a few minites after the lightning struck. The fire company responded instantly and by their prompt action the loss was held down considerably.

The company are having a hard run of luck and the sympathy of the entire city is with them. They will not attempt to straighten out the building or start repairing until the insurance adjuster arrive, and adjust the loss. The machinery is practically as good as ever, with the exception of a little water, and the dry kiln was also saved which was filled with about fifteen thousand feet of high priced lumber.

The company feet their loss rather keenly, but are thankful that it is no worse and that they have a chance to come back in a short time and again be ready to take care of the large volume of work they have ahead of them.

## SELL LARGE AMOUNT OF MACHINERY

### GUSTAFSON & SON STATE THEIR SALES THIS YEAR FAR ECLIPSE PREVIOUS YEARS

As proof of the excellent crop conditions and general prosperity that is now evident in this section of the state, the sale of tractors, separators and other farm machinery in this locality has gathered considerable momentum and as a result the orders have piled up faster than they could be taken care of by the local dealers.

C. Gustafson & Son announce that the sale of farm machinery this year has been far in excess of other years and they would have been able to place much more had they been able to get the machinery from the factories. As it is they have sold a wonderful amount of the standard and staple articles on hand and in their tractor and separator business alone they have piled up a mighty good sales record and one that will be hard to beat by cities twice and three times the size of Thief River Falls. They have delivered seven tractors this spring and five separators and feel confident that they could easily have placed twice or three times this number had they been able to secure the machinery from the factories. The list of those in this territory who have purchased tractors and separators from this firm this spring follows:

Haas Auton, 12-25 Avery tractor.
Alfred Lundgren, 10-20 Titan tractor.
Iver Westby, 12-25 Avery tractor.
Dr. F. N. Mead, Jr., 10-20 Titan tractor.
Elling Tollefsrud, 12-25 Avery tractor.
Christ Engen, 25-50 Avery tractor.
John T. Coan, 12-25 Avery tractor.
Wm. R. Chapman, 12-25 Avery tractor.
Fred Bruss, 10-20 Titan tractor.
W. A. Swanson, 10-20 Titan tractor.
Mat Hakigen, 10-20 Titan tractor.
P. A. Olson, 12-25 Avery tractor.

Separators were sold to Hans Anton, Peter Lindobeja, T. J. Lillahold, W. E. Chapman and Peterson Brothers.

The firm state they have orders for several other tractors and separators and will without question make many more deliveries in the next few weeks if it is possible for them to get the machines from the factories.

There are several orders hanging fire waiting to see what the crops do and from present indications the outlook is as good as it could be hoped for and there is every indication of a record crop from all sources. As a result there is every assurance that there will be many more separators and tractors placed within the next few weeks and that the wheels of farm in this and adjoining counties will be equipped with labor saving machinery and well on the road to bigger and better farming.

Pennington county surely is coming into her own and it is doubtful if there is another county in the state that can show the progress for the year that this county has made. It is fast becoming one of the big and prosperous sections of the state and those who have stayed by thru thick and thin are in a fair way to receive full and just compensation for their faith in this section of Minnesota.

**Organizing Salvation Army**

Field Manager William of the Salvation Army has been several days in Thief River Falls organizing the work of the Army for the coming year and under the New County Advisory Board plan. Under this new plan the full scope of the Army activities are outlined and recommended by the Advisory Board. The budget system has been adopted for the work in Pennington county. The new Advisory Board are T. P. Anderson, William Michelet, John Morgan, W. P. LaBree, David Gustafson, Theo. Quale, Thomas A. Way, president, N. W. Turmet, vice president, Will Prichard, secretary and treasurer. The board will be enlarged to include members from other parts of the county. The complete plans will be more fully reported as the work progresses.

## *Big Band Tonite*

### FINLEY'S BIG BAND AND ORCHESTRA APPEAR IN THIS CITY TONIGHT

Lovers of good music will be given an opportunity tonight to hear the famous Elities Band under the direction of Finley of Grand Forks, N. D.

The band is composed of fourteen pieces and they have the reputation of being one of the good bands touring this section of the state. They carry a little band and orchestra consisting of harp pipes, vocal selections, etc. Their main attraction is in the performance of "Wee Willie Muir," who holds the championship of Canada as the champion juvenile dancer.

The company will give a concert in the auditorium and following the concert will furnish music for a dance at the same place. It is expected they will draw a good crowd as they bear an exceptionally good reputation in this section of the state and have made an instant hit wherever they have appeared.

All members of the band have been chosen with particular care and as a result the band is composed entirely of artists and men who can deliver the goods in any and every form. With such an organization it is certain that the band will more than make good and that those attending the concert will receive full value for their money and hear some excellent music.

**Circus Coming**

The kids of the city are on tiptoes waiting for the first circus of the season that is to visit this city on Monday, August 9th. The show that is booked for that date is playing under the name of Rice Brothers trained animal exhibition and the company give every assurance that they have "some" show and that everyone attending will receive full value for their money and will agree with them that they have a good, clean attraction that is hard to equal. The company have secured the ground just west of the Thief River Iron Works and while this is a bit farther out than they would like, they were compelled to take this location for the fact that there was nothing larger, closer in the business district. The show carries everything in the way of trained animals and clowns, trapeze performers and acrobats and the kids of the city are assured of a rare treat on the day the company makes this city.

## Judges Named to Decide Winners in The Tribune's Automobile Campaign

The following representative business men of this city have been selected to make the final count of votes that will decide the winners of the Tribune's $3,600 Automobile Campaign. A fair and impartial count is assured all candidates. The final count of votes will start promptly at 8 o'clock next Saturday night and the winners announced and prizes awarded as soon as the judges have completed the count. The judges are:

Mr. Chas. Vorachek, Citizens State Bank
Mr. Willis Akre, First National Bank
Mr. Scott Laird, Laird's Specialty Shop

## BOOSTERS LEAVE THIS MORNING FOR WARROAD

### FIFTY PEOPLE MAKE UP TOUR THAT IS OUT TO BOOST FAIR AND GET ACQUAINTED

The sociability run from this city to Warroad left an hour behind schedule this morning and despite the heavy rain of last night there were eleven cars loaded to the roof all ready for the tour and anxious to be on their way.

It was questionable last evening whether or not the party would be able to make the tour owing to the heavy rainfall, but optimism prevailed when the sun came out in full force and the day dawned bright and clear. The boosters were out bright and early and ready to make the trip. The tour started an hour behind schedule but they hope to make a little time up between towns and arrive somewhere near on time at the end of the run.

Eleven cars made the trip and there were fifty people in the party, including members of the band. The band will give a concert at each stop and the party are sure to have a delightful trip and a good time. The schedule, going and coming, is as follows:

Thief River Falls, Rosewood, Viking, Newfolden, Strandquist, Karlstad. Lunch at Karlstad. Greenbush Badger, Roseau, Salol, Warrond.

Return Wednesday. Warrond, Roseau. Lunch at Roseau. Strathcona, Middle River. Holt, Thief River Falls.

**Sweet Clover Gaining**

Woodward, Iowa,
July, 22, 1920

Tribune,
Thief River Falls, Minn.
Dear Sirs:

Have read with interest items in your paper all through the season bearing on sweet clover and other clovers. We tried seeding sweet clover with oats last spring, and apparently it has been a failure. I am writing to inquire how to proceed to get a fall seeding established? If we could, would like to get clover stand established this fall, so we could get a crop off it next year.

Yours truly,
D. W. Wheelwright.

The above letter from Iowa is very gratifying to us. It shows the Tribune propaganda for better cultivation and soil innoculation is being noticed by practical men. We are in hopes to see Pennington county the largest sweet clover producing county in the United States. It can be done. If we can give our county that reputation we can increase the value of all land and all material wealth in the county 100% or more. The Tribune has a comprehensive sweet clover plan for the future. Next year we will begin to enlarge upon our real activity in this line. The results in the county so far are very gratifying.

**Epworth League Social**

The Epworth league of the M. E. church will have a hard time party at the V. C. Noger farm this evening. Conveyances will be at the church for all who wish to go out. A jolly good time is assured all. Each one is asked to bring a tin cup.

## PAVING LOOKS LIKE A SURE GO AT THIS TIME

### HOWEVER OBJECTORS SAY THAT THEY WILL DO THEIR BEST TO STOP IT

The paving situation in this city remains about the same. Those in favor of paving saying that the actual work on paving will start soon and those opposed to paving stating that the city will not be allowed to pave. Just what the outcome is to be will be determined in the course of a few days, and as soon as the contractor arrives on the job the final showdown in the entire matter will be under way and this city will either have paving mighty soon or it will not.

City officials state that they are waiting for the appearance of the contractor and that as soon as he arrives and furnishes his bond the matter of paving will be under way. The contractor with his equipment is expected to arrive any day and when he does arrive it will then be the grand opening that anti-pavers have been waiting for and if they have anything up their sleeve to spring it is expected the hair will start flying as soon as the workmen start on the streets.

The same question exists as to whether or not the trust companies will carry out their end of the contract in furnishing the money for this work, but city officials believe that as soon as they see the city is determined to pave and has actually started upon the work, that the bonding companies will come thru with the money and that the entire matter will be straightened out in short order.

There are those who maintain that the bonding company will not act in the matter as long as the affair is hanging fire in the courts, basing their presumption that this will afford the trust companies an easy way to get out of filling their end of the contract and with the scarcity and high price of money, they believe that the trust companies are looking for an opportunity to get loose from their end of the contract. There are others who maintain that as soon as the trust companies see that the city is determined to pave and that the work is under way that they will live up to their end of the agreement as they are too big a concern to fall down on this contract and injure their standing the state over. Which smacks of good logic and may prove to be right. In any event the boosters for paving are going to give the objectors an opportunity to use everything they have in the way of opposing the program of the city and the objectors are equally as determined to use everything they can to block the program, which portends to a lively scrap and the ultimate defeat of one side or the other.

The matter as it actually stands today is just about as it was. The objectors maintaining the city cannot pave and that they will take steps to prevent it from paving and the city claiming that it can pave and that it is going to pave if it is possible to do so and nothing interferes with their program. A few days at the most should decide this issue and the public again be given the assurance that all is well and peace shall reign once more between neighbors and friends.

The Tribune takes the stand that the city needs paving and needs it badly and would like mightily to see the city pave. We are heartily in favor of the paving program of the city and will gladly welcome the day when the first block of paving is laid on the streets of Thief River Falls.

**Mr. and Mrs. Bottelson Entertain**

Mr. and Mrs. A. Bottelson pleasantly entertained a number of their friends last Saturday evening at dinner. Those having the pleasure of the affair were: Mr. and Mrs. A. G. Gabrielson, Mr. and Mrs. T. P. Anderson, Mrs. Jung, Mrs. H. E. Botteloon and Miss Eva Orrock.

**Raises Large Spuds**

Phil Amon, of this city, so far holds the record for the growth of large potatoes. Last week he unearthed one potato which tipped the beams at one pound even weight. This is what is commonly termed "some potato" and so far there have been none to come forward with a larger specimen of the tuber family. Mr. Amon states that in his opinion the potato yield this year is sure to be above the average and he looks for a mighty fine yield and much lower prices in the potato market. Most of us can stand a decline in the potato market without any serious inconvenience, especially as long as they continue to sell at ten and twelve cents per pound.

**Seven O'clock Dinner**

Miss Mary Prichard informally entertained at a three course dinner Friday evening. Covers were laid for six.

**Working Up a Reputation**

Municipal Judge C. W. Tarrent is working up quite a reputation as a "marrying justice" and his neighbors do not at all object to see him hiking down town at any and all hours to perform the ceremony that binds two as one. He has a record hard to equal in this line and his ability to tie them so tight they cannot even think of getting loose has gained such a standing with those matrimonially inclined that they come for miles to have the knot done up to perfection and the non-skid clause attached with all the majesty and pomp that the Judge knows and loves best. His reputation has long ago extended to other states and it is a common thing for tourists to stop over in this city and enquire for his services. Such is the reward for being efficient and on the job.

## *Win from Grygla*

### LOCAL TEAM EASILY DEFEATS GRYGLA TEAM IN GAME SUNDAY

The ball game Sunday between this city and Grygla proved to be another winner for the locals with the final score of two and three in favor of Thief River Falls. The local team played mighty good ball and could have played a lot better had it been necessary. Grygla did all in her power to come up to the scratch but were outclassed from the start and had not a chance thru the entire game.

The ball playing of the local team is mighty fine and they are picking them off as fast as they come up and with an ease that would do a team of professionals great credit. The local team composed entirely of home men, is fast becoming one of the strong teams of this section and from their record during the season it can be seen that they have mighty good material and could easily develop into one of the fastest amateur teams in northern Minnesota if they decided to go into ball playing exclusively and put the required time in at practice.

The series of games to be played at the fair next week are sure to be a big drawing card and it is believed that the locals will without question come off the winners. Those who have seen them in action during the season to date that there is no cause for as to the outcome during the tournament and everything points to an easy victory for the locals.

**Pentecostal Mission**

Service will be held as follows in the Pentecostal Mission on Third street under Lambert's drug store: In English Sunday evening and Friday evening at 8 p. m. In Scandinavian Sunday at 3 p. m. and Tuesday's at 8 p. m. Evangelist O. Olsea will preach. All welcome.

Candidate Cox defeated four cabinet officials, several democratic senators, hundreds of federal office and the secret hat none the less Harding is President of the White Yet President Wilson pleased.

George Hayne is visiting at t F. Haynes, e returns to F trip to the Mr. and Monday a sojurn at

## FAIR PROSPECTS LOOM UP BIG IN ATTRACTIONS

### HORSE RACING ADDED TO PROGRAM—AUTO RACES CANCELLED SATURDAY

The Pennington County Fair will open in all its glory and pomp just one week from today and as the date approaches indications for a bigger and better fair than ever before become more bright and assured. The fair board have secured everything that is considered necessary for a good fair this year and with the exhibits of the local people, it is hoped the fair this year will attract the largest attendance in the history of the society. Amusements for old and young have been secured and this is considered mighty important by the fair board, in fact it is considered so important that they have expended twice the money of past years in order to bring the standard up to, what it should be and what the people of this section have been led to expect.

It was thought last week that automobile races were to be secured for the last day of the fair but thru some misunderstanding, this feature has been cancelled and it is not to be given at the fair as announced. The management have secured horse racing instead and some very good races are expected to be pulled off for the approval of the public and it is hoped that the races will bear out the reputation given them and prove to be as good as hoped for. The full details of this feature will be given out in due time, and a complete program of the racing events furnished. The fair management have not fully determined as to what days this attraction is to appear, but will know in the course of a few days.

The ladies of the county are working hard and diligently for the biggest exhibit in the history of the society and they have given assurance of the largest and most interesting exhibit that has so far been given at the local fair. In view of the fact that the auditorium is to be used this year for the display of these exhibits, and that the articles left on exhibit will receive better care than in former years and will be guarded against rain and dust, the ladies of the county feel safe in asking for their exhibits and as a result something better than the ordinary is assured.

The ladies of the city arranged for the erection of booths in the park, to-day for the days of the fair and have also written their wholesale houses to have displays on hand for the job for the days of the fair demonstrating the various lines handled and in this way helping boost the interest in this department besides giving the local merchants a lift in the way of partial payment for goods before delivery.

People from all sections of the county and adjoining counties have expressed themselves as looking forward to a mighty good fair and the attendance is sure to be good as a result.

# Local News

Misses Dorothy Bottleson, Florence Aalberg and Mr. H. Lindberg returned to this city Tuesday from Detroit where they had been spending a few days at the Crookhite cottage.

Miss Anna Tanem, who is a member of the graduating class of '16, is spending a three weeks vacation at her home in this city. Miss Tanem is a member of the nursing corps at the Northwestern Hospital in Minneapolis.

L. L. Nans, of Lancaster, was a business visitor in this city Tuesday.

Mrs. H. E. Bottelson, of International Falls, arrived Tuesday to spend two weeks visiting at the A. Bottelson home.

Mrs. J. E. Bloomquist and Miss Anna Aspelund, of this city, left for Minneapolis Tuesday evening, where they will visit friends for an indefinite period.

Miss Ruby Halvorson, of Minneapolis, arrived in this city Tuesday evening, where she will visit for an indefinite period with friends and relatives.

Miss Edith Langseth, of Warren, was in this city Tuesday visiting with friends.

Milton Lund returned from Minneapolis Tuesday evening where he had visited with friends over Sunday.

Misses Avis Akre, Lucile Burns, and Ruth Brown of this city, and Miss Olive Boores, of Stillwater, will leave Friday morning for Detroit, where they will enjoy a ten days outing at Shoreham.

Mr. and Mrs. C. A. Aarneson and children left Wednesday afternoon for Portland, Oregon, where they will make their future home.

Mrs. L. LaCourse returned to her home in St. Paul Wednesday, after spending a short time visiting with friends and relatives here.

Mrs. O. Sherva, of St. Hilaire, returned to her home at that place, after visiting for the past week at the M. Johnson home.

Mr. and Mrs. L. G. Sands and family left for Redfied, S. D., Wednesday afternoon where they will make their future home.

Miss Helen Strand left Wednesday afternoon for Union Lake where she will be the guest of Miss Agnes Holten for one week.

Mrs. Oscar Hagund, of Cannon Falls, is visiting at the home of her brother, Dr. A. W. Swedenburg.

Mrs. Leonard Peterson, who has been visiting in Crookston returned to this city Wednesday morning.

Mrs. Homer Muzzey, who has spent the past week visiting with her mother, Mrs. W. Zaiser, of Red Lake Falls.

Misses Lottie Austin, and Margaret and Josephine Richhammer, of this city, were among those who attended the fair in Grand Forks Tuesday. Miss Austin returned on the excursion train but the Misses Richhammer will remain there for a week and visit with friends and relatives.

Mrs. Quirk, of Hazel, was in this city on Wednesday attending to business and consulting physicians.

Mr. and Mrs. E. Evenson and Mr. and Mrs. Perkins left via auto for Minneapolis and various points in Wisconsin. They will be gone about three weeks.

Mrs. E. Sandstrom and sons motored to Baudette where they will spend a week or ten days visiting with friends and relatives.

Miss Alice Wilson, who is a member of the nursing corps in the Abbot hospital in Minneapolis, is spending her vacation at the home of her parents, Mr. and Mrs. C. M. Wilson.

J. W. Deslaurt and children, of Hazel, were visitors in this city on Wednesday.

Miss Elodie Paulson returned Wednesday from Warren where she has been receiving medical treatment.

J. P. Perdhamilton, of Goodridge, was a business visitor in this city on Wednesday.

Mrs. H. Gerr, of Roseau, who has been visiting with friends and relatives in Park River, N. D., arrived in this city Wednesday evening for a few days visit at the Axel Risberg home.

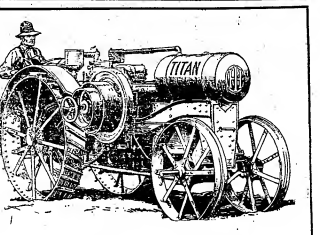
## "LUNATIC" CHINKS

The Eight Lunatic Chinks, a New York Hippodrome act, will be a big vaudeville feature of the Minnesota State Fair, Twin Cities, Sept. 4 to 11.

## NEW LARGE-YIELDING RYES FOR MINNESOTA

About 20,000 bushels of certified Rosen rye and 10,000 bushels of certified Minnesota No. 2 rye will be available for the farmers of Minnesota this fall. These two varieties have proved far superior to ordinary winter ryes. The Rosen rye is especially adapted to southern Minnesota and to localities where winter conditions are not extreme. Minnesota No. 2 is especially useful where winters are severe.

The Minnesota Crop Improvement association will soon have a seed list ready giving the names of growers from whom seed can be obtained. Farmers interested should address T. E. Odland, secretary, Minnesota Crop Improvement association, University Farm, St. Paul.



## 1,000 BOYS AND GIRLS IN STATE PIG CONTESTS

More than 1,000 Minnesota boys and girls are sole owners either of a single pig or a sow and litter and are preparing to exhibit their stock in the state pig contests this year, according to a report made by L. H. Fudge, University Farm, in charge of pig club work in this state. More than 500 purebred pigs are being raised by club members in the single pig project, and 476 purebred sows have been placed in the hands of boys and girls.

## Wait!--- Don't Operate!

**Take Sto-lı-gal, a doctor's prescription for dissolving gall stones, and complicated stomach ailments.**

One box gives instant relief in all cases of GALL STONES, liver and stomach trouble, such as indigestion, dyspepsia, chronic appendicitis, gas, sour stomach, ulcers, catarrh, pains in stomach and back, constipation, etc. Don't wait but get a box of **Sto-li-gal** from your druggist today. Price $1. Attention! No fake testimonials, but positive facts. **Sto-li-gal** has helped thousands of people and it will positively give you relief in all ailments mentioned regardless of your age or duration of trouble. Write for free literature to Dept. F. Digestive Chemical Company, St. Paul, Minn. Sold in Thief River Falls, by Dr. H. B. Newell, Lambert's Pharmacy, also leading druggists everywhere.

## The TITAN 10-20 Tractor

For steady power to run your small grain separator---and reliable power at all times.

We will have another shipment of these tractors in a few days. Also several carloads of new Racine small separators. The most of these are sold however and if you are ready to figure on a good dependable outfit give us a chance to prove to you the qualities and advantages in these machines---NOW!

# Don't Miss This Treat

# WHY DOES VILLA STILL LIVE ON?

## OUTLAW WORST BEAST OF ANY PERSON KNOWN TO THE ENTIRE WORLD

(By Sidney M. Sutherland)

General Joaquin Amaro's Headquarters, Concho, Chihuahua, June, 24.—This, then is the foreign layman's fragmentary indictment of Francisco Villa, super-bandit and murderer of parts. It sets forth adequately and with scant use of adjectives a series of crimes I would decline to attribute to any human being if incontrovertible proof had not been furnished me since my arrival from the north.

Also this fairly arrangement relates only a few of the major atrocities which for seven years have hypnotized with horror the northern half of a nation bordering the United States and its civilization. It does not molest the reader with retail assassinations and petty misdeeds.

### Just a Few Pages

Here are two or three choice selections from St. Peter's shorters:

Temochi, northwest of Minaca, in the western part of this state, is—was—a village of some 300 humbly contented farming folk. In a neighboring hamlet a youth from Temochi stabbed and killed one of Villa's band in a quarrel over a horse. Villa vowed that Temochi should become a memory only.

Entering the town at dawn, Villa had the hundred male citizens handcuffed with ropes to the bars of the windows facing the only street. More than 130 women were then paraded before the avenger. He chose three young girls, sent them into a house and with a wave of his hand turned the others over to his 600 eager eyed and wet lipped followers.

### Panorama of Rapine

When he emergeli from the house at noon he lunched loud and long at the panorama of rapine and horror the street presented. The men tied to the windows could only shut their eyes. Angered by their mute reception of the spectacle, Villa took his bowie knife and cut off the eyelids of every one of the men. Many of their eyes he gouged out and left hanging on their cheeks.

The stricken women were then picked up from the streets where they lay, dragged to the sidewalk opposite the fly cluttered eyesockets of their relatives, ad then and there chopped slowly to pieces with machetes The men were then shot and left suspended from th ewindows. Of the seventy or so children that remained of the population, Villa had the boys mutilated and the girls—"We will be back some other day," the rebel chief said. He then reentered the house himself and shot the three girls, and with the bandits rode gaily away into the mountains. Neighboring towns, adopted the children, after burying the dead, and returned to their praying for deliverance from the mouster.

### The Horror at San Andres

Returning from Juarez in June last year, Villa swooped down on the town of San Andres, half way between Chihuahua and Hearzon. It seems that the poor city fathers there had adopted resolutions condemning a raid perpetrated by the outlaw on a neighboring town. Despite the protests of General Felipe Angeles, Villa banged nearly 200 men to telegraph poles. There were thirty-three poles to the mile. He hung two to each pole on either side of the track for nearly a mile and a half. As they swung there strangling Villa slashed their naked bodies in unspeakable fashion.

Of 200 women, ranging in age from 10 to 50, which the town contained, he gave his four hundred men, one for every pair of bandits.

### Surrender Their Women

The minotaur demanded one maiden as a sacrifice every year. Pancho Villa has so terrified the little towns and aneches of Chihuahua that he merely sends word ahead that he is coming and will be in a certain town on a certain day and the tender feminine sacrifice is prepared. Thus in Punta del Agua, a tiny village in the heart of the Palomas mountain range, southwest of Ojinaga, so callousad have the poor farmers become to these demands that on the occasion in question the men went out to meet Villa, carrying food, water, mel. one and grapes.

Villa' appetite satisfied, these men waited patiently by the roadside while the outlaw and his followers entered tho town now occupied only by the women. Hours later one of the men went into the village and hat in hand asked permission of the satiated brigands to return to their despoiled homes.

Such submission often wins Villa's indulgence and in this case he contented himself with assassinating the mayor and his secretary by dragging them up and down the street from the horn of his saddle.

### Villa's Sardonic Humor

At Santa Donalia de Camargo, an important mining and railroad town surrounded by an exceedingly rich farming community, Villa's ghastly humor took a sardonic twist. Summoning every family with un-baptized children to the plaza, he harranfigued the thousand or so citizens for an hour, recounting his valorous deeds and wound up by declaring he wanted to become the godfather of every unbaptized infant present. There were about eighty such children.

Villa sent for the priest, forced him to baptize the babies and name each one Pancho Villa, and then stood up to receive the kisses of the terrorized mothers, permitting the fathers to kiss his hand.

He then ordered his soldiers to slice fifty of the younger women in the plaza and shot the priest—to prevent his invalidating the spiritual legality of the baptismal ceremony, as heexplained to those standing near. The next morning he compelled the brothers and fathers of the women to take them home and return to become members of his forces. That afternoon nearly a hundred mothers and sisters of the drafted citizens went to the barracks to ask their release. Villa ordered several volleys fired into the huddled throng and then had his cavalry charge those still standing. These were cut down with machetes.

Pause and ponder, and then multiply by ten all the brutalities you ever knew of, and you can not reach the sum of his beastialities—multiply by a million the infinite variety of his mantalcal outbursts—do this and you will just begin to approach within hailing distance of the record of Francisco Villa.

## THIEF LAKE BED PRODUCING BUMPER CROPS

### HUNDREDS OF ACRES OF FINEST LOOKING GRAIN TO BE SEEN IN COUNTY

The writer in company with some friends made a trip out to the south side of the Thief Lake bed Tuesday evening looking over the lake bed crops of John Henning, Milton Forde, and others. The growing crops were certainly an eye opener. John Henning and Milton Forder are the two heaviest farmers on the south side of the lake. Mr. Henning put in 500 acres and Mr. Forder a little over 400. Mr. Henning lost about 200 acres of his farm from the overflow caused by the big rain June 8. Mr. Forder only sustained a loss of about twenty acres. We passed thru Mr. Forder's fields from one end to the other and he certainly has the finest prospect for a big yield we ever saw. His spring rye nearly ready to cut stands five feet or more high and as thick as it can grow with well filled out heads. And the wheat is just about as tall, thick and well filled out. Wheat heads came clear above our Maxwell car box, and stands so thick on the ground that one can see no further into it than he could into a brick wall. He also has a large field of flax that is a wonder. Sown on the 28th of May, the flax is two and a half feet high and well advanced toward maturity. He has oats that from all indications should turn out 100 bushels per acre, being as thick as it can stand with tall straw and large heads. A large part of his oats was lodged by the storm a week ago last Sunday but it partly raised again and he hopes to be able to cut and save all the crop. The productiveness of the lake bed soil is further demonstrated by Mr. Forder's garden which shows a growth far in excess of anything we have seen elsewhere. He sowed a small plot of alfalfa as an experiment on May 12th, and it is now 12 inches high and growing rapidly. Timothy sown the same day is even taller and headed out. The rich black sediment soil of the lake bed will never wear out as it is ten feet or more in depth. It stands drouth or excessive rains equally well. The lake bed proper together with the Moose River bottom comprising about 25,00 acres, will, under an efficient drainage system and thorough development prove to be a veritable "Valley of the Nile" one of the richest valleys in the state and in fact and in truth a garden spot of the world.—Middle River Pioneer.

### NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the County Auditor of Pennington County, Minnesota, until 2 o'clock P. M, Aug. 3rd, 1920, for the construction of Jobs number 20:05, 20:06 and 20:07 consisting of the following:

**Job No. 20:04**

located on State road No. 4 near the SE corner of Section 36 Town of Sanders, involving the construction of

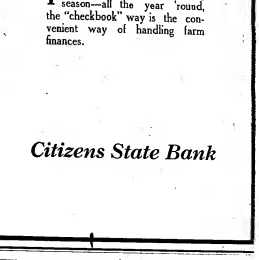
### THIEF RIVER FALLS PLEASED BY QUICK RESULTS

Everyone is pleased with the quick results of simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. One man's eyes were so badly strained he could not read without pain. Two applications relieved him. A lady with weak, inflamed eyes was greatly helped by ONE bottle. We guarantee a small bottle of Lavoptik to help ANY CASE of weak, strained or inflamed eyes. F. J. Stebbins, druggist.

*Farmers' Checking Accounts*

A CHECKING account is a business necessity to every farmer. It provides a complete record of income from crops, livestock and other sources. Every check drawn against these funds is a legal receipt.



IN harvest, feeding, planting season—all the year 'round, the "checkbook" way is the convenient way of handling farm finances.

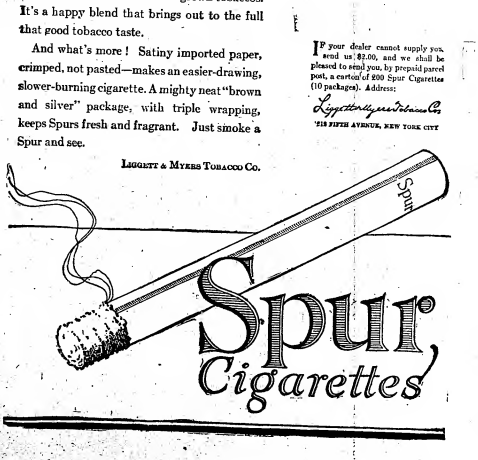
*Citizens State Bank*

*There's always room at the top*

*For Highest Possible Quality at Lowest Possible Price*

AFTER smoking your first Spur, you might say "just right," "immense" or "great"—means the same thing. Means: "There was room at the top for a cigarette that can refresh a tired and much tried taste. And Spur's that cigarette."

In the new Spur blend you find:



The richness of the full-bodied Oriental leaf tempered by the mildness and fragrance of Burley and other choice home-grown tobaccos. It's a happy blend that brings out to the full that good tobacco taste.

And what's more! Satiny imported paper, crimped, not pasted—makes an easier-drawing, slower-burning cigarette. A mighty neat "brown and silver" package, with triple wrapping, keeps Spurs fresh and fragrant. Just smoke a Spur and see.

LIGGETT & MYERS TOBACCO CO.

IF your dealer cannot supply you, send us $2.00, and we shall be pleased to send you, by prepaid parcel post, a carton of 200 Spur Cigarettes (10 packages). Address:

## WOMEN IN THE CONVENTION

In this, the dawn of a new political era, we find the old battle scarred politicians rubbing a new and strange mist from his here-to-fore keen political eyes. For the first time in his political life he is in political darkness. He finds hesitancy in his political steps. His political path is not clearly defiend. He has met with some laws and regulations, that for years he applied only to his home life, injected into his political life. He is now forced to match his keen political wit against those of his wife and his mother-in-law, Mary Jane and even Bridget. Not in the privacy of his home, but from the smallest caucus in a little committee room to the floor of a great political convention.

The first women delegates to a national convention appeared at Chicago. The women were so small a minority there that their influence was chiefly felt in their support of candidates, several women making effective speeches from the platform. At San Francisco there were 100 delegates, 32 of them being delegates at large—that is, members of the big four of their respective states with enough alternates to bring up the roll of women officially connected with the convention to 250.

As to the matter of candidates, the women were divided much the same as were the men, but in their headquarters they were as a hive of Italian bees. Their interest centered largely in the construction of planks which were submitted to the platform committee. It appeared that every woman delegate had one or more planks all her own. Most of these planks contained ideas which would never get their heads above water in a convention of men only. Here are a few of the topics which the women delegates had up for discussion in their plank-building at the San Francisco convention:

Maternity and infant welfare legislation; better support of the national children's bureau; making permaneat the emergency women's bureau of the department of labor; making a federal department of education with a seat in the cabinet for its head and better pay for teachers; decent housing conditions for workers; an eight-hour day and equal pay for women with men in industry; the abolition of child labor and the regulation of working conditions for adolescents. On the question of prohibition the women were divided Miss Markbury and the New York delegates insisted on a "moist" plank.

## WOOL GROWERS ASSOCIATION FORMED IN NEW MEXICO

Albuquerque, N. M.—The Wool Growers' Co-operative Association of New Mexico has been formed for the purpose of eliminating middlemen and increasing the returns to the sheep men. It is the intention this year to concentrate in a warehouse in Chicago, for grading and selling to spinners, as much of the wool clip as is pledged to the association. When the association is considered as permanently established and is sufficiently strong financially, arrangements will be made for one or more bonded warehouses in this state where the wool will be graded and sold. Sheep men say at present wool passes thru the hands of from two to five persons after the grower sells it until it reaches the man who makes it into cloth. New Mexico's wool clip this year will, it is estimated amount to 18,000,000 pounds. Growers have already pledged 3,000,000 pounds to the association.

When the farmers take action like the above plan they are getting somewhere. Eliminate the brokers, middle man and market parasites. Get down to common sense, economic principles and our troubles will be over. Producers, manufacturers and consumer are necessary factors. The army of brokers and middle men are an added burden to all with nothing but damage to come from their efforts. They do not try to reduce the cost of manufacturers profits the higher they are the more they justify their own position.

## PROHIBITION'S TEST

Prohibition has had certain unquestioned results, says a report recently made to the Federal Council of Churches, after a careful investigation conducted in seven large cities in the east and middle west. Perhaps the first and most noticeable one is the disappearance off the habitual drunkard. Statistics gathered from jails and from alcholic wards in hospitals, and the fact that many "cures" and farms for inebriates have been closed or converted to other uses, both serve to show that the drunkard is practically gone.

He has probably gone to work, although there is a possibility in some communities that he is begging as he frequently did before the days of prohibition. In either case the money he earns or acquires from generous persons seems to be spent on food clothing and other necessaries—with an occasional luxury—instead of buying the drink.

The report further state that high medical authorities have expressed their belief that the use of drugs has not increased greatly, as was predicted by some persons who were fearful of prohibition. Laborers, too, have not carried out their alleged threat of "No beer, no work." The real worry there, it appears, was not the approaching withdrawal of intoxicating drink, but fear that they would be out of work when breweries and distilleries closed. That fear has proven groundless. Most of the big breweries have been kept right at work on other products, and the employes have found work easy to secure in instances where the plants were closed. Even our unnaturalized citizens have shown far less inclination to emigrate back to their native lands where alcholic beverages are plentiful than was expected of them.

It is believed that general community and family welfare and happiness have improved greatly under the new regime. That element, however, has been so complicated by high wages and continuous employment that it is difficult to say which is cause and which is effect.

Retail stores and banks both seem to have found that their business has been greatly increased and benefited by the dry era.

Whatever its handicaps may have been, prohibition has largely overcome them, and most persons who were dubious a few years ago are convinced today that it is a good thing.

## THE PRICE OF SUGAR

Sir,—You have "raised an issue" several times on whether the price of sugar had any relation to the law of supply and demand, if that law is still operative in these United States. I enclose you a clipping from the Honolulu Star-Bulletin of June 15 which may throw some light on the situation.

The figures stagger one. A clerk on a plantation drawing a salary of $200 a month (house, fuel and light free) will receive for his services a little over $1,200 a month due to the high price of sugar and the bonuses paid thereon, and the compensation of a number of the plantation managers will be $100,000 or more, assuming the price of sugar stays up. A coolie working in the fields will receive more for his labor than the average bank clerk.

Of course, this abnormal situation is not satisfactory to the plantations. It is unwholesome and means trouble for them in the end, as they very well know, and nothing would please them more than to have sugar drop to 10 cents, perhaps even 5 cents. Tremendous profits may be made by them at 5 cents. To my mind the present price of sugar has nothing whatever to do with the law of supply and demand. Gambling in "raws" accounts for it If the Cuban crop had been bought, the speculators would have been forestalled, and the sugar for our table would have cost us 14 cents instead of 30.

In the meantime the plantation workers are getting rich, much to the disgust of the planters. Odd thing that the two who are most concerned about the price of sugar—the producer and the consumer—are given absolutely no say on the subject.

Honolulu, Hawaii. J. A. C.
—Harvey's.

## DESERTING THE FARMS

There probably are enough houses in the United States to make homes for everybody in it, but the people don't stay where the houses are, hence a shortage that has become virtually a national problem. The Republican platform devotes a plank to the subject, but the plank concerns itself with housing as it effects the cities rather than the country. It emphasizes the desirability of a home-owning citizenship and the importance of having homes that are adequately fit for human habitation.

If there were not a much greater flocking to the cities from the farm than there ought to be, there would be no such acute housing problem as is now experienced in most of the populous centers. Furthermore, food prices, in all probability, would not be so high because there would be a greater supply of every-day things to eat.

The division of agriculture of Michigan recently issued a bulletin that reflects more or less accurately a condition that obtains in many or the states. This bulletin declares that three times as many men have left Michigan farms in the last three years as died or were killed in the Civil war. There are enough vacant farm houses in Michigan to take care of the population of a city like Grand Rapids. Enough of these habitations have been deserted within a year to accomodate comfortably the people of Jackson.

Nearly 9 per cent, or 1,668,000 acres, of Michigan's farms are wholly idle this year. There are only 230,000 men and boys over 15 on the farms, meaning that the average working for each is 82.5 acres.

This year 18,235 farms are idle compared with 11,831 a year ago. In some instances one-third to one-half of the people have moved out of school districts. In other communities there has been very little farm desertion. Here and there the younger farmers have left in an epidemic. The number of houses vacant on farms is approximately 30,000 of which one-third were abandoned within the last year.

Why this movement? It can only be that city life is more alluring than farm life. Demand for industrial labor, high wages, urban excitement—these have contributed most to making the cities disproportionately populous. In some degree the condition is temporary, but the situation nevertheless is serious and there is no telling when it will be relieved.—Minneapolis Tribune.

The German crown prince would like to come to America if he can pass the immigration tests; if not, he will go to Spain. Things have changed when the understudy of what was lately the "all highest" is almost an outcast, welcome nowhere. "A man's a man for 'a that, for a' that," wasn't written of the Hohenzollern breed.—Tribune.

Perhaps he might find shelter with some of his friends here who announced publicly during the war they "would not stand up as a target to be shot at for any d—d country."

Senator Cummins who was a guest at the Harding home, discussed the railroad situation thoroughly with the nominee. As joint author of the Cummins-Esch bill, under which the carriers have been turned back to their owners, the Iowa senator is in a position to give the candidate valuable advice on the problem of transportation.

"I have been closely connected with Senator Harding officially and socially," said Senator Cummins. "I probably have had as good an opportunity to know his general view of things as any other man. I think that he grasps the real problems that we have to deal with as well, if not more comprehensively, than any other man of my acquaintance. His outlook is all forward and not backward. With respect to all the questions that will interest us in the next decade or two decades, he is as progressive as any man in the country, bar none."

Senator Cummins said he had discussed the railroad and transportation problems with Senator Harding in his recent visit, and had also discussed them many times before. Expressing his views on the railroad bill and the country's transportation problems Senator Cummins said that every day that passed was furnishing a further indication of the need of the new railroad law.—Republican.

W. J. Bryan has been nominated by the prohibition party for president subject to his acceptance. Mr. Bryan is "somewhere in the Red River Valley in Minnesota" and cannot be found. We trust he means no offense.

*Don't Wait for the Custom Thresher—*

**Do Your Own Work With an**

**E-B GEISER**

**An E-B Geiser Thresher for Your Individual Work is the Best Buy, because--**

The E-B Geiser is not an experiment. It is a proven success with many years of satisfactory service at home and abroad to its credit.

It is a small, compact machine with a big capacity. There is no waste space—it's all thresher and will do a clean job of threshing.

It cleans the grain without sieves. The cleaning is done by combs and grooved rollers, and is mechanically perfect.

It runs light—it hauls light—it is light. It has few parts and no unnecessary material to add weight. It is efficiently designed and built by skilled workmen.

The E-B Geiser is not a Junior, but a real threshing machine capable of doing, at your convenience, as efficient work as any big thresher.

# GET YOUR VOTES NOW

## ----Last Week of Campaign Opens With Hot Struggle for Winning Votes

THE TRIBUNE'S great $3,600 automobile campaign closes Saturday night, July 31st, at eight o'clock. With the close of the campaign, the long drive for subscriptions and votes upon the part of the many workers, intent on winning one of the wonderful prizes offered, will cease. And, with the cessation of work, will begin the count of votes which will decide whether or not contestants shall come out victorious, from the hard-fought race. Will you be one of the twelve winners? Very probably, if you have done worthwhile work, you will. But are you satisfied with a $25.00 cash prize for your long term of work? You can still place yourself right in the lead, you can win the Buick "Six" by doing your campaign's best work from now to the end.

Make every moment count. Go to those who promised you assistance and get it. Call on those who put you off with one excuse or another, and get their subscriptions. Go to those who have not yet helped you and see that they do. In short, wind up your campaign in a whirlwind of energetic struggle and determined fighting which will win for you. Only by so doing can you hope to win. Right Now, you can't feel sure of victory—no matter what the amount of good work you have done. Right now, you aren't certain that you have won, no matter how large a vote reserve you may have. THE RACE IS STILL TO BE WON! Get your votes now—all that you possibly can—and get them in at once.

## Do you want to win? This is the final standing of contestants

### District No. One

| | | | |
|---|---|---|---|
| Harry Lund, city | 600,000 | Mrs. Henry Sundee, RFD, city | 10,000 |
| Mrs. Edwin O. Erickson, city | 608,000 | Julius Liden, RFD, city | 10,000 |
| O. L. Cronstrom, city | 603,000 | Mrs. Thomas Rowan, city | 610,000 |
| Robert Halvorson, city | 467,000 | Luella Peterson, city | 60,000 |
| Leo Miller, city | 10,000 | Mrs. H. F. Boreen, city | 10,000 |

### District No. Two

| | | | |
|---|---|---|---|
| Betty Johnson, Holt | 100,000 | Arthur Olson, Middle River | 10,000 |
| Sylvia Pierson, St. Hilaire | 620,000 | Emma Anderson, Middle River | 10,000 |
| Martha Albin, Plummer | 603,000 | B. O. Norby, Goodridge | 110,000 |
| Mrs. E. Singer, Erie | 600,000 | Mrs. C. E. Lundgren, Viking | 60,000 |
| Gunder Tviet, Golden Valley | 500,000 | | |

The above published standing of workers is the last of the campaign. If it is correct, it will stand as the final record for the judges—unaltered. If contestants' friends find any error or inaccuracy, it is urged that they notify the campaign manager at once. If such notice of error is not received before 6 p. m., Friday evening, no change will be allowed. DO YOU WANT TO WIN? If so—make your standing a winning one. Build upon the foundation of the vote standing a reserve of votes which WILL win! Get you votes now!

## Here are Your Final Instructions—Read Them Carefully

All votes or subscriptions to count in the campaign must be in the hands of the Campaign Manager by eight o'clock on Saturday night, July 31st. No orders may be mailed for credit in the offices of the Automobile Campaign Department after 6 p. m. Friday evening, July 81st. Inasmuch as candidates are requested to be present at the final count, which is to be open to all interested parties, it is suggested that these candidates be sure to bring in their final orders at the same time. This is the final vote count to be published by the management of the Tribune's automobile campaign. From now on a sealed and locked ballot box will be in the office of the manager, in which all orders can be placed. Orders mailed to be accepted for the final count must be sent Special Delivery and directed to the Manager Automobile Campaign Department. The final count will be closed in time to give candidates orders for their prizes, so that the winners of the cars may have them for use on Sunday, August 1. The count will be open at all times and complaints or corrections can be made to the judges, to be passed on by them.

# Votes Will Win----And You Need Lots of Them

# Neighborhood News . . .

## STEINER

Mrs. C. N. Russell, who has been visiting in this city with friends and reatives for the past week, returned to her home in Superior, Wis.

A. Simmonson called at the S. R. Rogers home Sunday.

Misses Ruby and Pearl Warring and Jessie Rogers called at the Slack home Thursday evening.

S. R. Rogers and daughter, Mabel, drove to Thief River Falls the middle of last week.

Harvey Copp did business in Thief River Falls Monday.

Mrs. Werner spent Sunday with the J. Meyer family.

Ruth and Arnie Solem took dinner with the Roger family Sunday.

Mrs. J. Berg gave a party in honor of her two nieces and her nephew, Mr. and Mrs. Enton and Miss Esther Johnson. The evening was spent in playing games and music and at twelve o'clock lunch was served. About fifty young people were present.

Mrs. Katie Meyer and daughter, Esther, did business in Thief River Falls the middle of the week.

Miss Inga Saugen, who has been spending her vacation at her mother's home, returned to Thief River Falls Tuesday to resume her duties as nurse at the Physicians hospital.

Luther league was held at the John Swanson home Friday evening. A very large crowd was present and all report a good time.

Miss Ruth Solem transacted business in Thief River Falls Thursday.

Ruby and Pearl Warring spent Friday evening with the Saugen family.

Louis and William Meyers were business callers in Steiner Thursday evening.

## ROSEWOOD

Twenty six auto loads of people from Grand Forks, comprising the members of the Commercial Club and of the Grand Forks state band paid us a pleasant visit last Friday at noon to advertise the Grand Forks fair and to become acquainted. The tournament arrived here shortly before dinner and stopped for a while in our town, where the band played several selections and representatives of various advertising firms called briefly upon the main business houses in town, leaving large amounts of advertisements both for the fair and for various local business interests of Grand Forks. A representative was in town a few days before announcing their arrival and the time and most of the town people as well as some farmers had turned out to see the affair. The party, who were making a days tour in this section in the interests named above, went from here to Thief River Falls where a stop was made for dinner and where considerable advertising was done.

At the annual school meeting held at Rosebank Saturday evening, Alec Hellquist was elected as clerk for the coming year and Joel E. Shoberg, treasurer. There will be seven months teaching next term and the sum of $1,500 was voted in to defray expenses. Through vote it was decided that the school building shall be open for all business and public meetings of a peaceful nature and in the interests of the people of the district, and annulling last years closing order when the schoolhouse was closed for everything except school purposes.

The Swedish Young Peoples Society held their monthly meeting in the Congregational church in town last Saturday evening with a fair attendance. Rev. Drotts of Viking was in charge. Meetings were also conducted twice on Sunday at that church and a christening service was held at the home of Carl Mellem at five p. m.

Holmer Bloom in company with three friends left Sunday morning for a days outing tour to visit with friends at Warren and Grand Forks.

Mrs. J. Hanson in company with several children from Gryglis are visiting this week with Mr. and Mrs. John Rafteseth.

Oswald Hellerud and Miss Ellen Holm, of Twin Valley, were Sunday visitors at the A. S. Holm home in town.

Axel Larson, who has been employed at Radium this summer, returned home last Saturday.

Miss Mabel Ulland, of Radium, and the Lloyd Crown family from Rocksbury, were Sunday visitors at the John Bloom home.

Miss Tena Newby, who has been employed at Adams for several months, came home for a vacation with her parents last Saturday.

Miss Ida Sorenson returned Saturday from Warren where she has spent a few days visiting.

A number of people in the Busy Bee district gathered at the home of Mr. and Mrs. Julius Alby, newlyweds, last Sunday afternoon to surprise them. A neat sum of money and a bounteous luncheon was brot along to make the event more interesting.

The Enoch Nelson family and Olaf Hall spent Sunday at Strathcona as guests of the Henning Backlund family.

Rye harvesting is commencing on the sand ridges.

Mr. and Mrs. S. Rafteseth spent Sunday visiting with friends at Angus.

Mrs. Axel Kron has been at Thief River Falls the last week to seek medical treatment from Mrs. Kolberg.

Mrs. Carl Bloom, west of town, is reported on the sick list the latter part of the week.

Mr. and Mrs. L. L. Furan and daughter, Violet, went to Goodridge Monday morning to look after business interests during the day.

# DO YOU 'MEMBER

The day Fat and you found the big tramp dog (the one that you made the harness for)? 'Member how he followed you home from the woods where you'd been hidin'? You tried to case him away two or three times and he'd only run back a little way and stand and look at you. And finally you let him come up to you and he was real mad and smelled like he'd been havin' a tussel with a skunk. And Fat said: "Come on, what you say we keep him." 'Member how he jumped all over you after you decided to take him home? Seemed as though he understood all about it. And just soon the time you got near the house Fat says, "Do you 'spose yer mother'll let you keep him?" And just about then you heard Ma's familiar voice: "No, I should say not; don't you dare bring that filthy creature another inch nearer this house!" BLUNK—and all the joy of life flew, and even the dog's ears dropped, and you looked at Fat and Fat looked at you. And then began the plea for the dog. 'Member how you promised Ma that you'd never let him in the house and you'd earn all the money to feed him and about fifty other promises, and after a while she says, "Well, go on, but take him somewhere and give him a bath; that awful smell will be all over your clothes." Oh! boy—'member how you felt then? And the dog begun waggin' his all and you went back of the house and gave him a scrubbin'.

**Order Limiting Time to File Claims and for Hearing Thereon**

State of Minnesota, ss. County of Pennington, in Probate Court.

In the Matter of the Estate of August O. Schneider, Decedent.

Letters of administration this day having been granted to Nick Bundhund

It is Ordered, That the time within which all creditors of the above named decedent may present claims against his estate in this Court, be, and the same hereby is limited to six months from and after the date hereof; and that Saturday, the 29th day of January 1921, at Ten o'clock A. M., in the Probate Court Rooms at the Court House at the City of Thief River Falls, in said County, be, and the same hereby is, fixed and appointed as the time and place for hearing upon and the examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.

Let notice hereof be given by the publication of this order in The Tribune, published at Thief River Falls, Minn., as provided by law.

Dated July 26th, 1920.

Ira C. Richardson,
Judge of Probate.

# RAIL DISMISAL AS ACT OF DISCIPLINE

## PENNSYLVANIA ROAD EMPLOYES FORECAST TROUBLE WHEN 12,000 ARE LAID OFF

Washington, July 20.—The government is watching " with deep interest" the proposed layoff of men by the Pennsylvania railroad and the closing af the American Woolen mills, it was said at the White House today.

It was not indicated if any action was contemplated.

Philadelphia, July 20.—Preparations were being made today by Pennsylvania railroad officials here to dismiss 12,000 men in the Eastern operating division.

In announcing the action, officials of the company said it was taken to "bring about improved efficiency in operating forces and reduce operating expenses." Approximately 10 per cent of the total number employed in the Eastern division will be let out.

The company said the men would be needed in other divisions.

Trouble was forecast by employes, who declared their belief that the roads' action was taken because of the recent outlaw strike. All classes of workmen with the exception of engineers, firemen, conductors, brakemen and switchmen will be affected.—Minneapolis Tribune.

## FARM BUREAUS TO HAVE WOOL AGENT IN CHICAGO

The Minnesota Federation of farm bureaus is planning to secure a representative in Chicago to watch the weighing, grading and handling of wool shipped from this state, says F L. French, secretary of the Federation.. The expense for such service will be pro-rated against the sales for the individual consignors and will be in addition to the three cents per pound charged by the consignee. The expense for the service should cost from 1-6 to ½ a cent per pound, depending upon the amount received and whether the wool is received at one time or in small shipments extending thru several weeks or months.

Six conferences of officers of wool selling associations have recently been held in Minneapolis—at Marshall, Mankato, Rochester, Crookston, Wadena and Duluth. The sentiment in general favored the consignment of the wool of the several associations as the best means of disposing of it this season

## ARMY WORM ATTACK ON CROP IS LIKELY

Because hundreds of the adult moth of the army worm are being caught in traps set by the entomologist at University Farm, A. G. Ruggles, state entomologist at University Farm fears an attack on Minnesota's crops later in the summer. This is the season at which the moths lay their eggs which hatch in about three weeks and the weather is very favorable to the development of the pest, says Mr. Ruggles. County agents and others who discover the moths anywhere in the state should report at once to Mr. Ruggles, University Farm, St. Paul.

The army worm may be controlled with poisoned bran bait made of 50 pounds of bran, two of Paris gree or white arsenic, mixed together dry and then moisened with one-half gallon cheap molasses dissolved in from 8 to 10 quarts of water.

### Experienced

Mrs. Multikids—Well! The children are dressed in less time than ever before. And you said you had no experience with children.

The New Nurse Maid—Yes'm. But for the last two years I was in the show as dresser for a dog and monkey act.

# SELLING 300,000,000 BUSHELS OF SPUDS

## MINNESOTA HAS A PROBLEM IN GREAT EXPORT TUBER CROP DISPOSING OF NATION'S

By Hugh J. Hughes, Director of Markets, Minnesota Department of Agriculture

The potato business of the northwest is of great and ever growing importance. Minnesota is not only one of the leading states in point of production, but also in point of Wisconsin and Michigan being its nearest rivals in both particulars. Our production for several years past has averaged close to thirty million bushels, of which amount not far from twenty million bushes travel by rail to points outside the state. The three states named stand in relation to the potato supply and demand of the United States very much as Kansas and North Dakota do to the wheat supply of the nation.

### Has Grown Unnoticed

The growth of the potato industry has been reasonably slow, and the increase of acreage from year to year has not been sufficiently spectacular to call the attention of the public in general to the growing importance of the industry.

The southern limit of the northern potato belt is, generally speaking a line that runs across the center of southern Michigan, through Wisconsin near the vicinity of Portage, up past the Twin Cities and across the Minnesota border in the vicinity of Moorhead, reaching the Canadian line to the north of Devils Lake. Out of this area the crop moves southward during the greater portion of the year to the great markets of Chicago, Kansas city, St. Louis, Cincinnati, Toledo, Pittsburg, Indianapolis and similar points. From these points, the cars are further distributed to the retail stores in the buying regions as far south as the gulf and as far east as New York.

### Eastern Competition at Chicago

The New England crop largely supplies the great north Atlantic cities, though some of it finds its way as far west as Chicago and St. Louis.

The western crop is relatively small in amount, and supplies a special trade the country over. You will find the western irrigated potato in the Twin Cities and Duluth markets selling at fancy prices to the hotels and those who wish a particular size and appearance for table purposes.

### Early Spuds from South

The Southern potatoes, including those grown along the coast from New Jersey to Texas, come onto the market about the time our northern crop begins to disappear, and fill in the gap of early summer. This stock sells on the northern market at fancy prices, and because of quality, but for the same reason that oranges or any other commodity out of season brings exceptional prices.

### Certified Seed Growing Industry

One important phase of the northern potato industry is the production of seed stock for the southern fields. We supply the growers from eastern Nebraska southward to the gulf with the bulk of their seed. Their climate requires the continual importation of northern grown stock, and the demand is for potatoes that are sound, free from disease, hard, and rather on the green side when dug. The Red River Valley supplies a very large quantity of this seed, and throughout Minnesota and Wisconsin, the growing of certified seed for the southern trade is becoming one of the large industries of the districts.

The last Minnesota legislature provided for a state seed certification service, of which Professor Tolaas, of University Farm, St. Paul, is the secretary. Those interested in the production of commercial seed should get in touch with him and learn the requirements of seed certification, which are too detailed and out of place in this particular review of the potato situation as a whole to be discussed in full.

### Most Potatoes Leave State

The main bulk of the potato crop produced and sold in Minnesota finds itself carried in unbroken carlots to points well south of the Minnesota border. Only a very few of these cars shipments go into consumption in the Twin Cities or Duluth. Local production provides largely far the needs of these points and far practically all the towns in the state, though it is true that there are a comparatively few cars of potatoes shipped into southern Minnesota towns when the crop far any reason is insufficient to meet the local demand.

### Graded Potatoes Preferred

We must consider the requirements of the outside trade as controlling our grading and loading. The market in such centers as Kansas City, which distributes to a large area southward, prefers a good, firm, medium-sized clean potato of one variety. For such potatoes, there is always a good chance of reaching the top market, and when market conditions are dull, potatoes so graded invariably get the preference.

### Use New Sacks

It is possible to sell poor or ungraded stock, but always at a discount, and when the market is crowded, very often at a serious loss. The fact that usually the cars are ultimately broken up into small lots by jobbers or retail customers makes it especially desirable to have the potatoes sacked, and if sacks are used, it pays, especially when prices run as they are now doing, to use new sacks, filled to uniform weights of either 100 or 120 pounds, labeling each sack with the name and home address of the shipper.

The amount that is put into cars depends an the season, and somewhat on the trade requirements. Jabbers and retail buyers in the southern markets like small cars, from 600 to 700 bushels per car, but the car shortage has necessitated heavy loading during the last couple of years.

### Provide Heat in Cold Weather

There is danger af overloading, especially when the weather is hot, or when it is extremely cold and sufficient space is not allowed for proper heating. Cars shipped early in the season can go out with a fair degree of safety without heating, but when freezing weather comes, it is extremely unwise to take the risk of shipping except in refrigerated cars, or else in cars that have been carefully fitted for the purpose. To properly line a car for shipment in reasonably cold weather will cost about $50.00.

### Field Frost Worst Menace

Every season heavy losses are incurred by shipping potatoes in improperly heated cars, but the greatest losses along this line come from what the trade calls "field frost." Where the ground is frozen an inch or two in depth and thaws out, many of the potatoes are nipped by the frost. These potatoes do not immediately show this freezing, but the tissues have been swelled and broken, and after the potatoes are on the car, they begin to swell and to break down. The car may pass the first inspection without showing "field frost," but it will appear before arrival at its final destination. Since the practice of the trade is to buy subject to inspection at the arrival, the man who ships "field frosted" potatoes invariably has one or two things happen to him. He either has the loss on that shipment charged back to him or, for the future, he is put on the list of doubtful shippers, and in the prices paid subsequent deliveries, the southern buyer recovers for the losses on the early shipment. In other words the shipping of "field frosted" potatoes is the worst possible kind of business for the grower. The only way to avoid this is to get the crop out and moving as soon as possible after it is ripe. If one prefers to sell on a later market, he should not allow delay in harvesting.

One year with another, the losses from "field frosted" potatoes are much greater than the costs of the extra handling from the field to the bin and from the bin to the car.

The first essential to the successful marketing af potatoes is like that for any other crop; to furnish a quality that in every respect will stand up with the best that other sections af shippers can give.

Minnesota has wonderful appurtunities in this direction, her soil and climate fit her to retain the position she now holds as the leading potato exparting state of the nation. The profitable inks of farm production, other things involved in the problem —the proper choice of varieties, the selection of seed, the spraying of the crop for the control of disease, digging the potato at the proper time, proper sacking and loading and shipment are all matters for the growers and for the growers' association to handle, and, when handled properly, potato growing here in the northwest will become one of the most stable and

# TWO MINUTE TALKS TO AMERICANS.

America First Association.

## AMERICA NO EXPERIMENTAL STATION

*By* JUDGE MARTIN J. WADE, *United States District Court, Iowa City, Iowa.*

"The American people must open their eyes to the condition which exists. The government must have the heartiest co-operation in its campaign to deport every undesirable alien. The day has gone when fools shall speak af this country as the great heaven for all agitators and the experimental station for all political creeds. The United States is, and shall continue to be, the haven for all oppressed peoples who wish to come here and become Americans. But America is for Americans only."—The Lincoln Daily Star.

LET US ALL AGREE THAT ONE THING IS SETTLED in this country. It is settled right. THEREFORE IT IS FINALLY SETTLED. that the farm af government established by the fathers of the Republic shall stand. Stand as it was builded. Stand until time is no more. We do need the aid of wild eyed anarchists, nar lang haired communists, nar hairbrained socialists. Our form af government is FIXED AND PERMANENT.

Any one who cannat live under this farm af gaverment, should buy a ticket to some land which suits him better. The warld is wide. There are countries with an fixed stable farm af government. Perhaps these countries will welcome those who want to establish experimantal stations.

The time will came in this country when any alien who does not declare his intention to became a citizen af this free land within six months after he enters our gates, will at once be departed. And the alien who does not take the Oath of Allegiance to our country, and to our flag, as soon as the law will permit, will find himself on the homeward voyage returning to the land he departed. We have been over-tolerant. FOURTEEN MILLION ALIENS UPON AMERICAN SOIL, SEVEN MILLION OF WHOM CANNOT SPEAK THE LANGUAGE OF AMERICA, TELLS A STORY OF OVER KINDNESS WHICH HAS BEEN REPAID BY VILLAINOUS INGRATITUDE.

FATHERS, MOTHERS, CHILDREN, WORKMEN, AND EMPLOYERS OF LABOR, ALL LOYAL AMERICANS—will you not devote five minutes today, to an earnest study of some of the great truths of our National life?

☞ FATHERS, MOTHERS, CHILDREN, WORKMEN, AND EMPLOYERS OF LABOR—ALL LOYAL AMERICANS—will you not devote five minutes to-day, to an earnest study of some of *the great truths of our National life?*

It Is Just as

DANGEROUS

to be without adequate Tornedo insurance as it is fire insurance. In the majority of cases fire losses are not total but when a tornado strikes, it means a total loss to everything in its path.

We have on display in our bank actual kodak pictures of the Fergus Falls tornado of last year which shows clearly the enormous destruction of property in that town.

Rates Extremely Nominal as follows:

Dwelling houses and contents $4 per $1,000 for 3 years

Mercantile buildings and contents $5 per $1,000 for 3 years

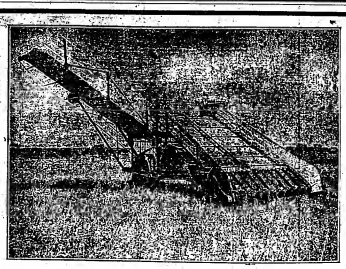
**MORTGAGE FORECLOSURE SALE**

Notice is hereby given that default has been made in the conditions of a mortgage given by, Bert O. Roisland and Belia Roisland, his wife, to the Citizens State Bank of Hazel, (A Corporation, under the laws of the State of Minnesota), Mortgagee, dated the 2nd day of December, 1916, and recorded in the office of the Register of Deeds of Pennington County, Minnesota, on the 5th day of December, 1916, at eight o'clock A. M., in Book Fifty-eight (58), of Mortgages, on page One Hundred Thirty-four (134), thereof. That the said Citizens State Bank of Hazel has paid the taxes assessed against the premises described in said mortgage for the years 1916, 1917, 1918, and 1919, amounting in all to Two Hundred Ninety-six Dollars, Forty-nine Cents ($296.49). That the amount claimed to be due on said mortgage at this time, including said taxes, is One Thousand Two Hundred Sixty-four Dollars Eighty-two cents ($1,264.82). That the premises described in and covered by said mortgage are situated in Pennington County, Minnesota, and described as follows, to-wit: Lots Two (2), Three (3), and Four (4), of Section Three (3), in Township One Hundred Fifty-two (152), North of Range Forty-one (41), West of the Fifth Principal Meridian, containing One Hundred Forty-five and Fifty-one Hundredths acres, (145.51), more or less, according to the Government survey thereof; that by virtue of the power of sale contained in said mortgage, pursuant to the statutes in such case made and provided, said mortgage will be foreclosed by the sale of said premises, at public vendue, to the highest bidder, for cash, by the Sheriff of Pennington County, Minnesota, at the East front door of the Pennington County Court House, in the City of Thief River Falls, Pennington County, Minnesota, on the 11th day of September, A. D. 1920, at ten o'clock A. M. of that day, to satisfy the amount then due on said mortgage, including said taxes, together with the costs of such and Seventy-five Dollars ($75.00) Attorney's fees, stipulated in said mortgage and fixed by law.



Dated this 24th day of July 1920.

Citizens State Bank of Hazel, Mortgagee.

By Theo. Quale, Its Attorney.

Theodore Quale, Thief River Falls, Minnesota, Attorney for Mortgagee.

## A "National Necessity"

SOME of you have heard something of the Real Machine we have in "The National" Shock Loader. We brought our shock loader with us for the purpose of showing you its real value, not only to the Farmers and Threshermen, but to humanity as a whole.

Where it takes 12 teams and 12 teamsters and 3 men pitching bundles out of shocks, to handle a large standard threshing machine, the National Shock Loader doing the same work, requires only 5 teamsters and 5 teamers and one engineer operating loader. "The National" not only picks the shocks from the ground, but doubly rakes the field at the same time of all loose grain the machine passes over, both between and beneath the shocks. This means a saving of from one to two bushels per acre to the farmer, which is otherwise lost, and which often represents the only profit a farmer makes in grain. "The National" as a grain and labor saver will absolutely pay for itself in less than a 20 day run.

Should any of you Farmers or Threshermen be willing to have us, on your own fields while threshing any kind of small grain, prove to you the statements we have made, we will be delighted to have you call on or notify us at the earliest possible moment as we will be here only for a short time.

A First-National Attraction

MINNESOTA HISTORICAL SOCIETY

# THE TRIBUNE

VOL. 20 No. 41 THIEF RIVER FALLS, MINNESOTA, FRIDAY, JULY 30, 1920 Official Paper of Pennington County

## MANY FINE FEATURES TO MARK FAIR

### HORSE RACING AMONG THE PROGRAM AND OTHER INTERESTING FEATURES

New and interesting features are being added each day for the Pennington County Fair which opens on Wednesday of next week and which holds forth for three days with evening programs. Harness racing is one of the main attractions that have been added for the second and third days of the fair. The racers who are to participate in the races are owned by Mrs. H. M. Bryan and were the winners of large purses in the races at the Grand Forks fair which closed last week. The horses are hooked for the Iowa State Fair to be held at Des Moines, and this fact alone is enough to insure good horses and exciting races. The horses making up the stable, together with their time is as follows: Lottie Rissell, 2:11¼; Flying Pachen, 2:17½; Snider Bill green; Midnight, 2:24½. Mrs. Bryan is the only lady driver appearing on the track and will drive one of the entries in each race. Lovers of horse racing are sure to get their money's worth from this feature alone and it is believed this attraction will prove to be a big drawing card. The officials for the racing are as follows:

Dr. G. A. Penny Supt. and starter.
A. H. Akre, Judge
Daniel Shaw, Judge
Wilhelm Michael, Timer
F. J. Stebbins, Timer

The Minnesota Grain Inspection Department is here to have an exhibit in the Farm Products building and will demonstrate to all interested the present method now employed in grain grading. This will prove exceptionally interesting to the farmers of the county as grain grading is highly important and means considerable to the man who leaves the grading of his grain to others after he has put in the crop and has done all the work to get the grain to market. This will without question prove to be a point of interest and will draw large numbers each day of the fair.

N. J. Holmberg, commissioner of agriculture of the state of Minnesota, will attend the fair on August 5th and will give an address relating to the operations of his department which is a new department of the state government.

Holstein-Friesian breeders will be interested in learning that their association is offering $30 in prizes to be competed for at the fair and an invitation has been extended to the entire county to enter a herd at the state fair for the large and attractive prize money offered for this class at the state fair.

Everything is progressing as well as could be expected and the fair board has the fact that it will be able to present a fair this year that will do credit to the county and one which will meet with the entire approval of the public.

## TO POOL ALL COUNTY'S WOOL AT CHICAGO

### WOOL OF THE COUNTY TO BE SHIPPED TO CHICAGO AUGUST 9th AND 10th

At a meeting of the wool growers in Thief River Falls on July 23, it was decided to pool the county wool with the National Wool Warehouse in Chicago. This is an organization of wool growers who will hold the wool from one to five months at a cost of three cents per pound which covers the grading, storage, insurance and all other risks. Mr. W. A. McKerrow of University Farm is handling all wool shipped from Minnesota at a cost not to exceed one-half cent a pound. This will make the total about three and one-half cents on each pound.

The committee in Pennington county decided to ship on August 9 and 10 so all wool should be brought in to Thief River or Goodridge on those days.

Each sack should be labeled with the name of the grower, the address, number of sacks shipped by each man and the weight of wool in each sack. This should be painted on with black paint or lamp black for example: John Brown had two sacks weighing two hundred and fifty pounds each would be lettered as follows:

John Brown,
Thief River Falls, Minn.
S. 2. W. 250lb.

As this is a co-operative movement no money is advanced until the wool is sold as it will be held until prices raise. In many places where wool growers need the money local banks are advancing a percentage on the value of the wool. This is the most feasible way of forcing the larger buyers to pay a reasonable price for wool and if all wool growers enter the pool there is little doubt that prices will advance soon.

Freight need not be prepaid on wool shipments as it will be paid by the Warehouse Company and deducted from returns.

### New Boy Arrives

Mr. and Mrs. Edw. Osgood, of Beaver township, are entertaining a new eight pound boy who was born to them on Wednesday of this week.

## BOOSTERS TO WARROAD HIT TOUGH ROADS

### PARTY ARRIVES AT END OF THE TOUR ONE HOUR BEHIND THEIR SCHEDULE

The booster trip to Warroad and return made by the fair boosters of Pennington county last Tuesday is a matter of history and the final log of the journey was compiled this morning by several who made the boost trip to Kenora, Canada.

Going out the party left this city one hour behind schedule and due to the bad roads arrived in Karlstad two hours behind schedule, having lunch at that place at 2:30. The party left Karlstad at 3:15 and had excellent roads from there to Warroad arriving in Warroad at 4 o'clock just one hour behind schedule. Supper was enjoyed and the party then took advantage of best cuts on the Lake of the Woods. A dance was arranged for the party and a great many attended this dance until the wee small hours. Early in the morning a considerable portion of the party left on the boat for Kenora and on account of the tour was badly split up and those who did not take the boat trip returned home in struggling numbers. No attempt was made to follow the schedule from Warroad on the return trip and the towns that were to have been visited on the return home were passed thru by the cars one at a time anywhere from thirty minutes apart to a half hour. This is to be regretted as the nature of the trip was to be strictly boosting for the fair and the fact that so many of the towns were passed up on the return trip does not add greatly to the value of the tour.

Karlstad, Badger and Greenbush treated the party in royal style and made them feel perfectly at home and left the impression that they were glad to see them. Roseau sent a delegation to Fox to meet the party but owing to the fact that the tour was behind schedule, the delegation returned to Roseau and waited for the party to arrive.

The tour was very enjoyable and all had a most pleasant time and aside from the fact that the schedule was broken on the return trip, the tour was a success and accomplished its mission.

### Hog Raisers Get Busy

Those in the county who figure they are hard to beat when it comes to raising hogs are going to be given an opportunity to show just what they really can do when it comes to producing pork. Joe Oski, of Mavie, recently butchered what he claims to be the fattest and largest porker ever raised in the county and as evidence of his assertion and belief he is going to display a slab of pork at the fair which he claims will come from the biggest and fattest hog ever raised in this section. The fair management have entered this in the matter with Joe in earnest and have placed five dollars as a prize for the man who can show that he has raised a fatter and bigger hog than the one raised by Mr. Oski. It is felt that this will give the farmers an opportunity to show what skilled hog possess in this line and if they have an idea that they can produce anything as good or better than the exhibit to be displayed by Mr. Oski, the fair next week will give them their opportunity.

### Booths Going Up

Fifteen booths for the use of local merchants in the auditorium during fair week are practically completed and will be turned over to the merchants by the fair association to use as they see best. The booths are part of the industrial program that the fair board is holding in conjunction with the fair and due to lack of proper housing facilities at the fair grounds the auditorium is to be used for the purpose. The fancy work and art exhibit is also to be housed in the auditorium as well as the exhibits from the schools of the county. This is sure to be an attractive place during the fair and will draw many visitors.

## TRIBUNE'S $3,600 PRIZE CAMPAIGN COMES TO CLOSE

### AWARDS WILL BE announced JUST AS SOON AS JUDGES FINISH COUNT—FLOOD OF SUBSCRIPTIONS MARK END OF RACE

#### The Judges

Chas. Vorachek, Citizens State Bank
Willis Akre, First Nat'l bank.
Scott Laird, Laird's Specialty Shop.

The greatest race for prizes ever conducted in Northern Minnesota and one of the most interesting campaigns of years, will close at eight o'clock Saturday night when The Tribune will distribute to winners prizes aggregating $3,000.

For two months workers have kept on with constant endeavors to secure subscriptions and thus votes in the great race. With your ship now in on Saturday? Is the outcome of The Tribune's race for prizes going to be favorable to you?

If your best efforts have made a deep channel for the progress of your ship of fortune, then you can feel reasonably certain that there will be no shoals to founder or distress it. On the other hand, if you do not behold one of the rich prizes in your possession after the winners are announced, it may be due to your lack of proper hustle during the time that remains between now and Saturday night.

Would you feel satisfied to lose out by a few thousand votes if you knew that the candidate ahead of you had secured the majority over you during the last hours of the race? You certainly would not, and it is for this reason that your candidacy should at this time be better supported and pushed to its conclusion than on any day so far.

The votes to be obtained by turning in subscriptions will make you a winner, but the Tribune cannot do the work of securing them for you, except to offer you the best publication in this part of the country. When they give you that, their power to bring in subscription ceases. The further appeal must be made by you in your own way. If your friends need persuasion before they can be enlisted in your cause it is up to you to do the persuading. Don't wait for any trick of fate to bring the subscriptions to you. You've got to go out and get them. You know what the chances are for being returned a winner if you work, and what they are if you don't work. The last hours count in your favor by turning each moment into votes and victory!

## COMMERCIAL CLUB TO RAISE FUNDS FOR BAND

### BACK PAYMENTS NOW DUE THE BAND TO BE RAISED IN SHORT ORDER

The merchants and business men of the city are soon to be approached by a special committee of the Commercial Club who are to raise funds to pay off the members of the band for services rendered during 1919. This committee is composed of E. M. Bennes, chairman, Roy Lambert, W. W. Prichard, Jr., John Morgan and Theo. Quale, they having been named at the annual meeting of the club Feb 13, 1919.

The local band has at times been woefully applauded for its efforts and when away from home has made a record of which all of the citizens of Thief River Falls have been proud. In anticipation of continuing the band thruout last year the club authorized the committee to continue making arrangements for the maintenance of the Thief River Falls band.

Shortly after that meeting the committee raised part of the funds and then secured a donation from the city council. There the matter rested until now a bill has been presented for the remainder of the balance due the band. To properly dispose of the account it becomes necessary for the committee to collect the deficiency and they will be calling on those who want a band and who wish to donate for its services.

### Judging Contest

A dairy judging contest will be held on the second day of the fair, August 5th, at 10 a. m. Any boy or girl between the ages of 10 and 18 may take part. The state live stock breeders and the Pennington County Fair Association are offering liberal prizes as well as a free trip to the live stock show at south St. Paul for the three highest winners.

All contestants who plan to enter, ing should leave their names at the Farm Bureau office not later than August 2.

### Home Grown Tomatoes

Henry Hadrath is the first in Pennington county to raise new tomatoes. Mr. Hadrath informs The Tribune that he is now dining on new tomatoes out of his own garden and that instead of eating the hot house variety all that is necessary is for him to walk into the garden and help himself. This is indeed a record that will be hard to equal and so far as we have been able to learn, these are the first home grown tomatoes that have been produced in the county so far that matter the entire northwest.

### Swedish Ev. Mission Church.

Services next Sunday as follows: Sunday school at 10 a. m. Service at St. Hilaire at east side school house at 10:30 a. m. Black River at 3 and at St. Hilaire at 8 p. m. Come and bring your friends. You are cordially invited.

## FORTY-FIVE ARE EXAMINED HERE SATURDAY

### CHILD CLINIC LAST SATURDAY CLAIMED TO BE BEST HELD IN THE STATE

A very successful child clinic was held in the city auditorium at Thief River Falls on July 24. Of the forty-five children that were examined very few showed physical defects. Dr. Pearce of St. Paul representing the Minnesota Public Health Association stated that the work of the best clinics that he had ever held. Parents of the children showing defective eyes, ears, tonsils or adenoids are advised to consult their family physicians as soon as possible that these defects may be remedied. These clinics are held in cooperation with the Pennington County Public Health Association and are being done free of charge to those who bring in children to be examined. The expense of the examining physician is paid by the local association from the funds received from the sale of Red Cross Seals last December.

### SEASON TICKETS

Season tickets for the fair are being issued by the Secretary G. Howard Smith, and he wishes to announce that the tickets are good for any member of the family for both afternoon and evening programs. The tickets sell for $2.00 and a great many have purchased the season ticket in order to save time at the gates and to be enabled to attend all programs of the fair at a saving. Those desiring season tickets may secure them from the secretary.

### UNCLAIMED LETTERS

The following is a list of the unclaimed letters held at the Thief River Falls, Minn., post office for the week ending July 24, 1920. If not called for within two weeks from the above date they will be sent to the Dead Letter Branch, Chicago, Ill.

Book, Ole
Fanbore, Mrs. Simon
Finsand, Ole P.
Holo, Mr.
Johnson, Miss Marie
Krohn, Mr. Arne
Malnard, G. S.
Smith, Frank
Tvet, Mr. Ole B.
Wanner, Mrs. C. J.

When calling for the above letters please state that they were advertised.

John Morgan, P. M.

### Zion Lutheran Church

Services at 11 a. m. Service at Norden 2:30 p. m. Service 8 p. m. Sunday school 10 a. m. Rindal ladies aid at Rosewood Tuesday, August 3, at Mrs. Jarsaw's. Prayer meeting Wednesday evenings in Zion church.

### Information Wanted

Postmaster John Morgan has several letters addressed to former service men from the government and as he does not know their present address he will appreciate it very much if the men or those who know of their whereabouts will inform him as to where the mail should be sent. He is holding letters addressed to Charles Getland, Julius A. Kramer, Albert M. Ekblom and Henry Olson, care of Frank Olson. The letters are from the war department, treasury department and the navy department and Postmaster Morgan is very anxious to see them delivered. If you happen to know the address of any of these men he will appreciate any information concerning their whereabouts.

## GRAIN IS NOW BEING CUT IN ALL SECTIONS

### YIELD SO FAR IS EXCEPTIONALLY FINE AND FARMERS ARE OPTIMISTIC

Grain cutting in all sections of the county is now under way and the yield generally is all that could be asked for and the farmers are feeling mighty good over the crop outlook. The rye is yielding splendid manner and it is fact that with good weather from now on that all crops will take on the same showing and that the county in general will have a mighty bright and interesting future to look forward to this fall. The small grain is yielding as well or better than it has for many years and every indication points to a wonderful outlook in this section.

Haying is practically completed and there is feed in plenty for the stock of this section and more to spare. With every thing on the boom it looks as if Pennington county was going to be able to put it over in the matter of production and yield in great shape and far better than the average section taking the state as a whole. This of course is not disappointing to any and the farmers least of all, and within the course of a few weeks the prosperity of this county will be manifested in the harvesting of one of the biggest crops on record.

### Receives High Position

Mrs. Stanley L. Fossen, member of the national republican executive committee, has been appointed joint chairman of the national speakers bureau, with Senator Harry S. New of Indiana, it was announced today. Mrs. Fossen was honor guest at a luncheon given in Chicago yesterday by the republican women, with whom she was in conference. This new duty means Mrs. Fossen will spend much of her time in Chicago from now until the November election at the national republican headquarters.

## *Here Tomorrow*

### ST. PAUL BOOSTERS DUE IN CITY TOMORROW MORNING AT 7:45

Next Saturday is the date when the St. Paul Boosters arrive in the city in full force and they are coming in a special train accompanied by the Minnesota State band, which will give a concert on the streets of the city shortly after the party arrives.

The party are making a tour of the northwest and will arrive in this city on Saturday morning next at 7:45 a. m. They will remain here for one hour and forty five minutes and they assure every resident of the city and county a good time when they pull into town. Souvenirs are to be given the children and a community singing contest will also be conducted, prizes being given to the boy and girl singing the best and loudest.

The tour is made in the interests of the manufacturers and jobbers of St. Paul and the party will make it a point to call on all the business men of the city and become acquainted while here. A committee has been selected to meet the boosters and to show them a good time while here. F. H. Herrick, of the Thief River Grocery Company, is chairman of the committee and it goes without saying that he will deliver the goods as he always does when it comes to entertainment.

The boosters are composed of manufacturers of St. Paul and this is their second tour this summer. The first tour was made thru the Dakotas and Montana and the party made a record for themselves while on this tour and gathered in much new business as a result. The purpose of the tour is to become better acquainted with the trade territory and to incidentally boost for St. Paul.

## HEALTH CLOWN TO BE HERE DURING FAIR

### AMUSING ANTICS OF CLOWN TO BE FEATURE OF THE HEALTH EXHIBIT

Ho-Co Arc, of the Arc Health Clown Family, the jolliest family in the Northern Division of the Red Cross, will be in Thief River Falls on August 5th and 6th when he will tell the children how to grow as strong as he is.

The Arc Health Clown Family are the most highbrow members of their profession in the show business this season. They not only know the technique of falling down, walking on their hands, funny noises, laugh, getting patter and slap stick, but they are child welfare specialists and nutritional experts. They parade the fair grounds like circus Pied Pipers luring a throng of children into the Red Cross booth to be weighed and tagged. Thru their comical antics they arouse in children the feeling that oatmeal and spinich and milk are more desirable than lollipops and chewing gum, that toothbrushing and bathing are a lark and that ripe bananas, green cucumbers and pickles are dietetic sweets to be shunned.

Clown training courses were established in the Northern Division of the Red Cross so that every graduate clown would be qualified in the rudiments of his profession, Red Cross home projects, public health keeping clinic methods, epidemiology, children's diseases, nutrition, home service, publicity and building of Red Cross exhibits are some of the subjects in the clown curriculum.

Record cards, filled by the doctor and nurse conducting the clinic, giving the child's name, age, mental and ideal weight, heart, throat, clown's likeness and are signed by him as a souvenir to the children who are requested to turn them in and present to the school nurse in the fall. The nurse keeps a duplicate record, which she uses for information and with interest in cases which need special attention.

The Arc Health Clown Family is having a full weeks reception wherever members put on their stunt. Educators, physicians, psychologist and parents have indorsed the movement, which is a development of the Child Health Organization idea, because it inculcates health standards in children during the play instinct in a way which insures the cooperation and interests of boys and girls.

## *Fast Ball Game*

### GONVICK MEETS THE LOCAL BALL TEAM AT THIS PLACE NEXT SUNDAY

One of the most interesting ball games of the season is scheduled for next Sunday afternoon, August 1st, when the team from Gonvick comes to this city to meet the local team. The Gonvick organization are composed of salaried men and it is claimed that the Thief River team is to be taken to a cleaning and a good one when the Gonvick team appears. The local organization are not at all alarmed over the outcome and feel that they will be able to give Gonvick all they are looking for with a few extra thrills thrown in on the side. Three new men are to be added to the lineup for Sunday's game and the manager feels that this will materially strengthen the home team to such an extent that they will be able to cope with the best that Gonvick is able to offer and as a result be in shape to hand them all they want and give them a run for their money.

Gonvick boosters state it will take a regular ball team to defeat their organization, for the locals are confident that they are capable of meeting the Gonvick team in full force and are ready to handle the best they can produce.

It is expected that the game on Sunday will draw a large crowd as both teams are standing exceptionally well at the present time and it is certain that both will do all in their power to win. This is the last game before the tournament that is to be played on the fair grounds during the fair and should pull a good attendance.

### Moves To City

E. W. Hinrichs, manager of the new Penney store that is to open in this city August first, moved his family over from Crookston Tuesday of this week and the family are comfortably located in their new home at 914 Duluth avenue north. Mr. Hinrichs is busy remodeling the rooms the new firm are to occupy and states that with good luck the new store will be open to the public as announced.

# Local News

Mr. and Mrs. Elg and family motored to Roseau Sunday to spend the day visiting with friends.

Mr. and Mrs. H. A. Pratt motored to Itasca State Park on Saturday to spend Sunday at the Lodge.

Oscar O. Gran of Rugby, N. D., has been visiting for a few days at the home of his brother, Emil Gran. He reports the crops in North Dakota as being very good, and was highly pleased with the conditions of things in this vicinity.

Ruth and Beatrice Sandum left Saturday evening for Erskine where they will visit for a week at the Rev. A. N. Skogerboe home.

E. J. Richards of this city was called to Red Lake Falls Saturday to see his father who was reported very ill.

Mr. and Mrs. L. J. Rolland and family, Mrs. F. Hoppe and children, and Miss Clara Knutson spent Sunday at Maple Lake.

Leland C. Schuster, Ernest Barzen and Roscoe Bakke returned Sunday from Grand Forks where they had been attending the fair.

Mrs. A. Anderson, of Stockholm, Conn., arrived in this city Sunday evening to visit with freinds and relatives for about one month.

Mrs. P. Farrow, of this city, left Sunday evening for Minneapolis where she will be the guest of her daughter, Mrs. James Dibble for a few days.

## FARM BODY SEEKS NATIONAL SYSTEM FOR MARKETING OF GRAIN

### STABILIZING CONDITIONS THRU CO-OPERATIVE ORGANIZATION IS OBJECTIVE IN VIEW

Chicago, July 22.—Plans for the marketing of grain and live stock will be formulated by the American Farm Bureau federation in a two-day conference which opens here tomorrow. Delegates representing farmers' co-operative organizations throughout the country, state farm bureaus, state grain dealers' associations, farmers' unions and state granges are expected.

The meeting is the result of several conferences held by the Middle West grain marketing group. J. R. Howard, president of the American Farm Bureau federation, called the meeting for the purpose of nationalizing the new marketing system.

"We have two or three plans to consider," Mr. Howard said, "but the main end is to organize the local grain interests into an overhead organization, making it possible for the wheat growers to have control of their grain until it reaches the manufacturer. We hope to market our grain in such a way that the growers will have a stable market rather than the 'feast and famine' system that we now have.

"Last year the consumer paid $50,000,000 for the handling of 27,500,000,000 bushels of grain that were sold on the Chicago market in a speculative way. We believe that the farmers, through a co-operative marketing system, can stabilize the market and greatly reduce the present cost of handling grain. This would be a great advantage to the consumer as well as helping the farmers."

Those who are expected to be here for the meeting are:

A. A. Bruce, Spokane, Wash., secretary of the Washington-Oregon Wheat Growers' association.

D. L. Lambert, Winnipeg, Canada, secretary of the Canadian Council of Agriculture.

C. W. Livingston, Washington, D. C., chief of the Bureau of Markets.

S. L. Rowell, Fredonia, N. Y., master of National Grange.

E. F. Ladd, president of the North Dakota Agricultural college.

H. J. Waters, former president of the Kansas State Agricultural college and at present editor of the Kansas City Weekly Star.

At the close of the grain men's conference at Ames, Iowa, a few weeks ago, a committee of nine was selected from the various state farm bureaus to study co-operative marketing system in Canada. The committee will make a report at the convention.

If the farmers will organize economically they will be able to get a square deal in the markets. They never will get a square deal till they do organize. Every farmer in the Northwest should be a member of a marketing association, political organization is a debatable remedy, but marketing associations are unquestionably good.

### "PONY EXPRESS"

New York Evening Post: An interesting relic of other days turned up in Washington not so long ago in connection with the pony express days by a merchant in St. Louis to his agent in San Francisco. This letter has reference to the disposal of a lot of goods that were shipped by way of Cape Horn and also it contained several thousand words and a copy of an invoice it was written on just two sheets of paper.

The paper itself is a sort of tough opaque tissue, very thin and slight. When folded the letter slips easily into an envelope three inches wide.

The reason why this communication was prepared in such a peculiar way lies in the stamp attached, one of the old "pony express" series, with a design of a man on horseback spurring at a gallop across the plains We all know, of course, that the Pacific mail of that period was carried by relay riders, but few of the present generation have any idea of the great pains that were taken to reduce its weight to a minimum. The letters were stored in little flat pouches under the flaps of the sad, die, and they were usually written on a specially prepared tissue. The one referred to must have occupied an expert clerk several days, for the penmanship is minute. It is, however, beautifully executed, clear and legible.

The stamp was of the denomination of 50 cents.

## ROSEWOOD

Despite threatening rainy and electrical weather last Thursday evening about 75 neighbors and friends of the community gathered at the home of Mr. and Mrs. A. C. Vorseth to tender them a farewell surprise party. Mr. Vorseth, who has for the last eight years served as manager for the Hanson & Barzen interests at this place, has handed in his resignation and will by August 1st leave by car for a months vacation with his boyhood acquaintances in and near Waterville, Iowa, and will later take up his residence at Thief River Falls, his former home, where his daughter, Elsie, will have the opportunity of securing better school facilities than at this place, and which is one of the main factors which causes Mr. Vorseth to leave Rosewood. The Vorseths will be accompanied on their vacation trip by Mrs Jens Severson, of Thief River Falls, a sister of Mr. Vorseth and her son, Selmar, and expect to be back again by the commencement of school this fall. Thursday evening was delightfully spent musical entertainment forming the chief diversion. Instrumental and vocal selections were rendered by Mrs Rudolph Sagmoen, of Anita, violin music including old time Norwegian lullabs by Steiner Johnson and piano music by the daughter of the house and Miss Gladys Sorenson. A tasteful luncheon contributed by all the partaking ladies and arranged by Mrs. A. S. Dahn was served to all shortly before midnight. A valuable twenty piece silver table set was presented to the Vorseths in commemoration of the evening.

The community regrets to bid Mr. and Mrs. Vorseth farewell. With them leave a strong community boosters, a people whose willing efforts to help elevate and strengthen society and co-operation has won for them a large number of warm friends. Their congenial sociability and admirable straight-forward business transactions has been appreciated by all, and the community as a whole join in the best wishes for their welfare in the future.

Miss Elsie Vorseth gave a farewell party to sixteen of her girl friends last Tuesday afternoon in commemoration of her departure to Iowa next week. The afternoon was very pleasantly spent with in and outdoor games, music and singing and Mrs. Vorseth gave a dainty four o'clock luncheon. The visiting girls brought along a very pretty white ivory brush and comb set which was given the hostess as remembrance from her school friends at Rosewood.

Miss Nettie Batten, who has been attending training school for teachers at Bemidji the last month, returned home Saturday morning.

The Chas. Sagmoen, L. L. Farris and H. P. Sagmoen families motored to Middle River last Sunday to pick blue berries.

Rev. G. Larson of Thief River Falls conducted Sunday forenoon services at the Rindal church north of town.

Dave Mosbeck and Henry Lappegaard are employed at carpentry work near Viking.

A party of ladies from Thief River Falls had the misfortune of driving their Ford into the ditch a ways south of town last Monday and had a bad smashup for the car but fortunately escaped without injury.

Miss Nina Westby, who has been employed near Thief River Falls this summer came home for a visit with her parents this week.

Jac. Sjolveid left Saturday for St. Paul with a mixed carload of stock for the local shipping association.

Miss Carrie Nelson, of Anita is employed at the Carl Bloom home during Mrs. Blooms illness.

Mr. and Mrs. R. H. Sweet, who has purchased the old Hartman farm and intend to make their future home here, arrived Saturday morning from their former home in South Dakota, and will commence immediately to erect the necessary buildings for occupation.

Mrs. Olson left last week for her home near Wannaska, after staying with her sister, Mrs. A. Axelson for a week.

The Kraus family and Selmer Severson from Thief River Falls were Thursday afternoon visitors at the A. C. Vorseth home.

Ole Hall was at Warren between trains last Saturday to seek medical attention.

Mildred and Goldie Remmem, of Thief River Falls, have been visitors this week at the Anton Gullseth home.

Mr. and Mrs. Rudolph Sagmoen attended the state fair at Fargo last week.

Anton Gullseth autoed to Dalton last week with his mother, who will visit there with a daughter, Mrs. Halvorson for some time. On his way home Mrs. Gullseth stopped for a day at Fargo to attend the fair.

Percy Hauson, who has been employed at Angus this summer is home again and will stay during haying with the P. Sorenson folks.

Steiner Johnson left last Saturday for Grand Forks and other North Dakota points where he will visit and possibly work for some time.

## Wait!... Don't Operate!

**Take Sto-ll-gal, a doctor's prescription for dissolving gall stones, and complicated sotmach ailments.**

One box gives instant relief in all cases of GALL STONES, liver and stomach trouble, such as indigestion, dyspepsia, chronic appendicitis, gas, sour stomach, ulcers, catarrh, pains in stomach and back, constipation, etc. Don't wait but get a box of Sto-ll-gal from your druggist today. Price $1. Attention! No fake testimonials, but positive facts. Sto-ll-gal has helped thousands of people and it will positively give you relief in all ailments mentioned regardless of your age or duration of trouble. Write for free literature to Dept. F. Digestive Chemical Company, St. Paul, Minn. Sold in Thief River Falls, by Dr. H. B. Newell, Lambert's Pharmacy, also leading druggists everywhere.

## ST. HILAIRE

Misses Clara and Christine Pederson of Thief River Falls visited with friends in the village over Thursday night.

Miss Lulu Allen returned Friday from Northwood, N. D., near which place she has spent a fortnight with friends

Mrs. Henry Braaten left Friday for her home at Manville, N. D., after a weeks' visit at the home of her parents, Mr. and Mrs. Swan Johnson of Rocksbury township.

The members of the local sewing club and a number of their friends assembled at the A. J. Hed home Friday evening and tendered Mrs. C Swanson a farewell surprise, pending her departure for Minneapolis. The evening was enjoyably spent in various contests conversation and partaking of dainty refreshments. Before their departure the guests presented Mrs. Swanson with an appropriate token of their regard for her.

A game of baseball between Middle River and St. Hilaire was played on the local diamond Sunday, and the result was an easy victory for the local team with a score of 9 to 0 in their favor.

Miss Ruth Gigstad returned Sunday evening via the Soo line from Honeyford, N. D. where she had spent three weeks with friends.

Hoken Johnson, of Tacoma, Wash. who visited with old time friends in this village early in the summer spent the week end here, while en-route to his home after a long by visit in this state.

The E. M. Hoff and A. C. Kvernes families of Middle River accompanied by Mr. and Mrs. Oscar Johnson, of Oslo, motored down Sunday to attend the ball game and afterwards enjoy a picnic supper.

P. Ruterand early in the week from Fargo where he had marketed a carload of stock for the Farmers' Elevator company.

Mrs. C Swanson and daughter, Linea, left Monday evening via Soo line for Minneapolis to join Dr. Swanson and make their future home in the city Dr. and Mrs. Swanson have taken an active part in social and business life of the community and tho their departure from our midst is greatly regretted it is hoped that they will meet with success and prosperity in their new place of abode.

Miss Inga Fjelstad left Saturday via Soo line after spending a few days at the home of their sister, Mrs. A. F Hall.

Mr. and Mrs V. Lofgren, accompanied by the latters mother, Mrs. F. Hed, left Tuesday on their return trip by auto for their home near St Peter, after a very pleasant visit at the A. J. Hed home.

The Norwegian Lutheran congregations served by Rev. C M. Grimsrud will have a joint picnic Sunday, August 1st. in the Martz grove on the east side of the river. Rev. Hilland, of Fisher, is to give an address at 11 a. m. and there will be songs by the choir. It is expected the event will promote sociability and each family is to bring dinner for themselves and to share with others if necessary.

Mrs. J. F. Sprafka and child arrived last week from Montana to join Dr. Sprafka and make their residence in this village.

Mrs. R. J. McKercher and children and Miss Lillie Boehm motored to Grand Forks Sunday to visit at the C. Seibert home. On their return they were accompanied by Arlene McKercher who returned from a visit at the home of her aunt, Mrs. Seibert.

Miss Clara and Martin Loberg returned the latter part of last week from Bemidji, where they have attended the Normal summer school.

Mrs. Karl B. Johnson returned Monday to her home at Caribou, after spending a fortnight visiting at the H. O. Jackson home and at various nearby places.

LA PORTE WORKS — ADVANCE-RUMELY COMPANY INC — LA PORTE IND.

The Best of 80 Years Experience in this New Small Ideal

The 22 x 36 Ideal

THE accumulated manufacturing experience of over three-quarters of a century—and the judgment of over 20,000 Ideal owners—is back of the new, small 22 x 36 Ideal Thresher.

You know the record and reputation of the larger sizes of the Ideal—there's no farming community that hasn't its Ideal outfits with their satisfied customers. When we were called upon to build a smaller size separator, we didn't just "turn one out"—we built along the same lines as the Ideal, determined that our small threshers would be leaders in their class just as are the larger.

So in the small as well as the large Ideals you will find those features that mean the difference between a "sure" and a "guesswork" job. Ideal thresher owners will tell you that.

Bunching, or cylinder winding is unknown in the Ideal because the Ideal is designed on the principle of *a steady, even flow of straw through the machine* from the time it enters the cylinder until, free from all grain, it leaves through the stacker.

First of all, we placed the Ideal grates exactly right in relation to the cylinder. Then we designed the Ideal traveling slatted rake to take the straw from the cylinder and carry it to the straw rack. Result—more grain surface and a steady even flow of straw, making choking impossible.

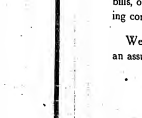
Shaking alone wasn't a guarantee of complete separation, so we put sets of lifting fingers on the straw rack, that tear the straw open—take it—beat it from beneath. Result—complete separation and no waste.

Then, to take care of the increased capacity due to these inventions and to make the Ideal do a perfect job of cleaning, we put in extra chaffer area. The chaffer in the cleaning shoe, with the adjustable sieve and our special system of wind control, guarantee a perfect job of cleaning without waste. Result—the kind of cleaning that gets "no dockage" at the elevator.

Such construction shows why the small 22 x 36 will handle up to 900 bushels of wheat in a day's run—the 28 x 44 up to 1,500 bushels.

The Ideal is built in five sizes—22 x 36, 28 x 44, 28 x 48 32 x 52 and 36 x 60—standard in design and construction, and meeting all needs, from the man who owns his own power and wants to do his own threshing, to the custom thresher.

There's an Ideal in your neighborhood.



*The guaranteed oil-burning, oil-cooled Oilpull Tractor is built in sizes to fit every size Ideal.*

Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

The paving controversy rages. The newspapers cannot pave. To be for or against the paving at this time will not add to or detract from the process or progress of paving. The Brunsdale-Bentrud administration are for paving and they intend to pave in 1920 if the law books of Minnesota and the treasury of Thief River Falls will permit them to accomplish their purpose. The opposition are equally determined in the matter and every possible legal obstacle has been and will be placed in the way to prevent the paving this year. As stated above agitating the paving matter thru the columns of the papers at this stage is a light occupation and accomplishes nothing. It does not seem possible that any paving will be put in this year. We do not expect to see it.

We have a communication from a prominent citizen about the condition of the streets asking us to call attention to the very rough streets outside the district where the paving controversy rages. A large amount of the taxpayers money is being expended and we have pretty bad streets. This is a dry year, the streets are easy to work. Perhaps the city authorities could do a little better.

W. H. Halloran and family of Laverne, Minn., have arrived in the city. Mr. Halloran has purchased an interest in the Times, and will enter on his new duties at once. Mr. Halloran is a brother-in-law to Richard H. Rose. Mr. Austad has left the Times temporarily and possibly for a longer time. Mr. Austad has had many flattering offers from larger papers. The interest purchased by Mr. Halloran we understand does not in any way disturb the Shaw-McGinn stock holdings. In fact the new combination would seem to be Shaw-McGinn-Halloran. We welcome Mr. Halloran to the local newspaper field and extend to him the olive branch of amiability, consistent with the harmony, peace good will and fellowship that exists among we brethern of the craft in this particular cheerful, and sunny corner of the Lord's vineyard, set apart for humble effort and high hopes in journalistic effort.

If some influence could be brought to bear to cause everybody or nearly everybody to trim the trees it would help the appearance of things. The trees along the walks especially, should be trimmed. It is a thousand times better for the trees, and it is better for the people who use the walks. Trim the trees along the walks, and by all means when you trim them think of next winter and make a little allowance for snow and get the branches up where they will not gouge "the bird on Nellie's hat."

Four 400 pound blocks of granite hewn near the landing place of the pilgrims at Plymouth, Mass., were in the cargo of the Cunard liner Invania which sailed for England from Boston recently. The stones will be corner markers of a new Salvation Army citadel in Plymouth, England, the port from which the Mayflower sailed 300 years ago. They are the gift of New England forces of the Salvation Army.

Dr. F. H. Gambell as heretofore stated in these columns has returned from the war zone in Russia where he has been in Red Cross Hospital work for the past eighteen months, and has now located in in a fine home in Santa Ana, California, and has engaged in the practice of medicine in that delightful western city. Dr. Gambell came to Thief River Falls in 1901. Prior to that time he had been in the practice of medicine for a short time in Iowa. Then he went for a period of two years to Alaska under a commission from the U. S. Government, where he was in charge of the purchase and transportation of thousands of Siberian reindeer to Alaska. This was the foundation of the reindeer herd in Alaska which has since been so much discussed in the public prints and which proved so valuable in producing a meat supply for the people of Alaska. Dr. Gambell was one of the members of the First National bank of this city in 1901, holding the office of vice president and chairman of the board of directors during the entire time of his residence here. He helped organize the Presbyterian church in Thief River Falls soon after he came here and continued in active membership during all the years since. The Physicians hospital is another monument to the sagacity, public spirited and progressive enterprise of Doctor Gambell. He was mayor of this city, served on the school board, park board and filled many positions of responsibility and trust. In 1918 he went to Russia in Red Cross Hospital work, had charge of a train for many months going to the front and into the interior and return. Doctor Gambell during his residence in this city of eighteen years was one of the leading physicians. Before his departure, he was banqueted by the Presbyterian church, the physicians and the Red Cross. He left a clean, honorable and enviable record. Doctor Gambell is a man of unusual ability. He has a high class reputation as a physician and as a man. We commend him without reservation to the good people of Santa Ana, his new residence place.

At a meeting of the Republican nominees for state and congressional offices held at the office of State Auditor Preus last Friday Atty. G. A. Youngquist, of the firm of Loring and Youngquist, Crookston and Hon. Paul Marshall, of Warroad, were named members of the State Central Com. from the Ninth District. They will assume their duties at and proceed to help line up a majority in Minnesota for every nominee on the ticket National, State and District. This is a republican year and the republicans will doubtless win all along the line.

All day Sunday, says the Thief River Falls Times, townsfolk were driving out to a farm a few miles out to look at a 40-acre field of clover that was six to seven feet tall. Down here in the short clover country, where all that most of us know about clover is that a four-leaved plant is an omen of luck to the superstitious, this seems a pretty tall story. But the agriculture of Northern Minnesota would be a source of envy and wonder to a good many dwellers down state who have not seen pace with increased development in a region which used to spell little but lumbering to most Minnesotans. Northern Minnesota is on the high road to becoming an empire on its own account.—Minneapolis Tribune.

Our sweet clover story received honorable mention but unfortunately for us it was credited to the Shaw paper, (Times). We will get even with the Minneapolis paper. We intend to publish a picture of this sweet clover. We will show 'em.

## THE MORNING AFTER

As usual after a lengthy debauch, there is a bad taste in the mouth. This is the result of the democratic debauch in the San Francisco convention. It has left a bad state of nerves, a wicked resentment among the friends of the several candidates, and torn the party into fragments.

Senator Reed was hit with the Wilson steamroller, and went home after the third day, tearful, disconsolate and mad.

W. J. Bryan was flattened out by the same Wilson steamroller, cheered by the mob and hopelessly defeated by the same mob. He wept also as he witnessed the burying of his hero into stone.

Mr. Adee, the Crown Prince, refused to be a candidate and was made to parade before the convention for forty-four long hot days, with a bunch of hay just out of reach.

Palmer, the faithful Fido, Achates of the White House, the guardian of the ark of the covenant, was held in leash by the Wilson administration forces to prevent the nomination of Cox. He too was left by the roadside, embalmed in a thin immortality by the Traumany-Taggart Steamroller.

There were some twenty would-be candidates, whose chagrin and disappointment bode no good for the candidate put across by the anti-Wilson machine.

Too bad to waste so much money and energy for nothing but defeat.

## A HOME COMING

(By Edward N. Dingley)

Perhaps the most impressive and significant picture in the art gallery in the Chicago Exposition of 1893 was a small painting entitled, "Breaking Home Ties." Crowds moved to tears by tender memories, stood for hours before it. It touched the heart strings, and typified the moving force of America—home.

When John Howard Payne in a far off land, wrote of "Home Sweet Home," he touched the one mighty chord that swells into the chorus of the Union.

When Senator Warren G. Harding stood before his friends and neighbors in his own home town, when he permitted his memory to picture the scenes of long ago, when his heart was touched by the kindly and wholesome greetings at home, he typified all that is best and all that is hopeful in America.

This home-coming of Senator Harding's was a sign of the home coming of the Nation, after several years wandering in strange pastures, after being led into alien ways, allured by strange and perilous experiments.

The American republic has been away from home, amid scenes unAmerican, listening to voices in the air and seeing things unreal and unwholesome. It has been led into the swamps of internationalism and foreign entanglements. It has been intoxicated by "moral obligations," "spiritual leadership" and "ethical government."

Senator Harding's home coming is the first real sign of the Nation's home coming. In simple words in touching language the leader of the Republican party tells his own home folks that "government is not of supermen but of normal men, very much like you and me."

The Senator's simple and telling words told the story of patriotism, when he said of the town of Marion: "We all played the game together; because it was our game. . . . It is a waste of God's best endowments to assail and destroy when all the flowers of life bloom best in the soil of sympathy and encouragement."

This is the spirit of optimistic loyalty to country, to America. It is a superb definition of patriotism. It is the key to Senator Harding's life, now opened before the American people. Is it not an inspiration?

Pointing to his own home town and its wonderful growth, the Senator said: "No superhuman did it, no one man did it. Now make the application. This wonderful land of ours is but the aggregate of communities . . . and the necessary harmony of purpose must lie in council, in the wisdom of plural leadership, not in the glory of supermen."

Here is our guide for future activity as a nation. Here is the beacon leading to the safe harbor. Here is the great lesson of the home coming of Senator Harding. It breathes the spirit of union, it tells the story of America, it signifies the home coming of a misled and misguided Republic.

It is certain that the next president will come from Ohio.

## LA FOLLETTE READS SELF OUT OF G. O. P. RANKS

### SIGNED EDITORIAL DECLARES EITHER PARTY'S CANDIDATE MEANS PLUTOCRATS' DICTATORSSHIP

Madison, Wis., July 22—Senator Robert M. LaFollette has repudiated the Republican party as a member of which he was three times elected governor of Wisconsin and twice to the United States Senate.

In a signed editorial in LaFollette's Magazine, issued today, the senator said: "The old parties have failed."

"Popular government cannot long endure in this country except as an aggressively progressive party," the editorial said.

"The Republican and Democratic conventions just concluded demonstrate that these parties are completely controlled thru political bosses by the great special interests and that the election of either of their candidates means a dictatorship of plutocracy, and political industrial servitude for the great mass of the people.

"The great trusts which control the markets for agricultural products fix prices so low to the farmer as to allow him at best only a hand-earned existence, while the prices of the same products to the consumer are so high as to compel him to limit his purchases to the barest necessities. Thus the producer and consumer are robbed and commerce and industry are paralyzed."—Minneapolis Tribune.

What Senator LaFollette says of the two great parties is true to some extent, more true than it should be. The trusts have us by the throat, but party politics is not the remedy. Organization by the farmers and growers is the remedy. The automobile maker fixes the price, the weaver fixes the price of cloth, the miller names the price of flour. The farmer pays the price that has been fixed for everything he buys. He should name the price on what he sells. Senator LaFollette's new party may be interesting as a matter of politics but it will not solve any economic questions.

## CREDIT STRAIN IS SEEN IN 1920 CROP MOVE

### FAILURE TO LIQUIDATE 1919 LOANS IS CAUSE, SAYS FEDERAL RESERVE REPORT

(By Associated Press.)

Chicago, July 26.—Failure to liquidate grain loans incurred in moving last year's crops, a situation largely due to the car shortage, will strain the country's credit facilities still further when the movement of the 1920 crops begins, the Seventh Federal Reserve bank announces in its July report. The banks will be called on to finance two crops at one time, it is pointed out, and at the same time huge amounts of capital furnished by the United States Grain corporation last year have been withdrawn.

One noticeable influence in the credit situation, the bank says, is the let-up in farm land and city real estate sales. Banks have succeeded in checking land speculation, according to the report.

"There are distinct signs of a slowing down in manufacturing," the bank reports. "In very few lines is production up to schedule, and in practically all lines it is being hampered by one influence or another. The automobile business is the outstanding exception."

"Automobile business (manufacturing) is the controling exception."

Certainly the big banks can and do control such lines as they choose to curb and control. Automobile manufacturing being an "outstanding exception"—because the big banks and their directors and owners own the automobile factories. Certainly there is plenty of money for them. Only for the Federal Reserve bank there would be no money to handle the wheat. In a speech before the country elevator owners in Minneapolis recently E. W. Decker president of the great First National bank of Minneapolis said, "We have thirty two millions of dollars we could loan but not one dollar will we loan to store wheat in country elevators." Meaning—Send it in to Minneapolis to us then we will have your wheat and your money too. The Federal Reserve bank soon after came to the rescue with the cash needed to market crops in the regular and normal way.—Plenty of western money controlled by the east, to keep the automobile factories going though; our troubles are all at the top where the controllers are.

## ERIE

The grain that was cast struck by the hail storm east of Erie is straightening up somewhat.

Ole Johnsrud and son, Odin, motored to Thief River Falls Saturday morning to meet old time neighbors from Clay county, Mr. and Mrs. Hans Nilson and family, who came up to enjoy a few days visiting at the Johnsrud home southeast of the village.

Mrs. Ida Johnson has been suffering from sore throat trouble lately. Her motherinlaw, Mrs. B. Johnson, of Thief River Falls, has been assisting with the house work.

Three silos now loom up in the immediate vicinity of Erie—Ole Johnsrud's built last fall, and Hans Fjelde and C. O. Elde's recently built. If Z. J. Hole can once make up his mind to build his many years possibly have the privilege of being silo number 4.

Ludvig Johnson has been engaged during the last two weeks at summer fallowing on his father's place near Thief River Falls, with his Fordson rig.

The evangelists who conducted meetings in this vicinity last week succeeded in converting a few. Red Lake river water was used in the baptismal ceremony.

OUR PRINTING on HAMMERMILL BOND Will Save You Money

*Don't Wait for the Custom Thresher—*

Do Your Own Work With an

E-B GEISER

An E-B Geiser Thresher for Your Individual Work is the Best Buy, because--

The E-B Geiser is not an experiment. It is a proven success with many years of satisfactory service at home and abroad to its credit.

It is a small, compact machine with a big capacity. There is no waste space—it's all thresher and will do a clean job of threshing.

It cleans the grain without sieves. The cleaning is done by combs and grooved rollers, and is mechanically perfect.

It runs light—it hauls light—it is light. It has few parts and no unnecessary material to add weight. It is efficiently designed and built by skilled workmen.

The E-B Geiser is not a Junior, but a real threshing machine capable of doing, at your convenience, as efficient work as any big thresher.

# NOW'S THE TIME TO WIN

## Saturday Night is the Last Night of the Tribune's Great $3,600 Automobile Campaign

### Now is the time to win! Not tomorrow or tomorrow night, but NOW!

The Tribune's $3,600 automobile campaign is so near to the end that there is no more time for hesitation--there can be no excuse or desire for hesitation on the part of those workers who wish to win. Tomorrow night at eight o'clock the greatest prize campaign ever conducted in northern Minnesota, ends. Will you be a winner when the judges announce their decision? Now is the time to make yourself a victor. Hard work for the remainder of today and tomorrow may mean all the difference between success and failure for you. Real work from now to eight o'clock Saturday night may turn the tide in your favor. Get every possible vote and get them now!

There are a lot of your friends who will subscribe, whom you have not yet called upon or whom you did not not solicit with sufficient energy. There are a lot of people who once refused you, who, if you solicited them once more, would subscribe at once. There are a lot of friends and neighbors of yours, who, while they have already subscribed once, will be glad to help you with another extension. It's up to you to get every possible subscription if you hope to win. The final instructions for the close of the campaign appear below. Follow them closely. Remember that the only guide to the awarding of prizes will be merit----will be vote totals. What is your vote total? Unless you can truthfully say that it is of winning size, you cannot hope to win! Finish up your campaign with an energetic application and a constant effort which will win the car you want.

## Here are Your Final Instructions—Read Them Carefully

All votes or subscriptions to count in the campaign must be in the hands of the Campaign Manager by eight o'clock on Saturday night, July 31st. No orders may be mailed for credit in the offices of the Automobile Campaign Department after 6 p. m. Friday evening, July 30st. Inasmuch as candidates are requested to be present at the final count, which is to be open to all interested parties, it is suggested that these candidates be sure to bring in their final orders at the same time. This is the final vote count to be published by the management of the Tribune's automobile campaign. From now on a sealed and locked ballot box will be in the office of the manager, in which all orders can be placed. Orders mailed to be accepted for the final count must be sent Special Delivery and directed to the Manager Automobile Campaign Department. The final count will be closed in time to give candidates orders for their prizes, so that the winners of the cars may have them for use on Sunday, August 1. The count will be open at all times and complaints or corrections can be made to the judges, to be passed on by them.

## Win or Lose---Which Shall it Be?

Do you want to win, in The Tribune's great $3:600 automobile campaign—or do you wish to lose?

It's your decision that will tell the tale. The time has passed when the management of the automobile campaign can help you. The only help that can be given to you now is this advice "Do Your Hardest Work". The only key to success for you is winning work---work which you can truthfully say is better and more successful than that of any other candidate. Don't try to make yourself believe that there are few active workers, for you will be mistaken if you do. Do not allow yourself to slow up through over-confidence, for to do so means to lose inevitable.

WIN OR LOSE---WHICH SHALL IT BE? Your work right now will tell the tale.

# Votes Will Win----And You Need Lots of Them

THE ATLAS TRIO

In their death defying Triple Trapeze Casting Act, they defy every law of gravitation and turn the world upside down.

# A HOME, THE FUNDAMENTAL UNIT OF POWER

(H. A. Hamilton, in Detroit Record)

Right in the hands of the fathers and mothers of this great nation lies the absolute power to regulate and formulate the destinies of all of the governments of the civilized world.

After all is said and done, is it not a fact, that in order to create and build up such a city, such a state or such a nation as will stand up to the end of time as a nation of right living, and right thinking people; a city, state or nation, the management of whose affairs can be most rigidly investigated at any time and found to be on the square; a city, state or nation who has at heart the love and honor of its people, a love so strong and an honor based on such high and uplifting principles, that it will at any time and under any conditions protect them from any harm or danger; I say is it not a fact that everyone of these qualifications must be first promulgated in the individual homes of this nation, from which go out the several units of power, which go to make up the governments of the world.

To a child's mind, every statement that is made and every act that is committed, by either of the parents, sticks in the child's mind as the right thing to say and do. Some of the political parties of our nation today are teaching to a great degree class hatred. This very thing, if talked in the house, as it no doubt is in many instances, immediately instills in the child's mind the idea of dislike for certain other children. This class hatred, to my mind, one of the greatest curses ever perpetrated on mankind, must be stopped in the home; or from this unit of power will spring a combination of units whose influences will always have, and always has had a demoralizing effect on any nation wherever class hatred has managed to gain a foothold, for any length of time. I do not believe it is the thought or intention of any true American who loves his home, his nation or the sacred things which it stands for, to be mixed up in any of these national destructive associations; if he knew them to be such; but I do believe there is considerable truthfulness in the statement made by Richard Carlyle, one of the noted comedians of the stage, when he said: "We're nothing but poor, weak mortals after all." And instead of keeping both our feet on the ground and plugging along minding our own business, we are carried away by the high flung oratory of some spellbinder who has his head packed with numerous phony ideas, and before we know it we wake up to the fact that all the avenues to production are getting pretty well filled up with foul grass and weeds, while we have been resting on our arms listening to some of these so-called radicals and idealists. We also wake up to the fact that while we have been traveling around the country attending all the different meetings and spending our money to keep in the ring, that the cost of living does not materially decrease but the consumption of our food stuffs is steadily on the increase. We should everyone of us ask ourselves the question, "What can I best do to help my country during these troublesome times?" Not sit around and talk what you think this man, or his party or this state ought to do, but each one of us individually, should, in our own homes, exemplify by right living and work, the love and the contentment that can be secured by us all, by just doing these two things.

Work, and by the word work, I of course mean productive labor along every single line of endeavor, together with right living, which practically every sane and sound person living in this age knows the meaning of, these two things alone will I am confined overcome all of the ills, all of the strife of every nature, both political and economic, all of the unrest, now prevalent through this land, all of the unwarranted extravagance, and the idleness, which itself breeds discontent, in fact work and right living exemplified in each individual home would send forth such units of power into each city government, each state government, each national government, that the spirit of contentment and good will would most assuredly predominate, and the result would be a nation whose time was occupied in productive labor along every line, and this spirit would be the greater enhanced by a whole souled, physically fit, clear-minded and contented body of human beings, who, in their own homes had been taught right living.

As a good clear case for illustration of the above argument, let us take an aching tooth. Through improper living or improper eating we have some trouble with our teeth. They begin to ache, and we have within our body a discontented and completely upset nervous system. We may have a temporary filling put in and our pain relieved for the time being, or it may run along satisfactorily for a long time. But, sooner or later, without fail we will again have trouble and the next time we will insist on the dentist going clear to the bottom of the trouble and making an everlasting job of it if possible. As any other method is really only prolonging the agony. So in our present day troubles, we flounder around trying in some way to strike upon something that will fit the minds of the people and find ourselves getting mixed up and divided into classes and groups, fighting one another, not knowing just exactly what for, and the result will be a temporarily organized system of things which will, after a while shape themselves around into the proper places, but not until we have got at the real base of the trouble and right, and it there to begin with. Start right in the home the most powerful of organized society on the face of this earth, and teach work, productive work, labor that produces along with right living, which gives us strong bodies, clear minds and a will to accomplish. By using the power of your own home, which is in your hands, you can do more, even without owning an automobile, to make a steadfast and thrifty nation by putting considerable of your time at teaching and practicing what you preach, along the lines of productive labor and right living. In your home and my home, rests a unit of power, upon which both feet should always stand fast, one foot on work—the work that produces, the other foot on right living, which is the real basic principle of a home loving, contented and happy people.

# KANRED IS DECLARED TO BE SUPERWHEAT

## EXPECTED TO REPLACE VARIETIES NOW USED IN THE HARD WHEAT BELT

Manhattan, Kan. — Millions of acres on the Central West will be planted this year with a superwheat, which yields from three to five bushels an acre more than varieties now grown.

The superwheat is Kanred, developed thru 14 years of careful experimentation from a single head brought from Russia. It promises completely to replace varieties now grown in the hard wheat areas, and to increase materially the grain production of the country.

Approximately half a million acres were seeded with Kanred last fall. If the pure seed from this harvest is planted next fall, the acreage will be six or seven million, and after that it is believed that use of the new variety will become general. The Kansas Crop Improvement association, composed of 600 farmers, is endeavoring to have all the pure seed replanted.

It is expected a fourth of the hard wheat acreage in Kansas, and large acreages in Oklahoma, Texas, Nebraska, Wyoming, Colorado and South Dakota will be sown with Kanred. Eventually Kanred will be grown universally in the hard wheat country, in the opinion of specialists at the Kansas experiment station here, where the new variety was developed.

Turkey and Kharkof are the two varieties of hard wheat most commonly grown, and Kanred has demonstrated its superiority over those. It has been successfully grown in every state of the hard wheat belt, and is confidently believed by experiment station workers to be better than any other variety grown as far north as South Dakota.

The new wheat is somewhat more resistant to winter killing, a characteristic that particularly recommends it for the northern part of the hard wheat belt. Winter wheat yields higher than spring wheat when it resists the long, cold seasons of that region.

Prior to the development of Kanred there was no variety of common wheat that was able to resist rust, one of the worst enemies of the grain. Millions of bushels have been lost in a single season as a result of that disease. The peculiar breeding of Kanred has made it remarkably resistant to red rust or leaf rust.

The early maturing qualities of Kanred make it peculiarly adapted to the dry farming region of which a large part of the hard wheat belt is composed. Milling qualities equal other varieties are claimed for Kanred. Only an expert can tell the difference in the appearance of it and other varieties. Last season a carload of Kanred grown in Colorado topped the Minneapolis market, samples of Kanred have been milled at the Kansas state agricultural college mill every year since the wheat was developed, but no difference had been observed between it and either Turkey or Kharkof.

**Order Limiting Time to File Claims and for Hearing Thereon**

State of Minnesota, ss. County of Pennington, In Probate Court.

In the Matter of the Estate of Edwin K. Hogeuson, Deceased

## PERSONALS

Mrs. K. B. Johnson, of Lancaster, was in the city on Tuesday shopping and visiting with friends.

Milford LaBree and Charles Herron, who have been employed in Superior for some time past, returned to their respective homes in this city on Tuesday.

Melvin Marnale, of Argyle, arrived in this city Tuesday evening to visit for a short time with friends and relatives.

Elmer Smith, of Lancaster, was in this city visiting with friends on Tuesday.

Mr. and Mrs. G. C. Streeter motored to Red Lake Falls Saturday where they were joined by Mr and Mrs. J. J. Helm, the entire party then motoring to Grand Forks to attend the fair.

Mrs. E. W. Hlurichs and children of Crookston, arrived in this city Tuesday afternoon where they will make their future home. Mr. Hlurichs will have charge of the J. C. Penney store that is about to open in this city.

Miss Bet LeSage, who has been visiting with friends and relatives in Crookston for the past few days returned to her home in this city Tuesday.

Miss Marie Thill, who has spent the past week in Red Lake Falls with friends and relatives, returned to this city on Tuesday.

Rev. I. T. Anstad, formerly of this city and who is now stationed at Detroit, spent Tuesday here attending to matters of business.

Mrs. A. Wangenstein returned to this city from Greenbush on Tuesday, where she has been visiting with friends.

Miss Lylnelle Schuster left Tuesday afternoon for Crookston where she will visit with friends.

Mrs. A. O. Wiste, accompanied by her granddaughter, Miss Emma Hanson, left Tuesday for Fertile where they will make their future home.

Mrs. Ordeon Olson, of St Hilaire, shopped and visited with friends in this city on Tuesday between trains.

Miss Elizabeth Johnson returned to St. Hilaire Tuesday afternoon after spending a few days in this city visiting with Mrs. James Smith.

Herman Aakre returned to this city Tuesday after spending a period of two weeks at Bandiette.

Miss Thea Haugen, of Gatzke, was among the out of town shoppers in this city on Tuesday.

Rev. and Mrs. E. R. Weeks and daughter, Doris, arrived Tuesday evening from Greve City, and will be the guests of the formers parents, Mr. and Mrs. J. J. Weeks.

D. Ellis, of Lomn, N. D., was in this city Tuesday attending to business matters.

Dr. Burns, of Minneapolis, who is a state health officer, spent Tuesday in this city conferring with members of the board of health.

Mrs. O. A. Grimandson of Plummer was in this city Wednesday to consult physicians and to shop.

Miss Jessie Rankin, of Badger, who has been visiting with her sister, Mrs. E. S. Rankin, of Mahnomen, visited Tuesday with friends in this city.

Mrs. H. F. Hanson, of St. Hilaire, was among the out of town shoppers in this city on Tuesday.

K. Jordeshaugen, of Goodridge, who has been confined to the Physicians hospital of this city for some time, was discharged Tuesday and returned to his home.

Andrew Reichaul, of St. Hilaire, was in this city Wednesday attending to business matters.

Mrs. G. Evenson, of Kratka, visited with friends and relatives in this city on Tuesday.

C. Engen and son, Harry, of Holt, were business visitors in this city Tuesday.

Mrs. Nordand, of St. Hilaire, shopped and visited with friends and relatives in this city between trains Tuesday.

Mrs. Hagaud, of Cannon Falls spent two days the past week in this city attending to matters of business.

Mrs. Bernhardson, of Strandquist, spent a few days in this city the past week shopping and visiting with friends and relatives.

Mrs. Strand left Wednesday morning for Roseau, where she will spend an indefinite period visiting with friends and relatives.

Mrs. J. O. Jevne returned to her home in Strathcona on Wednesday morning after spending a few days in this city visiting with friends.

Mrs. R. D. Meadows left Wednesday morning for Middle River where she will visit for a few days at the A. B. Isaacson home.

Miss Margaret Eichhammer, who has been visiting for the past week at her home in Grand Forks, returned to this city Wednesday morning.

Captain Allen of the 16th Field Artillery of the 4th Division, which is now stationed at Camp Dodge, visited with Sergeant Vance B. Hunter between trains Tuesday. The 4th Division will leave shortly for Camp Lewis, Washington, where they will be stationed permanently. According to Capt. Allen the fact that the division will be stationed in the west has bee a great inducement in the procuring of enlistments. As the territory around the camp is noted for its hunting and fishing districts, the recreational advantages are vastly different from those offered in this part of the country. The Captain says that at least fifty men from Minnesota have enlisted in this division in the last month.

Miss Gertrude Conklin returned to this city Wednesday evening, after spending the day in Pinewood visiting with friends.

Mrs. John Peck, of Lankin, N. D., arrived in this city Wednesday to spend two weeks visiting with her sister, Mrs. Anton Kozojd.

Mrs. H. Erweten and daughters left Thursday morning for Middle River to visit at the John Olberg home for about two weeks.

Mrs. V. Sandstrom and daughters of this city left Thursday morning for Bandiette where she will spend an indefinite period visiting with her brothers.

Mrs. W. P. Davis and children, who have been visiting at various points in the southern part of the state, and who have spent a few days in this city visiting with friends returned to their home in Roosevelt Thursday.

Miss Gertrude Holm, who has been visiting at the Louis Nelson home in this city for the past few days returned to her home in Roseau Thursday morning.

Mrs. Ray Thuse left this city Thursday morning for Gatzke, where she will make her future home.

Mrs. James Farr, Jr., and little son returned Thursday from Grand Forks where they have been visiting for the past week.

Perl Mabey and family returned to this city Wednesday from Lake City where they have been visiting for the past three weeks. They made the entire trip in their Franklin sedan.

Mr. and Mrs. B. E. Dahlquist left Wednesday by car for Alexandria where they will visit for a short period. From there they will continue to Minneapolis.

Miss Hazel Supero arrived in this city Wednesday evening to spend a period of three weeks visiting at the Supero home.

B. W. Briggs of Clarion, Ia., arrived in this city Thursday morning to spend a few days as guest of R. B. McWilliams.

Geo. Hendel motored here from Minneapolis Thursday morning and will spend a few days as the guest of C. Halvorson and daughter, Ruby.

Misses Gena and Helga Satre, of Grafton, N. D., spent Sunday visiting with friends in this city.

Mr. and Mrs. Harold Page Miller, formerly of this city, motored over from Crookston Tuesday to join the tourists who went to Warrond to boost the Pennington County Fair.

Dr. Sommerfelt, of Greenbush, was in this city Wednesday attending to business matters.

Mrs. Oscar Feltman, of St. Hilaire, was among the out of town shoppers in this city Thursday.

## MOVE TO NEW BANKING HOME SATURDAY

Historical Society

### FIRST AND PEOPLES BANK TO OCCUPY MODERN BANKING HOME SOON

The First and Peoples' State bank will move to their new banking home next Saturday, located in the building recently, purchased by them and fitted into one of the choice banking houses of the city. The new location is in the Scandia block directly across the street from their present location.

The new home of the First and Peoples is one that the city can point to with pride. The interior is finished with mahogany furniture and fixtures and gives the place a rich appearance. This bank also has one of the thickest and strongest vault doors in the entire northwest and have a safety deposit department second to none The lobby is finished with Lavandu and Velned Tennessee marble and the front with Bedford stone. All thru the establishment presents a neat and rich appearance and is designed for convenience and accuracy.

A directors' room is arranged for in the rear of the building and a special feature is the room that is provided for the adding machines, which will eliminate much noise from the bank proper. The entire plan is founded on efficiency and promptness, and is one of the neat and attractive show places in the northwest.

The bank will be open Saturday for the reception of visitors. and the officers and directors will be on hand to attend to every want and to see that all visitors are conducted thru the establishment. Special music has been arranged for from four in the afternoon until nine in the evening and souvenirs for all visitors have been arranged for.

The history of this bank shows a pheonominal growth and the officers and directors can point with pride to the record established. The First State bank was organized in 1892 with a capital of of $10,000. The Peoples bank was established in 1906 with a capital of $30,000. On December 17th, the two banks consolidated under the present name with a capital and surplus of $90,000 making it one of the oldest banks in the county.

The record maintained by the two banks previous to the consolidation has carefully been held to with the result that that the present institution today stands among the strong and reliable banking houses of the northwest and is a credit to the entire county.

## D. CHRISTENSEN MEETS DEATH SATURDAY

### HORSE HE WAS RIDING. FALLS, CRUSHING OUT HIS LIFE—DIED SUNDAY

Dan Christenson, son of Mr. and Mrs. Carstan Christenson, living four miles northwest of this city, met a tragic death Saturday evening near the city limits when the horse he was riding stumbled and felt upon him, crushing him so badly that he died the following day.

As near as can be found out, Dan, who hud started to town horseback, started racing with an automobile and when near the Great Northern tracks, the horse stumbled and fell, crushing the rider. The lad was taken to the hospital at once where e was given medical attention, but due to the fact that he was bleeding internally it was hard to do anything for him. Sunday afternoon at three o'clock he died from hemmorage of the stomach. During all his suffring from the time he was injured, the boy never lost consciousness and until he died was fully conscious of all that was going on around him.

Very few outward injuries were apparent. The bone in the nose was broken and it is thought the skull was crushed high up, but despite this he remained conscious until the end.

The deceased was tweaty-three years of age at the time of his death and was single, making his home with his parents. His untimely death is a severe shock to his family and many friends thruout this community. The sympathy of all is extended the family in their great loss.

Funeral services will be held tomorrow afternoon and interment made in Greenwood cemetery.

WANTED—HOUSES TO RENT. Apply P. J. Bottem.

### ST. HILAIRE DAY

Tomorrow will be St. Hilaire day at the Pennington County Fair. Fifty automobiles will arrive in this city from St. Hilaire and will parade around the track at 1:20. Each car will be decorated with banners showing the proper booster spirit and this day is to be turned over absolutely to the visitors from St. Hilaire. Every resident of this city is asked to extend the glad hand of fellowship to the visitors from St. Hilaire tomorrow.

## FASTEST BALL GAME OF YEAR LAST SUNDAY

### GONVICK TEAM PROVES A BIT TOO MUCH FOR LOCALS—SCORE 7 TO 5

One of the cleanest aud hottest ball games of the season was played at the Fair Grounds last Sunday afternoon when the local team met the Gonvick aggregation. The game was bitterly contested from start to finish, but the Gonvick team had the advantage all the way thru the game and when the final ining was over the score board showed a total of five for Thief River and seven for Gonvick.

The work of George as pitcher was marvellous and reflects much credit on his ability. He apparently had the Gonvick team at his mercy all thru the game and with his wonderful whip easily retired them when it became necessary and the game looked tight.

Lawrence played a good, fast game as also did George at short. Jonas at third also played a good game and handled his end of the game from start to finish in a manner that would do credit to a professional.

The locals play Gonvick at that place next Sunday and it is more than likely there will be several rooters from this city accompany accompany the team to that town for the final show down. Several big games have been booked for the near future and the city is to see a wonderful exhibition of the national pastime in the immediate future. The local team are playing some real baseball and are deserving of better support. They have outplayed their opponents all the way thru the season and have shown marked ability as compared with other teams that have played here. The Gonvick team was composed mostly of salared men and they came loaded for the local organization. The result was not exactly as this city would have had it but nevertheless it was without question one of the cleanest and best games played on the local diamond this year.

## *Good Boosters*

### ST. PAUL BOOSTERS ARRIVE IN FULL FORCE LAST SATURDAY MORNING

The St. Paul manufacturers and jobbers on their boosting tour thru the northwest arived in this city last Saturday morning exactly on schedule time and were greeted with a large representation of citizens of the surrounding community. The boosters were unanimous in their expression that this city was the banner of them all in hospitality. The entertainment committee had provided automoblies for those who cared to use them and the boosters were shown the city and much of the surrounding country as the time would allow.

The Minnesota State Band, which accompanied the party, gave a splendid concert on the streets and made a hit with everyone. Community singing was also a part of the program and the children of the city turned to with a will and helped put the program over in great shape.

Several talks were made by members of the party and much praise was given the city for its appearance and evident booster spirit. The members who could find the time, called on customers and made new friends and enjoyed themselves generally. Everyone was happy, full of good cheer, and the city is much better off for the visit of the boosters. They will find the latch string out any time they wish to return and Thief River Falls will do her best to prove to the outside world that she has a bunch of boosters right here at home that can handle their end of the program when it comes to anything in the boosting line.

WOULD LIKE TO BUY SECOND hand baby carriage in good condition. Box 1054.

## CIRCULATION CAMPAIGN COMES TO CLOSE SATURDAY

### Over 2300 New Names Added To Circulation List, Giving The Tribune The Largest Circulation in Pennington County

Saturday night, July 31st, at eight o'clock, the greatest automobile prize campaign for worth-while prizes ever conducted in northern Minnesota came to an end.

And today are announced the winners of the great prize race, as decided by the judges, after careful checking and tabulation of all the automobile campaign records and vote totals.

Mrs. Edward Singer, of Erie, was announced as winner of the first prize, a Buick "Six" five passenger touring car, costing $1,790. No more luxurious or sturdy automobile could have been obtained as a prize for awarding in this great campaign—and there is not a person in the territory who does not heartily congratulate Mrs Singer upon her wonderful victory.

This prize was won by actual merit, conscientious application and continual effort. Mrs. Singer started in the race late in the game, but determined to make up for this late start by working harder than ever—and did so. From the day she entered the race until the last day of the great prize race, she did not lag for one moment.

It is true that there were times when the issue was in great doubt—when she herself was discouraged and disheartened. But—and this more than anything else shows the true genius of the real worker—She kept on in spite of every discouragement—and won.

The car, which was purchased from the Peoples Auto Company of this city was delivered to Mrs. Singer immediately at the close.

The winner of the second grand prize, the Overland "Four" touring car was Gunder Tviet, of Golden Valley. This automobile, which retails at $1,090, is one of the sturdiest and most dependable light cars on the market. Evolved as a compromise between the speed and strength of the heavy automobile and the lightness and flexibility of the small car, it is a wonderful automobile— one of which the winner can be more than proud.

Mr. Tviet was an early entry—one of the first to start work. But, really the fact of an early entry had little to do with his victory.

Following these two grand prizes, which totaled in value nearly $3,000 there awarded district prizes.

In the first district O. L. Cronstrom of this city, takes first prize $125 in gold.

The second disrict prize, $75 in gold was taken by Mrs. Edwin O. Erickson of this city.

Of the other candidates in this city, district number one, to take cash prizes, Harry Lund took the third prize of $65 in gold; Mrs. T. J. Rowum, te fourth of $50 in gold; and Robert Halvorson, the fifth of $25 in gold.

Miss Sylvia Pierson of St. Hilaire, is winner of the first second district prize.

Miss Martha Albin wins the second prize of $75 in cash.

And The Tribune feels that congratulations is due—for the handling of the campaign makes a record to be proud of. But there are even greater and more earnest congulations due the workers in the campaign, who put up, from first to last, a clean fight, an honest fight and a fight worth watching To those workers who failed to win, the management of The Tribune can but say—"Better luck next time." It was not the fault of the contestants that they did not win—it was the fault of the terribly strong competition engendered by those who are today announced as winners. Competition there was—hot comptition and hot rivalry and hot fighting. But the fighting was fair and the competition clean.

## SUNDAY PROVES TO BE A BAD DAY FOR AUTOISTS

### CARS UPSIDE DOWN IN EVERY DIRECTION AND IN EVERY AVAILABLE DITCH

Sunday seemed to be a bad day for autoists in this vicinity as several cars found lodging in the ditch and but for the timely arrival of aid there would be several severe cases to report.

George Christo went into the ditch at the junction two miles north of the city. He was accompanied by three of his children and James Rutloff. The reason for the accident is given as the result of the front wheels catching in the truck, between the boards that are put down at the crossing, and the rail, and in swinging the car out of the groove he shot off to one side of the road and almost went into the ditch. In attempting to avoid going into the ditch the car was swung quickly back the other way with the result the car landed on the opposite side of the road, bottom side up. Rutloff was pinned under te car for a matter of fifteen minutes until help came along and the car was lifted off him. The three small children of Mr. Christo and himself were fortunately thrown clear of the car and escaped without injury. Mr. Rutloff also got off luckily with a bruised shoulder and a scratched face. The car was damaged but little the wind shield suffering the majority of the damage.

Lars Buck and nephew who reside east of Goodridge, also had a severe upset when the Ford car they were driving on the state road fourteen miles east of the city took the ditch and ended bottom side up with both occupants pinned underneath. Gust Gulseth, of the Rambeck-Stone company of this city happened along and noticed the predicament the men were in and lifted the car off the nephew and then propped the car up against the bank with a board long enough to get Mr. Buck out. The worst injured of the two was Mr. Buck and he seemed to be unconscious of where he was or what had happened when he was pulled from under the car. When asked if he was hurt, no information of a definite nature was received and he was placed in an automobile headed this way and taken to this city where he was found to be in good shape and returned to his home.

## D. P. O'NEILL IS RE-APPOINTED TO GRAIN BOARD

### APPOINTMENT BY GOVERNOR IS FOR A THREE YEAR PERIOD

D. P. O'Neill was re-appointed as a member of the Grain Appeals Board by Governor Burnquist last week for a term of three years. Mr. O'Neill was first appointed to serve the unexpired term of N. J. Holmberg when the latter was appointed state commissioner of agriculture. The Minneapolis Tribune gives the following account of the appointments:

"Louis Hanson of Ada was appointed a member of the Duluth State Board of Grain Appeals late yesterday by Governor Burnquist. He will succeed J. F. Ingeroll whose term expired. Former Senator D. P. O'Neill of Thief River Falls has been reappointed on the Minneapolis State Board of Grain Appeals. He was first named to serve the unexpired portion of the term of N. J. Holmberg of Renville, when the latter was appointed state commissioner of agricuture. Other appointmeats made by the governor were Vernon Gates, Rochester attorney, to succeed Judge Theodore Schacht, resigned, and Nicholas B. Moran, Crookston attorney, as judge of the municipal court in that city, filling a vacancy caused by the recent death of Judge L. E. Gossman."

### Auto Races at Fair

At the last minute the fair board have arranged for auto races on the last day of the fair, Friday. The races will be free for all and a substantial purse has been provided for the winners. Any and everyone may enter these races, whether they are local residents or from a distance. There have ben six outside cars entered for these races, among them being two cars from Winnipeg, one car from Bemidji, one car from Hallock, one car from Crookston and one car from Grand Forks.

In addition to the auto races on the last day, the fair board announce there will be motorcycle races each day of the fair, starting with the first day and continuing to the close. Some exceptionally clever racers have been signed up for the motor cycle races and it is expected that these races will be well worth witnessing.

### Excellent Photograph

Elsewhere in this issue of The Tribune will be found a photograph of the sweet clover field of Chas. Kittleson. This field of thirty-five acres represents a small fortune in itself as it is estimated that there will be a yield of from $7,000 to $9,000 in seed. In addition the soil is improved to a great extent and innoculated for the production of larger and better crops of other grain. There are several small acreages of sweet clover in the county this year and there will be more next year. Pennington county is due soon to be classed as the leading sweet clover county in Minnesota—and more than likely the whole United States.

## FAIR OPENS TOMORROW IN FULL FORCE

### EXCELLENT LINE OF ATTRACTIONS SECURED AND FAIR TO BE A HUMMER

Tomorrow the big Pennington County Fair opens its gates to what no doubt will be one of the largest crowds that has so far attended the fair. Everything is in readiness and it now looks as tho this was to be the banner fair of all years. Visitors from all sections are planning on attending the fair and from every indication there is certain to be the largest attendance on record.

One bad feature that cannot be overcome is the fact that one of the flying stunts arranged for by the fair board has been cancelled due to a smashup of planes. The fair board received a wire that the attraction of the Minneapolis News which was to appear here is called off and cannot make the fair. Other attractions however have been secured to take the place of this attraction and in view of the fact that the attraction of Art Williams who does all that anyone could be asked to do in connection with furnishing thrilers from an airplane. In addition the fair board have secured the great Sigfried, who holds the championship as a ski jumper and who is reputed to be the only man giving this exhibition. Brancel & Dog, slack wire artists have also been secured for the fair and they guarantee to furnish more fun and amusement to the square inch than any other attraction that has ever been given in the county. The Savages, who perform on the mechanical revolving ladder, are also coming and these people also stand high in their chosen line of work.

Additional attractions in the form of wild west performances have been booked and include the best that the Pat Houlet Company have to offer in this line. Bucking, rope throwing, fancy and trick riding are some of the stunts this company pull off. They also will have a free for all bucking contest for special prizes. In addition Pat Houlet, holder of Western championship for bulldogging, will put on an exhibition of that darng western sport where man contests with a steer, throwing the animal by sheer strength and holding him helpless. This is considered one of the biggest features of all Western roundups and will no doubt attract a larg crowd.

The International Flying Circus have wired the fair board that it can furnish a wing walker to take the place of Lieut. Lurrahee of the Flying Circus and while he does not do the parachute drop his work on the wings is said to be of the highest order and full of thrills.

The booths in the Auditorium are practically complete and the displays of the local merchants are unique and attractive. There are fifteen booths to be occupied by the local merchants and some have secured factory demonstrators to be here during the fair demonstrating their various products.

The art exhibit will also be housed in the Auditorium and tickets for the fair grounds also admit to the auditorium without extra cost. The exhibits in this department are of the highest order and everyone should make it a point to visit the Auditorium bfore the fair ends.

### Anderson-Ostmoe

Peurme J. Anderson and Tillie A. Ostmoe, of this city, were united together as husband and wife Thursday evening at the Zion Lutheran parsonage, Rev. Geo. Larson officiating in the presence of Arthur Ostmoe a brother of the bride and Linda Anderson a sister of the bridegroom. Their many friends in Thief River Falls extend hearty congratulations.

### Can What You Can

With raw products high, sugar high, and labor high, canned products will be high this coming winter. It behooves every housewife to can all the fruit and vegetables she is able to get hold of. If sugar is not available, can without sugar and add it when the can is opened.

## COUNTY CENSUS RETURNS SHOW LARGE INCREASE

### RETURNS RECEIVED BY COUNTY AUDITOR ANDERSON ARE HIGHLY PLEASING

The census returns for this county just completed have been received by County Auditor Andersen and show an increase of near three thousand over the census of 1910. The present census shows a population of 12,091 a against 9,376 in 1910, or a gain of 2,715 over the returns of 1910. The reports by townships and incorporated districts is as follows:

| | |
|---|---|
| Black River township | 160 |
| Bray township | 163 |
| Clover Leaf township | 247 |
| Dear Park township | 300 |
| Goodridge township | 139 |
| Goodridge village | 231 |
| Hickory township | 360 |
| Highlanding township | 1.7 |
| Kratka township | 373 |
| Mayfield township | 224 |
| Nordon township | 333 |
| North township | 789 |
| Numedal township | 143 |
| Polk Centre township | 187 |
| Reiner township | 390 |
| River Falls township | 352 |
| Rocksbury township | 606 |
| St. Hilaire village | 346 |
| Silverton township | 280 |
| Smiley township | 124 |
| Star township | 109 |
| Thief River Falls, city | 4,685 |
| Wyandotte township | 230 |
| **Incorporated Places** | |
| Goodridge, village | 231 |
| St. Hilaire, village | 346 |
| Thief River Falls, city | 4,685 |

## *New Citizens*

### RESULT OF EXAMINATION LAST FRIDAY INCREASES CITIZENSHIP BY NINE

Nine new citizens was the result of the hearing held at the court house last Friday, two were soldiers and seven civilians. Those who applied for naturalization papers and were declared citizens are Bjogat Tarjersson Roysland, of Erie; Hans Kristian Johansen, city, who also petitioned the court to change his name to Rastad, and which petition was granted; Nels Laurid Neilson; Hans Hermanson, city; Halvor Olson Ryen, city; James Tolriff, city; Sever Johnson, Erie; Peder Salo, Kratka; August Jacob Oden, city.

There were several other names that were up for decision but there were many matters to be taken into consideration and several details to be attended to that the court did not have the time to look after and they were continued until a later date when the court decided to hold another examination.

### In Woman's Sphere

Grand Rapids, Michigan, has its first police woman.

Watts, Calif., as a woman mayor, elected two to one over her opponent at a recent election. It also has a woman city clerk.

### BEATS ALL RECORDS

The Tribune in announcing in the last issue that the tomatoes grown by Henry Hadrath of this city are the first to be produced this early in the season, finds that the statement is misleading and is glad to report that Mrs. S. J. Anderson of 522 Red Lake Boulevard, holds the record for the earliest ripe tomatoes. Mrs. Anderson states that she picked ripe tomatoes out of her garden on July 19th and has been picking them every day since that time. She is using the variety of tomatoes that are hardiest and which will yield the earliest. She obtained the seed from Dr. Gambell, who managed to crawl under the wire a few days ahead with early tomatoes, and Mrs. Anderson has found this variety to be the best possible to secure and the earliest grown in this section. The Tribune is glad to make this correction and to give the credit to whom it belongs. We feel quite certain there will be none claim an earlier record than this and that Mrs. Anderson holds the undisputed championship of Pennington county as the first to gather ripe tomatoes from her own garden.

# Local News

Norbert Holzkaecht left Saturday evening for Minneapolis, where he will visit a brief period with friends and relatives.

Miss Florence Bredeson, who has been visiting with her sister in Duluth for some time past, returned to her home in this city Saturday evening.

Morris Mabey left Saturday evening for Lake City this state where he will visit with friends and relatives for one week.

Emil Olson returned to this city Saturday evening from New London where he has spent the past few days visiting with friends and relatives.

Paul Snyder, of Warren, visited with friends in this city between trains Saturday evening. He left on the flyer for Minneapolis.

Miss Margaret Jorgenson of Plummer arrived in this city Saturday evening to spend a few days visiting with friends.

M. S. Jansen left Saturday evening for Sherburne, N. Y., where he will spend a period of three weeks visiting with the H. B. Purdy family. When he returns he will be accompanied by his wife, who has spent the past three months in that place.

Sergeant Yancy B. Hunter, recruiting officer, who has been stationed here for the past ten weeks, left Sunday evening for Minneapolis. All the officers at the small stations are to be called in during the month of August, as there is small chance of getting any recruits among the farm districts during harvest time, and more men can be gotten from the city alone. A station will most likely be re-opened in this city again around September first, and it is very probable that the Sergeant will be sent back for a short period. Sergeant Hunter will be discharged from the army September sixteenth.

F. C. Kozlo and Sidney Burton arrived in this city Saturday evening to spend the week end visiting with friends.

Mrs. R. G. Cook, accompanied by her sister, Mrs. R. Anderson, who has been visiting with her for the past week left Saturday morning for Roseau, where they will spend a week visiting with friends and relatives.

H. A. Drummond left Friday evening for Minneapolis where he will spend a few days attending to matters of business.

Leon Stanton, who has been employed with the Lambert Drug company left Friday evening for Green Bay, Wis., where he will visit with friends for a time. He will also go to Omro, Wis., before returning to this city.

Mr. and Mrs. C. M. Wilson, who have been visiting with their daughter in Lafayette for the past month, returned to this city the first of the week.

Mr. and Mrs. T. P. Anderson and family left Friday morning for Warroad where they will spend the remainder of the week.

Emil Chomnik left Friday evening for Minneapolis where he will spend a few days attending to business.

Roy Lambert, who has been visiting with his mother in Detroit for a brief time returned to his home in this city Friday evening.

Edwin and Clayton Bakke of Warren who have been visiting with friends and relatives in Bemidji for some time spent Friday in this city visiting.

Mrs. John Nybus of this city left Saturday morning for Holt where she will attend some Mission meetings which are being held at that place.

Norman Peterson, who was formerly employed in this city, and who is now assistant secretary to Congressman Steenerson, passed thru this city enroute to Roseau where he will meet Mr. Steenerson. Mr. Steenerson is up in that district to attend an old settlers picnic which was held Sunday. He will also do some canvassing in this part of the country.

Mrs. Oskar Vignaes, who has spent the past two weeks in this city with her parents, Mr. and Mrs. John Efteland, returned to her home in Shelly Saturday afternoon. She was accompanied by her niece, Miss Reba Vignaes.

Miss Carrie Ellingson of Rugby, N. D., who has been visiting for the past three weeks at the Perry Engelstad home, returned to her home Saturday afternoon.

Mr. and Mrs. Ed. Olson, who have been visiting Chas. Gustafson for a brief period returned to their home in Fresno, Cal., on Saturday.

Mr. and Mrs. G. C. Hedden motored here Friday from their home in Thompson, N. D., to visit with friends. They left Saturday evening for Crookston.

Miss Bernice Paskewitz, who has been spending her vacation with her parents in this city, returned to Fargo, N. D., where she is employed.

Mrs. Tod. Hobson, of Warren spent Saturday in this city visiting with friends and relatives. She left in the afternoon for Crookston where she will spend an indefinite period visiting with friends.

Misses Marie Nelson and Irma Johnson left Saturday afternoon for Crookston where they will visit with friends over Sunday.

Misses Roselin and Grace Carney who have spent the past week in this city with their sister Mrs. C. W. Barden returned to their home in East Gand Forks Saturday.

Geo. Bendel, who has been visiting in this city for a brief period, returned to his home in Minneapolis Saturday. He was accompanied by Miss Ruby Halvorson, who has been visiting for the past two weeks with her father in this city.

Mr. and Mrs. Onf Nesse and family left Saturday afternoon via auto for Erskine to spend the week end with the latters parents.

Miss Dorothy Baxter, of Williams was in this city Thursday visiting wih friends and relatives.

Miss Stella Michelson of Holt arrived in this city Tuesday to spend a few days with friends and relatives.

## When the Worker Loses

The spirit of efficiency permeates the business life of today to such an extent that the very pulse of commerce has experienced a quickening that is noticeable. Yet much of the benefit of efficient business methods is lost through the worker's inefficiency due to physical inefficiency.

A sick worker is a poor workman. He is a loss to himself in wages and a loss to his employer in production. Much sickness is caused not by work or physical unfitness, but rather through the waste of energy caused by faulty nerve action, which so weakens the system that the body becomes an easy victim of ailments and diseases.

The successful, healthy business men know that to succeed, to keep up with the strain and demands of the times, they must be fit. They must conserve every ounce of their energy and power. Many of them have found that they can best do this through

**CHIROPRACTIC**
THE BETTER WAY TO HEALTH

because it corrects the cause of faulty nerve action and permits Nature to bring about the normal distribution of energy. Health and vigor usually follow. Chiropractic (Ki-Ro-Prak-Tic) is drugless. Every one should investigate Chiropractic because of the greater material benefits to be derived through it.

**MORTGAGE FORECLOSURE SALE**

Notice is hereby given that default has been made in the conditions of a mortgage given by, Bert O. Roisland and Bella Roisland, his wife, to the Citizens State Bank of Hazel, (A Corporation, under the laws of the State of Minnesota), Mortgagee, dated the 2nd day of December, 1916, and recorded in the office of the Register of Deeds of Pennington County, Minnesota, on the 5th day of December, 1916, at eight o'clock A. M., in Book Fifty-eight (58), of Mortgages, on page One Hundred Thirty-four (134), thereof. That the said Citizens State Bank of Hazel has paid the taxes assessed against the premises described in said mortgage for the years 1916, 1917, 1918, and 1919, amounting in all to Two Hundred Ninety-six Dollars, Forty-nine Cents ($296.40). That the amount claimed to be due on said mortgage at this time, including said taxes, is One Thousand Two Hundred Sixty-four Dollars Eighty-two cents ($1,264.82). That the premises described in and covered by said mortgage are situated in Pennington County, Minnesota, and described as follows, to-wit: Lots Two (2), Three (3), and Four (4), of Section Three (3), in Township One Hundred Fifty-two (152), North of Range Forty-one (41), West of the Fifth Principal Meridian, containing One Hundred Forty-five and Fifty-one Hundredths acres, (145.51), more or less, according to the Government survey thereof; that by virtue of the power of sale contained in said mortgage, pursuant to the statutes in such case made and provided, said mortgage will be foreclosed by the sale of said premises, at public vendue, to the highest bidder, for cash, by the Sheriff of Pennington County, Minnesota, at the East front door of the Pennington County Court House, in the City of Thief River Falls, Pennington County, Minnesota, on the 11th day of September, A. D. 1920, at ten o'clock A. M. of that day, to satisfy the amount then due on said mortgage, including said taxes, together with the costs of such and Seventy-five Dollars ($75.00) Attorney's fees, stipulated in said mortgage and fixed by law.

Dated this 24th day of July 1920.

Citizens State Bank of Hazel,
Mortgagee.
By Theo. Quale,
Its Attorney.

Theodore Quale,
Thief River Falls, Minnesota,
Attorney for Mortgagee.

**Service Demands Tremendous**

At this time there is scarcely a central station company for electricity which is able to supply the demands made upon it for power for industrial uses.

In 1919 the 7,243 central station companies in the United States generated 39,559,000,000 kilowatt hours of energy and employed 100,000 men. This current was carried over more than 87,000 miles of high tension transmission lines, serving, in addition to the many industrial plants, more than 8,000,000 homes with light and supplying light and power to more than 1,000,000 business establishments. Over 5,000,000 electric motors were in use at the end of the year.

As to the future, it is estimated that there yet remain in the United States 14,000,000 homes to be wired for electric lights, 150,000 industrial establishments to be equipped with electric power and a possible electrical furnace load of tremeadous proportions. With a steady increase in population and industrial growth, the future field of the industry seems to be limited only by the conditions established governing its ability to attract investors to furnish new capital so as to make the extensions necessary to meet the increasing demands for service.

**Minnesota Potato Exchange News**

The Board of Directors held a three days meeting this week and organized by electing as president Senator James Cummins, East Grand Forks, vice president, H. O. Bjorge, Lake Park, and secretary-treas., H. B. Plummer, Hawley.

Contract for sales agency was signed with the North American Fruit Exchange for all the potatoes and other vegetables controlled by the local associations.

For general manager of the Exchange was chosen A. W. Aamodt, manager of the Clay County Cooperative Certified Seed Potato Growers' Association. Previously Mr. Aamodt held a position as county agent of Beltrami County.

Mr. Ludvig Mosback has tendered his resignation as a member of the Board of Directors.

The Board resolved to handle the produce for farmers where they were not able to organize legally, that is where they cannot get seven members, to incorporate. The Exchange will handle their produce for 15c per 100 lbs. for one season only.

## Look At It in Any Way

our milk is the very best you can use in your household. First, because of its absolute purity and sanitary cleanliness. Next because of its superior richness and therefore in nourishing quality. Finally because in spite of its admitted superority in every way it will cost you no more to use it. Why not at least, then, give it a trial?

### BOOKKEEPING COURSES FOR POTATO GROWERS

Because a good many of the potato and produce associations recently organized in Minnesota are anxious to install accurate systems of records, the division of agricultural economics, University Farm, St. Paul, plans to give a series of short courses at various points in the state, the aim of which will be to explain and to demonstrate suitable book-keeping systems.

Those who are interested in having such a course in their part of the state should address: Extension Agent in Marketing, University Farm, St. Paul.

### Vicissitudes of Koh-i-Noor

All the world has heard of the Koh-i-noor or, as it has been sometimes called, the Great Moral diamond, and it would seem that there was nothing more to be said about it. Yet, in point of fact, not a tenth part of its history has even been traced, so far does it extend back into the vistas of the past.

Perhaps one of the strangest things about it is that it cannot be lost to the world indefinitely. It was bricked and plastered up in a wall and miraculously found after its former owner had been murdered. It was twice thrown away as a bit of glass and once it went to the laundry in the pocket of an Englishman's linen suit.

This matchless gem is called in India the "Mountain of Light" and the "Talisman of Kings," the latter because it was said to bring sovereignty to its possessor. Strange enough, after it fell into the hands of a Turkish slave of illegitimate origin, a line known as the "Slave Kings" sat on the throne of Delhi for eighty years, during which period the desire to possess the talisman amounted to a frenzied obsession. Suddenly it disappeared from their possession in the chaos of slaughter that brought the slave dynasty to an end in 1290.

The Koh-i-noor later scintillated without bloodshed thru the reign of Shah Johan down to his son, Aurungzeb, who exhibited it to a number of Europeans whom he was entertaining at his court. Among them was Tavernier, the French jeweler, who later wrote a descriptive account of it for the delectation of Europe.

After being tossed about a shuttlecock in the Delhi loot, and remaining for a period of years with the Sikhs in the Punjab, this most celebrated diamond in the world now rests on a purple velvet cushion among England's crown jewels in the grim old Tower of London.

### Automobile Prices

A rumor in th automobile world to the effect that prices of cars had recently been reduced in Omaha has been found incorrect. Investigation shows that there have been no actual reductions in the prices of new cars, but there is hope in the fact that proposed advances by manufacturers have been temporarily deferred.

### GEORGE McKERROW WOOL MEN'S AGENT

Arrangements have been made with George McKerrow, one of the best sheep men of the northwest, to represent the Minnesota wool selling associations in Chicago. Mr. McKerrow is to do the work on a strictly cost basis at a charge of $10 a day for time actually spent in the work, plus railroad expenses.

F. L. French, secretary of the Minnesota Farm Bureau association, in notifying the wool selling associations of the appointment of Mr. McKerrow, urges that all the associations consign their wool before August 1, unless unavoidably delayed by their inability to get cars.

THIS WILL ASTONISH THIEF RIVER FALLS PEOPLE

The quick action of simple witch-hazel, campbor, hydrastis, etc., as mixed in Lavoptik eye wash, will surprise Thief River Falls people. One girl with weak, strained eyes was helped by a single application. Her mother could hardly sew or read because of eye pains. In one week she too was benefited. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. F. J. Stebbins, druggist. T-2

## SAMSON TRACTOR COMPANY BRINGING OUT A NEW TYPE OF TRACTOR

For months it has been known that General Motors Corporation at its Samson Tractor plant at Janesville, Wisconsin, was preparing to undertake the manufacture of a decidedly "different" sort of light tractor in hitherto undreamed of quantities. Naturally not a little curiosity was excited over what sort of a tractor would finally be announced, the sort of work which it would accomplish, and what it might sell for to the user.

All these questions can now be answered. Formal announcement has just been made by General Motors Corporation that the Samson Iron Horse—known at the factory as Model "D,"—is a four wheel drive, short-turn tractor, which drives like a team—with lines. The user will be able to obtain an Iron Horse at the sensational price of $630, F. O. B. Janesville, Wisconsin, and will have a machine which it is claimed will do all the work that might be expected of three horses, in addition to performing belt power work such as grinding, shelling, sawing wood, running a cider mill, portable sprayer, etc.

No doubt the Samson Model "D" Tractor will be called "The Iron Horse" by both users and dealers the country over—for that peculiarly descriptive name exactly suits it—tells the whole story in three words.

Since the Samson Iron Horse drives with lines, the operator is able to handle both the tractor and an additional implement or vehicle, alone and unassisted. Riding on the implement, he will be able to drive and at all times control the operation of the tractor by means of the lines. A pull on the right line turns the tractor to the right, a pull on the left line causes it to turn to the left and a slight pull on both lines brings the tractor to a stop.

In draw-bar work, the Iron Horse will easily handle a two or three horse grain drill, a single disc, a harrow, a mower, a corn-planter, a two row corn cultivator, a bean and sugar beet cultivator, a corn binder, a three horse plow, a hay rak. or tedder, a wagon with a hay loader, a road ding, scraper or grader. And when a new cultivator, corn planter or mower is needed, it is not necessary for the owner of an Iron Horse to buy the entire new machine, as special attachments are provided for the Iron Horse at about half the cost of the whole new implement.

Though but now being formally announced for the first time, the Samson Iron Horse has been tried and proved beyond a doubt, for it has been in actual use on farms in various parts of the country for more than a year, undergoing every sort of a field test. All tests having proven satisfactory in the highest degree, the Samson Tractor Company is now formally announcing the Iron Horse and the gigantic Janesville plant of the Company is engaged in quantity production.

The Iron Horse is the second tractor model being manufactured by the Samson Tractor Company, for the Samson model "M" Tractor was bought out a little more than a year ago. It is a heavy duty machine for pulling two or three bottoms and equipped with pulley for all sorts of belt power jobs. The model "M" Samson tractors are being shipped in quantities of a hundred or more per day, and now that the Iron Horse is formally announced, the organization hopes soon to be shipping like quantities of the new model. This new model, as well as the Samson model "M" trucks and Samson farm implements are being sold locally by the People's Auto Company.

## LOS ANGELES TERRA FIRMA IS MORE TERRIBLE THAN FIRM, WOMAN WRITES

In response to a request by the mayor of Los Angeles that residents write their friends "back East" the truth about the earthquakes, Mrs. Harris, 37 Mariposa avenue, Long Beach, Calif., formerly of Minneapolis, promptly complied. She apparently failed to consult the real estate and climate boomers before taking her pen in hand, although she agrees with them to the extent that earthquakes are not so bad if one only gets use to them.

The letter just received from Mrs. Harris follows:

"Dear Friends: The mayor of Los Angeles is asking the people here to write to our friends back East and tell the truth about the earthquake. Well, the shakeup they had at Los Angeles July the 16th was not as bad as might have been. It just shook the soul's out of some of the big buildings there, and shook down chimneys. No one hurt. They had three shake's that day, and one the 17th, and another one the 20th, so that makes 16 shakeups we have had. They say if you stay here a couple of years you will get used to them.

"The one they had at Los Angeles the 16th just raised right up about a foot and dropped down again. It done it twice, and then started to jump sideways. We did not feel this one here at Long Beach but we did feel the last shake of that day. It sure gives you a funny feeling. You do not know what to do till it is all over with, or I did not. I was so scared that I could not run out of doors. I do not want to feel another one but they have them every summer here some place.

## FAMOUS CLOWN COMING TO FAIR

Billy Willy, one of the most famous clowns in the world, and his pet donkey, Buster, will be one of the leading features of the big animal show at the Minnesota State Fair, Twin Cities, Sept. 4 to 11. Buster is the best little pal in the world to his clown-master, but the minute a stranger comes near, he becomes ugly and unruly. Many have tried to ride Buster, but none have succeeded—except his owner.

"People at Los Angeles are leaving as fast as they can get a house in some other town. And some are going back East. The people that drove out here with their car if they could get gasoline enough to go they would, but there is n gas shortage here just to raise the price or to keep the people from going back East.

"They say the earthquakes are not as bad as the cyclones you have there but for me I would rather take the cyclone. The folks here try their best to keep these things from the papers back there, as it will keep folks away from here. But if there is anybody that wants to come here to live, come and find out for yourselves. We are not sorry we spent the money we did out here as we sure found out for ourselves what it is here. It is not what it is bragged up to be.

"Well, friends, I have not got the time to write to all of you so I am sending this to the paper, and I hope you will all get an eye on it. Minneapolis could be very popular if it was boomd like it is here. And they would not have to tell lies about it like they do here."—Minneapolis Tribune.

*There's always room at the top*
*for Highest Possible Quality at Lowest Possible Price*

THERE was plenty of room at the top for a cigarette of tip-top quality at a rock-bottom price. That's where Spur comes in. And that's where Spur stays. For men who judge a cigarette by its looks, by its blend, by its taste—well, Spur was made for them. Spur's new blend of choicest Oriental and American tobaccos brings out to the full that good tobacco taste. Spur's satiny imported paper, crimped (not pasted) makes an easier-drawing, slower-burning cigarette. Spur's smart brown and silver packet, three-fold, preserves the Spur flavor and fragrance.

Money can't buy anything better!

PLENTY OF COAL

There is comfort, the cold comfort it may be, in the announcement that there is plenty of coal—in the ground. At a recent convention of coal experts, it was reported that the hard coal in this country will not give out for 150 years, and soft coal is virtually inexhaustible.

J. W. Paul, chief coal mining engineer of the United States Bureau of Mines, is quoted as saying that there is enough to supply the American people for 6,000 years. Few persons have any interests extending beyond that time. It is a period as long as the traditional age of the world. If the soft coal last as far into the future as from the present time back to Adam, there is no need of worrying.

Some coal men may question these figures. They are not given as accurate, there is no possibility of comparing the future population of the country and its fuel needs, but anyone who has looked into the matter will grant that not even the remotest generation in which living men and women have any personal concern will lack fuel if any reasonable care is taken of the supply.

The ignite deposits alone in Montana and North Dakota, as yet hardly touched, amount to trillions of tons. That coal, and its products, will be found useful for countless generations when the accessible veins of anthracite and bituminous have run out.

However, what the people want now is coal on top of the ground—not in the ground.

ALL OF US

It takes all sorts of people to make a world. If you stand on a city street you will see a dilapidated, run-down, good-for-nothing woman. You size her up. She has little in common with what the world knows to be a woman. Why is she here? Could she by any chance mean anything to any man? While you thus interrogate yourself, a man, of the same general character, comes out of an alley, approaches the woman, speaks to her, and the light comes into the woman's eyes, the light of acquaintanceship and esteem.

The host that rides the Pacific into the far north Alaskan waters carries the billionaire for a summer outing and the stoker who keeps the fires going under the boiler.

The clerk in the bank who wearies himself with figures and accounts is only twenty feet from the president who owns the controlling stock.

A republican plumber, sweaty and grimy goes out of the home of the democratic citizen to repair a leak in the gas pipe.

The colored wash lady, with toes protruding from her ragged shoes, enters the palatial home of the woman who is entertaining the bridge club.

The lawyer fusses around in moldy volumes to find some loophole for the profiteer or law violator.

The preacher, burdened with financial or other troubles in his own home attends three funerals in one day and speaks words of comfort to the bereaved.

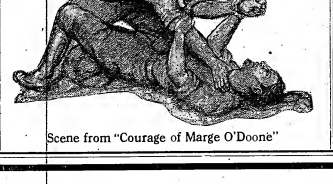
Down in the city slums the children of the poor see the green vegetation only when they go into the miniature breathing spots surrounded by colossal buildings. Out on the farm the ruddy cheeked youngsters carouse in the cooling waters of Sugar Creek or ride astride the family pony.

The street sweeper pursues his objectional work that fair women may pass on unsoiled pavements.

The farmer works fourteen hours a day to feed the city workmen who wants his day cut down to six hours.

It takes all of these people, the wealthy, the poor, the indolent, the thrifty, the high and the low, to make a world and a nation. Bring all of them from the Atlantic to the Pacific, from Canada to the Gulf, bring them all together into a vast congregation. What a heterogeneous mass! How do they get along together with different aims in life, with different wishes and ideals and likes and dislikes? Oh, they get along pretty well they constitute the American republic in which each has is function and one man as the same fights and protections as the other. The street sweeper is as important as the merchant, each being one part of the great mechanism of self-government.

Americanism!



A GOOD PLATFORM

Exchange: Speaking of platforms, Thomas Jefferson, first of the democrats, wrote as good a platform as any. It contained 10 planks and 98 words. Jefferson called it "A Decalog of Cannons for Practical Life," and here it is:

1. Never put off till tomorrow what you can do today.
2. Never trouble another for what you can do yourself.
3. Never spend your money before you have it.
4. Never buy what you do not want because it is cheap; it will be dear to you.
5. Pride costs us more than hunger thirst and cold.
6. We never repent of having eaten too little.
7. Nothing is troublesome that we do willingly.
8. How much pain have cost us the evils that have never happened.

This is a platform strong enough to hold democrats, republicans, and nonpartisans; suffragists and anti-suffragists; wets and drys.

Old Stuff? Surely! Jefferson wrote it in 1825. But, in general, it is still to be put into practice by most folks

Scene from "Courage of Marge O'Doone"

# The Little Giant Shows Open Tonight

**The Little Giant Shows, which are booked for the Pennington County Fair, announce that they will open with a full line of amusements on the Fair Grounds Tuesday evening, August 3.**

# LABOR SHORTAGE IS NOTHING TO FARMER WITH TWELVE SONS

### JOHN BIRZER, BARTON COUNTY, KAN., DIRECTOR OF OPERATIONS ON SEVERAL QUARTER SECTIONS OF LAND

As John Birzer, prosperous farmer of Barton County, Kansas, stood quietly gazing at his many acres of ripening wheat near Ellinwood, a stranger, in attempting to fathom his thoughts, probably would have jumped at the wrong conclusion. For John Birzer, sweeping his wheat with thoughtful eye, was not perturbed by the thought which upsets the peace of the great majority of wheat belt farmers at this time of year—the problem of the harvest.

To John Birzer, director of the farming operations on seven quarter sections of land, the question of man power to handle his wheat is the least of his worries. John Birzer, be it known, has twelve sons. Every one of them lives at home and all of them, except Leo, the "baby," is a potential factor in driving away the specter of a help shortage.

That is why Mr. Birzer smiles when he reads of the competition for men, the padded wages which almost wreck the profits of a year's work, the inability to get help while "the wheat won't wait." He smiles affectionately at his sons, then at his only daughter, Mary, 17, as she flits about helping her mother.

The Birzer children, twelve sons and the daughter, range in age from 1 to 21 years. There isn't a pair of twins in the family and the ages of nine of the older children span only nine years. The two oldest boys, John and Joseph, are each farming a nearby quarter "on their own," but under the direction of their father and with the help of their brothers when necessary.

Mr. Birzer who is of German stock, is 55 years old. Mrs. Birzer is 44. The family has lived in Barton County more than thirty-five years, improving and adding to their holdings until the Birzer place is one of the best in that section. The twelve sons and Miss Mary were all born on the present farm and the present farm house shows in its architecture the growth of the family, wings having been added and lengthened as the number of children increased. In a short time, however, the Birzers will move into a new, thoroughly modern 8-room home near the older residence.

A visitor recently asked how such a large family was kept in contentment when city wages and entertainment were luring the children of others. Mr. Birzer denied he had any formula and laughed at the suggestion his family was unusual.

"Boys sometimes get tired of the farm and sometimes there is difficulty keeping them at work," he said. "But we're happy here, fairly prosperous, respected by our neighbors, I believe. I don't suppose it is possible I shall always have my boys with me. But I do believe the most of them will be saved to the farm."

Perhaps that's the secret. Mr. Birzer's success as father, neighbor and farmer certainly can be used as an ideal by his sons. Perhaps a certain old country discipline, which admits the father to be the head of the house, has something to do with it. Mr. Birzer, as one who has wrestled with the vagaries of nature many years, is not an easy conversationalist. His plans and his aspirations he keeps to himself.

The boys themselves, healthy, cheerful fellows, were rather surprised when asked how it happened they all still were at home. It is the wish of father and mother, they explain simply.

The work of the Birzer farm and home as been lightened as much as possible by labor-saving machinery. Two tractors are used on the farm and a lighting equipment furnishes power for the house. The new home will have all the conveniences.

The duties of being mother to such a large family are not considered particularly onerous by Mrs. Birzer. Her appearance would appear to prove it. She is active, cheerful, and to a casual glance her dark hair doesn't show a trace of gray. She laughs at the suggestion that sending boys off to school in squads of five is anything except pleasure.

"And I have Mary to help me," she added.

Mary's position, of course, as an "only sister" to twelve brothers is rather delightful. Let any "only sister" in a family of four or five multiply the attentions and favors she receives from her brothers, and she will understand Mary's place in the Birzer home.

"What do you do when the boys fall out among themselves?" Mrs. Birzer was jokingly asked.

"I don't know what I would do," she retorted, "it hasn't ever happened yet."

First National Bank Building

OFFICERS, DIRECTORS and EMPLOYEES of

FIRST & PEOPLES STATE BANK

*Will be at home to friends and customers in their* NEW BANKING HOME

Saturday, August 7th, 9 a. m. to 9 p. m.

No Business Will Be Transacted After 12 O'clock Noon

From then till 9 o'clock in the evening, the whole attention of the Officers, Directors and Employees will be devoted to personally conducting you and your friends thru our home. This is your opportunity to inspect the very latest devices being used in banks today — the adding machines, statement machines, check protectors, filing systems, burglar proof safe, etc. Of particular interest is the mechanism of the huge door to our safe deposit vault.

We are not going to describe our safe deposit vaults, ladies' rest room, Directors' room and enlarged lobby, because we want you to come and see them for yourself. Every part of the bank will be open to inspection. Everything is new and modern, light and airy. Every Guest is Invited to Register at a Desk in the Lobby and

TAKE PART IN THE PENNY GUESSING CONTEST

The pennies in a glass jar will be divided equally among the three persons guessing nearest the number in the jar, and placed to their credit in our savings department. If a winner has no account, one will be opened for him.

There will also be Souvenirs and Music.

EVERYBODY IS INVITED. You know our Officers, Directors and Employees; if not, we want you to call and get acquainted with them and the kind of a bank we have.

### Farm Women No Slackers

The shorter hours ful has not struck the women on the farm. They are working at least thirteen hours a day.

The Nebraska of Agriculture has made a survey of 300 Nebraska farm homes and found the situation this:

Only thirty percent of farm homes have running water.

Sixty-five percent of the women carry water an average of fifty-five feet.

Only seventeen percent of farm homes are lighted by electricity or gas.

Ninety-nine percent of farm women are doing the family washing and ironing.

Twenty-eight percent of these are still washing with a board and tub, and only twenty percent have gas or electric irons.

Less than three percent of farm women work in the fields.

Twenty-three percent help care for livestock and forty-two percent help with milking.

Women produce ninety-five percent of the poultry products.

Ninety-eight percent of farm women bake their own bread.

Ninety-seven percent do the family sewing.

Fifteen percent of farm homes have bath tubs.

Seventy-seven percent have kerosene stoves.

### Looks Hard

Men and women of America must take off their hats to the farm woman. She is making her generous contribution to the comfort of all of us. When we are disposed to complain at high prices next winter we should think of these long, strenuous hours the farmer's wife—not to mention the farmer himself—is putting in. We hope both these industrious workers will get their share of the prices we must pay.

Life on the farm has its joys, its independence, its nearness to nature, its peace, its beauty—but—we must confess that these figures dug out in Nebraska make it look hard for the farmer's wife. All this record of achievement does not count the meals—and big meals, too, she must prepare; the hired man, or two, or more, boarding in the home all summer; the innumerable pies she must make; and the long hours she must stand and wash dishes—not only table dishes, and cooking dishes, but also milk dishes!

There are certain peculiar conditions and necessities which make almost inevitable an ultra-strenuous life for the women on the farm during the summer. It is not harmful for healthy adults to work hard and vigorously; but to be overcrowded with too heavy work, so continuously and so insurmountably as to be disheartening, is a pity. Something ought to be done. There is never a widespread living condition so discouraging but it may be remedied if those concerned are first informed as to the need of a remedy, and second possessed of the will to better the situation.

While farming is not a get-rich-quick occupation, yet, if wisely conducted it affords reasonable returns to say the least. Among these reasonable returns is money enough to procure gradually "modern conveniences." There is no reason why farm women should not have running water in the house. It is surely necessary than they do the washing and ironing during the busiest season, especially with primitive equipment. If worse comes to worst, there is the public laundry ready to serve by doing family washings. It could be taken back and forth to town on the regular trips. This might cause some inconvenience and forethought but it could be arranged. The bakeries are able to relieve the country women as they do many town women, during busy seasons. Some of the garments could be purchased ready made.

One chief cause of farm women being so over-worked is that they too patiently accept the habits handed down to them, and take too little pains to save themselves work. They assume too much. Their ambition is commendable, as is their desire to save money and help the family purse; but, if it means overstrain and doctor bills or shortened life, or even impoverished life from too close application, it is poor economy.

Many of us have, from instinctive conservatism, refused, time and again to consider the improvements our husbands have suggested for our household machinery. They have added improved methods to their out-door work; but we have remained out-of-date in our equipment. If our husbands are thoughtless and do not realize the need of modern equipment in the home, then it is the place of the wife to tell him what household labor saving devices are doing for some of the neighbors—how much their use is sweetening home life. Quote to them the following:

"Painless, waterless, lightless, cheerless, heatless farm homes have driven his many more farm boys and girls to the city than have been attracted by the city's so-called 'Bright Lights.'"—County Agent.

One of the best ways to improve life on the farm is to first inform yourself. Send to your state agricultural college or to the Agricultural Department at Washington and ask for literature on the betterment of farm homes. Much is being done along these lines in some states and reading matter with pictures illustrating is available.

### Happy Thought

Where love is thick, faults are thin.

## SOCIETY

### Theater Party

Mrs. E. M. Stanton pleasantly entertained a number of girls at a theater party last Saturday afternoon. After attending the matinee they all retired to the Stanton home where a delightful luncheon was served. Those present were Misses Ruth Mahey, Harriet Morgan, Alice Gohler, Camille Warner and Margaret Melgaard. The affair was in honor of Miss Ruth Mahey, who has been a guest at the Stanton home for some time past.

### Mrs. Johnson Entertains

Mrs. Albert Johnson entertained nin of her lady friends at her beautiful home south of this city on Saturday afternoon. The afternoon was spent in fancywork and conversation, and at five-thirty a hounteous luncheon was served. A very enjoyable time was reported by all having the pleasure of the afternoon.

### Birthday Party

Miss Rosine Dahlen entertained a number of her little friends on Thursday afternoon in honor of her eighth birthday. The afternoon was pleasantly spent playing games, and at five light refreshments were served. Miss Rosine received many beautiful gifts from her little friends. Those present were Helen and Jane Protzeller, John and Robert Chommie, Janet and Geraldine Connell, Dorothy Eriksson, Justuf Larson, Eugene Erickson, Glen Bakke and Marjorie Ann Fuller. A delightful time was reported by all.

In honor of her third birthday, little Ruth Schuster entertained twenty-five of her little friends at her home on Friday afternoon. The little guests represented butterflies, and Ruth was the queen. The afternoon was spent in playing games on the lawn and at five-thirty refreshments were served. Little Miss Schuster was the recipient of many beautiful gifts. An exceedingly enjoyable time was reported by all having the pleasure of the afternoon.

Mrs. R. L. Barackman entertained a few of her friends at a six o'clock dinner at the parsonage Tuesday evening. Covers were laid for six.

### Entertains at Breakfast

A delightful affair was a 9 o'clock breakfast given by Miss Bauche Johnson at her home south of this city on Sunday morning. Those having the pleasure of the affair were Merriam and Morlan Bishop, Mary and Charles Prichard, Laura Stoppel and Alice Peterson.

*Successful* Canning and Preserving

IT ISN'T all knowing how and taking pains. You've got to have good equipment to insure against loss of your time and waste of valuable food.

We take great care to obtain the canners, jars, jar holders, and racks, rubbers, etc., that are known to be the most successful.

Come in and talk it over with us.

# EXHIBITION FLIGHTS at THE FAIR

The Reineke Aircraft Company of Fargo will be here each day of the Pennington County Fair and will make exhibition flights and take passengers in their airplane. The plane will be in charge of Lieut. C. L. Roberts, an experienced pilot, and those who wish to take flights will be given an opportunity on each day of the fair. For further information call on G. Howard Smith, Secretary of the fair.

# Make Our Store Your Headquarters

While taking in the big Pennington County Fair make this store your headquarters. If you get tired and want to rest, drop in, we will be glad to have you whether you buy or not.

And remember that we carry a full and complete line of hardware at all times, priced right. Everything needed on the farm and in the home can be found at this store.

Visit our booth at Auditorium.

**Hermanson Hardware Co.**

"Where Quality Counts"

# Judges Announce

# THE WINNERS

## In Tribune's $3,600 Automobile Campaign

**Below appears the complete list of winners, in the great $3,600 co-operative circulation building campaign, just closed by the Semi-Weekly Tribune. These winners were given their respective standings after careful checking and tabulation by the judges, representative men of Thief River Falls, in no way connected with the Tribune or prejudiced, whose names are appended to the list as published.**

**Every one whose name appears as that of a winner, really WORKED---every prize is given as the reward of real merit. The Tribune congratulates you.**

**Winner of the $1,790 Buick 'Six' Touring Car**
Mrs. Edw. Singer, with . . . 10,100,000 Votes

**Winner of the Overland 'Four' Touring Car**
Gunder Tviet, with . . . . . 4,000,000 Votes

**DISTRICT PRIZE WINNERS**

| District No. 1 | | | District No. 2 | | |
|---|---|---|---|---|---|
| 1. $125 | O. L. Cronstrom | 3,047,500 | 1. $125 | Miss Sylvia Pierson | 1,775,000 |
| 2. $75 | Mrs. Edwin Erickson | 2,883,000 | 2. $75 | Miss Martha Albin | 1,028,000 |
| 3. $65 | Harry Lund | 2,302,000 | | | |
| 4. $50 | Mrs. T. J. Rowan | 1,552,500 | | | |
| 5. $25 | Robert Halvorson | 632,000 | | | |

**The race is over, the prizes won, the long grind of hard work is done. It has been a hard race---true. It has been difficult at many times---there have been obstacles that would have halted the average worker at once, but those entered in the Tribune's great race stuck and won! AND THE TRIBUNE CONGRATULATES EVERY ONE OF THEM.**

# Local News

Miss Jackson of St. Hilaire, was in this city between trains Thursday attending to business matters.

D. E. Perrie of Pitt was a business visitor to this city Thursday.

Miss Selma Johnson of Warren arrived in this city Thursday evening where she will spend an indefinite period visiting with her sister, Mrs. G. C. Swenson.

Edwin Johnson returned to this city from Pinewood where he had spent the day attending to matters of business.

Peder Olson and daughter, Marie, who have been visiting with friends in Pinewood for a brief period returned to their home in this city Thursday evening.

Andy Smith, who has been visiting for the past few weeks at the L. Higgins home in Nebish, Minn., returned to his home in this city Thursday.

Miss Minnie Sherva of Hazel visited between trains on Thursday with Miss Alma Thune of this city. Miss Sherva left on the flyer for Minneapolis where she will spend an indefinite period.

Mrs. O. L. Hanson of Viking spent Thursday in this city shopping. Miss Mae Hanson her daughter, who has been employed in Detroit, arrived in this city to meet her mother in the evening and they both returned to Viking Friday morning.

Misses Sophia and Rovena Yotter, who have spent the past two months visiting with Mr. and Mrs. J. O. Yotter of this city, returned to their home in Fort Madison, Iowa, Thursday evening.

Gust Gustin of this city left Thursday evening for Austin, Minn., where he will be employed.

Mrs. Germundson and son, Lawrence, of Plummer, returned to their home after spending the day in this city.

Mrs. Clarence Trail of Viking Spent Thursday in this city visiting with friends enroute to Forest City, Ia., where she will visit with her parents for about two weeks.

Mrs. H. O. Swenson and daughter, Fern, of Montrose, who have been visiting in this city with Mrs. Anna Wedmer and Mrs. M. Bakken for the past three weeks returned to their home Tuesday.

A. S. Sapero left Tuesday evening for Chicago and other points in the east on a fall buying trip. He will be accompanied by his brother from Chisholm.

## LARGEST E... IN THE SECTION CLOSES TO CLOSE

### GATE RECEIPTS ON SECOND DAY TOTAL $3600—TWICE AS MUCH AS LAST YEAR

This is the last day of the big Pennington County Fair and all who have attended admit that this is the best and biggest fair that has so far been attempted by the local society.

The gate receipts on the second day were twice as large as they were last year on the second day. The total receipts for the second day this year including grand stand were $3,600. Of this amount $3,000 was taken in at the gate and $600 at the grandstand. The receipts last year amounted to are even $1,800, making the total for this year exactly twice as large, which means the attendance was twice as large as the admission remained the same as last year. The receipts for the first day were something over $600 and it is estimated the receipts today will run probably twice that amount, making this the largest attendance since the society was organized.

Of particular interest to the majority was the base ball tournament. On the first day Thief River Falls played the team from St. Hilaire and easily defeated the visitors by a score of 12 to 1. The game yesterday was between Red Lake Falls and Grygla Red Lake Falls winning easily by a score of 19 to 3.

Today the deciding game of the three is to be played between the two winners, Thief River Falls and Red Lake Falls. The two teams are hot rivals and this alone is sufficient to draw a large crowd.

The free attractions were pleasing and varied. There was everything from horse-rearing down to bulldogging a steer. The International Flying Circus gave a mighty fine exhibition with their airplane and many hairraising stunts were performed by one of the aviators from the wings of the plane. The real thriller was when he hung from his feet to a rope underneath the plane from a height of perhaps three thousand feet. This stunt was sufficient to raise the hair on the head of a wooden man and is exciting in the extreme. Walking about the plane and climbing on top while high in the air seemed easy work for the daring aviators and he was in the air most of the day performing his unique and thrilling stunts.

The shows and concessions were well handled and clean above the average. Many new and different features were presented for the approval of the public and all present seemed to have a good time and to enjoy the day to the fullest.

The exhibits were exceptionally fine. Goodridge was on the job with an extraordinarily fine exhibit of farm produce. Goodridge can always be depended upon to be at the front with the best in the field and many were the compliments paid this exhibit. The Minnesota Grain Board were present with a demonstration of how grain is graded and tested and this proved especially interesting to those who attended the demonstration. Every movement made by the board in the testing of grain from the time it arrives until it is finally turned over to the commission men was shown in a clear and concise manner and was especially interesting to the farmers and those interested in the growing of grain.

Taking everything as a whole the entire matter may be summed up in a very few words—the fair this year has eclipsed any and all previous affairs, both in point of attendance and exhibits. It is without question one of the most successful of all fairs and Secretary G. Howard Smith places the large attendance due to the liberal use of printers' ink. Every newspaper in the surrounding territory was used and no other method of advertising was employed, with the result that the largest and best of all fairs has been brought to a successful conclusion and everyone fully satisfied with the outcome.

## PEAT FIELDS SHOW GREAT CROP RETURNS

### INVESTIGATION MADE RECENTLY SHOW FIELDS PRODUCING BIG

An article of especial interest to a great many people in this section of the state appeared in a recent issue of the Minneapolis Tribune with reference to the peat fields in and near Ansted, in the central portion of the state. In view of the fact that here are great peat fields in the eastern part of Beltrami county, some 80 miles from this vicinity and as there has been much talk of experimental activities along this line, the article will no doubt prove interesting to those interested in the reclaiming of peat and land the producing of crops on this soil. The article referred to follows:

Members of the Civic & Commerce association's Northwest development committee were shown how peat lands could be made to yield bumper crops in an automobile tour on which they inspected the state's peat experimental fields on Coon creek and the farm of Simon Kruse, near Anoka.

Dr. F. J. Alway, director of the division of soils of the College of Agriculture directed the inspection. He exhibited peat lands which were supporting excellent crops and told an expenditure of $25 an acre in potash and fertilizer the first year and an expenditure of $6 an acre thereafter made the ground fertile. Oats which it was estimated would yield 75 bushels an acre are shown on Mr. Kruse's farm. Prospering fields of flax alfalfa and barley also were viewed.

## TRI-COUNTY FAIR DATES ARE ANNOUNCED

### PLANS LAID FOR BIGGER AND BETTER FAIR THAN EVER—WORK STARTED

The dates for the Tri County Fair to be held at Goodridge have been set for Monday and Tuesday, September 20 and 21 this year. This is the second annual fair of the three counties, and their first fair, which was held last year proved to be an unusually large success and the enthusiasm over this event has carried into the fair this year with all their might and main and it appears as tho they were going to have one of the best fairs possible.

The exhibits last year were a marked feature of the fair. The school building was crowded to the roof with exhibits of produce that were of the very highest order and proved the value of that section as a crop producer. Of special interest to those from this district who attended the fair last year was the large and interesting amount of farm products, chickens, stock and grains that were on display. Some of the county's finest grains were grown in the Goodridge vicinity last year and these were displayed to an appreciative audience. It is claimed this year's exhibits will eclipse those of last year if such a thing be possible.

A great many from this city attended the Tri County Fair last year and a great many more plan to attend this year. It is only proper that this city should lend their support and encouragement to the Tri County Fair. They are entitled to all we can give them and it is the duty of every person in this section to lend their hearty support and attend the fair if possible.

### Get Big Increase

The greatest single advance of transportation rates in the history of government regulation, $1,500,000,000 was granted to the railroads of the United States in a unanimous order of the interstate commerce commission last Saturday. The rates, allowed to enable the roads to meet the increased equipment and to finance the increased cost of operation produced by the war, are:

Western freight rates 25 per cent
Eastern freight rates 40 per cent.
Mountain Pacific freight rates, 25 per cent
Southern freight rates 25 per cent.
Milk rates, 20 per cent.
All passenger fares 20 per cent
Excess baggage charges 20 per cent
Pullman sleeping and parlor car rates, 50 per cent surcharge.

The roads will put the increased rates into effect by Sept. 1 when the six months' government guaranty period ends.

### Rice Bros. Show

Rice Bros. famous show and trained animal exhibition will give two performance afternoon and night at Thief River Falls Monday, August 9, under mammoth waterproof tents, this is the show that you have been waiting for. Rice Bros. World-Toured shows that have pleased millions of people for many years. Everything in the way of trained animals from the smallest monkey to the largest elephant you will see, also big electric, trapeze performers, aerial acts, acrobats graceful gymnasts wire walkers and funny clowns. Come to town early and witness the grand free exhibition which takes place at the show grounds before each performance. Show at 2 and 8 p. m. rain or shine.

## GOING BACK AFTER SOME MORE MEDALS

## SWEET CLOVER COMING INTO HIGH FAVOR

### PHOTOGRAPH IN THIS ISSUE OF CHAS. KITTLESON FIELD SHOWS VALUE

On page four of this issue of The Tribune appears a photograph of the sweet clover field of Chas. Kittleson, three and one half miles southwest of this city.

So much has been said concerning this field that there is little left to mention, but the fact that this small acerage means a tidy fortune is so important that the pounding home of the fact is necessary to the future development of the county. On an acreage of a trifle less than thirty five acres Mr. Kittleson is soon to reap a harvest totaling at least seven thousand dollars. This is from the seed alone, which averages in the neighborhood of twenty dollars per bushel. This is nothing out of the ordinary insofar as sweet clover is concerned and can be accomplished by every farmer in the county without trouble or unnecessary amount of work. The fact that there are several plots now planted and that several plots more to be sown is proof conclusive that this crop is of unlimited value to the farmers of the county in more ways than one.

In addition to the value of the crop, there is another value that cannot be estimated in dollars and cents. In growing sweet clover the land is inoculated in a great many ways, which if done with fertilizer would require years and a great outlay of hard cash to accomplish. And in inoculating the soil, the sweet clover does its full duty by increasing the value of the land, making it possible to produce more and bigger crops, with the result that the value is forever coming in from the growth of this crop and no limit can be placed upon the returns. Not satisfied with merely improving the value of the land many times over, sweet clover yields a snug sum in its' seed crop. Smothering of weeds is another valuable mission sweet clover plays in modern farming and does much to rid the country of foul weeds.

It is worth the time to drive out and see this particular field of sweet clover. Every business man who can do so should take the time to look this field over and get behind the growing of sweet clover. It means much to Minnesota and more to Pennington County.

### Fine Sample of Wheat

A. Myron brot in a sample of wheat this morning grown on his place 7 miles northwest of town. The sample brought in is considered exceptionally fine and shows a mighty well filled head. Mr. Myrom estimates the yield will run in the neighborhood of 15 bushels to the acre and he feels that while this is not the best in the county, it stands a good average. The wheat was grown by his son, Harry, who is farming the place this year, and who has an acreage of 35 acres of the same kind as the sample. The wheat is of the Marquis variety, and has given fine results in this section.

## S. D. ROGERS LANDS IN JAIL AT DEVILS LAKE

### MAKES THIS CITY AND GATHERS IN SUBSCRIPTIONS TO BOOK

S. D. Rogers, "Quaker Minister," is in jail at Devils Lake, N. D., charged with obtaining money under false pretenses. Rogers "worked" this city and will be remembered as the man who was interested in securing a home for the Quakers from whatever place he chimed to hail from. His method of operating was to call on individuals explaining his idea of buying up a tract of land and dividing it into small sections when the entire colony of Quakers would move in and settle down for life, greatly benefitting the community in all ways and help to build up the country. In order to keep himself busy at this work he was selling a book which he claimed explained the methods followed by the colony and the reason for the movement. He managed to sell subscriptions at $5 to several of the local citizens before he finally decided to call on his board of trustees and tell them that he had found the garden spot of the world and that he recommended that they pack bag and baggage and come to Thief River Falls. Visions of a big and industrious colony were plainly seen by several of the local citizens and it was only a question of time in their minds before things in the Quaker settlement would begin to hum and everybody be happy. It was reported that they had purchased a large tract of land and were getting ready to locate here and people generally were interested.

However, instead of calling on his board of "trustees," Rogers lit out for pure and greener pastures to tell the same story to others with the result that he landed in territory where his character was known and where he had little hope of gaining an appreciative audience. As a result he was taken in charge and lodged in the jail at Devils Lake on the above charge. He was placed under bonds of $500 and being unable to furnish them he is still languishing in jail awaiting a favorable turn of fortune in order that he may again regain his freedom and be allowed to sell his Quaker colony to those interested.

The authorities at Devils Lake are investigating Rogers past record and will find out how long he has been operating and where. He is a man well along in years and well versed in theology, particularly the Quaker side of the argument.

When you advertise you go halt way. There's a meeting place for the seller and the buyer of real estate. This meeting place is in the classified advertising columns of this paper. The owner is represented by his advertisement. The prospective buyer turns to these columns—and if the ad exhists his interest the transaction is under way.

### Many Tourists Visit Minnesota

Ivan Cope, secretary of the Ten Thousand Lakes association, St. Paul, estimates that more than 100,000 tourists have already spent portions of their vacations in Minnesota and more are pouring in daily

He estimates that from available figures 25,000 automobiles from other states, chiefly from Iowa, Nebraska, Missouri and the Dakotas, have toured the Ten Thousand Lakes region this summer. Estimating an average of four people to each car, this gives a total of 100,000 men, women and children who have gained rest and health in Minnesota. A large per cent of this travel has been in the region of Itasca State Park. Hotels and resorts of which there are more than 250 in the state, all report capacity business. August is expected to be the banner month.

## BADLY BURNED WHEN GASOLINE STOVE EXPLODES

### H. JOHNSON-- CONCESSION MAN AT FAIR DIES AS RESULT OF BURNS RECEIVED

Henry Johnson, one of the concession men at the Pennington County Fair, received burns from the explosion of a gasoline stove at the fair grounds Wednesday afternoon from which he died at the hospital Thursday noon.

Johnson was operating an eating stand and used a gasoline stove with a pressure tank. While standing with his back to the stove the pressure tank suddenly exploded and Johnson was a mass of flames in an instant after the explosion. He started to run from the tent and but for prompt action of the fair boys would have gained the open and no doubt would have been instantly burned to death. As it was he fell and another concession man in the tent next to the one occupied by Johnson rushed over and pulling up a heavy canvas smothered the flames in a short time. Regardless of this Johnson was severely burned and the skin dropped off his face and arms in great chunks. The only thing that saved his eyesight was the fact that he had with his two fists up to his eyes to keep the flames from reaching them. The bad burn around the face and neck are reports due to a celuloid collar he was wearing at the time, which is as bad as gasoline when ignited.

After the flame was extinguished Johnson walked to a waiting automobile and was rushed to the hospital. On reaching the hospital he got out of the car and walked into the building. It was apparent however that the man had little chance for his life as he was terribly burned about the face, arms and chest and it was only a matter of time until he would die.

Johnson is a man in the neighborhood of 50 years of age and married. His home is at Grand Forks and he has been making the fairs for some time past. The body will be shipped to Grand Forks today for burial.

## Excellent Exhibits at the Auditorium

It would not be proper to overlook the exhibits at the Auditorium in connection with the fair now in force and which ends today and it is to be hoped that everyone in the county saw the exhibits at the Auditorium.

The ladies of the county have worked hard and faithfully to make the exhibit exceptionally fine and we feel quite certain that never before in the history of the county have they done so well as this year.

The merchants of the city also have displays of merchandise and their booths are attractively arranged and call for much appreciation. Every available space in the building is occupied and exhibits from all parts of the county are prominently displayed. It is impossible for us to enumerate the exhibits at this time but they will be given proper mention in the Tuesday issue of The Tribune together with the list of prizes awarded.

The Thrift exhibit of the Woman's Club is decidedly interesting and is one in a thousand. The same exhibit only on a smaller scale was used at the federation meeting held at Warren this spring and at that time the Club took first over the entire district for their exhibit.

Space and time does not permit us to go into the description of each exhibit as it should be, but each exhibit will be given proper mention in the next issue.

## INQUEST IS HELD YESTERDAY IN HOLMSTROM CASE

### S. R. KIRBY QUESTIONED AS TO METHODS EMPLOYED IN TREATING CASE

Apparently the benevolent methods practiced by Samuel R. Kirby, a farmer living in the town of Rocksbury, two and one half miles south of this city, with reference to taking care of sick people does not meet favorably with the authorities of this place and an inquest was held Thursday over the body of Mrs. Carl Holmstrom, of Strandquist, who died at Kirby's home on Tuesday evening.

The evidence from all sources was taken and it was found by the coroner's jury that Mrs. Holmstrom came to her death by advanced tuberculosis but also recommended that the methods employed by Mr. Kirby be investigated by the State Board of Health.

The body was scabbed and blistered about the chest and feet and this condition was the reason for the inquest. A post mortem showed that the deceased came to her death by tuberculosis however and that so far as known the blistering had nothing to do with her death.

Mr. Kirby, who came to this city four years ago, has been taking in patients for some time past and some has as high as fifteen at a time. He is not a licensed physician and therefore is not allowed to charge for his services. The testimony failed to show that he had been charging for his services and consequently he was not indicted by the coroner's jury but the matter turned over to the State Board of Health.

The evidence showed that the blistering on the body was caused by some counter irritant applied by Mr. Kirby, and in the testimony of Mr. Kirby he explained that it was his method of the self-same counter irritant being the same one of the body and in order to relieve tubercular patients he had used this treatment and that it is not injurious. The testimony of other physicians among this line was a trifle discouraging to the testimony of Mr. Kirby and showed that were the same methods applied to a well person it would be highly uncomfortable and would tend to relieve the sufferer to any appreciable extent.

## GRAIN EXHIBITS ON DISPLAY ARE EXTRAORDINARY

### GRYGLA LEADS SO FAR WITH PRODUCTS OF THE YEAR—YIELDS ARE FINE

Those attending the fair this year were given a short insight to the tremendous possibilities existing in this section of Minnesota in raising farm products and excellent results obtained by farmers generally in the raising of bumper crops of the highest order

The neighborhood in and around Grygla have produced some of the finest grains and grasses to be grown in this part of the state. There the condition for the past few years have been the best of the under taking with the proper methods and close application to the highest class of farming the farmers of that territory have developed exceedingly fine crops and are as a result reaping one of the best and largest crops in the history of the country.

It is especially worthy of note that this country, which is considered new, has made rapid strides in the last three years with results hardly to be hoped for. The farms in that section are becoming highly cultivated and improved to such an extent that it is commonly conceded the country in the second highly cultivated and improved to such an extent that it is commonly conceded the country in the second highly cultivated and improved to such an extent that it is commonly conceded the country in the second highly cultivated and improved to such an extent that it is commonly conceded the country in the second highly cultivated and improved to such an extent that it is commonly conceded the country in more ways than one. This is some record and one that the people of the county should hold forth and strive for each year.

Peter Rinland left Monday for Detroit, Mich., where he will be employed.

# Local News

Miss Lodie Anderson of this city, who has been visiting with her sisters in Pentywood, Mont., for the past two months, returned home Tuesday evening.

Harry Wheeler and son, Burton, of Estevan, Man., arrived in this city Tuesday evening to attend the fair and to visit for an indefinite period at the Gust Geske home.

S. V. Bailey, who was formerly of this city and who now makes his home in Mahnomen arrived in this city Monday evening to visit with friends and attend the fair.

Miss Bernadette Deary of Plummer arrived in this city Tuesday evening to spend a few days visiting with relatives. She will also attend the fair.

Mearle Morinde of Argyle arrived in this city Tuesday evening to spend a few days visiting with friends.

Edward Kiland who has spent the past week visiting with friends at Greenbush returned to his home in this city Tuesday.

S. L. Johnson of Hallock was a business visitor in this city Tuesday.

Mrs. Kolstad arrived in this city Wednesday morning to spend an indefinite period visiting at the O. K. Odelie home.

Miss Mary Jevne of Strathcona returned to her home Thursday morning after spending a few days in this city.

Miss Ellen Kostoe of this city left Wednesday morning for Warroad where she will visit for an indefinite period with friends and relatives.

Isak Hoseth returned to this city from Minneapolis Wednesday morning where he had been attending to business matters.

Mrs. Henry of Arnold, N. D. accompanied by Anna Francis and Henry motored to this city Sunday to spend the day at the N. Urdahl home. Miss Anna and Henry returned to their home that same evening, but Mrs Henry and Francis remained in this city for an indefinite period visiting with friends and relatives.

Mr. and Mrs. O. J. Stiles of St. Cloud motored here from their home on Friday and spent the day visiting at the J P. Pederson home. They returned home Saturday.

P. Lundeen of Rhoda, was a business visitor in this city Friday.

Miss Olga Hestad, who has been spending a few days in this city visiting with friends and relatives, returned to her home in Pine Creek Monday.

Andrew Mortenson, of St. Hilaire, who was confined in the Physicians and returned to his home the same day.

Eric Johnson of Strandquist was in this city Saturday consulting physicians.

Miss Cora Christenson, who has been in this city as the guest of Miss Jennette Offedahl for some time returned to her home in Greenbush Monday morning.

Miss Hilda Jorgenson returned to her home in Goodridge Saturday after being discharged from the hospital where she has been to receive medical treatment.

Alfred Larson of Highlanding was in the city Saturday attending to matters of business.

Miss Anna Olli, who has been receiving medical attention at the physicians hospital in this city returned to her home in Plummer Saturday.

Miss Esther Gjertson returned Monday morning from Minneapolis where she has been spending the week end visiting with friends and relatives.

A. Van Voort, of Antelope, N. D., was in the city Saturday attending to business matters.

T. Thorveson of Erie was a business visitor in the city Friday.

Mrs. Ed. Peterson of St. Hilaire was in this city between trains Saturday visiting with friends and relatives and shopping.

Miss Mary Sanders of Kratka, was among the out of town shoppers in this city Saturday.

Mesdames Knutson and K. O. Dock, Misses Alma Nelson and Lois Juhl and Messrs. Ted Medina, Ray Johnson, Kenneth Watson, John Melgaard, Herman Aakre, Ernest Zeh, Jordan Penner, Lake Borque and Fred Will were among those who spent the week end at Maple Lake.

J. P. Pedlundson of Goodridge was in this city Saturday attending to business matters

Miss Edelle Sloan of Vaben, S. D., spent the week end in this city with friends and relatives.

Miss Anna Pederson, who has spent the past seven weeks with friends and relatives in Bethany returned to her home in this city Monday morning.

Mrs. O. Hagen and children of Hoff returned to their home Monday morning after spending a few days visiting with friends and relatives in this city.

Misses Helen Warner and Helen Langseth returned to their respective homes in this city Monday morning after spending two weeks visiting with friends and relatives in Grand Forks.

Mrs. A. L. Syring and daughter, Anna, of Minneapolis who have been visiting in this city with the former's brother, Axel Risberg, left on Monday morning for Roseau where they will visit for an indefinite period with friends and relatives

Miss Elfreda Knudsen, who has been in Minneapolis for some time taking up nursing, returned to her home in this city to spend her vacation with her parents, Mr. and Mrs. B. Knudsen.

George Peterson of Hazel was in this city Friday attending to business.

John Rasmuk returned to his home in Goodridge Saturday after spending a brief period in this city attending to matters of business.

Dr. and Mrs. Froelich and family motored to Maple Lake Sunday to spend the day.

## ERIE

Ed Yantz and Zackarias Hole are haying in partnership this year. The hay crop is a bumper one.

H. O. Rommerdahl motored to Thief River Falls on business Tuesday of this week

H. A. Dahle and Iver Iverson drove to Goodridge Monday. The latter proceeded west for the North Dakota harvest fields

Ted Rustad, Tom Perkins and Christian Amundson gave an exhibition in gymnastics and physical culture stunts Friday evening in the North Erie hall. The audience was small but the performances were well received by the few who "took it in."

## VIKING

VIKING Lad and Kolbein Swedin

Last Sunday evening at the Swedish Mission church the people of Viking took occasion to surprise Student David Segerstrom, who has been here during the past two months teaching parochial school and conducting services on Sundays. After the usual evening services in which Student Segerstrom had preached his farewell sermon, Rev. Drotts, in behalf of the people present, presented him with an envelope containing $62.25 as a mark of appreciation for the work he has done this congregation. Mr. Segerstrom arose and replied with much feeling thanking sincerely for this kindness shown him. The back room doors of the church were thrown open where two tables were set with a very delicious luncheon of which everyone partook. While here Student Segerstrom has been loved and admired by all and the esteem and best wishes follow him to the seminary where he will this year complete his work. Before going back to school he intends to spend some time preaching the gospel at different places in Red River Valley.

Last Sunday at the Swedish Mission church a class of four girls and six boys were confirmed. The names are Lillie Anderson, Vivian Anderson, Esther Drotts, Florence Tangquist, Carl Larson Clarence Benson, Victor Lindquist, Clarence Tangquist, Carl Fransson, Robert Lindell.

Several Viking people autoed to Grand Forks Saturday evening and visited with friends over Sunday.

Miss Helen Larson of Warren spent Sunday with her home folks.

Miss Ida Peterson returned to Warren last week after visiting for some time at the E. Strandlund home.

Dr. and Mrs. Lindquist and baby Eunice left for Minneapolis Sunday where they will attend the funeral of the former's brother, Elmer Lindquist, one of the nation's heroes, who died in Germany April 2, 1919, and whose corpse has been shipped over. Interment will be made in Minneapolis where Mr. and Mrs. John Lindquist have their home.

Nell Axelson and Walter Lindell of Oslo spent Sunday at their homes in Viking.

Saturday, July 24, the ladies aid of the Swedish Mission church, held their annual picnic. Mr. Pitelson of Warren conducted the sale in a very amiable manner. The proceeds netted for lunch and sale were approximately $125.00.

The E. O. Strylland family and Annie Larson autoed to Lake Hasla Friday and remained over Sunday visiting with Ocene Hanson's who are spending several week at the Lake.

Several of the south of Viking people attended meetings in Holt Sunday.

The S. S. Nordgaard family and Miss Hilda Hanson motored to Roseau Thursday evening of last week to surprise Mrs. Carl Boom on her birthday anniversary.

The local ball team played Helgeland at Viking Sunday afternoon, Viking came out victorious, the scores being 5 to 14. Sunday, July 25, the locals were beaten in a game 3 o 0 at Newfolden.

Mrs. Christ Samuelson returned home last week from Helgeland where she has spent some time visiting friends.

Last Tuesday the confirmation class accompanied by Rev. Drotts motored to Warren to get a picture taken.

Next Sunday at Viking the local ball team will play Newfolden. Don't fail to come.

Mr. and Mrs. John Olson returned home from Grand Forks this week, where they have visited friends for some time.

The farmers have been busy haying for some time. Harvesting has also begun.

Ed Bigelow is drilling a well at the Chas Pearson farm.

Miss Esther Halvorson returned home from Grand Forks last week where she has been taking music lessons.

**Order Limiting Time to File Claims and for Hearing Thereon**

State of Minnesota, ss. County of Pennington, In Probate Court.

In the Matter of the Estate of Gabriel Mathesen, Deceased

Letters testamentary this day having been granted to Martin Mathson

It Is Ordered, That the time within which all creditors of the above named decedent may present claims against his estate in this Court, be, and the same hereby is, limited to six months from and after the date hereof; and that Monday the thirty-first day of January 1921, at ten o'clock A. M., in the Probate Court Room at the Court House at Thief River Falls in said County, be, and the same hereby is, fixed and appointed as the time and place for hearing upon and the examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.

Let notice hereof be given by the publication of this order in the Tribune, a semi-weekly newspaper published at Thief River Falls, Minnesota, once a week for three successive weeks according to law.

Dated July 27th 1920.

## TWO MINUTE TALKS TO AMERICANS.

America First Association.

### KEEP YOUR HEAD

*By* JAMES E. FREEMAN, *Rector St. Mark's Church, Minneapolis.*

If ever there was a time when we needed men and women who are capable under all circumstances of keeping their heads, in other words, of maintaining their poise, it is the present. We are swept off our feet, carried afield, and sometimes made to drift by reason of the kaleidoscopic changes that we witness day by day. Nothing is more productive of failure and possible ruin than panic, and panic is almost invariably the direct result of a lost confidence. It was lost confidence that produced the panic of 1907. It was panic now and again in the field that postponed the day of victory in Europe. It was only when the calm, thoughtful, dispassionate Foch took the reins and deliberately planned an action covering the entire line, that the allied troops moved forward, never to stop until they had achieved their end. It was the calm Clemenceau that held mercurial France in hand until the wrongs of 1871 were righted. Yes, it was the well-balanced, deeply thoughtful Lincoln that repeatedly saved this nation during the four fateful years of the Civil War. Would to God we had men of his mould to counsel and direct us today. We are not pessimistic, nor are we panicky. We believe that there is in America a vast reeldoum of common sense. Bryan attempted to sweep this country off its feet with the silver heresy, and before the votes were counted, big business suffered an attack of emotionalism that well-nigh paralyzed it. Every now and again, and particularly in this present hour, through bad leadership or from some other cause, the people of this country sustain a mental panic, and a panic is a dangerous thing. We are facing serious days, but what of it? Haven't we the courage to meet problems as they rise, or are we a spineless insipid people? What we need now is the man with calm, dispassionate judgment and clear vision, yea and the man with deity of conviction. We have no time to deal with demagogues or those who shift their position with every wind of doctrine. Let us not be irrationally optimistic, and on the other hand, let us not be foolishly pessimistic. There is a sane, reasonable, middle ground. Let's find it, and keep it, and, believing in God and the stability of our Government, let us meet the problems as they arise, and do so as fearless citizens of the State.

## When the Worker Loses

The spirit of efficiency permeates the business life of today to such an extent that the very pulse of commerce has experienced a quickening that is noticeable. Yet much of the benefit of efficient business methods is lost through the worker's inefficiency due to physical inefficiency.

A sick worker is a poor workman. He is a loss to himself in wages and a loss to his employer in production. Much of this is caused not by work or physical unfitness, but rather through the waste of energy caused by faulty nerve action, which so weakens the system that the body becomes an easy victim of ailments and diseases.

Successful, healthy business men know that to succeed, to keep up with the strain and demands of the times, they must be fit. They must conserve every ounce of their energy and power. Many of them have found that they can best do this through

CHIROPRACTIC
THE BETTER WAY TO HEALTH

because it corrects the cause of faulty nerve action and permits Nature to bring about the normal distribution of energy. Health and vigor usually follow. Chiropractic (Kih-lo-Prak-Tiks) is drugless. Every one should investigate Chiropractic because of the greater material benefits to be derived through it.

# PULLERS AND DYNAMITE BEST FOR CLEARING CUT-OVER LAND

### AVERAGE OF 500 FARMERS ATTENDED EACH DEMONSTRATION IN STUMPY SECTION

A combination of a stump-puller and 20 per cent dynamite, as a rule, will clear land more satisfactorily and efficiently than will either alone, according to specialists who conducted demonstrations in Northern Minnesota. The train, which before the tour was finished at Moose Lake had visited twenty-six towns in fourteen counties, accomplishing far greater results than was expected. An average of 500 farmers saw each demonstration, and in the wake of the train there is a wave of public interest in land clearing that promises to be the salvation of the section.

Co-operative land clearing clubs are being organized on all sides, in many cases four or five farmers entering into an agreement to buy a single outfit and then assist each other as time will permit. In many instances large orders for machinery and explosives were placed before the train left the demonstration field.

One might expect than an explosive demonstration would have many of the aspects of a circus, but such is not the case. Of course, there are a few stunts for those who attend simply out of curiosity, but the idea of practical land clearing is always back of the days work as a whole. For instance, in "shooting" stumps, it is not the policy to use a heavy charge and blow the stump into toothpicks, but, rather, to use just enough to loosen the roots, shake off the dirt and crack the stump, if it is a large one. Then the stump puller can be used to take out the wood, leaving a hole that often is no larger than the stump itself.

The train ran thru territory in which there are settlers who have been pulling stumps for ten or fifteen years and they know the business as well as many of the specialists. If the demonstrators use a heavy charge some old timer is sure to "blow" that such business is too expensive and another will back him up by pointing out that the new soil turned up will be worth less for two or three years.

The demonstration of stump pulling is as interesting as is the work with dynamite. Several companies have men and machines at each stop and show the farmers how the stumps can be removed most easily and quickly. The fact that men with the train are clearing an average of an acre an hour shows the efficiency with which they work.

Small farmers are especially interested in the "one man" outfits, of which the Kirstin is an example. These machines, comparatively small and inexpensive, pull any of the largest stumps encountered. The larger machines, operated by power, are so hitched that the stumps are pulled continuously, one man being in charge of the windlass, while others attend to hitching the cables onto one stump after another.

Andrew Boss, Farmers' Dispatch agricultural specialist, was one of the University of Minnesota experts who had been with the train since it started. His brother, William Boss, and A. D. Wilson director of extension are other hard-working "professors" who are in working clothes.

The demonstrations are in charge of M. J. Thompson, superintendent of the Northwest Experiment station at Duuth who has figured out what he calls a "delayed system" for land clearing, which, he says, should appeal both to land owners and farmers.

"During the late fall and early winter," he says, "there is usually a period of inactivity that can well be utilized in taking off standing timber and brush, reducing one or more acres annually on each timber farm to the stump stage of clearing. When this course is followed over a series of years there is produced an annual crop of stumps. As these stumps ripen, say in from three to five years, an annual stumping program can be established to correspond with the cutting of the cleared timber. The stumping should be done in the spring or early summer, while the standing timber should be removed in the fall.

"Every spring, after the washings of previous years have been burned, from five to six pounds of mixed grass and clover seed should be sown between the stumps. Within a year this will normally produce first class pasture for dairy cattle. If sown early in the spring it will prevent the growth of brush.

"By this method one can save fully one-third of the cost of stumping ripe stumps as compared to green stumps.

"During the time that the farm is in its stumpy, lean years an annual return of from $10 to $15 an acre can be obtained by the grazing of good dairy cattle."

## Wait!--- Don't Operate!

**Take Sto-li-gal, a doctor's prescription for dissolving gall stones, and complicated sotmach ailments.**

One box gives instant relief in all cases of **GALL STONES**, liver and stomach trouble, such as indigestion, dyspepsia, chronic appendicitis, gas, sour stomach, ulcers, catarrh, pains in stomach and back, constipation, etc. Don't wait but get a box of **Sto-li-gal** from your druggist today. Price $1. Attention! # When potatoes sold —for five or six dollars

*how many bushels did you have to sell?*

## Probably None!

You had to sell at low prices last fall because you had no place to store them. This cost you more than an everlasting concrete storage cellar.

Maybe you can't get cars to ship your potatoes before the frost comes this fall.

## Build A STORAGE CELLER

**and be Independent**

We will furnish you with plans and material

**Prichard Lumber Co.**

## THE TRIBUNE

## *"The New Public Health"*

*Conducted by the Minnesota Public Health Association*

Conducted by the Minnesota Public Health Association.

(Letters on Health addressed to Dr. H. W. Hill, Shubert Bldg., St. Paul, Minn., with a stamped, self-addressed envelope enclosed, will be answered by mail. If of general interest they will be answered in this column, also.)

Question—I cannot understand yet why it should be reported to the Health Office every time my little boy get measles or whooping cough or something. All we get for our troubles is the quarantine—and I think, we troubles have enough from the sickness.

Answer:—Quarantine is not for your good, dear lady, but for the good of your neighbors and their children. You know the measles and whooping cough are "catching." Where did your little boy get them? From some neighbor's child that was not quarantined! You think it is not fair to quarantine your boy, as long as the other one, who gave the disease to him, goes free? Yes—but everything must begin somewhere. If you do not clear the weeds out of your garden, they will spread to other people's gardens. Your garden got it's weeds from other people's did it not? We have to start somewhere don't we? Really though it is not fair for a Health Officer to quarantine some cases only. All cases ought to be quarantined. Then these diseases would stop.

Question—is massaging the eyes good for them? Mine are puffy at times and ache. The rubbing seems to relieve them.

Answer:—Yes, massaging the eyes is good, but only do it with your elbow. Try it and see—your own elbow for your own eyes remember. If this does not relieve them see a physician. Puffy eyes sometimes mean kidney trouble, but anyway don't take chances. Eyes are too valuable.

### POTATOES IN DANGER OF LATE BLIGHT

A warning to Minnesota Potato growers to be on the lookout for late blight, the most destructive leaf disease of potatoes. Mr. Torkas says that the blight can be controlled by proper spraying with 5-5-50 bordeaux mixture, but that it is necessary to begin spraying as soon as the blight appears—or even before, if one wishes to be insured against the disease—and that the vines should be kept covered with the spray solution until the end of the growing season.

### CAMPHOR AND WITCHHAZEL HELP WEAK EYES

Thief River Falls people are astonished at the quick results produced by simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. In one case of weak and near-sighted eyes a few days use brot great improvement. In another case it stopped eye pains and inflammation. We guarantee a small bottle of Lavoptik to help ANY CASE of weak, strained or inflamed eyes. t-3

### FARM BUREAU TO HAVE A DAY AT STATE FAIR

Friday, September 10, is to be "Farm Bureau Dey" at the Minnesota State fair, J. R. Howard, president of the American Farm Bureau Federation, and E. H. Cunningham of the Iowa Federation will be the principal speakers. The executive board of the Minnesota Federation will hold a special meeting in the offices of P. L. French, secretary at University Farm, on Friday, August 6 to make complete arrangements.

### S. E. MISSOURI EDS AT CARUTHERSVILLE

### TABLE OF ADVERTISING RATES ADOPTED AND OFFICERS ELECTED

Caruthersville, Mo.—"What can We Do to Save Our Lives?" was the paramount question discussed at a two-day meeting of the Southeast Missouri Press Association at Caruthersville July 9th and 10th. Its discussion brought out every phase of increased newspaper costs and a consideration of what it is necessary to charge for advertising and subscriptons in order to hold on to existence.

Reports from the National Editorial association were read showing that from a thorough investigation cost of publishing country newspapers has increased from 300 to 400 per cent and that hundreds of papers have suspended and hundreds of others have consolidated. At the same time advertising rates have increased not more than 25 1-2 per cent and subscription rates have increased not to exceed 50 per cent. It was agreed that advertising rates must increase at once if the country newspaper is to be maintained, and a resolution was adopted urging this expedient upon the craft.

Experts presented to the convention figures showing the actual costs of publishing country newspapers, and a general discussion agreed that in order for country newspapers to serve their communities as expected of their subscribers, in fairness to advertisers and the general public, the following advertising rates must be observed:

Papers having 500 or less circulation, 20 cents per inch; 1,000 or less, 25 cents; 1,500 or less, 30 cents; 2,000 or less, 35 cents; 3,500 or less 40 cents; 4,000 or less, 45 cents; 5,000 or less 50 cent.

These figures represent an average net profit not to exceed 10 per cent. Since 1915 newspaper costs have increased 250 per cent, while advertising rates have increased less than 100 per cent by the above table.

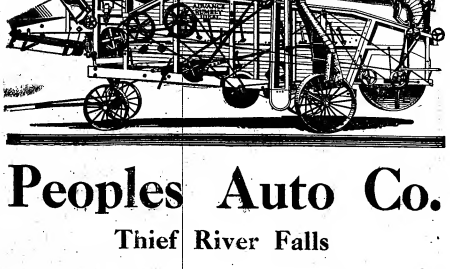
# 6 Big Reasons Why You Should Prefer an Ideal

1 ***Large Capacity***—The Rumely Ideal can't help but be a big capacity machine: it is built on the common sense principle of *keeping the straw moving*. There's absolutely no chance for slugging, winding, choking, bunching or any other hindrance to large capacity, when the straw is *kept on the move* as it is in the Ideal.

2 ***Saving the Grain***—Saving all the grain is just as important as producing it—of course. The Rumely earned the name "Save-all-the-grain-Ideal"—*by saving it*. In any kind of straw—headed, bundled or loose rakings—dry, wet or frozen—the Ideal handles all jobs the same—without waste.



3 ***Clean Work***—This is accounted for by the extra large chaffer area, the adjustable sieve in the shoe, and the Ideal system of wind control—a guarantee of a perfect job of cleaning without waste, under every condition. The Ideal does the kind of cleaning that gets you no "dockage" at the elevator.

4 ***Strongly Built***—One-piece timber can't pull apart, sag or rot, as spliced or bolted members will. The Ideal is a one-piece job—sills, posts, deck rails, straw rack sides. Then, there are the heavy, substantial cranks, and all shaker hanger bearings running in adjustable boxes. That's the kind of construction that *insures* long life.

5 ***No Vibration***—Vibration makes a young machine old before it has served its time—it wears out the bearings and pulls the shafts out of alignment. Counter balancing of all moving parts in the Ideal—perfect balancing of the crank—make the Rumely so steady running that when compared to other separators vibration simply does not exist.

6 ***Easy to Operate***—You don't have to crawl inside the Ideal to get at the working parts. All bearings, concave adjustments and regulation of the blast are on the outside of the machine, also all oil and grease cups, where you can take care of them while the Ideal is running.

**The Ideal is built in five sizes—22x36, 28x44, 28x48, 32x52 and 36x60.**

## WAGES AND PROFITS

The effort of the fair price boards in various districts to standardize profit percentages, if carried on all over the country with fairness and good judgment, is likely to have even more far-reaching good effect than its pioneers hoped for.

In the confused condition of markets for necessaries, there has been general feeling that enormous profits were being made. The unsettlement was so great that no previous standards of judgment seemed to hold, and no one could tell whether a manufacturer, jobber or merchant was "profiteering" or not. The tendency, in an ever-rising market, was to believe that he was. Naturally the instinct of employes believing that their employers were making extraordinary profits was to demand extraordinary wages. This, if they were granted, raised profits still more, and inspired buyers in turn to demand that their incomes be increased commensurately with the demands upon them. Nobody really knew where anybody stood.

With the establishment of definite percentages of profit, everybody has some basis for judgment. If everybody knows that a merchant can not charge more than thirty-five per cent maximum advance over the wholesale price for any given article, that the average profit runs from twenty-five to thirty-five percent, and that this must cover not only his own profit but all the expenses of carrying on the business, including wages and overhead, everybody bases his demands accordingly. Under a system like that, real shortage should come to light, as opposed to artificial short-ages caused by speculation. Moreover, where they are proved to exist, production in those lines will be stimulated.

It is the ignorance of fundamental conditions, the mental confusion which results from ignorance and suspicion, which makes most of the trouble everywhere. With the selling of necessaries on a basis of publicity and common honesty, profiteering, both by capital and labor should disappear, taking under-production with it.

## FRUITS OF SOUTHERN CONTROL

Minneapolis Journal: Senator Capper of Kansas says that the farmers of north and west, having learned during ag since the war what it means to them to have the administration at Washington controlled by the south, should take no chances on the continuation of such conditions under Cox.

The southern statesmen, he says, were all for rigidly controlling and limiting the price of wheat, but solidly against interfering with cotton. The result was a price fixed for wheat that compelled farmers to take far less than they would have received in an uncontrolled market, while cotton went to dizzying prices.

An even better illustration of the administration's favoritism toward the south was the case of sugar. Just about a year ago the Cuban crop was offered to the government at around six cents a pound. That would have assured ample supplies and a retail price of eleven or twelve cents. Despite the urgings of his advisers, the president would not permit the purchase of the Cuban sugar.

When congress tried to deal with the matter by forbidding last winter the Louisiana members filibustered against it, because they wanted an open market for the money two hundred thousand tons of sugar produced in that state. In order to protect the few Louisiana planters in the sale of their drop-in-the bucket, the whole country was forced to pay exorbitant prices for sugar.

Attorney General Palmer gave official aid to this program. The result is that, although there is plenty of sugar in the country, the people are paying around thirty cents a pound for it, while speculators and profiteers have reaped huge gains.

Thanks to the south's domination at Washington the American people have been bilked around a billion dollars on sugar alone. No one has computed what it has cost the country to coddle cotton, but it is a handsome sum.

## HON. JOB E. HEDGES OF NEW YORK ON AMERICANISM

"I have heard considerable talk of Americanism here. To maintain it, we must be careful whom we accept in this country. I once heard a minister preach on this subject who said we should receive them all with open arms and win them with love. Yes. But search 'em first. Americanism is not mere talk. I have known men to talk about serving the constitution who haven't even read it. They couldn't read it. Other people are getting so tired counting what they expect to have without work they forget to try. We also hear much of public generosity. Generosity isn't tested by what you give, but by what you have left.

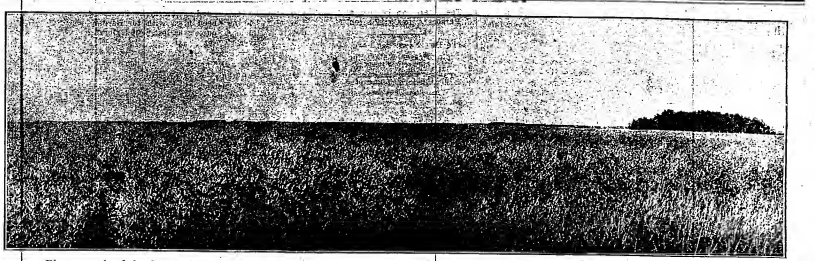
"There are great days for the newspapers. More men are ruined financially by headlines than in the death notices. In the headlines you are a favorite son liable to be called —not to something, but something. To be on to each other and not tell each other is good business—otherwise you'd start a riot in every town.

"We are approaching strenuous days. With the opening of the campaign speakers will soon be hanging the old United States out over the abyss of despair—and pull her in right after election. It will also be a great time for expression of personal opinions. A man who hasn't become a citizen of this country, has no right to express an opinion against it. If they don't want to stay here, let 'em go, and if they won't go, fire 'em. Make 'em play square. I believe in the ten commandments, although I respect the 14 points. As a matter of fact, we didn't go to war to make the world safe for democracy, but primarily to lick the Germans.

"We are every one of us Americans. What is an American? An American is a man of vision, sentiment, emotion, who can read his title clear from earliest history. Americanism started on Mount Sinai, and is the golden rule personified in human conduct, with hope crystalized in our institutions. And as an American, I'd rather have a man shed one tear over my grave than have a regiment parade without contact with me.

"Reforms are not a matter of intellect. Intellect is the measure, brain the barometer, of what's in a man's heart. The American people can be led, not driven; reduced to tears of sympathy, but not moved a step by fear.

"It is better to be decent and never discovered, than be appauded by the multitudes—and found out. It is better to be clean in mind, than wonder if they know you. It is better to be honest, than nervous when the lights are out.



"What this country needs is a rededication and a re-beneficition and a re-living of the sentiments on which this nation is founded, and to cry aloud to the Great God for a renewal of His blessing!"

---

When you look over the Women's Department and Fair exhibit at the auditorium, and admire the arrangement, decorations and general beauty of the room, you cannot fail then to compliment the superintendent, Mrs. Hardesty. Please recall at this time that the women have labored for several years for a Woman's Building at the fair. Look over Supt. Hardesty's Department at the auditorium and see if you think they deserve recognition. See if you think they would care for a building and make their building a real feature and department of the fair, if they could have a new building at the grounds.

---

Ed Pennington, president of the Soo Line, says the higher freight and passenger rates will result in a great reduction in the cost of living. Can you beat it? Based on the following process of reasoning: "Under low rates, we could not make prompt delivery, at high rates we can deliver at once. Result, all congestion is removed. The people can do twice as much business, therefore the price can be reduced." A horse that ate a bale of hay in three days, can now eat two bales in the same time. E. W. Decker Banker, representing the Hill interests in Minneapolis, says: "Shippers agreed that business had lost untold millions passed on to consumers because of transportation tieups." Banker and Pennington say: "Greatest victory for business, the United States has had in twenty years." (Big Business). The railroads practically admit they have been laying down on the job as a means to an end; the raise pirates.

Photograph of the Sweet Clover field on the Chas. Kittleson farm, SE Quarter of Section Eighteen, Rocksbury township, three and one half miles southwest of Thief River Falls. This 35 acres of Sweet Clover promises a yield of 10 bushels to an acre. Sweet Clover seed is worth more than $20.00a bushel at this time, has been for more than a year past and will be for a long time to come.

EXAMPLE

35 acres at 10 bushels ..... 350 Bushels
350 bushels at $20.00 ..... $7,000

In addition to the revenue from this great crop, the ground is greatly enriched, fertilized and innoculated by the 10 to 20 tons to the acre of root value left in the ground. We have booklets on Sweet Clover for free distribution.

## BIG ISSUES TO BE MET

Argus-Leader: Leslie's Weekly of July 24 contains a well-worded summary of the many issues to be settled as a result of the presidential campaign and the overthrow of democratic misrule. Here it is:

"Regardless of platforms, theories, compromises, or bosses, the next administration will have to find a practical way of dealing with a three-fold group of problems bequeathed us by the war. No cut-and-dried program will work. The issues will have to be handled as they arise in accordance with the fundamental principles of American government.

"The first group of questions have to do with the disorganized political machinery of our government.

"We have got to get rid of executive autocracy; departmental bureaucracy; frenzied extravagance; and, above all, the continuous and subtle attempt to break down representative government and substitute for it a bastard democracy which, stripped of its disguises is nothing less than class or mob rule.

"We have no foreign policy now. The next administration must have a foreign policy as broad as the world and simple enough to be practical. We are knit up with the common interests of mankind. Our flag must fall over our trade into every port of the world. It will not do to contemplate all this in a kind of sentimental rapture. We are not the original discoverers of duty either personal or national. And we cannot do our duty unless we, at the same time, know our rights.

"And since there is nothing to hope for from this present administration, our next administration will have to tackle the job of putting our industrial and commercial life back upon an American foundation. We shall have to co-ordinate the various branches of industry so that the factory will not outgrow the farm. And we must keep the worker and the employer alike to see that they are servants of the nation and not its masters; and that wages and profits belong to the work and the investor because of work well done and not because of vaious organization or class legislation designed to profit men in masses regardless of individual service."

This is more than one man's job.

## FARM CHIEFS ANGERED BY INACTIVITY OF CONGRESS

(Farmers' Dispatch Washington Bureau.)

Keen disappointment is felt at the American Farm Bureau federation's headquarters at Washington at the failure of four of the most important agricultural measures pending in Congress. They deplored the adjournment without some of these measures becoming laws. Here are the four measures that were allowed to fail:

1—Volstead bill legalizing co-operative purchasing and marketing of farm products. This was the substitute for the Capper-Hersman bill, and a measure which all of the farm organizations have been working for earnestly. Strong sentiment for it exists in Congress. The measure passed the House by a vote of 233 to 58. Soon thereafter it was reported to the Senate favorably by a committee. Adjournment came before the bill could be enacted. It is significant that most of those in the House who voted against the Volstead bill came from the cities. However, this does not mean that all from the cities opposed the measure. A great many more, in fact, than opposed the bill favored it, notwithstanding the fact they were from the cities.

2—Kenyon-Kendrick bill to regulate the meat packers. This was favorably reported to the Senate, but was prevented from reaching the floor by Senate leaders. Strong opposition by commercial interests is said to have been the primary cause for failure to consider the measure. It would have passed if allowed to have come to a vote, farmers' representatives believe, for they had canvassed the situation carefully in the Senate. On the House side a similar bill was written by the agricultural committee and reported favorably. It did not get a place on the floor in the rest of the last few hours.

3—The nitrate bill to provide for some source of fertilizer in the United States. This measure was supported by the Federation, and was intended to provide for use of the plant at Muscle Shoals. It was reported favorably by the Senate committee handling it, but could find no place on the floor. No action was taken in the House, where the measure got tangled up with politics.

4—The cold storage bill, which died in the Senate after having passed the House. Under it the Government would have authority to regulate the distribution and storage of poultry, eggs and other perishables.

Representatives of farmers' organizations claim that about the only measure of direct benefit to agriculture enacted by the session just closed was the joint resolution to enable to Secretary of the Treasury to purchase a few bonds of the Farm Loan Board, to clear up loans made to farmers prior to March 3. This was made necessary by the action of the Supreme Court declaring a hearing on the constitutionality of the Farm Loan Act until next Fall. It will probably be a year before the court's decision is made known.

# TARIFF PROTECTION ASKED BY NATIONAL FARM BUREAU

## BOARD OF DIRECTORS AUTHORIZES ACTIVE WORK BY RATES RECEARCH AND PUBLICITY DEPARTMENTS

Directors of the American Farm Bureau Federation, at a meeting held recently in Chicago, formally authorized the opening of departments which will specialize in agricultural economics, research, transportation and publicity. The force employed by the Washington office will be enlarged and organization work pressed. The board's action legalizes the acts of special committees that have been busy since the last general convention, held in March. An outstanding feature is the determination to work for a protective tariff on farm products.

Thus, the organization gets down to the actual work ahead of it. For several months the time of all concerned has been devoted to preliminary work. Now, for the first time, results may be expected by farmers who have been spending their money to support the movement.

The men in charge of the establishment of the new departments are Howard Leonard, Illinois; S. L. Strivings, New York; J. S. Crenshaw, Kentucky and J. R. Howard. To these men were delegated full power to proceed. The only limit that was placed on them was a maximum amount that they could spend on the departments during the remainder of the year. This consisted of $35,000 for the general department of economics and $15,000 for the department of transportation. The Washington office was allowed a total amount not to exceed $2,500 monthly for all expenses. No definite limit was placed on the publicity and organization work.

Two important reports helped to sell the idea of the research and transportation department to the members of the committee. The reports were those of Gray Silver, the Washington representative, who submitted a report covering the question of finances or credit, railroad and highways. The other reports were made by Clifford Thorne, who outlined his plan of defending the interests of the public in the railroad rate cases, and also a plan for organizing the departments under consideration.

In the railroad rate case the Federation is not endeavoring to show that some increase is not needed, but they contend that the amount asked for is excessive, and that the proposed means of levying the increase are unfair to the farmers.

Rural credits received a strong recommendation at the hands of the committee. Mr. Silver has been endeavoring to get the federal reserve system to adopt a policy of discounting commercial paper for agricultural production work in preference to other paper and at a rate of less than 6 per cent. He was unsuccessful in this, however, as the attorney general ruled against it. Now other steps must be devised to meet the situation.

The Townsend bill relating to the national system of highways was shown up as a bad proposition for the farmers in the report on highways. In a vote on the proposition, the committee, with the exception of two, favored opposition to this bill in Congress. It is likely that this will be one of the matters which will be substituted to the farmers by referendum. Other matters which will be submitted are compulsory arbitration of strikes on public utilities and the repeal of the Adamson law, which virtually fixes eight hours as the basic day.

The United States Department of Agriculture will soon consist of old men who do not care to change their work and young men if the present basis of salaries is not adjusted, is the idea presented by Dr. A. C. True, director of the State Relation Service. He emphasizes the fact that the present maximum salary allowed is not sufficient to hold the middle-aged men who are making a success of their work. Doctor True also presented the need of the government sending some one to be a representative at the International Institute of Agriculture at Rome, to take the place of the late David Lubin. Action was taken by the board instructing the Washington representative to work for these changes.

Note: Parts of this article taken from Wallace's Farmer, Des Moines.

---

Messrs. George Mostue, William Mostveet and Andy Williamson and Misses Betsy Ness, Evelyn Tesim and Mollie Hermanson motored to Grand Forks Saturday to attend the auto races at the North Dakota state fair. They returned the same evening.

Miss Ruth Evenson, who has been visiting in this city for a short time, returned to Crookston Thursday.

Tom Majeres returned to Crookston where he is employed Thursday afternoon, after spending a few days visiting with his parents in this city.

## USED CARS FOR SALE

Buick Model C. 25, overhauled, repainted and new cord tires $700.

Ford, late model, equipped with shock absorber and Yale lock $450.

Marion delivery car, sacrifice price $300.

Empire Speedster, 5 wire wheels, new tires, a sacrifice at $800.

Staude tractor attachment for Ford. Brand new, pulls two plows this attachment sells for $230. Our price for quick sale $130.00.

Overland 75. Overhauled, new batteries and a bargain at $475.00.

Studebaker 6, overhauled 1917 model. Car traveled less than 600 miles $875.

The Holt News last week reported a couple of cases of lightning strokes in that vicinity. On Wednesday morning the farm home of Mr. and Mrs. Wm. Steinhauer was struck. None of the inmates were seriously hurt tho Mr. Steinhauer was stunned. The chimney was demolished, the roof partly torn off and other damage done to the house. The same morning the barn of Lars Chenil was struck and the building consumed by fire. The lightning killed one work horse, the other being gotten out as were also the harness and machinery. The barn had just been filled with new hay which of course was lost. —Middle River Pioneer.

### CARROTS

"That little girl," said the child specialist, looking at a pale, thin child, "needs carrots." Carrots are what many of us need and do not know it. They are strong in iron which builds red corpuscles, potassium which helps to build cells, magnesium which aids in building nerves, and calcium which is used in building bones and teeth.

There is a large variety of ways in which carrots may be served; the very best of these is raw, scraped and sliced lengthwise Put them on the table in the olive dish or merely leave them around in sight where the children may "swipe" them between meals. Chopped raw with cabbage, onion and raisins in salad they add the nutty flavor and the color touch.

Cooked they are excellent in soups, chowder, pickles and all sorts of combinations. They are frequently cooked with beans or with peas In this style they make an attractive garnish for meat.

They should be cooked in little water or the mineral salts will dissolve and be lost. Boil carrots until nearly dry then add salt, pepper, and butter; and serve, or fry slightly or cream, or escallop.

The California State Federation of Women's Clubs has changed its constitution so as to admit political clubs to its affiliation.

It is said that in the England of today there is prospect that only one women in en will be married. This is lending impetus to the vocational courses being given young women to prepare them for business, which great numbers of them are planning to enter, not temporarily, but as a life work.

### Carrot Marmlade

Boil in little water until tender six cups of carrot ground in the food chopper. Add pulp of two oranges cut fine, and peeling of one ground through food chopper, three cups sugar, half teaspoon of salt, and juice of three lemons. Cook until syrup is thick and carrots clear. This makes a fine spread for sandwiches.

### Carrot Pudding

Mix the following: One cup of ground carrots, half cup cuet, cup of flowere dmisins, teaspoon of cinnamon and half teaspoon of cloves and nispice if you wish, half cup sugar, three tablespoons of flour. When mixed it looks as if it would not hold together but the wger from the carrots will make it moist enough. Steam in baking powder cans nearly three hours.

# PRICE DECLINES SO FAR HAVE HIT ONLY FARMERS

PUBLIC HAS NO JUSTIFICATION FOR EXPECTING FOOD AT LESS THAN COST, SAYS FARM BUREAU OFFICIAL

"Every price that has shown any tendency to drop has been the price of some farm product," says a statement of the Ohio Farm Bureau Federation issued by Secretary M. D. Lincoln.

"Meanwhile," the statement goes on, labor and all other things the farmer has to buy not only have not come down, but, on the contrary, seem to be mounting.

"Food prices cannot be made to come down by the mere passing of laws, the establishment of commissions, editorials, addresses, resolutions and boycotts. Farmers themselves know that the question is simply one of getting the stuff produced, marketed and paid for, just as is the case in any othe line of business.

"In the present situation it is idle for consumers to look for substantially lower prices on foodstuffs. Hogs have dropped materially in price, but pork products in butcher shop and store seem not to have fallen in proportion.

"Of course we cannot tell, neither can any other person tell, just the details of what is the trouble. It is too big a thing for settlement in a day or two or by the wave of a hand.

"First of all, there must be an organization of the farmers as a business class, so that each farmer may present his problems, may tell of his methods of success, may line himself up with other farmers to accomplish the things that united wisdom may decide are best.

"But it is not the purpose of the Farm Bureau federations to array class against class. We are not fighting anybody. Ours is not so much a fight as a campaign of education and helpfulness. Co-operation is a strong word with us.

"We believe the fact of the case is that the consumer is our friend and we should be co-operators.

"We believe the general public is inclined to be fair and reasonable, but the general public has not been informed. Consumers have paid as high as $8 a bushel for potatoes and have been supposing the farmer received the most. if not all, the $8. A lot of city folks have the notion that farmers have grown enormously rich and have crowded the banks to overflowing with their deposits. We expect to be able to show them that such is not the case by a thousand miles.

"Increased prices to the farmers, coupled with better transportation and selling facilities, and the consequent decrease per unit in the cost of production will not necessarily mean increased cost to the consumer, but, on the contrary, probably will mean decreased cost. But the largest thing that will result will be to enable the farmer to pay better wages and thus keep help on the farm; to provide increased conveniences and comforts for the farm home and thus keep boys and girls on the farm, and to spend more money in shops, stores, factories and places of amusement, thereby helping all who manufacture and sell."

## ROSEWOOD

**Nicholaus Larson**

Nicholaus Larson one of the pioneer settlers of the northern part of this town died last Thursday at th home of Per Hagen where he has made his residence since he sold his homestead some 15 years ago. Mr. Larson had reached his four score age, and had made this township his home for a great number of years. He was a single man with no kindred relations but has made a number of warm friends who will long remember the kind hearted man whose cheery smile and tender words made him an appreciated companion among his neighbors. During the last summer Mr. Larson has been gradually declining in health, his vitality left him and his interest in the world's doings faded and he was wissing for a better home. Death came still and peaceful, well befitting the gentle nature of the gentleman. Fu neral services were conducted from the Rindal church Sunday afternoon the local minister Rev. Larson officiating. The Larson auto hearse from Thief River Falls came out and escorted the enslaver to its last-resting place at the Rindal cemetery. A large number of friends and neighbors attended.

A surprise party was given at the Victor Mosbeck home last Saturday evening in honor of Mr. and Mrs. Geo. Snyder who moved into this community last fall and expect to make their future home here. The evening passed very pleasantly with conversation, singing and dancing. A dainty contributed luncheon was served at midnight. A beautiful plate glass casserole was given the Snyders as remembrance from their friends. The following families were present: Mr. and Mrs. Adolph and Selmer aHugen: Mr. and Mrs. Dick Hall; Mr. and Mrs. B. Ramnu; Mr. and Mrs. Chas. Sagmoen; Mr. and Mrs. A. S. Holm; Mr. and Mrs. Emil Blomberg; Mr. and Mrs. Ted Thompson; Mr. and Mrs. Baily; Mr. and Mrs. Geo. Snyder; A. C. Vorseth and John Sagmoen.

Mr. and Mrs. A. C. Vorseth and daughter, Elsie, accompanied by Mrs. Jens Severeson and Selmer Severson of Thief River Falls left Monday morning by car for Waterville Iowa, where they will spend four weeks visiting with reatives. They will make several stops on the way to make brief calls on friends and to take in different paces of scenic interest.

Mr. and Mrs. Baily and Mr. Moen arrived in a car from the southern part of the state and will visit for a few days with the Geo. Snyder people west of town. The visitors were former neighbors with the Snyders at the time they lived down south.

Miss Nina Westby left last Saturday for Adams where she will visit and possibly secure fall employment.

Howard Carlson, who has been employed at a steel foundry at Duluth this summer came home last Monday for a few days visit with his mother.

Several carloads of people from this community motored to Roseau county last Sunday to pick blueberries.

The Abe Stroole family from Argus were Sunday visitors with the P. Sorenson folks returning the same day.

Mrs. C. E. Hellquist and four children of Thief River Falls spent the week end at the John Hellquist home here. C. E. Hellquist who has been employed this summer et railroading on the iron range near Superior came home Sunday and came out to escort his family home.

The following were at Holt last Sunday to attend the mission meetings: Mr. and Mrs. John Sagmoen, Joel Sloberg, Mary Sloberg, Mr. and Mrs. Ole Dahl and family.

Miss Gretchen Bartelt of Browns Valley is spending this week as guest with her sister, Mrs. A. S. Holm in town.

Service at the Congregational church in town next Sunday, August 8, at 10:30 a. m. and 8 p. m. Scandinavian language only. Rev. Werner Dreitz at the pulpit. Swedish Young Peoples society with sale of coffee o n Tuesday evening, August 10. Rev. David Segerstrom o' Viking will have charge.

Miss Carrie Nelson left Monday spend a few days visiting with morning for Viking where she will spend a few days with friends.

Selmer, John, Ida and Selma Sorenson motored to Thompson last Sunday to visit with their sisters, Minnie and Emma, who are employed there.

The Severt Bronson and Ingn Berg famille from Thief River Falls were in town last Sunday to visit and attend church services.

Mr. and Mrs. John Sloberg and daughters, Hannah and Esther, from Hazel were Sunday visitors at the John Broom home.

## GERMANTOWN

Mr. and Mrs. Olaf Thorshlson and children, accompanied by Mr. and Mrs. L. Rosell motored to Thief River Fa's Tuesday.

Mrs. Martinus Johnson visited at the Henry Roller home one evening last week.

Miss Esther Bendickson, who has been attending summer school at Bemidji returned home Saturday.

Mrs. Henry Roller was a guest at the C. Struble home one day last week.

Mr. and Mrs. E. Dahl of Thief River were visiting at the Hans Dahl home.

Mrs. L. Bendickson and children Bernard and Silva accompanied by Mrs. Selmer Beckeson were guests at the Olaf Thorndson home Saturday.

Miss Cara Overby visited with Bessie Roler one day last week.

Mrs. H. Dahl visited at the Serapine Rolland home one day last week.

Guests at the D. Dan home Sunday were Mr. and Mrs. Frank Kainty and son, Oscar Pomeranke, L. Beutiu, Mrs. Semer Beudickson and son, Christie, and Bernard, Nettie, Esther and Silva Bendickson.

Mrs. John Philipp visited at the Carl Kloekman home one day last week.

Guests at the Bendickson home Sunday were Mr. and Mrs. Serephine Holland and children Augustine Lucy, Louise and Marshall.

Mrs. L. Bendickson and children, Bernard and Nettie, Mrs. Selmer Bendickson and son, Christie, were guests at the Christ Nelson home at Adger last Sunday

Misses Bessie Roller and Clara Overby were Germantown callers one day last week.

Mr. and Mrs. John Aandah were Sunday guests at the D. Dan home.

Misses Lola and Bealce Struble were callers at Marvie one day last week.

Mr. and Mrs. Robert Rambee and one evening last week.

Henry Longevan and children Marvia and Helen visited at the O. L. Nelson home Friday evening.

Miss Marie Ramee visited with Selma Johnson Wednesday.

Misses Lena Ristau and Lola Struble were guests at the Boyce home Sunday of the past week.

Misses Nettie and Esther Bendickson were Sunday guests at the Overby home Sunday.

Misses Selma Johnson and Marie Hamre visited with Bernice Struble Tuesday.

Miss Ruth Boyce visited with Selma Johnson Friday.

Messrs. Lars Lindvick, Albert Johnson and Clifford Roller were Sunday guests at the Overby home.

Mesdames Hans Dahl and Emil Hanson were callers at Germantown Friday.

Mrs. John Philipp and children Laurence, Stella and James were Sunday guests at the C. Klockman home.

### Wanted Tractor Free, Too

Members of the congress, debating whether to allow a $280,000 appropriation to buy garden seeds for their constituents, learned from Representative Johnson of Washington that voters may expect other favors. He read this letter from a resident of his district:

"Dear Sir: Will you please send me any set of law books you have and the following:

"One package of onion seed, one package of cabbage seed, one package of squash seed, one package of cucumbers, seven peach trees, six English walnut trees, two snowball trees, one package of carrot seed, one package of lettuce seed, one package of summer squash, five grape cuttings, three sweet apple trees, two butternut trees, ninety-five strawberry plants, three chestnut trees, four lilac bushes, eight rose cuttings.

"If you have got any carpenter books and tools, send them, and any typewriter. please send it, and the farm account book from the department of agriculture, and any gasoline tractor.

### Citation for Hearing on Final Account and for Distribution.

State of Minnesota, ss. County of Pennington, in Probate Court.

Mrs. Ruth Knudson and Jack Kelnhn motored here from Minneapolis to spend a few days at the L Jubb home. They will leave Friday morning for Fargo.

What is the big idea?

MEN have all kinds of reasons for liking Spur Cigarettes. Some like them because they're mighty classy-looking—that brown-and-silver package is an eye-winner. Some like them because the paper is crimped—no paste to taste. Some like them because they're a full-packed cigarette—nothing "skinny" about them. Some like Spurs because they're twenty for twenty cents—the rock-bottom price for the highest possible quality.

But what they all shout about and pass along is that they have found at last a cigarette with that good old tobacco taste that lingers in the memory.

Yes, sir, you can sure taste the good Oriental and home-grown tobaccos—and that's the big idea back of Spur Cigarettes.

Now, folks, just don't wait, but try a package of Spur Cigarettes today. It's not as though you were buying a limousine. And if you do find in Spur the cigarette you have been wanting—something that just strikes the spot—it will be the best buy you've made since Hector was a pup.

## FAIR BREAKS ALL RECORDS IN ATTENDANCE

Historical Society

### LARGEST ATTENDANCE IN THE HISTORY OF THE SOCIETY—ESTIMATED 28,000

The big Pennington County Fair came to a close late last Friday evening with a record that has never been equaled in the past and one which will call for much action in the future if it is to be surpassed.

The total gate and grandstand receipts for the three days were $5220 with $1500 from shows and concessions. It is estimated the total attendance was eighteen thousand and was many times larger than the largest attendance the fair has enjoyed in years past.

The weather could not have been better. It was ideal "fair weather" from the opening to the closing day. Secretary G. Howard Smith is to be especially commended for his untiring efforts in making this the best fair in the history of the society. The program was continuous and there was not one dull minute from the opening day until the close. The concessions were all operated in a clean and satisfactory manner and not one complaint was registered by the public.

As a comparison with other years, especially with reference to receipts and attendance, it can readily be seen that this year's fair has far eclipsed all previous fairs and has set a high gate and grandstand receipts for the mark for other years to follow. The year of 1917 were $1,875 with receipts from shows and concessions amounting to $678.00. Premiums were paid amounting to $945.00. It is estimated the attendance was 4,000. In the year of 1918 the gate and grandstand receipts were $1,897.45 with receipts from shows and concessions amounting to $598.80. The attendance was estimated at 5,000. Premiums to the extent of $972.25 were paid. In 1919 the gate and grandstand receipts concessions and shows amounting to $763.00. The estimated attendance is placed at 10,000.

The attendance for this year is one third larger than that of last year, which was the largest of any year previous to the present year. The total receipts for last year were $4,308.97, and for this year they were $6,720.00 with an attendance of eighteen thousand.

The secretary states that the association cleared sufficient money this year to take care of all the outstanding indebtedness, including the balance due on the land. It is figured there will be in the neighborhood of $3,000 clear above everything and it is the intention of the board to get busy at once on the erection of a building to house the woman's department.

The exhibits this year were housed in the Auditorium and while they were especially fine and attractive, it is felt there were not as many to witness them as there would have been were they held on the grounds. In view of the fact that this department is one of the most important of the entire fair, it is only reasonable to house these exhibits should be erected. It is suggested that when the new hall is built that a rest room be added in connection for the use of the ladies and children who attend the fair an have no place to go when tired. It is practically assured that the new hall will be erected and action along this line should be taken at once while everyone is favorably impressed with the idea and while all agree. This is one improvement that must be made and the sooner it is made the sooner the difficulty will be out of the way and the exhibits of the county given proper housing.

Another important change that is now being considered and one which will without question meet with the entire approval of the public, is the changing of the entrance. It is now the idea to establish an entrance at the north end of the grounds for automobiles leaving the entrance for foot passengers where it now stands. This will do away with all risks that are taken by way of foot passengers and will eliminate a lot of confusion at the gates when the entire county is clamoring for admission with only a few men at the window to take care of the throng. It is also suggested and considered that an entrance be established for the use of livery cars only. In the congested traffic the livery cars lose considerable time and money in unloading being compelled to wait in line until their turn comes, thus losing much valuable time and being hampered in the number of trips they would be able to make. The fair board may give this serious consideration and decide to eliminate the automobile entrance from the foot entrance, making it much more safe and satisfactory all round. This is a good idea and should be carried out. It can be done at little expense and means much to fair visitors.

Several compliments were paid the fair association and the county in general by the judges who were brot here from a distance to attend to the judging. R. R. Smith, of the farm school at Crookston, who judged farm products, says the exhibits at the Pennington County Fair are the best he has seen at any fair this early in above the average and could hardly realize that they were grown right here in Pennington county. In the live stock department, judged by L. V. Wilson of the State University, another score for the county was rung up when he made the statement that the exhibits fur exceeded any that he had been called upon to judge with the exception of the fair at Pipestone, and in his opinion there was such a small difference that it could hardly be noticed. He says the Gurnsey cattle exhibited were the best to be seen with the exception possibly of the state fair and the Chicago live stock show.

The exhibits were fifty per larger than they have been at any time in the past, and also were of high nature. Everything exhibited was of the highest order and would stand competition at any fair in the entire northwest.

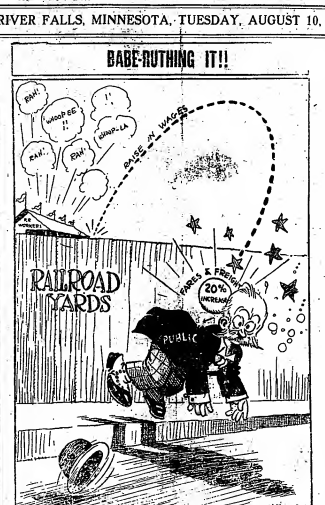
Everything considered, this year's fair is the best by long odds that has ever been held by the county, and to the secretary and the fair board, the judges, and any and all who contributed any part in helping to make the fair a success, the thanks of the entire county are due. It Was "some fair."

### Peat Demonstration

Doctor Alway of the Minnesota State University is entertaining a party of distinguished men at the Golden Valley Peat Demonstration farm today. Included in the party are Hon. F. A. Thompson and Hon. Douglas McChain of Winnipeg, Canada. Both are members of the Drainage Commission of the Province of Manitoba. Under the direction of Doctor Alway the party, including several business men of the city and members of the merchants association are inspecting the farm. Doctor Alway is recognized as the best and highest authority on peat development in the United States. Distinguished commissions from various foreign countries have visited the Minnesota demonstration farms often and always with gratifying results.

## LAST BASE BALL GAME OF THE SEASON SUNDAY

### LOCAL BALL TEAM MEETS ST. HILAIRE AT FAIR GROUNDS IN LAST GAME OF YEAR



The last ball game of the season will be played at this place next Sunday when the local team meets the team from St. Hilaire. The band will be out and a grand finish will be made of the baseball season. The reason for disbanding this early in the season is because of the fact that there is little chance to hold the team together longer and it is considered foolish to struggle along the balance of the season with half a team.

The game Sunday will attract a large crowd as there is much keen rivalry between the local and the St. Hilaire aggregation. The St. Hilaire boys are coming on equipped to take the last game of the season from the locals and the locals are as equally determined to win the last game of the season. It is certain there is every indication of good ball from both sides and lovers of the game will surely get their money's worth at the game Sunday.

The band will be out and it is hoped that every one who can will make a point to attend the game Sunday. This is the last of the season and the local boys should be given a rousing send off. They have played good clean ball all thru the season and it is only right and proper that they should be given every support. The management state they have managed to get thru the season without losing money and that there will be a small amount left over but this is due to the fact that the players have all donated their services and that none have been payed for the work they have done in connection with the season's work.

Bear in mind that this is the last game of the season, that the local team have done their best to furnish a brand of ball that cannot be criticized, that they have worked hard and faithfully to give the fans of the county good exhibition of the national pastime thru the summer months, and that they should be supported to the finish Attend the last game of the season on Sunday at the fair grounds and be prepared to root hard and faithfully for the home team.

## BABE RUTHING IT!!

## GUERNSEYS ON EXHIBIT CAUSE MUCH COMENT

### JUDGES UNABLE TO COME TO DECISION FOR SOME TIME SO ON GUERNSEYS

The exhibit of Guernsey cattle at the Pennington County Fair this year were the talk of all who saw them. Even the judges were standing on one ear in an endeavor to decide which was the winner, so every was the exhibit matched.

First prize was carried away by Albert Jonson, second by F. B. Conklin and third by H. C. Wickson.

There were only five animals to be judged, but the close similarity was confusing to the judge and it took him the better part of an hour to decide which was the winner. All sorts of tests and methods were applied to the judging and it looked for a time as if the judge was going to be unable to decide which was the better of the animals exhibited, but finally a decision was reached And the awards made.

After the judging had been completed and the judge allowed time to collect himself, he stated that this was one of the finest exhibits he had ever been called upon to judge and he doubted very much whether there was anything at this state fair or the Chicago fair to beng them.

The raising of pure bred cattle of the highest order is fast becoming one of Pennington county's strongholds and is placing the county in the limelight insofar as other counties and the outside world is concerned. The reputation already made by the county is one that is standing mighty high the state over and it will take some mighty fine stock to touch the brand of Pennington county. Local stock raisers are fast becoming strong advocates of the better grades of cattle and it is felt that within a few years the county generally will be among the top notchers when it comes to pure bred stock. A sample of the result is clearly shown in the exhibits at the fair.

### Of Interest to Service Men

Blanks for the securing of Victory Medals have been received by the local post of the American Legion, and very service man, whether he belongs to the American Legion or not, is asked to call at the office of G. Howard Smith and fill out the blank. It is requested that each man bring his discharge papers so that it may be determined what branch of the service he was in and what service he saw. There are medals for each engagement, domestic service and for every branch of the service. The government must have these blanks at once in order to know how many medals it is necessary to order. It is the present plan to have the medals ready for distribution on armistice day, making the ceremony an impressive one and nation wide in its observance. Call and fill out the blanks at your earliest convenience.

## BANK IS NOW LOCATED IN FINE NEW HOME

### FIRST AND PEOPLES STATE BANK MOVE TO NEW HOME LAST WEEK

The First and Peoples' State bank are now located in their new home directly across the street from their former location, in the Scandia Block. The bank moved into their new home the latter part of last week and all day Saturday the reception of visitors was the main issue of the day. Music was furnished and souvenirs for the visitors were also a part of the program. The men managed to get away with 800 cigars and all count of the flowers passed out to the ladies was lost track of. It is estimated that there were practically 2,000 people visited the new quarters of the bank during the day.

The penny guessing contest proved most popular and there were four hundred and twenty two who guessed on the number of pennies contained in the large glass jar. The prize was won by Mrs G. A. Penay of Red City, Mrs. H. P. Miller of Crookston and Miss Anna Quale of this city. Each of the three guessed 3,999, which proved to be the correct number in the jar. The amount was equally divided among the three.

The new home of the bank is one of the splendid institutions of the county. The interior is all that could be asked for in the way of convenience and appearance The furnishings of the bank are of mahogany and well arranged. Everything has been placed to give the greatest efficiency and convieance and it is certain that the new banking home of the First and Peoples' is a model for arrangement and efficiency. It is a splendid banking home and will serve the purposes intended for many years to come.

### American Legion Meeting

Elmer J. Eklund Post of the American Legion will meet at the Red Eagle Thursday evening of this week. The purpose of the meeting is to elect six delegates and six alternates to represent the Post at the state convention to be held at Duluth on August 16, 17 and 18. A big feed will be served at the meeting Thursday evening and it is hoped that every member of the local post will make it a point to be present.

### Enjoying Vacation

S. C. Coumbe left Saturday afternoon for Vergas where he will enjoy a two week's vacation on the lakes that abound in that section. Mrs. Coumbe and son left for Vergas three weeks ago, being called there on the account of the illness of Mrs Coumbe's father The family will spend their entire vacation at their cottage on Lake Sybil, near Vergas.

Five automobile loads of Epworth Leaguers from the local Methodist church motored to Warren Sunday and attended the meetings at the church in that city. They report a delightful trip.

### Cordes to Kansas

J. D Cordes of the Eienault and local band leader is soon to move to Pratt, Kansas which place will be his future home. Mrs. Cordes leaves Sunday and September first Mr. Cordes follows. The family will sell most of their household furniture, taking only a few pieces with them. The city at large regrets to see Mr. Cordes move away as he has done much toward keeping the local band together. He is a fine citizen and will be missed by the community as a whole. He feels however, that for his health he must make the change and while all regret to see him leave, best wishes follow him to his new home.

### Lost To Gonvick

The local ball team journed down to Gonvick, Sunday in an attempt to regain their footing after the defeat at the fair Friday afternoon when the Red Lake Falls team took them into camp to the score of 5 o 8. In the game Sunday with the Gonvick team the local boys were trounced by a score of 12 to 0. This is certainly the strongest they have run into this season and while they were playing on unfamiliar ground and on ground that is rough and hard to get over, the team give the Gonvick team credit for being there with both feet and a little stronger than they are. This is no excuse however as the Gonvick team is composed mostly of salaried players, whereas the local team is composed of men who are not giving their entire time and attention to baseball, and are therefore not in a position to compete with the best of the and. Gonvick has seen thru they eventually would run into a team that had more fast men and a team who put in their entire time at the game. Gonvick has a real ball team and we are willing to concede the fact without a quibble. They simply have us outclassed and that is all there is to it, no matter what is said about the matter.

### Woman's Club Meeting

A special meeting of the Womans club is to be held August 16, 1920, at 3 o'clock at the Commercial club rooms for the purpose of electing two delegates to the state federation meeting at Northfield Sept. 1-2-3, and for such other business as may be brought before the club at this time.

### Ladies Aid

The Ladies aid of the Trinity Lutheran church will meet at the church basement Thursday, August 12 at 3 o'clock. Entertained by Mrs. Ole Legvold Jr, and Mrs. Legvold.

## ELKS PLAN BIG PICNIC ON AUGUST 29TH

### ANNUAL EVENT TO BE HELD AT SQUAW POINT—MUCH IN THE WAY OF SPORTS

The Elk's annual picnic is to be held August 29th this year at Squaw Point. Those who have attended the picnics in the past do not need urging to attend this annual event, and know beforehand that something out of the ordinary and far above the average may be expected. The picnics held in the past have been largely attended and have been the means of getting people together in a large way. Good times, with plenty of sports and amusements with everything good to eat that can be imagined, have been the leading features of the picnics in the past staged by the local order.

The committee on sports, L. A' Lampert, chairman, announces that the sports program will be up to standard and that work on this end of the program is already under way and will be completed in plenty of time for the annual event.

Louis DeCremer is the chairman of the "eats" committee and "Louie" will be there and then some when it comes to attending to his end of the program He has always been able in the past to satisfactorily arrange a menu that would satisfy the palate of the most fastidious and he will do the same in this case without a doubt.

A special meeting is called for August 20th to hear the reports of committees and to perfect all arrangements that are to be made in connection with the annual blowout It is earnestly requested that every member of the committees appointed be present at this meeting and report the progress made. It is the desire of the local order to make this the one big event in the life of the lodge and the concerted action and assistance of every member is called upon to help put this annual event across in good shape.

WANTED—A FEW GOOD FRESH milch cows. Albert Coyle, city. 43-1

## YOUNG MUZZY CHILD KILLED AT STEINER

### PLAYING AROUND PUMP AND KILLED WHEN JACK FALLS PINNING CHILD DOWN

Russell, the year old son of Mr. and Mrs. N. E. Muzzy, of Steiner met death yesterday while playing around the house, death being caused by the falling of a pump jack, forcing the boy's head against a two by four and causing strangulation.

The baby had wandered away from from the house and was playing around the pump. The mother went out to look for him and found him lying beside the pump strangled to death. The cause of the accident was due to the pump jack becoming loose at one end, falling and striking the child across the head, knocking him unconscious. In falling the baby fell with his throat across a two by four and with the extra weight of the pump jack bearing down on his head, and being unconscious he was held in this position and was slowly strangled to death. There were no marks or bellses on the body which discredits the theory that the falling of the pump jack had caused the baby to be killed instantly. The only mark on the body was a slight bruise on the right temple.

When the mother found the baby she picked him up and rushed to the house, then started for the field to call her husband. A passerby was called in and he at once saw the baby was dead. By this time the child was dead when she carried it into the house. There is one other child in the family, a three weeks old baby

### Loses Awning By Fire

The Hermanson Hardware company are out an entirely new awning as the result of a cigarette being thrown on the awning by one of the roomers who occupy rooms above the store. The awning secured last Friday afternoon and it took considerable action to keep the entire building from burning down. As it is the awning is practically destroyed, only a small portion being left, and a new one has been ordered to take its place.

### Move To New Quarters

The Walker-Gessel Land company have moved into their new quarters, the former home of the First and Peoples' State bank, which location they will occupy in the future and which makes them an ideal office building. The Laird Specialty Shop is moving into the room vacated by the Walker-Gessel company and the room formerly occupied by the Laird Specialty Shop will be taken by the J. C. Penney store as a shoe department. The Penney store have secured a lease on the entire corner of the Meehan Block and will install everything in the merchandise line in this location. The hot weather which hit the city broke about the time it was necessary for the moving van made the work anything but a pleasure, but the boys in time and all are settled in their new locations and satisfied with the moves made.

### Buried Yesterday

Henry Schurer, who died from burns received at the fair grounds last week when a gasoline stove exploded, was buried in the local cemetery yesterday. Mr. Schurer was thirty six years old at the time of his death and leaves a wife, father and mother, brothers and sisters to mourn his death. His home was at Grand Forks. This was the first day he had made this year and his untimely death is keenly felt by his family and friends.

### Visit Hudson Bay Country

Mr and Mrs. Thos. A. Way, Mr. and Mrs. W. R. Lawrence, Mr. and Mrs. L. H Lawrence and George Haynes leave this evening for a week's outing in the Canadian Northwest. The party will first go to Selkirk, Canada then a boat trip on Lake Winnipeg, up the Nelson river to "Norway House," famous Hudson Bay trading post and summer resort. The trip will last five days on the water and will be a delightful outing.

### Entertain Aid

Mrs Andrew Eklund will entertain the Ladies aid of the Swedish Evangelical Mission church at her home, 213 St. Paul avenue south next Wednesday afternoon, August 11.

# Local News

## DARING AVIATRIX

Miss Ruth Law is the world's greatest aviatrix. She is the holder of the American long distance flying record for women. Miss Law is one of the best stunt flyers appearing before the public today. One of her most thrilling stunts this season will be mile races against an automobile at the Minnesota State Fair, Twin Cities, Sept. 4 to 11.

It is Ordered, That the time within which all creditors of the above named decedent may present claims against his estate in this Court, be, and the same hereby is, limited to six months from and after the date hereof; and that Saturday, the 29th day of January 1921, at Ten o'clock A. M., in the Probate Court Rooms at the Court House at the City of Thief River Falls, in said County, be, and the same hereby is, fixed and appointed as the time and place for hearing upon and the examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.

Let notice hereof be given by the publication of this order in The Tribune, published at Thief River Falls, Minn., as provided by law.

Dated July 26th, 1920.

Ira C. Richardson,
Judge of Probate.

J 27 a 3-10

## MORTGAGE FORECLOSURE SALE

Notice is hereby given that default has been made in the conditions of a mortgage given by, Beat O. Roisland and Belia Roisland, his wife, to the Citizens State Bank of Hazel, (A Corporation, under the laws of the State of Minnesota), Mortgagee, dated the 2nd day of December, 1916, and recorded in the office of the Register of Deeds of Pennington County, Minnesota, on the 5th day of December, 1916, at eight o'clock A. M., in Book Fifty-eight (58), of Mortgages, ou page One Hundred Thirty-four (134), thereof. That the said Citizens State Bank of Hazel has paid the taxes assessed against the premises described in said mortgage for the years 1916, 1917, 1918, and 1919, amounting in all to Two Hundred Ninety-six Dollars, Forty-nine Cents ($296.49). That the amount claimed to be due on said mortgage at this time, including said taxes, is One Thousand Two Hundred Sixty-four Dollars Eighty-two cents ($1,264.82). That the premises described in and covered by said mortgage are situated in Pennington County, Minnesota, and described as follows, to-wit: Lots Two (2), Three (3), and Four (4), of Section Three (3), in Township One Hundred Fifty-two (152), North of Range Forty-one (41), West of the Fifth Principal Meridian, containing One Hundred Forty-five and Fifty-one Hundredths acres, (145.51), more or less, according to the Government survey thereof; that by virtue of the power of sale contained in said mortgage, pursuant to the statutes in such case made and provided, said mortgage will be foreclosed by the sale of said premises, at public vendue, to the highest bidder, for cash, by the Sheriff of Pennington County, Minnesota, at the East front door of the Pennington County Court House, in the City of Thief River Falls, Pennington County, Minnesota, on the 11th day of September, A. D. 1920, at ten o'clock A. M. of that day, to satisfy the amount then due on said mortgage, including said taxes, together with the costs of such and Seventy-five Dollars ($75.00) Attorney's fees, stipulated in said mortgage and fixed by law.

Dated this 24th day of July 1920.

Citizens State Bank of Hazel,
Mortgagee.
By Theo. Quale,
Its Attorney.

**Nerves and Health**

THE net work of nerves which carries the normal flow of life-giving energy to every organ and tissue is responsible for the health of the body. These nerves are distributed through the spinal column.

If through accidents, blows, strains or unnatural curvature the moveable bones of the spine become slightly displaced, they press on the nerves and obstruct the free passage of the health-giving currents. The organs or tissues fed by the obstructed nerves naturally become weakened and diseased. Pressure on the nerves leading to the stomach, for instance, is often the cause of stomach trouble.

**CHIROPRACTIC**

by a method of scientific adjustment corrects these spinal defects, relieves the pressure on the nerves and removes the cause of disease. With normal conditions restored, the life-giving currents have full power to repair and strengthen, and health results in a natural way, without the use of drugs or surgery. No matter what the ailment, experience proves that it can be relieved through Chiropractic (KI-RO-PRAK-TIC) adjustments of certain parts of the spine.

The sick should not be discouraged, even though they have sought relief for years and tried every known method of health.

**CHIROPRACTIC**
THE BETTER WAY TO HEALTH

has done wonders in bringing relief in long standing and obstinate cases. Investigate and learn what Chiropractic has done and is doing for others, and what it can do for you.

## ST. HILAIRE

Miss Nellie Cornelissen arrived Thursday from her home at Comstock to spend a few days at the home of her friend, Miss Hulda Gigstad.

Myron Jenkosh was at Thief River Falls Thursday to receive dental treatment.

Ed Carlson arrived Thursday from Tacoma, Wash., for a visit with his parents, M. and Mrs. L. A. Carlson, and with other relatives and friends in this community.

Miss Gladys Sherva returned last week from visiting at the homes of her two sisters at Brainard and Bemidji.

Miss Myrtle Gigstad returned Thursday from Randolph, where she had lived at the home of her sister, Mrs. Edstrom, while completing her high school course during the past school year.

Mrs. O. Gunstad, Misses Selma Hoff and Gladys Sherva, Carl and Nels Nerson were among those who motored to Thief River Falls to see the "Birth of a Nation."

Miss Esther Bjerke of Minneapolis arrived Saturday to visit at the Carl Johnson home.

The Misses Manda and Helga Kalland arrived Saturday from Baudette for a brief visit at their parental home, after which they intend to journey on to Lansdale, N. D. to visit at the home of her sister, Mrs. Harry Rishe.

The Rev. K. O. Hilbiah and family and the Sivert Johnson family and their guest, Miss Johnson, motored up from Fosston Sunday to attend the Norwegian Lutheran church picnic.

Mr. and Mrs. Harry Orbloff accompanied by Carl Johnson, Albert Scaverson and son, Harry, motored to the vicinity of Mud Lake Sunday to take advantage of the blue-berry harvest.

The D. Patterson family returned Monday from a week's outing at their summer home at Maple Lake.

Mrs. J. Folstad left Sunday to spend a few days at the B. Jorgandahl home in Numedes township.

Miss Cornelia Brevik was at Crookston over Friday.

Turn a real estate transfer of recent date Geo. Bakke became the owner of the former school ground. As this plot adjoins his former tract of and, it greatly increases the value of his residence property.

Mrs. Carl Johnson returned Tuesday evening via Thief River Falls from a ten days' visit with relatives near Fosston.

This village was a very quiet place last Wednesday for every resident of the village or vicinity who could go went to the county fair to boost St. Hilaire day. The weather was exceptionally fine and the day's program was carried out, but in spite of the encouragement of their townspeople the local ball team came to grief with a score of 12 to 1 in favor of Thief River Falls.

E. T. Gestie, the well known traveling salesman, motored to Crookston Thursday morning, after having transacted business in this part of his territory.

Rev. and Mrs. C. M. Grimsrud left Tuesday on a motor tour to Badger. There will be communion service.

## CENSUS DEDUCTIONS

We have received from the census bureau at Washington a preliminary announcement of the population by townships and municipalities of Marshall county. It shows a substantial increase in the county as a whole and in most of the townships. The county has grown from 16,338 in 1910 to 16,443 in 1920. With the exception of Alvarado, Middle River shows a bigger percentage of growth than any other village in the county, having 324 in 1920 as against 149 in 1910. Alvarado grew from 128 in 1910 to 361 in 1920. Warren has now a population of 1,772 as against 1,613 ten years ago. Argyle has made a substantial gain having now 656 against 744 in 1910. Stephen has lost population having now 581 while in 1910 it had 618. Looking over the list it is keenly apparent that drainage and roads have played an important part in increasing the population. Nearly all of the towns in all this eastern part of the county wherein the drainage has been constructed shows heavy increases in population whereas the towns in the older settled parts of the county show but slight increases, and in fact some of them have lost in population. For instance, Mud Lake in 1910 had but 14 inhabitants whereas the 1920 census gives it 141. Cedar Township has grown from 156 to 233. Como township from 85 to 135. East Valley township from 118 to 242. Eckvol township from 100 to 166.

On the other hand older settled townships show such comparisons as the following: Big Woods, 440 in 1910 and 434 in 1920. Foldahl, 261 in 1910 and 233 in 1920. Oak Park, 667 in 1910 and 653 in 1920. Vega township 601 in 1910 and 509 in 1920.—Middle River Pioneer.

# OFFICIAL PROCEEDINGS OF THE BOARD OF CO. COMMISSIONERS

Thief River Falls, Minnesota
July 12th, 1920

Pursuant to Law the County Board for Pennington County met in Regular session in the Office of the County Auditor in the City of Thief River Falls, at 10:00 o'clock A. M.

Meeting called to order by the Chairman

Moved and seconded that meeting adjourn until 1 o'clock P. M.

Motion carried.

As per adjournment the County Board reconvened all members being present. The Board proceeded with the business.

The list of uncollected personal property taxes for the year 1918 as returned by the Sheriff was revised by the County Board, and Citations ordered issued for the following persons in the following amounts,

| Name of Person assessed | Town or Tax District | Penalty and cost |
|---|---|---|
| Andrew Kvigo | Goodridge | $13.00 |
| T. J. Kvamme | Wyandotte | 0.73 |
| Nils Jacobson, | Goodridge | 10.13 |
| L. H. Kelley | St. Hilaire | 48.36 |
| C. W. McCune | Silverton | 40.20 |
| Albert Brink | St. Hilaire | 5.63 |
| L. R Johnson | City of Thief River Falls | 9.20 |
| Knut Johnson | Numedal | 2.34 |

The following is a list of personal property taxes in said County for the year 1918, which said Board is satisfied cannot be collected and so caused by said Board:

| Name of Person assessed | Town or Tax District | Penalty and cost |
|---|---|---|
| Carl P. Bakken | Star | $8.69 |
| Sarvah Sannes | Hickory | 9.18 |
| Oscar C. Hanson | North | 2.44 |
| John A. Grady | Goodridge | 11.20 |
| Geo. Johnson, Estate, | City of Thief River Falls | 27.78 |
| John Hornick | Diener | 15.52 |
| Joe U. Duval | Goodridge | 7.05 |
| Peter E. Bjeldelie | Hickory | 16.79 |
| Mrs. Morris Jeffer | City of Thief River Falls | 45.20 |
| R. C Sweet | City of Thief River Falls | 14.11 |
| Mrs. Alice Hanson | City of Thief River Falls | 2.44 |

A delegation of farmers from Clover Leaf Township met with the County Board asking that some repairs be made on the Grade of Judicial Ditch No. 18. This matter was taken up by the board and an investigation of said ditch would be made at once.

A delegation of men from the Township of Goodridge and from the Village of Goodridge met with the Board asking that an appropriation of $200.00 be granted to the Goodridge Fair. Motion made by Commissioner Hanson, duly seconded by Commissioner Peterson that the sum of $200 be appropriated to The Goodridge Fair.

On roll call the following members voted for the Motion. Hanson and Peterson.

Those voting against the Motion McGinn, Naplin and Roy. The Motion was so declared rejected.

The matter of Andrew Carlson to be set off from School District No. 55 and attached to School District No. 42

**Order Setting Off Freeholders from One school District to Another**

Whereas, The Petition of Andrew Carlson, a freeholder of School District No. 55, in this County, with the approval of the County Superintendent endorsed thereon, representing that he is the owner of the lands hereinafter described, which are situate in said School District, and that is adjoining School District No. 42, and asking that his said lands may be set off from said District No. 55 to said District No. 42, for the following reasons:

That he has three miles to necessar ytravel and the Roads are in poor condition most of the time to school house site in School District No. 55. But to school house site in School District No. 42 the roads are in better condition and only 2 miles travel, was presented to the County Board of this County, at a session of said Board held on the 26th day of May, A. D. 1920, for the action of said Board thereon; and Whereas, it was thereupon ordered by said Board that a hearing should be had on said petition as a session of said Board commencing on the 13th day July, A. D. 1920, at the County Auditor's office in the City of Thief River Falls, in said County; and Whereas, it was further ordered by and by said order that notices of the time and place of such hearing be given by posting a notice of said hearing in three public places in each of the School Districts to be affected by said petition, and by serving upon the Clerk of each of said School Districts, personally, a copy of said notice, at least ten days before the time appointed for such hearing, and by giving two weeks' published notice thereof in the Tribune, a duly qualified newspaper printed and published at Thief River Falls, in said County, and whereas, at the said session of said board commencing on said 13th day of July, A. D. 1920, proof of the due publication, posting and service of said notice of hearing as therein directed and required, more than ten days prior to said said named date, having been made and filed, said petition was publicly read and considered by the Board, with everything which was said by said interested parties for or against granting the prayer of the petitioner, and being satisfied from all the evidence produced at such hearing that the allegations of said petition are true and said Board is of opinion that the prayer of said petitioner should be granted, it is hereby ordered and determined, that the following described lands owned by him, to wit: North-west Quarter, Section 15, Twp. 154, Range 42, be and the same are hereby set off from said School District No. 55 to said School District No. 42 and said lands are hereby made a part of said last named School District for all purposes whatever.

By order of the County Board.
Dated the 13th day of July, A. D. 1920.

Oscar J. Peterson
Chairman of the County Board.
Pennington Co., Minn.

Attest T. P. Anderson
County Auditor and Ex-Officio Clerk of Board.

---

TO THE COUNTY BOARD FOR PENNINGTON COUNTY MINNESOTA.

The following is a true and correct statement of the condition of the respective funds of said County at the close of business on the 30th day of June 1920, showing the amounts levied for the various County Funds for the current year, together with the actual cash balance and the amount unpaid on contracts of the County.

| | Amount Levied | Cash Balance |
|---|---|---|
| County Revenue Fund | $25,010.68 | $10,264.95 |
| County Road and Bridge Fund | 30,361.78 | 12,015.41 |
| County Bond and Interest Fund | 3,036.41 | 1,337.20 |
| County Sinking Fund | 3,542.85 | 133.88 |
| County Sanatorium Fund | 6,072.85 | 2,202.04 |

Respectfully Submitted
T. P. Anderson,
County Auditor.

The Following resolution was offered by Commissioner Roy who moved its adoption seconded by Commissioner Naplin.

Whereas, After due consideration this Board has estimated the necessary expense of the County for the ensuing year to be as follows:

| | |
|---|---|
| County Revenue Fund | $28,000.00 |
| County Road and Bridge Fund | 30,000.00 |
| County Bond and Interest Fund | 3,000.00 |
| County Sanatorium Fund for Construction | 3,000.00 |
| County Sanatorium Fund for Maintenance | 3,000.00 |
| County Court House Constructed Fund | 3,000.00 |
| County Court House Construction Fund | 3,000.00 |

THEREFORE BE IT RESOLVED, that to meet such expenses the following sums be levied on the taxable property of Pennington County as a basis for the year 1920 as follows:

| | |
|---|---|
| County Revenue Fund | $28,000.00 |
| County Road and Bridge Fund | 30,000.00 |
| County Bond and Interest Fund | 3,000.00 |
| County Sanatorium Construction Fund | 3,000.00 |
| County Sanatorium Maintenance Fund | 3,000.00 |
| County Court House Construction Fund | 3,000.00 |

All members present voted for the resolution it was so declared approved by the Chairman.

Motion made and seconded that the Board adjourn until Tuesday morning at 9 o'clock.

Motion carried.

July 13th, 1920

The County Board met as per adjournment at 9 o'clock A. M. All members present.

IN THE MATTER OF THE PETITION OF B. N. Thorstad, S. L. Lind, S. B. Swenson, O. L. Larson, Nels Neuman, S. H. Ness, and others, for Locating and Constructing County Ditch No 68 in the County of Pennington, State of Minnesota.

State of Minnesota )
) ss.
County of Pennington)

Whereas, A petition bearing date the 15th day of June, 1920, and signed by B. N. Thorstad, S. L. Lind, S. B. Swenson, O. L. Larson, Nels Neuman, S. H. Ness, and others, praying for the establishment of a certain ditch or drain in said County, designated and numbered by the County Auditor as County Ditch No. 68, the route of which is more fully described in said petition, and a proper bond accompanying the same, have been filed with the County Auditor of said County, as required by law:

NOW, THEREFORE, We, the County Board of said County, at a regular session held this day, do hereby appoint Irving E. Quist as a competent and experienced engineer to make an accurate survey of the line of said ditch or drain from its source to its outlet, as provided and specified in and by Chapter 230, of the General Laws of 1905, and Chapter 441 of the Session Laws of 1917, and all amendments, and after examining into the practicability, necessity and advisability of the construction of said proposed ditch and completing his duties as such engineer to make and file his report with the County Auditor, on or before the 30th day of July, 1920.

Dated July 13, 1920.

By the Board,
Oscar J. Peterson,
Chairman County Board.

Attest:
T. P. Anderson,
County Auditor.

---

IN THE MATTER OF THE PETITION of O. O. Mainud, Alex Swanson, Rupert Swanson, C. T. Swanson, Albert Geske, Hans Anton, and others for locating and constructing County Ditch No. 69 in the County of Pennington, State of Minnesota:

State of Minnesota )
) ss.
County of Pennington)

Whereas, A petition bearing date the 15th day of June, 1920, and signed by O. O. Mainud, Alex Swanson, Rupert Swanson, C. T. There's always room at the top

for Highest Possible Quality at Lowest Possible Price

Not Merely a New Name But a New Cigarette

THERE was room at the top for a new and better cigarette. And Spurs were made to fit in right there! Spur's decidedly new blend makes the Orient's choicest tobaccos and America's finest tobaccos yield more richness, aroma and mildness than you thought a cigarette could have. A new method of rolling (crimped, not pasted) makes Spur's good tobacco taste last longer. Spur is "class" all through—even to the smart "brown-and-silver" package, triple-wrapping, that keeps Spurs fresh and fragrant. If you're fed up with ordinary cigarettes, Spurs will give you a fresh start.

LIGGETT & MYERS TOBACCO CO.

If your dealer cannot supply you, send us $2.00, and we shall be pleased to send you, by prepaid parcel post, a carton of 200 Spur Cigarettes (10 packages).

## GIRLS

You will really enjoy the employment of making infants' and children's underwear in our new factory —the garments are small, easy to handle and the work so clean that it is almost like making dolls' clothes. In fact, you will just smile away the hours thinking of the good wages you receive for such pleasant work, and go home happy and cheerful each day. A dandy new cafeteria and prices so low they will surprise you—just the nicest recreation room you ever saw, with piano player, victrola, reading and rest room, with library of good books for you to enjoy. A hospital room and a doctor to give free medical service if you feel ill.

Ask for Mrs. Reutfrowt She will tell you what good wages we pay and about the "extra money plan" for girls who start now.—Minneapolis Knitting Works.

The above "Help wanted ad" from the Minneapolis Journal is rather different from the old time ad when a woman worker was all but a slave and a drudge. The conditions for labor in this country are better than anywhere else in the word. They were not brought about by any single political party. They are better because this is America and because American employers are more just, and American workmen are the highest type and best citizens in the world. We are proud of our American institutions and our American employers and laborers. Let us do all we can to merit the place we occupy, and in appreciation for our Americanism of which we are so justly proud.

The Republican senate, according to Wilson, in refusing to endorse the League "broke the heart of the world." Probably that accounts for the large Republican support upon the part of the women. Oh you heartbreakers.

Mrs. J. M. Bishop has been most highly honored by appointment to be one of seven women vice-presidents for the Republican party in Minnesota. This appointment comes from Mrs. Maud L. Fossem, chairman for Minnesota and member of the Republican National committee. Mrs. Fossem is obliged to be at the Chicago headquarters a great deal of the time during the campaign. So the real work of the committee will fall largely on the vice presidents. Three vice presidents have been named, one for Minneapolis, one for St. Paul and Mrs. Bishop for the state at large. Mrs. Bishop is called upon at this time to help arrange the itinerary in the state for the Harding special train, when the speaking campaign in Minnesota is made. She will meet with the executive committee in St. Paul during the present month. During September and October she will be operated continuously at headquarters and making speeches for the party in Minnesota and other states. Mrs. Bishop's ability is being appreciated as we predicted it would be. We are most gratified to know that a Thief River Falls woman is receiving such favorable recognition in the hands of the state and national republican party.

An Iowa tourist takes occasion to compliment our fine little city in the following terms:

"Father forwarded me the clipping from The Tribune in which mention is made of our short call in Thief River Falls. You are quite right in saying that we were enjoying the trip immensely and not a small part of it was the Thief River Falls which surprised me. People had told me it was a "nice town" but no one said that it was a fine little city."

The Federation of Labor, Mr. Gompers further asserted, at all hazards will resist wage reduction. Organized labor, he added, "would not tolerate" payroll cuts.

"For months we have heard the cry, dinned and dinned and dinned into our ears: 'Increase production'!" Mr. Gompers declared How can a policy of increased production be accomplished under a policy of laying off thousands of workers?"

Discussing the woolen company's action, Mr. Gompers said it had increased its net income in 1919 816 per cent over 1914, and its common stock earnings 531 per cent.

The Pennsylvania railroad, he added, plans to lay off 12,000 men.

"Will this help more freight?" Mr. Gompers continued. "Will it help give the nation that increased production of which it stands in need, or is he laying off of workers a revival of that old and crude policy of laying off men during a political campaign for the purpose of driving them in fright and necessity into a political camp?"

Well! There is Wilson and Truesdale, they are democrats. They have been on the job almost eight years If these conditions are political then Wilson is the man to blame, and the man to appeal to. No one can get Wilson on the 'phone quicker than Gompers, especially during a political campaign. These conditions are not political. They are economic and based on selfishness and greed, and selfishness and greed are near the top and in the majority and prominent in the councils of both parties. Both Democrats and Republicans are to blame for the spread between the price the farmer receives for his wool and the cloth turned out by the weaver. The spread is caused by manipulation upon the part of the weavers and they belong to both parties. This manipulation is profiteering and profiteering is criminal. The Attorney General of the United States is the man that should prosecute. He is a member of the President's cabinet. Therefore the blame is on the Democrats.

Crookston, Minn.—A large shipment of Polk county wool will be shipped from Crookston to Minneapolis Saturday. It will be the combined clip of all members of the Polk county wool growers association and will be pooled and stored with that of other Minnesota counties pending a good market price.

Good common sense on the part of the farmers.

The currency comptroller attacked New York banks for exacting an interest charge ranging as high as 15 per cent. New York bankers, he said, were the only ones in the country charging such interest rates, which he believed to be burdensome on business as well as without justification for their excessiveness. These banks, Mr. Williams said, "have been obtaining credit from the Federal Reserve banks at less than six per cent."

The Tribune reaches precisely every wire fence buyer months before they reach Thief River Falls. We have facilities for reaching these new settlers. They read The Tribune for weather reports, crop reports, business conditions and all the news about city (to them) new country. They read everything in the paper perhaps more closely than local people. They read the ads, they know the banks, leading merchants, implement dealers, lumber men and all business men before they get here. The Tribune is on the job with these new settlers dozens and dozens of them. They are coming all the time. Better communicate with them, and run an ad in The Tribune, the service paper. More columns of advertising, more columns of reading matter, more readers, more results. We reach all the old settlers. We reach one hundred times more new ones than any other paper in the county.

Candidate Cox has made his speech of acceptance. He is in favor of Wilson and all that Wilson stands for. League, sugar, southern control and all. Says he is in favor of the budget system. That's what Wilson said, but he vetoed the budget bill. Cox says he is in favor of a reduction in taxes. Who made these enormous taxes? Wilson we think was in it. Cox is in favor of a reduction in governmental expenses, so is everybody else, but who has been destroying property, making donations in the millions to war profiteers, and generally demoralizing money values, property business integrity and confidence? Who has been the greatest property despoiler in American history? The man that Cox endorses. We suspect that Candidate Cox is much better than the company he keeps, and better than his utterances indicate. Cox talks as though he was obliged to get up a row or he lost in the shuffle.

The St. Hilaire boosters came to the fair Wednesday in parade formation, about fifty cars with banners "St. Hilaire Boosters," flags, music, good cheer and a neighborly spirit. St. Hilaire is all right. They paid us a compliment by their fine attendance at the fair and we desire to register appreciation and we promise similar recognition when opportunity offers. St. Hilaire has always been a good and true friend to Thief River Falls.

John A Jacobs of Middle River, was a Thief River Falls visitor Wednesday (owned by Hill) said of the lassie about the sun flower cultivation near Middle River He says the numerous fields are exceedingly fine. The sun flower as a silage is claimed to be superior to corn and about three times as much per acre can be raised.

One of the proprietors of this little paper (The Times) recently sturing-y claimed as many as "three hundred Tribunes" went to Iowa and southern Minnesota points. Ninety-nine percent of our southern Minnesota and Iowa subscribers are land owners and prospective settlers. We help introduce them to the business men of Thief River Falls. These men are our best buyers. Ask your lumber man, implement man, garage man. The Tribune is the only local paper read by the city people. You bet they read The Tribune and we are proud of them. We are glad to help bring them to the country, and we are proud of their support both before they come and after they are here.

Hale Holden, Pres. of the Burlington road (owned by Hill) said of the rate increase: "The raise will enable the roads to deliver goods more promptly, therefore the business man will prosper."

Ed Pennington of the Soo representing English railroad money in the United States said, "This raise will be a great boon for the business men, we can now deliver freight promptly."

E. W Decker, president of the Northwestern National bank Minneapolis (said bank being owned by the Hill roads). "The raise will enable the roads to deliver freight more promptly and a great boom in business will follow."

These boys must have been out to lunch together. We are not quite able to see how a higher freight rate will bring a harvest of sugar from the Twin Cities to Thief River Falls in a shorter time, unless perhaps the railroads have been playing up the transportation break down as a means to an end. Indeed it has been apparent that d'atory tactics on the part of the railroads has been the rule during the past year. We hope they will keep their promise and "make it snappy" now that they have everything in the world they have asked for. The public is entitled to something A little service please.

Candidate Cox states that Ex-President Taft is expected to support the Wilson League to the extent of campaigning for Democratic senators favorable to the Wilson plan. Time should end it. Taft is some winner as a candidate for re-election, and seeking endorsement of his policies in 1912 he carried Vermont and Utah. He has not carried anything since till this spring when he carried the Times

## INTERNATIONAL HARVESTER IN NEW PROFIT SHARING PLAN

Chicago, July 30—Industrial heads here today declared the new policy of the International Harvester company one of the most comprehensive profit-sharing programs thus far undertaken.

The plan provides that employes yearly will receive 60 per cent of the profits after 7 per cent has been paid on invested capital. The benefit is open to all employees in the United States and Canada with certain limitations as length of service. After paying dividends on capital stock last year the company had a balance of $12,000,000.

## Guarding Her Daughter

Medical Journal: In a British railway carriage, of the type known as "American," because, unlike the majority of cars it has an aisle the length of the car two U. S. soldiers in Khaki were standing in the aisle. Nearby were seated a prim and elderly English lady and her daughter, who were gathering their belongings preparatory to alight at the next station. Suddenly the lady nudged her daughter and whispered: "Mary, mind what I say! Where we get off do just as I do and look down the aisle. I can't tell you why just now." Daughter obeyed and her mother let the train as if departing from the presence of royalty. Safely arrived on the platform, the daughter naively asked why. "Mary," said her mother, "you saw those two American soldiers—they eat their doughnuts, I believe. Well, when we started to get out I overheard one of them say to the other: "When those two dames get off we'll punch their heirs!" The e ..o'ILFrom redacted forFo

**Order LimitingTime to File Claims and for Hearing Thereong**

State of Minnesota, ss. County of Pennington, in Probate Court.

In the Matter of the Estate of Edwin K. Hogeson, Decedent

Letters of Administration with the Will annexed this day having been granted to T. P Hoare

It is Ordered, That the time within which all creditors of the above named decedent may present claims against his estate in this Court, be, and the same hereby is, limited to six months from and after the date hereof; and that Monday the thirty-clock A. M., in the Probate Court Rooms at the Court House at Thief River Falls in said County, be, and the same hereby is, fixed and appointed as the time and place for hearing upon and the examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.

Let notice hereof be given by the publication of this order in the Tribune, a semi-weekly newspaper published at Thief River Falls, Minnesota, once a week for three successive weeks according to law.

Dated July 27th, 1920.

Ira C. Richardson,
(Court Seal) Judge of Probate.
Theo. Quale, Attorney.

THE MURINE Night Morning Keep Your Eyes Clean—Clear—Healthy Murine Is Safe to Use in Any Eye

## SOCIETY

**Zion Church Entertains**

The members of the Young Peoples society of the Zion Lutheran church entertained in honor of Mr. and Mrs. Burt Berg. The evening was spent in a social way, and at about ten-thirty light refreshments were served. At the close of the evening Mr. and Mrs. Berg were presented with a purse of money.

**Slumber Party**

Miss Mary Prichard entertained a number of her friends at a slumber party at her home on Tuesday. In the morning a delicious porch breakfast was served by the hostess. Those having the pleasure of the affair are: Misses Ella and marian miller, Anna Tunem, Myrtle Berg, Dorothy Bottelson and Florence Ashberg An excellingly pleasant time was reported by all.

One of the most delightful affairs of the season was the dancing party given by Mrs. W. W. Prichard Jr., at her home on Bridge street on Tuesday evening in honor of F. C. Koziol and Sidney Burton who were her guests. Those present for the evening's pleasure were Misses Aleta Kiland, Myrtle Berg, Anna Tunem, Dorothy Bottelson, Florence Ashberg, Mary Prichard, Evangeline Burns and Ella and Marian Miller and Messrs. F. C. Koziol, Roy Miller, Herbert Hanson, Kennesh Wattam, Charles Prichard, Ray Kiland, Sidney Burton and Mr. and Mrs. R. B. McWilliams.

On Wednesday afternoon at four o'clock occurred the marriage of Capt. A. Hovland and Miss Alvina Lauterbach at the home of the bride's sister, Mrs. Gust Geske, Rev. Krelit, pastor of the German Lutheran church officiating. The bridal couple was attended by Mrs. Anna Becker of Osage, Ia., sister of the bride, and C. L. Jensen. The bride wore a beautiful gown of pale green georgette over white satin. The rooms were prettily decorated with ferns and flowers. After the ceremony a bounteous wedding dinner was served to the guests. Only immediate friends and relatives of the parties concerned were present. Mr. and Mrs. Hovland left Thursday for Winnipeg where they will spend a brief honeymoon, after which they will return to this city and make their future home. Out of town guests were Mrs. C. H. Wheeler and sons, Floyd and Burton, of Estevan, Can., Mrs. G. Becker and daughter, Margaret, and son, Oswald, of Osage, Ia., Mrs. Dan Shriek and daughter, Irene, and son, Daniel, of Crookston.

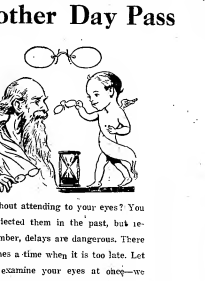
**To Entertain**

The Luther League of the Trinity Lutheran church will meet Thursday evening at eight o'clock in the basement of the church. The following program will be rendered:

Devotion ..... Rev. Rholl
Piano Solo ..... Miss Erickson
"It is Wonderful" ..... Vocal Duet
"Laddie" ..... Helen Weeks
Vocal Solo ..... Miss Bachweil
Speech ..... Rev. E. R. Weeks
Vocal Solo ..... Mr. Rholl
Piano Solo ..... Elnor Overland
Business Meeting.

Lunch will be served by Gilma Ostvolden, Elfreda Knudson, Eleanor and Stanton Dahlen. Everyone cordially invited.

**Rosett-Limesand**



Ludvig Rosett and Marie Limesand of Marshall county were quietly married Thursday afternoon at two o'cock at the Zion Lutheran parsonage. Rev. George Larson officiating in the presence of Miss Anna Rosett and Harry Thanidson.

**Froseth-Evenson**

A very pretty wedding occurred last Thursday evening at the Carl Froseth home on Horace avenue when his son, Henry, was united in marriage to Abbie L. Evenson. Rev. George Larson of tite Zion Lutheran church tied the nuptial knot. The bridal couple was attended by Miss Ines Johnson and Percy Froseth brother of tite bridegroom. Immediately after the ceremony a weddlag dinaer was served to the guests. Both of the young people are well known in this city and their many friends extend hearty congratulations.

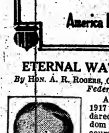
## FUTURE DEVELOPMENT IN THE UNITE OF POWER AT SCHOOL AGE

We boast of the greatest Public School system in the world. Have we got it? Is it producing the results that are most beneficial to our nation to make it produce what it is capable of producing and to illiminate class distinction and make it a home loving, harmouous nation, built on the fundamentnl principles of work and right living?

The same teaching of productive labor and right living as taught in the home should f low the child through his school days. As a general rule throughout our country the public schools are closed for a period of 3 months or even more each year. Taking out the regular holidays during the school year, and also keeping in mind, that after a child has been released from the discipline of school for over three months, that it takes, according to some of our best educators at least one month at the beginning of school to get a child's mind back into a desire to study or settle down to business thus limiting the time that a child actually gains knowledge through his schooling to about 7 months out of a year. Thus we can figure that about seven-twelfths of our great school fund and our great public equipment is being utilized to better and to teach our children and about 33 1-3 per cent of it is absolutely wasted in idle schools and idle equipment, which most assuredly is depreciating quite as rapidly when it is not used as when it is put to its proper uses.

We have in mind most especially the boys and girls of our public schools between the 4th and 8th grades. Our children between these grades are full of pep and if their energy was devoted along productive lines, mingled of course with pleasure, this hand of workers could accomplish wonders and at the same time be developing into units of power that would insure, for all time to come a nation of thrifty, contented and healthful people, with a malice toward none, but with a will to accomplish things, which would place our production along every line of endeavor at its maximum and create in us all a national spirit filled with pride, thrift and good fellowship.

The following is our idea of a practical educational program for our public schools if we are going to teach our young people the fundamental principles of right living, thrift and production: Following are ten sound and sensible subjects, no one of which is any more important than the other, but all of which if thoroughly taught and thoroughly absorbed would place our young people in such a position, that when they stepped out into the University of "Hard Knocks" they would find themselves pretty well equipped to cope with most any problem that might arise: Loyalty to our country and to our government; English in all its branches; spelling; penmanship and commercial law together with practical business teaching as it concerns both real and personal property rights; gardening and agriculture; domestic science, including sewing and care of children; mathematics through simple arithmetic; history; physiology and hygiene; public speaking and music. Further, our school year instead of being practically 7 months long should be based on a period of 12 months and teachers all hired for a yearly period and paid on that basis. We would observe all our legal holidays and would divide our recreation periods up as follows: 2 weeks spring vacation; 3 weeks Christmas Holiday vacation; one month summer vacation and one month summer vocational training, this combined of course with out-door recreation and pleasure. This would mean a program of 12 months out of which there would be put 10 weeks of idleness in the schools, which is by far more than the average man or woman ever thinks of having each year. It would make the teaching profession all the more attractive on a yearly basis, both as to employment and income. Thus the time that is now so handsomely wasted and hanging so heavy on the majority of the young people would be put to a splendid use, the result of which we believe would most assuredly be a more contented lot of people, a lot of people whose interests would be along productive lines and consequently a more independent nation full of happy people.



This program of a practical education is not based on the assumption that all who finish our public schools will then proceed to college, but rather is based on the principle that will be the most beneficial to by far the greater class of young folks who do not and could not, if they wished, go to college. The 10 subjects outlined above if properly and thoroughly taught during the period of our public schools would place each graduate upon a foundation of competency as to the ordinary requisites of a livelihood and at the same time ought to equip them to take up any professional line of work or study and he all the more successful on account of this kind of public school education.

## TWO MINUTE TALKS TO AMERICANS.

America First Association

### ETERNAL WATCHFULNESS PRICE OF LIBERTY

By Hon. A. R. Rogna, *Chairman Liberty Loan Executive Committee Ninth Federal Reserve District, Minneapolis.*

As in the Revolution and during the Civil War, so in 1917 and 1918 the men and women of America gave and dared immeasurably for the cause of self-government, freedom and equality. No one dares question our national courage and loyalty to high ideals.

But eternal watchfulness is the price of Liberty. Right now the free institutions that we fought for are in danger. Organized forces of unrest, class hatred and mob rule are seeking to array class against class—to undermine our Government and to put in its place something similar to the "people's rule" as it exists today in Russia.

This is not rumor or idle fear. It is proven by the facts. There is a strong, alert "enemy within our gates." Unchecked this enemy will increase in strength until the heroes of Flanders' Fields will have died in vain.

Today, therefore, it is the duty of every individual to take stock of the Americanism in his or her community—to take a stand for America or against America. It is a clear cut issue. There isn't any "no man's land." You must get into one camp or the other.

If you believe in the rule of the soviet, in sabotage, confiscation of wealth, revolution, class rule, join the I. W..W.'s, the Socialists the communists or some other of the 'ists.

If you believe in our constitution, in a representative "Government of the people, by the people and for the people," if you have faith in the nation of Washington, Lincoln and Roosevelt, then join with the forces of Americanism and fight the enemies of that nation.

The war is over, but Americans must "carry on." They must do something besides talk. They must work and save and fight for their Government in 1920 if they are to enjoy what they fought and sacrificed for in 1918.

☞ FATHERS, MOTHERS, CHILDREN, WORKMEN, AND EMPLOYERS OF LABOR—ALL LOYAL AMRRICANS—will you not devote five minutes to-day, to an earnest study of some of *the great truths of our National life?*

## There's An OilPull For Every Size Farm

WITH four sizes—from the small 12-20 up to the giant 30-60—the OilPull line of tractors conform to the needs of every farm and power job.

No matter whether you want a tractor to plow big acreages of tough, wild sod, operate a small size feed grinder, or any job in between, there is an OilPull of the correct size.

The OilPull line includes the 12-20, 16-30, 20-40 and 30-60 H. P.—all standard in design. For over eleven years OilPulls have proved their unequaled economy of operation—but, as if this were not enough, every OilPull owner is given *a written guarantee* that it will successfully operate on all grades of kerosene under all conditions and at all loads up to its full rated brake horsepower.

Choose the OilPull that fits your farm—they'll all deliver the most in economy and stay "on the job".

OilPull

## PEOPLES AUTO CO.

## This town in 1945

WHAT about this town and country twenty-five years from now?

The answer is in your and my act of today.

As we practice civic pride today, so will it be reflected in the GROWTH of our community a quarter of a century hence.

The practice of civic pride is more than the mere boasting of our community's present assets. It is mostly in the active support of the public and BUSINESS institutions now here—that they may develop and GROW.

Popular subscriptions to any worthy cause—whether for charity or some big municipal improvement—is all mighty fine—never to be frowned upon.

But there is a more stable method. That method is in the simple little everyday act of having ALL our goods at home—patronizing our home merchants.

A community thrives and grows as its business institutions grow. No business man with vision accepts to build up a successful business, is so selfish but that he will throw his prosperity right back into the life and development of his community.

It may be in the erection of a big business structure—it may be in helping finance some new business enterprise which will afford labor for many more workmen—it may be in the enlorgement and development of his own business—offering bigger trading selection—abreast the rest of the world.

If we send or take the money we earo here to some other centar for trading, pleasure, or investment—we cannot expect our community to grow—we cannot expect our own earning power HERE to increase.

Let's all start training our cash toto HOME-SPENT DOLLARS. DOLLARS.

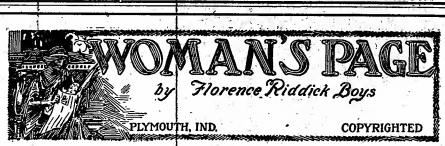
# The Place Where You Live is Worthy of Adornment



The furnishing of your home is the most important thing you do.

You live with your furniture. It means the difference between a mere place of existence and a charming, delightful abode of pleasure and ease.

We can help you in many ways with the beautifying of your home.

## Larson Furniture Co.

Main at Third

### RHUBARB

Rhubarb contains a very large amount of acid, so it is easily preserved. It may be canned by either the steaming, cold pack or boiling method. Rhubarb may be combined with almost any other fruit, thereby making a greater variety of preserves. Young rhubarb makes the best preserved product; in addition it need not be peeled. No special care is required in handling it.

### Rhubarb Marmalade

Put into a preserving kettle two quarts of young rhubarb cut into cubes. Add from one to two quarts of sugar depending upon the desired richness, the pulp and juice of two oranges, and one cupful of blanched almonds chopped fine. Boil the mixture very slowly until it has a rich red color. Put into jars and seal. Cover with melted paraffine. If desired two sliced lemons may be added and the nuts omitted. The marmalade must be stirred frequently while boiling to prevent scorching.

### Rhubarb Conserve

Cook together for five minutes two quarts of rhubarb, two and a half cupfuls of sugar and the pulp and juice of two oranges ground fine, add one pound of seeded raisins chopped fine and cook the mixture five minutes longer. Remove conserve from the fire and add two cupfuls of nut meats chopped fine. Seal.

### Rhubarb and Pineapple Marmalade

Boil together until the mixture is thick one quart of pineapple and four quarts of rhubarb, and the juice of two oranges. Then add a cupful of nut meats chopped fine and seal. A little spice may be added. This marmalade is especially good for preparing lunches for school children.

### Rhubarb and Fig Preserves

Cut fine three and a half quarts of rhubarb, add two quarts of sugar, and let the mixture stand over night. In the morning boil it till it is thick, and add a pint of chopped figs and the juice and rind of one lemon. Seal tightly in jelly glasses and cover them with melted paraffine.

# NORTHWESTERN RANCHERS UNABLE TO FIND MART FOR THIS YEAR'S CLIP

## American Woolen Mills Company to Remain Closed Until Volume Orders Are Received

New York—The Northwest wool clip which ordinarily moves in good volume this time of year into the channels of manufacturing is banking up on the farms, the ranchers unable to find a market.

There are no markets and no quotations for Montana wool, J. C. Wade of the McMillan Hide & Fur company said. Plans agreed upon by the Federal Reserve board to finance the wool crop have had no appreciable influence in stimulating the buying of wool, he said.

The Boston wool market is in the doldrums. The new clip is very slowly dribbling in from the West, only occasional sales being reported here and there, but it is the general opinion that there will be a revival of business before the end of August. No buyers, it is said are willing to advance more than 26 cents a pound even for best wools.

Mills of the American Woolen Mills company will not be re-opened until orders in sufficient volume to warrant re-opening are in sight, according to a recent statement of William M. Wood, president. There are still units in operation, however, mostly the mills of the larger worsted manufacturers.

Mills of American Woolen Mills company will not be opened until orders warrant." Certainly not. They means orders from the trust to start up. High priced cloth and low priced wool suggest control of markets.

### STEINER

Arnie Solem drove to Thief River Falls Saturday forenoon to attend to business matters.

Harvest is going on in full blast in this vicinity. The crop is considered good in most places.

H. Best and daughters, Leona and Fay, drove to Thief River Falls one day last week to visit and attend to business matters.

### Need of Business Knowledge

The Children's Bureau of the Department of Labor has just issued a bulletin showing the dire need of directing and supervising young people as they come from the schools and enter industry. It says, "An army of over a million children between the ages of fourteen and sixteen marches out of school each year to become wage earners."

Most of these boys and girls have no idea of what opportunities are open to them in the business world, of what they are fitted for, or what will be expected of them in various positions, of what the chances of advancement are in the different lines, or which vocations have a future and which spell stagnation.

For this reason most of them take "the first job," which usually requires no special skill and too often offers nothing better in prospect further on. They drift from job to job and become incapable of steady work. Some undertake work which is not good for them, too hard, or injurious in other ways. All this brings about many evils, chief among which are discouragement and the deadening of ambition.

Parents need to have a "bird's eye view" of the opportunities open to girls, for they, even more than their brothers, should be carefully guarded. Many of the openings for women are newly opened and not well known. To give this knowledge to mothers and daughters is the object of the series of articles on "Open Doors in Business." Read them.

### Really Something in a Name.

The Hebrew nomenclature is full of long and difficult names, but the most illustrious biblical characters, from Adam to Maccabeus, have home names that slip smoothly from the tongue. The same is true of Greek and Roman history, as is illustrated by Pericles, Alexander, Caesar, Cicero, Augustus; and in more modern history by Leo, Charles, Edward, William, Cromwell, Napoleon, etc. American history furnishes no exception. Washington, Lincoln, Grant, Sherman, Sheridan and all the presidents had fine-sounding names.

### Bids for Moving School House

I will let to the lowest bidder, the job of moving the school house from lot three to the southwest corner of the same section, which is section four in the town of Mayfield. Also to furnish all material and make a concrete foundation. If the chimney has to be taken down and is to be rebuilt, that goes with the job.

All bids will be opened and considered at 2 p. m., August 28. The right to reject any and all bids is reserved.

J. P. Asp, Clerk of
School District No. 60.
Hazel, Minnesota.

Mail bids via Rhola post office.
a-10-17-24

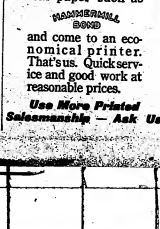
### Dedication at Crookston

Elaborate plans are being made for a Valley wide event of unusual interest to be held at the Northwest School of Agriculture on September 28. The citizens of Crookston will be the sponsors and hosts to visitors from far and near who will attend the exercises planned for the day.

The occasion is the dedicating of the Northwest School's Soldiers Memorial, the formal opening of the school's new $100,000 dining hall and service building, and the acceptance by the state and county of the paved roadway leading from Crookston to the school's campus.

The memorial will be in place in time to be unveiled and dedicated to the eight boys who gave their lives and to the 152 others in the service. The alumni and former students of the school have subscribed funds for this monument.

Numerous organizations, state and valley wide in their scope, will participate in the celebration planned.



Former students and their friends will hold reunions at the school. When it is known that the former students number nearly 1500 it will be seen that they reach almost each and every county in the state. Former service men will come from all the posts in the valley. The organizations will be present in the parade under consideration or be represented on the program.

### Trading With Germany Increases

While the United States and Germany are still technically at war, commerce between the two countries is steadily increasing. The importation of dyes and fertilizers, the two largest items of commerce before the war, shows an increase, the fertilizer imports for the past year amounting to $600,000. This is small compared with pre-war times, but it shows that business is being resumed. Germany's copper mines are again producing. The list of various items listed as being imported from Germany at present include wild animals for exhibition purposes, scenery for theatres and art work.

Let The Tribune sell that old, dis-

When you advertise you go half way! There's a meeting place for the seller and the buyer of real estate. This meeting place is in the classified advertising columns of this paper. The owner is represented by his advertisement. The prospective buyer turns to these columns—and if the ad enlists his interest the transaction is under way.

# FACTS VS. FICTION---

## Tribune's List of 3,800 Subscribers 100 per cent Worth While to You---

THE Thief River Falls Tribune has today 3,800 paid in advance subscribers. Everyone of these subscribers is a reader and a booster of The Tribune---And everyone of these to whom The Tribune goes twice-a-week is a prospective buyer. There are four members to the average family---which means 15,000 prospective buyers who can be reached through The Semi-Weekly Tribune. **Prospective buyers can be made actual customers by judicious and worth-while advertising.** ¶Advertising in The Tribune is always successful---brings results not to be obtained through any other medium.

For The Tribune goes to 15,000 buyers TWICE-A-WEEK---which means that 15,000 prospective buyers read the advertisements twice-a-week in The Tribune. ¶The strongest punch is always the better. To present to the buyer TWICE the values you have to offer is more worth-while than to tell him of it ONCE.

And then the cost of advertising in The Tribune is lower than that of any competitor---**The Tribune's list of subscribers means money to you.**

## "Your Money's Worth In Local Advertising"

### SUCCESS IN ADVERTISING

Success in advertising depends solely on REPRESENTATIVE CIRCULATION.

Mere volume of name means nothing. Mere size of list means nothing.

But interest—Punch, Power and Popularity—among those who are always prospective buyers for worth-while things, MEANS REAL MONEY TO THE ADVERTISER.

And every bit of the circulation of The Tribune is representative circulation. That is to say---the list is not only a complete Paid In Advance list---but is also a completely Interested list.

Subscription power is a decided factor—whether or not you shall get value received for your advertising.

And The Semi-Weekly Tribune offers the subscription power---the popularity---THE PUNCH---to bring you the profits you desire.

Advertise in The Tribune---Get "Your money's worth in local advertising"

### THE POWER OF THE TRIBUNE

Power is expressed in man by physical and mental strength—in machines, by capability of developing energy—and in CIRCULATION by the results secured.

The Tribune bases its claim for consideration by advertisers on its capacity for achieving the utmost in results, at the minimum of cost.

Advertising always pays. But advertising pays most when it is inserted in the medium with the strongest circulation list—the greatest popularity—the most PUNCH.

And on these three assets, Punch, Power and Popularity, The Tribune is built.

Let us show you what we can do. Rates, insertions, contracts, etc., will be discussed with you whenever you wish.

Write or call today for information. IT WILL PAY YOU.

## DELEGATES TO CONVENTION ARE NAMED

SIX DELEGATES FROM LOCAL LEGION POST ELECTED TO ATTEND CONVENTION

The American Legion meeting held last evening at the Evelyn hotel was fully attended and a splendid meeting was the result. The delegates to represent the local post at the state convention to be held at Duluth on August 16, 17 and 18 were selected and are as follows: Delegates: Daniel J. Doocy, Derby Anderson, Hugh McDaniels, Oscar Smith, G. H. Linsby and Arthur Berg. Alternates: Bernard Burgraff, Guy Johnson, L. C. Neilson, F. E. McGinn, Hal Stanton and W. E. Peterson.

The expenses of the delegates are to be paid by the post sending them and there are to be six delegates from each post, but owing to the low financial condition of the local treasury, it is the intention of the local post to send only two delegates. This is all that can be sent from this place and while the local post would like to send a full representation they cannot on account of funds.

The Bemidji post are to attend the convention in a special train and will make a bid for the 1921 convention to be held at that place. They have requested that the local post give them support which was gladly promised.

It is the intention of the local post to put on a number of entertainments of one kind and another in an attempt to bolster up their finances and the public should turn out to every one of them and help the legion out of their financial difficulties. In many other cities even smaller than this, the legion has been given every encouragement and have been strongly supported with the result that they are financially able to carry out all their plans and to put their ideas into effect, making it much more satisfactory and helping in no uncertain manner to keep the posts alive. More consideration for the local post should be shown by the citizens of this city. They are not a charitable institution and have never asked for one cent, but when they do attempt to raise money by entertainments it is the duty of every citizen to respond and help them out. They are deserving of the support of every man, woman and child in the county and it seems a crime that they should be compelled to forego the sending of delegates to the state convention for the lack of funds.

### Win Trip To Fair

Six Pennington county boys and girls will be given a free trip to the live stock show at St. Paul and the state fair as a result of their live stock judging and exhibits at the Pennington county fair. Those to get the trip to the live stock show as a result of their stock judging are Lester Coyle and Raymond Muzzy. Those to visit the State fair as a result of having the best exhibits in the dairy calf contest are Pearl Conklin and Ruby Conklin. There were twelve entries in this exhibit and the winners easily walked away with first prize on their exhibits. In the sheep contest Frances Conklin and Myron Robinson won first prize for their exhibits, which gives them a trip to the state fair also.

There was much interest in this department of the fair and it is fast becoming one of the main features of the local fair. The boys and girls of the county are becoming more interested in these exhibits and stock judging contests each year and as a result this department of the fair is becoming one of the large and interesting features of the fair.

The winners are highly elated over the results obtained and rightly so, they have worked hard and faithfully to win the first prize in this exhibit and they deserve all that can be given them. The trip to the live stock show and the state fair will be fully enjoyed by each winner and much good will be accomplished from the training received in preparing the exhibits and the stock judging.

### Informally Entertains

Miss Myrtle Berg informally entertained fifteen girls at her home Saturday afternoon. The afternoon was spent in conversation and music and a five delicious refreshments were served by the hostess. The guests included Misses Doris Halvorson, Nelly Jessup, Meta Kiland, Marion and Ella Miller, Zella Zeh, Florence Aalberg Dorothy Bottelson, Lucile and Evangeline Burns, Ruth Brown, Marion Bishop and Mary Prichard.

### Finish Connections

Holt & George, local plumbers, have finished all sewer work in the city that they had contracted and the streets are now being put back in condition for travel. The work of making the sewer connections has practically consumed the larger part of the summer and the local firm have been constantly on the job in an effort to finish the work on time and be out of the way in case the city should decide to pave.

### Elk's Picnic To Be Hummer

The Elk's annual picnic to be held at Squaw Point on August 20th is going to be the biggest and best yet held. The committees are busily attending to the details of the various jobs and promise they will be on the job until the biggest and best of all picnics is brot to a close. The committee on entertainment is L. E. Lampert, chairman, G. W. Connell, O. C. Olson, C. W. Vornelek and F. E. Hunt. The committee on refreshments is L. H. DeCremer, chairman, Julius Provencher, H. A. Brummund, J. C. Neilson, E. M. Bennes and Joseph Blempeter. A meeting has been called for the 20th to make the final arrangements and every committee is asked to be present and make their final report.

## CROPS ARE ALL IN GOOD SHAPE IN THIS COUNTY

TIMELY RAINS HELP SMALL PRODUCE—THRESHING STARTS

Pennington county is at her very best at this time. The crops are excellent with fine stands and the yield from small grain is mighty fine and pleasing to every resident of the county.

Threshing is now under way in many localities and the yield is running high with a fine grade of grain. The entire county is blessed this year with a good crop and the weather conditions have been just right for the raising of a bumper crop and the farmers of the county have been continually on the job, grith the result of one of the best crops for many years past and an excellent future ahead of the county in a general way.

The progressive methods now being employed in the farming line are beginning to bear fruit in the increased yields and excellent stands. The potato crop is looking as good as it possibly could and with the rain of a few days ago, all crops are in the pink of condition and it will take something rather strong to set the county back this year. The garden truck is above the average and is plentiful. Everything is in fine shape and the high cost of living is due to receive an awful whaling when the final harvesting of crops starts in Pennington county.

### Gospel Mission

Services will be held as follows at the Gospel Mission on 3rd street under Lambert's drug store: English Sunday night at 8 p. m. and Fridays at 8 p. m. In Scandinavian Sundays at 5 p. m. and Tuesdays at 8 p. m. Evangelist O. Olsen will preach.

### Dangerous Practice

At this time of the year it becomes necessary to sound a warning to the younger generation who insist in hanging around threshing rigs and following the teams about, causing runaways and otherwise endangering life and property. Several complaints have reached this office from people who are operating threshers about the manner in which children climb on the wagons and otherwise get in the way of the workmen, and also of the many ride they have in getting too near the machinery and moving parts of the threshing rig. Several accidents have occurred in the past over the carelessness of the children and their parents in allowing them to play around threshing rigs and it would be a good thing for the parents to watch their children and keep them away from the machinery and wagons before an other accident is reported and perhaps another life lost. This is a matter for the parents especially to look into. Ordinarily the children know no better.

### The United States in Prophecy

Did it ever occur to you that the rise and development of our country has been foretold in prophec? This will be the subject for Sunday evening August 15, at the Chautauque tent on LaBree avenue and 4th street. Tuesday evening the subject will be "Who is the Beast with the Number 666 and What is the mark of the beast?

## LOCAL AUTHORITIES ARREST MAN WANTED FOR MURDER AT DULUTH

Man Admits Identity But Says He Is Not The One Who Commited Crime—Duluth Authorities On Way to Get Prisoner

Sheriff J. W. LaBree made a big haul yesterday afternoon when he arrested Andrew Koski 5 miles southeast of Warren on the Robertson farm. Koski is wanted for the murder of Jacob Carlson on June 15th, 1919 at the town of Colvin, and has been working for the Robertson's since last October. He was in company with William Kumpula when the murder was committed, and since that time Kumpula has been apprehended and is now serving a term in the Stillwater penitentiary. Kumpula insists that he is not the man who fired the shot that killed Carlson, but that Koski is the man. Koski, in a talk with Sheriff LaBree last night, admitted his identity but says he is not the man who killed Carlson and insists that Kumpula is the man who fired the shot.

When arrested Koski was working in the field on a binder and was very much excited when the sheriff slipped the handcuffs on. He would not talk all the way to this city but last night about midnight opened up and gave the sheriff the information he wanted. The sheriff notified the authorities at Duluth and they are on the way after the prisioner. A reward of five hundred dollars is offered for the man's arrest and conviction. The circular describing Koski and the crime committed, is as follows:

**Wanted**

For the murder of Jacob Carlson on June 15th, 1919, at the town of Colvin in this county.—

Andrew Koski, alias Kangas, alias Mike Maki whose photograph appears hereon. One William Kumpula, who has already been apprehended, convicted and sentenced to the State Prison at Stillwater, Minn., as an accomplice in the crime.

Andrew Koski, alias Kangas, alias Mike Maki, a Finlander speaks broken English, age about 28 years, height about 5 feet 8 inches, weight about 170 pounds, smooth face, sometimes wears a beard or mustache, complexion medium, wore a long coat and trousers, no vest, common laborer, had a homestead in Beltrami county, Minn., post office Malcolm, in Section 28, Township 156, Range 35, which he relinquished to evade the draft in 1917. Carried registration card of one Mike Sepala, who is supposed to have been exempted from draft. Andrew Koski is an I. W. W. agitator and draft evader and seldom works long in one place. He has been hiding in the woods in this county for the past two years to evade the draft. He has with him a 32 calibre Luger automatic revolver, and he is supposed to be dangerous.

Carlson was shot with a 32 calibre bullet and instantly killed. He was robbed of some money and, possibly, liberty bonds.

All peace officers are requested to arrest this man on the above charge, wherever found, and notify me. When arrested an officer will be sent with the necessary papers to receive him. I hold warrant.

This circular is issued in lieu of the circular of June 24th, 1919 and that circular and the reword offered therein are hereby withdrawn. The reward mentioned in this circular is offered by the Government of Minnesoat.

Frank L. Magie,
Sheriff, St. Louis county,
Duluth, Minn.

## BIG FEATURES TO MARK TRI COUNTY FAIR

EXHIBITS THIS YEAR ARE TO BE LARGER AND BETTER THAN EVER BEFORE

The Tri County fair which is announced for the 21 and 22 of September this year, gives every indication of being a success from the first day until the close. Those interested in this fair are working hard to make it a winner and they expect to have a line of exhibits of farm produce and stock that will bowl the county, fair over. The citizens of the three counties who participate in this fair have gone into the matter in earnest and propose to give the best fair possible, all things considered.

The fair last year was a mighty big success and while it was the first fair it certainly broke all records for exhibits and was attended by practically everyone in the territory who could find the time to get there. The fair will be held this year at Goodridge, the same as last year, due to its central location. This city attended the first fair in good measure and will attend much stronger this year. There is every indication that the fair is to receive all the encouragement possible from this county, and the county generally is back of the Tri County Fair and will help to the limit in making it a big success.

### Moves Here From Iowa

John H. Johnson of Clear Lake, Iowa, came rolling in Saturday with a truck load of goods, enroute to the new farm in Bray Township. Mr. Johnson is a substantial, honest and honorable citizen. He will be a good citizen, and a valuable addition to our farming community. Mr. Johnson has been reading The Tribune. He knows our business men in advance and will be calling on them.

### Surprise Party

Miss Vera Randall was very pleasantly surprised at her home on Conley avenue Wednesday afternoon, Fourteen of her little friends were present and the afternoon was spent in playing games. At five o'clock refreshments were served. The affair was in honor of Miss Randall's seventh birthday.

### Merchants Banquet Soon

The Merchants association will hold a big banquet the latter part of this month or the first of September, the exact date to be announced later. At this meeting it is the intention to have either J. P. Mann of Devils Lake, N. D., or H. P. Hart of Lake Preston. Both these gentlemen are successful merchants in their respective towns and they will give an insight as to how they conduct their stores and the methods they employ to get te people in and to trade especially with them They are live wires and will be able to impart valuable information. It is the plan of the local association to have the credit rating books ready for distribution at this meeting.

### Moving to Crookston

Joseph Peterson, former superintendent of the city water and light department, and who now holds a like position at Crookston has purchased of his property in this city and with his family will soon be a permanent resident of Crookston He has sold his home to a retired farmer of Alvarado, who takes possession in the very near future.

## CITY BUILDING NEW HOMES IN SPITE OF COST

WHILE BUILDING IS NOT AS LARGE AS USUAL HOUSES ARE BEING ERECTED

Despite the high cost of building, Thief River Falls is slowly but surely forging ahead and at the close of the year will have several new homes and business buildings to show. A great many, it is true, have put off building and have repaired the old place with the idea of using it until the prices come down, and others have figured that a dollar will go only so far at any time and that they perhaps can build as well as at any time in the future, and have started the erection of homes and business blocks.

The present prices are, of course, prohibitive, but when prices will be down to normal again is a matter of deep conjecture, and the city must expand sufficiently to take care of the increasing population, regardless of the cost. The city must have homes to house the people that are coming here to live and if it is ever to grow and prosper in the way it should and in the way it is predicted, there must be housing room for the new comers.

Practically all of the building at this time has been done because of the scarcity of suitable places to live and for the reason that in order to get a place that was desirable it was necessary to erect a home. This condition will force more or less building for years to come unless conditions change considerably and the cost lowered. It is certain that the city must build more or less and that there will be building each year, but to insure the steady growth of the town it is vitally necessary that all who can do so, should lend the matter their support and encouragement.

### Pashat-Dahl

A pretty wedding occurred at the home of John Dahl on Arnold avenue Tuesday evening, when their daughter, Miss Karie, was united in marriage to Otto Parbst. The bridal couple was attended by Archie Dahl, brother of the bride and Laura Feragen, sister of the groom. Rev. Lars Larson of the Zion Lutheran church officiated. Only the nearest relatives were present as the ceremony. After a brief honeymoon they will make their home in this city.

## BIG AUTOMOBILE RACES ARE TO BE GIVEN AUGUST 29

LOCAL POST OF THE AMERICAN LEGION ARE TO GIVE RACES AT FAIR GROUNDS

The American Legion are completing arrangements for an automobile race meet to be held at the fair grounds on the 29th of August and while their plans are not complete they hope to have a lineup that will prove satisfactory to all who attend and to give a brand of races that will satisfy the most particular and exacting of witnesses. It is the present plan to have automobile races and motorcycle races, and the feature of the meet is a race between an airplane, automobile and motorcycle. The meet is to be held from four o'clock in the afternoon until eight in the evening, and the Legion feels that they will be able to deliver the goods in no uncertain manner. They have practical assurance of several high grade entries for the races and plan to put on an exhibition that will attract people from all sections of the country.

The recent auto races at the fair while not of the very highest order, proved conclusively that the people like this particular brand of entertainment and it is the belief of the Legion that they will be able to bring some extra fine talent here for the races. They are busy attempting to get nothing but the best and feel that within the next few days they will have a bunch of racers contracted for that will be anything previous of the kind that has been given in the county.

Full particulars concerning the races are to be announced and published in the near future.

### Public Health Clinic at Grygla

A public health clinic will be held at Grygla on Tuesday, August 17, from 10 a. m. to 4 p. m. This is the second clinic to be held in Grygla and one of a series of health educational clinics to be held in the county. The last clinic was held at Argyle August 2 with an attendance of 52.

The public health nurse has charge of the clinic, and Dr. M. G. Milan, chest and throat specialist, will be the examining physician. These clinics are an opportunity as well as a privilege and anyone who needs such an examination and instruction should not miss this chance.

### Judge Kelley Visits City

Hon. C. H. Kelley, district judge of the twenty-second district with headquarters in Crookston, was in this city, Iowa, accompanied by Mrs. Kelley, came driving along in a new parlor coupling Sedan last Thursday. Judge Kelley owns land in Pennington, Polk and Clay counties. He has been two weeks on the road taking in Wisconsin, Great Lakes, Iron Range and Northern Minnesota points. While here he was entertained by his many friends, attended the fair, found the best automobile garage service on the trip, and said so. He complimented us on our progress, our streets, prospective paving, fine improvements in the country and especially our roads, was pleased with the crops and fine weather. Went home more of a booster than ever and will come again next year.

Mr. and Mrs. Herman Gobler, arrived in city Wednesday evening from Dickinson, N. D., where they have been visiting. They will visit for a brief period in this city at the home of the former's brother, F. A. Gobler, before returning to their home in Minneapolis.

## PAVING ISSUE SEEMS TO HAVE RECEIVED JOLT

PAVING COMPANY REFUSE TO ADVANCE NECESSARY MONEY FOR THE WORK

Apparently the paving issue in Thief River Falls for the present year is absolutely in the discard. This is all due to the fact that the bonding company refuse to let the money that was appropriated contracted for until the court has passed on the fact that the matter is in litigation and that it does not come up before the district court until the first week in October, and the court is closed down some time in September—or later.

This has been anticipated by the city council and they are content to await the decision of the court before going any further in the matter. In fact this is all there is for them to do. They cannot start the paving without the money they have contracted and as long as the bonding company refuse to dig up the money they can bring pressure to bear and demand the money.

It is hoped that the court will render a decision soon enough for the council to at least put in a few blocks of paving before the cold weather sets in. By so doing, they will then be in a position to demand the money at the low rate promised as they have fulfilled their end of the contract faithfully and should be entitled to consideration.

It is generally believed that the paving will have to lay over another year as it now looks as the the bonding company were intent in holding the matter over until the first of January when the present contract expires. If possible they will do this, feeling that it is impossible to furnish the money at the low rate promised and the city automatically releasing themselves from a mighty uncomfortable position. Ordinarily this is considered bad business on the part of the bonding company, and undoubtedly should be looked at in the same way at the present time. It is impossible for them to secure the money at the low rate contracted. It is only natural that they would protect themselves from entering into the contract if there is any way possible to get out of it. And this they seem to be accomplishing admirably, with every assurance they will gain their end and thus be released from fulfilling their end of the contract.

It is thought that if the present contract on paving goes by that it will cost no more next year to pave that there will be no chance of the city entering into a contract, and for that reason the city council are of going ahead this year if possible, even tho but a few blocks are laid, in order to hold both contracts over until next year. Unless the city secures the money soon and allows the contractor to begin work on the streets soon, the bonds furnished by the contractor must be returned and a new contract entered into when the city does desire to pave. The council as a whole believe that they will be unable to secure money at the low rate called for in the present contract and as a result they are doing all in their power to rush the matter along in sufficient time to insure the paving of a few blocks in order to hold the contracts over and thus be saved the necessity of going of into the field again next year for bids and money.

It must be conceded there will be no paving this year, and while this suits some to a T it slightly disappoints others and taken all around it is as bad as when first agitated and perhaps a bit worse. It can safely be said there will be no paving in this city this year unless something in the form of a miracle occurs, which is not likely in these days of "hog eat hog."

### Last Game Sunday

The last ball game of the season is to be played here next Sunday afternoon when the locals meet the team from St. Hilaire. This promises to be one of the best games of the year and lovers of this pastime should be on hand early and give vent to their rooting propensities while there is yet time. After the game Sunday no other opportunity to root for the home team will be given for a long time. Turn out Sunday and help the locals win the final game of the season. It promises to be a real game and will be well worth seeing.

Miss Ann Patterson of St. Hilaire, arrived in this city Thursday morning and will spend a few days here visiting with friends.

# TURN TO SUN-FLOWER SILAGE

WAIKIKI FARMS SPOKANE WASH. TO PLANT 40 ACRES THIS YEAR—YIELD IS HIGH

Sunflowers for silage have attracted considerable attention during the past few years and have established a firm foothold in some sections. Last year a variety of experiments along practical lines demonstrated the adaptability of this forage to conditions in the big area of which Spokane is the commercial center. This spring will see the lessons of 1919 applied on a large scale. The sunflower as a silage crop is evidently here to stay.

Remarkable results were secured with sunflowers on the Waikiki farm just outside of Spokane. This sunflower experiment was intended to develop forage for the highest grade cattle, (for six of the Waikiki Jersey are gold medal cows and fifty-five are testing for premier honors. In 1919 six acres of land at Waikiki were planted in Giant Russian sunflowers. An ordinary corn planter adapted to the purpose was used for sowing, dropping the seed in rows three and a half feet apart. As the crop was grown without irrigation the tract was cultivated four times. The sunflowers grew rapidly from May 10 to August 15. Early in the season it was clear that a huge yield might be expected, and the expectation was fulfilled. One acre yielded thirty-six tons by actual scale weight.

A single acre of the tract did not turn out so well, reducing the average substantially; but the average from the six-acre tract was 22 tons per acre. Individual stalks weighed from 10 to 20 pounds each.

It was found that the woody butts extended only about six inches from the ground and that the balance of the stalk was good forage. One man with an extra heavy corn knife was able to keep several teams hauling. In filling the silo, sunflowers and corn were used in alternate loads. This did not prove entirely satisfactory, and next season an even mixture will be fed throughout the cutter.

This spring the Waikiki Farm will sow forty acres of sunflowers. Similar experiments with sunflowers were made elsewhere in the Spokane district, and the coming summer will see a considerable acreage in this forage crop, which is attracting wide interest among dairymen.

## TO THE FARMER

J. S. Quist, the county agent of Crawford county, believes the farmer should advertise and says: "Following the example of the business men the farmer is entering the field of advertising. Beginning with his activities to other newspapers and is enlarging his field of operations as necessity demands.

"It pays to advertise," says Mr. Quist. "More money so appropriated should be looked on as an investment rather than an expense. An item of expense is something to be pinched and trimmed and whittled down on every occasion, but every dollar judiciously placed in advertising will come back, bringing more with it.

"The wise farmer will patronize his local paper. Advertising like charity and some other things ought properly to begin at home. And when it comes to reaching the buying public in one's own township and county, there is no medium so certain to deliver the goods to the advertiser as the local weekly. A lot of business men seem to have subscription lists they are wasting good ammunition shooting over the heads of all kinds of opportunities that only the local paper can show up.

"Support your local paper, Mr. Farmer and Stockraiser. 'Stand in' with the editor and publisher. He's a good fellow. Your interests are mutual. You have something to sell and he can bring the buyer. He is always on the job and at your service, and his rates are ridiculously cheap for the service he renders.—Register, Des Moines, Ia.

## "FLIRTS WITH DEATH"

Al Wilson is the young aviator who has stolen Lieut. Ormer Locklear's thunder. He will be a feature of the Minnesota State Fair, Twin Cities, Sept. 4 to 11. Wilson, who saw Locklear climb from one plane to another by the means of a rope ladder, decided to go the plucky army officer one better. So Wilson changes from plane to plane without a ladder. He simply stands on the top wing of his plane and gripe the lower wing of the machine above as it passes overhead.

## MINNESOTA'S NEED OF PERMANENT HIGHWAYS

State Press Registers Opinion as to Proposed Road Program

Redwood Gazette: We've been riding about Redwood county quite a bit of late—and several times our spine has been driven right up year's sailor hat. We just dare any man of voting age to call at our vember election and tell us that he didn't vote for Amendment No. 1! We have a fine line of comment all ready to hand in his general direction.

Let the Car Owners Pay

Evelyth News: You can't vote wrong, if you put a cross mark in favor of Amendment No. 1 at the November election. The automobile owners want to pay for your roads. Why not let them? Be sure to vote, however, because it takes a majority of those cast at the election, you fail to vote either way on the amendment, you have automatically voted against it. And that would be a dreadful mistake. Don't let it happen.

Beyond Argument

Ely Miner: Amendment No. 1, as the Babcock good roads plan will appear on the ballot, should be adopted. The automobilists, who will pay for it, want it, the farmer wants it, the settler wants it, and everybody who is anybody wants it.

Sixty Miles in 54 Hours

Fraser Press: Nine army trucks of the 21st Minnesota field artillery enroute to camp at Lake City, battle hours in traveling sixty miles from Minneapolis to Red Wing. It will not be hard to convince the drivers of the army trucks that Minnesota needs the Babcock system of hard-surfaced roads. Vote for Amendment No. 1.

Keep Busy

Albert Lea Tribune: Are you working for the passage of the Babcock amendment? Why not? It will take the united effort of all to put the amendment across. Remember, a voter who fails to vote on the question has in reality voted against it.

Classifying the Knocker

Fairmont Sentinel: If you are not for the Babcock good roads amendment you will deserve to be listed as a man who is afraid of the cars, and belongs to the ox cart age.

Why Not Cut It Down?

Baudette Region: The highest peak in Minnesota is the high cost of poor roads. Vote for Amendment No. 1.

HOME TOWN FEELING

During the war people learned to cooperate, and they accomplished things that anyone would have said were impossible.

Having learned what can be accomplished thru co-operation alert minded people naturally turn to their home towns. "If we accomplished such marvels in the war work," they say, "Why can't we take hold now and do equally amazing things right at home? Why can't we realize the dreams we have always cherished for our community?" And then lots of them just go right ahead and do things that five years ago would have been possibility.

Here in Denison equally wonderful things could be accomplished if people only thought so and would take hold and work together. And if the people do not acquire this home town feeling and set on it, other towns that have gained it will take the lead in the building of community life on a higher plane.—

# OFFICIAL PROCEEDINGS OF THE BOARD OF CO. COMMISSIONERS

Thief River Falls, Minnesota, Aug 4th, 1920

Auditor in pursuant to Provision of Chapter 230, Laws of 1905 and Acts amendatory thereto, the County Board of Pennington County Minnesota met in the Office of the County Auditor in the City of Thief River Falls, at two o'clock for the purpose of hearing on the Report of County Ditch No. 35 and for any the Engineer on the repair of other business that may legally come before said meeting.

Meeting called to order by the Chairman Commissioner Peterson.

On roll call the following members reported present:

Naplin, Roy and Peterson.

Commissioners absent, None.

The matter of petition of Carl Beswinger and others for a repair of County Ditch No. 35 came duly up before said meeting. The Engineer in charge had filed his report as required by law.

Attorney E. M. Stanton appeared for the petitioners and found all proceedings in proper form and recommended that Viewers be appointed.

Order Appointing Viewers

—Ditch Proceedings

In the Matter of the Petition of Carl Beiswinger and others for County Ditch No. 35 in the County of Pennington, State of Minnesota:

State of Minnesota, )
) ss.
County of Pennington)

Whereas, A petition bearing date the 30th day of March, A. D. 1920, signed by Carl Beiswinger and others praying for the establishment of a ditch in said County, designated and numbered by the County Auditor as County Ditch No. 35, the route of which is fully described in said petition, together with a proper bond accompanying the same, has been filed with the County Auditor of said County; and said County Auditor has given due notice of the pendency of said petition, and said notice has been published and served as by law required; and hearing had on said petition said County Board of said County pursuant to said notice, and the consetent engineer, to-wit: Irving E. Quist, to make a survey of said ditch.

NOW, THEREFORE, We, the County Board of said County, at a special session held this day, do hereby appoint Ed Karwand and P. Sorlum and W. E. Wood, three resident freeholders of said County, who are not interested in the construction of said proposed work, and not of kin to any of the parties known to be interested therein, to be viewers of said proposed work and of the route thereof. The said viewers shall first take an oath to faithfully perform their duties as such viewers; and thereafter, having received a certified copy of the petition for said ditch and of the order appointing them such viewers and of the County Auditor of said County designating the time and place of the meet at the time and place specified in the order of the County Auditor aforesaid and shall proceed to view damaged or benefited thereby; and having completed said view and examination of said work, shall make and file their report thereof with said County Auditor of said County within thirty days from the date of their first meeting. In said report they shall in tabular form give the names of the owners of each tract of land to be benefited or damaged by said proposed work, the description of each tract of land so benefited or damaged (said names of owners to be the same as appear on the County tax duplicates of said County and the description to be given in legal form), and the total number of acres in each of said tracts, the estimated number of acres in each tract of land to be benefited or damaged (as the case may be), and the number of acres added to any tract by the total or partial drainage of any meandered lake, or the change of any water course and the location and value of such added land; the damage, if any, to riparian rights pertaining to any tract, and the amount that each tract of land will be benefited or damaged by the construction of said work. In case said ditch drains, either in whole of in part, any public or corporate road or railroad, or benefits any such road so that the roadbed of traveled track of any such road will be made better by the construction of said ditch, said viewers shall estimate the benefits arising therefrom to said road, roadbeds or railroads, and report said benefits, together with the names of roads and other particulars necessary to identify the corporations, private of public, to be benefited thereby, and amounts of benefits to each; they shall report as part of such tabular statement the damages awarded to each municipal or other corporation for injury to any road or roadbed, and from the necessary construction and maintenance of any bridge, culvert or other works rendered necessary by the establishment of such ditch, stating the same separately. They shall also report the total estimated benefits in respect to said ditch entire, and branches thereof, if any, and also whether or not, in their opinion, the estimated expense of the construction of said ditch, including the damages assessed therefor, is greater than the utility of said proposed ditch; and whether or not said proposed ditch is impracticable for any reason, an if so, stating the reason why making said view and survey of said proposed work and their report thereon, the said viewers shall provide the General Laws of 1905 as amended it should not be constructed. In est.

The County Board of Pennington County, Minnesota.

By Oscar J. Peterson, Chairman.

Dated this Fourth day of August, A. D. 1920.

Attest:

T. P. Anderson,
County Auditor.

Motion made and seconded that the work of refilling the Washout on Judicial Ditch No. 18 under contract with C. W. Habedank be accepted and the County Auditor be instructed to issue his warrane for the amount due the contractor.

Motion carried.

Bid for the construction of four Concrete Culverts on State Road's Nos 3, and 4 were taken up by the Board. Only one bid from the Minneapolis Bridge Company was Company as follows:

Job No. 2006 State Rond No. 3 Complete for $1,780.00.

Job No. 2005 State Road No. 4 Complete for 2,342.00 .

Job No. 2004, State Road No. 4 Complete for $1,100.00

Job No. 2007 State Road No. 3 Complete for $1,300.00.

Motion made and seconded that bid be rejected.

Motion carried.

Pursuant to section 605 of the General Statutes for the year 1913, the County Board of Pennington County, did examine the Accounts of the County Treasurer and countd the cash in the treasury and filed their certified statement with the County Auditor. The following which is a copy:

BOARD OF AUDIT

Verification of Current Tax Collections.

TO THE COUNTY BOARD,
Pennington County, Minnesota,
Gentlemen:

The Board of Audit of Pennington County respectfully reports to your Honorable Body that they have examined the books, accounts and vouchers of the County Treasurer, counted and ascertained the kind, description and amount of funds in the treasury of said county, or belonging thereto for the period from March 1st, 1920, to May 31st 1920, both days inclusive.

We find the treasurer charged laws:

| | | |
|---|---|---|
| Tax Levy for 1919 | | $ 371,277.57 |
| Additions to the levy | | 54.79 |
| Total Debit | | 371,332.36 |
| Taxes collected | 318,727.90 | |
| Taxes abated | 187.57 | |
| Total Credit | | 218,915.47 |
| June 1st 1920, Balance uncollected | | 152,416.89 |

We hereby certify that we have verified the correctness of the foregoing statment by checking the duplicate receipts with the tax books for the period above named.

Oscar J. Peterson
Chairman County Board.
T. P. Anderson
County Auditor
Clerk of District Court
County

(Concluded in Tuesday's issue)

## SECOND-HAND SUGAR

All the retail grocers of the country have had quite a frenzied time trying to supply their customers with sugar. One of them located in a Minnesota town, told this story the other day as an example of his difficulties.

He ordered from his jobber a large quantity of sugar which was to be delivered to him at $18.35 per hundred pounds. He had signed a contract to that effect. After waiting until he got to the point where he had to dole out the little he had at the rate of one pound to each family, the sugar finally arrived. It was billed to him at $27.85 per hundred—about a fifty per cent increase. He objected but the jobber stood firm.

The grocer took up the matter with an attorney. The lawyed looked at the contract and advised his client that he had a perfectly good case. Any court would sustain that contract. "But," said the lawyer, "I'll give you a tip. I know another grocer in just your case who did sue the jobber. He won, and the head of that jobbing firm gave orders that that grocer should never be given another pound of sugar."

As a matter of principal the grocer wanted to sue. He had a right to that sugar at $18.35, and his customers could then have had it at 20 cents per pound, he he depended on that jobber for many things besides sugar, and his customers depended on him for those other things and the sugar besides. He yielded and paid te $27.85 and his customers paid 30 cents a pound. But they got the sugar. The grocer's own percentage was lower at the higher price.

Now this is the jobber's side of the story: "This isn't first-handed sugar. This is second-hand sugar. I couldn't get it direct as I expected to when I made the contract. I had to buy it from a speculator and pay the speculator's price. So you've got to pay me. But I've got the sugar for you, and you've got it for your customers."

Something ought to be done in this free and enlightened country to keep its citizens from being slaves to the second-hand curb stone speculator when it comes to the necessaries of life.

## QUEER COAL SECRECY

That there is a "queer secrecy" about the coal situation is the stand taken by the Baltimore News, which is only one of the great many big newspapers which "find it hard to see why the safest and wisest course of the mine operators would not be to give the public the fullest light."

The queer thing about any such situation is that big business can not understand its relation to the public. Without the public which buys its output it could not exist. The public is exactly as necessary a part of its success as the raw material. Moreover the public has a right to know the conditions under which its necessaries of life are produced.

Aside from this however, the public is really a pretty reasonable creature. If coal operators are having as much difficulty and expense as they say they are, and can prove it to the public's satisfaction, then the public will make whatever sacrifice is necessary to pay such a price for coal as will enable the coal business to make a just profit.

What the public objects to, and rightly, is the coal business of the women's wear business or the sugar business or anything else, is being unjustly coerced to make an unjust profit for a few men.

The men who perform real services for the public are entitled to great rewards. No one begrudges them those rewards. But the man who uses his position as a dealer in necessaries to cheat the people who are dependent upon him for those necessaries ought to be deprived of his business and be cast into exterior darkness.

Somewhere, doubtless, between those two extremes, the coal operators are functioning.

## SWEET CLOVER MAKES PASTURE

Pipestone, Minn., Star—William Dailey of Moody county, South Dakota, has a 40 acre field of white blossom sweet clover on his farm 15 miles southwest of Pipestone on which he is pasturing his herd of pure bred Shorthorns this summer. The sweet clover was seeded with oats last year and an excellent stand secured. This summer he is pasturing almost his entire herd of Shorthorns and about 20 horses on this field and they are unable to keep the sweet clover eaten down. It is now fully knee high and appears to be gaining on the cattle right along.

The Shorthorns are fattening on this sweet clover pasture without any grain being fed them and anyone who doubts that cattle will eat sweet clover should visit Mr. Dailey's farm and see for himself. Five head of heifers were taken off this sweet clover pasture just recently and sold at Sioux City for 12½ cents and had not been fed any grain.

The sweet clover will not dry up when the rain stops as it has a tap root which reaches down into Mother Earth at least seven or eight feet. It would be a good day's work for somebody to follow the taproots of a sweet clover plant and find out how deep it goes.

It must be terrible to live in Europe. Besides being all mixed up in entanglements Europe doesn't know anything about smearing good yellow butter and salt all over an ear of nice, tender, juicy corn and joy riding along the cob with one's teeth at the rate of thirty-five miles an hour.

There's no use denying that this starts out a lucky year for the republicans. LaFollette has left the party.

## OUTLAWED BUTTERMILK

The dairies, the farmer and even the housewife now look for trouble from the prohibition enforcement officers, for now comes one Dr. Herbert Watson, state chemist from the great state of Delaware, and points out to them their plain duty. Doctor Watson declares that "real ripe" buttermilk contains at least 3 per cent, and every vender thereof and every possessor is liable to prosecution under the federal law. For, says the constitution as amended, "the manufacture, sale or transportation of intoxicating liquors within the United States and territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited." And, says the law enacted by congress in pursuance to its enforcement authority, intoxicating liquors or any such beverages which contain 1 of 1 per cent or more volume of alcohol.

If what the Delaware chemist says is so, buttermilk is outlawed along with beer, hooze and wines, and every creamery employe and every farmers wife, who churns the butter fat out of the milk and the alcohol content in, is a prospective jail bird. So may be the soda "squirter" and the moterman of the milk car unless they confine their offices to unchurned and nonintoxicating milk.

A story is told of a Kansas farmer who hauled a five-gallon can of cream to town in a Ford run-about. When he reached his destination he found several pounds of butter in the can. Where there is butter, there must be buttermilk, and the farmer had become unconsciously the manufacturer of an intoxicating beverage. And this in Kansas, too, where the laws of prohibition are so rigidly enforced. There would seem to be some question of the advisability of arresting the cow as an accessary before the fact, or at least restraining her from producing milk for churning purposes. Laws may be enacted prohibiting the transportation of cream in a Ford. There must be some way of producing legal butter without the manufacture of illicit buttermilk, else we may be forced to eat our daily bread unbuttered.

## GREAT POSSIBILITIES HERE

Seattle Post Intelligencer.—The demonstration of the possibilities of the mysterious Hubbard coil as a power generator given Wednesday, when it was connected with an electric motor in an 18 foot launch, has increased the bewilderment of the electrical experts who observed it. Apparently a miracle was performed, yet until further tests are made no one, save, perhaps, the youthful inventor, Alfred M. Hubbard will believe the evidence of his senses. The natural caution of electrical engineers can be readily understood when they are called upon to witness something which hitherto has been deemed impossible. This professional caution limited their expressions to the mere statement that they were frankly puzzled. It was inconceivable that sufficient energy to drive a 35 horsepower motor could be obtained from the innocent looking coil, yet no other explanation seemed possible. The observers were as skeptical as the rural circus patron who viewed the giraffe for the first time and ventured the assertion that "There ain't no such animal."

The cautiously expressed opinions left the observers an easy out in either direction. If the wonder engine is genuine they will not be in the class of the men who contended that the earth was flat long after science proved that it was round. Neither will the be open to ridicule if subsequent tests prove that there is a seeming explanation of the seeming miracle. If the invention fulfills the predictions of young Mr. Hubbard it is the marvel of the age; if it proves only an interesting toy it is something new in magic.

It will be recalled that the demonstrations made last year were confined to the operation of incandescent lights although the young inventor announced that he had driven a motor with larger coils. The exhibition given Wednesday opens a wide field of speculation. The energy produced from the coil could have driven an automobile at moderate speed; it could have illuminated an office building; furnished heat and light for a large residence, or it could have heated two seven room apartments. And so far as anybody could see the energy came from the air or the earth. The possibility that the current came from storage batteries or from an existing power circuit appeared to be out of the question, since the observers prudently looked into that phase of the matter. There were no hidden wires, or any indication that the energy came from a source other than the Hubbard coil.

The inventor has promised that he will shortly attach his "atmospheric power generator" to an automobile and prove that gasoline is not really necessary for touring. In view of the demonstrations already made it will take a cyclsure person to say that he cannot do it.

We know the power is in the air. Some day all heat and power will be extracted from the air and all machinery will be run by this power.

## Are You Going to Let Another Day Pass

without attending to your eyes? You neglected them in the past, but remember, delays are dangerous. There comes a time when it is too late. Let us examine your eyes at once—we are registered optometrists—and advise you. Our service is invaluable, our prices moderate.

## WINCHESTER

Winchester Kitchen Knives

WE HAVE the exclusive sale of these new and superior Knives—butcher knives, paring knives, slicers, cooks' knives, fruit knives, bread knives, etc.

They are made by the same WINCHESTER factory which for more than fifty years has been world famous for Firearms. You will like them because they are made so well and stay sharp so long. Come in soon and see them.

**Bottem Hardware Company**

THE WINCHESTER STORE

# What the Cash and Carry System Means to YOU

BY eliminating the expense of delivering, we are able to lower the prices on our groceries and meats just that much, which saving you get and which rightfully belongs to you.

We have found the Cash and Carry System to be satisfactory and a means whereby we can reduced the cost of living for you. It is our aim and intention to always sell the best at the lowest price, and by cutting out the extra expense of delivery we are able to offer you lower prices as a result. It will pay you to call at our store and compare our Prices with others. Nothing but the best lines carried and our guarantee is back of every article we sell.

## Fruits for Canning

The cauning season is here and we have everything in fruits at the lowest price. It is not likely that prices will be much lower on canning fruits and our advice to you is to can while you can get the fruit. It may be higher if anything, especially peaches and apricots, and it is certain that now is the time to can while the fruit is here. A carload of California Freestone Peaches now here and our advice is to secure what you need at this time. We now have plenty of sugar for your canning needs at a reasonable price, also a full line of jars and supplies.

## Fresh Vegetables

We carry a full and complete line of fresh vegetables at all times and are in a position to quote the best prices on this line.

## FOR YOUR SUNDAY DINNER

We suggest that you come here and let us help you plan your Sunday dinner. Everything in the line of choice meats and vegetables to make your dinner a success. Meats: Fancy Chuck Roasts, Prime Standing Rib Roasts, Prime Rolled Rib Roast, Leg of Pork, Leg of Veal, Leg of Lamb, Fancy Fat Hens, Steaks and Chops, Choice Frying Spring Chickens.

Give us a call and let us prove that the Cash and Carry System saves you money.

## *Rev. Barackman Writes of Trip*

West New York, N. J.
Aug. 2, 1920

To the Editor of The Tribune,
Thief River Falls, Minn.

Dear Friend:

There may be a few people in Thief River who would be interested in a brief note from me in your valued sheet.

I got away from our city on the evening of July 10. I began feeling like a vacation before the train came in and that is a main consideration. I found Rufus on a brief strike with his labor union, so had the day with him. He is working in the construction of a new Montgomery Ward distribution plant in St. Paul. By Thursday I landed at the home depot at Andover, Ohio. The weather was quite comfortable and the first rain I encountered was between Ashtabula and Andover, Ohio.

All the way here I traveled by day. The maturing crop of hay and grain was the most uniform and heaviest that I have seen in many trips over the same route. The corn is uneven, some excellent, some not so promising.

Two days were spent with my nephew, who is a prosperous young farmer, possessor of a beautiful and valuable herd of Holstein thoroughbreds. He has been fifteen years developing his herd. The milk goes to the Pittsburgh market at a good price, while he is beginning to realize some very handsome profits from sales. One of these days I had the pleasure of assisting him in handling five loads of excellent hay. I did not wish to be strictly ornamental.

At the old home I found my father very well for a man past ninety years of age. There too, was my sister and family, who expect to return in September to the South Sudan in Africa. My missionary brother-in-law and myself assisted my youngest brother, who has charge of the home farm to tuck away the first six loads of the season's hay in the old barn and haymow where I used to play and then to work. You will have to understand by your own previous tender recollections the joy and rest of going back to the old barn, to the brook through the wood lot, to the gracious memories of earliest youth, the memories of father's and mother's example and prayers and Christian instruction that have so greatly determined my faith and work. I cannot tell you of the sweet hours of loving harmony with my aged father, and his continued petitions for the welfare of the members of his household. I wish that every man in Thief River might duplicate the experience.

Later last week I spent two delightful days with Mrs. Barackman's sister in Avonmore, Pa., Armstrong county is in the Pittsburgh coal region. The coal is being removed from a four foot run that outcrops near where I visited. The coal company bought the coal from the old farmer families at from ten to thirty-five dollars per acre. Miners were imported. The high wages have turned the young men of the community into miners. Farms are being abandoned and the whole neighborhood life has been distorted. Gas has been found, but in the midst of the wealth of the region the people that have worked and waited are realizing very little from the resources that belonged to them.

On Saturday, July 31, I took a morning train over the main line of the Pennsylvania railway for New York city. The train was so crowded that pople were sitting and standing in the aisles all the way to Philadelphia where we arrived at five forty-five in the evening.

You who have seen moutains will know the beauty of the steep hillsides covered with trees and festooned with vines. At the summit of the Allegheney mountains the train plunges thru a tunnel and begins to hasten down grade. We sweep around the curve of the famous Horseshoe Bend, follow the beautiful Juniata and thebroad Susquahana to the capitol of the state. From there to Philadelphia the way lies thru the rich eastern farm lands of the state of Pennsylvania. Only two hours more and in the great Pennsylvania railway station of New York City I was greeting again after a separation of ten years my older brother who is pastor of a church in this borough. This is one of the Jersey towns across the Hudson river from the great city. In giving me directions how to discover him should we miss meeting in the station my brother had written, "Go out of the depot to thirty fourth street and take a Green car to the forty second seet ferry. Get on the ferry and go to the Weehawken." My impression was that perhaps he was expecting me from Missouri in place of Minnesota and thought he would recognize my voice.

New York City is quite like it used to be only larger with immensely increased business. Today we made the trip to Coney Island. The bay was alive with ships from many lands. The great Leviathan lay by its wharf in war colors and with banked fires awaiting a purchaser. The island for bathing and amusement resort were just as entertaining as ever. Our trip out was made by boat, the return was made by the elevated. The transportation system of New York is certainly a higledy-pigledy mess.

The impression of the city is, of an over populated ant hill. In the immensity of the buildings, the greatness of the business area and the countless throngs, people seem like swarms of insignificant insects. My brother tells me that one office building has a day population of fifteen thousand and fifty thousand people do business within its walls daily.

I plan to return to my paternal home next week and from there in due time to make my home and work in the well remembered and esteemed city of Thief River Falls.

Sincerely Yours,
R. L. Barackman

Times haven't changed very much. The combination of wine and women may have lost much of its potency, but the candidate now is just as greatly swayed by prohibition and suffs.

### St. Johns Lutheran Church
Emil H. Krekdt, Pastor

Sunday morning services will be held in the German language at 10 o'clock. Sunday school begins at 9 o'clock. The ladies aid meets Wednesday afternoon in the church basement. Mrs. Brown will serve lunch. Sunday afternoon at 2 o'clock the pastor will preach at Holt, using the German language.

### Obituary

Last Tuesday evening occurred the death of Alvin Oscar Tandberg, one of the most talented and well-liked young men of our city. The deceased was born August 27, 1900 and was thus not quite twenty years of age at the time of his departure. It is always and to chronicle the death of friends but it is especially so when the deceased has had so bright and promising a future as Alvin had. Nevertheless we bow before the mandate of our God thanking Him for the eternal home which our Savior has prepared for us, the home into which we confidently believe that Alvin has entered. His was a heroic battle for a life of service and still a glad acceptance of the rest which is in store for the children of God.

As a graduate of the local high school and a junior at St. Olaf college, Alvin had a host of friends who will miss his cheery countenance at their gatherings. Long will he live in their memories. His mother, two brothers and four sisters together with many close relatives mourn his departure. Funeral services were held at the Lutheran church by Rev. I. T. Aastad on Thursday, August 12.

Read what the Ninth Federal Reserve Bank has to say about

Grain Shortage

"On the basis of the crop outlook at this date (late July) it is apparent that the prospective crop of small grain will exceed the elevator capacity by about 420,000,000 bushels. Country elevators will fill up within a few weeks after the crop begins to move. This will be largely wheat. The grain trade will accept enough grain to fill the country and terminal capacity, but with present transportation difficulties and inadequate storage facilities on the farms, a difficult situation is in prospect, both as to storage and financing, unless there be a radical improvement in the movement of cars."

The little portable granary shown in the picture will take care of 900 bushels of grain.

It can be easily moved with a tractor or a few horses and will provide safe, cheap storage for your grain.

We will furnish you with a blue print showing how it is built and supply the material necessary to build it.

If you have not the time to build it, we will build it for you and set it complete even to the paint on it for $200.

### VIKING

Miss Edythe Eckblad of Warren spent several days of last week visiting at the home of her sister, Mrs. E. Lundgren of this place.

Several from Viking attended the Pennington county fair at Thief River Falls last week.

Albert Swenson visited with his relatives, Martin Vinjes of Viking, Friday.

Born to Mr. and Mrs. Axel Anderson last week, a boy, and to Mr. and Mrs. Ed Sorenson, a girl.

The shipping association will ship stock next Saturday, August 14.

Hans Olson of Badger has been at Viking the past three weeks working at the telephone exchange, changing the switchboard, installing new telephones in town and repairing the lines.

Mrs. A. Axelson and children were Sunday evening callers at C. Lindell's.

The Norwegian Ladies aid will give an ice cream social in the I. O. G. T. Hall Saturday evening. Everybody is welcome.

Albert Erickson and Joe Dostal of Thief River Falls were Sunday visitors at F. Anderson's.

The O. J. Carlson family from Helgeland spent Sunday at S. Hanson's.

Viking defeated Newfolden in a ball game Sunday. The score being 5 to 14. Three cheers for the Viking team.

The John Nelson family attended the opening of the cheese factory at Radium last week.

Chas. Westberg's in Vega the fore part of this week.

Gust Anderson's entertained a crowd of relativesan d friends Sunday afternoon.

The Viking ball team vs Marshgrove will play at Marshgrove Sunday, August 15.

### ST. HILAIRE

The local base ball diamond was the scene of an interesting match Sunday afternoon between the Grygla team and the St. Hilaire team. The the locals won the game with a score of 3 to 5 in their favor, it was only after a hard tussle for the visiting team put up a scrappy game.

Mr. and Mrs. Sundrel, accompanied by the latter's mother, Mrs. S. O. Quammen, motored down from Thief River Falls Sunday to visit friends.

Mrs. E. F. Dann and her niece, Margaret Phenis returned to Thief River Falls Monday after an over Sunday visit at the R. J. McKercher home.

H. E. Ives was in the village Monday to transact business and renew acquaintances.

Mrs. D. McAllister returned Tuesday from a week end visit with her husband who is employed at a

Mrs. S. Severson, of Washburn, Wis., spent a part of the week at the R. L. Hauge home and with other relatives and friends in the community, while enroute to her home from an extended stay at the home of her daughter at Alvarado.

### ROSEWOOD

Rosewood may at last have a when gas can be retailed to autoists at the same price as at the larger city stations, at least so was the opinion of the Standard representative from Fargo, who visited town last week and made a review of the existing conditions and on finding them satisfactory took up the matter with dealer, Herbert Carlson, to secure his services as local representative. M. Carlson found the proposal quite agreeable and a contract was drawn up and signed whereby he will have charge of the sale of teir products on a commission basis if the plan materializes. The agent will submit his plans for the companies approval and if found satisfactory the pumps and a 300 will be shipped up and installed in the near future. A filling station is a local necessity, with autos, gas engines, lighting systems and tractors on almost every farm and in almost every home the citizens are finding the gasoline question almost as vital as the grocery deals, and with the opportunity of securing his gas in his home town and at a price similar to the city both farmer and town man will realize the advantages offered nd will hail the project with enthusiasm.

Mr. and Mrs. John Bloom, Arthur and Annie Bloom motored to Hazel last Sunday to visit with the S. Sjoberg people.

Mr. and Mrs. A. S. Holm spent Sunday afternoon on an anto tour to Goodridge.

Nina and Tena Westby and Esther Thoreson left Monday evening for Thief River Falls to attend the circus and call on friends.

Complimentary to her sister, Miss Gretchen Bartlett, Mrs. A. S. Holm, entertained formally four friends at her home in town last Friday afternoon. Miss Bartlett, who has spent some time here as guest with the Holm's leaves Saturday morning for her home at Browns Valley. The afternoon was pleasantly passed, various indoor games and amusements being the chief diversion besides conversation and getting acquainted in general. The following were the guests: Misses Ella Nelson, Hannah Hellquist, Synneva Sorenson and Gretchen Bartlett and Mrs. Emil Anderson.

Mrs. Rudolph Sagmoen, of Anita, has accepted a position as teacher at Rosebank for a seven months term to commence October 4th.

Miss Mabel Lappegaard and Edwin Lappegaard left Thursday evening for Thief River Falls where they will spend the week end with their sister, Mrs. Henry Carlson and attend the county fair.

Henry Sagmoen, who has been employed at Hibbing for some time, arrived home Saturday morning for a brief visit with his parents.

Miss Isabelle Sagmoen, who has spent the last four months as guest with her sister Mrs. M. L. Duran at Slayton, returned home last Friday.

Misses Gladys and Geneva Swenson left Tuesday evening for Thief River Falls where they will spend the remainder of the week visiting with the Severt Branden people and attend the fair.

Miss Viola Axelson was at Thief River Falls between trains last Thursday to visit with friends and attend the oings.

Mrs. Benhard Ranum left last Thursday for Minneapolis where she will visit with her sister, Mrs. Roy Skinner, for a week.

Mrs. T. Holten left last week for Crookston where she will visit with relatives for some time.

Olaf Hall and Martin Alby left Monday for Argyle where they will be employed during threshing.

Mrs. J. Blomquist accompanied by her son, Albert, and two daughters from Middle River was in town last Sunay visiting at the Mrs. Eva Carlson home.

Mr. and Mrs. S Benson and family of Thief River Falls, were in town by car last Sunday to visit with Mrs. Benson's parents, Mr. and Mrs. B. P. Sagmoen.

Miss Ella Nelson left Sunday for Norden where she will stay at her sister's, Mrs Ole Skaars, home for some time. Mrs. Skaars small baby had a leg broken in a fil on Sunday and Miss Ella will assist with the house work during his illness.

Miss Nellie Sustad of Holt was the guest of Miss Laura Kron a few days this week.

People from nearly every household attended the Pennington county fair last week. Many people went by car Thursday afternoon and evening and several visited with friends during their stay.

Mr. an Mrs. Oscar Blomberg and children of Crookston were in town by car last Sunday visiting at the Haugen Bros. home.

# 6 Big Reasons Why You Should Prefer an Ideal

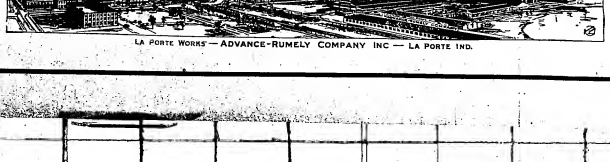
**1** *Large Capacity*—The Rumely Ideal can't help but be a big capacity machine: it is built on the common sense principle of *keeping the straw moving*. There's absolutely no chance for slugging, winding, choking, bunching or any other hindrance to large capacity, when the straw is *kept on the move* as it is in the Ideal.

**2** *Saving the Grain*—Saving all the grain is just as important as producing it—of course. The Rumely earned the name "Save-all-the-grain-Ideal"—*by saving it*. In any kind of straw—beaded, bundled or loose raklings—dry, wet or frozen—the Ideal handles all jobs the same—without waste.

**3** *Clean Work*—This is accounted for by the extra large chaffer area, the adjustable sieve in the shoe, and the Ideal system of wind control—a guarantee of a perfect job of cleaning without waste, under every condition. The Ideal does the kind of cleaning that gets you no "dockage" at the elevator.

**4** *Strongly Built*—One-piece timber can't pull apart, sag or rot, as spliced or bolted members will. The Ideal is a one-piece job—sills, posts, deck rails, straw rack sides. Then, there are the heavy, substantial trucks, and all shaker hanger bearings running in adjustable boxes. That's the kind of construction that *insures* long life.

**5** *No Vibration!*—Vibration makes a young machine old before it has served its time—it wears out the bearings and pulls the shafts out of alignment. Counter balancing of all moving parts in the Ideal—perfect balancing of the cylinder—makes the Rumely so steady running that when compared to other separators vibration simply does not exist.



**6** *Easy to Operate*—You don't have to crawl inside the Ideal to get at the working parts. All bearings, concave adjustments and regulation of the blast are on the outside of the machine, also all oil and grease cups, where you can take care of them while the Ideal is running.

The Ideal is built in five sizes—22x36, 28x44, 28x48, 32x52 and 36x50.

LA PORTE WORKS — ADVANCE-RUMELY COMPANY INC — LA PORTE IND.

# How Much Is Your DOLLAR WORTH?

Money is worth no more than you get for it

If you pay a dollar for an article worth fifty cents, your dollar has been worth only that amount.

On the other hand, if you invest that dollar in something worth more than a dollar, you have realized a profit.

Advertising pays more returns for small investment than any other agency in business.

Good advertising is alwrys cheap.

And to pay double price for inferior advertising, for advertising which has less power and less punch and less influence than those inserted for lower prices in a stronger medium, is to waste money.

ARE YOU GETTING YOUR DOLLARS WORTH IN ADVERTISING?

If you are not—if you are paying more for your advertising than you are getting back—you are wasting money.

The Thief River Falls Tribune, published semi-weekly for the people of the trade territory of Thief River Falls, stands today as the strongest and most reliable advertising medium in the territory embraced.

Twice-a-week, The Tribune goes to 3,800 homes in the trade territory, to be well and closely read by every subscriber. Every name on the list to which papers are sent are PAID IN ADVANCE, And every name listed is that of an interested and wide-awake reader.

There are in the average family four members. Four times 3,800 is 15,200—The Tribune goes TWICE-A-WEEK to to 3,800 homes, to be read by 15,200 prospective buyers.

TWO PUNCHES ARE BETTER THAN ONE! Punch—power—popularity—these are the three worth-while assets which The Thief River Falls Tribune offers to any advertiser, of any product.

**You are not getting you dollar's worth in advertising if you are not advertising in The Semi-Weekly Tribune.**

## What The Tribune Has to Offer

1. Three thousand eight hundred bona-fide subscribers. Everyone of these is a paid-in-advance. Every subscriber is an interested one.
2. Unusual facilities for composing, printing and publishing advertisements, of whatever size.
3. Twice-a-week publications, as against weekly issues of other papers in northwestern Minnesota. The Tribune goes twice-a-week to 3,800 homes.
4. Open subscription list. The managment of The Tribune is ready at any time to show advertisers how The Tribune's circulation is distributed---how certain localities are covered, and so on.
5. Low advertising rates. The rate for advertising in The Semi-Weekly Tribune, in spite of the fact that greater efficiency and more markets are offered, are lower than those of any rival publication in northwestern Minnesota.
6. The most important asset of all---co-operation. The management of The Tribune, all the way through, will give any advertiser or merchant full co-operation---will work stead-fastly to develop his trade and market wherever possible.

Can you afford NOT to adveatise in the Semi-Weekly Tribune?

You, as a forward-looking merchant, as an experienced advertiser, knowing that you must reach markets and reach them repeatedly, in order to build up trade. Twice-a-week publication means an indispensable advantage.

VOL. 20 NO. 46 THIEF RIVER FALLS, MINNESOTA, TUESDAY, AUGUST 17, 1920 Official Paper of Pennington County

## GRAIN AND COAL CAR SITUATION IS CONSIDERED

MEETING AT CROOKSTON SATURDAY TO GET RELIEF IN CAR SHORTAGE.

The meeting held at Crookston Saturday afternoon under the auspices of the Minnesota Red River Valley Development association to take up the grain car and fuel shortage matters was fairly well attended by representatives from other points of the valley.

Reports made by Congressman Steenerson and A. J. Manthe, Superintendent of the Great Northern railroad, at the Saturday meeting indicated that material improvement had been effected and the car situation less critical. That there will still be a shortage was not disputed however, and it will be necessary for every possible measure to be availed of to get the greatest possible use out of every grain car to move the crops even moderately well.

A survey of the fuel situation disclosed less favorable development. Reports were read from Judge McGee, state fuel commissioner, and these evidenced that unless the movement was greatly improved upon there was bound to be an extreme shortage of coal in the northwest for the coming winter. A special committee consisting of representatives from various towns throughout the valley was to be named by President Steenerson to direct efforts toward giving more pronounced emphasis to the needs of the northwest in the fuel line if actual suffering is to be warded off this winter.

Plans for reproducing for distribution purposes the three articles on the Red River Valley that recently appeared in the Country Gentleman were talked over, and announcement made that each of the three railroads traversing the valley had proffered their aid in the production and distribution of the proposed booklet. This, in addition to the Country Gentleman articles, will include parts of the presentation made by C. G. Selvig before the Joint High Commission at Grand Forks in the hearing on the Great Lakes-St. Lawrence Tidewater project.

The matter of weed control and eradication came up for attention by the gathering. Olaf Ramstad, banker and farmer of Thief River Falls, presented some carefully considered suggestions and the matter will be given further attention following the return of Superintendent Selvig from a trip through middle western states.

## CONVENTION OF LEGIONAIRES ON AT DULUTH

LOCAL POST ONLY SENDS ONE DELEGATE BECAUSE OF SHORT FUNDS.

The annual state convention of the American Legion convened at Duluth yesterday and will close on Wednesday evening of this week. One delegate, Derby Anderson from the local post is in attendance and while it was the aim of the post to send six, it was found impossible for the reason that there was a deficit in the treasury and sufficient funds were not available and as a result but one delegate from the local post attended.

The official order of business, as it is conducted at the convention, has been made public in a statement by Harrison Fuller, state commander of the American Legion:

"I am certain the convention will long be remembered by Legionaires and other visitors to Duluth," said Mr. Fuller. "The members of the Duluth post have spared neither time nor expense to complete the details of this program. The sessions will be held in the high school auditorium which will seat 1,700 persons. The auditorium has a gallery for visitors and has a good platform.

"Duluth merchants, through their association will direct the decoration of the entire city. The program of entertainment is an alluring one."

On Monday morning arriving delegates will be registered and assigned to hotels. The first convention sessions will be held Monday afternoon. There will be an automobile trip on Boulevard drive in the evening. The Tuesday business session will take place in the forenoon: In the afternoon there will be a boat trip up St. Louis river to a picnic ground seven miles from Duluth. Supper will be served by women and young women from Duluth, a pre-pageant street carnival will be awaiting them.

There probably will be two business sessions on Wednesday. The pageant of Duluth will open in the evening with 1,000 persons participating. This local venture of the American Legion will tell the story of Duluth's history and will celebrate the golden jubilee of the city's founding.

Lays Down the Law.

A representative of the wage commission was in the city on Friday of last week and while here left considerable information concerning the present law in this state concerning the wages paid and the hours to be worked. Part of the information is that the minimum wage for boys and girls under 20 years of age in this city is not being lived up to and that steps will be taken to enforce the law. It is pointed out that employees may collect back wages from August 5, 1919, when the law went into effect. It was pointed out that the minimum wage law in this state is considerably lower than that of California, Washington and North Dakota.

## FARMERS OF COUNTY FIGHT DROP IN WOOL

GREATER PORTION OF COUNTY'S WOOL IS STORED IN CHICAGO WAITING RISE.

Pennington county farmers are seriously affected as a result of the bottom dropping out of the wool market, and have formed a pool whereby all wool is sent to a Chicago firm where the same is held at a small storage charge to the farmer sending it in.

At present the price of wool is about twenty cents per pound, or less than the cost of producing it, and the farmers of the county have stated that unless the market rises they will be compelled to dispose of their sheep and enter a more profitable line of farming. Some of them have considered the possibility of shipping their wool to independent woolen mills and having their product manufactured into articles they can use, such as blankets, mackinaws and other woolens. These articles might also be sold at a low price and the farmer obtain a good price for his wool in this manner. The present plan of the wool growers' association is to wait and if the market does not strengthen, action will be taken.

Practically all of the wool growers in Pennington county have taken advantage of the storage method at Chicago, which costs them three cents a pound for storage. It is the general belief that if this year's crop is stored that the large manufacturers will be forced to pay a fair price for wool, and will not have an opportunity to force the farmers out of the wool producing business by placing the price of wool below the cost of production.

Wool growers of Pennington county assert that unless the wool market strengthens they will be forced to slaughter their sheep, as will other growers thruout the northwest, and this will result in a material shortage of wool next year.

Ready for Business.

The Minnesota Potato Exchange, which was organized by leading growers, the Farm Bureau, representatives of the agricultural extension of the state university and other agencies, has begun to function. The directors recently elected James Cumming of East Grand Forks, president; H. O. Jorge of Lake Park, vice president, and H. B. Plummer of Hawley, secretary-treasurer. A. W. Aamoth has been engaged as general manager and E. A. Colquhoun as field manager. Temporary offices have been taken in the Old Produce Exchange building, 402 Second avenue north, Minneapolis. A contract has been made with the North American Fruit Exchange under which it will serve as the sales agency.

Parcel Shower

In honor of Miss Blanche Johnson, whose marriage will take place in the near future, Miss Mariam Bishop pleasantly entertained fourteen of her girl friends at her home Thursday evening. The evening was spent in hemming towels for the bride to be. A delightful time was reported by all having the pleasure of the affair.

## BALL GAME SUNDAY GOES TO LOCALS

FAIR CROWD OUT TO LAST GAME OF SEASON WHEN LOCALS PLAY ST. HILAIRE.

The last ball game of the season played at the fair grounds last Sunday afternoon between the local team and the team from St. Hilaire resulted in a victory for the local team, the score being 14 to 8.

A fair crowd was out to witness the last game and enjoyed the sport exceedingly. The locals had no difficulty in finding the ball and run the bases so fast they became dizzy from the over-exertion, and during this temporary inability on the part of the locals the St. Hilaire team managed to sneak in a few runs before the locals awoke to the fact that they were playing ball and again tightened up, making life hard for the visitors.

The game lacked any of the thrills that go to make a ball game hot and interesting. The slugging ability of the Thief River team coupled with their willingness to run bases on the slightest provocation, proved too much for the St. Hilaire team and they did what any team would have done under the circumstances, grin and bear it.

The past season has been a good one for the local team and while they have met defeat at different times, it was necessary for the conquering team to loud up with the best they could secure in order to take the locals into camp, and they then had their hands full and realized they were earning their money before the final inning gave them the right to acclaim themselves victorious.

In view of the fact that the local team was composed of players picked at random and players who could not devote their entire time to the game but played on a very short notice without a great amount of practice, they have done remarkably well and have given the citizens of Thief River Falls a band of baseball that has been up to the standard of many salaried teams, and better than the average. They have played good, clean ball, and have delivered every time it was possible. There is no fault to find with the local team in any manner and much to commend. They have played the game well and are deserving of all that can be said of them that is good.

Enjoying Vacation.

M. G. Rogers of Newton, Iowa, has been for several days in Thief River Falls looking after his farm and enjoying a fine vacation. Mr. Rogers has owned his land here many years and thinks more highly of it than ever. Our fine crops are most pleasing to visitors.

Purl Anderson of Greenbush is spending a few days in this city visiting at the T. T. Kiland home.

## MAM WANTED FOR MURDER IS TAKEN FRIDAY

OFFICIALS FROM DULUTH HERE TO TAKE PRISONER LAST FRIDAY EVENING.

Andrew Koski, alias Kangas, alias Mike Maki, who was arrested last Thursday by Sheriff LaBree for the murder of Jacob Carlson at the town of Colvin in St. Louis county, is now languishing behind the bars in the Duluth jail, awaiting trial and the outcome of what is in store for him.

The authorities from Duluth arrived Friday evening for the prisoner and took him back the same evening. He refused to talk any further than when he opened up to Sheriff LaBree and the authorities from Duluth were unable to get anything out of him at all. When arrested by Sheriff LaBree he confessed that he was the man wanted but denied that he was the one who committed the crime, stating the shot that killed Carlson was fired by a man named Kumpulu who has since been arrested and who is now serving a term in the penitentiary at Stillwater. Kumpulu states that Koski is the man who fired the shot and it is now up to the authorities to prove which fired the shot and which is the guilty party.

Koski is supposed to be a dangerous man and when arrested by Sheriff LaBree he was immediately handcuffed, the sheriff taking no chances. Koski however appeared to be much excited and could not talk for sometime. He finally came out of his shell after being in jail for some time and confessed to the sheriff that he was the man wanted, which was all the sheriff was interested in knowing. The authorities were immediately notified at Duluth and upon their arrival the prisoner was turned over to them, and it is now up to the authorities of St. Louis county to fasten the guilt upon the right man, which may prove rather a strenuous job and one that is larger than it appears.

SOLVING PROBLEMS FOR NORTHERN FARMS

The North Central Agricultural Experiment station at Grand Rapids, Minn., one of the six stations in the Minnesota system, is working out the answers to not a few problems of vital interest to the farmers of north central Minnesota. A report of progress has been published in the form of a bulletin covering the work of the station for the period from 1915-1919.

In this bulletin or report, Otto I. Berg, superintendent, describes numerous experiments. For example, he mentions a durum wheat, the Prelude, a very short-stemmed early variety which surpasses the fife and the Bluestem in hardiness and shows excellent qualities under milling tests. He also outlines results obtained to secure an early corn for the far north counties. The results have been encouraging as a certain strain of one corn is sufficiently early to produce seed in normal seasons, though as yet this corn cannot be recommended to be grown for ripe grain except on farms that are very favorably located. The author furthermore describes a combination silage consisting of corn, sunflowers and soy beans which seem to give much promise. What can be done in increasing the productive efficiency of a dairy herd from common native stock is also outlined. The herd at Grand Rapids, which when started averaged 196 pounds of butterfat and less than 5,000 pounds of milk per cow annually now averages 358 pounds of butterfat and 7,184 pounds of milk.

Moves to Plummer.

A. Gunderson of this city, leaves this week for Plummer where he has accepted a position with the Farmers' Elevator at that place. Mr. Gunderson has been connected with the Tessum Seed company for a long term and has proved a valuable man in this line of work. He goes to his new position at a considerable increase in salary and is to have complete charge of the elevator at that place.

## SEED CORN CAMPAIGN IS ON THE WAY

SEPTEMBER 10-20 DESIGNATED AS TIME TO SELECT SEED CORN.

The agricultural extension division of the University of Minnesota is making plans for an exceptionally vigorous seed corn campaign next month, September 10-20.

The corn is so important to the prosperity of the state of Minnesota that the division believes it is worth while to interest every last farmer who grows corn in selecting seed this fall for next year's planting.

To make a careful selection of seed corn during the seed corn time goes far toward assuring for the farmer two things.

A larger yield of corn on a given number of acres the following year. A very considerable saving in the cost of seed.

Criticism has sometimes been voiced that the University Department of Agriculture for urging upon the farmer the selection of seed corn. The critics have assumed that the farmer knows as much as, or more than, the University Department of Agriculture can tell him. This may be true. The trouble, however, is the farmer does not always act on his knowledge, and the seed corn campaign which the agricultural extension division of the University puts on every fall is designed to move the farmer to action.

That the farmer by no means always does select seed corn carefully is shown by what happened in a certain large corn-producing county in southern Minnesota last fall. The farmers of the county referred to had a splendid crop of corn which matured satisfactorily and was put into the shock or left standing in the field. So certain were the farmers of being able to select their seed corn later that many of them did not select before husking time. Then came wet weather followed by a hard freeze. The result was that the corn in the shock and standing uncut in the field lost much of its value for seed purpose. Consequently when spring came the farmers who had failed to select seed corn at seed corn time-and they were in large majority—found on testing that their seed corn was almost valueless. In the meantime, however, those who had selected seed corn at the proper time and had a surplus had sold their surplus. Those who had failed to select therefore, were compelled to import seed at high prices. It is just this kind of thing that the agricultural extension division is seeking to provide against.

The agricultural extension division, therefore, is issuing this statement to the editors of the state, confident that the editors will be ready to aid in the coming campaign as a means of increasing the prosperity of the state's farmers and consequently of all of the people of Minnesota. Last year, according to the government agricultural year book, Minnesota farmers planted just a little short of 30,000,000 acres of corn from which they gathered a harvest of 118,000,000 bushels worth at the price ruling December 1, almost $142,000,000. This was $18,000,000 more than the crop of 1918 was worth at the same period.

Pennington county is becoming more and more adapted to the growing of corn and it will be only a few years until corn will be one of the principal crops of this section.

## SCHOOL OPENS FIRST MONDAY IN SEPTEMBER

MANY NEW FEATURES TO BE INTRODUCED IN SCHOOLS THIS YEAR.

School in Thief River Falls will start this year on the first Monday in September. It is the intention of the superintendent, W. A. Ziegler, to have a teacher's meeting the first day, mapping out the course for the year's activities and advising the pupils of the necessary books to secure for the school year.

Several new and important features are to be introduced into the city schools this year, and especially in the high school. Supt. Ziegler has many new and interesting plans developed that will be of material aid to the student and will materially assist in the work of the year. He plans to install what he terms a "cabinet system," composed of himself and other school directors as permanent members and a body selected from the students themselves. It will be the duty of this cabinet to pass upon everything in connection with all school activities outside of the studies, and it will also be their job to see that everything in connection with the local high school is handled in an efficient manner, thus eliminating much of the hit and miss method heretofore employed with reference to outside matters pertaining to the school activities.

In the opinion of Supt. Ziegler, this cabinet will be the means of putting the local school upon a solid foundation and will also cause the schools to be looked upon as a business institution insofar as outside dealings with the public are concerned. It undoubtedly will do much to assist the students and directors in handling all school affairs in a business like manner, which is always a good thing and which will not only be of paternal benefit in the schools but will prove invaluable to the students themselves from the knowledge gained thru this work, helping them later in life after the school term is finished and they start in the business world for themselves.

Further announcement of the plans for the school year just ahead will be published in a few days.

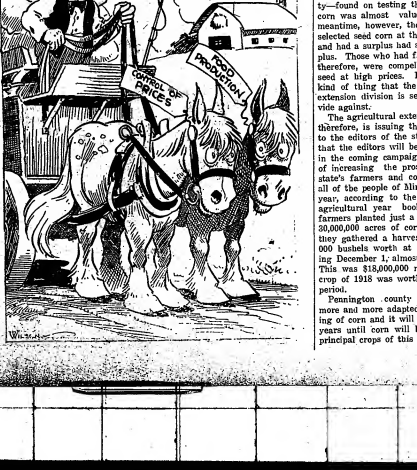
Taken to Alexandria.

Martin Swanson, a farmer who has been working in this county for some time past, was taken to Alexandria last Friday by the sheriff from that county, on a statutory charge.

## AN EFFORT TO BE MADE SOON TO STOP FLOODS

RIVER FLOODS TO BE CHECKED IF ANY WAY POSSIBLE CAN BE FOUND.

(Warren Shea)



Work of conducting a survey of Clearwater and Thief rivers with a view to determining whether improvements should be made to prevent high water in the latter way according to C. G. Selvig of Crookston who is president of the Red River Valley drainage board. According to Mr. Selvig thousands of acres of Red River Valley land has been damaged by previous floods and it is the opinion of the board that widening and deepening the rivers would eliminate the flood stage.

George W. Walker, a Thief River Falls engineer, is in charge of the survey of Clearwater river which was started yesterday. His work is expected to be completed by fall. Engineer Joseph Baugh of Warren who has been busy since early spring in the establishment and construction of judicial ditches in the Thief River vicinity is conducting the survey of Thief River and is also expected to be able to make a report this fall.

Both engineers are expected by Mr. Selvig to recommend improvements in the two rivers. The recommendations will be presented to Judge Andrew Grindeland who will order the improvements made if he believes conditions warrant them.

The drainage board, Mr. Selvig said, hopes for a favorable decision and a start on the deepening of the rivers in 1921. It is his opinion that with the completion of the work, thousands of acres of cheap land will be open in the valley for occupation.

## Going to Try and Drive 'em Double

# OFFICIAL PROCEEDINGS OF THE BOARD OF CO. COMMISSIONERS

Report of County Board of Audit
To the Honorable County Board:
Pennington County, Minnesota.

Gentlemen:

These undersigned Board of Audit of said Pennington County met at the office of the County Treasurer of said County, on the 13th day of July A. D. 1920 for the purpose of examining and auditing the Accounts, Books and Vouchers of John Gullingsrud Treasurer of said County, and to count and ascertain the kind and description and amounts of funds in the County Treasury and belonging thereto:

We respectfully make the following report thereon:

| | | |
|---|---|---|
| Balance in the Treasury March 1st, 1920, Date of last report | | $122,542.46 |
| Treasurer's Receipts from March 1 st, 1920, to June 1st, 1920: | | |
| From Tax Collections | $ 158,228.15 | |
| From Collections on Public Lands | 4,682.96 | |
| From Collections on Private Redem ptions, | 4,051.81 | |
| From Collections on Interest on Cou nty Funds, | 639.03 | |
| From Collection of Fines and Licen ses, | 10.00 | |
| From Collections Ditch Assessments, | 1,214.43 | |
| From Collections Mortgage Registra tion Tax, | 762.60 | |
| From School Apportionment, | 7,716.60 | |
| From Teachers Insurance and Retir ement | 292.50 | |
| From State Aid for County Roads | 2,321.73 | |
| From Inheritance Tax Collected | 526.04 | |
| From Collections on State Road Lien | 50.01 | |
| For Clerk's Fee Colyecting Personal Property Tax | 23.26 | |
| For Wolf Bounty from the State | 225.00 | |
| For Filing Fees | 98.72 | |
| Total Balance and Receipts | | $ 303,279.28 |
| By Disbursements from March 1 st, 1920, to June 1st, 1920, as follows: | | |
| Paid Orders on Revenue Fund | $ 8,332.60 | |

| Paid Warrants on Inheritance Tax F und | 520.04 | |
| Paid Warrants on Teachers Ins. & Re tirement Fund | 92.50 | |
| Total Disbursements, | | $ 121,118.13 |
| Balance in Treasury at close of business May 29th, 1920 as appears from the books of said C ounty Treasurer. | | 182,161.15 |

Petition of John Bratrud and others for the repair and construction of County Ditch No. 10 was presented to the County Board with a Bond properly executed and approved by the County Attorney. The same was received favorably by the County Board and an order appointing Engineer was duly passed.

Resolution Appointing Engineer in Ditch Proceedings

In the Matter of the Petition of John Bratrud and Others for Locating and Constructing County Ditch No. 10 in the County of Pennington State of Minnesota.

State of Minnesota, )
)ss.
County of Pennington )

Whereas, A Petition bearing date the 19th day of July, 1920, signed by John Bratrud and others and praying for the establishment and repairing of a certain Drainage Ditch in said County, designated and numbered by the County Auditor as County Ditch No. 10, the route of which is more fully described in said petition, and a proper bond accompanying the same, have been filed with the County Auditor of said County, as by law required:

And, Whereas, It appears by satisfactory proof of the Board of County Commissioners of Pennington County, that due notice of the pendency of said petition, and the time and place at which the same would be heard, has been given as required by law:

NOW, THEREFORE We, the County Board of said County, in a Special session held this day, do hereby appoint Irving E. Quist as a competent and experienced engineer to make an accurate survey of the line of said Ditch from its source to its outlet, as provided and specified in and by Chapter 230 of the General Laws of 1905, and after completing his duties as such engineer to make and file his report with the County Auditor of said County, on or before the 10th day of August 1920.

Dated August 4th, 1920.

By the Board,
Oscar J. Peterson,
Chairman County Board
of Pennington County

Attest:
T. P. Anderson
County Auditor

On motion duly carried the following bills were audited and ordered paid:

What Is An Advertisement

?

When the baby laughs, when the flowers bloom, when dinner sends out its inviting aroma; when any one of ten thousand things happen which attract your attention and gain your interest, you are being advertised to.

And that is the "why" and the whole purpose of any advertisement; to gain your attention, secure your interest, arouse your desire; to tell you something you don't know, to remind you of something you have forgotten, to convince you of something concerning what you have been hesitating, to help you get the best at the least cost.

What is an advertisement? You can wrap the whole question up in a few words: To make you happier. Think it over and see if you don't find this to be the true answer?

"Your Money's Worth In Local Advertising"

## Tribune's Kitchen Cabinet

—By Nellie Maxwell—

"Upon a crutch—her girlish face
Alight with love and tender grace—
Laughing she limps from place to place
Upon a crutch.

And you and I who journey through
A rose-lear world of dawn and dew,
We cry to heaven overmuch,
We rail and frown at fate, while she
And many more in agony
Are brave and patient, strong and true,
Upon a crutch."

The lightest care, while yet concealed,
Lies like a mountain on the breast;
The heaviest grief, when once revealed,
Is lulled by sympathy to rest.

—Mabel Sand.

### SAUCES FOR FISH AND MEATS.

The sauce of average thickness which is the most commonly used allows two tablespoonfuls each of flour and butter with one cupful of liquid, whether milk, stock or tomato.

An appropriate sauce to accompany a dish makes a plain dish out of the ordinary. The cook who serves tasty sauces always has on hand materials for making such sauces as white, brown, tomato and Bechamel, and with these as a foundation is able to make sauces innumerable. For a brown sauce a slightly larger quantity of flour is used to thicken as thickness is lessened by browning the flour, the starch being dextrinized. A brown sauce is made by browning the flour and butter well before adding the liquid.

Bechamel Sauce.—Cook one and one-half cupfuls of white stock, (which is broth from chicken or a combination of veal and beef) with one slice each of carrot and onion, a bay leaf, six peppercorns and a sprig of parsley, then strain. There should be a cupful. Melt one-fourth of a cupful of butter, add one-fourth of a cupful of flour and gradually add the stock and one cupful of milk. Season with salt and pepper.

Tomato Sauce.—Take one-half can of tomatoes, two teaspoonfuls of sugar, eight peppercorns, a bit of bay leaf and salt. Cook twenty minutes, rub through a sieve and add one cupful of brown stock and four tablespoonfuls each of browned flour and butter cooked together. Gradually add the hot liquid. To serve with fish the following is a most pleasing sauce:

Sauce Piquante.—To one cupful of brown sauce add one tablespoonful of vinegar, one-half small chopped onion, one tablespoonful each of chopped capers and pickle with a dash of cayenne.

### WHAT TO EAT IN HOT WEATHER.

Fruit in various forms is especially good for warm weather. The salts, acids and mineral matter are cooling to the blood. A well-chilled melon, peach or pear, a dish of berries or a well-ripened bananna are usually, some of them, obtainable when oranges and grapefruit are not plentiful.

Gelatin dishes may be prepared in such variety that one need not tire of them. Combined with fruit juices and served with cream they are both filling and nourishing. Sea moss is another form of gelatin which is being brought back to its old place in favor. A cupful well packed will thicken a quart of liquid. The value of any such gelatinous substance as food is that it saves more expensive proteins. They should not be given with the idea of furnishing much nutriment, however, unless with them is served a custard or rich sauce.

Salmon With Rice.—Line a buttered mold with cold, boiled rice, fill the center with creamed salmon, cover with more rice, put the cover on the mold and steam one-half hour. Serve with a cream sauce which may be seasoned with lemon juice, curry, or minced parsley. A most delicious white sauce may be made by using sour cream; then the lemon juice may be omitted.

Curry of Lamb.—Put into a saucepan three tablespoonfuls of butter and half an onion cut fine. Cook slowly until the onion is brown. Add two tablespoonfuls of flour and a teaspoonful of curry; cook until smooth. Add two cupfuls of stock and cook for five minutes. Season with salt, pepper, strain over slices of cold roast lamb and serve in a deep platter with a border of rice.

Devilled Kidneys.—Broil the kidneys, (and when half cooked score them with a knife and in the cuts put a little mustard, paprika and salt and finish broiling. Place on small squares of toast well buttered and keep hot. Make a sauce of melted butter, lemon juice and chopped parsley and pour over the kidneys.

## SHORT ITEMS OF MUCH INTEREST

### Climate and Longevity.

The general death-rate is found to increase with rising temperature and to diminish with a falling thermometer. These conclusions are a result of a study of about 400,000 deaths in New York in connection with the weather on the day of the death. The peculiarities seem to apply to all seasons. Variety, as in English or Canadian weather, is healthful and stimulating, and it is believed that some variability is as essential as proper humidity.

### Noted Bachelors.

Among the most famous bachelors in the world's history are: Michael-angelo, Rafael, Petrarch, Alexander Pope, Sir Isaac Newton, Schopenhauer, Charles Lamb, Whittier, Swinburne, Alfred de Musset, Voltaire, Thiden, the scientist; Cecil Rhodes, Phillips Brooks, John Bnrrenghs, President Buchanna, Walt Whitman, Lewis Carroll, Henry James, Lord Kitchener, Chopin, Liszt, Beethoven, Nicolo Paganini.

### Not a Matter of Flavor.

One who evidently speaks from experience says a girl's surprise in getting her first kiss is to find that there is no taste to it. Taste, indeed! The palate is properly numb at such an instant. A kiss isn't a matter of flavor. If it were, the Lord knows there are onions enough. Where there are thrill, tickle, throb, titillation and tremors, who in the mischief can think of taste? —Lonisville Lyre.

### Succinct Information.

Friends of ours have a family of three children, Elizabeth and twins —James and Joseph. The twins resemble each other so much that it is hard to distinguish them. One day while the children were playing in the yard a neighbor asked Elizabeth which of the boys was James, and she very promptly received the reply that James was the one standing next to Joseph.—Exchange.

### Liberal Offering.

One Sunday while at church, there was a special speaker, and the preacher asked for a liberal silver collection. As the plate was being passed I grabbed for a dime, the only piece of money I thought I had. I pulled out a penny and deposited it in the plate. It was not until the gentleman next to me smiled that I noticed my error. —Chicago Tribune.

### Peruvian Idea of Dignity.

The mayor of the smallest town in Peru feels that it is incumbent upon him, in order to make the proper display of official dignity, to be accompanied by a band of pipers whenever he appears on any state occasion. These musicians have instruments which consist of a series of reeds strung together and make a weird music.

### Possible Explanation.

Billy, aged six, was unfortunate enough to swallow a nickel and a penny given him for an ice cream cone. Mother, greatly exasperated, said: "Whatever did you put money in your mouth for?" when a quiet little voice belonging to junior, the four-year-old remarked: "I think he thinked he was a slot machine."

Tom Torgerson, the genial druggist of Greenbush, has sold out to Chas. E. Buglehorn of Bemidji.

### DOES MONEY INVESTED IN ADVERTISING PAY DIVIDENDS?

You are in business to make money; to make more money this year than last, to make more money next year than you are this year. To accomplish this you must first gain the confidence of your customers as you can. Advertising will help you on both.

First, When you advertise you invite the public to your place of to open an account with you. A public invitation such as this inspires confidence.

Second, by advertising you keep before the public eye. People know about you. When they think "of something they need in your line of with that article, rather than the name of a competitor who does not advertise.

Some dealers get scared when they hear the word advertise. Advertising as far as retail dealers are concerned, is a very simple getting your name before the public spending a lot of money, neither does it mean contracting for a lot of advertising space. There are hundreds of different ways to advertise lot of expense. Anything that brings your name before the public is advertising. If you have a good newspaper in your town, which no doubt you have you can well afford to do advertising regularly. It means a great deal to your customers and your prospects, to know when and where to look for your advertisements. When they read them they are in the buying mood, and that is the time for them to see your name. Advertise your business. Money spent in this manner is not wasted. It is one of the best investments you can make.

## Legal Publications

### MORTGAGE FORECLOSURE SALE

Notice is hereby given that default has been made in the conditions of a mortgage given by, Bert O. Roisland and Bella Roisland, his wife, to the Citizens State Bank of Hazel, (A Corporation under the laws of the State of Minnesota), Mortgagee, dated the 2nd day of December, 1916, and recorded in the office of the Register of Deeds of Pennington County, Minnesota, on the 5th day of December, 1916, at eight o'clock A. M., in Book Fifty-eight (58), of Mortgages, on page One Hundred Thirty-four (134), thereof. That the said Citizens State Bank of Hazel has paid the taxes assessed against the premises described in said mortgage for the years 1916, 1917, 1918, and 1919, amounting in all to Two Hundred Ninety-six Dollars, Forty-nine Cents ($296.49). That the amount claimed to be due on said mortgage at this time, including said taxes, is One Thousand Two Hundred Sixty-four Dollars Eighty-two cents ($1,264.82). That the premises described in and covered by said mortgage are situated in Pennington County, Minnesota, and described as follows, to-wit: Lots Two (2), Three (3), and Four (4), of Section Three (3), in Township One Hundred Fifty-two (152), North of Range Forty-one (41), West of the Fifth Principal Meridian, containing One Hundred Forty-five and Fifty-one Hundredths acres, (145.51), more or less, according to the Government survey thereof; that by virtue of the power of sale contained in said mortgage, pursuant to the statutes in such case made and provided, said mortgage will be foreclosed by the sale of said premises, at public vendue, to the highest bidder, for cash, by the Sheriff of Pennington County, Minnesota, at the East front door of the Pennington County Court House, in the City of Thief River Falls, Pennington County, Minnesota, on the 11th day of September, A. D. 1920, at ten o'clock A. M. of that day, to satisfy the amount then due on said mortgage, including said taxes, together with the costs of such and Seventy-five Dollars ($75.00) Attorney's fees, stipulated in said mortgage and fixed by law.

Dated this 24th day of July 1920.

Citizens State Bank of Hazel,
Mortgagee.
By Theo Quale,
Its Attorney.

## DEMOCRATIC CAMOUFLAGE!

The War Department campaign against the high cost of living has been started but does not seem to be waged particularly in favor of the average consumer but in behalf of the profiteer. The war department is carrying large display advertisements in the Washington papers announcing the sale of food products comprising canned roast beef, canned corn beef, corned beef hash, bacon, canned vegetables, candy, flour and many other items.

After announcing the items and their prices to consumers it then announces that discounts ranging all the way from 2 per cent to 20 per cent will be allowed to quanity customers. In order to come in on this arrangement one must purchase an amount over $1,000 to get even 2 per cent discount; $2,500 gets 4 per cent discount; $5,000 gets 7 per cent; $10,000 gets 10 per cent; and if a person can afford to purchase an amount over $100,000 he or she can obtain a discount of 20 per cent.

Imagine, if you can, an individual going to market with a basket or a wagon or truck and investing over $100,000 in this government food stuff in order to save 20 per cent discount.

In other words the discounts are all given to the very persons who should not get them, the produce dealers, who in turn become the profiteers of the country. This government stunt will not benefit the average consumer but will tend to make profiteers out of wholesalers and dealers in produce, for they will take advantage of the discounts and then up will go the price to the consumers.

And yet the war department with circus type, heads its advertisements with this caption: Washington and vicinity can now profit by the war department campaign against the High Cost of Living.

The government purchased all of this food stuff at prewar prices. Why have they held up the sale of this merchandise until this time? It is simply democratic camouflage in an attempt to make the people believe that the Wilson administration is trying to do something. They did something when they sold millions of pounds of sugar to Europe at two cents a pound while the American housevife paid her little thirty cents a pound for the same kind of stuff. The Wilson administration sold millions of dollars worth of other food stuff to Europe at ridiculously low prices while the American people were held up by the profiteers made by the democratic administration.

Now, after holding food stuffs on the shelves for two years, while the profiteers were making their hauls, they are going to allow some of the food stuff to be sold. Who is going to get it?

## VICTORY MEDALS

There is a curious situation as regards the Victory Medals issued for the soldiers and sailors of the World War. The war department had several millions of them struck off, so that every man entitled to one could have it. Preparations were made to distribute them at the rate of 35,000 a day. Since the distribution began, on June 21, only a little over 50,000 of the medals have been issued. The service men are not applying for them.

Application is easy enough, too. All that the eligible veteran has to do is to make a request, in person or by mail, at the nearest army post or recruiting station, accompanying it with his discharge papers, which will be returned. But few will take the trouble.

The fact is that the average American cares mighty little about medals. The service men are proud of their records, but do not feel like advertising the matter by flaunting baubles of any kind. It is a praiseworthy mingling of self respect and modesty. They might consider, however, that their children and grandchildren would prize these medals highly.

## LOOK WHO'S HERE

Uncle Joe Cannon has filed as a candidate for re-election. Which announcement recalls an exchange of banter which occured between Representative Cannon and former Representative McCall of Massachusetts, when the latter was zealously leasing the fight in congress for President Taft's proposal for Canadian reciprocity, a proposal to which Mr. Cannon violently dissented.

Mr. McCall, in opening the debate on the measure had expatiated at length on what he believed the effect of Canadian reciprocity would be on the price of wheat. "I think," said he, "that thisw ill become operative and keep the price down when we have to import a surplus, and then it will be more convenient for us to buy from Canada."

Mr. Cannon arose and inquired: "Does the gentlemen think that if ever in the fullness of time we do not produce wheat in the United States sufficient for our own consumption, the future congresses, 40, 50, or 100 years from now, will not be competent to deal with this question?"

To which Mr. McCall responded: "If the gentlemen is here at that time (loud applause and laughter), and the universal hope is manifested in the universal applause, and it appears that the farmer is getting 25 cents a bushel out of this duty wheat and the proposition is made upon this floor to strike off that duty and therefore reduce the farmer's price, the gentlemen from Illinois will seize the pillars of the temple of protection and will threaten to pull them all down if we touch the farmer's duty upon wheat."

That was in April, 1911, after "Uncle Joe" had served something like 36 years in Congress. His re-election to the 67th Congress, which is confidently predicted, will set up the record of service in that body of 23 terms or 46 years, and the physical and mental alertness of Mr. Cannon today, coupled with the esteem in which he is held by his constituents, lead to the hope that he will meet the contingency set forth by Mr. McCall.

As long as "Uncle Joe" is in Congress the farmers may rest confident that they have at least one staunch advocate of their cause.

There is a lot of good in most people, and very little bad, and still if you were to take the neighbor's word for it, 'most everybody is a crook—except the one who is doing the knocking. Human nature would drive a man to drink any day, and still we have it with us in every family. Why not reform a little?

With all the allies of Europe in the League of Nations, they just stand around and allow those anarchistic Reds and Bolsheviks to slaughter the little defensless Poles. Why doesn't Wilson write those fellows over across another note and tell them what to do?

Farmers just about get a good big smile on their faces over the great oats crop when an earthquake happens in the vicinity of the price.

## Local News

Miss Leona Knox, who has been the guest of her sister, Mrs. T. T. McFarland for the past week, returned to her home at Fisher Saturday.

Mrs. A. Wangenstein returned to her home in this city on Saturday afternoon after spending a few days in Greenbush visiting with Dr. and Mrs. Sommerfelt.

### Nationalizing Children

Out of poor, war-plagued Russia have come two horrible ideas—the Nationalizing of Women and the Nationalizing of Children. We do not hear that the former has come into actual practice, although it has been openly, not only suggested, but advocated, by statesmen. All that it means in heart-ache and broken ideals is impossible to realize. Even distraught Russia is not yet degraded enough by Bolshevism to practice generally this effront to the sanctity of love and the sacredness of marriage.

But—it is doing, what, though less repulsive at first thought, may work in time as great a harm—it is Nationalizing Children. To picture it mentally makes the American mother sick at heart. Half they tell us, of the boys and girls over three years of age have been gathered into barracks—herded together to be cared for by the state. Here they will live and be reared, know nothing of home life. The strangest, most incomprehensible feature of it all is that "the mothers like it," according to the word of Madam Kollontai who is head of the Department of Child Welfare.

She says, "We have lifted the curse of household slavery from the mothers of the poor."

In emergency conditions it has been necessary always to keep children in institutions for care for a time, but this has never been considered ideal. While we may not agree with those sociologists who declare, "Any kind of a home is better than any kind of an institution," yet we cannot but feel pity for the child who has no little room in his own home to watch the stars from as he drifts away into the land of dreams, no Mother to plant the good-night kiss on his brow, nor a Daddy to come upstairs for a farewell frolic.

If the children, put in the barracks to save them from starvation, malnutrition, disease, and neglect, are only to be Nationalized temporarily as an emergency measure, then we can forgive Russia, but if it is a permanent policy based upon her philosophy of bolshevism, then we should by all means practice quarantine against Russia abessed with her plague of bolshevist ideas as we would against a country smitten with the "black death" or cholera or the bubonic or any other plague. An infection with the germ of this idea will be as fatal as these to American wholesomeness and happiness.

In America we are seeing more clearly than ever that it is a serious thing to take the child from his home. By Mother's Pensions, State Aid, and other means we are trying to make even the homes of the very poorest possible dwelling places for American children. Without a doubt it is the state's business how its children are brought up. How far the home can be helped without pauperizing the inmates is a question, but as the children of the rich decrease in numbers and the children of the poor become the majority of our future citizens, it is plainly good statesmanship, as well as "fair play," for the state to provide educational, recreational, vocational, and health equipment—the best to be had for all—but to contrive a way to leave the children in their own homes to grow up under the protection and watchfulness of those who love them most—their parents.

We cannot believe that in American homes, mothers would "like it" to be "relieved of the curse of household slavery," (interpreting that to mean the care of their children). In America, statistics declare, "five homes are open to every child who is 'placeable'." Childless couples are seeking consolation by adopting the children of even our late enemy Austria. We believe the American home is sound—and the women and children secure against any such virulent blight as "nationalization."

### OPEN DOORS IN BUSINESS

The Advance Agent

An advance Agent goes out ahead of a play, a moving picture, a concert or any entertainment and prepares the way. She arrives in the town about ten days ahead of the attraction and arranges the advertising, with the manager of the theatre, looks up the trains, speaks for hotel accomodations, provides for transportation of baggage and often talks with editors and gets notices in the papers, sometimes writing press notices herself and seeing that photographs are put out in public places.

Women are proving more reliable on this job than men as they are more steady and stick closer to business. Often, too, they can prevail upon newspapers to accept publicity which would be refused to a man.

The advance woman agent receives from $60 to $125 a week and her railroad fare. She must pay her own living expenses. Only a woman of experience can make good at this job, but young girls may prepare for it. This is done by obtaining a job in a theatrical office and learning all she can. The woman who is a success in this work must dress well and be pleasing in appearance and yet know how to keep her dignity and repel. It keeps her traveling all the time and while this may be pleasant for a time, it becomes very wearisome after a while. When it does the woman who has been successful in this important position is certain to find some other job waiting for her in the home office of the theatrical company.

MOTHER'S BREAD!

**Nerves and Health**

THE net work of nerves which carries the normal flow of life-giving energy to every organ and tissue is responsible for the health of the body. These nerves are distributed through the spinal column.

If through accidents, blows, strains or unnatural curvature the moveable bones of the spine become slightly displaced, they press on the nerves and obstruct the free passage of the health-giving currents. The organs or tissues fed by the obstructed nerves naturally become weakened and diseased. Pressure on the nerves leading to the stomach, for instance, is often the cause of stomach trouble.

**CHIROPRACTIC**

by a method of scientific adjustment corrects these spinal defects, relieves the pressure on the nerves and removes the cause of disease. With normal conditions restored, the life-giving currents have full power to repair and strengthen, and health results in a natural way, without the use of drugs or surgery. No matter what the ailment, experience proves that it can be relieved through Chiropractic (KI-RO-PRAK-TIC) adjustments of certain parts of the spine.

The sick should not be discouraged, even though they have sought relief for years and tried every known method of health.

**CHIROPRACTIC** THE BETTER WAY TO HEALTH

has done wonders in bringing relief in long standing and obstinate cases. Investigate and learn what Chiropractic has done and is doing for others, and what it can do for you.

## HAD GENIUS FOR INVENTION

**Man Who Began Life as a Prairie Sheep Herder Made Most Remarkable Record.**

It is probable that Walter Turner was the world's most prolific inventor. Starting life as a shepherd on a prairie sheep ranch in the far West he knew nothing of the mechanics of railway engineering. One day however, while tending his sheep on the prairie in the neighborhood of a railway, Turner came to where the rains of a train were scattered, and among the fragments he picked up as a curiosity a vital part of the Westinghouse brake. This he was allowed to carry away. During his lonely life on the prairie he would ponder over the mechanism of this brake. His chance came when, having failed as a sheep farmer, he got a job as a wheel tapper on the railway, ultimately being promoted to the engine shops. A series of inventions, improving brakes patented by the company, led to his further advancement. Mr. Westinghouse, who took him into his works, finally made him the head of the engineering department. Westinghouse patented two hundred inventions, but the shepherd from the prairies patented four hundred. Westinghouse made an air-brake that would control fifty railway carriages; Turner improved it till it would control a hundred. When he died it was said that the value of the shepherd's inventions to the world was over thirty-five million dollars in gold.

## NEXT JOB IS WHAT COUNTS

**Good Thing to Forget What One Has Done, and Look Forward to Something Else.**

James J. Hill, who possessed a phenomenal memory, said it is easy to remember things you are interested in.

What to do, therefore, is to discern what things are useful, what things one ought to be interested in, and then forget the others.

That sounds easy, but it isn't easy as we all know. However, if we try, we may accomplish something. If we don't, we won't.

Let's see, therefore, what are some of the things we ought to forget.

First, and most important of all, forget that brilliant record you made at school far that wonderful sale you made which caused all the boys to talk, or that remarkable piece of work you did which won your raise of pay and promotion.

Forget the big things you did yesterday or last year.

Forget all about the time you topped the list and were made a fuss over.

Forget that you are (in your own eyes) a wonder, a world beater.

Water that has gone over the millwheel can grind no more corn.

Forget what you have already done and address all your mind and strength and talent to the next job.—Forbes Magazine (New York).

**When Thunder Roars.**

When caught in a thunderstorm, don't rush for any shelter.

Remember that any tall, isolated object, such as a tree or a flagstaff, or even a tall building, is liable to attract lightning, and for that reason should be avoided.

If trees are chosen as shelters during a storm, select a group in preference to one standing by itself, and avoid the highest.

Never run to escape the rain, as a flash is likely to be diverted to the vicinity of the air thus set in rapid motion.

In a house, keep away from open windows—it is best to shut them—and fireplaces.

It is safer to be soaked by the rain than dry under an umbrella; wet clothes will be chosen by the lightning in preference to the wearer, and the wearer in preference to his dry clothes.

**The Calling of Wild Geese.**

There are certain bird notes which strike strange chords, whose vibrations are lost in a mist of dreams. I remember a little runaway boy who stood in a clover field in a gray twilight and heard the clanging calls of wild geese shouting down from midsky. Frightened he ran home a vast distance—at least the width of two fields. As he ran there seemed to come back to him the memory of a forgotten dream, if it were a dream, in which he lay in another land on a chill hillside. Overhead in the darkness passed a burst of triumphant music and the strong singing of voices not of this earth. From that day the trumpet notes of the wild geese bring back through the fog of the drifting years that same dream to him who heard them first in that far away, long ago clover field.

**Wonderful Balances.**

It was the Italian physician Salvioni who devised a microbalance of such extreme delicacy that it clearly demonstrates the loss of weight of himself by volitization. Thus the invisible perfume floating off in the air is indirectly weighed. The essential part of the apparatus is a very thin thread of glass fixed at one end and extended horizontally. The microscopic objects to be weighed are placed on the glass thread near its free end and the amount of flexure produced is observed with a microscope magnifying 100 diameters. A mote weighing one one-thousandth of a milligram perceptibly bends the thread.

## *Short Stories for Children*

By Mary Graham Bonner

SUN'S MOVING PICTURES

"I'm going to have an all day moving picture show today," Mr. Sun, "and I have engaged so many actors and actresses to take part. We're going to have our show along the side of a lake and over the lake and some scenes will be upon the shore of the lake."

Clapped Their Hands.

So all the Sun Fairies came to the moving picture show. Mr. Sun likes to be very up-to-date though he is such an old, old fellow, so he has a moving picture show, pictures in which old Mother Nature and all her family help take part, and in which the Sun Fairies and many other little creatures take part too.

"This time the Sun Fairies mostly were going to watch though some of them too were going to act.

"I will announce the pictures," said Mr. Sun, "as I haven't a screen in readiness upon which to show what the pictures are going to be.

"The first picture will show a tower known as Kingfisher Tower, a beautiful tower on the lake. This is a picture like a travel picture one would see in the real moving pictures.

"I've heard they show pictures of different places and of interesting buildings and so forth, and therefore I am showing this picture."

And Mr. Sun shone upon the tower and all the little Sun Fairies looked at it and clapped their hands, and the Breeze Brothers cheered.

"Now you will see different stones, of all kinds of shapes and how they have been changing throughout the years by having the water run over them and by all the changes that have naturally come to them throughout the season.

"And you will see a picture of children wading and of how the stones try not to be too slippery so the children will not fall. It is hard for some of the stones to take these parts for they have moss upon them and water weeds which make them slippery.

"Next you will see a row of beautiful forget-me-not flowers growing along by the side of the lake, and up on the side of the little bank from which a stream is running down.

"And you will see the children next gathering a basket full of these forget-me-nots and taking some of them home, dug up by the roots, so they can plant them in the gardens and care for them there.

"Next you will see bugs hopping out in the sunshine and you will see too that a very dark picture following shows the bugs hidden back of the rocks where it is cool for them and where they can rest. I do not throw my sunlight spot-light upon them as they wouldn't like it. So it is a very dark picture as you see."

Mr. Sun paused and then went on again.

"We will see what is known as the clearing—a lot of brushwood and trees which have been cleared away from the side of this hill overlooking the lake.

"It is growing up fast now and soon there will be no clearing! Behind the clearing you will see rocks — there is a fine quarry there from which builders can get rocks.

"There are thimble berry bushes along the lake shore, with their berries which look like thimbles!

"And the next picture shows a burning bush. It is not really burning but that is its name for it looks so feathery and like a fire when the glow is over and when it is still somewhat bright but rather smoldering.

Children Wading.

"And you will see a row of bins bells. They are singing to help along this picture and their song, if you will listen to it, is this:

"We're singing for Mr. Sun,
We're the blue bells having great fun.
For we love to sing our songs of gladness,
Our songs of happiness, not of sadness.
We hope you like singing with your picture show,
Singing like ours so soft and low.'"

"You see," said Mr. Sun, "my pictures show today has been one of scenery—like many a picture show is. I have all kinds, yes, Mr. Sun has all kinds of moving pictures. And you see one right after the other at my show just as you do at all shows?"

**Just to Know.**

Shopkeeper—What can I do for you, my boy?

Boy—Please, I've called about your advertisement for a man to retail canaries.

Shopkeeper—Yes, and do you think you could do the work?

Boy—Oh no, sir, but I only want to know how the canaries lost their tails.—Boys' Life.

# How Much Is Your DOLLAR WORTH?

Money is worth no more than you get for it

If you pay a dollar for an article worth fifty cents, your dollar has been worth only that amount.

On the other hand, if you invest that dollar in something worth more than a dollar, you have realized a profit.

Advertising pays more returns for small investment than any other agency in business.

Good advertising is alwrys cheap.

And to pay double price for inferior advertising, for advertising which has less power and less punch and less influence than those inserted for lower prices in a stronger medium, is to waste money.

ARE YOU GETTING YOUR DOLLARS WORTH IN ADVERTISING?

If you are not—if you are paying more for your advertising than you are getting back—you are wasting money.

The Thief River Falls Tribune, published semi-weekly for the people of the trade territory of Thief River Falls, stands today as the strongest and most reliable advertising medium in the territory embraced.

Twice-a-week, The Tribune goes to 3,800 homes in the trade territory, to be well and closely read by every subscriber. Every name on the list to which papers are sent are PAID IN ADVANCE, And every name listed is that of an interested and wide-awake reader.

There are in the average family four members. Four times 3,800 is 15,200—The Tribune goes TWICE-A-WEEK to to 3,800 homes, to be read by 15,200 prospective buyers.

TWO PUNCHES ARE BETTER THAN ONE! Punch—power—popularity—these are the three worth-while assets which The Thief River Falls Tribune offers to any advertiser, of any product.

**You are not getting you dollar's worth in advertising if you are not advertising in The Semi-Weekly Tribune.**

## What The Tribune Has to Offer

1. Three thousand eight hundred bona-fide subscribers. Everyone of these is a paid-in-advance. Every subscriber is an interested one.
2. Unusual facilities for composing, printing and publishing advertisements, of whatever size.
3. Twice-a-week publications, as against weekly issues of other papers in northwestern Minnesota. The Tribune goes twice-a-week to 3,800 homes.
4. Open subscription list. The managment of The Tribune is ready at any time to show advertisers how The Tribune's circulation is distributed---how certain localities are covered, and so on.
5. Low advertising rates. The rate for advertising in The Semi-Weekly Tribune, in spite of the fact that greater efficiency and more markets are offered, are lower than those of any rival publication in northwestern Minnesota.
6. The most important asset of all---co-operation. The management of The Tribune, all the way through, will give any advertiser or merchant full co-operation---will work stead-fastly to develop his trade and market wherever possible.

Can you afford NOT to adveatise in the Semi-Weekly Tribune?

You, as a forward-looking merchant, as an experienced advertiser, knowing that you must reach markets and reach them repeatedly, in order to build up trade. Twice-a-week publication means an indispensable advantage.

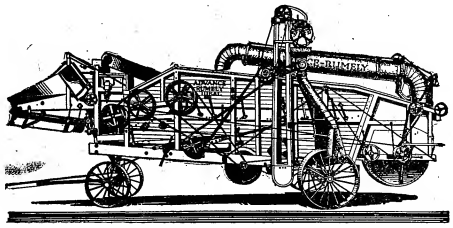
## Big Reasons Why You Should Prefer an Ideal

1 *Large Capacity*—The Rumely Ideal can't help but be a big capacity machine: it is built on the common sense principle of *keeping the straw moving*. There's absolutely no chance for clogging, winding, choking, bunching or any other hindrance to large capacity, when the straw is *kept on the move* as it is in the Ideal.

2 *Saving the Grain*—Saving all the grain is just as important as producing it—of course. The Rumely earned the name "Save-all-the-grain-Ideal"—by *saving it*. In any kind of straw—headed, bundled or loose rakings—dry, wet or frozen—the Ideal handles all jobs the same—without waste.



3 *Clean Work*—This is accounted for by the extra large chaffer area, the adjustable sieve in the shoe, and the Ideal system of wind control—a guarantee of a perfect job of cleaning without waste, under every condition. The Ideal does the kind of cleaning that gets you no "dockage" at the elevator.

4 *Strongly Built*—One-piece timber can't pull apart, sag or rot, as spliced or bolted members will. The Ideal is a one-piece job—sills, posts, deck rails, straw rack sides. Then, there are the heavy, substantial trucks, and all shaker hanger bearings running in adjustable boxes. That's the kind of construction that *insures* long life.

5 *No Vibration*—Vibration makes a young machine old before it has served its time—it wears out the bearings and pulls the shafts out of alignment. Counter balancing of all moving parts in the Ideal—perfect balancing of the cylinder—make the Rumely so steady running that when comparted to other separators vibration simply does not exist.

6 *Easy to Operate*—You don't have to crawl inside the Ideal to get at the working parts. All bearings, concave adjustments and regulation of the blast are on the outside of the machine, also all oil and grease cups, where you can take care of them while the Ideal is running.

The Ideal is built in five sizes—22x36, 28x44, 32x48, 32x52 and 36x50.

## SEVERAL GOOD ENTRIES FOR LEGION RACES

AUTOMOBILE RACE MEET AT FAIR GROUNDS PROMISES REAL SPORT.

Elaborate plans are being made for the automobile race meet to be held in this city on Sunday, August 29th. The meet is to be under the auspices of the local post of the American Legion and several fast entries have already been booked and more are expected.

The races, which will be held from four in the afternoon until eight in the evening, will consist of automobile races, motorcycle races and a race between a motorcycle, automobile and airplane. The entries to date are as follows:

John Lee, Fargo, N. D., Elgin.

Larry Finlayson, Breckenridge, S. D., Ford special.

Joe Pepper Ada, Ford special.

Gus Forseth, Grand Forks, Ford special.

Those entering for the motorcycle races are R. H. Bartlett, A. E. Ackland and Gus Forseth. The post is also negotiating with Dewey Kimvel of Crookston, and it is expected that he will sign up in a few days and will enter the races.

The program is to be made up from time trinls and will be in races of three, five and ten miles.

## A GOOD BOOSTER FOR PENNINGTON COUNTY

Mason City, Iowa, Aug. 9th.

Editor Tribune—Last year through your newspaper I advocated the raising of Kubanka durum rust-proof wheat. At the same time I advised the seed houses and different farm organizations as to where the seed could be procured and on my various trips thruout the country I have not seen a single field of this crop. The same old rust is back with us again this year and I don't believe many farmers will profit off wheat in Pennington county this year.

Another great crop that I wish to call the farmers' attention to is Rosen rye, which is averaging almost 50 bushels to the acre since it has been grown in the state of Michigan or almost trebling the yield of common rye, but to raise Rosen rye successfully in a locality, all in that locality must raise it for it will cross with the old rye and you will be no better off than if you had continued raising the poorer crop, so that concerted action must be taken if this wonderful crop is to be grown successfully in Pennington county.

Being interested in several farms near Thief River Falls that happen to be in cleaner condition than the majority of farms are, I take pride and appreciate what your paper has done toward getting sweet clover started in Pennington county and while I do not altogether agree with you politically, still I believe that your paper deserves the support of the entire community, for we all realize that people are subject to mistakes and to make mistakes in politics is small anyway.

But while you are attempting to make some people see that sweet clover is a wonderful crop and the proper crop for every farmer to raise, why not include such crops as alfalfa, Rosen rye, Kubanka durum rust-proof wheat (if the farmer thinks he must raise wheat) and also all different kinds of clover seed and corn for silage. Driving over the country I have noticed that those farmers who had silos on their farms, had plenty of cattle and sheep, those who were raising sweet clover, alfalfa, corn for ensilage, rye and potatoes and just enough oats and barley for feet, keeping the manure out of the barnyard, were the boys who had the pretty clean farms; they are the boys who are there to stay, their farm is not for sale, but the other fellow wants to sell. And those lown boys want those farms with the big red barns and silos and clean fields and the price is the last consideration when the place suits them, so why on earth doesn't it pay to make a farm out of your land? And while you are advocating all these good things which will eventually make Pennington county the greatest of all counties, from an agricultural standpoint, why not begin talking for the services of a county weed agent. Every farmer and every business man should be interested in this all important work, every one of them should give you their unstinted support, it matters not if they be democrat, republican, N. P.'s, for paving or against paving, every one should be with you when it comes to improving farm conditions in Pennington county.

ROELAND THOMPSON.

A Fine Rain.

Another million dollar rain visited this section Wednesday evening and Thursday noon. The rain came at the right time for garden truck and small crops. With most of the grain cutting out of the way, the rain did not delay operations to any great extent, holding up threshing for a few hours, but otherwise helping everything in the line of small stuff to a great extent.

## SUFFRAGE NOW ESTABLISHED COUNTRY OVER

70 YEAR FIGHT OF AMERICAN WOMEN FOR SUFFRAGE IS WON.

The women's seventy-one years' battle is won!

Approximately 26,883,566 women become full-fledged voters, through the act of the Tennessee Legislature in ratifying the Eighteenth Amendment to the United States Constitution and the critical factor to disturb the politicians of the country.

Less than one-half of the 26,883,566 voting as a unit, can control the political destinies of the nation next November. They will decide what part they will play in the nation's affairs and whether a new era has begun.

Women throughout the world will join their newly enfranchised sisters of America in celebrating the victory. A great jubilation is planned for October. It will be held in the rotunda of the Capitol and will be the occasion of presenting to the Government marble busts of Susan B. Anthony, Lucretia Mott and Elizabeth Cady Stanton—the three women who began the struggle and died in it.

All the women's organizations of the country will join in making it an historic event.

The amendment added to the Constitution has been before Congress longer than any other successful amendment. It was in 1875 that Susan B. Anthony made the first draft of it. Three years later it was introduced in the United States Senate by Senator Sargent of California. From 1887 to 1913 it lay in Congress, without action or even debate. It was not until June 4, 1919, thirty-one years after it had gone before Congress, that the amendment was finally passed.

No struggle in American history was more dramatic than this battle of three women which began in 1848, when Lucretia Mott and Elizabeth Cady Stanton called, in Seneca Falls, N. Y., the first woman's rights convention, and ended with favorable action by the Legislature of the State of Tennessee. It was a struggle to fire the imagination; to the heroic women who dedicated their lives to it it was a struggle for freedom. They were jeered and jailed for their efforts but they fought on, ready to die for their cause.

Increase Asked.

Railroads of Minnesota began their fight for increased rates on intrastate business.

Attorneys, traffic managers and executives of various departments of 17 railroads operating in Minnesota appeared before the state railroad and warehouse commission to present their demands.

United Commercial Travelers were represented by a delegation demanding reduction of passenger fares. The state law provides for a 2 cent rate but during the war the government raised the rate to 3c and this rate is still effective. The Interstate rate is now to be 3c. Ira G. Mills, chairman of the commission explained at the opening of the session that the commission would take up the matter of passenger rates at this time only to the extent of gathering information for the benefit of the attorney general who will be asked to enforce the two-cent passenger fare law.

Mills explained the commission had no authority to fix passenger rates.

Sw. Ev. Mission Church.

O. J. Lundell, Pastor.

Services next Sunday.

Sunday school at 10 a. m.

Evening service at 8.

Morning service at 11 a. m.

Friday (today) Rev. Aug. Anderson from Alaska will occupy the pulpit. All are cordially invited.

## ASSOCIATION OF POTATO GROWERS MEET

PRESENT PLANS ARE TO GET IN ACTION SOON AND PUT ACROSS IDEAS.

The directors of the Pennington County Produce Association held a meeting in St. Hilaire on Wednesday, Aug. 18th. The details of completing the organization were discussed and orders for sorters and sacks was given to the president and secretary to be purchased through the Minnesota State Exchange. Any other growers wishing to affiliate with this organization should do so within the next two weeks as business operations will start very soon. Any potato grower having at least three acres can derive much benefit from such an association.

Other farm produce as well as potatoes will be handled by this association as soon as enough share holders are obtained to make it worth while.

The local association is growing very fast and it is certain to accomplish much good for local potato growers. The best markets are secured thru the association and the potato growers of this section are assured of the very top notch prices thru the combined efforts of every individual member of the association. It is your association, conducted for your benefit, and the directors are anxious to see that every potato grower in this section is affiliated with the association, thus strengthening the association and giving it the required number of members in order that the needs of all may be properly looked after and the proper markets secured for the marketing of the potato crop. Information concerning the operations of the association may be secured thru the local Farm Bureau.

Married Wednesday.

Judge N. W. Tarrant is willing to testify to the pulling power of Tribune advertising. On Wednesday of this week he married Ole Edvard Guisness and Sigvald Ewerth of the Province of Throndhjem, Norway. The Judge states that formerly he only married those in this immediate vicinity but since The Tribune started advertising the fact that he was the only one in this section that used the non-skid ceremony they have been coming in from adjoining states and now they have started coming in from Europe. "In case any of your advertisers are skeptical about the pulling power of the Tribune, refer them to me," said Mr. Tarrant.

Return Home Wednesday.

Mr. and Mrs. Thos. A. Way, Mr. and Mrs. W. B. Lawrence, Mr. and Mrs. L. H. Lawrence and Geo. Haynes returned Wednesday evening from a week's trip thru the Hudson Bay country. The party was better than five days on the water and had the unique experience of being temporarily shipwrecked. The large boat they were on ran into the rocks and the entire party was stranded for more than thirty-six hours.

Zion Young Peoples' meeting on Thursday evening (26th). Good program.

Mrs. Alfred Stenberg returned to her home in this city on Wednesday after spending a period of two weeks visiting with friends and relatives in Baudette.

## ROAD THRU TO RED LAKE IS GIVEN BOOST

MEETING HELD AT WARREN TUESDAY EVENING VERY ENTHUSIASTIC.

The road from this city to the Red Lake in Beltrami county has again come in for its share of attention and a meeting held at Warren on Tuesday evening of this week was well attended by several from this city. The purpose of the meeting was to discuss ways and means for the opening of the road and to see if it was not possible in some way to get action on the matter and thus open a road to one of the finest lakes in the country. Considerable enthusiasm was created at the meeting and it looks as the some definite action is now to be taken on the project and the matter given a final boost that may help land it where it should be and be instrumental in bringing the matter to a head, with the result that this city will be connected with one of the finest summer resorts in the northwest.

Those from this city who attended the meeting at Warren are as follows: Daniel Shaw, E. O. Mogensen, T. L. Melgaard, F. J. Stebbins, J. Provencher, H. O. Loken, R. H. Ross, Math Bnrzen, Geo. Werstlein, G. W. Peterson, A. B. Kjos, W. Wiesnewski, E. M. Bennes, C. L. Hansen, J. M. Bishop, Dr. C. M. Adkins, Dr. O. F. Melby, Wm. Prichard Jr., F. H. Herrick, John Bratrud, Loren Johnson, E. M. Schutt, W. S. Sylvester and G. W. Connell.

Officers of the association were elected at the meeting and resulted as follows: Daniel Shaw, Thief River Falls, president; Julius J. Olson, Warren, first vice president; C. R. Gillispie, Stephen, second vice president; Daniel Robertson, Argyle, third vice president; Scott Laird, Thief River Falls, secretary; C. L. Hansen, Thief River Falls, treasurer.

Elks Meet Tonight.

It is hoped that there will be a full attendance at the Elks' meeting this evening as the final details with reference to the big picnic to be held on the 29th are to be finally disposed of. All committees are especially requested to be present as we make their final reports and receive such suggestions as may be made at the meeting. It is the desire of the local order to make the coming picnic one of the best so far held and in order to do it it will take the combined action and support of every member. The committees in charge of the program announce they have secured a number of high class features and will also stage a number of races and contests that should attract a large crowd. The committee on refreshments announce that the dinner will be served at 12:30 sharp and it is hoped all will be on time and ready for the program that will follow immediately after the dinner. The picnic will last from 10 a. m. till 4 p. m.

Information Wanted.

The local post of the American Legion desires to get in touch with two or three former service men and have information of considerable value to them. The names of Fritz Friskevold, Goodridge and David Jones, Thief River Falls, are the ones the local post is interested in. These two men will receive information regarding their compensation for the time spent in the army and in order to secure this compensation it is necessary for the department to have a report of their physical examination. Those knowing the whereabouts of these two men will confer a favor on them and the local post by notifying G. Howard Smith of this city.

Mrs. A. P. Robinson and son spent Friday at Warren.

County Division Fight.

The Holt county division petitioners have evidently won another round in the fight for the division of Marshall county over their Middle River opponents. Governor J. A. Burnquist last week issued a proclamation calling an election to vote on the question. The election will be held on the same date as the general election, Tuesday, Nov. 2nd.

"Liberty County" is the name of the proposed new county and comprises the eastern portion of Marshall county. The village of Holt is named as the county seat in the petition. The line of division is made between the townships of Lincoln and West Valley, West Valley and New Maine, Foldahl and Marsh Grove, Comstock and Viking, leaving 22 townships in Marshall county and making 26 townships in the proposed "Liberty" county. Five men named to serve as commissioners of the new county are Carl T. Olson, Edward A. Silverness, Otto Hohl, Albert Klugnes and Andrew Moen.

## PLANS FOR TRI COUNTY FAIR LOOM UP BIG

IT IS THE INTENTION TO HAVE ONE OF THE BEST FAIRS POSSIBLE.

The people of Goodridge and vicinity are getting ready for the annual Tri-County fair and are going after the matter in dead earnest. They are hopin gto make it second only to the big Pennington county fair and are planning on the support of the people in this section to help them out as they do when the Pennington county fair is held. This will be done without a doubt, and the people of this part of the county are always ready and willing to help put the Tri-County fair across in good shape and glad to do anything and all the year to help boost the fair along. The Goodridge Banner of recent date, contains the following article concerning the Pennington county fair and what they hope for in their Tri-County fair:

"If, as it is said, the Pennington county fair drew the best attendance of any fair in its history, then we want to be able to say the same of the Tri-County fair this year. True, we have but one effort to surpass, but we expect to show the world that we can do it. Goodridge contributed her share, both in attendance and in exhibits.

Even a Goodridge booth attracted much attention and was highly complimented on all sides. Mrs. R. H. McDonald, Mrs. E. L. Dahl, Stuart McLeod, Francis Robinson and Fred Norby were in charge of the booth. The committee is thankful to all those who contributed exhibits and assisted in any way in bringing them in. The concerted effort that was put forth to make this a successful venture was what captured the prize. Let's do it again. The prize money will be turned over to the Tri-County fair association."

Minnesota Among Big Corn States.

As a corn state Minnesota stands fifth in yield. For ten years, from 1910-1919, its average yield was 33.7 bushels per acre. In this it fell short of Indiana by a little less than three bushels of Iowa by less than two bushels of Illinois a little more than one bushel, and Wisconsin by a fraction of a bushel. Only seven states in the union produce more corn than Minnesota. In 1909, 1,690,000 acres of corn was grown in Minnesota with a yield of 58,812,000 bushels; in 1919 2,570,000 acres of corn were planted and the yield was 118,000,000 bushels.

The acreage in ten years increased about 70 per cent and the yield 100 per cent. No doubt a part of the increased yield has been due to the annual movement for seed corn selection from September 10-20.

Fined for Selling Bad Eggs.

L. S. Simms, state food inspector, was in this city the latter part of last week and caused the arrest of Ole Odegaard of Hazel and Henry Georgsen of St. Hilaire for shipping bad eggs and for failing to inclose an egg candling certificate. Ole Odegaard was fined fifteen dollars for shipping bad eggs. Out of a case of 360 eggs, but 48 good ones were found, or 312 bad ones. In the case of Henry Georgsen, the fine of fifteen dollars was imposed because he failed to enclose an egg candling certificate showing who the eggs were candled by and when. Both men were hailed into the Municipal Court of Jude N. W. Tarrant and paid their fines. The law calls on a second offense of this kind, a fine of $50 and sixty days in jail.

## POSSILILITIES OF SUGAR BEETS ARE ENORMOUS

FIGURES SHOW HIGH RENTAL FOR LAND SUITABLE TO THIS CROP.

The sugar beet situation in Pennington county is coming along in fine shape and the test plots that have been planted this year show a surprising gain over what was expected and it is the belief of the majority of people that this county will soon be enjoying the distinction of growing the best sugar beets in the entire state of Minnesota. With this distinction will come other things of much importance to the county among them the location of a sugar beet factory at this point. The sugar beet factory at Itascha is forging ahead in grand shape and the officers of that company are anxious to open another factory at this point if it can be shown that there will be sufficient interest taken in the growing of sugar beets in this county and nearby territory. It has been pointed out that this section raises the best sugar beets of any point in the state and all the company seems to be interested in at the present time is being assured of a sufficient yield should they decide to place a factory at this place. The test plots that are being grown this year are for the purpose of demonstrating the high value of the sugar beets grown in this section, and it is felt if the proper steps are taken the location of a sugar bet factory at this place is not at all improbable.

The raising of sugar beets is fast becoming one of the most profitable of crops. It enriches the land and as a result creates higher prices for land and generally increases the prosperity of the community. A clipping, taken from an Iowa paper, shows the tremendous value in which they held the sugar beet industry in that section of the state and the high prices paid for land on which to grow the beets. The item relates to conditions especially in the neighborhood of Britt, Iowa, and is as follows:

"What is believed to be the highest rental paid for land in Iowa is being paid by R. A. Dickson, who has rented the eighty acres at Hutchins, lying on the south side of the road in Iowa Park in the east part of the town. Several of the platted lots of the village are included in the tract. Mr. Dickson is paying $12 an acre for this tract of land and will raise sugar beets for the Northern Sugar Corpoation of Mason City.

Best contracts were made at $12 per ton this year. With a poor year a yield of at least twelve tons may be expected on good land, and with a bumper crop a yield of thirty tons per acre is possible. Then this tract of land is just across the road from the sugar beet factory. Mr. Dickson says that is worth $5.00 per acre to any man raising beets, for if a wet fall and muddy roads come at harvest time the beets can be handled economically.

G. P. Harper, a brother-in-law of Mr. Dickson, and G. A. Dickson, father of R. A., are farming some of the Sheets land. They are close together and get along without hiring help. So while the rental seems big, it is not considered a large rental under conditions as Mr. Dickson states they are.

The best beet growing country in Iowa is located in this vicinity and the acreage is growing year by year. The success of Mr. Dickson will be watched this year with interest and if he makes money there will probably be many beet farms rented out in forty and eighty acre tracts next year at high rentals."

Needs Rate Experts.

Postmaster John Morgan notifies this office that the government is in need of scores of freight and passenger rate clerks due to the recent increases given the railroads. The work is due to the freight and passenger rate increases that are soon to go into effect and hundreds are needed to help in this additional work. Examinations for these positions will be held throut the country on September 22 and October 20, especially to fill the offices of examiners. The usual entrance salary is $1620 a year, however when appointees whose services are satisfactory will be allowed the increase of $20 a month granted by Congress. Full information and application blanks may be obtained from the Civil Service Commission at Washington, or from the local postoffice.

Mrs. M. Shipstead of this city left Wednesday afternoon for Fargo, N. D., where she will visit indefinitely with friends and relatives.

# SALESMEN CITE COX'S ATTACK

GOVERNOR'S PAPERS PRINTED EDITORIALS IN 1914 CALLING TRAVELING MEN NUISANCE.

Slighting remarks about traveling salesmen made in the two newspapers owned and managed by Governor James M. Cox of Ohio a few years ago are being quoted to the governor's political injury. W. R. Mackenzie, formerly of Minneapolis, but now a lumber salesman at Detroit, Mich., is in the city today and is showing friends the Cox editorial now being circulated by the Ohio republican state committee for a special atention of salesmen.

Salesmen in Ohio have heard about the article before, and it is said to have played some part in state campaigns. It appeared Aug. 15, 1914, in the Dayton Daily News, and was reproduced in Governor Cox's other newspaper, the Springfield News.

"The art of salesmanship," it said, "is a good deal of a nuisance to the public. It has come to the point where every business of any magnitude must employ a purchasing agent whose time is largely wasted by men who want to sell him something, and from whom he has no intention of buying. Yet he must treat them courteously and listen to long rigmaroles in which he is not the least interested.

"If there is no purchasing agent, somebody else has to submit to innumerable interruptions of salesmen who are unmitigated bores. If a man would exercise the first impulses of his heart, he would kick them out of his office if they did not take the first hint. That the salesman escapes with a whole skin in every instance speaks volumes for the good nature of the long suffering businessman."

The article went on to condemn "peddlers" and other agents as similar taxes on the time of busy people, and declared a large percentage of "those persons engaged in salesmanship" ought to be "transferred to the producing end of the industry."

Traveling salesmen, Mr. Mackenzie said today, naturally resent these strictures against them, and against their usefulness in society. He recalled the part played by traveling men in the election of William McKinley as president and of John A. Johnson as governor of Minnesota in 1904, to show that the political influence of traveling salesmen is no mean factor when it is turned in a definite direction.

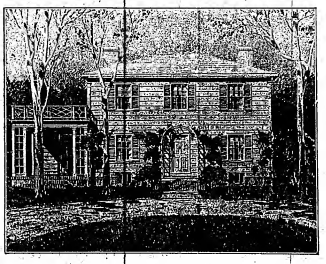
## BUILDING YOUR WEALTH

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amount grows till each addition is a respectable sum.

Where does the gain come from? Not from your pocket. Nor from ours. It is the result of production. Money placed in a bank is given an opportunity to work and to produce.

Thus a bank builds your wealth.



Start with a small deposit if you will. Add to it when you can—regularly if you can do so. It will not be long till you can fairly see it grow.

# Do You Know Who Pays for Your Advertising ?

Did you know that intelligent and judicious advertising doesn't cost the man who pays the bill a cent? Well, then, who DOES pay for the Advertising if the merchant himself doesn't?

The unwise patrons of the store that is NOT advertised are the persons who pay for advrtising.

By advertising, a merchant increases his turn-overs and sells four or five times as much merchandise as he would if he didn't advertise. The real cost of selling that merchandise is reduced with each turn-over. Thus, the amount he invested in Advertising comes back to him and he is enabled to do business on a closer margin of profit on each turn-over than the merchant who doesn't use Advertising to increase the volume of his business.

So, after all, the merchant who advertises doesn't pay for his advertisemnts; neither do his customrs. It's the patrons of the UNADVERTISED store who pay for them.

## THE TRIBUNE

TWICE-A-WEEK

"Your Money's Worth In Local Advertising"

## "The New Public Health"

*Conducted by the Minnesota Public Health Association*

Question—At a baby clinic we had in our town this week, the doctor took some blood from my child to "test." What did he want it for? He didn't tell me anything about it.

Answer—Blood tests of different kinds are made for so many different diseases these days that it would be quite impossible to guess what particular disease the doctor had in mind. Perhaps he had no special disease in mind, but simply wished to leave no point uncovered. A thorough test of physical condition should include tests of the blood and urine as a routine matter. A few of the numerous diseases which affect the blood in such a way as to make a blood test valuable in detecting the disease are various kinds of anemia, typhoid fever, syphilis, many general infections, leukemia, etc., while in almost every disease blood tests are valuable as indicating how the patient is progressing. The different kinds of ways of testing the blood and the various reasons for using them are almost innumerable.

Question—We have a neighbor who has a boy, about six years old, with terribly bowed legs. Is there anything that can be done to help him?

Answer—Bowed legs are sometimes inherited but generally they are due to some weakness of the bones, perhaps more often to rickets, than to anything else. Rickets is a matter of improper feeding—not always insufficient food, but lacking just certain things. Better have the child examined carefully and do whatever is possible for him before it is too late to get his legs straight.

### Work of the American Legion.

Duluth, Minn., Aug. 17—Amendments to the Soldier Bonus act passed by the last state legislature, which are intended to relieve the present stringency and provide reimbursement for service men who have not received their bonus checks, were recommended late yesterday at the state convention of The American Legion, in the annual report of A. A. Van Dyke, of St. Paul, chairman of the Legislative Committee.

Mr. Van Dyke suggested "that a resolution be adopted memorializing the next session of the legislature to pass an amendment to the bonus bill, as follows:

"First—Making the cash bonus payable without affecting the right of the beneficiary to the full advantage of the original tuition act.

"Second—Authorizing the needed changes in interest and methods of selling bonds, so that money may be raised to complete the bonus issue.

"Third—That interest be paid to men who have not received their bonuses to the amount of their bonus; so that men who have had to borrow to get them through the emergency and will have to use most of their bonus to pay back, will not be penalized for the non-payment of the bonus."

Chairman Van Dyke reviewed the activities of the legislative committee at the last session of the legislature, commenting upon measures which were submitted for enactment but which will not be acted upon until the next session. Regarding these, the report says:

"We suggest that the subject matter of the files now pending, be reviewed and pushed at the next general session by the new legislative committee and that a committee on education be appointed to confer with the state superintendent for the purpose of framing a bill along the lines desired."

The latter reference was to the resolution providing for the teaching of civics and American history in all schools and for a uniform system of physical training in grade and high schools. Another bill provides for display of the American flag over all school buildings and in all class rooms during each school day and on all national holidays.

Chairman Van Dyke, in the report, commented upon the splendid co-operation which the committee received from W. A. Curtis, of St. Paul, Loren B. Roberts of Minneapolis, General Rhinow, Rep. Guy Dilley and others.

### A Peculiar Fire.

H. V. Carlson had a fire out at his farm Monday that came near resulting in serious loss. He had his car standing in the shade o this granary. He had not been using it all day and was just putting the canvas on the binder preparatory to going out in the field when they noticed smoke at the granary. He rushed over there and found the car a mass of flames and the granary wall burning lustily. With the aid of his wife and the children he got buckets of water and managed to put out the blaze before the gasoline was ignited. The entire top was destroyed, all the cushions and most of the inside woodwork of the car. Several holes were burned in the granary. How the fire started is a mystery as no one had been near it all forenoon. It is thot the hot sun might have in some way started it.—Karlstad Advocate.

### UNDERTAKERS NOT OPPOSED TO NEW LIFE PRESERVER

Thousands of people are daily sidestepping the grave by taking Sto-Li-Gal, a combination treatment of capsules and tablets, that will give permanent relief in Gall-stones, Stomach Ulcers, Chronic Appendicitis, Torpid Lazy Liver, Dyspepsia, Gassy Sour Stomach, Pains in Stomach and Back, Tiredness, Chronic Constipation, etc. Sto-Li-Gal will positively correct the above ailments regardless of age or duration of trouble if directions are followed. LA PORTE WORKS — ADVANCE-RUMELY COMPANY INC — LA PORTE IND.

The Best of 80 Years Experience in this New Small Ideal

THE accumulated manufacturing experience of over three-quarters of a century—and the judgment of over 20,000 Ideal owners—is back of the new, small 22 x 36 Ideal Thresher.

You know the record and reputation of the larger sizes of the Ideal—there's no farming community that hasn't its Ideal outfits with their satisfied customers. When we were called upon to build a smaller size separator, we didn't just "turn one out"—we built along the same lines as the Ideal, determined that our small threshers would be leaders in their class just as are the larger.

So in the small as well as the larger Ideals you will find those features that mean the difference between a "sure" and a "guesswork" job. Ideal thresher owners will tell you that.

Bunching, or cylinder winding is unknown in the Ideal—because the Ideal is designed on the principle of *a steady, even flow of straw through the machine* from the time it enters the cylinder until, free from all grain, it leaves through the stacker.

First of all, we placed the Ideal grates exactly right in relation to the cylinder. Then we designed the Ideal travelling slatted rake to take the straw from the cylinder and carry it to the straw rack. Result—more grain surface and a steady even flow of straw, making choking impossible.

Shaking alone wasn't a guarantee of complete separation, so we put sets of lifting fingers on the straw rack, that tear the straw open—rake it—beat it from beneath. Result—complete separation and no waste.

Then, to take care of the increased capacity due to these inventions and to make the Ideal do a perfect job of cleaning, we put in extra chaffer area. The chaffer in the cleaning shoe, with the adjustable sieve and our special system of wind control, guarantee a perfect job of cleaning without waste. Result—the kind of cleaning that gets "no dockage" at the elevator.

Such construction shows why the small 22 x 36 will handle up to 900 bushels of wheat in a day's run—the 28 x 44 up to 1,500 bushels.

The Ideal is built in five sizes—22 x 36, 28 x 44, 32 x 48, 32 x 52 and 36 x 60—standard in design and construction, and meeting all needs, from the man who owns his own power and wants to do his own threshing, to the custom thresher.

There's an Ideal in your neighborhood.

*The guaranteed oil-burning, oil-cooled OilPull Tractor is built in sizes to fit every size Ideal.*

THE AMERICAN PRESS ASSOCIATION

Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

## ADDING INJURY TO INSULT.

Because postmen have scrupulously kept out of politics in the past the Government pays them about half what they earn.

When they and their friends point out that their wages are pitifully inadequate to their ability and equally inadequate to their needs they are given an advance of a few dollars a year.

And now, when a Presidential campaign is on, they are sternly forbidden to take any part in politics whatever.

No more arrogant, no more un-American order than this has ever been issued by a department official.

Postmen, like Cabinet officers, are citizens and presumably have the right of citizens to vote according to their own interests.

The Postmaster - General from whose office this impudent order was issued, is the busiest politician in the Cabinet.

He has just returned from San Francisco, where he worked eighteen hours a day in the interests of a candidate for the Democratic nomination for the Presidency. His candidate, incidentally, was defeated.

He has been, since his incumbency of his office, in politics constantly, and unless he experiences an amazing change of heart he will be in politics through the entire campaign.

Yet this gentleman, who is as much an employe of the Post Office Department as any letter carrier, brazenly forbids any men under him to engage in politics. And every letter carrier knows that a violation of this order is extremely likely to cost him his job.

Of course, if the policy of the administration and of Congress toward the postmen is continued, most of them will quit their places anyway, so the order is not as much of a hardship as it looks.

It is nevertheless an unwarranted meddling with the rights of a citizen, who, unable to get justice from one administration, naturally desires to do all he can to put a more efficient administration in office.

We do not know to what extent it will be obeyed. But that is beside the point. The order itself is the sort of order that might well be issued by an absolute monarchy, but which should not be tolerated in a republic.

If postmen in the past had been as active in politics as Cabinet officers they would not now need to ask outside help to get them living wages from the Government.

## LABOR AND AMENDMENT NO. 1

Whatever question may have been raised in isolated instances of the attitude of labor toward Amendment No. 1—the Babcock good roads plan—that question has been definitely disposed of by recent action of official labor bodies.

The first official action was taken at a meeting of the executive council of the Minnesota State Federation of labor at which unanimous approval was given the good roads amendment. Next the state convention of the Working People's Nonpartisan Political league at Rochester indorsed the amendment with the reservation that no bonds be issued by the state in the carrying out of the plan. And the convention of the State Federation of Labor at Rochester took similar action.

As to the matter of bond issue it is exceedingly unlikely that any such issue ever will be needed or authorized. The bond issuing power is given the Legislature in the amendment largely because at the time it was written the authors had not foreseen how much revenue could be raised by automobile license tax to pay for operations without a bond issue. Since then conditions have changed. The amendment requires that any bonds issued under the law shall not be sold below par and shall not bear interest over 5 per cent. Of course it would be impossible now or in the very near future to sell a penny's worth of bonds on these terms. It is estimated that with 300,000 motor vehicles in the state by next year $5,400,000 could be collected from license fees and $2,800,000 from Federal aid making a total of $8,200,000. It was never intended to spend more than $10,000,000 on the plan in any single year, and the road materials may be so difficult to obtain next year that it will be impossible to spend the $8,200,000 cash available. On each succeeding year there would be more machines to be taxed. Moreover, the legislature is not limited to the average of $18 per machine on which the above calculation is made.

Labor is wise in indorsing this amendment, furthermore, because all but an insignificant percentage of the money to be spent will go to labor. Labor will manufacture the cement, quarry the rock and prepare it and manufacture the machinery to be used besides laying the road itself. Labor is a consumer of food the marketing of which will be cheapened and facilitated by good roads. And labor is an extensive owner and user of automobiles. Is there any possible reason why enlightened labor should be against this amendment?

## DEMOCRATS VERSUS SOLDIERS.

(Chicago Daily Tribune)

It was not necessary for the Democrats in their platform openly to insult the men who fought in France while the slackers and draft dodgers in that convention were profiteering. The soldiers already knew that the Democratic party was hostile to them, that it neglected their welfare while enriching that section of the country in which it dominates.

If the soldiers are not aware of the fact that the war revenue bill could not be passed until pork was provided for Virginia in the form of training camps and munition factories, they all know that soldiers paid $1 a day were compelled by the Wilson administration to work on Virginia roads side by side with other laborers receiving $5 a day.

The soldiers know that the Democrats made Congressman Dent chairman of the committee on military affairs, and that Dent exercised the full power of his position to prevent reinforcements being sent to our hard pressed battle line.

The soldiers know that the Germans held command of the air while six hundred million dollars was being squandered for the benefit of those close to the war department.

The soldiers know that the Democratic states did not furnish volunteers for the war. They know also that the draft law was manipulated by the Democratic administration to spare the southern states from furnishing their quotas of troops.

They know that boys from Illinois and Indiana were sent south to fill up the divisions accredited to the Democratic states.

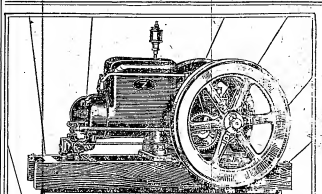
They know that the Democrats had millions for camp builders, ship builders, contractors, airplane promoters, conscientious objectors and slackers, and that economy only entered the Democratic head to oppose the payment to defenders of their country of a small percentage of the sums lavished on stay at homes.

It did not take the insulting words to show Democratic hostility to American soldiers.

---

Opinions may differ as to conducting a circus or running a Presidential campaign from a front porch, but there can't be any dispute that it is more fitting in politics for one seeking the people's demand to make a listning-post of his home than a hitching-post of the home of another.

---



Europe managed to get most of the world's supply of sugar, but it did not get enough to preserve peace.

---

If Candidate Cox puts the soft pedal on the Covenant of the League of Nations there will be a loud crescendo and basso profundo from the White House.

---

Senator Harding refuses to give his assistance to the release of those so-called "citizens" who are imprisoned for obstructing the draft, and giving aid to the enemy. Real patriots will applaud.

TYPE and pictures can only suggest the value of the Fairbanks-Morse "Z" Engine. To realize what an example of master engine-building it is, you must see it.

We have a "Z" on our floor and we are always glad to explain its many features. Let us tell you why we selected the "Z" from among all other engines. You will select it, too, for the same reasons.

We will tell you about our service also. A nearby Bosch Magneto Service Station helps to make it complete.

## SOCIETY

### Birthday Party.

In honor of her fifth birthday, Miss Janet Connell entertained six of her friends at her home Friday afternoon. The afternoon was pleasantly spent in playing games and at five light refreshments were served. Little Miss Connell received many pretty gifts as remembrances of the occasion. The guests were Helen Johnson, Jane Protsellar, Rosine Dahlen, Alice Larsen, Jean Mellby and Marjorie Fuller.

### Roseland-Linestad.

Louis Roseland and Miss Minnie Linestad were united in marriage at the Zion Lutheran parsonage Wednesday afternoon at two o'clock. The bridal couple was attended by Arne and Myrtle Roseland brother and sister of the groom. Rev. George Larson read the ceremony. The bride is well known in this city and her many friends extend their hearty congratulations.

### In Honor of Mrs. N. J. Wilson.

Mrs. J. Q. Cronkhite pleasantly entertained a number of ladies at her home on Markley avenue last Tuesday afternoon. The time was spent in needlework and conversation and at five-thirty delicious refreshments were served. Those having the pleasure of the afternoon were Mesdames N. J. Wilson of St. Paul, N. C. Crandall, R. C. Crandall, J. P. Curtis, D. J. Dosey, M. Alberg, Geo. Nickelson and A. Botteilson.

### Entertains.

Mrs. R. C. Crandall informally entertained a number of her friends at her home Wednesday afternoon in honor of her mother-in-law who is visiting here and resides in California. The chief diversion of the afternoon was conversation and at five refreshments were served. A delightful time is reported by all.

### Lawn Party.

Misses Florence Alberg and Zella Zeh pleasantly entertained at the home of the latter Saturday afternoon. Needlework was the chief diversion of the afternoon. At five o'clock a delicious supper was served. Those attending were Misses Meta Kiland, Avis Akre, Blanche Johnson, Marie Nelson, Doris Halvorson, Ella and Marion Miller, Goldie Stebbins, Mydge Prichard, Myrtle Berg, Lucille and Evangeline Burns and Mildred Jacobson of St. Paul.

### MORTGAGE FORECLOSURE SALE

Notice is hereby given that default has been made in the conditions of a mortgage dated by Bert O. Roseland and Bella Roseland, his wife, to the Citizens State Bank of Hazel, (A corporation under the laws of the State of Minnesota), Mortgagee, dated the 2nd day of December, 1916, and recorded in the office of the Register of Deeds of Pennington County, Minnesota, on the 5th day of December, 1916, at eight o'clock A. M. in Book Fifty-eight (58), of Mortgages, on page One Hundred Thirty-four (134), thereof. That the said Citizens State Bank of Hazel has paid the taxes assessed against the premises described in said mortgage for the years 1916, 1917, 1918, and 1919, amounting in all to Two Hundred Ninety-six Dollars, Forty-nine Cents ($296.49). That the amount claimed to be due on said mortgage at this time, including said taxes, is One Thousand Two Hundred Sixty-four Dollars Eighty-two Cents ($1,264.82). That the premises described in and covered by said mortgage are situated in Pennington County, Minnesota, and described as follows, to-wit: Lots Two (2), Three (3), and Four (4), of Section Three (3), in Township One Hundred Fifty-two (152), North of Range Forty-one (41), West of the Fifth Principal Meridian, containing One Hundred Forty-five and Fifty-one Hundredths acres, (145.51), more or less, according to the Government survey thereof; that by virtue of the power of sale contained in said mortgage, pursuant to the statutes in such case made and provided, said mortgage will be foreclosed by the sale of said premises, at public vendue, to the highest bidder, for cash, by the Sheriff of Pennington County, Minnesota, at the East front door of the Pennington County Court House, in the City of Thief River Falls, Pennington County, Minnesota, on the 11th day of September, A. D. 1920, at ten o'clock A. M. of that day, to satisfy the amount then due on said mortgage, including said taxes, together with the costs of such and Seventy-five Dollars ($75.00) Attorney's fees, stipulated in said mortgage and fixed by law.

Dated this 24th day of July 1920.

Citizens State Bank of Hazel,
Mortgagee.
By Theo. Quale,
Its Attorney.

Theodore Quale,
Thief River Falls, Minnesota,
Attorney for Mortgagee.

Michalek, Mr. Tony
Michalek, Mr. Anthony

When calling for the above letters please state that they were advertised.

John Morgan, P. M.

### Potter Now Heads State Farm Bureau Federation

L. E. Potter of Springfield was elected president of the Minnesota Farm Bureau Federation at a meeting recently held in the offices of Secretary F. L. French of Duluth. Farm. T. E. Cashman of Owatonna and F. W. Murphy of Wheaton.

Secretary French reports that 15 county associations have consigned wool to the National Wool Warehouse & Storage company at Chicago which will hold the product until a fair price can be obtained for the grower. From 300,000 to 350,000 lbs. have been consigned from Minnesota. Other consignments are being received daily.

When you advertise you go half way. There's a meeting place for the seller and the buyer of real estate. This meeting place is in the classified advertising columns of this paper. The owner is represented by his advertisement. The prospective buyer turns to these columns—and if the ad enlists his interst the transaction is under way.

## ROSEWOOD

A Farmers' club meeting, the first this season was held at Rosebank last Saturday evening, but owing to various social doings in the nearby towns the same evening the public was somewhat split and only about twenty-five persons attended. Most of those present were young people and a very enjoyable social evening was spent at indoor games and frolic. Lunch and lemonade was served before closing and everybody left at midnight. No attempt was made to re-organize and no definite date was set for next meeting, which however will be held some time next month.

Services in the Norwegian language was held at the Rindal church last Sunday afternoon, Rev. G. Larson of Thief River Falls officiating. The monthly meeting of the Ladies' Aid of the same church was held at the home of Mrs. M. Jarsaw last Tuesday afternoon and was one of the largest attended meetings in the history of the organization. The same evening the young Peoples' society had their meeting at the church but was not very successful on account of the rainy weather. Rev. Larson returned home in the afternoon and the Y. P. S. was conducted by the home officers.

Word has been received from Mr. and Mrs. Vorseth, who left on Aug. 2 by car for a month's vacation in Iowa that they arrived safely in Waterville where they will remain until August 25. The journey was a pleasant one save for a few minor troubles. The party is in the best of health and they expect to be back about the first week in September.

J. E. Thompson of Gully has been appointed agent for the Hanson and Barzen interests in this village and came here to take charge last Saturday.

Mr. and Mrs. A. S. Holm left last Saturday for a day's stay with Mr. Holm's parents at Twin Valley. They returned on Sunday evening and were accompanied by Miss Anna Holm, a sister of Mr. Holm, who will visit here for a week.

Mr. and Mrs. Oscar Blomberg and family of Crookston were in town last Sunday as guests of Mr. and Mrs. Emil Blomberg.

Mr. and Mrs. John Sagmoen, Gladys, Verna and Glenn Sagmoen and Joel Shoberg spent Sunday on an auto tour to Crookston and Gentley.

Miss Nina Westby left on Monday evening for Goodridge where she will visit with her brother Martin and other friends for a week.

Mr. and Mrs. Melvin Pedersen returned home from North Dakota where they have been employed, last Monday and will spend some time with Mrs. Pedersen's parents, Mr. and Mrs. Ole Hall, near Anita.

Olaf Hall who is employed at Argyle, spent Sunday with his parents here.

A home party in honor of aged Mrs. S. Nordhagen, was arranged at her home south of town by her children last Sunday afternoon. All her children residing near here were present as well as several intimate neighbors.

Miss Olga Thoreson, who has been employed at Thief River Falls all summer, arrived home last week for a visit with her parents.

Mrs. James Johnson and son Earl of Thief River Falls spent Friday visiting at the John Hellquist home, returning home the same evening.

Henry Sagmoen and Dave Mosbeck will leave on Monday for the harvest fields of North Dakota where they will seek employment.

Victor Mosbeck will leave the first of this week with his horses for Wylie, where he will plow and seed to winter rye about 20 acres on his farm.

Martin Jarsaw will thresh in this neighborhood this year and the intention is to have the farmers join hands and do a shock threshing run. Olof Nordhagen will thresh south of town and has already commenced on some winter rye. The best yield reported so far is from one grain load of winter rye from the Mosbeck Bros. farm, which netted 243 bushels. Oats seem to run satisfactorily. The Soderberg-Bottleson rig has commenced working in the Aug. Johnson vicinity.

Carl Bloom and Thom Holten have secured shares in the Viking telephone company and are building a line from their farms to connect with the main line thru the town.

Sven Svenson spent last week on real estate affairs at Newfolden and various other places.

John Remmen left the first of the week for Thief River Falls where he will spend some time as guest of his brother, A. B. Remmen. His store and filling station is in charge of Lloyd Almes of Thief River Falls.

Misses Gladys, Olivia and Geneva Svenson returned last week from Thief River Falls where they have been visiting with the Brandon and Berg families since the fair.

Howard Carlson returned to Duluth last week after visiting for a few days with relatives here.

Olof Opseth left last Tuesday for Grafton, N. D., where he will be employed this fall.

Gust Opseth left the first of the week with his Oil Pull threshing outfit for Radium, near which place he will do a threshing run this fall.

## VIKING

Mrs. Oscar Gustafson left for Middle River last week where she will visit for an indefinite time.

Norwegian services were held in the Lutheran church Sunday afternoon and English services were held in the evening. Rev. Brekke conducted both sermons. The choir assisted with a few well rendered songs.

G. F. Peterson and children, of Warren and Rneben Anderson of Rockford, Ill., visited at Frank Anderson's Sunday afternoon.

Miss Hilda Larson and brother Alfred, left for Fergus Falls, Minn. last Saturday evening where Alfred expects to be employed during threshing.

The Chas. Styrlund family and Mr. and Mrs. Chas. Lindquist, visited at Axel Anderson's in Newfolden on Sunday.

The Ladies' Aid of the Norwegian church held an ice cream social in the I. O. O. F. hall Saturday evening.

Henry Sustad, the Farmers' Shipping Association manager, left for the cities Saturday with four carloads of stock.

Several of the Vikingites autoed to Warren Sunday evening to attend the services at the Swedish Mission church conducted by student Segerstrom.

Henry Anderson and family of Warren were Viking callers Sunday.

The Viking ball team is growing in popularity. Last Sunday a fast game was played at Marshgrove, resulting in a score of 5 to 11 in favor of Viking. Next Sunday Viking plays Helgeland at the latter's place.

Mrs. Roberts and Misses Laura and Inez Campbell of Minneapolis, are visiting with their relatives at this place.

Ole Mebust left for Warren Monday with his grain threshing outfit where he will soon commence threshing.

Dr. and Mrs. Lindquist returned from the cities last week.

Arthur Anderson left for a point in North Dakota this week where he will take charge of an elevator.

Raymond Styrlund gave a birthday party last Saturday in honor of his ninth birthday.

## ST. HILAIRE

Miss Ragna Loberg returned this week from a visit of several weeks with relatives at Anoka and Minneapolis, while receiving medical treatment at the latter place.

The M. Fricker family left Friday on an auto tour to Brainard, where they intend to spend about a week.

Miss Olga Bjerke of Minneapolis arrived Saturday for a ten days' visit at the Carl Johnson home.

A number of little people helped Gladys Seaverson celebrate her sixth birthday, Saturday afternoon.

Mrs. B. E. Burkee left Saturday for Litchfield for a visit at the home of her daughter, Mrs. Glenn Martz.

Messrs. Chas. Bengston, P. Burstad, Henry Gunstad and A. Bilden returned Saturday night from Crookston where they have been employed at carpenter work.

The A. Seaverson and H. Ortloff families and Mrs. Paul Ortloff, were Sunday guests at the N. Schalz home northeast of the village.

Elmer Sandberg came Monday from Eveleth to spend a couple of weeks visiting at the home of his grandfather, A. Normander and with friends in the village.

Miss Lilly Johnson and her guest, Miss Esther Bjerke, returned Monday evening via Thief River Falls from a ten day visit at Fosston.

Miss Gladys Sherva and Carl Nelson were quietly married at Thief River Falls, Saturday, Aug. 7th. Their many friends in the community were completely surprised, no announcement being made for a few days. Both young people are well known and highly respected and a large circle of friends extend congratulations and wish them a happy and successful journey through life.

The D. McAllister family moved their household goods to Grand Forks and will make their home in that city, where Mr. McAllister is employed. The their departure is viewed with regret by the townspeople among whom they have resided for a number of years, it is hoped that they will meet with success in their new place of residence.

After having spent a few weeks with relatives and friends in this community, since his return from the west, Ed. Carlson left Wednesday for Eveleth.

The Carl Johnson residence on Minnesota avenue was wired for electricity this week.

E. T. Gestie, accompanied by Miss Esther Bjerke, motored to Crookston Wednesday evening; the latter to board the G. N. train enroute to her home at Minneapolis and the former enroute on his regular tour thru his territory.

### Red Lake People Satisfied.

Dr. Kessler, superintendent of the Sunnyrest Sanitorium for Tuberculosis at Crookston in speaking of general health matters in this part of the state, stated that in his opinion better ends would have been attained had Red Lake county joined with Polk and Norman counties in the maintenance and use of a sanitarium rather than with Pennington, Marshall and Roseau counties, as was done recently, as this had the effect of barring Kittson county from joining with any other county or counties as four is the highest number that may unite according to the law under which joint sanitariums are maintained. The doctor may be correct, but he is somewhat late in his suggestion. No doubt if he had offered as good a proposition as Dr. Milan of the Thief River Falls sanitarium offered to the Red Lake county board, and had offered it first, the Red Lake board would have taken him up. But as far as Red Lake county is concerned we are satisfied with the present arrangement.—Red Lake Falls Gazette.

### Real Progress Made at Waseca Station.

A report of the Southeast Demonstration Farm and Experiment station at Waseca for 1919 by R. E. Hodgson, superintendent, shows that this new project is achieving results. The farm gave a total production for the year o f$22,390.92, or considerably more than the production of most farms of the size. The total receipts from cattle amounted to $8,210.36. Hogs were the most profitable livestock kept on the farm; total sales amounted to $4,437.11. Copies of the report may be had without charge from the Office of Publications, University Farm, St. Paul, Minn.

Harry E. Ives, formerly clerk of court in Pennington county is now traveling field representative of the state board of control.

Mrs. J. Karbowski, who spent the past month in this city as a guest at the R. C. Rupprecht home, returned to her home in Minneapolis on Monday evening.

Miss Bernadette Deary returned to her home in Plummer, after spending the week-end with friends and relatives in this city.

W. J. Brown, who has spent the past ten days at Union Lake, returned to this city on Monday.

Mrs. Tilda Wessos and Mrs. O. Tellefson returned to their respective homes in Northfield, Minn., after spending a month in this city visiting with friends and relatives.

Mrs. C. M. Gillette, accompanied by Mrs. A. H. Erickson of this city, left Monday evening for Grand Forks where they will spend a brief period visiting with relatives.

Can corn now or you will be too late. Phone 102, Thief River Greenhouse.

Miss Clara Bakken who has been spending her vacation in this city returned to Minneapolis on Monday evening to resume her duties there.

Miss Ella Gran, accompanied by Miss Bernice Anderson of Fargo, N. D., who has been visiting in this city for the past week, left Monday evening for Minneapolis, where they will visit with friends for an indefinite period.

Alfred Bjerken, who has been spending his vacation with friends in Holt, visited between trains in this city enroutet to his home in Mahnomen on Monday.

Mrs. M. E. Baldwin of this city left on Monday evening for Battle Lake where she will spend an indefinite period visiting with friends and relatives.

Jordan Penney of this city motored to Grand Forks on Thursday to spend the day visiting with friends.

Miss Ella Evans, former principal of the local high school, was in this city for a few days during the past week, visiting friends. She will not be one of the high school faculty during the coming year.

Miss Gertie Larson, who has been in this city for the past week as the guest of Miss Anna Longren, returned to her home in Warroad on Thursday.

Miss Ann Barstad of Holt spent a few days of the past week in this city visiting with friends and relatives.

If you can find any other corn than the Golden Bantam you make a mistake. Phone 102, Thief River Greenhouse.

Mrs. C. G. Mattison of this city, accompanied by her little son, Glenn, left Thursday afternoon for Crookston, where they will visit indefinitely with Mrs. Mattison's sister, Mrs. L. S. Thompson.

Mrs. Ed. Pierson, accompanied by her daughter, Miss Eunice, returned to their home in St. Hilaire on Thursday afternoon after spending the day in this city shopping and visiting with friends.

Mr. and Mrs. H. E. Basrdson, who spent the past two weeks in this city visiting with friends and relatives, returned to their home in Enunclau, Wash., Thursday afternoon.

Miss Clarice Thompson, who has been in this city for the past week visiting with her aunt, Mrs. C. G. Mattison, returned to her home in Crookston on Thursday afternoon.

Mrs. L. M. Rolland of this city left on Thursday afternoon for Crookston where she will visit with friends and relatives.

C. G. Mattison of this city left on Friday afternoon for Crookston and will spend a week in that city. The Marshall-Wells Company of Duluth, of which Mr. Mattison is a representative will hold a display of cuttlery and holiday goods at the hotel there during the next week.

Mrs. P. S. Wilbey returned to her home in Crookston on Thursday afternoon after spending a brief period in this city visiting with her mother, Mrs. A. Trovatom.

Miss Florence Jessup arrived in this city from Baudette on Thursday afternoon and will spend a few days in this city visiting with friends.

Misses Edith and Evelyn Cornforth left on the afternoon train Thursday for Sioux Falls, S. D., where they will be employed.

Mrs. E. S. Olm and son Kenneth, left Tuesday for Fairdale, N. D., to visit for an indefinite time with relatives and friends.

Mrs. Thyra Snyder, who has been employed at Supero's, left on Tuesday morning for Warroad, where she will enjoy a week's vacation.

Ed. Brevig and C. W. Vorachek motored to Mahnomen and Twin Lakes Sunday to spend the day visiting with friends.

Miss Laura Stopple left Tuesday evening for Minneapolis on a fall buying trip. She will also visit with friends for a short period.

Mrs. Carl Tangen arrived here on Tuesday from Fairdale, N. D., and visited between trains with friends in this city.

Mrs. L. V. Kicker and four children of Baudette, visited with friends and relatives in this city on Wednesday evening enroute to Calloway, where they will spend an indefinite period visiting with Mrs. Kicker's brother.

L. A. Lampert returned to his home here on Wednesday evening, after spending a brief period in Minneapolis attending to business.

Miss Zora Rafferty arrived in this city Wednesday evening from Warren, where she has been visiting and will spend an indefinite period in this city as the guest of Miss Ruth Brown, before returning to her home in Minneapolis.

W. Korstad of Highlanding was in the city Wednesday visiting with his friends and attending to business matters.

Elsher Smith, who has been attending the American Legion convention in Duluth, arrived in this city Wednesday evening and visited with his friends for a brief period, before returning to his home at Lancaster.

Miss Olive and Anna Endel of Badger arrived in this city Wednesday afternoon and spent a brief period with friends before leaving for Plummer, where they will visit for a time.

D. P. O'Neill, formerly of this city, now of Minneapolis, was in this city Wednesday transacting business.

Miss Lola Jubb returned to her home here Monday after spending her vacation visiting with friends and relatives at Hibbing.

Miss Grace Jeweski of Overly, N. D., visited with friends here Tuesday, enroute to Plummer where she will be the guest at the Thomas Norby home for about two weeks.

Mrs. John Rhgdahl and three children returned to their home in Minneapolis Tuesday evening, after visiting here for the past ten days.

Mrs. D. J. Cordes left on Tuesday evening for Waubasha, Minn., where she will visit with friends and relatives. From there she will continue her trip to Kansas, where the family will make their future home.

O. Tessum of this city left on Tuesday evening for Minneapolis where he will spend a few days looking after business interests.

Mrs. R. C. Rupprecht left Tuesday evening for Minneapolis where she will spend a few days visiting with friends. She will also meet her sister from Sioux City, Ia., who will return with her for an indefinite visit.

Miss Ruth Quigley returned to her home in Bismarck, N. D., after spending a brief period in this city as the guest of Mrs. L. F. Fisher.

Born to Mr. and Mrs. T. Reierson, a daughter, Monday, August 16th.

T. H. Anderson, accompanied by his two sons Leigh and Forrest, motored to Grand Forks Wednesday to visit with his son Glenn, who has been seriously ill. Mrs. Anderson, who has been with Glenn during his illness, returned with him.

Mr. and Mrs. Carl Carlson and family returned to this city from Holt Wednesday morning. They have been visiting at Holt for the past two weeks.

Miss Ina Motz returned to her home here Wednesday morning to spend a few days with friends and relatives before returning to Grand Forks where she is employed.

Miss Violet Krohn, who has been in Crookston for the past three weeks as a guest at the Frank Lorne home, returned to this city Wednesday morning and will visit with friends for a short time before returning to her home in Viking.

W. J. Brown motored to Warren Wednesday and spent the day in that city attending to business matters.

Mrs. C. R. Carlson, who has been visiting with friends and relatives in Malcolm, Minn., visited with friends in this city for a few days last week enroute to her home in Crookston.

### Card of Thanks.

We wish to express our sincere thanks to all those who so kindly assisted us during the illness and after the death of our beloved son and brother, Alvin. We also desire to extend our sincere thanks to the contributors of the beautiful floral offerings.

Mrs. Julia Tandberg and family.

Congress did a good job when it cut down the appropriations for State Department cables from Europe over $300,000 since June 30. Too much Europe is nauseating. Give us a large dose of America and note the result.

VOL. 20 No. 48 THIEF RIVER FALLS, MINNESOTA, TUESDAY, AUGUST 24, 1920 Official Paper of Pennington County

## NEW FILTERING PLANT FOR CITY IS COUNCILS' AIM

STEPS TO BE TAKEN SOON TO IMPROVE CITY WATER SUPPLY.

The city council plan one improvement that should meet with the entire approval of every citizen of the city and one which means more to the city than anything that has come up for consideration for some time past.

The improvement is to install a filtering plant to make the water of the city pure for all purposes and while this will entail the expenditure of $35,000 or possibly more, the money could not be spent for a better purpose and could not be spent in such a way that it would benefit the city alike in the results obtained.

The presents system is inadequate for the present needs of Thief River Falls and the council realizes that this step must be taken in the near future and accordingly are ready to push the project thru at this time, with the hope of installing an up-to-date filtering plant and thus putting the city water system on a par with the best in the state.

A few years ago his system could have been installed for less than half of what it costs at this time but in view of the fact that it has been delayed will cost the city many times more what it would have cost originally, both financially and otherwise. It is to be hoped that every citizen will see the importance of installing the filtering system and will lend their aid in this project and help put it across. It is one of the really important matters that should receive serious consideration by all and it certainly is a step in the right direction for all time to come. Get behind the filtering plant and boost it along. It is one of the big things incidental to the city's growth and means millions in health and comfort in years to come.

## ELKS PICNIC NEXT SUNDAY PROMISES MUCH

COMMITTEES IN CHARGE ANNOUNCE THIS TO BE BEST ONE YET.

One of the big events of the year will be the Elks' picnic to be held at Squaw Point next Sunday. The picnic will start at 10 a. m. and will continue until 4 p. m. Free busses will be at the corner of the Evelyn hotel from 9:30 to 1 p. m., to carry passengers back and forth, which will make it much more enjoyable and will be taken advantage of by a great many people.

These picnics of the local order, which are annual, are of a high character and greatly enjoyed by everyone. They are held each year for the express purpose of getting the people together and creating a friendly spirit towards each other, and in this they succeed admirably.

There will be amusements for old and young and everyone will be given an opportunity to show his or her skill in various ways. The entertainment committee announce they have arrranged a program of races and amusements that are certain to please all. They will start the program shortly after the dinner, which is to be served at 12:30 sharp, and will continue the program until four p. m. At that hour the big automobile races at the fair grounds will start and lovers of the exciting will be given an opportunity to take in these races.

The committee on refreshments, which includes the dinner, is headed by L. H. DeCremer, and all who know of "Loule's" skill in this line are certain there will be nothing wanting and that everyone present will be given all he can handle and then some.

This year's picnic, with good weather, promises to be the leader of them all, and it is confidently expected that there will be the largest attendance so far enjoyed by any of these annual gatherings.

America has a whole lot of sympathy for Poland, but is it not about time for America to have a little sympathy for itself?

### Likes the Country.

J. O. E. Johnson of Northwood, Ia., spent the day Friday visiting friends in the city. Mr. Johnson is one of the leading young business men in Northwood. He came to visit, sold a farm and looked at several tracts with a view of buying more. He has been handling land here for many years but admits he never fully knew the country before—says it is better than he thought. He was highly pleased with our crops. Complimented us on the improved appearance of both country and city. Sold a farm, subscribed for The Tribune, took home a Sweet Clover pamphlet and felt fine. Pennington county is all right, when it is properly spread before them they cannot resist it.

### Revival Meetings.

Revival meetings now on at the Pentecostal Mission under First & Peoples' State Bank. Evang. Frank Lindblad from Portland, Oregon will be in charge of this campaign. Special songs and music by Mr. and Mrs. Arthur Berg, missionaries to Africa. Come taste and see that the Lord is good. Two meetings daily. Three meetings Sunday.

## MOTOR RACES NEXT SUNDAY FULL OF THRILL

FAST CARS AND SKILLED DRIVERS ARE SECURED FOR BIG RACE MEET.

Sunday, starting at four p. m., and lasting until eight p. m., the people of this vicinity will be given an opportunity to attend a regular race meet, in which a number of skilled drivers and riders from all sections of the country will participate.

The races are to be under the auspices of the local post of the American Legion and a number of excellent entries have been booked. Some of the cars that are to be here for the meet, are making mighty fast records of half mile tracks, and the motor meet at Crookston on Sunday last, in which many of the cars for the local meet participated, was one full of thrills and speed.

Automobiles will head the list, followed with motorcycle races and the big feature of the meet will be a race between an airplane, automobile and motorcycle.

The ball post have been fortunate in getting Dewey Kiewel of Crookston to enter the race, and it is assured that he will throw considerable pep into the meet as he is a daring driver and goes out to win. His performance at the Crookston meet last Sunday was hair raising and his skill in handling the racer was one of the big features of the meet. Several others have also been listed for the meet, as will be seen from the entries below.

The Post hope for a good attendance, sufficient at least to make expenses. The public have been mighty slow in the past in lending their support to any of the legion programs and as a result they have run behind financially, which should not be. The Post does not want to get rich off this one program, but will be pleased at least to make expenses. Get ready for the race meet Sunday, tell your friends, and be there. The list below shows the entries and gives an idea of the excellent program to be carried out:

Automobile, 3 mile, 5 mile, 7 mile Entries

Joe Morris, Jowett Special, Bemidji, Minn.

Gus Forseth, Ford Special, Grand Forks, N. D.

Norman Bartlett, 16 Valve Ford, Winnipeg, Man.

Dewey Kiewel, Overland, Crookston, Minn.

James Balfour, 16 Valve Ford, Hallock, Minn.

Erling Gerdts, Ford Special, Duluth, Minn.

Motorcycle, 3 mile, 5 mile, 7 mile Entries

Allan A. McKinnon, Harley Davidson, Hibbing, Minn.

Dewey Kiewel, Harley Davidson, Crookston, Minn.

Speed Johnson, Excelsior, Fargo, N. D.

Erling Gerdts, Harley Davidson, Duluth, Minn.

J. Stolpe, Henderson Special, Winnipeg, Man.

Norman Bartlett, Harley Davidson, Winnipeg, Minn.

S. Auckland, Indian, Winnipeg, Man.

## PROSPECTS FOR PAVING THIS FALL DOUBTFUL

CITY OFFICIALS SEEM TO BE DIVIDED IN THEIR OPINION ON MATTER.

The paving question in this city still hangs in the air and apparently there will be nothing done till late this fall if at all.

Some of the city officials are under the impression that they will be able to pave a few blocks this fall, thereby holding the contracts, both on money and work. Others are rather inclined to think there will be no paving this year, and while they deplore this fact, they are forced to meet the issue as it stands and make the best of it. Mayor Bratrud, while hoping for paving this fall, looks upon the probability of securing paving this year as rather doubtful, and in his opinion, the city will be forced to meet much higher costs unless they can take advantage of the present contracts and install their paving at the present time.

The contract for the work, at $3.98 a yard, is held by many large concerns in other cities to be an extra good price, and they predict that another price this low will not be had for several years to come. The present contract holds until December first of this year, and if by that time the city has not started to pave, the contract is void, and to pave in the future the city must again advertise for bids and take the best that is offered, which it is felt, will be much higher than the present bid.

A few of the council look upon the matter with a great deal of optimism and feel that they will be able to secure the money as soon as the supreme court hands down its decision in September. If such is the case it is the intention to pave a few blocks before cold weather sets in in order to hold both contracts. The next thirty days will tell the tale and will decide for some time to come whether or not Thief River Falls is to enjoy paving.

### Taking Traffic Census.

State Highway checkers are busy in the immediate vicinity of Thief River Falls, taking what is called the traffic census over the principal highways in and around this city. The purpose of the census is to determine the number of cars and other traffic that passes over the principal roads in a given time, and accordingly road improvements thru the state are based upon this traffic. If it is found there is considerable traffic over a given stretch of road and that the traffic is more than over other roads, that particular stretch of road will receive more in the way of improvements than the road that has less traffic. In this manner the principal highways of the state are kept in good repair and road work is done on that stretch that calls for it most, week to two weeks in each locality. The checkers usually work from a

## AN EMBARGO IN EAST IS HELD COAL SOLUTION

EVERY EFFORT IS TO BE MADE TO SEE THAT NORTHWEST GETS FUEL.

While the outlook for coal in the northwest is a bad one; and which incidentally affects all of Pennington County the same as others, there is hope that relief may be coming our way before the actual suffering sets in and the city and county forced to burn snow. The relief, it is expected, will come in the shape of an embargo on all coal for eastern ports, unless an agreement is entered into whereby all coal for eastern ports is unloaded promptly and the cars allowed to return to their proper destination and again take up their mission of hauling fuel. In this manner it is hoped the coal problem will be solved, and while it all lays in the shortage of cars, there is every possibility that the tangle may be straightened out before winter sets in and suffering takes its stand in every city and hamlet. The article below, which is an interview with the secretary of the Northwest Coal Docks, may throw some light on the subject and help to lighten the burden that now looks inevitable:

"Railroads have agreed to place an embargo on the movement of coal to Atlantic ports, except on a definite promise that the coal when it arrives at the docks, will be unloaded with reasonable promptness, according to an announcement at Washington. This will release more coal cars for the northwest, W. H. Groverman, secretary of the Northwest Coal Dock Operators' association, said today.

"Only ocean ports are affected by the order," he added, but its indirect effect will be to provide additional cars to enable the roads to carry out the order of the interestate commerce commission to dump 4,000 cars a day at Lake Erie ports.

If the roads refuse to move the cars to tidewater, those cars can be used to haul coal to lake ports. It will be of some benefit to the northwest, though it is doubtful if it will relieve the situation to any great extent."

### Recruiting Officers Hit Town.

J. H. Morganstern and K. E. Boehmer, of the Navy Recruiting Service, arrived in town this morning and have their offices located in the Commercial club rooms. They will remain here for a week and will accept recruits for the navy. A special film, showing the flight of the first plane across the country will be shown at the Lyceum theatre on Wednesday and Thursday nights of this week. The film is in connection with the work of the recruiting officers.

Mrs. L. M. Warren and daughter Gladys of Barnesville spent a few days of the past week visiting at the home of the former's brother, O. J. Erickson, of this city.

### Here Over Sunday.

Ray Pabel, O. M. Hinrichs, J. L. Magneson, C. S. Putnam and C. Press, all of Grand Forks, N. D., and connected with the J. C. Penney Stores, were here over Sunday assisting the local manager, E. W. Hinrichs, in getting the new Penney store ready for the big opening which is to take place the first of September. Mr. Putnam stayed over and will assist in the opening and may decide to stay here permanently, providing he can secure suitable living quarters.

### Here From Iowa.

C. W. Henry of Clarion, Iowa, and Wm. Roosevelt, of the same city, arrived in Thief River Falls yesterday morning to look the country over and attended to other business. Mr. Roosevelt will remain a few days, assisting in the threshing of his flax crop, which is located on his land west of the city. The flax crop is unusually fine this year and a good yield is anticipated.

## BURGLARS MAKE ATTEMPT TO ENTER STORE

LOKEN BROS. STORE VISITED BY BURGLAR—FAILS TO GAIN ENTRANCE.

Burglars are evidently considering this city their headquarters to judge by the operations they have attempted to carry on in the past few days. However, if they do not have better luck than they have enjoyed on their former attempts, they may decide this is no place for them and move on, or else discontinue their illegal practice.

The dry goods store of Loken Bros. was visited by the burglar or burglars either Saturday or Sunday night. It is impossible to say just when the attempt was made as the store was closed all day Sunday and the discovery was not made until Monday afternoon, and would not have been made then had not the door been opened for air.

The attempted entrance was made on a side door, which opens on a small alley way between the store and the building on the east. The door is located well toward the rear of the building and evidently the burglar was not molested in his operations as he succeeded in getting the outer fastenings loose and in springing the lock. Here he was stopped from gaining entrance because of a bolt that was also turned. Had it not been for this bolt he would have gained entrance to the building and no doubt would have made a successful getaway with his plunder. An attempt to gain entrance thru a window also failed.

Hall Brothers also enjoyed the distinction of being visited by a burglar the latter part of last week. The glass was removed from one of the rear windows and entrance gained in this manner. However, nothing of any consequence was taken and the matter was passed over, the conclusion being that it was some boy who had become frightened after gaining entrance and had left without taking anything.

C. Gustafson and Son also report a visit from this "gentleman" or one of similar nature. This time entrance was gained thru a side window on the north side of the building and would not have been noticed had the prowler not left muddy foot tracks on a desk that stands near the window. It was then noticed that entrance was gained thru the window and precautions were taken to see that a like occurrence did not occur again. The matter was not reported to the police as it was felt some boy had done the work and probably was scared out and would not repeat the attempt. In this they were mistaken as entrance was again attempted the second night by the same method. The precaution taken the night before stalled off this attempt and entrance could not be made by the same route.

It is thought the work is done by local parties or one thoroughly familiar with the surroundings of the places visited. The spot chosen for entrance was one that would best conceal the person attempting entrance and was also one near the articles of value. The police are on the lookout for any suspicious characters and should any drop off here he will be given a mighty good chance to leave town before an opportunity is given to do anything that does not come up to the standard as set down by the law.

## THRESHING IN COUNTY IS NOW UNDER WAY

YIELD IS GOOD AND BRIGHT PROSPECTS ARE IN STORE FOR ENTIRE COUNTY.

Harvesting in Pennington County is well under way and the yields are excellent. County Agent McCann stated this morning that rye and oats were yielding in mighty good shape and in his opinion conditions were never better in this section. Potatoes are also doing extra well and all small stuff. There is some rust in the wheat and while it is not terribly bad, it is bad enough and points out that sooner or later this section will be forced to more diversified farming. This statement is one that is being borne out by a majority of the farmers themselves, and in the opinion of many it will not be many years until this county will no longer be listed as a wheat county but one of diversified farming and stock raising.

Stock raising has taken a considerable jump in the past few years and this county is fast becoming considered one of the best in the state along this line. The success obtained by the farmers generally in this section with the raising of stock has caused their neighbors to take up stock raising with the result that this county today enjoys the distinction of having more accredited herds than any other county in the state, which record is one to be proud of and one to boast over.

County Agent McCann believes that the farmers of this county are getting into line in much better shape each year and that ere long the county over will be classed as one of the garden spots of the state. Everything is here for the production of big crops and with the proper methods applied there is no reason why this cannot be made to yield much in the way of valuable crops. The recent instalation of silos the past few months is conclusive proof of the way the wind is blowing and with these silos it is anticipated the farmers will be many times repaid in the gains made by their stock.

## BOOZE PEDDLER MAKES CITY AND DISAPPEARS

PICKED UP BY SOO LINE DETECTIVE AND MAKES IMMEDIATE GETAWAY.

Whiskey runners between this city and the Dominion of Canada are still on the job and with a slip-up now and then, the authorities are still forced to admit that liquor is still being smuggled into this country at a lively rate, the majority disappearing in short order and leaving little trace of its origin or destination.

Last Saturday evening, one of Canada's "runners" arrived in this city on the evening train and getting off started back to the freight yards, where he broke a seal on a freight car and deftly extracted two suit cases of whiskey. The Soo Line detective was notified by yard men who saw the stranger open the car, and an investigation was started. He was found later to be registered at one of the local hotels and was visited by the Soo detective. He was taken into custody and a start made for the jail. Instead of going down the main street, the Canadian pleaded that they keep to the back streets, and as soon as convenient the man pleaded illness and sat down to rest. What he did at that time is not known, or what his reason was unless he hoped to throw the attention of his guard in other directions and thus make his getaway. But in this he was not successful, and was finally landed in front of the city bastile. In lookign around for the night police the guard somehow or other got a step too far away from his man and when he turned his back the man took advantage of the opportunity to make his getaway and in jack rabbit fashion soon cleared the city limits, and for all that anyone knows in this section he is still hitting it across the prairies. And here comes the saddest part of all: none seem to know what he did with the whiskey or where it was placed.

# FOOD PRICES STILL SHOW UPWARD TREND

The cost of the 22 articles making up the retail food index carried on by the bureau of labor statistics of the United States department of labor attained a further high record in June. On June 15 the average family expenditure for these articles was two per cent higher than on May 15. The expenditure in May was two per cent higher than in April; and in April the expenditure was five per cent higher than in March. The figures show, therefore, a steady increase in the average food articles, the expenditure in June, 1920 being nine percent above the expenditure in January, 1920.

Prices of food articles are reported to the bureau of labor statistics every month by retail dealers in 51 important cities. From these prices the bureau computes a "weighted" index number weighing the price of each article by the quantity consumed in the average workingman's family. The "weighted" retail food index is necessarily limited to the articles for which have been ascertained the quantities consumed, hence only 22 articles are included. These articles, however, make up about two thirds of the entire cost of the food budget.

Since January 1919, monthly retail prices of food have been secured for 43 food articles. During the month from May 15 to June 15, 1920, the prices of 23 of the 43 food articles for which prices were obtained increased as follows: Round steak, potatoes and bananas, seven per cent each; sirloin steak and ham, six per cent each. chuck roasts and sugar, five per cent each; rib roast, four per cent; canned salmon, bread and corn meal, three per cent each; bacon and evaporated milk, two per cent each; plate beef, eggs, flour, cornflakes, macaroni, onions, canned peas, canned tomatoes and raisins, one per cent each. Cream of wheat increased less than five-tenths of one per cent.

The 14 articles which decreased in price were: Cabbage, twelve per cent; oranges, eleven per cent; butter, six per cent; pork chops, four per cent; cheese, three per cent; hens, lard and crisco, two per cent each. lamb, oleomargarine, nut margarine and baked beans, one per cent each. Tea and prunes decreased less than five-tenths of one per cent.

Prices remained unchanged for fresh milk, rolled oats, rice, navy beans, canned corn and coffee.

Changes in One Year.

During the period June, 1919, to June 1920, 31 of 43 articles for which prices were secured on both dates increased as follows: Potatoes, 171 per cent; sugar, 152 per cent; raisins 64 per cent; rolled oats, 24 per cent; bananas, 21 per cent; cream of wheat, 20 per cent; canned salmon and bread, 19 per cent each; flour and oranges, 17 per cent each; coffee, 15 per cent; prunes, 11 per cent. corn meal, 10 per cent; fresh milk and cabbage, 9 per cent; lamb, hens and macaroni, 8 per cent each; sirloin steak, 7 per cent; ham and butter, 6 per cent each; round steak and tea, 5 per cent each; crisco, 4 per cent; rib roast and oleomargarine, 3 per cent each; nut margarine and cornflakes, 2 per cent each; canned peas, one per cent. Eggs increased less than five-tenths of one per cent.

Articles which decreased in price during the year were: Onions, 28 per cent; lard, 27 per cent. plate beef, 10 per cent; bacon, 6 per cent; pork chops and tomatoes, 4 per cent each; evaporated milk, baked beans and canned corn, 3 per cent each; navy beans, 2 per cent; chuck roast and cheese, one per cent each.

Changes Since June 1913.

For the seven-year period, June, 1913, to June 1920, 9 of the 23 articles for which prices were secured in June 1913, increased over 100 per cent as follows: Hens, 110 per cent; bread, 111 per cent; lamb 114 per cent; ham, 115 per cent. rice, 117 per cent; corn meal, 138 per cent; flour, 167 per cent; sugar, 404 per cent; and potatoes, 472 per cent.

The large percentage increases shown for flour, sugar and potatoes mean that in June 1920, flour cost more than 2½ times what it did in June 1913; sugar cost five times as much, and potatoes approximately 5½ times as much as in June 1913.

## Wait!---Don't Operate!

**Take Sto-ll-gal, a doctor's prescription for dissolving gall stones, and complicated sotmach ailments.**

One box gives instant relief in all cases of GALL STONES, liver and stomach trouble, such as indigestion, dyspepsia, chronic appendicitis, gas, sour stomach, ulcers, catarrh, pains in stomach and back, constipation, etc. Don't wait bnt get a box of **Sto-ll-gal** from your druggist today. NOTICE TO CONTRACTORS.

Sealed proposals will be received at the office of the County Auditor of Pennington County, Minnesota, until 3:00 o'clock p. m., September 15th, 1920 for the construction of Federal Aid Project No. 83, State Road No. 4, which involves the following items:

Excavation: 28326 cubic yards.
Overhaul: 6850 cubic yards.
Culverts: 59 lin. ft. of 12 in.; 202 lin. ft. of 15 in.; 64 lin. ft. of 18 in.; 211 lin. ft. of 36 in.
Hauling Culverts: 13.4 ton miles.
Gravelling Items:
Stripping: 2300 cubic yards.
Hauling to ½ mile: 327 cubic yards;
to 1 mile: 600 cubic yards;
over 1 mile: 4709 cubic yards;
18044 cubic yard miles.

Plans and specifications may be examined at the office of the County Auditor, Thief River Falls, Minnesota, or at the office of the State Highway Department, 920 Guardian Life Bldg., St. Paul, Minnesota. Blue prints of plans may be obtained from the State Highway Department at bidders expense. The right is reserved to reject any or all bids and to waive any defects. Bids must be accompanied by a certified check, payable to the County Treasurer, for at least 5% of the amount of the proposal.

Dated at Thief River Falls, Minn., August 20th, 1920.

T. P. ANDERSON,
County Auditor,
A 24-31 S-8 Pennington County.

BUILDING YOUR WEALTH

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amount grows till each addition is a respectable sum.

Where does the gain come from? Not from your pocket. Nor from ours. It is the result of production. Money placed in a bank is given an opportunity to work and to produce.

Thus a bank builds your wealth.

Start with a small deposit if you will. Add to it when you can—regularly if you can do so. It will not be long till you can fairly see it grow.

Do You Know Who Pays for Your Advertising ?

Did you know that intelligent and judicious advertising doesn't cost the man who pays the bill a cent? Well, then, who DOES pay for the Advertising if the merchant himself doesn't?

The unwise patrons of the store that is NOT advertised are the persons who pay for advrtising.

By advertising, a merchant increases his turn-overs and sells four or five times as much merchandise as he would if he didn't advertise. The real cost of selling that merchandise is reduced with each turn-over. Thus, the amount he invested in Advertising comes back to him and he is enabled to do business on a closer margin of profit on each turn-over than the merchant who doesn't use Advertising to increase the volume of his business.

So, after all, the merchant who advertises doesn't pay for his advertisemnts; neither do his customrs. It's the patrons of the UNADVERTISED store who pay for them.

## "The New Public Health"

*Conducted by the Minnesota Public Health Association*

(Letters on Health addressed to Dr. H. W. Hill, Shubert Bldg., St. Paul, Minn., with a stamped, self-addressed envelope enclosed, will be answered by mail. If of general interest they will be answered in this column also.)

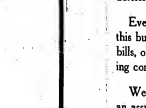
Question—I am taking the "cure for tuberculosis" at my own home. For a month my stomach has been upset and I am losing weight rapidly. I have no appetite. Can you give me a tonic or something to improve it?

Answer—A month with bad appetite and loss of weight before you do anything about it is rather a serious matter for a tuberculosis patient. "Home Cure" of tuberculosis results too often in that sort of neglect of yourself. At a sanatorium you would not have been left in such condition a month—nor a week—nor a day, if the physician in charge could help it. Get your attending physician, if you have one, to see you at once—delays are dangerous indeed to a tuberculosis case with a poor appetite and one who is losing weight. Possibly a tonic might help—but the real thing to do is to find out why your appetite is bad and correct it.. A tonic given at random is merely a shot in the dark. If you have no physician apply to the tuberculosis expert in charge of the nearest county sanatorium which is, for Pennington County, Dr. Geo. M. Milan, medical director, Oakland Park Sanatorium, Thief River Falls, Minnesota. You perhaps should be in a sanatorium rather than at home, especially if you are not doing well at home. Possibly you have been using nothing but milk and eggs for a diet because many people think those are all a tuberculosis case should have. But the most up-to-date advice is to try all kinds of things, meat, fish, vegetables, fruit, etc., and take those things you like—above all, those things you can digest. Eggs and milk are all right if you like them and can digest them—so is corned beef and cabbage.

### Amendment No. 1.

The people of Minnesota have never been called upon to vote upon any question of greater importance and value to the entire state than that of Amendment No. 1.

We have now come to a time when the question before the American people is that of "good roads." Every state in the Union is entering upon the construction of a far better class of roads than have heretofore been built. New inventions in travel and transportation have made it absolutely necessary that we change the character of road building for the highways of the states.



The Federal Government is appropriating $100,000,000 annually to be paid to the various states as Federal aid in a national effort to encourage the states to enter immediately upon a nation-wide program for the substantial improvement of the road systems of the entire nation. Minnesota's share at this time in this annual appropriation is $2,800,000. But the Federal Government requires that the state of Minnesota expend a like amount in the building of good roads, otherwise the Federal Government refuses to turn over that vast sum of money to the state of Minnesota. If we do not meet the conditions of the Federal Aid law within two years, then Minnesota's share would revert to the Federal Government to be appropriated out to other states which do comply with and meet the requirements of the Federal law.

It is necessary that the people of Minnesota amend the Constitution so as to permit the state authorities to take charge of and actually construct the roads duly selected to become the beneficiaries of Federal Aid. Under the Constitution of Minnesota at present, the highways are built and maintained by counties and local authorities. Amendment No. 1 authorizes the State of Minnesota to take over the main highways of the state and make of them a great State Trunk Highway System. The amendment also gives the Legislature authority to levy a special tax upon motor vehicles and thereby raise the money necessary to build and maintain such State Trunk Highway System.

The time has come when the State of Minnesota must do her part in building and maintaining roads. The burden has become too great for the counties and townships. A new source of taxation simply had to be discovered in order to construct and maintain a road system which would meet the absolute demands of present day travel and transportation. There are some roads in the State of Minnesota that are purely local or township roads and should be under the jurisdiction of the townships. There are other roads that may be properly described as county roads, and they should be under the jurisdiction of the county; other roads that may be properly designated as state roads, they are the main travelled highways of the state, they are the roads that bear the greatest burden of travel and transportation and it is only proper that the entire state should construct and maintain those roads.

Under our present Constitution however, the State of Minnesota is not permitted to build roads; the State of Minnesota is not permitted to levy a special tax upon motor vehicles, or any other kind of property to pay for building and maintaining roads other than the one mill tax (which was secured by an amendment to the Constitution) would go into the general fund and not into a special road building fund.

Amendment No. 1, however, will give to the State of Minnesota full authority to build roads, to levy a special tax upon motor vehicles, and to pay for the building and maintaining of the duly selected state roads.

*Needed By Farmers*

Most of the farmers in Pennington County are keeping their business well in hand thru systematic Checking Account records.

Many prosperous farmers around Thief River Falls are well known by their bank checks and characteristic signatures.

Every farmer can benefit by this businesslike method of paying bills, obtaining receipts, and building commercial prestige.

We welcome new accounts with an assurance of friendly attention.

### CAMPHOR AND WITCHHAZEL HELP WEAK EYES

Thief River Falls people are astonished at the quick results produced by simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. In one case of weak and near-sighted eyes a few days use brot great improvement. In another case it stopped eye pains and inflammation. We guarantee a small bottle of Lavoptik to help ANY CASE of weak, strained or inflamed eyes. t-3

### SOLVING PROBLEMS FOR NORTHERN FARMS

The North Central Agricultural Experiment station at Grand Rapids, Minn., one of the six stations in the Minnesota system, is working out the answers to not a few problems of vital interest to the farmers of north central Minnesota. A report of progress has just appeared in the form of a bulletin covering the work of the station for the period from 1915-1919.

In this bulletin or report, Otto I. Berg, superintendent, describes numerous experiments. For example, he mentions a durum wheat, the Prelude, a very early short-strawed variety which surpasses the fife and the Bluestem in hardiness and shows excellent qualities under milling tests. He also outlines results obtained to secure an early corn for the far north counties. The results have been encouraging as a certain strain of one corn is sufficiently early to produce seed in normal seasons, though as yet this corn cannot be recommended to be grown for ripe grain except on farms that are very favorably located. The author furthermore describes a combination silage consisting of corn, sunflowers and soy beans which seem to give much promise. What can be done in increasing the productive efficiency of a dairy herd from common native stock is also outlined. The herd at Grand Rapids, which when started averaged 196 pounds of butterfat and less than 5,000 pounds of milk per cow annually now averages 358 pounds of butterfat and 7,184 pounds of milk.

When you advertise you go half way. There's a meeting place for the seller and the buyer of real estate. This meeting place is in the classified advertising columns of this paper. The owner is represented by his advertisement. The prospective buyer turns to these columns—and if the ad enlists his interest the transaction is under way.

## STOP! LOOK! LISTEN!

TWO 200,000-pound locomotives will crash in a head-on collision at 60 miles an hour at the Minnesota State Fair, Saturday, Sept. 4.

You may have seen a tidal wave or felt an earthquake, but never in all your life again will you see a genuine railroad collision from the comfort and safety of a grandstand seat. This great $40,000 attraction will be given once only because of its prodigious expense.

The week's entertainment program is a wonderful one. The greatest galaxy of performers ever booked in vaudeville will feature the program. Headline acts from the New York Hippodrome and Winter Garden, and from the Ringling brothers, Barnum and Bailey circuses, make up the bill, the like of which has never been shown on any theater stage in any part of the world.

See Al Wilson change from plane to plane without a ladder.

See the world's greatest auto speed demons defy death on the dirt track.

See Single G and other famous horses compete for purses totalling $22,500.

See the greatest fireworks spectacle in history, "Siege of the Dardanelles."

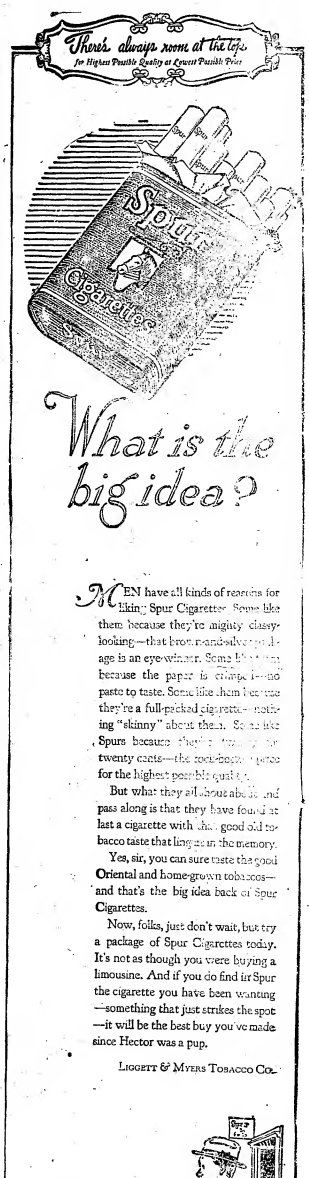
***Minnesota State Fair***

***September 4 to 11***

### USED CARS FOR SALE

Buick Model C. 25., overhauled, repainted and new cord tires $700.

Ford, late model, equipped with shock absorber and Yale lock $450.



Marion delivery car, sacrifice price $300. Empire Speedster, 5 wire wheels, new tires, a sacrifice at $800.

Staude tractor attachment for Ford. Brand new, pulls two plows this attachment sells for $280. Our price for quick sale $180.00.

Overland 75. Overhauled, new batteries and a bargain at $475.00.

Studebaker 6, overhauled 1917 model. Car traveled less than 600 miles $875.

These cars can be seen at the E. C. Parsons Auto Co., Warren, Minn.

MEN have all kinds of reasons for liking Spur Cigarettes. Some like them because they're mighty classy-looking—that brown-and-silver package is an eye-winner. Some like them because the paper is crisp-but-not-too-paste to taste. Some like them because they're a full-packed cigarette—nothing "skinny" about them. Some like Spurs because they're [illegible] for twenty cents—the tobaccos [illegible] for the highest possible quality.

But what they all talk about alike—and pass along is that they have found at last a cigarette with that good old tobacco taste that lingers in the memory.

Yes, sir, you can sure taste the good Oriental and home-grown tobaccos—and that's the big idea back of Spur Cigarettes.

Now, folks, just don't wait, but try a package of Spur Cigarettes today. It's not as though you were buying a limousine. And if you do find in Spur the cigarette you have been wanting—something that just strikes the spot—it will be the best buy you've made since Hector was a pup.

Thos. A. Way, President

Published every Tuesday and Friday at
Thief River Falls, Minn.

E. B. McWilliams, Editor and Manager

Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

Grouped with four other ladies of State and National fame in the Sunday Minneapolis Journal, is the picture of our honored townswoman, Mrs. J. M. Bishop. Mrs. Bishop is in charge of the Republican Campaign in Minnesota for the state outside of the Twin Cities; she has an office in the Guardian Life Building, St. Paul, where she directs the work of her corps of clerks and district managers. It is a large and very important responsibility. Mrs. Bishop was selected because of her ability for constructive, executive and administrative work.

Candidate Cox in a recent speech regarding the closing of American Woolen company mills, said:

"Mills are being closed now in the face of demand. Why is it done? First to drive the price of wool down; second, to reduce the wage scale; and third to increase the cost to the consumer by decreased production. There must be an understanding between these interests and the sentorial oligarchy which is now attempting to elect one of its members to the presidency. They are not giving their millions without some assurance."

Why not lay it onto the Board of Supervisors in Dayton Ohio. Cox knows Wilson and the democratic party in power are to blame. "Jimmy" is showing himself to be some demagogue—anything to get in.

Poor old Minneapolis (Big Interests) Tribune—Co-operative marketing could be brought into disrepute if those engaged in it were to "take unfair advantage." Where possibly could The Tribune have heard of any such thing? Certainly the farmers proposing co-operative potato marketing have not been running the mills and banks and manufacturing plants and wholesale houses in Minneapolis. Is it in this atmosphere that the Tribune has heard about "unfair advantage?" By this plan of co-operative marketing the farmer has one little chance to have something to say about the price of his own product. The Tribune sees this and they admonish or threaten him with what "city people" will or will not do. City people indeed, trust magnates, market controllers, and drones, many of them in high places. The farmer will not object if these lily-fingered people raise and eat and sell their own potatoes. Co-operative marketing only will put the farmer up to the Director's table where prices are fixed. When the farmers combine until they have forced recognition they will be admitted into consultation and never before.

The farmer raises the wool. He sells it to the local shipper. The local shipper sells it to the Commission merchant. The commission merchant sells it to the woolen mill manufacturer. The wool has not reached the top. It has gone all the way up from the producer to the woolen manufacturer, and the price all the way up has been based upon what the manufacturer would pay for it. The manufacturer positively makes the price on wool. Now what happens? The manufacturer proceeds to make the wool into cloth. He sells the cloth to the man that makes clothes. The man that makes clothes sells to the wholesale clothier. The wholesale clothier sells to the retail clothier, and the retail clothier to the customer including the farmer who produced the wool. The price of wool in the hands of the farmer at the time of the sale was fixed by the woolen mill man, when the wool becomes cloth and starts back again to the customer, the same man, the woolen mill man fixes the price. The woolen mills in this country are closed down. Wool is hardly salable and is very low in price, clothing never was higher. This is because price fixing is in the hands of the man at the top. That is true of most all our commodities. Co-operative marketing and economic Union by the farmers is the answer. If the farmers will combine, as they can and name the price on what they sell they will then have a chance to be heard and they never will be considered properly until they do combine, not politically but in economic union.

The retail clothier tells his customers that they must take such goods as he has whatever prices he asks, for he can't get any others, and there's a prospect of still more stringent scarcity of supplies.

The cloth jobber tells the clothier that he cannot get him the cloths he wants, because the mills are not working any, and in fact are shut down.

The manufacturer says that there are not enough orders for cloth coming in to make it worth while to keep his mills running, and so he closes them.

The manufacturer and the jobber join in guaranteeing the retail clothier against any decline in prices, and in threatening him with further curtailment of supplies, and still higher prices if he does not accept their goods at the present prices; in token of which, they grimly point to mills already shut down.

The merchant, who has to wear and therefore buy clothes—oh, well, what does he amount to anyway?—Harveys.

## STRAWS.

Sioux City Tribune: The truths of life are open to public observation. They can be had for the using, as it were. And the world's "fortunate" ones, or "lucky ones" are generally those who make use of this vast store-house of material. There is still very much to be learned by applying logic to the ordinary manifestations of human nature. The "tip" acquired through such a process is the earned advantage of him who observes usefully.

What does it portend that one of our presidential candidates is pictured by every paper garbed in overalls milking his father's cows, or carrying the milk he has milked to the house; while another goes him one better by sending forth his picture in the act of "helping his wife get out the family washing?" With a mouth full of clothes pins (to show it isn't the first time he ever did it,) and a clothes pin apron tied about his waist he is pinning a garment on the line. Why does he choose thus to be represented to the voting public? Is it an appeal to the feminine voter, who certainly does like to have a man "handy about the house?"—at times.

The feminine voter is already too astute to be enticed by any clap trap. But certain it is that these candidates are not afraid of offending either sex mass, as such, through such tactics.

On the whole the "gesture" is amusing if not offensive. Probably it "cuts no ice;" but the "little meaning of its own" which prompted the maneuver is worth discussing. These are "different" days we are living in. It is only those of us who are ashamed of being ashamed to work who will not be at all puzzled by this particular sign of the times.

## SEED CORN TIME NEARS; SEPT. 10-20 THE DATES

Minnesota once regarded as a non-corn state, now ranks eighth among the states of the union in the number of bushels of corn produced annually. In the last decade the production of corn in Minnesota has been doubled.

Striking progress like this is not the result of chance. There is a reason for it, and in this case, the reason is not hard to find.

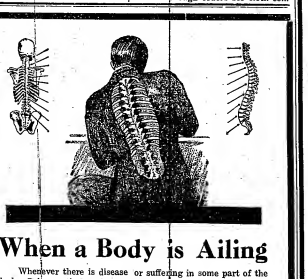
Seed corn selection, as preached by the Minnesota Agricultural College and practiced by the progressive farmers of Minnesota, has played a large part in the wonderful corn growing record made in the state. Seed corn selection has helped to extend the corn belt from the southeast corner of the state to the very extreme northwest corner. It has improved the quality of the corn as well as the acre yield, and has aided in building up the livestock industry and in enhancing the fertility of the soil. The clean cultivation required by corn has helped to reduce the annual tax which weeds levy upon the farmer.

Special attention is a gain called this year by the agricultural extension division of the state university to seed corn-time, Sept. 10-20. Selected seed that has matured before those dates is very likely to mature before the corresponding dates in 1921. Thus the danger of losses by frost is minimized. More than enough corn ears for the requirements of planting next year should be selected—well shaped ears of medium size and good variety; ears with kernels that are well dented and that fill all the space on the cob and are well shaped.

Minnesota can and will continue to improve its position among corn growing states in the future as in the past. Seed corn selection time is well established in the state and results from it will continue to gather force.

TYPE and pictures can only suggest the value of the Fairbanks-Morse "Z" Engine. To realize what an example of master engine-building it is, you must see it.

We have a "Z" on our floor and we are always glad to explain its many features. Let us tell you why we selected the "Z" from among all other engines. You will select it, too, for the same reasons.



We will tell you about our service also. A nearby Bosch Magneto Service Station helps to make it complete.

## When a Body is Ailing

Wherever there is disease or suffering in some part of the body, Chiropractic has demonstrated that it is due to the pressure of spinal bones on the nerves that should feed those affected organs. Invariably when this pressure is relieved by Chiropractic Adjustments, the trouble vanishes and healthy conditions are restored.

That is why, if you go to a Chiropractor to be relieved of severe headaches or other troubles, he adjusts that part of the spine where certain nerves are pressed (or squeezed by the moveable bones of the spine). He adjusts the bones back to normal position, thus removing the pressure. Nature's healing forces are set free to build and strengthen the weakened or diseased parts.

Experience has shown that there is hardly a case of disease or ailment that has not been benefitted by Chiropractic Adjustments of the spine. The Chiropractor knows just what part of the spine to adjust for the different troubles. It's all a part of his science and his training.

**CHIROPRACTIC**
THE BETTER WAY TO HEALTH

is never followed by adverse results. Certainly it has never done anyone any harm, but it has done thousands an immeasurable amount of good. If you are ailing, no doubt the trouble lies in your spine. Try Chiropractic and prove its merits.

**Auditor's Final Notice of Hearing in Ditch Proceedings.**

State of Minnesota, County of Pennington, ss.

In the matter of the Petition of Carl Bieswinger and others for repair of Public Ditch No. 35 in the County of Pennington, State of Minnesota.

Notice is hereby given that a petition has been filed in the office of the County Auditor of said County, praying for the construction of a public ditch, designated and numbered by the County Auditor of such County as County Ditch No. 35 beginning at the main Channel of County Ditch No. 35, at or near the Northeast corner of the Southeast quarter of Section 11, Township 153, Range 42, extending thence west along the south side of said Northwest Quarter of Section 11, and across the Northwest Quarter of said Section 11, running thence through the following described lands, to-wit: The Northeast Quarter Section 11, the Northwest Quarter Section 11, the East half of Section 10, Township 153, Range 42 and terminating at the Red Lake River, as appears by the report of the Engineer hereinafter mentioned and that the names of the owners of the lands and the names of the Municipal and other corporations that will be affected by the construction of said ditch, as appears in the report of the Viewers, hereinafter mentioned, are as follows, to-wit: Thomas Sanders, Ole Holstad, Tobias Skjerping, Albert Ness, J. W. Helland, Continental Land Co. Tobias Skjerping, Krist Larson, Chas. Fisher, Carl Bieswinger, Krist Larson, Elias Angel, B. B. Hammer, S. C. Dahlquest, L. N. Zeigh, Francis J. Hardisty, Ole M. Pederson, Herman Swanson, Severt Brekke, Louis Stenseth, Fred Lane, Ole Forthun, Iver T. Aasfad, Thor Gunderson, Oscar Enevson, Halvor Loken, J. L. Fodstad, Anton F. Danda, Johanna Bragstad, Ole P. Thiege and that the Engineer appointed by the County Board of said County to make a survey of the route of said ditch has completed his work and made due report thereon, and filed the same in the office of said County Auditor; and that the Viewers appointed by said County Board to view the same have completed their work and filed their report thereon in the office of said County Auditor.

And that, therefore, the County Board of Pennington County, State of Minnesota, will hold a special meeting on Wednesday, the 15th day of September, 1920, at the County Auditor's office in the City of Thief River Falls, in said County, at 7:30 o'clock p. m., of said day, for hearing and consideration of said petition and of said surveyor's and viewer's report thereon; and that all persons interested in the construction of said ditch are invited to appear and be heard by and before said County Board at said time for or against the construction of said ditch.

T. P. ANDERSON,
County Auditor of Pennington County, Minn.
A 24-31 S-7

The new French tariff law has increased import duties materially, "to provide for the same protection as before the war." The nations of Europe are adopting the protection policy. The United States will soon restore protection.

## Buy Before Freight Rates Advance

Those needing anything in the lumber line will do well to buy before the first of the month when the freight rates advance, which will also advance the prices on everything in the merchandise line. If you are needing anything, buy before the first of the month and save the extra cost when the freight advance is applied.

We have a small supply of fuel on hand and advise you to place your order now. When the freight rates advance the first of next month everything will have to be advanced.

BUY WHAT YOU NEED RIGHT NOW.

# ..TRACTORS..

**ON HAND—**

1 10x20 H. P. Mogul Tractor, used just a very little and is practically as good as new, and we offer this at a bargain price of only **$650.00.** With a liberal discount for all cash.

1 9x18 H. P. Case Tractor used just a very little. To turn same at once, we will sell at.....$650.00

1 Big Bull Tractor, good as new, a very good bargain, if only to use for belt power, at the exceptional price of.....$303.00

1 5x10 New Model "B" Avery Tractor slightly used $500.00

1 5x10 New Model "B" Avery Tractor, not used.....$595.00

The present price on these new 5x10 Avery tractors being $695.00 F. O. B. Factory, the above is a snap, and they are worth the money any day, but in order to turn them at this time we have cut these prices to above figures.

We also have on hand one new 10x20 Titan Tractor, and five more on the road, which will be here in a day or two. Out of four 12x25 Avery Tractors just received within the last week, we have one left on hand that is not sold. We also have one 8x16 Avery Tractor on hand. The Titan and the Avery Tractors give satisfaction and continue to give satisfaction. On the above new tractors, the old freight rates will apply. 35 per cent increase in freight rates which takes effect the 26th of this month, will mean some difference in the cost of a tractor, besides, some of the above tractors are to take an advance in factory price very soon. Act now.

We also have two more 22x38 in. International Grain Separators on the road which will be here by Wednesday, which are the last two we shall be able to pick up for this year. If your threshing job is waiting and ready to be done, we can fit you out with the right kind of an outfit NOW. Ask the users.

# CUTTING CORN WITH MACHINERY SAVES TIME --MEANS MORE MONEY IN FARMER'S POCKET

Cutting corn with machinery does not reduce materially the cost of cutting. It does, however, enable the farmer to cut a given acreage much more quickly, and, in that way, often proves profitable. The proper time for cutting corn in order to preserve its full feeding value is so short and other work is usually so pressing that the saving of time often means a great deal more in the farmer's pocket than could any actual saving in wages and other cutting costs. This is the view taken of corn-harvesting machinery by the United States Department of Agriculture, as expressed in Farmers' Bulletin 992, The Use of Machinery in Cutting Corn. The saving is greater in cutting corn for silage than for fodder, the bulletin continues.

The two types of corn-harvesting machinery, the corn binder and the platform harvester, are discussed in detail. Under normal conditions, it is stated, the binder drawn by three horses will cut about seven acres in a 10-hour day. One man will be required to operate the machine and two to shock the corn. These three men working with corn knives would probably be able to cut about four acres in a 10-hour day. The binder, therefore, does nearly twice as much work as the three men could do without it.

Objections to Binder.

There are, however, limitations and objections to the use of the binder. If the corn is badly blown down, the binder may not be able to handle it and may have to stand idle through a season. The binder necessarily knocks off some of the ears, and it may be necessary to send a man over the field to pick up the ears by hand. Men at first find it harder to handle the bundles from a binder than to handle loose stalks. Some binders drop the bundles so nearly behind the machine that the horses have to walk over them on the next round, and thus considerable damage is done to the corn. However, the specialists say, these objections can be minimized even where they can not be completely obviated.

In order to make the use of the binder worth while, the reduction in labor and the saving due to getting the work done at the proper time must more than pay for the use of the machine, the twine and the labor of the horses.

The saving is greater when cutting for silage, for several reasons. The binder saves the labor of at least two men in cutting. Often the saving in time due to having the stalks in bundles instead of loose will enable the operator further to reduce the size of the crew. If only a small amount of silage is to be put up, a binder would not be a paying operation unless there were a large quantity of other corn to cut. The co-operative use of both binder and cutter is discussed and is recommended where the only corn cut is that for silage. Co-operative ownership and use of the binder is said to be frequently advantageous for small farmers. The use of the corn elevator in connection with the binder is discussed and both the advantages and disadvantages pointed out.

Platform Harvester Cheaper.

The platform harvester, while a cruder machine than the binder, is much less expensive to purchase, requires only one horse instead of three or four, and two men instead of three. Its day's work is about four or five acres. Generally, the equivalent of the labor of one man is saved every day the platform harvester is used. The work is harder with the platform harvester than with the binder. But the platform harvester can be used profitably on smaller farms than can a binder and it can stand idle a greater part of the time or wear out sooner than a binder and still be a profitable investment. In cutting corn for silage, the platform harvester will not save as much labor as a binder.

Copies of the bulletin may be had free on application to the Division of Publications, United States Department of Agriculture, Washington, D. C.

## MANY LOAFERS FOUND IN MINNESOTA FLOCKS

One-third to one-half of the fowls in many Minnesota farm flocks are not paying for their keep. This is the report brought back to University Farm by Miss Annabell Campbell, poultry specialist in the office of extension work with women. The agricultural extension division of the state university is aiding a state wide poultry culling demonstration campaign launched by the Minnesota Farm Bureau Federation. N. E. Chapman, poultry extensionist from University Farm, and C. E. Brown of the Northwest School of Agriculture at Crookston, are also in the field. Mr. Chapman estimates that it is worth $50 to every flock of 100 which is culled, in the increased production of eggs and the saving made in the feed bill. The culling demonstrations will be continued through September and October until the state is fairly well "combed." The extensionists are stimulating interest in poultry house building and remodeling and find that much work of this kind will be done before the time comes to put the flocks into winter quarters.

## RACES SUNDAY PROMISE TO BE BEST EVER

LEG. HAS SECURED SOME MIGHTY FAST ENTRIES AND GOOD DRIVERS.

As the date draws near for the Legion Race Meet to be held at the Fair Grounds next Sunday afternoon, interest grows stronger and it is now felt there will be a large turnout to see the sport.

The Legion has been fortunate in securing some of the best racers in the country and also in the selection of cars. There will be racers and cars here from all over the country and it is expected there should be from ten to fifteen entries in the automobile races alone. In addition there will be motorcycle races and a race between an aeroplane, motorcycle and an automobile.

The races held at Crookston last Sunday were attended by a very large crowd, several from this city attending. Those who were at the Crookston races state they were worth the money and certainly furnished all the thrills necessary.

Several of the cars that were entered in the Crookston races have been booked for the races at this place and it is certain they will be a large drawing card for all who enjoy this pastime.

Elaborate preparations have been made to take care of the largest crowd in the history of the city and it is hoped that everyone will take advantage of the opportunity to attend these races. The Legion is putting the races on for the express purpose of increasing their financial standing, and it is necessary that something be done and that soon if the local post is to have sufficient funds to carry on their work for the coming winter. Heretofore the legion has received very little support and this should not be. They have barely managed to get by and with much manipulating of their funds have succeeded in putting across some of their plans, but they have been greatly hampered in many of their plans for the lack of funds. It is hoped the entire city will turn out for the races next Sunday, incidentally getting their money's worth and also giving the local post of the Legion a boost. They can stand it and it will work no hardship for the community to show a little appreciation toward the members of the post. Attend the races Sunday and help the boys out.

## GUTTERS ARE TO BE INSTALLED BY CONTRACTOR

FIRST STEP IN PAVING PROGRAM IS TO BE STARTED IMMEDIATELY.

An attempt to start paving this fall will begin next week when the contractors start in their work of installing the gutters. This is preliminary work and is done by the contractors taking the city's warrant pending the decision of the Supreme court in the matter.

The contractors feel that the decision will be favorable to the city and as a result are justifying their faith in the city to the extent of accepting the warrants and believing the bonding company will relieve them later in the season.

This move means that in case the decision of the supreme court is favorable to the city, that the work of paving can be rushed and a few blocks laid before cold weather sets in. This is what the council are interested in and which they have been trying to accomplish since the matter has been tied up in the courts. In case they are successful in getting a few blocks paved before the cold weather starts they will then be able to hold the bonding company to their end of the contract unless they dig up some other reason for furnishing the money that will have to be overcome before the work can be completed.

The matter of paving the city streets has been up for discussion on all sides since the contract was signed. It has caused more or less ill feeling and has resulted in many unpleasantries that would have been just as well left undone and said. However it is certain that after the paving is once installed everyone will see the wisdom of the move and will commend the city council for their action in the work. The contract for the installation of the gutters will in no way interefere with the traffic. The streets will not be torn up as the result of installing this work and will not inconvenience anyone. The work of installing the gutters comes ahead of other work in any case and to get these in means that the work of paving will be that much further along and will be out of the way when the paving of the streets starts in earnest. It is the plan of the contractors to start the paving next week.

## Bold Robberies

HOUSE BREAKERS WORK IN BROAD DAYLIGHT IN ALL PARTS OF CITY.

Burglars are still at work in the city and yesterday afternoon the police were called to the Thoraldson home on Conley avenue south where a burglar was in operation. The discovery of the man was not made until the children returned home. Everyone was away at the time and upon the return of the children they immediately noticed someone had been in the house and created considerable damage. The furniture was thrown in every direction, trunks rumaged and general havoc created by the burglar in his attempt to find something of value. All that was missed was a purse with a small amount of change, showing the man was after nothing but money.

The practice of burglars in the city is becoming stronger each day and it is hard to say when the next job will be and where he is to light next. It is a good plan for housewives to keep their doors locked when away from the house as it is plain the burglar or burglars are intent on getting all they can if necessary to resort to broad daylight robbery.

The police are on the alert and with a description of the man it is expected they will soon round him into camp and straighten out much of the mischief caused by his visits.

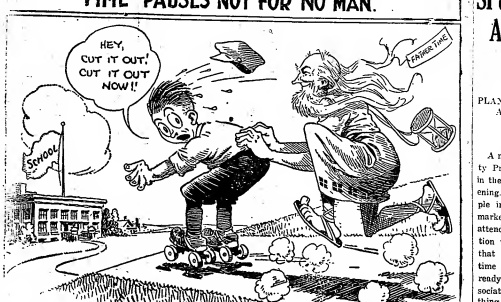
### Sell Many Threshers.

The Rambeck-Stone Company report the sale of many threshing rigs in the past few weeks. They announce they have sold rigs to ten different parties and have several more to deliver in the near future. In their rounds thru the country they announce the crops as being above the average with an excellent yield in all sections. Reports from every corner of the county are very favorable and it looks as if the county was going to enjoy one of the best crops in its history. The Rambeck-Stone Company, while a new firm in the city, have had a wonderful run of business since their opening this spring and feel that they will enjoy a better business as time goes on. A partial list of those who have purchased threshing rigs from this company this month are Melvy Brothers, Viking; Abe Newton, Sundberg Brothers; Ole Skaar, H. P. Nabben; K. Skaren, Erie; Shannon and Wheelright; Rambeck and Jones and Halver Moe.

### Called to Minnenpolis.

Attorney Wm. Michelet was called to Minneapolis last evening on account of the very serious illness of his mother, Mrs. Nils Michelet. Mr. Michelet's father died five weeks ago and it is feared Mrs. Michelet cannot live.

### To Make Winter Tour.



Holt & George, the plumbers, have purchased a new Buick automobile and expect to hike for warmer climates in the near future. It is their intention to travel west, landing in the neighborhood of Portland, where they hope to secure contract work sufficient to keep them busy until the spring months when they will return to this city.

### Wool Men's Agent.

Arrangements have been made with George McKerrow, one of the best sheep men of the northwest, to represent the Minnesota wool selling associations in Chicago. Mr. McKerrow is to do the work on a strictly cost basis at a charge of $10 a day for time actually spent in the work plus railroad expenses.

F. L. French, secretary of the Minnesota Farm Bureau association, in notifying the wool selling associations of the appointment of Mr. McKerrow, urges that all the associations consign their wool before Sept. 1, unless unavoidably delayed by their inability to get cars.

## TIME PAUSES NOT FOR NO 'MAN.

## TRI-COUNTY FAIR PLANS COMING FINE

COMMITTEE IN CHARGE OF ARRANGEMENTS ARE PLANNING ON BIG FAIR.

September 21 and 22 promise to be mighty big days for our neighboring village of Goodridge. The Tri-County fair is to be held at that place on those dates and every citizen in that part of the country is putting forth every effort to see that the fair is ahead of anything of a similar nature held in this section of the state.

The fair is an outlet for the three counties of Beltrami, Pennington and Marshall and the folks in that section near Goodridge feel that their country is of sufficient importance to support a fair of this nature in good shape. And in this contention they seem to be right. Their fair last year was the wonder of the county. The exhibits were very far above the average in every respect and they created the impression that the territory embraced by the fair was a small empire in itself. It is certain this year's fair is to be as good if not better and already the people of that exhibits lined up before the opening vicinity are working hard to get their date. It is to be hoped that this end of the county will do as well toward the Tri-County fair as they did toward the Pennington county fair held at this place the first of the month. They were here good and strong and also had a very fine exhibit which took first prize. Goodridge can always be depended upon to help out any project of a worthy nature and in view of all this the least that this end of the county can do is to help them out in their effort to establish a fair.

The attendance from this city last year was quite good but it is expected there will be a larger attendance this year than last. Many have already expressed themselves as being inclined to attend and it is thought as the time draws near there will be many more who will be on the job.

### Finishes Threshing.

Ben Rosenthal threshed his oats on Monday, and they went 70 bushels to the acre. He has a fine field of sugar beets that will pay him $150.00 per acre. Excellent potatoes, also fine wheat. All his crops are good. Ben is one of our best farmers and always gets good crops. This helps him, it helps the county and the reputation of the county. It increases the value of farm and city property. Ben Rosenthal is a definite asset to the country, a good farmer and an exemplary citizen.

### Presbyterian Church.

R. L. Barackman, Pastor.

August 29th. 10 a. m. Sunday School. 11 a. m. Morning worship. 8 p. m. Evening worship. In the morning the pastor's theme will be "Harvest Reflections." In the evening his subject will be "The Prophet Who Discerned Less Than His Ass." These public meetings are planned to express the religious experience of the church. Also they are intended to provide a way to enter upon the christian life. Church people are under obligation to be present. Others are warmly invited to be present and to share with us our Father's honse and His presence.

### Falls From Straw Stack.

Ole Morstad, 73 years of age, fell from a straw stack late last evening and his injuries were of such a serious nature that he was taken to the hospital, where he is receiving medical attention. The exact circumstances regarding the accident have not been fully determined, and how long Mr. Morstad lay before he was found by some passing farmers is not clear. He was picked up and taken to the hospital where a careful exmmination disclosed that while there were no bones broken, the old man was badly bruised and shaken up as a result of his trouble. He is reported to be gaining steadily and in a few days will no dobut be as good as ever.

## STATE'S ROADS START SUIT TO INCREASE RATES

NINE RAILROADS OF STATE WANT FARES INCREASED TO THREE CENTS.

An action in the state courts of sufficient interest to every person in Pennington county is that by nine railroads of the state asking that the law requiring the enforcement of Minnesota's two cents a mile rate be revoked and not allowed to be put into force. With the recent increase in rates allowed by the Interstate Commerce Commission there has been some talk of not allowing the rate to go into effect, but instead permit the lines to return to the two cents a mile which is the state law. Since that has come up the railroads have resorted to the courts in order to gain their point and it now looks as the they would gain what they were after.

The intention to continue the 3c a mile interstate passenger fare is announced in the suit which is against the members of the state railroad commission.

The suit was brought jointly by these railway companies: Northern Pacific, Great Northern, Chicago, Milwaukee & St. Paul, Minneapolis, St. Paul & Sault Ste. Marie, Chicago, Rock Island & Pacific, Minneapolis & St. Louis, Chicago Great Western, Chicago, Burlington & Quincy and the Illinois Central.

The Minnesota 2c passenger rate was established by the legislature in 1913. Under government control the flat rate of 3c a mile was fixed and this rate is continued until September one by the terms of the transportation act passed by congress last winter.

The railroads in their suit asserted state officials were preparing to bring action against the railroads which do not put the two cent fare into effect September one and to avoid a multiplicity of suits, the roads say, joint action was brought to determine what rate shall prevail.

### St. John's Lutheran Church.

E. H. Kreidt, Pastor.

German services Sunday 10 a. m., Sunday School 9 a. m. The Ladies' Aid meets Wednesday afternoon in the church basement, Mrs. G. Lonson will serve lunch.

Sunday afternoon at 3 o'clock the pastor will preach in the Norwegian church at Holt, using the English language.

## ELKS PICNIC TO BE HELD NEXT SUNDAY

SQUAW POINT PLACE SELECTED FOR ANNUAL GATHERING OF LOCAL ORDER.

Sunday next, from 10 a. m. till 4 p. m., the Elks of the city with their families will hold forth at Squaw Point for their annual picnic and from all indications this is certainly going to be the best attempted by the local order. Every member in this neck of the woods is expected to be on hand and bring his family, if he has one. It is the intention to make this picnic the biggest and best possible and with the attendance of every member it is sure to be all that is hoped for it.

There are to be games and amusements for everyone and it is planned to start the amusements right after the dinner hour, which will start promptly at 12:30. Free rides will be given those who wish to attend and cars will be run from the Hotel Evelyn corner from 10 to 1 p. m.

The dinner will be served by the committee in charge of this end of the work and this will be one day when the housewives of the city can forget their troubles for the day and join in the festivities of the day without a worry. The men will have charge of the feeding of the large gathering and the ladies will be given one big day of rest and amusement. Everything is to be done to give all a good time and it is hoped that the weather man will bestow his good behavior and allow the day to pass without the shadow of a cloud. Every member is especially requested to be on the job and to see that every one of the big daves and all are urged other member is there. This is to be to attend.

### A Misrepresentation.

The Times, in their issue yesterday, called attention to the fact that they were the only newspaper in Pennington county entitled to the use of the International Typographical union label and were the only ones in the county allowed to use the union label on printed matter and to carry the label at the head of the editorial column.

The Tribune is using the union label and is carrying the same at the head of its editorial column. The Tribune is using the label and is authorized and recognized by the International Typographical Union to be a union shop. The statement in The Times is a gross misrepresentation and used for purposes which very few unions allow and permit.

### In Honor of Mrs. Ashley.

Mrs. H. W. Frederick entertained a number of her friends on Tuesday afternoon in honor of Mrs. E. S. Ashley of Bemidji, who is visiting her sister, Mrs. W. W. Prichard, Jr., of this city. At the close of the afternoon delicious refreshments were served.

## SPUD GROWERS ARE TO MEEET THIS EVENING

PLANS FOR THE WORK OF THE ASSOCIATION ARE TO BE DISCUSSED.

A meeting of the Pennington County Produce Association will be held in the Farm Bureau office Friday evening August 27th, at 7:30. All people interested in the growing and marketing of potatoes are invited to attend. The by-laws of the association will be read and approved at that time. It will only be a short time until the potato crop will be ready for harvesting and the local association is anxious to have everything in readiness as soon as possible.

The association has shown wonderful growth since its organization a short time ago and belief is expressed that this is to be one of the big and growing institutions of the county. The farmers generally are much interested in the growth and usefulness of the association and by their concerted action can make this one of the really important organizations of the northwest. It means much to the grower to be a member of this association and means considerable for him in the savings made in securing the best prices for his produce.

The work of the association will be extended from time to time and broadened to meet the demands of the farmers of Pennington county.

Plan to attend the meeting this evening at the Farm Bureau office and give the association a much needed boost.

## Board Is Ready

INTERESTING MEETING HELD LAST NIGHT TO LAY PLANS FOR YEAR.

The newly elected school board held their second meeting of the year last night and took steps toward the present and future work to be done at hand. The resignation of Peter Myhrom from the school board was accepted at the meeting last evening and Louis Rayson appointed to fill the vacancy, which calls for one year more. Mr. Rayson has been notified of his appointment and has signified his willingness to act as a member of the board.

At a meeting held a short time ago the board decided to sell off a strip of ground owned by the district and formerly used as a demonstration plat, just south of the city. A strip perhaps fifty feet wide is to be sold which will enable others owning land in that section to be able to reach their land without the necessity of crossing over the large ditch that joins the land.

The school census was also completed this week and the report received at the meeting last evening. The report showed 986 school pupils between the ages of 6 and 16 years to be enrolled for this term. This is forty more than last year and does not include the kindergarten pupils nor those in the high school over 16 years of age. With the increased enrollment the board are hard pressed to find sufficient room for the pupils, and it is more thay probable considerable doubling up will have to be done to take care of them all. By eliminating free text books in the high school the board is under the impression this may keep the enrollment from outside points down somewhat and help them in taking care of the pupils in the district which are entitled to the benefits of the system.

Had the new building on the east side been erected as was planned this year, there would have been sufficient room to take care of the increased number of pupils, but under the present plan, doubling up in several grades is practically necessary to take care of the enrollment. It is the hope of the board to see the new building completed next year thus affording more room and increasing the efficiency of the present school system. Every effort to erect the new building next year is to be put forth and it looks as though it would be absolutely necessary if the city is to take care of the large number of pupils, which is increasing each year.

# Local News

Miss Jessie Langei returned to her home in Plummer after spending a week in this city visiting with friends and relatives.

J. F. Peterson of Wadena was a business visitor in this city on Monday.

Rudolph Holm of Roseau was in this city attending to business matters on Monday.

Misses Martha Engen and Esther Loof spent the week-end at Karlstad visiting with friends and relatives.

Miss Alma Christenson, who has been in this city shopping and visiting with friends for a few days returned to her home in Greenbush on Tuesday morning.

Miss Mae Whitman, who has been employed in this city for some time, left Tuesday morning for Roseau, where she will visit with friends for a short period. From Roseau she will go to Minneapolis.

Miss Camille Warner returned to her home here after spending a few days visiting with friends and relatives in Grand Forks.

Miss Marie Fier, who has been visiting with her parents at Middle River for the past two weeks, returned Monday afternoon.

Miss Anna Bredeson, who is employed in Hallock, arrived Tuesday evening and will spend a brief period here with friends and relatives.

Mr. and Mrs. Fred Johnson and children left Tuesday evening for Minneapolis where they will spend a week or ten days visiting friends and relatives.

Miss Inga Anderson arrived here from her home in Baudette Tuesday and will spend a brief period here as the guest of Mrs. M. Owen.

Misses Julia and Alice Easthouse left Tuesday afternoon for Devils Lake, N. D., where the former will be employed and the latter will attend school.

## OVERALLS

The Symbol of Useful Toil and Badge of Service.

Robert Quillen in the Saturday Evening Post: The puma plays in the moonlight. His game is without plan or object. I think he leaps and turns and leaps again for the joy he gains by the play of the steel under his silken skin. He glories in his supple strength and plays to do it homage.

The boy stepping into manhood is thrilled by the play of unmeasured power in his hardened muscles and welcomes game or contest that will test his powers. He carries a chip on his shoulder. He is surcharged with a vital force that demands action and will find means to measure his strength. All young things are urged by a like motive.

That group of world's workers now usually referred to as labor with a capital first obtained a vision of its power when men on the battle front shouted hoarse for the material with which to fight and men at a safe distance from the rear of the guns realized that the safety of nations and the future of the world depended upon their efforts.

The first realization of power brot the desire to test it. Call it social unrest if you will; it was but the puma playing in the moonlight—the raw boy challenging another to wrestle. Youth feels its oats.

I have read much concerning the men who came safely home from the trenches. One speaks of the boy look that is gone from their eyes; another of the larger vision gained under stress of battle; another informs us that the fighters brought home a new realization of their importance in the scheme of the universe. I have read much of this, but I have seen none of it. I find the returned crusader very like the grinning boy who went away. If he was dull when the army got him he came back a bit dazed by the vastness of what he saw and felt and heard. If he was bright he came back his own self with the same jest on his lips and the same careless devil in his eyes and fitted quietly into the niche he left.

If there has been a change in the status of labor since he went away and the change offers him an opportunity to get more money he will have it. Will any man take less than he can get by fair means? Alturistic and idealistic may spill rhetoric as they will but the first person singular remains in the center of the universe. A new vision was not required to make the crusader appreciate the chance to get a raise.

I am frankly a partisan of overalls. They are the sign and symbol of useful toil. They are a badge of service. They speak of buildings creeping skyward, of bridges leaping across mighty rivers, of trains roaring thru the night, of coal and metals coming up from the bowels of the earth, of wide fields plowed and sowed to grain, of hammer, saw, shovel, drill and hoe.

In this day when men are half mad and class their fellows as anarchists or reactionaries without benefit of moderation, cynics say that overalls are in the saddle and that America is tottering to its ruin. What utter rot!

What unspeakable idiocy! America is the home of men, not classes. Mad theories of the Slav cannot weaken our fiber or call us back from that high service to which the perfect workman has called us. American overalls are blue, not red. The alien who hides behind our hospitality to snarl at institutions, his poor mind cannot comprehend, may wear overalls made in America, but his theories and his envy and his hate were not made here.

I work with my hands, and they are not infrequently black with ink and oil and I resent the implication that American workers feel aught of sympathy with or fellowship for this sorry breed that has brought its quarrel with autocracy to a land that is the very fountainhead of liberty and equality.

American labor is not the underdog. It is America itself. We are all laborers together, at forge, plows, press, lathe or desk, and no one of us on this side of the Atlantic and blessed with an intelligence equal to the task of adding two and two can think him who sits at a desk less worthy than he who feeds sheets of tin into the maw of a machine. The world's work must be done and there is a diversity of gifts. The bank clerk is not less worthy because of his white collar, though overalls might do him honor by proclaiming his usefulness.

Fine clothes may rouse suspicion for they are affected by loafers. I am sure that God hates a loafer, as nature abhors a vacuum. That admonition to rest on the seventh day came after the admonition to work six days and a man does ill to count one day of loafing righteousness if he has loafed the other six.

Overalls do not indicate a caste, save in the sense that they symbolize superiority over those who do not labor with brain or hand. When the government that is no more than our will made effective, called citizens to be soldiers, men took off overalls to don uniforms wearing the insigna of officers, other men laid aside silk hats to put on uniforms made for privates.

I like to think of overalls as an emblem of democracy as well as of service, and there is comfort and pride in the reflection that work done in overalls paid for a great portion of American homes and is now paying for the education of many thousands of young men who are in our colleges preparing for larger usefulness.

The man who does not respect overalls dishonors America. The laborer who does not respect the toiler at a desk dishonors overalls.

**MORTGAGE FORECLOSURE SALE**

Notice is hereby given that default has been made in the conditions of a mortgage given by, Bert O. Roisland and Bella Roisland, his wife, to the Citizens State Bank of Hazel, (A Corporation under the laws of the State of Minnesota), Mortgagee, dated the 2nd day of December, 1916, and recorded in the office of the Register of Deeds of Pennington County, Minnesota, on the 5th day of December, 1916, at eight o'clock A. M., in Book Fifty-eight (58), of Mortgages, on page One Hundred Thirty-four (134), thereof. That the said Citizens State Bank of Hazel has paid the taxes assessed against the premises described in said mortgage for the years 1916, 1917, 1918, and 1919, amounting in all to Two Hundred Ninety-six Dollars, Forty-nine Cents ($296.49). That the amount claimed to be due on said mortgage at this time, including said taxes, is One Thuosand Two Hundred Sixty-four Dollars Eighty-two cents ($1,264.82). That the premises described in and covered by said mortgage are situated in Pennington County, Minnesota, and described as follows, to-wit: Lots Two (2), Three (3), and Four (4), of Section Three (3), in Township One Hundred Fifty-two (152), North of Range Forty-one (41), West of the Fifth Principal Meridian, coutaining One Hundred Forty-five and Fifty-one Hundredths acres, (145.51), more or less, according to the Government survey thereof; that by virtue of the power of sale contained in said mortgage, pursuant to the statutes in such case made and provided, said mortgage will be foreclosed by the sale of said premises, at public vendue, to the highest bidder, for cash, by the Sheriff of Pennington County, Minnesota, at the East front door of the Pennington County Court House in the City of Thief River Falls, Pennington County, Minnesota, on the 11th day of September, A. D. 1920, at ten o'clock A. M. of that day, to satisfy the amount then due on said mortgage, including said taxes, together with the costs of such and Seventy-five Dollars ($75.00) Attorney's fees, stipulated in said mortgage and fixed by law.

Dated this 24th day of July 1920.

Citizens State Bank of Hazel,
Mortgagee.

## BUILDING YOUR WEALTH

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amount grows till each addition is a respectable sum.

Where does the gain come from? Not from your pocket. Nor from ours. It is the result of production. Money placed in a bank is given an opportunity to work and to produce.

Thus a bank builds your wealth.

Start with a small deposit if you will. Add to it when you can—regularly if you can do so. It will not be long till you can fairly see it grow.

**Make this bank your best Servant, open an Account with us today---NOW.**

# FARMERS TO ACT ON PRICE MONOPOLY

Washington — National farmers' organizations at a conference at Columbus, Ohio, Sept. 1, 2 and 3, will determine whether the wheat growers of the nation will make a "frank and open attempt to form a price fixing monopoly."

"There has been injected into the proposed co-operative movement to bring the producer and consumer closer together, a question so controversial and fraught with so many possibilities that farmers must decide at once to face the issue." This is according to Charles A. Lyman, secretary of the National Board of Farm Organizations.

The Columbus meeting, according to all indications, will result in a show-down between the radical and conservative farm organizations. The Columbus meeting also likely will determine whether the farmers will enter into a hard and fast agreement with the American Federation of Labor.

The essential features of the proposed price fixing plan include:

First—A national marketing company organized on a non-stock, non-profit fixing basis so as not to conflict with the provisions of the Sherman anti-trust law. This will be formed after the nine principal wheat growing states have each been organized with at least 51 per cent of the growers signed up under a five year contract to deliver all of their wheat.

Second—In case of overproduction in any year, it will be necessary to store the surplus and perhaps cut the acreage the following year.

Third—The interests of the public are to be protected by including on the board of directors with full voting powers, representatives of the departments of agriculture and the federal trade commission.

Lyman says that sentiment expressed at a recent farmers' meeting indicates that the farmers themselves want "monopolistic control."

Secretary Lyman in writing of the Columbus meeting builds no air-castles for the farmers. He warns of probable dangers ahead when he writes:

"Assuming that it is right for the farmers to form themselves into large monopolistic price fixing combinations, and assuming that the wheat growers will be willing to form their five year pooling arrangements, that the business can be properly financed, etc., let us determine the probable attitude that the consumers of the country will take. Can we make them believe that a price-fixing monopoly of wheat by farmers is desirable? That is the fly in the ointment."

# WEEKLY REVIEW OF MINNESOTA BUSINESS AND ENTERPRISE

Spouting threshers, in operation from the Canadian border to the Iowa boundary during the past week, have turned much of Minnesota's crop of golden grain into silver dollars, and the advent of the harvest season has been marked by increased activities in almost every industry except wool, according to the weekly review of Minnesota enterprise, prepared by The Merchants' National Bank, of St. Paul, with the co-operation of leading banks in nearly every county, including the First National Bank and The First & Peoples' State Bank of Pennington county.

A week ago, reports showed the cattle industry was almost stagnant, with stockmen holding off for better prices. Since then, some shipments have been made. Forest fires which were threatening extensive damage in th Northern counties were checked by th rain of August 19. More than $2,000,000 in bonds have been disposed of by a score of cities and counties, for municipal improvements and road work. A series of showers and one fairly heavy rain, preceded and followed by clear, sunny days, have proved a boon to the farmer.

Here and there adverse conditions have been reported. Lightning caused scattering damage in the southern counties, destroying some stock and damaging a few farm buildings. Several thousand dollars worth of crops were in the path of the Northern forest blazes. Small robberies seemingly the operations of automobile gangs, have been rather numerous. The wheat crop, on the whole, ranged from fair to bad. In a few districts, the yields were better than 12 bushels to the acre but in many counties where rust affected the wheat, the acreage was small and the other crops approached bumper size.

Oats, corn, rye, barley, flax, sugar beets, clover and potatoes, will bring millions of dollars to Minnesota farmers this fall. In some districts, particularly in the central and northern counties, bankers reported a slight reduction in loans as a consequence of the movement of crops to the markets. Farmers in some of the Southern counties, however, indicated a desire to hold their grains for higher prices and they expressed criticism of th federal reserve bank order that farmers should meet threshing loans immediately after the harvest.

Organization of pure bred cattle associations has been vigorous and widespread. More than a score of such organizations were formed within 10 days and many more are in the making. Some of these new organizations are planning exhibits for their county fairs, or for the state fair. Several county fairs, held during the past week, received record breakers, and evpry indication points to the fact that farmers are weeding out their poor cattle and are replacing the animals with pure bred stock.

Real estate activities are improved. Iowa farmers, mostly men of means, are buying land throughout Minnesota. Visitors from Michigan have been looking over Northern Minnesota's lands. The cement tie-up has partly been lifted. Several big farm land deals have been reported; one sale in Wright county at $325 an acre netting a farmer who owned the land eight months, a profit of $14,000.

This seems to be a fine fruit year and a poor year for Northern berries. The car supply situation is irregular. Some counties reported a serious shortage; others had an ample supply. Labor conditions have improved and employment agencies in the Twin Cities have been trying to find jobs for itinerants expecting high wages. The coal situation at the head of the lakes is improved.

Ninth District.

Becker county—Oats, barley and hay very good. Wheat fair. Good rain Aug. 19. Real estate and building activities slow. Labor high and hard to get. Improving state road north of Detroit. Crops had more rain than in some counties farther south.

Mahnomen county—Rust hit wheat. Fifty to 60 per cent crop. Oats about 90 per cent. Rye good; barley and flax fair. Call deposits declining. Loans increasing. Plenty of cars thus far. Labor situation satisfactory. Farmers investing in Holstein cattle. State roads in good condition. Potatoes better than was expected. Mahnomen banks assisted farmers in obtaining labor. Grasshoppers and black rust did some damage to crops.

Roseau county—Threshing about completed. Some good yields. Lack of cement has checked building. Two hundred per cent increase in gasoline sales throughout county. Cattle and wool a drug on the market; tell us why? Many tourists still driving through to the Lake of the Woods. Some forest fires still burning.

Red Lake county—Fine harvesting weather. Rust affected wheat. Real estate moving slowly. Car situation satisfactory. Sufficient labor. Plummer farmers have purchased an elevator. County considering a $250,000 good roads project. Many farmers improving their stock.

Marshall county—Harvest about finished. Plenty of labor. Modern road to Red lake under consideration.

Polk county—Threshing well under way. Weather hot, cold, and dry. Demand for loans has decreased. Wheat has yielded as high as 20 bushels. Other crops fine. Cattle situation improving. Barley fields thus far threshed showed fair average. Easier situation for grain cars.

Ottertail county — Movement on foot for uniting Eastern Ottertail townships with Wadena county. A new district named Clover county has been suggested by some. Residents of this district say Fergus Falls, the present county seat is too far away. Wheelocks Weekly soon will become the Fergus Falls Tribune. Fergus Falls property assessed at $4,545,000. Fergus Falls Commercial club arranging to dispose of remaining cyclone debris.

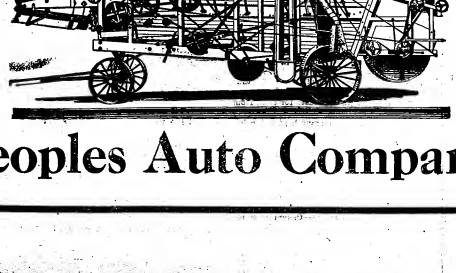
Big Reasons Why You Should Prefer an Ideal

1 *Large Capacity*—The Rumely Ideal can't help but be a big capacity machine: it is built on the common sense principle of *keeping the straw moving*. There's absolutely no chance for slugging, winding, choking, bunching or any other hindrance to large capacity, when the straw is *kept on the move* as it is in the Ideal.

2 *Saving the Grain*—Saving all the grain is just as important as producing it—of course. The Rumely earned the name "Save-all-the-grain-Ideal"—*by saving it*. In any kind of straw—headed, bundled or loose rakings—dry, wet or frozen—the Ideal handles all jobs the same—without waste.



3 *Clean Work*—This is accounted for by the extra large chaffer area, the adjustable sieve in the shoe, and the Ideal system of wind control—a guarantee of a perfect job of cleaning without waste, under every condition. The Ideal does the kind of cleaning that gets you no "dockage" at the elevator.

4 *Strongly Built*—One-piece timber can't pull apart, sag or rot, as spliced or bolted members will. The Ideal is a one-piece job—sills, posts, deck rails, straw rack sides. Then, there are the heavy, substantial trucks, and all shaker hanger bearings running in adjustable boxes. That's the kind of construction that *insures* long life.

5 *No Vibration*—Vibration makes a young machine old before it has served its time—it wears out the bearings and pulls the shafts out of alignment. Counter balancing of all moving parts in the Ideal—perfect balancing of the cylinder—make the Rumely so steady running that when compared to other separators vibration simply does not exist.

6 *Easy to Operate*—You don't have to crawl inside the Ideal to get at the working parts. All bearings, concave adjustments and regulation of the blast are on the outside of the machine, also all oil and grease cups, where you can take care of them while the Ideal is running.

The Ideal is built in five sizes—22x36, 28x44, 28x48, 32x52 and 36x60.

## UNDUE HASTE

The newspapers and the public generally are discussing Harding and Cox. Cox, by the way, desires to be discussed. The more he can occupy the spotlight the more the real issues will be obscured and only by obscuring the issues, and the record of his party and his masters at this time, has he the slightest chance to win. Cox is an Ohio newspaper man, self-made, aggressive, adroit, in fact cunning in politics. He has come up to the Governorship of a great state and is now the nominee of his party for President. He evidently is a good man, not as good, and certainly not as great as he is touted to be at this time. He was put in by Murphy of Tammany fame and Taggast of French Lick gambling house fame. He owes his nomination to this machine. That is not a serious thing against him politically. These machines in both parties attract the worst men in the country. Harding is also a self-made man, a newspaper man, of good ability, a calm, honest, capable man, probably not so aggressive as Cox, more deliberate in action, not so fearless, more calm and judicious. Harding is about as near 100 per cent stand pat as can be. His nomination was promoted, made possible and put over by Boss Penrose of the Republican party. When we look at the record of Penrose, we feel constrained to say to the democrats, "Leave us along and we won't say a word." Finally what is it all about? Never mind Harding, never mind Cox, personally. The republican party is trying to dispose of the democratic party and get back into the business of running the Government. If elected, Mr. Harding will be the chairman of the Board of Directors, the National Congress will be the Board of Directors, and we voters will be as we have been—the stockholders. The only important question is, do we want a new chairman of the Board of Directors at Washington? If you are satisfied with the business administration handed out to you by Prof. and Mrs. Wilson during the past years; if you want a continuation of what you have had, vote for Cox. He promises faithfully, solemnly and seriously to "carry on" in the same ridiculous fashion. Mr. Harding on the contrary promises a team work. He promises to consult, he promises to preside as chairman of the Board, recognizing the right of Congress to be a part of the Government, and to remember that we the stockholders have rights to protect. Finally remember Harding and Cox personally are not much in the great scheme of things as they are. Both parties have good men and bad men, both a record. Scan the record and see if you want a continuation of the waste, blunders, excessive taxation, selfishness and autocracy we have had to endure during a period of eight years of "Professore Government." If you decide to vote the Republican ticket the act will not be clothed in sanctity. If you vote the Democratic ticket it will not be a crime, not the way the criminal code reads at this time.

## THE CLOSED MILLS.

The American Woolen Company has the courage of its convictions. It recently ordered the closing of some of its great mills and the consequent throwing out of work of a large number of employees for reasons which were not definitely understood, but which were variously and in some cases most unfavorably interpreted by the public. We took occasion to urge in these pages that it was a prime duty of the company, to itself and to the public, to make its reasons for closing unmistakeably known to all men. To that urging it now replies, saying:

"The sole and simple reason of the Directors of the American Woolen Company for closing its mills was the cancellation of orders and lack of new orders to take their place. Any statement to the contrary or attributing other reasons for the action of the Directors is without foundation.

"This company manufactures goods on orders of its customers. It manufactures almost no cloth to carry in stock. It opens its lines to take orders usually, twice a year. When we opened our goods last January we took orders enough to run all our mills on full time for six months. In June more than one-third of these orders (two months' work for our mills) had been cancelled and practically no new orders had come in.

"To continue to manufacture goods with no demand for them, no customers in sight, merely to pile up in our warehouses, would have been financial folly. We could not have justified it as a business proposition on any grounds whatever. The only reasonable course was to suspend operations of the mills until a new demand for cloth warranted our opening them again".

Now it is gratifying to have the company so expeditiously and circumstantially respond to our suggestion that it should take the public into its confidence and "make clear, beyond any uncertainty, doubt or cavil, the reasons which justify its extraordinary action." It has made its reasons thus clear; but whether they will be regarded as fully justifying its course in closing its mills is not so certain.

Thus there still remains unanswered the query concerning the company's profits in the last few years, and whether they have not been so great that the mills might be kept open at a dead loss and yet the company be a very large gainer on the whole operations of a term of years. Thus if the company could have kept the mills open this summer at a loss which still would have let its profits for the five years 1916-20 considerably exceed those for the preceding five years, it may well be asked whether it would not have been good morals, good policy, and good citizenship for it to do so. For we are not by any means willing to regard it as out of the question or preposterous for a corporation to carry on its business for a time at a loss. Many do it, and would be either ridiculed or censured if they did not. Companies and individuals not infrequently do business at a loss, for the sake of the large profits which they expect to gain in the future. That is simple business shrewdness. Why then, it may pertinently and logically be asked, should they not for a time do so, in view of the large profits which they have actually received in the past?

Again, everybody knows that certain corporations, such as railroads, are at times operated at a loss. But they never think of suspending operations on that account. If they did, they would be universally condemned and their charters would probably be forfeited. It is recognized that they owe to the public the duty of enduring loss for a time rather than to inflict upon it the far greater loss of deprivation of essential service. We cannot concede that so-called "public utility" corporations stand in that respect entirely in a class of their own. However legal technicalities may differ, there is a certain moral analogy among all business concerns, and the same moral obligation to consider, above all, the general welfare of the public, rests upon them.

It has long been a stock argument against profit-sharing that there are times when there is no profit, but a deficit, which somebody has to make good; and it has been asked if employees who are eager to substitute profit-sharing for the wage-system would be equally willing when necessary to share in the deficits and to suffer assessments to make them good.

We do not consider that an entirely convincing argument against profit-sharing; but we are quite sure that whatever validity it may have, is very seriously jeopardied by such a course as the American Woolen Company has adopted. It can no longer ask if profit-sharing employees would be willing to help meet deficits, since, without granting them profit-sharing, it declines itself to bear a deficit, and, to avoid it, throws its employees out of work and deprives them of their wages. Practically it takes their wages from them in order to cover a prospective deficit.

It is much to be regretted also, that the company's throws no light upon the anomalous state of affairs in the cloth and clothing trade to which we called special attention. That is, that at the very moment when this company was closing its mills for lack of orders for cloth, retail clothing-dealers were complaining of the scarcity of supplies, and clothing manufacturers were protesting their inability to get the cloth that was needed in their business. We do not dispute the American Woolen Company's statement concerning its lack of orders for cloth. But we must wonder why it did not receive orders from the clothiers who were so greatly in need of supplies. What was the matter with the law of supply and demand, that it thus ceased to operate? Could not the mill-owners get orders for cloth from those clothiers who were wringing their hands in anguish at not being able to get goods with which to supply their customers? Could not those clothiers send orders for cloth to the mill-owners who, for lack of such orders, were driven to shut up shop? There should have been a liaison officer to bring demand and supply together! It is all very puzzling.

We must accept—though with reluctance, for its own sake—the American Woolen Company's explanation of its reasons for closing its mills. But we are greatly afraid that until more light is thrown upon these essential features of the case, which we before suggested and which we have now repeated, there will be a widespread inclination to regard the company's statement as explaining rather than as justifying its course.

This of course is only our opinion. It may be right. It may be wrong. In any case, President Wood's tacit recognition of the public's right to definite information in a matter so directly concerning their well-being is most gratifying and deserving of the highest commendation.—Harveys.

### An Efficient Move.

After more than a dozen years fight the United States Government has just put into operation a law recently passed retiring its aged employes on part pay. During August the first deduction of two and one-half per cent of each pay check for the retirement fund was made.

At the same time, no substantial changes in the salaries of Government clerks have yet been made and in some cases the rate of pay obtains today that was in effect as far back as the period when the old sailing frigate America first cleaned up the British fleet and brought the pewter cup to these shores to tempt future Liptons to build their successive Shamrocks.

It is quite true that the higher salaried officials of the Government have received very great increases in their salaries. For instance, we used to hire a President for $50,000 a year, but Lincoln worked for much less and George Washington was not paid anything for fathering the American republic. Now every Ohio editor expects $100,000 a year to do the job. There are more perquisites to garnish the position than the whole undertaking cost in the days of our fathers.

But with ordinary Government clerkships in Washington it is different. These places are lookoed upon in the Capital as "great jobs for girls and widows." When viewed as a "career" for men they hold very little in the perspective. What the Government has recently done for its superannuated employes and in supplying a retirement fund for the future is very similar to the plans put into effect by the International Harvester Company and some of the other corporations several years ago. The fact that the Government has become a party to the scheme for retiring its employes after long and faithful service is regarded as showing the tendency of the age toward the recognition of individual efforts in every walk of life, no matter how insignificant a part the individual may have performed in humanity's workshop.

This Sale for 1 Day Only Saturday, August 28

—OF ALL—

# Summer Merchandise

## A REAL SALE---A SAPERO SALE!

*You know the values we give when we advertise a sale*

**Over 100 garments to go at the one price of . . . . . $10**

This sale is for one day only--Saturday. We made the prices so low that this merchandise will move out Saturday. We must have the room for new fall goods. None of these sale goods will be shown in the windows. No signs or picture puzzles but real values.

## The following garments go at the one price of

10 Spring Coats, values to $35.00
10 Summer Organdie and Voile Dresses, values to $35.00
5 Georgette Crepe Dresses, values to $35.00
6 Taffeta Dresses, values to $25.00
5 Wool Serge Dresses, values to $27.50
5 Spring Suits, values to $45.00
5 Evening and Party Dresses, values to $39.50
10 Beautiful Silk Fan-Ta-Sa, Tricolette and Kum-Si-Rom-Sa Skirts, values to $25.00
10 Pretty Tricolette Blouses, values to $20.00

# $10.00

First come first served. We could get more for these garments by running the sale about 10 days but we need the room, and need it badly. You'll buy 2 or 3 of these wonderful garments when you see them.

Just remember that the merchandise mentioned above is new Spring merchandise and is not goods that has been carried over 2 or 3 seasons nor has it been bought for sale purposes.

**Citation for Hearing on Petition for Probate of Will.**

Estate of Svend Talaksen Dale.

State of Minnesota, County of Pennington, in Probatae Court.

In the matter of the estate of Svend Tallaksen Dale, Decedent.

The state of Minnesota to Kari Dale, Emma Halvorson, Bertha Petersen, Anna Dahle, Knute Dahle, Aslak Dahle, Ole Dahle, Tallak Dahle, Elvend Dale, Ole Dale, Svend Dale, Knute S. Dale and all persons interested in the allowance and probate of the Will of said decedent:

The petition of Kari Dale being duly filed in this Court, representing that Svend Tallaksen Dale, then a resident of the County of Pennington and State of Minnesota, died on the 17th day of October, 1919, leaving a last Will and Testament which is presented to this Court with said petition, and praying that said instrument be allowed as the last Will and Testament of said decedent, and that letters testamentary be issued thereon to Kari Dale.

Now therefore you, and each of you are hereby cited and required to show cause, if any you have, before this Court, at the Probate Court Rooms in the Court House, in the City of Thief River Falls, County of Pennington and State of Minnesota, on the 20th day of September, 1920, at 10 o'clock a. m., why the prayer of said petition should not be granted.

Witness the Honorable Ira C. Richardson, Judge of said Court, and the seal of said Court, this 24th day of August, 1920.

IRA C. RICHARDSON,
Judge.

WILHELM MICHELET,
Attorney for Petitioner.
Thief River Falls, Minn.
(Court Seal) A-27-S-3-10

**Order For Hearing on Petition For Guardianship of Incompetent.**

State of Minnesota, County of Pennington, ss, in Probate Court.

In the matter of the Guardianship of Ruby A. Hall, an insane person.

On reading and filing the petition of Ivo L. Hall, praying for the appointment of a guardian for the Estate of Ruby A. Hall,

IT IS ORDERED, That said petition be heard, and that all persons interested in said matter be and appear before this court at the Probate Court Rooms in the Court House in the City of Thief River Falls in said County, on the 21st day of September, 1920, at 10 o'clock a. m., and then and there or as soon thereafter as said matter can be heard, show cause, if any there be, why said petition should not be granted; and that a copy of this order be served upon said, Ruby A. Hall personally, also upon the Superintendent of the State Hospital for the Insane of North Dakota, at Jamestown, North Dakota, at least fourteen (14) days prior to said date of hearing on said petition above specified. Also, that copy of this order be mailed to Charles H. Hall, Courtenay, North Dakota and to Marie Hall Malke, Wimbledon, North Dakota, not later than the first day of September, 1920, and that said order bepublished in The Tribune, a legal newspaper published at Thief River Falls, Minnesota, for at least two successive weeks prior to said date of hearing on said petition as above specified.

Dated at Thief River Falls, Minnesota, this 24th day of August, 1920.

IRA C. RICHARDSON,
Probate Judge.

THEODORE QUALE,
Attorney for Petitioner.
(Seal) A-27-S-3

**Auditor's Final Notice of Hearing in Ditch Proceedings.**

State of Minnesota, County of Pennington, ss.

In the matter of the Petition of Carl Bieswinger and others for repair of Public Ditch No. 35 in the County of Pennington, State of Minnesota.

Notice is hereby given that a petition has been filed in the office of the County Auditor of said County, praying for the construction of a public ditch, designated and numbered by the County Auditor of such County as County Ditch No. 35 beginning at the main Channel of County Ditch No. 35, at or near the Northeast corner of the Southeast quarter of Section 11, Township 153, Range 42, extending thence west along the south side of said Northwest Quarter of Section 11, and across the Northwest Quarter of said Section 11, running thence through the following described lands, to-wit: The Northeast Quarter Section 11, the Northwest Quarter Section 11, the East half of Section 10, Township 153, Range 42 and terminating at the Red Lake River, as appears by the report of the Engineer hereinafter mentioned and that the names of the owners of the lands and the names of the Municipal and other corporations that will be affected by the construction of said ditch, as appears in the report of the Viewers, hereinafter mentioned, are as follows, to-wit: Thomas Sanders, Ole Bolstad, Tobias Skjerping, Albert Ness, J. W. Helland, Continental Land Co. "Tobias Skjerping, Krist Larson, Chas. Fisher, Carl Bieswinger, Krist Larson, Elias Angel, B. B. Hammer, S. C. Dahlquest, L. N. Zeigh, Francis J. Hardisty, Ole M. Pederson, Herman Swanson, Severt Brekke, Louis Stenseth, Fred Lane, Ole Forthun, Iver T. Austad, Thor Gunderson, Oscar Enevson, Halvor Loken, J. L. Fodstad, Anton F. Dandn, Johanna Bragstad, Ole P. Sandness, Mary Austin, Johanna N. Hanson, Emilia Ramstad, Olaf Ramstad, Fred Ptacek, Hans J. Skogstad, John M. Use a Roofing With a Good Reputation Back of it

A great many roofings look considerable alike, but when they are put into service they quickly show the stuff that is in them.

The price per square of most roofings of the same ply is about the same—only a few cents difference one way or the other as a rule. But there is frequently a big difference in the quality of material used in making them.

We have used great care in selecting the roofings we sell so that we can stand back of them and give you full roofing value for your money.

We have a good roofing for any purpose for which you need such material

## VIKING

Dr. Mellby of Thief River Falls was a professional caller at Viking last week.

A. J. Axelson came home from Winnipeg, Canada, last Thursday evening. The Axelson family will leave for Canada in the near future, where Mr. Axelson has charge of a grocery store. The people of Viking gave them a surprise at the church Saturday evening. They were presented with a sum of money as a remembrance.

Two baby boys were born in Viking last week, one at the S. S. Nordgaard home Tuesday and one at Chas. Larson's Thursday.

Mr. and Mrs. L. M. Myrbo autoed to Thief River Falls Saturday evening

Iver Anderson left for Luna Monday morning to help out at the Elevator during the busy season.

Grain threshing began in full blast Monday. The Johnson rig at Albert Peterson's, Gustafson's at T. Betts and George Nelson on the south of Viking run. The grain yield is not heavy this year, due to rust, sow thistle, etc.

Last Sunday Viking played their final baseball game for this season. They played the Helgeland team at Helgeland. Our boys played a good game, taking into consideration that we were handicapped by the absence of three of the regular players and playing not a Helgeland home team as it was understood to be, but a team composed of hired players from Radium and Angus. The score was 8 to 25 in favor of the opposing team. A few weeks ago we played Helgeland on the local diamond and won with a 5 to 14 score. Our team has lost only two games out of six which shows what Viking can do. Last Sunday two of the players were men who were substituted and had not played with the team before.

Misses Esther and Jennie Tangquist and Aleck and Iver Anderson autoed to Warren Saturday evening.

Neil Axelson of Oslo Sundayed in Viking with his folks.

Mr. and Mrs. S. Hanson visited at the Wasley home in Numedal last week.

Mr. and Mrs. Joe Janson and children are back from their trip to New York, Niagara and various other places. They report having had a most enjoyable trip. Steward from Thief River Falls has had charge of the depot during their absence.

## GERMANTOWN

Miss Ruth Boyce visited with Bernice Struble one day last week.

Benard Bendickson was a business caller at Thief River Falls Thursday.

Mrs. Hans Dahl was a Sunday guest at the Marthius Johnson home.

Mrs. Chester Boyce and son were business callers at Thief River Falls Friday.

Albert Johnson visited at the Henry Roller home one day last week.

Miss Minnie Bentlin was a guest of Silva Bendickson Sunday.

Miss Olga Overby was a business caller at Thief River Falls one day last week.

Guests at the Emil Hanson home Sunday were: Mr. and Mrs. Serphine Rolland and children.

Mr. and Mrs. O. Tharaldson and children were guests at the Olaf Tharaldson home Sunday.

Miss Linda Bentlin departed for International Falls where she will be employed.

Rore Vakoch was a Germantown caller one day last week.

Guests at the Overby home Sunday were: Mr. and Mrs. Olson and family; Mrs. Cummings and children, Mr. Kast Jr.; Mr. and Mrs. Serephine Rolland and family; Misses Della, Bessie and Gladys Roller, Carl and John Hoberstroh and Lester and Curtis Hanson.

Mrs. Hans Dahl called at the Albert Rohrer home Sunday.

Hannah Jelle of Thief River Falls visited at the Overby home over Sunday.

A number of friends were entertained at the Robert Rambee home Sunday.

Misses Nettie, Esther and Silva Bendickson visited at the Overby home Sunday evening.

## ST. HILAIRE

Carl Johnson and family of Duluth arrived the latter part of last week on a motor tour and visited at the home of Mr. Johnsen's sister, Mrs. N. A. Nelson and with other relatives in this community.

Gladys Vigen came up from Bemidji last week for a visit at the home of her grandparents, Mr. and Mrs. R. L. Hauge.

Mrs. T. H. Tinsman and children returned to Grand Forks Saturday, after a visit at the home of her brother, Iver Anderson, who resides south of the village.

Misses Manda and Helga Kalland left Friday for Loomis, S. D., where they intend to spend a fortnight or more at the home of their sister, Mrs. H. Rishel.

After visiting with relatives and friends in this part of thes tate, Gust Berg and children departed Saturday for Spokane, Wash., where they will reside.

Misses Carrie and Selina Simonsen returned Saturday from a visit at the home of their sister, Mrs. O. Stearns.

The Otto Johnson and H. Jepson families, accompanied by Mrs. R. L. Hauge, motored to Crookston Sunday to visit at the home of Mrs. Jepson's mother, Mrs. Hanson.

C. E. Hooper, who has spent the past fortnight at the home of his brother, G. W. Hooper, left Saturday for DesMoines, Iowa, expecting to visit at Minneapolis and Blue Earth while enroute.

After having spent a month at the home of her parents, Mr. and Mrs. M. Fricker, Mrs. V. Nelson went to her home at Grygla Sunday.

B. Theo. Johnson, accompanied by Miss Leona Allen and Melvin Berry, motored to East Grand Forks Sunday and were guests at the home of Mr. Johnson's mother-in-law, Mrs. O. Brink.

Mr. and Mrs. E. O. Burkee, accompanied by Miss Gladys Olson, motored to Crookston Sunday to attend the auto races. Misses Esther Fricker, Gertrude and Lucile Blanks and Geo. Fricker were also among the spectators.

Mrs. S. Hauge and children of Bagley are guests at the home of Mrs. Hauge's parents, Mr. and Mrs. H. O. Jackson.

The L. Giese family motored over from their home near Euclid to spend Sunday at the H. O. Jackson home.

Mr. and Mrs. Fricker and daughters were Sunday guests at the C. Kruse home in Polk Centre township.

Miss Adella Kruse and E. Sundholm motored to Crookston Tuesday.

Mr. and Mrs. A. C. Kvennes of Middle River motored down to this village Wednesday evening for a brief call on friends. On their return home, they were accompanied by Miss Eva Johnson who will be a guest at the Kvennes home for a few days.

The many friends of Alfred Larson a resident of this village but a few months, were shocked to hear of his death which occurred on Wednesday morning. Mr. Larson had been in apparently good health up to two weeks ago when he began to feel poorly. He contracted a severe cold which hastened the end tho death was due to kidney trouble. Death came unexpectedly for Mr. Larson himself summoned a doctor early Wednesday morning. Four or five hours afterward death came. He was sixty-three years of age at the time of his death, was born in Sweden and came to this country when but seven years of age. He was a pioneer settler of Black River township where he resided until last spring, when he moved to this village. Mr. Larson leaves a wife and other relatives to mourn his loss, besides hosts of friends who will miss him as a kind and helpful neighbor. Funeral services will be conducted at the Swedish Lutheran church of this village at two o'clock on Friday afternoon.

Mr. and Mrs. E. O. Burkee motored to Maple Lake Tuesday.

## ROSEWOOD

One of the largest Young Peoples' society meetings this season was held at the Congregational church in town last Tuesday evening, when student David Segerstrom of North Park College, Chicago, was present and delivered a stirring lecture on vital christian topics. The church was nearly filled with an attentive audience of all ages and comprising several auto loads of youngsters from Viking, who were personally acquainted with Mr. Segerstrom, who spent a few months there this summe; teaching summer school. A number of English songs were sung by the audience with Miss Gladys Swenson at the organ. Coffee and lunch was served.

Mesdames Sena and Tena Eggen and several children from Kelliher are here this week to visit with the Anton Gullseth family in town and at the G. J. Nordhagen home south of town. Mr. Nordhagen is a brother to Mesdames Eggen.

The following left Sunday morning for a day's outing at Maple Lake and Menter: Mr. and Mrs. A. S. Holm, Miss Annie Holm, Mr. and Mrs. John Sagmoen, Miss Isabelle Sagmoen and Joel Shoberg.

Mr. and Mrs. B. P. Sagmoen left Saturday evening for Thief River Falls from where they will on Sunday, in company with Mr. and Mrs. Severt Benson, leave for a few days' visit with Mr. and Mrs. P. Pearson at Lengby, Minn. The trip will be made in Mr. Benson's car.

The Adolph and Selmar Haugen families motored to Warren last Saturday evening to visit with Mr. and Mrs. Geo. Anderson and family.

Mrs. Benard Ranum returned last Friday from Minneapolis where she spent a week as guest of her sister, Mrs. Roy Skinner and other friends.

Judge A. Grindeland of Warren was in town last Saturday evening on business connected with his real estate west of town.

The following were callers at the Carl Mellem home: Mr. and Mrs. C. Haarstad and family; Mr. and Mrs. S. Naas and family. Mr. and Mrs. A. Hellquist and family of Newfolden; Mr. and Mrs. P. Pederson and family of Holt and Mr. and Mrs. Peter Mellem.

Miss Mabel Loppegaard left the latter part of the week for Thief River Falls, from where she will leave on Sunday, in company with her sister, Mrs. Henry Carlson and family and the Peter Stromberg family for a brief stay at Maple Lake.

Miss Anna Holm who has been staying in town the past week as a guest of her brother, A. S. Holm and Mrs. Holm, returned to her home in Twin Valley last Sunday.

L. L. Furan and John Sorenson have purchased John Remmem's feed barn and ice house in town and will move the same on their property farther north, where they will be remodeled and used in connection with the first named garage business.

Thom Holten and Carl Bloom have been extending the Viking Telephone Co. line west from town this week to secure connection with their farm homes.

Miss Olga Thoreson returned to Thief River Falls last Thursday evening, where she is employed, after spending a few days vacation with her parents here.

Misses Tina and Nina Westby left last Monday evening for Goodridge where they will assist their brother, Martin, with home work for some time.

Mrs. John Sorenson and daughter and two boys, arrived here by car last Monday and will visit with the Peder Pederson family out north.

Corn harvest is carried on extensively. Threshing is carried on and the yield on the average seems to come out satisfactorily.

When you advertise you go half way. There's a meeting place for the seller and the buyer of real estate. This meeting place is in the classified advertising columns of this paper. The owner is represented by his advertisement. The prospective buyer turns to these columns—and if the ad enlists his interest the transaction is under way.

MINNESOTA IS MOVING RIGHT UP AMONG NATION'S BIG CORN STATES

### High Rank Is Gained In Spite of the Short Season.

Minnesota is climbing as a corn state. Ten years ago its corn acreage was 1,590,000 and its yield not quite 59,000,000 bushels. Last year its corn acreage was 2,970,000 and its yield 118,000,000 bushels. Its acreage has grown about 75 per cent in ten years and its yield a little more than 100 per cent. In point of total yield Minnesota ranks seventh among the corn states of the country. In point of yield per acre it ranks fifth.

**Corn-Growers Handicapped.**

Minnesota has climbed to this position as a corn state in spite of a serious handicap—the shortness of the season.

This handicap imposes the need of special care on the Minnesota corn-grower. For seed he must get corn that has matured before Sept. 20, because the Minnesota corn area has a killing frost not later than that date and seed corn which has matured before that time of year will usually produce corn which will mature before that time the next year. He must select seed corn early, also, so that he may have time to dry it thoroughly before freezing weather comes. If it is not dry before frozen it is sure to be injured.

**Four Things To Do.**

The Agricultural Extension Division of the University, therefore, is urging on the farmers of Minnesota four things:

The selection of seed corn during Seed Corn Time, September 10-20.

The selection of seed corn from a field of corn adapted to the locality.

The storing of this seed corn in a dry well ventilated place where it will dry quickly and stay dry.

The selection of 50 ears of corn for each acre to be planted the following year, in order to provide for resolection in the spring.

A. D. Wilson, extension director of the University Department of Agriculture, is urging those points on all the farmers in Minnesota in a letter being sent directly from University Farm.

If you are going to invest in a tractor a part of the

Miss Clara Peterson left on Thursday afternoon for Ada where she will visit with friends and relatives before resuming her duties as a teacher.

## SOCIETY

### Towel Shower.

Mrs. L. F. Fisher pleasantly entertained a number of ladies at her home on Thursday afternoon at a towel shower in honor of Miss Blanche Johnson, whose marriage will soon take place. The guests were Mesdames O. F. Melby, E. Zeh, H. W. Froehlich, F. C. Nistal, F. J. Stehhins, Nels Christianson, P. W. Mabey, Victoria McKinney, E. O. Mogensen, G. Halvorson and Albert Johnson. At the close of the afternoon, a delicious lunch was served by Miss Zella Zeh and Miss Meta Kiland.

### Entertained at Dinner.

Mr. and Mrs. A. Johnson pleasantly entertained the W. W. Prichard family at dinner on Wednesday evening. Covers were laid for fourteen.

### Picnic.

Dr. M. G. Milan was a delightful host last Friday when he entertained a number of friends at a picnic on the banks of the Red Lake river, a little south of this city. After the picnic the guests all attended the dance given by the American Legion. Those having the pleasure of the occasion were Mr. and Mrs. J. Bratrud, Mr. and Mrs. G. W. Connell, Mr. and Mrs. G. W. Booren, Mr. and Mrs. R. H. Ross, Mr. and Mrs. H. W. Froehlich, Mr. and Mrs. H. W. Protzeller, Mr. and Mrs. O. F. Melby, Mr. and Mrs. L. F. Fisher, W. A. Barnard, Mr. and Mrs. Nels Christianson, Mr. and Mrs. E. O. Mogensen, Mr. and Mrs. P. W. Mabey and P. O. Myhrum.

### Mrs. Cook Entertains.

Mrs. R. G. Cook entertained a number of her friends at her home Tuesday afternoon. The afternoon was spent in needlework and conversation. At five o'clock a delicious lunch was served. The guests included Mesdames Alherz, Cronkhite, Gobler, Nason, Rayson, Biddick, Wikel, Rolland, Alexander and Severson.

### Linen Shower.

Misses Marie Nelson and Hazel Conklin entertained at a linen shower on Saturday evening in honor of Miss Blanche Johnson. At the close of a pleasant evening a delicious lunch was served. Those having the pleasure of the affair were: Mesdames V. C. Noper, A. Johnson and O. L. Cronstrom and the Misses Dora Holmes, Laura Stoppel, Irma Johnson, Grace Wilson, Meta Kiland, Una Nelson, Mary Prichard, Effie Hanny, Marian and Ella Miller, Zella Zeh, Merriam Bishop, Gena Granum and Blanche Johnson.

## KIEWEL OPEN NEW FACTORY LAST SATURDAY

MODERN BUILDING THROWN OPEN TO INSPECTION

New Home of Puritas Products Modern in Every Respect and will be Big Help in Business.

The new Kiewel ice cream factory was formally opened last Saturday evening and a large crowd inspected the new home of Puritas products.

It was the intention of the company to get settled in their new building the week before but so many different matters of importance came up at the last minute that it was impossible for them to get moved in until the latter part of the week.

The opening was especially planne dso that the entire public could be there and go through the new building. There were souvenirs for ladies and soft drinks for the men were the principal attractions and everyone present fully enjoyed the hospitality of the Kiewel company.

The new building is modern in every respect. The company have their own ammonia plant, thus dispening with the use of ice altogether. In the room used for storage the ammonia circulates continually and in this manner keeps the room ice cold at all times. The first floor is given over to offices and the machinery for the manufacture of ice cream is also located on this floor. An elevator connects the first floor with the basement and in this manner the products are seaily handled and at little expense. A loading platform at the rear of the building is also an important feature and eliminates much in the way of hard labor and is a big time saver.

The former building is to be used as a store house and will be mighty handy for this purpose. In this building everything that is not immediately used in the process of manufacture will be stored until neded, thus saving much in the way of room in the new plant

The Kiewel company is a valued addition to the city's assets It is a model factory and has a capacity of over 1,000 gallons of ice cream daily. The popularity of the company's product thruout the northwest has been instrumental in the erection of the new buiding and the location of the plant in this city. It is a credit to the town and means much from a business standpoint.

**Predicts Ten Cent Sugar.**

Sugar will be ten to eleven cents by January, Russell J. Poole, secretary of Chicago council's high cost of living committee, stated in submitting the result of an investigation. The country's beet crop will be from 30 to 40 per cent larger than ever before produced, it was also predicted. The report states the new Cuban crop will be about four million tons or three times the 1914 crop.

Mr. Poole said "if the consumers begin now to buy as little sugar as they can get along with we will have 10c or 11c sugar by January 1st, as there is no shortage."

**Banqnet and Dance.**

The Thief River Baseball Association are giving a final blowout in commemoration of a successful season on Thursday evening of this week and invitations to about fifty couples have been mailed out.

It was found after paying all bills there was a little money left on hand and as this is not customary or permissible with the average team, considerable time was spent in figuring out a way the money could be spent and the banquet and dance idea was the only solution to the matter and accordingly committes were pnt to wor kand the invitations issued.

It goes without saying that the affair will be a hummer and will be one of the pleeasent events of the season. The team has ben composed of regular sports who have devoted their time and money to the game for the love of the sport and they have done remarkably well in the face of all the difficulties encountered. The record of the season just closed is one which every member can take pride in and in spite of the fact that they failed to win at times when they had everything in their favo rand it looked as tho they should, they played a good game the season thru and gave the fans of the community full value in the way of baseball.

The banquet and dance is to be held at the Evelyn Hotel and the committee in charge state this is to be one of the hottestcontesst even held in the town.

**Moves to South Dakota.**

Oscar C. Hanson and family departed Sunday evening for Watertown S. D., where Mr. Hanson has purchased a fine home. Mr. Hanson has been for many years associated with the Empire Lot Company of this city. In Watertown he will be manager of the newly organized Codington Sales Company, incorporated to handle city property and sub-divisions. As a salesman of additions and town sites. Mr Hanson has had wide experience and has probably sold more lots than any single salesman in the Northwest. We predict unbounded success for the Codington Sales Company under Mr. Hanson's skillful management.

**Mrs. Richter Ill.**

Mrs. J. Richter underwent an operatio for acute appendicitis at the local hospital last Saturday and withstood the operation successuflly, a fact her many friends will be pleased to learn.

## PAVING LOOKS AS THOUGH IT WAS CERTAIN

DECISION FAVORABLE TO MARSHALL HELD SOLUTION

The Decision Reached in Marshall Case Practically Identical With Local Case.

Z Prospects for the paving of the streets of Thief River Falls are becoming more bright each day and from all appearances it now looks as if it were going to be possible to put the paving across, or at least a small part of it, before winter sets in.

At a special meting of the city of Marshall, Minn., just handed down by the Supreme Court in favor of the city, leads the city officials of this place to believe that the courts will do the same with the case now pending and as a result the city will be allowed to go ahead with the paving under the original plan.

The council expressed themselves as being intent on going ahead with the paving this year if at all possible and the contractor's bonds, which were submitted for approval, were gone over and practic accepted, which means that the contracior will be on the job in the near future and will start the curb and gutter work. It is also the intention of the council to change at the same time the wiring of the white way, using an armored cable that will eliminate the short circuits the department have been battling since the present cable was installed. The new cable is to be installed at the same time the curbing and gutters are installed and will be permanent when once installed aand no further trouhle had from this end of the city light system.

The cotractors have been notified of the intention of the city to go ahead with the paving of the streets and will soon be here with their crew installing the preliminary work and if possible pave a few blocks before the cold weather sets in and the work is held up for that reason. It has not been fully decided which street will be first paved but it will be one of the principal down town streets which will require the least amount of work at this time. By the ttime snow flies it is confidently expected to see a few blocks of paving installed in the city and the balance completed next summer.

**Attempted Burglary.**

It is becoming the fashion in this city to attempt house breaking and whether or not the burglar uses good judgment in selecting the scene of operation is questionable. So far he has failed to gain entrance to many of the places visited and this is conclusive evidence that he has been seriously handicapped by locks and such trifles. Last Thursday evening a burglar or burglars attempted to gain entrance to the Strand Grocery on Third street and succeeded in working their way thru a window to find that the passagle was blocked with shelving and other material that kept them from making the desired entrance. As a result Mr. Strand lost nothing from this visit and is thankful that the window was blocked with shelving. Several other places have been given the once over hy the burglar recently and it ia now only a question of time until he becomes so bold as to attempt daylight robberies, thus putting this city on an equal with Minneapolis and some of the larger cities which boast of holdups in the business sections in broad daylight.

DOWN WITH A CRASH

## ATTENDANCE AT PRODUCE MEETING LARGE

ASSOCIATION IS NOW FORMED AND READY FOR BUSINESS

By-Laws Adopted and Plans Laid for One of the Biggest Organizations in the State.

The Pennington County Produce Association held a meeting in the Farm Bureau office on Friday, August 27th. A large number of interested potato growers were present who hope to make the association one of the most successful of its kind. At least four more metings will be held during the year for the purpose of outlining the work of the organization. By-laws were adopted at the last meeting and the association is now ready for business.

Any producer of farm products, including both the landlord and tenant in territory tributary to Thief River or St. Hilaire may become a memebr of the association by agreeing to comply with the requirements of the by-laws and by becoming the owner of a share of stock in the association.

Each grower upon becoming a member of this association shall enter into a contract with the association in the form required by the Board of Directors. Said contract shall specify, among other things, that the grower appoints the association his agent for the purpose of handling, storing, grading and marketing all the potatoes and other products contracted for and delivered to it and he binds himself to deliver to the association such products at such titme and place as may be mntually agreed upon.

The period of the contract will extend indefinitely, provide dthat aany grower wishing to withdraw his memebrship may cancel his contract on the first of July of any calendar year upon giving thirty days' notice to the association.

Any detailed information may be obtained at the Farm Bureau office or from Alfred Benson of St. Hilaire, who is president of the association, of from the secretary-treasurer, R. J. McKercher of St. Hilaire.

**Stores to Close.**

Labor Day in Thief River Falls, which falls on Monday, September 6, will he observed and all the stores of the city will be closed on that day. Housewives are to take due notice of this fact and do sufficient shopping on the Saturday previous to carry them over. The stores will will be closed all day.

**Farewell Party.**

In honor of Mr. Cordes, Tuesday evening, August 31, at the Auditorium at 9 o'clock. Sandwiches coffee and [illegible] golden eggs to be opened. L. A. Hermanson.

## BIG MEETING TO BE HELD BY ASSOCIATION

MERCHANTS' ASSOCIATION TO HAVE MEETING SEPT. 14

H. P. Mann of Devils Lake, N. D., Secured to Make Principal Address at Banquet.

September 14th is the date set for the next meting of the Merchants' Association, and after a quiet and peaceful summer it is expected the meeting will start the fall activities off with a rush and be instrumental ino bringing about many important features for the comiag winter months.

The meting will be held in the Evelyn Hotel and will be in the form of a banquet. H. P. Mann of Devils Lake, N. D., has been secured to make the principal address of the evening and if Mr. Mann's reputation is anything to go by something out of the ordinary and of especial interest is assured.

Mr. Mann is one of North Dakota's most progressive merchants and has developed a business in a town similar to the size of Thief River Falls that is only equalled by stores in some of the lsrger cities. He has worked up a half millfon dollar business in the mercantile line and hos appearance here is to tell how it was done and how merchants can accomplish the same thing by proper application of business methods.

The address of Mr. Mann is sure to be highly instructive tot the business men of the city and should be heard by every man in Thief River Falls. The Merchants' Association are exceedingly fortunate in securing Mr. Mann for this meeting.

**Limiting Sales.**

Although railroads will honor return trip tickets purchased heretofore, even after the new fare increases go into effect, according to announcement from Washington, there apparently is no general policy regulating sale of tickets now which will not be used entirely before rate adjustments are made.

A circular iasued by Cal. E. Stone, passenger agent of the Great Northern, directs that no tickets be offered for sale if a journey is not completed before midnight September 1. The Northern Pacific is operating under the same management, according to A. M. Cleland, passenger agent. He believed that more general policy is to refuse the sale of tickets, any portions of which are not used before fare advances.

The Burlington, however, is selling tickets without discrimination on the basis of old rates, according to F. M. Rugg, passenger agent. No roads are prepared to sell tickets to be used after August 27. Rate schedules with the approximate 20 per cent increase have not yet been compiled.

**To Meet at Warren.**

W. A. Ziegler, secretary of the Northwestern Minnesota Educational Association, attended a meeting of the Association at Warren on Monday of this week an da this meeting it was decided to hold the annual meetiag of the association at Warren this year. The meeting will be held on October 21, 22 and 23. The meetings formerly have been held eitherat decided to hold the meting at that this place or Crookston, but upon the nrgent invitation of Warren it was place this year.

**Vinje-Wick.**

Conrad Vinje and Mabel Wick, both of Pine Creek, were united in marriage Saturday afternoon at the Zion Lutheran parsonage. Rev. Geo. Larson officiated in the presence of Bennie Wick, a brother of the bridegroom, and Elsie Wick, a sisiter of the bride. The newly wed couple will make their home in Wiking.

## BAD WEATHER SUNDAY STOPS LEGION'S RACES

WILL BE HELD NEXT SUNDAY AND MONDAY INSTEAD

The Labor Organizations of the City Are Also Backing the Proposition to Help the Legion.

Due to the rain of last Sunday the Legion race meet was postponed and the committee announce they will hold the meet next Sunday and Monday at 2:30 at the fair grounds should favorable weather prevail. The same eatries will participate in the events aand it is tbe desires of the local post to make this one of the big events of tbe seasoa. They have gone to every imaginable expense aad trouble to put these races over and they hope to see a good crowd turn out for the big blowout next Sunday and Monday. The local unions of the city will also help the Legion post stage these races.

The races at Crookston a week ago were given by the post at that place and were attended by over three thousand people and as a result the post was able to clean up a neat sum from the proceds. The local post at this place have had hard sledding in a financial way and have been hard pressed for funds in several instances to take care of their fiancial obligations. In practically every entertainment they have staged they barely managed to break even and not always did they have the good fortune to break even. As a result they have been unable to cope with the situation and to take advantage of many of the actitvities indulged in by other posts and to take the necessary steps to put this post on the map.

It is sincerely hoped the weather man next Sunday will be on his good post to the extent of good weather bebavior and will assist the local post tto the extent of good weather at least. It will then be up to Pennington county to turn out aad do the rest. The Legion needs the support, so see that you are on the job next Sunday and give them a lift over the rough spots.

**Here Thursday.**

Mr. H. C. Mortenson of Lankin, N. D., drove in Thursday for a short visit with friends. Mr. Mortenson has land in this vicinity. He gets along once or twice a year and registers as a booster for Peninngton county. Chris generally adds a little spice to the Rumme game while here anad leaves as a rule with respect for the ability of the local talent. Chris is a sportsman of high order, trapshooter, fisherman, huntand gentleman.

**Brought to Earth.**

Municipal Judge N. W. Tarranat succeeded in bringing Al Forseth, manager of the International Flying Circus of Grand Forks, down to earth Monday morning. Forseth, who makes county fairs and race meets with his stock of racers and aeroplanes, arrived in Thief River Falls the latter part of the week to be on hand for the race meet of the Legion. The rain knocked his plans askew however and to pass the time he started rummaging around until he finally managed to locate some of Canada's best fire water and then the fun began. He was finally rounded up and taken to police conrt where he was assessed a fine of $5 and his pal was also assessed the same fine. The fine was paid and the party started on the return trip to Grand Forks.

## SCHOOL OPENS NEXT TUESDAY IN FULL FORCE

FIRST DAY TO BE GIVEN OVER TO REGISTRATION

Excellent Corps of Instructors Secured and Present Year Gives Promise of Being Banner

School will begin Tuesday morning, September 7. There will be a meeting of the teachers on Monady, September 6. The pupils will not report for work until Tuesday morning. Each student will be required to register under the personal supervision of a teacher, who will discuss the most available program for the books on hand will be sold to the students who desire to purchase them aand all next text books will be purchased from Mr. Laird and perhaps other dealers.

It is desired by Superintendent Ziegler that all people having rooms for rent or who can booard teachers, that he be notified. It is a hard thing for teachers to come into Thief River Falls as strangers and be compellled to walk the strets to find living quarters. People should open up their homes when it can be conveniently done for the benefit of the teachers and anyone feeling that they can accommodate any of the teachers this year will confer a great favor upon the teachers by making that fact known to Superintendent Ziegler. There are also calls by students for places to work for board. Anyone desiring to have students to work should also notify Mr. Ziegler, as the requests are beginning to come in.

Everything is in readiness for the opening of the school [illegible] n all the buildings. All of the [illegible]tors have their buildings in unusually good condition. The last year's corps of janitors will officiate again this year. Lincoln High Shool and Washington buildings, Fred Holzknecht and O. Sortland; Northrop building, John Reitz. Central building, Nels Larson. Knox building, Otto Geske.

**Picnic Dampened.**

The Elk's picnic, which was scheduled to be held at Squaw Point last Sunday, was temporarily unjointed and the plans knocked high when a cold drizzliing rain set in about 11 a. m. and continued until late in the afternoon. The plans of the committees had gone so far however that it was impossible for them to postpone the picnic as the big feed had all been prepared and would have ben wasted otherwise. As a result the picnic was held at the fair grounds and one of the buildings was uttilized for the serving. The crowd, game to the last ditch, followed the procession and lined up for the noon handout. Eating was rather a chore and many hiked to the grand staand and any other available place that was covered. A great many ate in the automobiles which were on every hand and while it was cold and disagreeable the two hundred or more present managed to get thru in good shape and make a fair meal. The Legion races which were scheduled to be held at four o'clock were also postponed and the drivers notified that the races were called off. The bad weather spoiled an otherwise pleasant day and kept many people from attending what promised to be the biggest picnic ever pulled off by the local order.

**New Printers on Job.**

The Tribune has beea reinforced duriag the past week with addditional help and they are now on the job makig things hum. C. E. Cruzan, of Elk River, has arrived aad taken charge of the liaotypes, and H. S. Snyder, of Munich, N. D., is on the job is compositor. With the addition of this help The Tribune is now equipped to take care of everything in the printing line at short notice.

**Return to Watertown.**

S. X. Way and family of Watertown, S. D., who spent the week end at the home of Mr. Way's brother, Thos. A. Way, started on the return trip to their home Monday morning. The trip was made via automobile and with the exception of a little engine trouble the distance was covered in record time.

**Seven Women Claimed One Man.**

Will be the subject for Thursday evening, Sept. 2, at the Chautauqua tent. Who are the seven women and who is the man? Tuesday evening, Bible baptism and confirmation. Scandinavians, come and hear.

# OFFICIAL PROCEEDINGS OF THE BOARD OF CO. COMMISSIONERS

Thief River Falls, Minnesota, Aug. 17th, 1920.

On the call of the County Auditor pursuant to Chapter 230 of the Laws of 1905 and Acts amendatory thereto the County Board of Pennington County Minnesota met in the office of the County Auditor in the City of Thief River Falls, at 2 o'clock p. m. for the purpose of hearing on the Engineer's report on County Ditch No. 68, and for any other business that may legally come before said meeting.

Meeting was called to order by the chairman. All members present.

The matter of hearing on county ditch No. 68 was taken up and the petitioners as well as many of the parties who will be assessed for the construction of the same were given an opportunity to express themselves for or against the establishment of said ditch.

After a due consideration it was moved and seconded that the hearing be adjourned until Saturday the 21st day of August at 7 o'clock p. m., at which time the Engineer will be given an opportunity to file a report on some changes that may come up in said proceedings. Motion carried.

Petition of Ben Peterson to be set off from School District No. 2 and attached to School District No. 25 was presented to the Board and the same was turned over to the County Attorney for his opinion. The County Attorney returned the same with the following remarks, "The petition does not state facts sufficient. The petitioner should ask that the land between that of the petitioner and the boundary of District 25 should be included in the petition. The petition must also state other facts in order to get within the terms of Sections 2704, Statutes of 1913." The petition was on motion duly rejected.

The following resolution was offered by Commissioner McGinn who moved its adoption duly seconded by Commissioner Roy:

Be it resolved that a greater portion than 30 per cent of the State Aid as alloted to Pennington county is necessary for the maintenance of the State Roads in said county for the year 1920 and the percentage to be used for such maintenance from State Aid allotments is hereby fixed at 45 per cent subject to the approval of the Commissioner of Highway.

All members present voted for the resolution and it was so declared approved.

Motion made and seconded that the meeting adjourn until 7:30 p. m. Motion carried.

OSCAR J. PETERSON,
Chairman.

T. P. ANDERSON,
County Auditor.

Thief River Falls, Minnesota, Aug. 17th, 1920.

Pursuant to adjournment, the County Board re-convened at 7:30 p. m. All members present.

Owing to the large crowd attending, motion was made and duly seconded that the meeting adjourn to the Court room. Motion carried.

The meeting was called to order in the Court room by Chairman Commissioner Peterson. The purpose of the meeting was to act on the report of the Engineer on County Ditch No. 70 and for any other business that may legally come before said meeting.

The matter of hearing on the Engineer's report on County Ditch No. 70, came duly up for discussion. Attorney E. M. Stanton appeared for the petitioners.

Irving E. Quist, being Engineer in charge of said ditch was called and explained the details of the report.

Motion made and seconded that this meeting adjourn until Tuesday, evening the 31st day of August at 7:30, at which time the Engineer will be given an opportunity to file a report of some minor changes in said proceeding. Motion carried.

OSCAR J. PETERSON,
Chairman.

T. P. ANDERSON,
County Auditor.

Thief River Falls, Minnesota, Aug. 21st, 1920.

Pursuant to adjournment the County Board for Pennington County men in the office of the County Auditor in the City of Thief River Falls, at 7 o'clock P. M. for the purpose Hearing on the Amended report of the Engineer on Ditches Nos. 68 and 70.

Meeting was called to order, all B. N. Thorstad, S. L. Lind, S. B. Swenson, O. L. Larson, Nels Nenaas and others, for Locating and Constructing County Ditch No. 68 in Pennington County, State of Minnesota.

The above entitled matter came on duly to be heard by and before the County Board of the County of Pennconsidering the petition for said ditch or drain and the report and reciner appointed to make a preliminary survey and recommendations in the above entitled matter, on the 17th day of August, 1920, at two o'clock P. M. of said day and which meeting was continued until the 21st of August, 1920, at 7:30 P. M. and it appearing by proper evidence that due notice has been given of the pendtime of hearing thereon, and that Irving E. Quist, the Engineer appointed by this Board to make a preliminary survey of said proposed ditch, has completed his work and filed his report and recommendations thereon in the office of the County Auditor of said County, O. A. Napkin, Esq., appearing for the petitioners and no one appearing in opposition, the said Board did, at the time above specified, proceed to hear said petition, and said Engineer's report thereon; and said Board having duly considered said petition an hear all the parties interested for or against the establishing construction of said ditch as recommended by the Engineer, and all other matters pertaining thereto, find as follows:

1. That a petition in due form, executed by more than eight persons who are qualified petitioners in this proceeding was duly filed in the office of the County Auditor in and for Pennington County, Minnesota, on the 15th day of June, 1920.

2. That a proper and sufficient bond in behalf of said petitioners herein was likewise duly filed and duly approved on said 15th day of June, 1920.

3. That said Engineer has completed his preliminary survey and filed his report, according to law, and that the report of said Engineer and the ditch petitioned for is practical.

4. That the said proposed ditch or improvement as petitioned for and as recommended by the Engineer is a public necessity and will be a public benefit and promote the public health; and that it be modified by this Board according to the following finding and that as so recommened and modfied the outlet will be of sufficient capacity to take care of the water draining into said ditch and its laterals.

5. That the main ditch petitioned for shall begin at the North Quarter Section corner of Section Twenty-six (26) in Township One Hundred Fifty-four (154) North of Range Fifty-four (44) West, thence running South along the Quarter line through Section 26, thence West one-half mile between Sections 26 and 35, thence South along the west edge of Section 35 of said Township and Range, and Section 2, 11, 14, 23 and 26 in Township 153 North, Range 44 West, to a natural water course in the Northwest Quarter of Section 26, then in a Southeasterly direction along said water course to the North and South Quarter line through said and Section 26, thence South along said Quarter Section line in Sections 26 and 35 to an outlet in County Ditch No. 21, then deepening and enlarging said outlet for a distance of about two and one-half miles.

6. That Lateral No. 1, as recommended by the Engineer, begin at the Northeast corner of Section Thirty-six (36) in Township One Hundred Fifty-four (154) North of Range Forty-four (44) West, thence running South along the East edge of said Section 36, and Sections 1, 12, 13, 24, 25 and 36 in Township 153, Range 44, to the Southeast corner of said Section 26, thence in a Southwesterly direction across Sections 1 and 2 in Township 152, Range 44, to an outlet in County Ditch No. 1.

7. That Lateral No. 2, as recommended by the engineer, begin at the Northeast corner of Section Thirty-five (35) in Township One Hundred Fifty-four (154) North of Range Forty-four (44) West, thence South along the East edge of said Section Thirty-five and Sections 2, 11, 14, 23 and 26 in Township 153, Range 44, to the quarter line running East and West through said Section 26, thence West along said Quarter line running East and West through said Section 26, thence West along said Quarter line to the Center of Section 26, thence South along the North and South quarter section line to the Main Ditch as an outlet.

8. That there is no public demand for Lateral No. 3 and this Board rejects the recommendation of the Engineer for the establishment of said Lateral No. 3.

9. That the Notice of this hearing up on the petition in this matter has been duly given, published and mailed as by law required, and that proofs of said service of said notices have been duly filed in the office of the County Auditor of said County, and that all other proceedings in the matter have been made and taken in accordance with the provisions of law.

Now, therefore, as conclusions from the foregoing findings, we, the County Board of the County of Pennington, State of Minnesota, at a Septthe t ogna edeiscvimbu gton, cial Session of said Board, held at the time above specified, being satisfied that the proposed ditch will be a public utility and benefit and a necessity for public health and convenience, and that a sufficient outlet is furnished by the deepening and enlarging of County Ditch No. 1, do hereby order the establishment and location of said Ditch according to the report of the Engineer made and filed herein, as modified by the foregoing findings of fact and according to the accompanying map prepared by said Enginer, which as made a part of this order.

It is further ordered that Irving E. Quist, the Engineer heretofore appointed to make a detailed survey of the improvement petitioned for and as changed and modified by the Engineer's report and by this Order and to make his report thereon to the Board strictly in conformity to law on or before the 28th day of August, 1920, and shall file a copy of said report thereof with the Commissioner of Drainage of Water of the State of Minnesota.

Given under our hands this 21st day of August, 1920.

By the Board,
OSCAR J. PETERSON,
Chairman Board of County Commissioners of Pennington County, Minn.
Attest:
T. P. ANDERSON,
County Auditor Ex-Officio Clerk of Board.

**Order Appointing Viewers**

In the matter of the petition of B. N. Thorstad, O. O. Maland and others for County Ditch No. 68 in the County of Pennington, State of Minnesota.

State of Minnesota, County of Pennington, ss.

Whereas, a petition bearing date the 11th day of June, A. D. 1920, signed by B. N. Thorstad, O. O. Maland and others, praying for the establishment of a ditch in said County, designated and numbered by the County Auditor as County Ditch No. 68, the route of which is fully described in said petition, together with a proper bond accompanying the same, has been filed with the County Auditor of said County; and said County Auditor has given due notice of the pendency of said petition, and the said notice has been published and served as by la wrequired; and hearing had on said petition pursuant to said notice; and the said County Board of said County have heretofore duly appointed a competent engineer, to-wit: Irving E. Quist, to mak a survey of said ditch.

Now, Therefore, We, the County Board of said County, at the Special session held on this day, do hereby appoint W. E. Wood, O. O. Hoffdahl and P. O. Sorlum, three resident freeholders of said County, who are not interested in the construction of said proposed work, and not of kin to any of the parties known to he interested therein, to be viewers, and said proposed work and of the route thereof. The said viewers shall first take an oath to faithfully perform their duties as such viewers, and thereafter, having received a certified copy of the petition for said ditch and of the order appointing them as such viewers and of the order of the County Auditor of said County designating the time and place of the first meeting of said viewers, shall meet at the time and place specified in the order of the County Auditor aforesaid and shall proceed to view said proposed work, and the land damaged or benefited thereby; and having completed said view and examination of said work, shall make and file their report thereof with said County Auditor of said County within thirty days from the date of their first meeting. In said report they shall in tabular form give the names of the owners of each tract of land to be benefited or damaged by said proposed work, the description of each tract of land so benefited of damaged (said names of owners to be the same as appear on the County tax dulicates of said County, and the description to be given in legal form), and the total number of acres in each of said tracts, the estimated number of acres in each tract of land to be benefited or damaged (as the case may be), the number of acres added to any tract by the total or partial drainage of any meandered lake, or the change of any wataer course and the location and value of such added land; the am-

age, if any, to riparian rights pertaining to any tract and the amount that each tract of land will be benefited or damaged by the construction of said work. In case said ditch drains, either in whole or part, any public or corporate road or railroad, or benefits any such road so that the roadbed or traveled track of any such road will be made better by the construction of said ditch, said viewers shall estimate the benefits arising therefrom to said road, roadbeds or railroads, and report said benefits, together with the names of roads and other particulars necessary to identify the corporations, private or public to be benefited thereby, and amounts of benefits to each. they shall report as part of such tabular statement the damages awarded to each municipal or other corporation for injury to any road or roadbed, and from the necessary construction and maintenance of ay bridge, culverts or other works rendered necessary by the establishment of such ditch, stating the same separately. They shall also report the total estimated benefits in respect to said ditch entire, and branches thereof, if any, and also whether or not, in their opinion, the estimated expense of the construction of said ditch, including the damages assessed therefor, is greater than the utility of said proposed ditch. and whether or not said proposed ditch is impracticable for any reason, and if so, stating the reason why it should not be constructed. In making said view and survey of said proposed work and their report thereon, the said viewers shall proceed according to chapter 230 of the General Laws of 1905 as amended.

The County Board of Pennington County, Minnesota.

Dated this 21st day of August, A. D. 1920.

County Auditor.

The hearing on Engineer's report on County Ditch No. 70 was next called. E. M. Stanton appeared as Attorney for the petitioners.

State of Minnesota, County of Pennington, ss.

In the matter of the petition of John Bratrud and others for the establishment o fCounty Ditch No. 70 in the County of Pennington, State of Minnesota.

The above entitled matter came on duly to be heard by and before the County Board of the County of Pennington, State of Minnesota, at a special meeting of said Board duly called for the purpose of hearing and considering the engineer's rport on his preliminary survey of the ditch referred to and described in the petition herein, on the 17th day of August, A. D. 1920, at seven thirty o'clock in the afternoon of said day, and it appearing that due and proper notice had been given of the pendency of said petition and of the time of the hearing thereon and that Irving Quist, the civil engineer appointed by the board to make a preliminary survey of said ditch, has completed his work and made and filed his preliminary report and recommendations therein in the office of the County Auditor of said County, E. M. Stanton appearing as attorney in behalf of the said petitioners, no attorney appearing in opposition thereto, and the said County Board, after hearing the evidence aduced at said hearing, did adjourn said hearing until August 21st, 1920, at the hour of seven thirty in the afternoon of said day for the purpose of taking further testimony with reference to said petition and for the purpose of allowing the said Engineer to make further investigatio nand recommendations with reference to said proposed ditch.

That said matter again came on for hearing at an adjourned meeting of said County Board held at said time and place, the same attorney appearing on behalf or said petitioners, and the said Board, after hearing all the testimony and having duly considered the recommendations and caanges of the said engineer finds as follows, to-wit:

1. That a petition in due form, executed by more than eight persons who are qualified petitioners in this

2. That a proper and sufficient bond in behalf of said petitioners herein was likewise duly filed and duly approved on said 4th day of August, 1920.

3. That due notice of hearing aforesaid has been duly given and proof thereof is now on file with the Auditor of said Pennington County, Minnesota.

4 That from the evidence before said Board, it is for the best interest of the territory affected by said ditch, that the same be constructed as proposed by the said Engineer in his said preliminary report, namely:

Main ditch: Beginning at the southwest corner of section 19, township one hundred fifty-four north of range forty-three west, thence along the south edge of said section 19, thence along the east edge of section 30, thence along the south edge of section 30 thence along the east edge of section 25, thence along the south edge of section 33, all in said township one hundred fifty-four north of range forty-three west and terminating in the Red Lake River.

Lateral No. 1. Beginning at the northeast corner of the southeast quarter of section 13 in township one hundred and fifty-four north of range forty-four west, thence south along the east edge of said section 13, thence east along the south edge of sections 18 and 17 in township one hundred and fifty-four north of range forty-three west, to and terminating in the Thief River.

Lateral No. 2. Beginning at the south quarter section corner of section 31 in township one hundred fifty-four, north of range forty-three west, thence east one-half mile along the south edge of sections six and seven in township one hundred and fifty-three north of range forty-three west and thence across the northeast quarter of section 17 to an outlet in the Red Lake River.

Lateral No. 3. Beginning at the southeast corner of section 31, township one hundred fifty-four north of range forty-three west thence north along the section line between said section thirty-one and thirty-twondistance of two hundred and forty rods, all shown by the said Engineer's proposed route and a recommendation by him, and that the said proposed improvement is practical and that there is a necessity therefor.

5. That the outlets of said ditch as herein provided for will be adequate and of sufficient capacity to take care of the waters emptying therein by this proposed ditch and laterals.

Now, therefore, it is ordered that Irvine Quist, Esq., the engineer heretofore appointed shall proceed and make a detailed survey of the improvement herein petitioned for and as changed and modified by the recommendations of the said engineer and as above designated, and make his report thereon to this Board strictly in conformity to law on or before the 20th day of August, 1920, and shall file a copy of said report thereof with the Commissioner of Drainage and Waters of the State of Minnesota.

Given under our hands this 21st day of August, A. D. 1920.

By the Board.

OSCAR J. PETERSON,
Chairman Board County Commissioners of Pennington County, Minnesota.

Attest:

A. T. ANDERSON,
County Auditor and Ex-officio Clerk of Board.

Order Appointing Viewers

In the matter of the petition of John Bratrud and others for County Ditch No. 70 in the County of Pennington, State of Minnesota.

State of Minnesota, County of Pennington, ss.

Whereas, a petition bearing date proceeding was duly filed in the office of the County Auditor i nand for Pennington County, State of Minnesota, on the 4th day of August, 1920.

the 19th day of August, A. D. 1920, signed by John Batrud and others, praying for the establishment of a ditch in said County, designated and numbered by the County Auditor as County Ditch No. 70, the route of which is fully described in said petition, together with a proper bond accompanying the same, has ben filed with the County Auditor of said County; and said County Auditor has given due notice of the pendency of said petition, and the said notice has been published and served as by law required; and hearing had on said petition pursuant to said notice; and the said County Board of said County have heretofore duly appointed a competent engineer, to-wit: Irving E. Quist, to make a survey of said ditch.

Now, Therefore, we, the County Board of said County, at a Special session held this day, do hereby appoint W. E. Wood and O. O. Hoffdahl and P. O. Serlum, three resident freeholders of said County, who are not intereste din the construction of said proposed work, and not of kin to any of the parties known to be interested therein, to be viewers of said proposed work and of the route thereof. The said viewers shall first take an oath to faithfuly perform their duties as such viewers; and thereafter, having received a certified copy of the petition for said ditch and of the order appointing them such viewers and of the order of the County Auditor of said County designating the ttime and place of the first meeting of said viewers, shall meeet at the time and place specified in the order of the County Auditor aforesaid and shall proceed to view said proposed work, and the land damaged or benefited thereby, and having complete said view and examination of said work, shall make and file their report thereof with said County Auditor of said County within thirty days from the date of their first meeting. In said report they shall in tabular form give the names of the owners of each tract of land to be benefited or damaged by said proposed work, the description of each tract of land so benefited or damaged (said names of owners to be the same as appear on the County tax dulicates of said County, and the description to be given in legal form), and the total number of acres in each of said tracts, the estimated number of acres in each tract of land to be benefited or damaged (as the case may be), the number of acres added to any tract by the total or partial drainage of any meandered lake, of the change of any water course and the location and value of anch added land; the damage, if any, to riparian rights pertaining to any tract, and the amount that each tract of land will be benefited or damaged by the construction of said work. In case said ditch drains, either in whole or in part, any public or corporate road or railroad, or benefits any such road so that the roadbed or traveled track of any such road will be made better by the construction of said ditch, said viewers shall estimate the benefits arising therefrom to said road, roadbeds or railroads, and report said benefits, together with the names of roads and other particulars necessary to identify the corporations, private or public, to be benefited thereby, and amounts of benefits to each; they shall report as part of such tabular statement the damages awarded to each municipal or other corporation for injury to any road or roadbed, and from the necessary construction and maintenance of any bridge, culverts or other works rendered necessary by the establishment of such ditch, stating the same separately. They shall also report the total estimated benefits in respect to said ditch entire, and branches thereof, if any, and whether or not, in their opinion, the estimated expense of the construction of said ditch, including the damages assessed therefor, is greater than the utility of said proposed ditch; and whether or not said proposed ditch is impracticable for any reason, and if so stating the reason why it should not be constructed. In making said view and survey of said proposed work and their report thereon the said viewers shall proceed according to Chapter 230 of the General Laws of 1905 as amended.

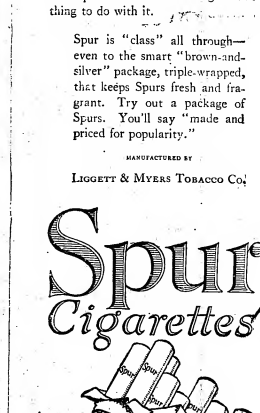
Listen, *good friends, and you shall hear why some Cigarettes are so all-fired dear*

SOME cigarettes are packed in pretty boxes that certainly don't grow on trees. Next, they're dolled up—and flavorings are sure getting expensive. And then, they're priced a bit high so they'll seem "exclusive." But read how Spur Cigarettes offer the highest possible quality at the lowest possible price:



If there are any finer tobaccos from the Orient and the good old U. S. A. than those selected for Spurs, they must be a secret that the world has never heard. And when we got these combined in Spur Cigarettes, what do you suppose was the result? Just the best taste and aroma that any cigarette could give, and Willie Doll-up or Freddie Flavoring hadn't a thing to do with it.

Spur is "class" all through—even to the smart "brown-and-silver" package, triple-wrapped, that keeps Spurs fresh and fragrant. Try out a package of Spurs. You'll say "made and priced for popularity."

*Needed By Farmers*

Most of the farmers in Pennington County are keeping their business well in hand thru systematic Checking Account records.

Many prosperous farmers around Thief River Falls are well known by their bank checks and characteristic signatures.

Every farmer can benefit by this businesslike method of paying bills, obtaining receipts, and building commercial prestige.

We welcome new accounts with an assurance of friendly attention.

The continuous favorable weather is a great help to the farmers. Threshing is proceeding without interruption. Much fall plowing is already done and plowing will be general on all farms from now on. We have had a bountiful harvest. Tame grass and wild hay are fine; pasture has been good throughout the season; stock is looking fine. Good paid a higpremium shidlu cmfwyp farming and good cultivation has paid a big premium this year. The farmers of Pennington tCounty are having a prosperous year. They deserve it and we are all glad with them. Pennington County soil cannot he excelled anywhere. Good farming, diversified crops and stock will make our farmers rich and the land more and more valuable. We are all dependent on the farmer for success. Let's hoost his cause whenever and wherever we can.

Charles Evans Hughes called on Candidate Harding at Marion, Ohio, last wek. Perhaps that accounts for the "Cool weather and light frosts in northern portion."

At the annual Legion meeting held in Duluth last week, Mr. Morlan H. Bishop was elected a member of the District, which has two members, one elected each for a two year period. Major Rossberg of Crookston was elected last year.

THE GREAT ORGY

Senator Calder has written to Secretary Daniels stating that despite the bill repealing authorization of $5,000,000 to build a dry dock in the Charleston Navy Yard, he, Senator Calder, understands that the Secretary is about to begin operations on the job.

And "job" it is, for if ever there was a "job" the sole result of which would be the wanton waste of millions of money, it is the Charleston dry dock undertaking. In his letter to Secretary Daniels, Senator Calder says that he believes the entire project, including dredging, will cost at least twenty million dollars. And this vast sum is for a project which no naval board has recommended and which, in the judgment of naval officers of high authority, is totally unnecessary and superfluous.

It is merely a repetition of the old story. The war time debauch of money squandering is still on. High and low, those in the administration cannot get over the scoop shovel habit of handling the money which the people of this country must stagge under back-breaking tax burdens to supply.

Speaking on the subject a few days ago, Chairman Good of the House Appropriations Committee, said that the government at this day is honeycombed with waste and dullcation, and he added: "When congress proposed a remedy that would put the greatest business in America, the government itself, on a business basis, a man in the Treasury Department wrote a veto for the president and the budget proposal was lost." So the duplication of jobs and the money shoveling of the administration go right on in full swing.

The end of the war did not end the crime—for such wanton waste of the people's money is crime, pure and simple. It went right ahead. Mr. Good cited an instance. He said: "Just three days after the signing of the armistice, when President Wilson said on the floor of the house, 'Thus the war is ended,' the Government entered into a contract with the Norfolk ferries by which the properties were take over by the government for operation.

"Before that time government appraisers looked over the property and estimated its value at $165,000, but in spite of that and in times of peace the government agreed to pay and annual rental of $135,000, almost the total value of the properties, and in addditon agreed to spend $1,000,- which they were then to turn over as soon as the operations of the ferries had brought in enough revenue for the rental payment."

Mr. Good does not exaggerate when he says: "Multiply such instances by the thousand and we have a picture of the wanton waste of the present administration." The undisputed specifications that have already been added on the floor of congress suggest a saturnalian orgy of lunatic squandering, rather than the careful actions of sane and honorable men entrusted with the grave responsibility of disbursing other people's hard earned money. The statistics of this infamous debauch are available. The people of the United States will have ample opportunity for their thoughtful inspection between now and next November.—Harvey's.

Cox says he will follow in the footsteps of Wilson. Do you want some more? Then vote for Cox.

## *A Paralell Case*

### Decision In Marshall's Case Similar to Paving Controversy In This City

The decision of the Supreme Court in the case of the city of Marshall, Minnesota, with reference to paving in that city, is similar to the case that is now in the courts regarding the paving in this city. The favorable decision handed down by the court in favor of the Marshall case leads the city officials of this place to believe the same will be done with the Thief River Falls case and as a result plans for the paving of the city are under way and will be pushed with all speed. The edecision in the Marshall case is as follows:

J. W. Pike, Appelant, vs. City of Marshall, et al. Respondents.

Syllabus.

Chapter 65 L. 1919 authorizes the city council of a city of the fourth class, not having a home rule charter, to contract for the pavement of streets and to issue certificates of indebtedness to pay the cost thereof without submitting the proposition of such issue to the electors of the city for approval or rejection.

Affirmed.

Opinion.

The appeal is fo a n edumnroarst

The appeal is from an order sustaining a demurrer to the complaint. The action is to enjoin the city of Marshall and its officers from paying certain streets. The complaint alleges that plaintiff is a taxpayer in the city of Marshall, a city of the fourth class, organized under the laws of this state; that the city council has properly passed resolutions authorizing certain treets in the city to be paved, and all the steps prescribed by chapter 65 L. 1919 have been taken to make the improvement, including the letting of the contract therefor to the defendant, Fielding & Shipley, a corporation; that unless restrained the cost of the improvement, except the paving at the street intersections, will he assessed upon abutting property; that there is not money in the city treasury to pay for the paving at street intersections and the cost thereof, to-wit $35,000, will be assessed as a general tax against the property subject to taxation within the city; that unless restrained the city will issue certificates of for paying the contractor for such such paving, as provided in said chapter 65, and that no election has been held submitting the issuance of such certificates to the legal voters of the city, as required by Sec. 783 G. S. 1913 (particularly Secs. 1854 and 1855). There is no allegation that the city has a home rule charter; it is conceded that it has not.

The question to be determined is whether the governing body of a city of the fourth class, not under a home rule charter, can pave its streets and issue certificates of indebtedness to provide the funds for such improvement, without the same being authorized by the electors at a duly called election. The same arguments now presented in thisemfwyp ments now presented on this proposition were made in Lodoen vs. City of Warren (not yet published), but it was not necessary to there decide it. for the city of Warren has a home rule charter, and as to such cities the act was held unconstitutional. However, it was decided that the act was valid as to all other cities of that class, so that now it is a matter merely of construing its requirements.

In Sec. 783 Rev. Laws 1905 (1854 G. S. 1913), found in chapter 10 relating to public indebtedness, is this inhibition: "No bonds of any municipality shall be issued without the approval, first obtained, of the majority of the voters voting at a special or general election." There are two exceptions not here important. The certificates of indebtedness to be issued under C. 65 L. 1919 may be conceded the equivalent of bonds Christ vs. City of Duluth, 82 Minn. 202. The sweeeping inhibition referred to in 783 is somewhat modified in respect to the subjects named in 784 (1855 G. S. 1913) reading: "When the governing body of any municipality shall have resolved that it is expedient to borrow money for one of more o fthe purposes hereinafter named, and to an amount which will not increase its net indebtedness beyond the limit fixed by law, and a proposal to do so, if required by law, shall have been duly submitted to and approved by the voters thereof, the bonds of such corporation may be issued and sold, conformably to the provisions of this chapter. One of the purposes named in the section is the construction of pavements.

The legislature may authorize a municipality to create bonded indebtedness either by a popular vote of through their duly elected representatives. In this case the city one method, when properly authorized, is as legitimate as the other. Courts are not concerned as to which one is used." Walsh vs. County of St. Louis, 108 Minn. 403.

Chapter 65, 1919 does not require a submission of the question of pavement construction or of borrowing the funds to pay therefor to the electors, and hence 784 does not directly call for an election in order to carry out the improvement. It is to be borne in mind that at the time of the enactment of the chapter on public indebtedness (c. 10) few if any villages or cities of the fourth class had any street pavements. The problem of paving the main strets in and the state highways through the villages and smaller cities is a recent necessity largely occasioned, perhaps, by the ever increasing automobile traffic. The law under consideration seem designed to facilitate the construction of this new necessity, and the proceture is in line with the provisions in respect to paving in cities of the first class. It is a complete workable law, prescribing the steps to be taken in detail from the inception of the determination to pave to the providing for the payment of the cost. The ultimate expense is to be borne by abutting owners except that the council may pay for the cost of a pavement across intersecting streets and alleys and one-half of the cost of a pavement opposite any public park or municipal property out of the general road fund, if there be any, or out of the general fund of the city. The improvement can only be made upon the adoption of a resolution to that effect by a majority vote of the council after a meeting at which all property owners whose property is liable to be assessed therefor, have been notified to be present, by a notice of such meeting published in the official newspaper. By resolution owners of abutting property may be compelled to lay the necessary sewer and water pipes before the work is begun. It provides for plans and specifications of the work and for bids. It authorizes the council to let the contract to the lowest responsible bidder, and permits certain payments on the contract during the progress of the work upon estimates. The levying of the assessments against the property benefited is prescribed, including those against the property owned by the county or school district, and also for supplemental assessments or corrections. An appeal to the district court is provided. And finally 69 of c. 65 gives the council authority to issue certificates of indebtedness as may be necessary to defray the expense incurred, the certificates to extend over a period of 20 years, and bearing iterest at not to exceed 6% per annum; the proceeds from the sale of the certificates to go into a special fund, and the amount of such outstanding certificates not to be included in determining the city's "net indebtedness" under the provisions of any applicable law.

The provision, giving affected property owners an opportunity to be heard before the city council is authorized to act upon a paving proposition, seems to negative the idea that a submission to the voters of the propriety of financing the project was contemplated. In this respect c. 65 follows closely the drainage law and the so-called Elwell law. It is also to be remembered that since the earliest times in this state the keeping of its streets in proper condition for travel has been laid upon every city of whatever class as one of its gen-

### THE PAVING ISSUE.

(Continued from page 4)

eral duties. Improvement of the streets of a city is not in the same category as providing armories, waterworks or lighting systems, or any other permissible business venture which a city may or may not elect to enter upon and the funds for which must be provided wholly by general taxation. In the matter of pavement only a fraction of the cost comes from such taxation, the bulk thereof being borne by the abutting property. It would be unreasonable in this day to suppose the legislature intended a city or village to incur the trouble and expense of an election every time it became necessary to pave a block or two of its streets.

That the absence from said c. 65 language excepting it from the operation of 783 Rev. Laws 1905 can be spelled out of c. 63 Laws of 1919. The former section remains intact, but is not called into operation under the provisions for issuing certificates of indebtedness pursuant to the later act, which is full and complete in itself. The statute limiting the indebtedness to be incurred by a municipality is upon a somewhat different footing from one which selects the agency or method for contracting a municipal debt. The limit of indebtedness fixed by the legislature may not be exceeded, except by the legislature's express sanction, no matter whether the indebtedness is contracted by the governing body or by the majority vote of the electors of the municipality. Statutes authorizing the issue of drainage bonds have not been questioned on the score that no election to approve such issuance had been had. Van Pelt vs. Berthiud 117 Minn. 50. And no such question was raised in Murray vs. Smith 117 Minn. 400, or in Alexander vs. McInnis 129 Minn. 165 relating to the Elwell law. The last case answers sufficiently the claimed contradictions in this law, in that although the certificates issued are not to be counted in the net indebtedness of the municipality, the whole thereof will not be paid from the assessments levied against benefited property.

The case of Beck vs. City of St. Paul 87 Min. 381 was decided on the proposition that the bonds proposed to be issued for the erection of an armory exceeded the limitation of the indebtedness imposed upon cities of the first class under home rule charters. The statute there involved was not a full and detailed enactment like the one before us.

Our conclusion is that chapter 65 Laws of 1919 should be construed to authorize the city council of a city of the fourth class, not having a home rule charter, to issue certificates of indebtedness to provide funds for the construction of a pavement without submitting the question to the electors for approval.

The order is affirmed.

## CHIROPRACTIC ADJUSTMENTS

Restore Health Quickly and Permanently

Ninety-five per cent of diseases are due to pressure upon nerves along the sides of the vertebral column. This pressure interferes with their functions; hence inflamation, unnatural action, pain and distress are manifested where these nerves end. All diseases are prolonged until pressure upon these nerves leading to the affected parts are adjusted.

If your health is below par you will be interested to know what a Chiropractor can do for you.

Free consultation and Spinal examination.

A great deal of physical distress is the result of an interference with Nature's way to keep the body in health. For this reason the more one knows about the body the better chance there is to resist disease and enjoy health.

The human structure is so constituted that it is unnatural for disease to creep in The nerve system is designed to give health to all organs and keep them in repair But Chiropractic that wonderfully successful drugless health science, has discovered that disease of any part of the body, headaches, stomach trouble, rheumatism, etc., is due to an interference with the flow of nerve energy to these affected organs, caused by the pressure of the bones of the spine on certain nerves. The Chiropratcor detects defects in the spine and by scientific adjustments relieves the pressure and removes the cause of the trouble.

When the distribution of energy is restored to normal, the weak and diseased organs are again supplied with sufficient power and the natural healing forces build up and strengthen them. Health follows naturally. Every progressive, thinking man and woman should know about

CHIROPRACTIC
THE BETTER WAY TO HEALTH

and learn more about the mechanics of the human body. Such knowledge will be of great benefit now and in the future and especially when illness threatens. Chiropractic (KI-RO-PRAK-TIC) has helped thousands back to health and strength, and it will help you and your loved ones and friends. Information gladly given.

**MORTGAGE FORECLOSURE SALE**

Notice is hereby given that default has been made in the conditions of a mortgage given by, Bert O. Roisland and Belia Roisland, his wife, to the Citizens State Bank of Hazel (A Corporation under the laws or the State of Minnesota), Mortgagee, dated the 2nd day of December, 1916, and recorded in the office of the Register of Deeds of Pennington County, Minnesota, on the 5th day of December, 1916, at eight o'clock A. M., in Book Fifty-eight (58), of Mortgages, on page One Hundred Thirty-four (134), thereof. That the said Citizens State Bank of Hazel has paid the taxes assessed against the premises described in said mortgage for the years 1916, 1917, 1918, and 1919, amounting in all to Two Hundred Ninety-six Dollars, Forty-nine Cents ($296.49). That the amount claimed to be due on said mortgage at this time, including said taxes, is One Thousand Two Hundred Sixty-four Dollars Eighty-two cents ($1,264.82). That the premises described in and covered by said mortgage are situated in Pennington County, Minnesota, and described as follows, to-wit: Lots Two (2), Three (3), and Four (4) of Section Three (3) Township One Hundred Forty-one (141) North of Range Forty-one (41), West of the Fifth Principal Meridian, containing One Hundred Forty-five and Fifty-one Hundredths acres (145.51), more or less, according to the Government survey thereof; that by virtue of the power of sale contained in said mortgage, pursuant to the statute in such case made and provided, said mortgage will be foreclosed by the sale of said premises, at public vendue, to the highest bidder, for cash, by the Sheriff of Pennington County, Minnesota, at the East front door of the Pennington County Court House, in the City of Thief River Falls, Pennington County, Minnesota, on the 11th day of September, A. D. 1920, at ten o'clock A. M. of that day, to satisfy the amount then due on said mortgage, including said taxes, together with the costs of such and Seventy-five Dollars ($75.00) Attorney's fees, stipulated in said mortgage and fixed by law.

Dated this 24th day of July 1920.

**Auditor's Final Notice of Hearing in Ditch Proceedings.**

State of Minnesota, County of Pennington, ss.

In the matter of the Petition of Carl Biesinger and others for repair of Public Ditch No. 35 in the County of Pennington, State of Minnesota.

Notice is hereby given that a petition has been filed in the office of the County Auditor of said County, praying for the construction of a public ditch, designated and numbered by the County Auditor of such County as County Ditch No. 35 beginning at the main Channel of County Ditch No. 35, at or near the Northeast corner of the Southeast quarter of Section 11, Township 153, Range 42, extending thence west along the south side of said Northwest Quarter of Section 11, and across the Northwest Quarter of said Section 11, running thence through the following described lands, to-wit: The Northeast Quarter Section 11, the Northwest Quarter Section 11, the East half of Section 10 Township 153, Range 42 and terminating at the Red Lake River, as appears by the report of the Engineer hereinafter mentioned and that the names of the owners of the lands and the names of the Municipal and other corporations that will be affected by the construction of said ditch, as appears in the report of the Viewers, hereinafter mentioned, are as follows, to-wit: Thomas Sanders, Ole Bolstad, Tobias Skjerping, Albert Ness, J. W. Helland, Continental Land Co. Tobias Skjerping, Krist Larson, Chas. Fisher, Carl Biesinger, Krist Larson, Elias Angel, B. B. Hammer, S. C. Dahlquest, L. N. Zeigh, Francis J. Hardisty, Ole M. Pederson, Herman Swanson, Severt Brekke, Louis Stenseth, Fred Lane, Ole Fortbun, Iver T. Austad, Thor Gunderson, Oscar Enevson, Halvor Ickes, J. L. Folstad, Anton F. Danda, Johanna Bragstad, Ole P. Sandness, Mary Austin, Johanna N. Hanson, Emilia Ramstad, Olaf Ramstad, Fred Ptacek, Hans J. Skogstad, John M. Sether, John Koycjoed, Andrew Brezney, Clement Cobuck, William Coates, Jr., Anton Korjeod, S. R. Sullivan, Joseph Topinka, H. L. Lovaas, Thomas Steiner, C. L. Hansen, Hans P. Rued, Daniel Shaw, John B. Baner, N. O. Buringrud, Lars Mattson, Ramstad and Molgaard, Aug. Lautenbach, A. M. Mikelstad, T. L. Chauland, S. J. Stenberg, James N. Nesse, John Ottedahl, Samuel Schaltz John Parker, T. J. Kempel, Joseph Ptack, Joseph Hruby, Sophie J. Quist, James S. Stiene, A. H. Dreheim, Ole Holmen, Andy C. Hurt, Ole P. Skukerud, S. E. Joslin, Grace E. Cornwall, A. S. Swanso, Henry Engelhorn, Jessie S. Coggshall, Gumder Olson, F. Blankenberg, Theo. Olson, C. P. Brovy, M. J. Greatinger, F. H. Wright, George P. Bryant, Town of Smiley to J. M. Thiele and that the Engineer appointed by the County Board of said County to make a survey of the route of said ditch has completed his work and made the report thereon, and filed the same in the office of said County Auditor; and that the Viewers appointed by said County Board to view the same have completed their work and filed their report thereon in the office of said County Auditor.

And that, therefore, the County Board of Pennington County, State of Minnesota will hold a special meeting on Wednesday, the 15th day of September, 1920, at the County Auditor's office in the City of Thief River Falls, in said County, at 7:30 o'clock p. m. of said day, for hearing and consideration of said petition and of said surveyor's and viewer's report thereon; and that all persons interested in the construction of said ditch are invited to appear and be heard by and before said County Board at said time for or against the construction of said ditch.

T. P. ANDERSON,
County Auditor.

We guarantee a small bottle Lavoptik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. F. J. Stebbins, druggist. T-3

**SEED CORN SELECTION**

**TIME ALMOST HERE**

Thousands of Minnesota corn growers will soon be gathering seed for next year's crop, and by Seed Corn Time, September 10-20, the movement for seed selection should

is general in corn producing districts. Farmers long ago found it was not advisable to depend on seedsmen for corn planting stock. In northern Minnesota only corn that matures there is suitable for seed. The central zone has a somewhat longer season and can grow larger corn than the north and in a pinch can get seed from outside states. Southern Minnesota can grow corn almost as large as corn raised in Iowa and Nebraska. But it has been the experience of farmers in all three zones of the state that homegrown and adapted varieties of seed corn give far better results than can be obtained from imported seed. If the soil is cold and wet at planting time, seed of strong germination—the best seed obtainable—is necessary if a good crop is to be had in the fall. Only by selecting seed at the right time and taking good care of it after it has been selected can the best results be obtained.

**MANY LOAFERS FOUND IN MINNESOTA FLOCKS**

One-third to one-half of the fowls in many Minnesota farm flocks are not paying for their keep. This is the report brought back to University Farm by Miss Annabell Campbell, poultry specialist in the office of extension work with women. The agricultural extension division of the state university is aiding a state wide poultry culling demonstration campaign launched by the Minnesota Farm Bureau Federation. N. E. Chapman, poultry extensionist from University Farm, and C. E. Brown of the Northwest School of Agriculture at Crookston, are also in the field. Mr. Chapman estimates that it is worth $50 to every flock of 100 which is culled, in the increased production of eggs and the saving made in the feed bill. The culling demonstrations will be continued through September and October until the state is fairly well "combed." The extensionists are stimulating interest in poultry house building and remodeling and find that much work of this kind will be done before the time comes to put the flocks into winter quarters.

When you advertise you go halt way. There's a meeting place for the seller and the buyer of real estate. This meeting place is in the classified advertising columns of this paper. The owner is represented by his advertisement. The prospective buyer turns to these columns—and if the ad enlists his interst the transaction is under way.

**Great Railway Center.**

There are 256 railway stations, within a six-mile radius of St. Paul's cathedral, London, while within a twenty-mile radius there are nearly 400.

**World's Debt to Safety Pin.**

Perhaps the first scientific and successful effort to prevent human suffering entailed by accidents was the safety pin.

**Another Question.**

A French woman claims to understand the language of frogs. But will she give the frog a chance to talk?

**Reward of Duty.**

The reward of one duty is the power to fulfill another.—George Eliot.

A water carnival that is expected to be a thriller will be held at Warroad, August 28, 29 and 30.

**TO STATE FAIR IN A SPECIAL CAR**

On the afternoon of September 3 a special car will leave Crookston over the N. P. taking to the State Fair the seventy to eighty boys and girls of Northwestern Minnesota who have earned free trips because of achievements in club work. The girls in the group will be in the girls' camp located on the University Farm campus. The boys will have their camp on the State Fair grounds. Each day of the fair somebody will demonstrate some phase of boys' and girls' club work such as bread baking, canning, garment making and poultry raising. They will have an opportunity to see the State Fair exhibits under competent guidance. Special sight seeing trips in and around the Twin Cities have been provided for them.

## Of Interest to Women

The Wall Stret Women's Club says the Pictorial Review, "which is composed of serious minded business women of New York's financial district, has decided to take in hand "little sisters in business" and teach them office manners.

The idea seems to be that these older women, successful and well mannered, should speak, wherever they can, the tactful word, that will encourage the littel stenographer to cease her gum-chewing, her private telephone calls in office hours, her giggling and unsuitable dressing.

These women have undertaken a large order, but if they can make good manners and tasteful clothes the custom in the offices where they themselves work, they may set a fashion which will spread over the country.

The manners of the office girl undoubtedly need improving. So, also do those of her sisters in school. The appearance and conduct of the average young girl in public places is saddening, to say the least. But fundamentally these little girls are all right. They are a little bewildered by the times—and so are their mothers. The Wall street women are going to the matter in the right way. It is the tactful advice from the women they admire which will help.

And while they are about it, cannot something be done for the manners of the boys as well?

### A Sad Story.

The hour of the funeral had arrived. A baby lay in the little white coffin. The preacher said: "The Lord giveth and the Lord taketh away."

The doctor told this story:

"The baby was born strong and healthy. The mother nursed it for weeks, but finding that nursing interfered with social affairs, provided a bottle and when she was absent her aunt, who lived with her, fed cow's milk. This irregularity of breast feeding soon lessened the flow of the mother's milk and she concluded she would cease nursing entirely. The child semed to do well on the bottle for awhile, but it soon became evident that something was wrong. When the digestive machinery was put to the bad the baby took dysentery and died."

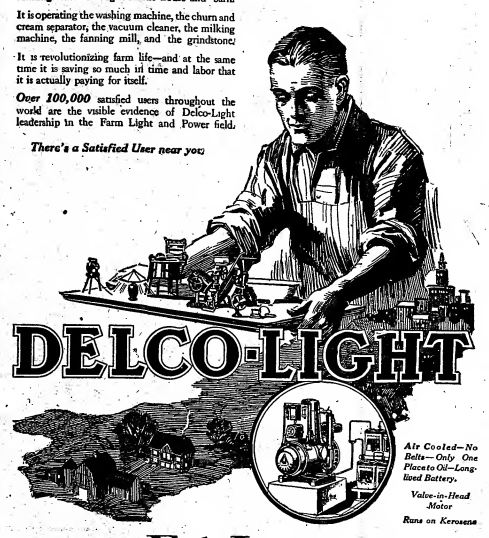
Delco-Light is Carrying the Comforts and Conveniences of the City Into Farm Homes

It is furnishing bright clean electric light throughout the house and barn—doing away with the smoky, dangerous kerosene lamp and lantern.



It is providing power to pump water, thus making possible a modern bath and the convenience of running water throughout the house and barn.

It is operating the washing machine, the churn and cream separator, the vacuum cleaner, the milking machine, the fanning mill, and the grindstone.

It is revolutionizing farm life—and at the same time it is saving so much in time and labor that it is actually paying for itself.

*Over 100,000* satisfied users throughout the world are the visible evidence of Delco-Light leadership in the Farm Light and Power field.

*There's a Satisfied User near you*

*Air Cooled—No Belts—Only One Place to Oil—Long-lived Battery.*

*Valve-in-Head Motor*

*Runs on Kerosene*

## CROPS SHOW UP UNUSUALLY FINE IN STATE

YIELD IS FINE AND BRIGHT PROSPECTS ARE HERE

It is the Desire of the County to Influence Location of Sugar Factory in this Section

A news feature that will prove of immense interest is the data compiled and sent out by the Merchants National Bank of St. Paul, dealing in general with conditions as they exist the state over and which will prove a reliable source of information and interest to all interested in the growth and evelopment of the state. The Tribune will receive this report each week and the same will be found in the Tribune regularly. The reports deal with the activities of the counties embraced in the ninth district and will prove to be interesting generally to all. The summary for the past week, which takes in the entire state, is full of items and short notes of particular interest to the farmers and will prove a valuable aid to them in their work. The report follows:

Dissatisfaction over present prices for cattle, grain and wool, seemingly is statewide in Minnesota, and thousands of farmers who have completed their threshing are not inclined to rush their grain to the market, according to information obtained from the leading banks in every county in the state by the Merchants National Bank of St. Paul for its weekly review on farm, commercial, industrial and other activities in Minnesota.

Threshing has been completed in some counties. Slight increases in threshing rates were reported from a number of county seats. There seems to be a sharp slump in the demand for labor and with very few exceptions the supply exceeded the demand. It was noticeable, however, that itinerant farm workers who were looking for jobs were inclined to loaf rather than reduce their demands for high wages.

There were numerous signs of revival of the cattle shipping industry, which has been extremely inactive because of reduced prices. More than 50 counties, however, reported vigorous activities by associations of owners of pure bred cattle and it seems quite certain that this will be a record year in Minnesota for the development of high grade stock.

Road work was vigorously continued and a number of counties and cities successfully floated bond issues. In a few cases it was decided to postpone road improvement work rather than to pay high interest rates and heavy discounts. A number of counties have also been active in ditch improvements and in flood control survey work.

Shortage of materials has been responsible for reduced activities along building lines. Inability to obtain cement also has affected road building and business men in several counties has been discussing the advisability of forming companies to engage in the cement business. The car supply situation has been extremely irregular. Some districts have had sufficient cars while others have been short and survey reports seem to indicate that the railroad companies have been holding cars in readiness for distribution as soon as the marketing of grain becomes more general. Many small elevators are filled to capacity.

Several so called minor industries are attracting board attention. Clover and ginseng raisers apparently have cleaned up this summer and it is reported that the demand from the east for Minnesota ginseng cannot be completely filled. Beekeepers have reported very fine honey crops. As indicated in previous reviews, the wheat yield was extremely poor, but other crops, particularly oats, rye, corn, flax, barley and sugar beets, are doing fairly well. Minnesota's total grain yield probably will not be a record breaker, but will at least be satisfactory from the standpoint of quality.

Forest fires in the north which were checked by rains ten days ago have again became serious and the forestry department has its hands full. Considerable land in Roseau and Beltrami counties has been burned over. Most of the fires are in peat lands, but some timber has been burned.

The coal situation throughout the state is not satisfactory. Labor troubles are partly responsible but coal dealers are hopeful the shortage will be relieved this month. It is probable that less coal was delivered this summer to private houses and apartments than was delivered in 1918 or 1919.

County fairs are being held and more than a score will take place within the next two weeks. Every fair thus far held was a distinct success, according to county seat reports. Exhibits of blooded cattle were unusually fine.

### Stores Close Monday.

Housewives of the city should take particular notice of the fact that the stores of the city will be closed all day Monday, Labor Day, and should do their shopping Saturday sufficient to carry them over. The day is to be celebrated by every resident of the city and the stores will remain closed from Saturday night until Tuesday morning.

## SUGAR BEETS PROVING THEIR WORTH TO MANY

REPORTS OF CONDITIONS STATE OVER SHOW MUCH GAIN

Crops are Turning Out Fine and Conditions are Reported to be the Best Ever.

The present outlook for an immense acreage in the sugar beet line for Pennington county was never better and from every source is heard the expression that this years' crop of beets is to be as good as anticipated and perhaps a little better. Those in this county interested in the growth of sugar beets are enthusiastic over the outlook and many bright prospects are in store for the county as a whole as a result of the energy of those who have pushed the growing of sugar beets in Pennington county.

The ultimate location of a beet sugar factory in this corner of the state is a practical certainty and with the present outlook this county stands a mighty good show of securing this factory. The particular section has been shown to be the best in the state for the production of sugar beets. The beets grown in this section are higher in sugar percentage and the soil seems to be particularly adapted for the growing of the beets.

Due to the fact that the bottom has apparently dropped out of the sugar market and as there is every indication of a bumper sugar crop in all sources, it would seem as the interest in the growth of sugar beets was apt to lag a little but it is the general belief that the beets will produce sufficiently even at low prices to make their growth highly profitable. It is said that if the beets can be grown successfully on much higher priced land than is found here, they surely can be grown in this county to good advantage and at a handsome profit. It is the sincere desire of every citizen of the county to see a beet sugar factory located at this point and it is certain that if such proves the case the county fair association will go along this line will be found to measure to all the requirements in the matter of support and a few extras thrown in for good measure.

### Banquet and Dance.

The Thief River Falls baseball association held a banquet and dance at the Bowen Hotel last evening which was attended by twenty couples. After enjoying a sumptuous food the party enjoyed the pleasure of dancing until the midnight hour. Everyone present fully enjoyed the evening and had a most delightful time. The local ball association have finished the season in grand style and are to be congratulated on their accomplishment of furnishing good, clean, fast ball and especially in finishing the season with money in the treasury. This is something that very few teams accomplish and speaks well for the management of the local organization.

### Leave for Kansas.

J. C. Cordes, for the past two years a resident of this city, left Wednesday evening for his future home at Pratt, Kansas. Mr. Cordes and family have been here for the past two years, and in that time have made many friends who regret to see them leave the city. While here Mr. Cordes was director of the local band and did much to put that organization on a solid basis, which has

(Continued on page 8)

## PENNEY STORE WILL BE OPENED SATURDAY

OPENING DELAYED A FEW DAYS ON ACCOUNT OF GOODS

Efficient Force of Clerks Employed and Everything in Readiness for Business.

The J. C. Penney Company open their new store in this city tomorrow, Saturday and while they have failed to get in a full and complete line of merchandise, they have sufficient for an opening and hope to be able to take care of the needs of the public for a time at least.

The manager, I. W. Hinrichs, is very optimistic over the outlook in this city. He is already one of the strong boosters for Thief River Falls and believes the city has a wonderful future ahead of it. In his estimation Thief River Falls is to be one of their best locations in the next few years and he is certain the company made no mistake in selecting this city for one of their stores.

The store in this city is the 306th in a chain of stores scattered over the country. The Penney Company have stores in practically every state in the Union and it is decidedly gratifying to Thief River Falls that they have selected this city for one of their branches as they select nothing but the best towns in each state they locate in. As fast as possible they expand and grow until they are fully entrenched in the business life of every city they locate in and are as a result considered on of the strong and substantial institutions of every city in which they locate.

Everything looks promising for the new Penney store at this place. No other town in the state has such a large trade territory as Thief River Falls and as a result no other town in the state is considered generally as good a business point as this city. No mistake was made when this city is selected as the logical point for a new enterprise. There is room to spar and an unlimited growth in sight.

### Sandum Sells Store.

Gilbert Sandum has sold his store in this city and gave possession yesterday. The new owner is O. Sovde & Company of Holt. Mr. Sandum will devote his time for the present to his store located at Mavie and plans soon to sell that store and take life easy. He has been in business in this city for the past sixteen years, coming here with the 906 line. The new proprietor is a young man of experience and will no doubt make a success of the business venture in this city.

$2.00 Year

## LEGION RACES WILL BE STAGED TWO BIG DAYS

SUNDAY AND MONDAY TO BE TURNED OVER TO THEM

Unions of the City Are to Take Part in Putting the Races Over at Fair Grounds.

A big time is in store for Thief River Falls and vicinity Sunday and Monday next. The postponed Legion races will be held on those days and the Central Labor Union of this city have joined forces with the Legion and will help put the races across. The races are to be held at 2:30 each afternoon and will be held at the fair grounds. The entries that were scheduled for the races last Sunday, and which were postponed due to the rain will be entered in the big two day race meet and they promise nothing but speed and plenty of it for the two day meet.

The committees in charge of the races are making preparations to take care of large crowds on each day of the races. Labor Day, which falls on Monday, will also be devoted to the races and the labor organizations of the city will participate in the day's festivities and help put the program over with a bang.

Everyone is theroly familiar with the race schedule and program that was to have been held last Sunday and for that reason it is unnecessary to go into the matter very thoroly. However, the committee wishes it to be understood that the races will be held without fail, weather permitting, and that something above the ordinary is to be given for the approval of those who enjoy thrillers.

### Returns From Montana.

Edward Korstad returned the first of the week from Eastern Montana, where he has been harvesting his wheat crop. Ed says the crops in Montana are a failure this year due to the fact that the grasshoppers were on the job early and late and left very little of anything. His wheat turned out enough for him to get his seed back and that was about all. He states that the entire state of Montana is in bad shape this year and sees no improvement over last year for the state as a whole.

### Carries Arm in Sling.

L. H. DeCremer, the butcher, is carrying his right arm in a sling and is threatened with blood poisoning as the result of a scratch received a few days ago. He is seriously inconvenienced but says he will be satisfied if nothing more serious results from the infection.

The Tribune, $2.00 a year.

### Appoint Night Policeman.

Andrew Smith, former night policeman, has given up the job of guarding the public property and on Wednesday turned in his equipment and formally surrendered his connection with the city police force. The new man appointed is Edward Brooten, who was on the Minneapolis police force for several years, which qualifies him for the position he now holds.

### Here From Des Moines.

R. R. Bovey and family arrived here Wednesday via auto from Des Moines, Iowa. Mr. Bovey purchased a binder in Thief River Falls and was riding in the next de- cutting a splendid crop of flax on the new farm in Bray township. He has 320 acres of land, about 200 acres being planted to flax this spring. We are highly pleased to see these new people prospering so well the first year.

## BIG PLANS ARE MADE FOR TRI-COUNTY FAIR

ASSOCIATION GETTING THINGS IN GOOD SHAPE

To Erect Buildings and Otherwise Develop and Broaden Their Activities.

The Tri-County Fair, which opens at Goodridge on September 20 and 21, is going to be a hummer from all indications and those in charge of the fair are very enthusiastic over the outlook and predict one of the biggest and most successful of all fairs.

A committee was in this city the first of the week soliciting funds for the business men o fthe city and they had exceptionally good luck along this line. Two hundred dollars was raised in the short time, which will help the association materially in putting the fair across in good shape. B. O. Norby, secretary of the fair, states this year gives every promise of turning out the best in the history of the three counties participating in the fair and he looks forward to a large attendance and exceptional exhibits.

The association states that while this is strictly an agricultural fair, the amusement side of the program will not be overlooked and it is the intention to have some of the best attractions possible to secure to be on hand and help make the fair pass into history as being complete and satisfying in every particular.

At a recent meeting of the board of directors it was decided to erect a new barn for the housing of stock. The barn is to be 24x50 in size and will materially aid the directors of the association in inducing farmers and stock raisers to bring the best they have, knowing it will be well housed and looked after with care.

It is the intention at this time to use the school building for exhibits as was done last year. The building was crammed to the roof with all sorts of fine exhibits and prove da wonderful surprise to those from this vicinity who attended the fair last year. Enthusiasm in the Goodridge neighborhood runs high over the present outlook for the fair for this year and the general belief is that this year's fair is sure to be the best ever held.

### Mail Out Checks.

Premium checks for the winners at the recent Pennington county fair have been mailed out by the secretary and all errors must be reported not later than the 15th of this month. The annual meeting of Stockholders will be held shortly thereafter and plans made for the next year's fair.

### Elks Meet Tonight.

A regular meeting of the local order of Elks will be held this evening and it is hoped there will be a good attendance. Several matters of importance are to be taken care of at this meeting and the attendance should be large.

### Several Visit Fair.

Several from this city are contemplating taking in the state fair this fall and a great many have already left so as to be in time for the opening day. The state fair this year gives every promise of being extra fine and it is thought the attendance will be larger than for many years past. Those taking in the fair are given the advantage o fthe passenger rates that prevailed before the increase was put into effect.

## LABOR DAY TO BE PROPERLY OBSERVED HERE

LOCAL UNIONS TO HAVE A BIG PARADE ON MAIN STREETS

Legion Race Meet Will Also Prove a Big Attraction for Crowds on Monday Next.

LaborDay in this city will be celebrated in full force and every union organization of the city will be out in full force to see that the day is properly observed and that labor gets a full day's outing.

The unions of the city will parade at 1:30 p. m. on Monday and will then attend the race meet at the fair grounds. Every union in the city is asked to participate in the parade and every member is especially urged to make the line. It is highly important that as big a showing be made as possible, and as there are several hundred union men in the city it is likely the parade will be an impressive one and well worth seeing.

This is the first year for some time that the day has been properly observed in this city. The stores will all be closed and everyone in the city will take the day off and participate in the holiday that is observed by labor the entire country over. This is the one day of the year that is turned over to labor and on this date they are out in full force, holding parades all ove rthe country.

### New Residents.

Jake Bolan and family arrived here Tuesday from Mason City, Iowa, by auto to take up their residence in the new home on the Marts farm, adjoining St. Hilaire. Mr. Bolan is a high class man in every respect. He is a good farmer and will be a good citizen. He purchased a Tractor the same day he arrived and is on the job on one of the best farms in the county. He will succeed as all our good farmers do. The Tribune extends to this fine family a most cordial welcome.

## WILL HOLD INTERESTING MEETING SOON

FINE PROGRAM ARRANGED FOR EARLY FALL MEETING

Activities of the Year Are to be Started With a Rush at the First Session.

Tuesday, September 14 is to be the first fall meeting of the Merchants Association and a banquet is to be held at the Evelyn Hotel on that date and a rousing meeting at the same time

H. P. Nann has been secured to be here on that date and will address the members of the association showing them and telling them how he succeed in making two sales grow where one grew before and how he did it. Mr. Mann is conceded to be the biggest merchant of North Dakota and is today looked upon as one of the brightest men in the merchandise line in the northwest. His record reads like a fairy tale and all accomplished in a samll town, no larger than Thief River Falls. His talk to the business men of the city is sure to be worth many dollars and will be full of good sound logic that can be practiced in any line of business. It will be time well spent to be at the talk of Mr. Mann.

The association plan many good things for the coming fall and winter and especially toward the growth and upbuilding of Thief River Falls. Many new and interesting steps are to be taken to put the city ahead of all others and with the determined effort and cooperation of every citizen it is certain this city will force ahead by leaps and bounds and eclipse all others in the next few years.

### A World Wide Famine.

Will soon be the fate of the inhabitants of this world. Whether or not you believe it, come to the Chautauqua Friday evening and hear what the Bible says about it. Sunday evening the subject will be "Spiritualism." Is it possible for the living to converse with the dead?

## 42-46 CENTS OFFERED FOR MINNESOTA WOOL

A communication received at University Farm from George McKerrow, who is representing Minnesota wool growers who have stored their wool with the National Wool Warehouse & Storage Company in Chicago, says that eastern men are bidding 42 and 43 cents a pound for the quarter blood staple and 45 to 46 cents for the three-eighths. Mr. McKerrow and the National Wool Warehouse people believe they will eventually get a high price and refuse to sell at this tim. It is estimated that the prices offered would have netted the wool growers 38c a pound or more as against the 14 to 25 cents they were offered before they co-operated in the plan to store their wool.

The co-operative movement among the farmers saved members of cooperative organizations $8,434,000 last year, according to figures of the United States Department of Agriculture. Co-operation in pooling and storing wool, under the auspices of the Farm Bureau and the extension division o fthe college of agriculture, seems likely to make a pretty saving for wool growers of Minnesota.

## USED CARS FOR SALE

Buick Model C. 25., overhauled, repainted and new cord tires $700.

Ford, late model, equipped with shock absorber and Yale lock $450.

Marion delivery car, sacrifice price $300. Empire Speedster, 5 wire wheels, new tires, a sacrifice at $300.

## BUILDING YOUR WEALTH

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amount grows till each addition is a respectable sum.

Where does the gain come from? Not from your pocket. Nor from ours. It is the result of production. Money placed in a bank is given an opportunity to work and to produce.

Thus a bank builds your wealth.

Start with a small deposit if you will. Add to it when you can—regularly if you can do so. It will not be long till you can fairly see it grow.

## 24 Points of Superiority

1. ***Built complete in Advance-Rumely factories.***
2. ***Kerosene burning***
   Guaranteed in writing to burn kerosene successfully under all conditions, and at all loads to its full rated brake horsepower.
3. ***Oil cooled***
   No evaporation—no refilling. No freezing in coldest weather. No rust—oil preserves metal. No sediment—cooling system always open. Its own motor temperature.
4. ***Kerosene motor***
   Low speed—heavy duty—two cylinder. Designed to burn kerosene—a necessity. Parts ground to the thousandth part of an inch.
5. ***Offset cylinders***
   Steady pull on heavy loads.
6. ***Valves-in-head***
   Greatest fuel economy. Most accessible valves. Most power.
7. ***Unbreakable crankshaft***
   Crankshaft built to U. S. Naval specifications.
8. ***High overload capacity***
   All OilPull tractors will deliver 25% more power than their rating.
9. ***Solid frame***
   Hot-riveted steel members. No bends—no splices.
10. ***Cut gear transmission***
    Cut steel, case hardened driving gears. Ro-tooth and running in oil.
11. ***Properly placed pulley***
    On right hand side. Driven directly off crankshaft. No bevel gears—no intermediate gears.
12. ***Governor controlled***
    Speed of motor automatically regulated to meet varying loads
13. ***Shifting front axle***
    Clearance of belt clearance. No sacrifice in design.
14. ***Large wheels***
    Plenty of traction—easy to steer.
15. ***Adjustable drawbar***
    Fits all implements.
16. ***Proper weight distribution***
    No danger of turning over. Operates successfully in light soils.
17. ***Hyatt roller bearings***
    Reduces friction—saves power.
18. ***Bosch magneto***
    Highest quality—highest price. Dependable service.
19. ***Fresh oil lubrication***
    Force feed and splash system. Madison-Kipp lubricator.
20. ***Roomy platform***
    Not a step from the ground.
21. ***Easy to operate***
    No complicated mechanism. All levers within easy reach.
22. ***Accessible***
    All parts easy of access.
23. ***Long life***

# FARM FEDERATION TO AVOID POLITICS

## Pooled Marketing Purely Business Proposition, Says President Howard ---Expects 3,000,000 Membees

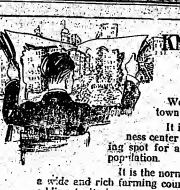
J. R. Howard, president of the American Farm Bureau Federation, can see only failure in the long run for farmers' political parties. In an authorized interview published in Printer's Ink, it is made clear that the idea of a farmers' party in politics is to Mr. Howard an absurdity.

"The farmer," he says, "has no business in politics as such. What I mean is, there should be no farmers' party any more than there should be a grocers 'party or a blacksmiths' party. Politics and religion are things for the individual to decide for himself. Found a great business enterprise on political, racial or religious lines and you may as well conclude in advance that it will be a failure.

"Without naming any specific example of political ventures having in mind the uplift and advancement of the farmer, let me say that they are foredoomed to failure because they are founded on the altogether false premises of class appeal.

Pooled Marketing Chief Aim.

"The American Farm Bureau Federation is not a political proposition. It is a business undertaking originated and officered by business men. Farmers are business men, even tho they are not always regarded as such. Membership in the federation is non-political and nonsectarian. The constitution provides that any officer or director who becomes a candidate for state or national office shall at once be automatically dropped from his official position in the federation. We are not in politics and will not be.



"Newspaper advertising," said Mr. Howard, " is to play a large part in the movement started by the federation for collective or pooled marketing. We are going to advertise to try to break down the condition of class consciousness of which you see so much these days. There is absolutely no rhyme or reason in this clash between the city and the country. Each needs the other in its business. Each should respect the other for what it has and what it can do. The farmer must realize that the city resident has certain problems to meet and the city man must do the same thing for the farmer.

Expect 3,000,000 Membership.

"Why cannot well directed advertising—and I am speaking of it in the broadest possible sense of the term—bring about this understanding, especially when it is based upon something concrete as will be in this case?"

President Howard foresees the marshalling of millions of farmers under the banner of the federation. Its membership is already 1,250,000 farmers, he says. There are in round numbers 7,000,000 farmers in the United States anad on a most conservative estimate he believes the federation will increase its membership tot at least 3,000,000. Backed as it is by the government and state, and with the strong support of the department of agriculture, the various state agricultural departments, nand agricultural colleges, President Howard believes that the federation can put over a collective marketing plan whereby the farmers themselves will control the selling of the things they raise.

The last sentence explains the full benefit to be gained by cooperating with the American Farm Bureau. We desire to find a way to more fully advance the farmers' opportunity to do this very thing. Co-operation among the farmers will do it. The cotton planters do it. The fruit growers almost name the price on their products. The grain and meat growers can do it. A fair deal for the farmer will benefit every laborer, honest business man and farmer in the west. The big interests, grain exchanges, bills, manufacturers and market controllers are against the farmers' right to have anything to say about the prices. The farmers must combine and form a great unit to deal with their economic problems.

## KNOW YOUR TOWN

We're proud of our town and county.

It is a humming business center and a natural trading spot for a very much larger population.

It is the normal nerve center for a wide and rich farming country—and it is fast adding to its importance as an industrial community.

Our stores, shops and business organizations are equipped with all that is necessary to the best service—but telling you about the advantages that are here is quite getting it across.

You'll never know how good this community of ours is until you study its growth and development, week after week—fifty-two weeks in the year.

There is only one correct way to do that. It is to read the news, editorial and advertising columns of the town's leading newspapers—THIS NEWSPAPER.

Every week in the year this newspaper places at your door interesting, instructive and profitable information —news both in editorial and advertising columns which can mean DOLLARS AND CENTS to you.

And all for less than 3 cents per week.

It's a HOME PAPER for this town and community of ours.

It is a part of YOU.

If we haven't your name—subscribe today.

and that it seems a conservative tax when it is considered, that Great Britain levies a similar tax of 60 per cent instead of 40. Prof. T. S. Adams of Yale University and chairman of the U. S. Treasury Advisory Board on taxation durine the war, outlined the present problems of administration of national taxes.

### Wind Spread Fires Near Warrood.

A high wind haa caused the spread of smouldering peat fires in the vicinity of Warrood, according to a telegram received late yesterday by W. T. Cox, state forester.

The communication from Ranger Swedberg Moose Lake, stated that of the 14 fires in that vicinity, all have been extinguished but one. He also reported that ten men have been arrested for violating the law wich prohibits the starting of fires in the forest without a permit.

### Scandinavian Evangelical Church

Bot Nyborg, Pastor.

Services next Sunday at 11 a. m. and 8:00 p. m. The evening meeting will be in English. Sunday school 10 a. m. Prayer meeting Monday at 8 p m.and Bible study meeting Wednesday 8 p. m. You are cordially invited.

## Of Interest to Women

### Open Doors is Business

An adanvce agent goes out ahead of a play, a moving picture, a concert, or any entertainment and prepares the way. She arrives in the town about ten days ahead of the attraction and arranges the advertising, with the manager of the theater, looks up the trains, speaks for hotel accomodations, provides for transportation of baggage, and often talks with editors and gets notices in the papers, often writing press notices herself and seeeing that photographs are put out in public places.

Women are proving more reliable on this job than men as they are more steady and stick closer to business. Often, too, they can prevail upon newspapers to accept publicity which would be refused to a man.

The advance woman agent recieves from $60 to $125 a week and her railroad fare. She must pay her own living expenses. Only a woman of experience can make good at this job, but young girls may prepare for it. This is done by obtaining a job in a theatrical office and learning all she can. The woman who is a success in this work must dress well and be pleasing in appearance and yet know how to keep her dignity and repel undue freedom on the part of others. It keeps her traveling all the time and while that may be pelasant for a time, it becomes very wearisome after a while. When it does the woman who has been successful in this important position is certain to find some other job waiting for her in the home office of the theatrical company.

### NEW LIFE PRESERVER

INVENTED BY CHEMIST

Years of effort by Chemist, results in discovery of Sto-Li-Gal, a life saving treatment of Capsule and Tablet for Gall-Stones, Stomach Ulcers, Chronic Appendicitis, Torpid Lazy Liver, Dyspepsia, Gassy Sour Stomach, Pains in Stomach and Back, Chronic Constipation, etc. People who have suffered with any of the above ailments, regardless of age or duration of trouble, are urged to immediately call on the reliable Druggists mentioned and purchase a box of Sto-Li-Gal at the small price of $1.00. Sent direct on receipt of price if your druggist can't supply. Digestive Chemical Co., 800 University Ave., St. Paul, Minn. Sold in Thief River Falls at H. B. Newell's and Lambert's Pharmacy; also at leading druggists everywhere. 8

### COUNTY AGENTS TO MEET AT "U" FARM

Frank Brown of Murray county, secretary of the Minnesota County Agents' Association, announces that a meeting of the association will be held at University Farm at 8 a. m. Friday, September 10, to elect a president to succeed F. L. Hansen, who is now secretary of the Minnesota Farm Bureau Federation. Detailed plans for the state-wide campaign will be considered.

### THIEF RIVER FALLS PLEASED BY QUICK RESULTS

Everyone is pleased with the quick results of simple witchhazel, camphor, hyfrustic, etc., as mixed in Lavoptik eye wash. One man's eyes were so badly strained he could not read without pain. Two applications relieved him. A lady with weak, inflamed eyes was greatly helped by ONE bottle. We guarantee a small bottle of Lavoptik to help ANY CASE of weak, strained or inflamed eyes. F. J. Stebbins, druggist.

### American Farm Bureau Federation.

Two outstanding developments of the quarterly executive committee meeting of the American Farm Bureau Federation, held in Denver on were decisions to attempt to make sure that any revision of national taxation laws, as is contemplated, does not shift any greater burden from industrial interests to the "poor dear public" and the creation of a traffic department. Both are subjects of vital interest to the thousands of farm bureau members of the different states.

The decision on taxation followed a review of agitation which has been inspired by some industrial interests for repeal of the present excess profits tax, which takes from net earnings of corporations and other business 40 per cent of all profits in excess of 20 per cent net profit upon investment. This tax last year raised for the government almost two billion dollars. Several substitutes have been suggested, all would operate to shift this tax burden in a more or less degree to the individual consumers.

The American Farm Bureau Federation's idea is that the big tax burden of the country should be borne largely by the interests most able to pay and should not eb paid ont of the living wage which is all the average individual consumer has. It has also been contended that the excess profits tax has not crippled business to any discernable extent

*Needed By Farmers*

Most of the farmers in Pennington County are keeping their business well in hand thru systematic Checking Account records.

Many prosperous farmers around Thief River Falls are well known by their bank checks and characteristic signatures.

Every farmer can benefit by this businesslike method of paying bills, obtaining receipts, and building commercial prestige.

We welcome new accounts with an assurance of friendly attention.

*Citizens State Bank*

## School Supplies

**We Appreciate The Children's Trade And Show Them Every Courtesy**

Thos. A. Way, President
Published every Tuesday and Friday at
Thief River Falls, Minn.
S. B. McWilliams, Editor and Manager
Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION
Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

Our faith in the Thief River Falls to Red Lakes gravelled and paved road would be stronger only for the following conditions:

First: It was openly stated in the meeting at Warren that "this is all for political purposes."

Second: We are advised that the purpose of going to Warren to get aid for a Thief River Falls road was based on getting Warren to "ask Steenerson for his assistance."

Third: The Warren meeting was planned and staged as a personal enterprise. It was not submitted to any public tribunal. It was not discussed in a public way and the public do not know the purposes or objects of the meeting.

Why this sudden spasm of energy? Why this personally selected committee to go to Warren to get some one to speak to Steenerson to get a road for Thief River Falls? Warriren to intercede with Steenerson for Thief River Falls! Can you beat it? When Warren does anything for Thief River Falls, judging by the past, Warren will get all and Thief River Falls will get nothing. We are for anything anybody, any man or committee that can or will further and advance the cause of the road to the Red Lakes. We are for that road and for it on the merits of the cause, and the justice that is in the cause. We do not think the purposes of the Warren meeting were fully disclosed. We know it i snot necessary to reach the influence of the congressman thru Warren or any other town. We would not expect Warren to do anything for Thief River Falls, except upon the basis of a trade. Is there a trade? Is the Jefferson Highway to be bartered? The whole matter lacks frankness. It smacks of intrigue and the camouflage surrounding it puts the movement under suspicion. We suspect someone is assuming to speak for Thief River Falls and to trade out assets without due authority. To ask Congressman Steenerson to assist us in a matter that might bring him injury from other soutces in the district is decidedly unfair. Thief River Falls can afford to be open above board and honest in these matters.

Discussing the Woolen Mills trust—the company that controls the price of what it buys and on what it sells the following suggests that the public is entitled to know why:

When a corporation in four years increases its net income more than 300 per cent and its common stock earnings more than 320 per cent, when its common stock earning above all taxes and charges are nearly 40 per cent a year, and when its president reports that there are enough unfilled orders on hand to keep the mills fully employed until well into the next year, with good prospects for full production for the entire year, and then suddenly at mid-year the mills are closed "for enough orders to make operation profitable," it seems to us that fuller explanations of that extraordinary course are due to the public than were in this instance vouchsafed.—Harvey's.

### WOOD'S STRIKE

If workingmen quit work, it is a strike, and by a considerable part of the press and public they are condemned as slackers.

If a manufacturer closes his factory—well, that's business. It isn't recognized as a strike.

The American Woolen Co. has been one of the worst profiteers the war has produced. Its president, William M. Wood, escaped prosecution on a technicality—that cloth is not clothing. On July 8, Wood closed the doors of their factories, threw many thousands of working people out of work and called a strike on the American public.

Within the last few months there have been enormous declines in the price of wool. This decline is affecting very seriously the sheep raisers. But has there been any proportionate decrease in the price of cloth? Not so it could be noticed. Between the wool grower and the wool consumer stands William M. Wood. He strikes against both. He closes his factories and wool prices to the producer go down, woolen cloth prices to the consumer stay up and his workingmen and women starve.

Limitation of production is one of the commonest methods of stabilizing and boosting prices. A lot of people condemn workers who limit their production, but how many of the people realize that the manufacturers have taught these lessons to the workers by their own conduct.

The cost of living is still the most vital subject in every American household. Few articles have shown quarter increase in price than clothing. The man responsible for keeping up these prices, for limiting production, in order his own and his stockholders exhorbitant profits may not be reduced to reasonable proportions is an enemy of the common good.

William M. Wood is the worst of strikers—is strike against the happiness of the American people.—Stitzel X. Way in Watertown Public Opinion.

### A CENTRAL POTATO EXCHANGE

A Minnesota Potato Growers' exchange has been established in Minneapolis. Its purpose is to act as a market clearing house or agency for the sale of potatoes prodnced by the farmer members acting through local co-operative associations. It is said by its sponsors that the exchange has contracted to date for the marketing of one-fourth of the Minnesota potato crop.

Experience will be the test of the usefulness of the central exchange and the local co-operative associations. The enterprise is a private one, but the undertaking will be of interest to official Minnesota, as well as to all agricultural producers on the one hand and food consumers on the other.

There are many purposes which marketing machinery of this kind can serve. It can keep systematic scrutiny on the demand for potatoes in relation to the smpply. It can do much to prevent over-glutting of markets and can thus not only aid in stabilizing prices but in preventing the waste which frequently ensues when marketing is not done on an intelligent basis. It can be of services toward a proper diversity of agricultural production in this state. If, on top of these things, it can give the prodncer better assurance of a profit yielding price for his potatoes and the consumer a better quality of potatoes at more equitable prices the year around, its usefulness will have been established beyond question.

Co-operative marketing of farm produce is something to which particular attention has been given in recent years. The idea is endorsed by the state and national Republican platforms. It has reason to commend it. The one thing that could bring such co-operative marketing into disrepute would be for those engaged in it to take unfair advantage of any power it might place in their hands. City people are willing that the farmers should be liberally requited for their labor and for the crop hazards they take, but they ask in return for themselves a fair deal as to product and prices.—Minneapolis Tribune.

### To Quit Farming.

O. C. Peterson, chairman of the county board of commissioners, has sold his farm near Hazel and will take life easy. Mr. Peterson is one of the county's most substantial citizens. He is one of the best commissioners the county has had for many years and is also a high class farmer. It is good news to the county to know that he intends to keep his residence in this section and will devote his time and energy to the future development and growth of the county as a whole.

Of Thief River Falls

## POPULAR YOUNG LADY IS CALLED BY DEATH

The entire city was shocked and grieved to learn of the death of Miss Zella Zeh, only daughter of Mr. and Mrs. Emil H. Zeh of this city, who died Wednesday morning at 2 o'clock of peritonitis.

Miss Zeh was taken suddenly ill a week ago and kept getting weaker until a consultation of physicians was held and an operation ordered at once. She failed to rally from the operation and passed away at 2 o'clock Wednesday morning.

Zella Zeh was born in this city on October 12, 1899, and was 21 years old at the time of her death. All her life was spent in this city with the exception of the time spent in attending school at other points. She was engaged in the local schools as instructor in stenography and shorthand last yeas and was engaged for the same position this year. She was highly prominent in all the social activities of the city and was held in the highest esteem by all who knew her. Her death is a sad blow to the many friends and relatives in this city and she will be greatly missed by every resident of the city.

Besides her parents, one brother, Ernest, survives. The funeral, which was held Thursday morning, was private and was held from the residence. The casket was covered with beautiful flowers sent by sorrowing friends of this city and other places. Rev. H. L. Barackman, pastor of the Presbyterian church of this city, conducted the funeral. The pall bearers were Haven Lindberg of Detroit, Alvin Holzknecht, Jordan Penney, Rufus Barackman, Elmer Tandberg and Curt Sundahl, all classmates of Miss Zeh. Interment was made in the Greenwood cemetery.

### Regarding School Books.

There seems to be a misunderstanding about the new rule of the Board of Education that students should buy their own books. This rule applies to high school students only and not to the grades. The first eight grades will receive their books free as usual, but all high school students will be expected to buy their own books. School will begin Tuesday morning, September 7th. There will be a teachers' meeting on Monday morning.

There are a number of requests by school boys and girls for places to room and board. There are also requests for rooms to be rented where students can do their own housekeeping. If there are any such places available, Superintendent Ziegler desires that they be reported to him.

TheJ. C Penney Co. daily exepects a shipment of ladies men's and children's shoes and in the course of a week or so hope to show you one of the most complete stock of shoes in the city. We regret that we are unable to have a complete stock for your approval on our opening day, but for unavoidable reasons the shipment has failed to arrive. We invite you to inspect our stock which we hope may be completed early next week and compar our prices and quality.—J. C. Penvey Co.

## GIVE CREDIT TO PHOENICIANS

**Scientists Believe That Race Erected the Immense Monoliths Found in Various Places.**

Giant monoliths standing strangely alone in many places on the globe when discovered by intrepid explorers and adventurers during the recent centuries, are being referred to as the greatest mysteries of human history by archeologists, who are now trying to determine what race, built them. They are scattered in far-off places. They are monstrous pieces of rude sculpture. They are built of terrifying stone blocks, some weighing as much as 200 tons.

In many districts where the great memorials stand there are no stones of such size to be found, and consequently they must have been transported from places far away. The most famous of them are the cromlechs in England. Others are found in western France, northern Germany, in Denmark, Africa, Madagascar, Asia, from Mt. Sinai and the Caucasus to India; and among the most wonderful and mysterious of all are those found on lonely Easter island in the Pacific ocean. M. Leviten, a French archeologist, believes they were erected by the Phoenicians, as most of them have been found near rivers. Some students are inclined to believe the Phoenicians reached America by the lost Atlantis, a legendary continent that now is sunken somewhere in the Atlantic. A footprint, the Phoenician mark of death, has been found carved in many, while a coiled snake, another mark of these navigators also is found.

### Ostrich Telephoning.

When the eggs on the ostrich farms in California are on the point of hatching, a curious tapping of the shell may be heard. This the keepers call "telephoning." The sound is caused by the chicks inside the eggs endeavoring to break out. Those which cannot easily emerge are assisted by the mother bird, which will sometimes break an egg from which the telephoning is heard by pecking it carefully, and will then aid the chick to get out.

At the Pasadena farm the sight of a boy riding an ostrich as he would a pony may sometimes be seen.

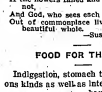
# The KITCHEN CABINET



A commonplace life, we say and we sigh;
But why do we sigh as we say?
The commonplace sun in the commonplace sky
Makes up the commonplace day.

The moon and the stars are commonplace things,
The flower that blooms and the bird that sings;
But and were the world and dark the lot,
If the flowers failed and the sun shone not,
And God, who sees each separate soul,
Out of commonplace lives makes his beautiful whole.

—Susan Coolidge.

## FOOD FOR THE ILL.

Indigestion, stomach trouble of various kinds as well as intestinal troubles have so many forms and causes that it is never safe to trust one's own ideas in regard to the kind of food one should eat. A physician after diagnosis will give a list of the various foods it is safe to eat; however it is probable that toast which is lightly toasted on the outside, soft and full of moisture inside is unwholesome for the most healthy stomach. Toast should be made of bread at least two days old, cut one half inch thick and dried for a few moments in the oven to remove any moisture, then while still hot from the oven slowly toasted a golden brown. Too many cooks serve toast by the recipe given by the small boy—"toast bread until black, then scrape it at the kitchen sink."

Eggs, milk and combinations of eggs and milk when carefully prepared in the way the one who is to eat the dish are foods which will be taken with comfort.

Custards of all kinds, cooked just long enough to be smooth and velvety are not monotonous though served often.

Fried foods of all kinds should be eliminated as they are especially hard to digest.

Fruit juices, jellies, gelatine dishes and ice cream are desserts which may be commonly served in ordinary cases.

Apple Custard.—Take five well-beaten eggs, add a quart of milk and one pint of strained apple sauce. Sweeten and flavor to taste and bake carefully until firm. Set the pan of custard into a pan of hot water to bake.

Nellie Maxwell

# The KITCHEN CABINET

Within each beating human heart
Lie buried out of sight
The thoughts that throb like things apart
And wait to find the light—
From depths unseen the heart's own sod
Sends forth its flowers like golden-rod.

—Ida Scott Taylor.

## SOME GOOD SUMMER SALADS.

In no season of the year are salads as much enjoyed as during the warm weather when the appetite lags and crisp fresh things are most welcome.

Cucumber Jelly.—Cut peeled cucumbers and tomatoes into dice, saving the juice. Season with grated onion, pepper and salt. Dissolve half a package of gelatin to two cupfuls of liquid, add to the vegetable juices, stir until well mixed, cool, cut in cubes and serve in tomato cups with mayonnaise.

String Beans.—Wash the beans and put them to cook with a little bacon fat stirring and cooking for five minutes, then add a very little water, set back where they can simmer, adding a very small amount of water when needed. Season and cook for two hours. Serve hot with cured bacon.

Steamed Radishes.—Cook without peeling, the radishes, and if small, leave whole. Serve in a white sauce, using plenty of seasoning. If boiled use very little water and reserve it for making the white sauce, so that the nutriment and flavor may be saved.

Corn and Green Peppers.—Cook a medium-sized pepper in sweet fat, then add corn, seasoning and cook until slightly browned. Serve hot.

Icebergs.—Dissolve two cupfuls of sugar in three cupfuls of water (boiling); cool, add three-fourths of a cupful of lemon juice, color leaf green and freeze. Serve in steamed sherbet glasses. Put a teaspoonful of cream de menthe in each glass, sprinkle with finely chopped nuts, using almonds, filberts, pecans and walnuts in equal proportions. These may be used with the meat course, or between courses, or as a finish to the meal.

Sicilian Sorbet.—Press a can or an equal amount of fresh peaches through a sieve, add one cupful of sugar, two cupfuls of orange juice, two tablespoonfuls of lemon juice, and when well mixed freeze.

Nellie Maxwell

## THE STAR THAT COMPLETED THE BANNER

No job of sewing was ever looked upon with more interest by women than the sewing of the 36th star on the suffragists' banner at the National Woman's Party of Washington. Miss Alice Paul is shown below putting on the finishing touch and again above unfurling the beloved banner in the balcony.

## TO TEACH MARKETING OF FARM PRODUTS

The University of Minnesota will with the new school year begin to train young men for the difficult business of marketing farm products. The division of agricultural economics at University Farm is issuing a circular announcing plans for the new course which is offered by the school of business and the college of agriculture, one of the first, if not the very first course of the kind offered in the United States.

"The course is designed," says the circular, "for all types of marketing businesses, both local and central, retail and wholesale, private and cooperative. Because of the rapid growth of co-operative marketing in Minnesota, special emphasis will be put upon the co-operative form of business organization. Most of the instruction, however, will apply equally well to all types of marketing businesses."

The course will be divided into two parts—the pre-business for the freshmen and sophomore years and the agricultural business for the junior and senior years. The pre-business course may be taken either in the college of agriculture or in the college of science, literature and the arts. The courses in agricultural marketing and other forms of agricultural business are under the immediate direction of the division of agricultural economics University Farm, St. Paul, to which all requests for further information should be sent.

E. A. Linder in a signed letter to the Worrosod Pioneer discusses the question of whether peat fires are a benefit or a damage to the country as a whole. He takes the position that the losses of life an dproperty resulting from peat fires far outweigh all benefits that have epsued from them.

Order For Hearing on Petition For Guardianship of Incompetent.

State of Minnesota, County of Pennington; ss. in Probate Court.

In the matter of the Guardianship of Ruby A. Hall, an insane person.

On reading and filing the petition of Ivo L. Hall, praying for the appointment of a guardian for the Estate of Ruby A. Hall,

IT IS ORDERED, That said petition be heard, and that all persons interested in said matter be and appear before this court at the Probate Court Rooms in the Court House in the City of Thief River Falls in said County, on the 21st day of September, 1920, at 10 o'clock a. m., and then and there or as soon thereafter as said matter can be heard, show cause, if any there be, why said petition should not be granted; that a copy of this order be served upon said Ruby A. Hall personally, also upon the Superintendent of the State Hospital for the Insane of North Dakota, at Jamestown, North Dakota, at least fourteen (14) days prior to said date of hearing on said petition above specified. Also, that copy of this order be mailed to Charles H. Hall, Courtenay, North Dakota and to Marie Hall Malke, Wimbledon, North Dakota, not later than the first day of September, 1920, and that said order be published in The Tribune, a legal newspaper published at Thief River Falls, Minnesota, for at least two successive weeks prior to said date of hearing on said petition as above specified.

Dated at Thief River Falls, Minnesota, this 24th day of August, 1920.

IRA C. RICHARDSON,
Probate Judge.

THEODORE QUALE,
Attorney for Petitioner.
(Seal) A-27-S-3

Citation for Hearing on Petition for Probate of Will.

Estate of Svend Talaksen Dale.

State of Minnesota, County of Pennington, in Probatae Court.

In the matter of the estate of Svend Talaksen Dale, Decedent.

The state of Minnesota to Karl Dale, Emma Halvorson, Bertha Peterson, Anna Dahle, Knute Dahle, Asiak Dahle, Ole Dahle, Tallak Dahle, Eivend Dale, Ole Dale, Svend Dale, Knute S. Dale and all persons interested in the allowance and probate of the Will of said decedent:

The petition of Karl Dale being duly filed in this Court, representing that Svend Talaksen Dale, then a resident of the County of Pennington and State of Minnesota, died on the 17th day of October, 1919, leaving a last Will and Testament which is presented to this Court with said petition, and praying that said instrument be allowed as the last Will and Testament of said decedent, and that letters testamentary be issued thereon to Karl Dale.

Now therefore you, and each of you, are hereby cited and required to show cause, if any you have, before this Court, at the Probate Court Rooms in the Court House, in the City of Thief River Falls, County of Pennington and State of Minnesota, on the 20th day of September, 1920, at 10 o'clock a. m., why the prayer of said petition should not be granted:

Witness the Honorable Ira C. Richardson, Judge of said Court, and the seal of said Court, this 24th day of August, 1920.

IRA C. RICHARDSON,
Judge.

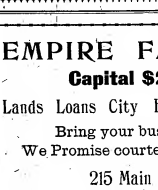
WILHELM MICHELET,
Attorney for Petitioner.
Thief River Falls, Minn.
(Court Seal) A-27-S-3-10

Cuntion for Hearing on Petition for Admi-istration.

Estate of Arthur S. Alnes.

State of Minnesota, County of Pennington, In Probate Court.

In the matter of the estate of Arthur S. Alnes, Decedent.



The State of Minnesota to Lloyd T. Alnes and all persons interested in the granting of administration of the estate of said decedent: The petition of Lloyd T. Alnes, having been filed in this Court, representing that Arthur S. Alnes, then a resident of the County of Pennington, State of Minnesota, died intestate on the 6th day of August, 1920, and praying that letters of administration of his estate be granted to E. T. Brevig, and the Court having fixed the time and place for hearing said petition: Therefore you and each of you are hereby cited and required to show cause, if any you have, before this Court at the Probate Court Rooms in the Court House, in the City of Thief River Falls, in the County of Pennington, State of Minnesota, on the 9th day of Octoer, 1920, at ten o'clock A. M., why said petition should not be granted.

Witness the Judge of said Court, and the seal of said Court, this first day of September, 1920.

IRA C. RICHARDSON,
(Court Seal) Probate Judge.

VOL. 20 Historical Society THIEF RIVER FALLS, MINNESOTA, TUESDAY, SEPTEMBER 7, 1920 Official Paper of Pennington County

## SCHOOL OPENS IN FULL SWING THIS MORNING

FULL CORPS OF INSTRUCTORS ON HAND AND THE YEAR PROMISES MUCH.

School formally opens in Thief River Falls today and a full corps of instructors have been engaged and are now on the job with the full determination to make this the banner school year of all.

Much difficulty is to be undergone this year due to the crowded condition of the schools, but by doubling up wherever possible the board are hoping to get thru the present year and by the time the schools open next year it is the intention to have a new building ready to receive and take care of the enrollment. The condition this year is the most difficult the board and instructors have been called upon to face for many years and the overcrowded condition of the schools is a problem that can only be solved in one way, and that is by the erection of a new building. It was the original intention to erect a new building this year but owning to the high costs it was deferred and will not be completed until next year.

The first day was given over to teachers' meetings and the adjusting of the many small problems that confront the instructors on the first day, and school was not opened in earnest until this morning. Supt. Ziegler is enthusiastic over the present school year and has many new and highly necessary methods that are to be embraced in the present system. He hopes to considerably improve many of the present methods and believes that in a short time he will have the local schools on a better basis than they have been for some time past.

## HUNTING SEASON WILL OPEN ON SEPTEMBER 16

LOCAL HUNTERS BUSY OILING GUNS AND WILL SOON BE IN THE FIELD

The hunting season for 1920 opens Thursday, September 16th, as applied especially to the hunting of wild ducks, geese, snipe, etc.

County Auditor T. P. Anderson states the licenses for hunting have started to move already and to date he has sold twelve hunting licenses. According to the state and federal laws it is necessary for the applicant to give a sworn statement as to the number bagged the year previous and a great many have failed to turn in their report to the auditor. Before a new license can be issued it will be necessary to furnish this information and all who have failed to do so will have to comply with this section of the law before they will be allowed to hunt this season.

The ducks and other wild game are plentiful this year and local hunters anticipate a fine season. In driving thru the country game shouts or even hand and it is difficult at times to drive across country without meeting into a covey of wild game. This will make the sport of bagging the game easy money for professionals, and will afford the amateur a chance to get home with a showing at the same time. It is believed there will be more hunting this year than for many years past and the office of the county auditor will no doubt be a busy place for the next two weeks.

The state and federal laws are quite explicit in what is permissable and what is not with reference to hunting wild game and it will be best for hunters to secure a copy o the laws before venturing into the wilds. The fines are heavy and disconcerting to violators and to save annoyance and inconvenience it is best for those inclined to spend some time in the field to look the laws over carefully and get familiar with them, especially with that part that says "you shall not."

**Luther League.**

The Luther League of the First Swedish Evangelical Lutheran church will be entertained by the Peterson family Friday evening of this week at their home near Rosewood.

**Council Visits Winnipeg.**

The majority of the city council made a trip to Winnipeg by automobile last Friday to inspect the city in general and to note the paving done in that city in particular. The trip was made without mishap and proved to be an enjoyable outing for the council.

**Visit at Ada.**

Mr. and Mrs. S. C. Simonson motored to Ada Sunday morning and spent the day and Monday visiting with friends and relatives. The returne trip was made Monday evening and "Si" is on the job again with both feet.

## FINE MEETING OF ASSOCIATION NEXT TUESDAY

MERCHANTS' ASSOCIATION TO HOLD EXTRA FINE SESSION ON SEPT. 14.

The next meeting of the Merchants Association, to be held next Tuesday September 14, will be the first of a series to be held the coming fall and winter. The meeting next week will be held at the Evelyn Hotel and will be in the form of a banquet and a general get-together meeting with the aim of discussing the many features to be taken up and worked out for the good of the city during the present year. The officers of the association are all enthusiastic over the outlook for the development of the city and are all ready to put their shoulders to the wheel and help put many of the vitally necessary programs into operation that will mean much to the social and business life of the city.

The meeting next Tuesday evening will without doubt be one of the best and most interesting of those to be held. H. P. Mann, of Devils Lake, N. D., has been secured to make an address at this meeting and those who have heard Mr. Mann speak say his talk alone is worth many dollars to the average man in a business way. Mr. Mann is a merchant at Devils Lake and is considered one of the best merchants in the entire state. He has developed a large business in his home town and his talk while here will be along the lines of how the business was developed and what methods were used to build up his business. This should prove mighty interesting to the business men of this city and will without question be an incentive to a large attendance at the meeting.

The association plans much for the year ahead and asks for the united support and co-operation of every citizen of the county.

## NEW WHOLESALE FIRM MAKES CITY HEADQUARTERS

CANDY WHOLESALERS SELECT THIS CITY AS DESIRABLE LOCATION

The Thief River Candy Company headed by P. M. Carlson, have opened for business and on their first trip around the city were agreeably surprised by the manner in which they were received and the encouragement given them. The new firm are located on South Main Avenue and have installed practically $10,000 worth of high grade candies and are ready for a big fall business in this line.

The new firm is composed of young men who come to this city after careful looking over the field in several other localities. They selected this city because of its promising outlook and future. They are strong boosters for this city and county and see nothing but better days ahead for the entire community.

The new concern intends to go into the fruit and fountain supply end of the business should conditions warrant and will at all times carry a high grade line of candies for the trade. They hope to increase their sales daily until they have the business on the basis they hope for and which they have a right to expect. It is their intention to put men on the road to make outside towns in the near future and to do everything possible to work up one of the largest wholesale candy trades in the northwest.

The Tribune, $2.00 a year.

## SPEED AND THRILLS GALORE ATTEND TWO DAY RACE MEET

Neat Sum Realized by Post as a Result—Excitement and Speed Two Main Features

The two day automobile and motorcycle race met staged by the American Legion and the Central Labor Union netted a handsome sum for the parties staging the event and will help materially in reimbursing the Legion treasury. The first day the receipts were $803, the second day, Monday, fell considerably short of Sunday's receipts, the total only running to $180. The two days combined gave almost $1,000, but in view of the fact that the gross receipts are to be divided among the racers, leaves only fifty per cent to the Legion and the Central Labor Union. Out of this all expenses must be met and the net equally divided between the Legion and the Central Labor Union.

The races on both days were thrilling and furnished all the hair raising stunts that could be asked for in every event. There were a good number of entries in both the motorcycle and the automobile races and each and every event was ticked off in record breaking time considering the condition of the track.

The first race on Sunday was a three mile motorcycle race and in this event Dewey Kiewel of Crookston carried off first money, making the time in 3:43 flat. In fact in every motorcycle event on both days, of which there were three each day, Kiewel won first place in each event. On the second day he had the misfortune to take a header but quickly rigsted his machine and came in first. Practically all the entries in the motorcycle events managed at one time or another to take to the tall grass, especially when they rounded the corners, but luckily none were hurt and the events finished without any serious accidents.

The automobiles races were also exciting in the extreme and kept the spectators on their toes from start to finish. Harkins in an Essex and Lee in an Elgin Six apparently had the better of the cars entered and walked away with the honors with very little trouble. Harkins especially showed clever judgment in driving and as he had plenty of speed and nerve he managed to clip the record to nothing, winning what he felt like it. Lee in the Elgin also showed considerable speed and made things interesting for the Essex at many turns. The first day the Essex won the first race, three miles in 4:01, Lee in the Elgin second in 4:04, Thompson in a National third in 4 and Gerdts fourth in a Ford model in 4:36. In the second event, five miles, Lee in the Elgin won first in 7:04, Harkins in the Essex second in 7:08 and Jones, a new entry in a Ford, third in 7:23. The final race for the first day, which was a seven mile race, went to Harkins, who made the rounds in 9:42, Lee second in 9:45 and Jones third in 10 minutes flat. Following the final race an exhibition race was run between an aeroplane, the fastest automobile and a motorcycle. The outcome of this race was easy to see from the start, the aeroplane having every advantage and a much faster engine, easily won.

The second day of the automobile races was the day that furnished the excitement. Jones in the Ford special went thru the fence in the first event and while he escaped injury, injured the steering apparatus of his car and it was some little time before he could get in condition for the next race. He entered, however, and gave the Elgin and Essex a run for their money, but at the end of the race declined to enter for the five mile event, stating that his wheels weer out of line and his steering gear was still out of kilter and declined out of this event. Being Gerdts, of Duluth, entered with a Ford special and was giving the Essex and Elgin a close run, when on the 12th lap he slid to one side of the track and went thru the fence at the same place Jones went thru. Gerdts did not get off as luckily as did Jones and it was feared for a time that he was killed. His car went about a hundred yards and then turned completely over, throwing Gerdts clear, which is the only thing that saved his life. As it was he was badly stunned and was unconscious up to the time he was taken to the hospital. His condition this morning is very favorable and he will soon be around again as usual. Nothing more than a severe shaking up resulted from his spill.

Taking everything into consideration, the races were all that could be asked for on a half mile track. Both the entries in the motorcycle races and the automobile races were handled in a very creditable manner and the drivers gave all they had. They were a fearless bunch of drivers and showed great skill in handling their machines. Harkins, with the Essex, showed much more daring that the other entries and was a cheerful driver and was a general favorite with the crowd. His driving was spectacular in many instances and by his daring and skill he gained advantages that would ot have been his otherwise. Gerdts was unfortunate in every event. He was entered in the motorcycle events and failed to finish either time. His header in the first race put his machine out of commission and he dropped out of the motorcycle races from then on. His car then became balky, missing and sputtering until it was impossible for him to finish in but one event. He did not enter his car until the final race yesterday, having spent most of the day getting it into shape, arriving at the fair grounds in time for the final event and in time to be carried off the field bruised and bleeding. Sympathy was with Gerdts all the way thru because of his tough luck and it was hoped he would pull down first in the final event, but such was not the case and instead his car is smashed and he is out of the running for the time at least. He was a fearless driver and in his attempt to gain on the two cars ahead of him, took no preparation in going around the curves, with the dust so thick he could not see, and which is likely the cause of his accident.

Financially the races were a success and the Legion is some better off financially, which condition being unusual for them, may seem strange to you but to compound for a few days, but ultimately they will realize their condition and will be all the more able to enjoy it.

## *Close Call From Two Bad Fires*

The Swanson bakery came near going up in smoke Sunday night shortly after twelve o'clock, and had it not been for the prompt discovery of the fire by a passerby, the building would not doubt have been completely wiped out.

Mr. Swanson had just locked the store at 12 o'clock and with his wife and the clerks walked over to the cafe for a bite to eat before turning in and while they were at the restaurant the alarm was turned in.

The cause of the fire so fir as it can be determined, was due to defective wiring, and started in the basement under the stairs. This made it a mean place to fight the fire and as the lights were out in the basement it was impossible for the firemen to tell where the blaze was and only by guesswork did they manage to control and finally extinguish the fire. Smoke poured from every crack in the building and it looked for awhile as though it would be a bad fire, but through the determined effort of the fire department the fire was checked and aside from the damage by smoke, Mr. Swanson will not suffere a heavy loss. Practically nothing was in the basement, which proved a good thing, as it was completeley flooded by water in an attempt to locate the blaze.

The department was called to the L. H. Cohen home, 410 Duluth avenue north, about 7:30 Saturday morning on account of a blaze from a defective flue. The fire was extinguished by Mr. Cohen before the department arrived and nothing of a serious nature resulted from the blaze.

**New Variety.**

George L. Stetsma is developing a new species of tomato. We do not know just what George intends to call the new variety, but we suspect it will be the Doughnut Red, the Catsup Circle or something of that kind. The tomatoes are well formed and developed, firm and of excellent quality, the larger ones weigh about a pound. The formation is almost like a doughnut with a hole through the center.

Advertise in The Tribune.

**Good Time at Masonic Picnic.**

The Eastern Star and Masonic picnic held at Squaw Point yesterday was a most enjoyable event and while the crowd was not as large as was anticipated, still there was a fair turnout and everyone present enjoyed a very delightful day. Dinner was served shortly after twelve o'clock and there was everything to eat that could be asked for and the crowd did full justice to everything that was set out. The afternoon was spent in games and race, everyone present participating, and having their full measure of fun out of each event. The day was ideal for an event of this sort and the crowd fully enjoyed themselves from the beginning to the end.

## PENNEY STORE HOLDS OPENING LAST SATURDAY

NEW STORE IS THRONGED WITH BUYERS ON OPENING-DAY —OWNERS PLEASED

The J. C. Penney Store opened its doors to the public last Saturday morning and were rushed from the beginning. From early in the morning until the close the store was filled with shoppers and the entire force were kept busy attending to the large stream of buyers that flocked into the store.

The Penney stores are nation wide and have the reputation for open and honest dealing. The public is highly susceptible to fair and honest dealing and are always ready to throw their trade to those places which by their squareness give them full value for their money.

The local manager, I. W. Hinrichs, is enthusiastic over the prospects of the new store. He firmly believes the company have selected one of the best towns in the northwest for the opening of another store and it is the belief that the Thief River Falls store will steadily forge ahead until it becomes one of the strongest of the chain now operated by the company.

It is highly gratifying to the city to have the J. C. Penney company select this city for one of their branches. A careful analysis is made of each and every city in which the company locates one of their stores and the city selected must first be all right in every respect and have possibilities of steady growth and a good trade territory behind it before the company have decided that no better been considered one of the best in this trade territory and the Penney compay have decided that no better town in this state offers a better opportunity than Thief River Falls.

**Michelet Home.**

Wm. Mitchlet, who was called to Minneapolis last week on account of his mother's illness, is back on the job, returning the latter part of last week. While in the Twin Cities Mr. Mitchlet made a call at the state Republican headquarters and found things humming in that quarter and optimism running high with a well founded belief that the Republican party is due to win everything in sight this year.

**Basket Ball on the Way.**

Enthusiasts of basket ball are already planning the forming of a team or teams for the coming fall and winter and it is believed there will be much good material available among the business and professional men of the city for the making of a good team. The sport last winter received much encouragement from the public and it is more than likely that it will be revived again this winter with full force.

**Berry Pickers Busy.**

Berry picking at the present time seems to be the popular pastime of the majority of the people in this vicinity and not a day passes but automobiles are touring the country roundabout in search of berries and nuts. The woods are filled with every kind of berry this year and the thrifty housewife has gathered much in the way of fruits for canning to be utilized later in the year when the winds whis around the corners and those little delicacies taste best. The nut corp this year is also above the average, especially hazelnuts, and old and young alike have been busy gathering them and storing them away for the winter. Besides furnishing an enjoyable outing, this pastime is mighty profitable.

Harry Ogren of Argyle was a business visitor to this city on Saturday.

## NOT LIKELY TO PAVE STREETS UNTIL SPRING

PAVING CONTRACTOR TO START WORK OF INSTALLING GUTTERS SOON.

The city council returned from Winnipeg Sunday morning, where they had been in conference with the paving contractor who is to do the paving of this city and while there were shown over the city and also were shown much paving that had been done by the contractor who is to do the work at this place.

It is the intention of the contractor to start the work of installing the gutters in the course of a few days and in all probability will begin the actual work next week. In his opinion it will be impossible to do any street paving this fall, but it is hopes to be able to start early in the spring and rush the work thru to a finish. It is the opinion that cold weather will set in before any street paving can be accomplished and for this reason nothing will be done aside from installing the gutters.

The firm at Blue Earth, who have the contract for the installing of the storm sewers, announce they will be on the job as soon as it is possible to get material here ready for them to start. It is thought they will be ready to install the sewers in a couple of weeks and will have this end of the work out of the way before the paving begins, which will materially help in the progress of the work and will be all the better, as it will then be done according to the way it should be and neither contractor will be held up waiting on the work of the other.

The light department is going to change the wiring of the city lighting system and the material for this work is all here and ready to be installed. The present system gives considerable trouble and it was thought best to change the system before the paving goes in, thus eliminating the necessity of tearing up the paving later on to install the proper cables for the wiring.

The city council are optimistic over the present outlook and it is the general belief that by this time next year the city of Thief River Falls will be enjoying several blocks of paving.

## FUEL SITUATION IS NOT AS ROSY AS IT MIGHT BE

LOCAL DEALERS STATE THEY ARE HAVING TIME GETTING ENOUGH FUEL.

The fuel situation in the northwest is not as rosy as it may seem, especially with reference to getting actual deliveries. Local dealers are pulling every wire possible to reach and are making every effort possibl to get fuel sufficient to take care of the needs of the city before cold weather sets in, but with few exceptions they have been told to stand back and take their medicine, that they would be supplied with coal as soon as possible, which means when it is convenient and not before.

The state as a whole has made insistent demands for coal in addition from those who have the say so as to who shall receive coal and who shall not and the northwestern part of the state has been particularly insistent upon the delivery of coal and at once. Relief has been promised for the situation and the dealers are anticipating shipments soon, sufficient to take care of present needs at least.

With the recent freight advance coal is due to take another jump, in addition to the one taken in the spring, and the old saying "black diamonds" will hold more truth this year than at any time in the past. Coal is coal these days and it takes real money to buy it. However, it is expected the situation will be straightened out before any real suffering result and that the northwest will be given a sufficient supply to take care of its needs. Local dealers are unable to keep a supply on hand and are booked far ahead on future deliveries.

**Violin Lessons.**

After September 11th Mrs. August Holmberg will be in the city for the winter and will accept a few pupils for violin instruction. 52-4

# FARM CO-OPERATIVE AGENCIES MARKET THIRD OF BILLION OF OUR STATE PRODUCTS

## Half Minnesota's Crops Are Sold Thru Giant Enterprise Run By Growers

Minnesota farmers have organized a marketing enterprise which will sell products valued at nearly $400,000,000 this year, through cooperative associations built up during the past 10 years.

The fact that the state's farmers, besides raising food for millions, are owners, managers and officers of one of the largest commercial enterprises in the United States came to light when reports gathered by the state department of agriculture showed that practically one-half of the crops raised in Minnesota are marketed by the farmers themselves, through co-operative associations.

**100,000 Members Sought.**

The figures were gathered in a study of the significance of the farm bureau movement in the state. The Minnesota Farm Bureau federation, formed last January and now about to launch a drive for 100,000 members, has been organized as a result of the co-operative activities of the farmers. Its purposes include further development of co-operation among farmers, both economically and socially. Its mission is to give the farmer, through the exercise of his natural economic power, a fair share in the direction of the nation's affairs and a fair share in all improvements and developments that make for better homes, better social life and better health, its constitution says.

Co-operative marketing thus becomes only one of the aims of the federation. Its officers, however, point to the growth of co-operative enterprises among the farmers of Minnesota as a demonstration of the tremendous economic force behind the farm bureau.

Estimates of Minnesota's total farm production last year, based on reports of the various state departments, place the value of crops, livestock and dairy products combined, at $743,736,000.

Of this output, co-operative farmer enterprises marketed products valued at $341,000,000.

In other words, 46 per cent of the state's entire crop last year was marketed locally by the farmers themselves, through their own organizations, under their own officers.

The full $341,000,000 went back to the farmers, less only the actual cost of getting the products to market.

Reports received by the state department of agriculture indicate that co-operative enterprises are increasing rapidly, both in number and scope. Officers of the department today predicted that half of the state's agricultural output this year will be marketed through these enterprises, managed by farmers who have made themselves business men.

More than three-fourths of the state's dairy products are handled through co-operative enterprises. Sixty per cent of the livestock raised in the state is sold through co-operative shipping associations. More than 38 per cent of the grain raised in the state last year was handled by farmers' elevators. Estimates based on state department of agriculture reports show that of the livestock marketed last year, valued at $91,000,000, the farmers themselves marketed animals valued at $55,000,000. Of the state's $155,000,000 dairy business last year, co-operative creameries handled more than $100,000,000.

**Figures Show Immense Scope.**

The United States Department of Agriculture estimates that Minnesota's crops in 1919, exclusive of livestock and dairy products, were worth $497,736,000. On the basis of the percentage of grain crops handled by farmers' elevators, 38.9 per cent of these crops were marketed by co-operative associations. The value of this business amounted to more than $160,000,000.

Minnesota has 3,600 co-operative enterprises, according to figures and estimates gathered by the state department of agriculture.

Of the 1,605 elevators in the state 300 are in the hands of farmers' organizations.

Of the state's 825 creameries, 711 are co-operative.

There are more than 400 livestock shipping associations which dealers on the South St. Paul market credit with handling 80 to 70 per cent of all stock raised in the state.

Other co-operative projects include 110 co-operative stores, 95 produce shipping associations, 900 telephone companies, 150 fire insurance companies, 50 cattle breeding associations and numerous lumber yards and miscellaneous projects.

Co-operative enterprises so far built up by the farmers of Minnesota, though they handle $400,000,000 worth of the state's crops on their way to market, have been developed for the most part locally. Lack of a central agency, such as the farm bureau has proven, to farmers from carrying out their marketing enterprises to the fullest possible extent, that is, controlling their product from the time it leaves the farm until it goes to the retail dealer, the miller or the manufacturer.

"During the last 15 years," Mr. French, state secretary, said, "co-operative marketing among farmers has given little consideration to marketing at the ultimate terminal. Its activities have been directed chiefly to developing collective marketing in the community where the produce is raised. Whether the farm bureau is to take up the task of centralizing this marketing or it to bring pressure through existing co-operative associations, to obtain the farmer the same result that might be reached should do the actual, final marketing of the produce himself, is a question for the members of the bureau to decide."

**Growth Has Been Rapid.**

Records gathered by the University of Minnesota division of research in agricultural economics show that the growth of these co-operative enterprises has been rapid. They have served a two-fold purpose. They have given the farmer the largest possible proportion of the price received for his crop and they have enabled him, in conjunction with his neighbors, to buy as well as sell on the principle of collective bargaining. The co-operative business has brought his needed commodities at wholesale and delivered them to him actually at cost, plus the slight cost of its own administration.

It has done another thing that is of benefit not only to the farmer, but to the whole state and nation as well, in the opinion of J. R. Howard, the national president of the farm bureau federation. The farm bureau, he said in Printer's Ink, is carrying out the work of the co-operative unconsciousness between farm and town.

**Would End Mutual Distrust.**

"There is absolutely no rhyme or reason in this clash between city and country," he said. "Each needs the other in its business. Each should respect the other for what it is and what it can do."

The farm bureau must further also, he said, the co-operation of farmers in buying their supplies.

"The farmers are consumers," he said. "They use more steel each year than do the railroads. They use great quantities of lumber. They buy farm machinery, automobiles, clothing and shoes. Farmers as a class are perhaps the country's greatest consumers.

"When the farmer gets for himself the profit on his goods, that now is going to others, will he not be a greater consumer than he is even now? The reason food prices are so high is that the marketing is being done on a wrong basis. Down in Chicago are commission firms that absolutely dictate how much the people of Chicago shall pay for vegetables and produce. Fruit and vegetables are left to spoil in order that the price may be kept up. Last winter whole carloads of potatoes were dumped in a suburb and left to freeze so that they might be kept off the market.

**Remedy for Waste Seen.**

"The country raises literally untold quantities of fruit that never gets to market. Marketing conditions have been such that the farmer may let his fruit rot on the trees. It would have to rot if he picked it, because he couldn't sell it. And while all this is going on apples may be selling for 10 cents apiece in a city 500 miles away. It is worse than foolishness. It is a sinful waste. It represents a condition that ought to be adjusted as quickly as it is humanly possible to do so."

Even before the farm bureau organization sprang up in Minnesota, co-operative marketing had developed as an answer to the problem. It is the purpose of the bureau now, among its other activities, to carry on the work the farmers began in their own communities.

### PACKER HOLDING PLAN CALLED "SHELL GAME"

**Farmers' Council Assails Congress for Failing to Legislate to Rule Meat Industry.**

Washington.—The Farmers' National Council, with headquarters in Washington, has protested against the holding company proposal submitted by Chicago packers to the district supreme court for disposing of their stock yards and terminal railroad holdings.

Characterizing the plan to sell the stockyard holdings to F. H. Prince & Co., of Boston as the "same old shell game of the packers to hoodwink the public," the council assails congress for adjourning without enacting legislation to control the packing industry instead of abandoning the public to be "the victim of further horseplay between the department of justice, the courts and the big packers."

"F. H. Prince," says a statement from the council, "who has undertaken to organize a holding company to control the chief stockyards of the country, is the man chiefly responsible for putting over the confidence deal which included the bearer warrant. Federal Trade Commissioner W. B. Colver, when asked what the bearer warrant was, said: 'I think it was invented in England to beat the income tax law.'

"The Maine company, organized in 1911 by this same Mr. Prince of Boston and J. O. Armour, had a capital stock of $8,000,000, of which $1,000,000 was paid in cash and the plan, which was so effective, was raised at $7,000,000. It is well known that companies owning the stockyards, largely controlled by the big packers, have been charging exhorbitant prices and capitalizing their profiteering. The press states the value of packers' interests in the stockyards is estimated at between $30,000,000 and $40,000,000.

"Before this deal is consummated, under which the packers can control the stockyards, the gateway to the packing plants at which the producers are held up, the court is to have an open hearing. At that time it is to be hoped that the public can find out how much of the prices this holding company pays and on which the public will have to pay interest, is for bona fide value of the stockyards and how much for the plan of this holding company, which apparently originated in the fertile brain of the Prince who organized the Maine Company."

**Early Plowing in Fall Recommended.**

The best crops of small grains and corn, according to Andrew Boss, vice director of the Minnesota Agricultural experiment station, are usually secured on land that is fall plowed, especially in the arid and semi-arid areas. "In most seasons," he says, "early plowed land gives larger yields the following year than that which is late plowed. The early plowing is especially desirable where noxious weeds are present or there is a large amount of vegetable matter, such as stubble or other waste material to decay.

"Frequently there are pieces of land that are benefited by plowing twice during the fall season. A further beneficial effect is the destruction of the nests of insects and crop residue bearing plant diseases. These advantages, coupled with the time saved in preparing the land in the spring for planting, are sufficient to warrant farmers in making a special effort to get all the land plowed this fall.

There is no bad effect from early fall plowing, therefore, the earlier plowing is begun the more can be done before the fall freeze-up."

**J. S. JONES TO DIRECT DRIVE**

J. S. Jones of University Farm, help manage the state Farm Bureau membership campaign and will work with Secretary French. The drive will be started simultaneously in four counties on September 20 and will be continued, working in four counties a week, until December 25, except for the dates October 25 to November 3. The drive in Blue Earth county resulted in the enrollment of upwards of 1,000 members.

When you advertise you go half way. There's a meetiug place for the seller and the buyer of real estate. This meeting place is in the classified advertising columns of this paper. # GENERAL LUBRICATION OF TRACTORS VERY IMPORTANT

"The thing that every tractor owner should bear uppermost in mind is that oil and grease are much cheaper than repair bills and that a slight inconvenience to yourself is necessary if you are to secure the maximum of useful service from your tractor," says Geo. Streeter, local dealer in tractors, trucks and farm implements.

"Don't wait until you hear a 'squeak' before oiling. A 'squeak' means a rusted or dry bearing and when once in that condition trouble soon follows.

"The clutch is lubricated with the same oil that is used to lubricate the motor. The transmission and differential gears, differential bearings, clutch shaft bearings and axle shaft bearings are lubricated by the oil that is placed in the transmission.

"The oil pump on high grade tractors lubricates the motor and should be carefully watched. A simply designed pump is a necessity for constant, even supply of oil with a minimum of parts and a consequent minimum of pump troubles. With this pump on your tractor you need give very little thought to this important part. However, as a safeguard and to avoid accidents, be sure to test the pump at regular intervals to see if it is working properly. If the oil pump is not working, perhaps it is out of prime and oil should be squirted into it and should be filled with a squirt can before starting the motor. This will prime the pump and cause the suction pipe to fill with oil If for any reason, the pump should be stopped working, the tractor should be stopped at once and the source of the trouble remedied. Air leaks in suction pipe are one of the first causes to look to. This can be corrected by tightening the connections. Occasionally dirt and unburned carbon will form a sediment and can be drawn into the suction and feed pipes, obstructing them in which case they should be taken off and blown out. Too much emphasis cannot be placed on the oiling of the tractor.

"Failure to make proper observations may cost you in time and money; several times the amount of effort necessary to watch these parts carefully. The transmission should also be watched and a supply of oil kept in it at all times. Also watch the hard oil cups on your motor, turning them down at least once a day and when using the pulley, that it is well lubricated. The front wheels, the fan and similar parts should be looked after. Be sure that the transmission is always filled to the proper mission and clean it occasionally, removing all the old oil, wash out the case with kerosene and replacing with new oil. When burning gasoline in the motor, the oil basin in the oil reservoir should be drained for six hours, the oil reservoir thoroly flushed with kerosene and new oil put in. When burning kerosene this should be done oftener. This removes all old and burning oil that is likely to contain grit and will prevent the clogging of oil lines and grooves. Putting fresh oil into dirty reservoirs is a waste of good oil. Do not gyage condition of oil by quantity but rather by quality. When you drain out old oil and wash out reservoir with kerosene, be sure that you drain all the kerosene off, otherwise it will mix with fresh oil and cut down its lubricating qualities. Fesh oil is cheaper than repair bills.

"Proper care in lubrication of motor, transmission and vale grease cups is one of the safest means of securing long life for your tractor."

## "The New Public Health"

*Conducted by the Minnesota Public Health Association*

(Letters on health addressed to Dr. H. W. Hill, Shubert Building, St. Paul, Minn., with a stamped, self-addressed envelope enclosed, will be answered by mail. If of general interest they will be answered in this column, also.)

Question: I am sure consumption is inerited, my grandfather had it, his uncle had it, my mother had it, and now two of my brothers. I am thinking of getting married, but I am afraid on account of consumption in the family. What do you advise under the circumstances?

Answer: If you have no tuberculosis yourself, you needn't concern yourself about what our ancestors had. The fact is that consumption is often passed on to children but it passes no more after they are born, not before. If you are not infected now with tuberculosis, you have every bit as good a right to get married as anyone else in the world, so far as that point is concerned.

Question: How can I get relief from hay fever?

Answer: I only wish I knew myself! The only sure way, excepting drowning yourself, is to go to a place free of hay fever—free of the particular kind you have. Various treatments have been successful with various people and various kinds of hay fever. Perhaps a nose and throat specialist may help you a little—sometimes they help a great deal.

## JANE'S TEMPTATION

By MADGE WEST.

(Copyright, 1920, Western Newspaper Union.)

As Jane looked back over the past it seemed that the eclipse of the Stewarts began with the coming of the Westovers. Jane's father, years ago, had followed his old father into the village doctor. When young Ned Westover had come breezing into town, winning—with his city ways and shining new office equipment—an easy professional victory, James Stewart stubbornly endeavored to hold his footing, managing only the humblest living. So James lived his conscientious and really capable life, overshadowed by the aggressive personality of the more confident physician. And when he at last died his young daughter, left motherless in her childhood, had but the labor of her hands to count upon for livelihood. And Jane's small hands knew no other labor save that entailed in the duties of her father's household. Jane was dismayed at the possibility of her future, and it was with gratitude akin to devotion that she accepted the offer Myra Westover made that for the time being she should make Myra's home her own. The daughter of her old father's rival had, it seemed, inherited his prosperity and good fortune, and while Jane swept the rooms of her father's home Myra had traveled, perfecting her art studies and finding pleasures he stowed all along her way. When Doctor Westover's successful career was forever ended—and he had not lived long to enjoy the fruits of it—Myra returned from abroad, selling the great house and building a beautiful bungalow. It was to this dainty appointed home that she invited Jane, to be, as Myra smilingly suggested, her "companion and housekeeper." Myra did not exactly say general housekeeper, but that was exactly Jane's position. But the heart of the lonely woman was more than content. Myra, she felt, was her benefactor indeed. And Myra, adjusting easily to being a costly suit preparatory to starting upon a trip whose duration would depend upon her own interest in it, congratulated herself upon the acquisition of a faithful and tireless homekeeper. With Jane installed in the bungalow, Myra could be completely at rest regarding her own affairs, sure of a satisfying welcome when she returned. Jane was firm in her refusal of a stated salary.

"Are you not giving me a home?" she had asked, with her father's unselfish incosistency.

And Myra, shrugging her shoulders, smiled shrewdly at this gratifying loyalty.

The gifted illustrator laughed her way easily through life, unmoved by various suitors to whom her charm and beauty appealed. Jane had known but one romance, hidden carefully through the years in the most secret place of her heart. This romance centered the same pathos as her unselfish life. Bob Moore had stopped at the little house of the humble doctor to laugh and chat with the doctor's sweet daughter. Then Bob Moore had gone to the great house—and Myra Westover had smiled upon him. And that was the end. That was always the end—where Jane was concerned. When Bob went away, Jane expected the news of his return to claim Myra as his bride. But Bob had not returned, and Jane still cherished certain memories. It was when Myra was away upon one of her trips, that Jane learned of Bob Moore's presence in town. She was in the kitchen when a neighbor brought the news and Jane looked down with sudden rebellion at her print dress. Bob Moore would call, of course—and he would find her thus—Myra's servant. "Why?" Jane asked with new resentment, "should all gifts of life be bestowed upon one woman?" Then to her came her one temptation. For that evening at dusk she would live as Myra—be Myra. Bob Moore should find her, Jane Stewart, hostess of the stone bungalow. She hesitated but a moment, before the mirror in Myra's deserted room, then sorted, hurriedly, the dresses left by Myra's wardrobe. Jane chose delicately a lace frock of finest lace, and around her waist she knotted a sapphire ribbon. The white satin slippers were Myra's, too. In Myra's charming fashion, Jane loosened and coiled her hair. Then with new general assurance, she went out upon the veranda—to wait. Bob Moore—Robert C. Moore, man of affairs—came presently, smiling his pleasure. Bob, too, was having his memories—his first love stood before him tonight, the girl he had never been able to forget.

"I am glad," he said as they sat and talked, "that Myra found you have made your home together. Though from what Myra told me, when I went away, I supposed that you would long since have married. If I had not believed what Myra told me concerning your engagement to another man, Jane—" His eager eyes finished the sentence. Then, rapidly, incoherently Jane Stewart made confession.

"Myra," she ended her story, and abruptly left him.

When she returned, Jane wore her plain print dress, white apron strings where the bine sash had been.

"You see," she said breathlessly, "it was a vision of Myra, that you remembered. But I—am only Jane—the one who serves."

"You have served, long enough, dear," Bob Moore said quietly. And Jane's memory romance became reality.

## DADDY'S EVENING FAIRY TALE

### DOG AND CAT.

"Chink, the dog, and Zeppy, the cat, were talking," said Daddy.

"Chink was sitting inside a screened piazza and Zeppy was sitting outside.

"Of course, they were great friends and the reason one was outside and the other inside was because Chink had been napping and Zeppy had been out for an airing. They belonged to the same lady and they were very happy and very friendly.

"I really would be ashamed,' said Zeppy, 'if I had to have screens and mosquito netting put up because of me. Why the mosquitoes and flies haven't got any decent pride.

"'They don't mind if they're not asked in. They don't even mind if they have screens put up on piazzas and in windows to keep them out.

"'If they get a chance to get in they will just the same. Now I am outside of course, but all I have to do is meow and I am allowed in, and if you are out you know what you have to do to get in.'

"'Of course,' said Chink, "all I have to do is to stand in front of the door and wag my tail and they let me in. I am really invited in whenever I want to go in. I am a member of the family as you are. But I cannot understand the ways of mosquitoes and the ways of flies who will come in even when things are made so plain that they must stay out.

"Now it is true that here on the farm they put up scarecrows to look like men to scare the crows away.

"But the actions of crows are a little more easily understood. The crows simply want a meal, they do not want to come around and bite people and make them uncomfortable.

"Every time though that I look at the make-believe crow on the entrance

"They Let Me In."

to the gate of the garden I feel like talking to him and saying.

"'Well, old boy, those two scarecrows in the fields beyond are put up for you.'

"They looks so real sitting there on its fence.'

"'I know he wasn't real,' said Zeppy, 'for I sat and watched him for quite so long and he didn't move. I went up to him and I asked him if he couldn't caw.

"'You're a queer fellow,' I said to him, 'are you quite dumb, can't you speak?' And he didn't say a word.

"Then I knew he was a make-believe crow for between not answering and not moving one could tell.

"And then a day or so afterwards I saw the lady who looks after us all pick up the crow and fix him so he looks in another direction as she put him out and then I knew he wasn't real.

"'I am glad I'm not a make-believe cat. If I were a make-believe cat I would not be given any milk.'

"'Even wouldn't want any milk if you were a make-believe cat,' said Chink.

"'Oh, but once I passed a house, and outside were two make-believe lions. Their mouths were open and I felt very sorry for them, couldn't be given bones and big chunks of meat and that they couldn't roar.'

"'Well, I never before knew you to care so much for other creatures,' laughed Chink.

"'I'm feeling sorry for make-believe creatures, not for real ones,' grinned Zeppy.

"Did you hear that the youngest kitty of Mrs. Black Cat was playing with a key she got out of the pantry door and that she lost it and that no one would get into the pantry and there was a terrible time? They had to break the lock.'

"Why, what exciting news you have to tell.' No, I didn't hear that. Well, well, and did they send the kitten to bed without any milk for supper?'

"'I do didn't for she was too young, she didn't know any better.'

"'Oh, it is nice to be friends, isn't it, Zeppy?'

"'Fine, fine, me-ow, me-ow,' said Zeppy. 'But it is beyond me as I said in the first place to understand creatures like mosquitoes and flies who get all the hints that they aren't wanted and still haven't pride enough to go away.'

"'It is something I cannot understand either,' said Chink."

**Great Grandmothers.**

"Mamma," said five-year-old Charles, looking up from his story book, "what does this story mean about a great-grandmother? Ain't all grandmothers great?"

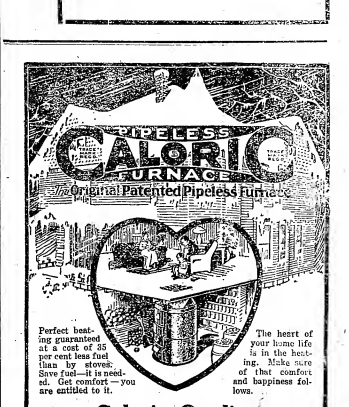
*Needed By Farmers*



Most of the farmers in Pennington County are keeping their business well in hand thru systematic Checking Account records.

Many prosperous farmers around Thief River Falls are well known by their bank checks and characteristic signatures.

Every farmer can benefit by this businesslike method of paying bills, obtaining receipts, and building commercial prestige.

We welcome new accounts with an assurance of friendly attention.

*Citizens State Bank*

Perfect heating guaranteed at a cost of 35 per cent less fuel than by stoves. Save fuel—it is needed. Get comfort—you are entitled to it.

The heart of your home life is in the heating. Make sure of that comfort and happiness follows.

## Caloric Quality is Your Protection

Over 60,000 homes in the United States heartily endorse Caloric quality. The owners know the merits of the Original Patented Pipeless Furnace. They have daily proof that it correctly applies Nature's own law of circulated heat, that it saves 25% of the fuel and that its Ironclad Guarantee of comfort and economy is always made good by its performance.

Caloric success is due to its principles of construction. The Caloric is especially designed for pipeless heating—the original. It is not a pipe furnace with a casing, nor is it a makeshift adapted to meet a new demand. The best efforts of scientifically trained engineers resulted years ago in this new type furnace, which has been refined and improved until it embodies those principles necessary to your satisfaction not found in imitations, because they are fully protected by patents. There is as much difference in pipeless furnaces as in horses—you can buy quality or you can get cheapness, which costs more in the long run.

## Let Us Show You

the Caloric and explain its exclusive features. Then you will never be satisfied with any other and will know that it represents the most for the money. You will not make the mistake of a poor investment when you understand why the Caloric is so superior, why it stands alone in leadership in this field and why imitations cannot produce its satisfaction to users.

The Caloric can be installed quickly in old and new homes. It burns coal, coke, wood or gas. Clean, fire-proof, well made and fully guaranteed.

Come in and get the free book "Proven," which tells all the facts about pipeless heating. Study the question and let us show you how easily the furnace can be put into your house.

Entered as second class matter at the post office at Thief River Falls, Minn., under the Act of March 3, 1879.

DO YOU KNOW

Do you know that the United States has only 6 per cent of the population of the world, and only 7 per cent of the land? And yet we produce:

20 per cent of the world's supply of gold.

25 per cent of the world's supply of wheat.

40 per cent of the world's supply of iron and steel.

40 per cent of the world's supply of lead.

40 per cent of the world's supply of silver.

50 per cent of the world's supply of zinc.

52 per cent of the world's supply of coal.

60 per cent of the world's supply of cotton.

60 per cent of the world's supply of copper.

60 per cent of the world's supply of aluminum.

66 per cent of the world's supply of oil.

75 per cent of the world's supply of corn.

85 per cent of the world's supply of automobiles.

We also refine 80 per cent of the copper and operate 40 per cent of the world's railroads.—Republican.

As between Cox and Nelson and Kellogg, our senators, we suspect the good citizens of Minnesota will continue to show confidence in our most able and honorable senators. By the way, can you imagine either Nelson or Kellogg in the undignified, mud-slinging position that Cox occupies from day to day? No, you cannot! Our senators are gentlemen of intelligence and ability, and above all, they are gentlemen.

Gov. Cox was visited today by a local Republican who remarked:

"I recognize your confidence in winning, but don't you think the sentiment this year is Republican?"

"Just remember," replied the governor, "that the Germans were on French soil when the big drive started."

Yes, the Germans had been on French soil for some time, as was noted by Governor Cox's newspaper, when exactly six months after the sinking of the Lusitania, it declared that "America might live to be very sorry that Germany had not won" and later, on the eve of election in 1916, added that "the German U-boats have committed no crime against us," despite the fact that the emperor made a German holiday to celebrate the murder of American men, women and children.—Harvey's.

Mr. Merchant, please remember the new settlers coming in from time to time have all been reading the Tribune for months before they arrive. They know the advertisers. They are calling on you every day now. The Tribune does you a real service with these new people. Communicate with them through the Tribune. They are glad to hear from you.

Cox is sure some circus man. He is running for president to succeed the most unpopular administration since Buchanan's time. He knows this. In order to secure the administration support he has been obliged to promise publicly to continue in his footsteps. Therefore, he has raised a smoke screen and is throwing bricks at the glass house of the Republican National Committee. Result: Cox is in the limelight. The public press is discussing Cox and the $3,000,000 campaign fund to be spent by the Republicans. The Democrats admit raising an equal amount. There are issues of importance to the nation. National issues, issues that relate to our taxes, war results, high prices, profiteering, all these things. We understand Brother Harding makes a few dignified remarks on occasion from a front porch in Marion, Ohio. But Cox! Cox is a circus man. He is on the job and gets the spotlight. It's a long time till election. We suspect the public will tire of mudslinging, fire eating and sword swallowing. When all the noise subsides, we will still face the plain proposition. Do we wish to continue the Wilson policies, or do we wish a change? Cox promises a continuation of the Wilson policies. Harding promises a change. Do we want a change? We do!

The Citizens State Bank under date of September 4, 1920, have sent out to their customers and depositors a very able letter reviewing the history and success of the bank since it was organized in 1903. They point to $800,000 deposits at this time as an evidence of the confidence, upon the part of the public, and especially the patrons, in the institution. The Citizens State Bank have indeed an enviable reputation. A bank, like a person, has individuality. There is that particular something about such an institution that cannot be put into words, but it is there just the same. The Citizens State Bank have a building that is a credit to the city and our people feel just pride in pointing to this fine substantial monument of beauty and serviceability. The officers of the bank are affable, courteous and honest. When you do business with the Citizens State Bank you know you are going to be protected and favored and helped in every way. You know you are dealing with a dignified institution and with honorable, conservative and substantial business men. The bank merits its most enviable reputation. They have $800,000 deposits now. They are sure to have $2,000,000 in less than ten years. The country has just commenced to develop in a big and substantial way. This bank knows this. They are out in front trying to anticipate movements and promote substantial progress. The reputation of the Citizens State Bank has been made by its officers and employes. They have much to be proud of.

## PEAT PLOTS INSPECTED

By W. V. Longly, Co. Agent.

Geo. H. Nesom, who has charge of work on the peat plots in this part of the state, was in the county on the 17th. Mr. Nesom found the peat here showing up the same as at Golden Valley and in eastern Pennington county in that phosphate is needed to produce results. At Karlstad Mr. Andraeson has an excellent field of flax of better than 40 acres, good enough for any land. This has been produced without any phosphate, in fact flax will usually make a good crop the first year on peat land without any fertilizer, although Mr. Nesom states that phosphate often aids it greatly in ripening. The barely on Mr. Andraesen's plots is a good stand even where no fertilizer has been applied, but it is more uniform on the phosphate plot than on the manure, both are ripe while the check plot without either phosphate or manure on same is still quite green and as yet not filled. The oats on both manure and phosphate are heavier than on the check plot. The corn and potatoes were badly frosted and amount to nothing. Sunflowers, although badly frosted show up much better on the fertilizer plots. The buckwheat amounts to nothing on the check while it is a heavy stand on the phosphate plot and fair on the manure apparently not being as much injured by frost on the phosphate. Alsike, sweeet clover and red top are a good stand on all the plots but on the check plots have made no growth whatever, but have made an excellent growth on the manure and phosphate, being rather further advanced on the phosphatae than on the manure. The alsike clover has done particularly well.

At Halgren Bros., Bronson, phosphate again has shown itself to be what is needed on the peat, being a little better than the manure, with the check plot amounting to not more than half.

On the Doty farm, northeast of Bronson where C. rom put phosphate on peat land last year he has this year a fair stand of clovers and grasses. Mr. Berkstrum says that even the sowthistle will not grow well where there is no phosphate. Two loads of hay were cut from 2½ acres, most of it coming from the two acres that had phosphate applied to it last year. Some phosphate was applied this year on the farm and a good crop of oats has resulted but as no check plot was set off one cannot say as to the exact benefit.

A. J. Holmgren, Bronson, has about 80 or 90 acres of peat land that at present is giving little or no returns. Mr. Holmgren after visiting the plots at Bronson and Karlstad has decided that his peat land is worth going after and that it can be made productive.

These results on farms in this county clearly show that our peat soils are lacking in phosphate and that with the application of phosphate raised. Those interested should obtain a copy of the peat bulletin just published by the Minnesota Station which gives the most up to date information to be had on the subject.

—Karlstad Advocate.

Order For Hearing on Petition For Guardianship of Incompetent.

State of Minnesota, County of Pennington, ss. In Probate Court.

In the matter of the Guardianship of Ruby A. Hall, an insane person.

On reading and filing the petition of Ivo L. Hall, praying for the appointment of a guardian for the Estate of Ruby A. Hall,

IT IS ORDERED, That said petition be heard, and that all persons interested in said matter be and appear before this court at the Probate Court Rooms in the Court House in the City of Thief River Falls in said County, on the 21st day of September, 1920, at 10 o'clock a. m., and then and there or as soon thereafter as said matter can be heard, show cause, if any there be, why said petition should not be granted; that a copy of this order be served upon said Ruby A. Hall personally, also upon the Superintendent of the State Hospital for the Insane of North Dakota, at Jamestown, North Dakota, at least fourteen (14) days prior to said date of hearing on said petition above specified. Also, that copy of this order be mailed to Charles H. Hall, Courtenay, North Dakota and to Marie Hall Malke, Wimbledon, North Dakota, not later than the first day of September, 1920, and that said order be published in The Tribune, a legal newspaper published at Thief River Falls, Minnesota, for at least two successive weeks prior to said date of hearing on said petition as above specified.

Dated at Thief River Falls, Minnesota, this 24th day of August, 1920.

IRA C. RICHARDSON,
Probate Judge.

THEODORE QUALE,
Attorney for Petitioner.

Citation for Hearing on Petition for Probate of Will.

Estate of Svend Talaksen Dale.

State of Minnesota, County of Pennington, in Probatae Court.

In the matter of the estate of Svend Tallaksen Dale, Decedent.

The state of Minnesota to Kari Dale, Emma Halverson, Bertha Peterson, Anna Dahle, Knute Dahle, Aslak Dahle, Ole Dahle, Tallak Dahle, Elvend Dale, Ole Dale, Svend Dale, Knute S. Dale and all persons interested in the allowance and probate of the Will of said decedent:

The petition of Kari Dale being duly filed in this Court, representing that Svend Tallaksen Dale, then a resident of the County of Pennington and State of Minnesota, died on the 17th day of October, 1919, leaving a last Will and Testament which is presented to this Court with said petition, and praying that said instrument be allowed as the last Will and Testament of said decedent, and that letters testamentary be issued thereon to Kari Dale.

Now therefore you, and each of you, are hereby cited and required to show cause, if any you have, before this Court, at the Probate Court Rooms in the Court House, in the City of Thief River Falls, County of Pennington and State of Minnesota, on the 20th day of September, 1920, at 10 o'clock a. m., why the prayer of said petition should not be granted.

Witness the Honorable Ira C. Richardson, Judge of said Court, and the seal of said Court, this 24th day of August, 1920.

IRA C. RICHARDSON,
Judge.

WILHELM MICHELET,
Attorney for Petitioner.
Thief River Falls, Minn.

Must Pay the Printer.

Recently the supreme court of Minnesota handed down a decision in which every publisher in the state is deeply interested, says the Houston Chief. There is not a newspaper in the state but has had the experience with the persons telling him they did not order the paper and also they had enjoyed it for months, refused payment for the same. It is impossible for publishers to keep evidence in their possession as to how every name got on the subscription list. Now the supreme court in a recent decision covers this line of argument. Justice Dibell, in his decision, says: "One may accept delivery and make use of a newspaper delivered to him, just as he may other things, under such circumstances as to make a contract implied in fact between him and the publisher." Every man who receives a newspaper knows that the publisher expects him to pay for the same and if he keeps on taking it from the postoffice he will, under the supreme court's ruling, be compelled to pay for it.

**Must Pay the Printer.**

Recently the supreme court of Minnesota handed down a decision in which every publisher in the state is deeply interested, says the Houston Chief. There is not a newspaper in the state but has had the experience with the persons telling him they did not order the paper and altho they had enjoyed it for months, refused payment for the same. It is impossible for publishers to keep evidence in their possession as to how every name got on the subscription list. Now the supreme court in a recent decision covers this line of argument. Justice Dibell, in his decision, says: "One may accept delivery and make use of a newspaper delivered to him, just as he may other things, under such circumstances as to make a contract implied in fact between him and the publisher." Every man who receives a newspaper knows that the publisher expects him to pay for the same and if he keeps on taking it from the postoffice he will, under the supreme court's ruling, be compelled to pay for it.

Helps For Your Fall Housecleaning

YOU will find it well worth your while to drop in and see the special display we are making of the things you need for housecleaning.

Everything from Curtain Rods to Paint, and from Mops to Stepladders. Exactly what you want to make home brighter and work lighter.

**Auditor's Final Notice of Hearing in Ditch Proceedings.**

State of Minnesota, County of Pennington, ss.

In the matter of the Petition of Carl Bieswinger and others for repair of Public Ditch No. 35 in the County of Pennington, State of Minnesota.

Notice is hereby given that a petition has been filed in the office of the County Auditor of said County, praying for the construction of a public ditch, designated and numbered by the County Auditor of such County as County Ditch No. 35 beginning at the main Channel of County Ditch No. 35, at or near the Northeast corner of the Southeast quarter of Section 11, Township 153, Range 42, extending thence west along the south side of said Northwest Quarter of Section 11, and across the Northwest Quarter of said Section 11, running thence through the following described lands, to-wit: The Northeast Quarter Section 11, the Northwest Quarter Section 11, the East half of Section 10, Township 153, Range 42 and terminating at the Red Lake River, as appears by the report of the Engineer hereinafter mentioned and that the names of the owners of the lands and the names of the Municipal and other corporations that will be affected by the construction of said ditch, as appears in the report of the Viewers, hereinafter mentioned, are as follows, to-wit: Thomas Sanders, Ole Bolstad, Tobias Skjerping, Albert Ness, J. W. Helland, Continental Land Co. Tobias Skjerping, Krist Larson, Chas. Fisher, Carl Bieswinger, Krist Larson, Elias Angel, B. B. Hammer, S. C. Dahlquest, L. N. Zeigh, Francis J. Hardisty, Ole M. Pederson, Herman Swanson, Severt Brekke, Louis Stenseth, Fred Lane, Ole Forthun, Iver T. Austad, Thor Gunderson, Oscar Enevson, Halvor Loken, J. L. Fodstad, Anton F. Dando, Johanna Bragstad, Ole P. Sandness, Mary Austin, Johanna N. Hanson, Emilia Ramstad, Olaf Ramstad, Fred Ptacek, Hans J. Skogstad, John M. Sether, John Koycjoed, Andrew Bresney, Clement Cobeck, William Coates, Jr., Anton Kozjeod, S. R. Sullivan, Joseph Topinka, H. L. Lovaas, Thomas Steiner, C. L. Hansen, Hans P. Rued, Daniel Shaw, John B. Baner, N. O. Buringrud, Lars Mattson, Ramstad and Melgaard, Aug. Lautenbach, A. M. Mikelstad, T. L. Chauland, S. J. Stenberg, James N. Nesse, John Offeldahl, Samuel Schaltz John Pinter, T. J. Kämpel, Joseph Ptack, Joseph Hruby, Sophia J. Quist, James S. Stiene, A. H. Draheim, Ole Holmen, Andy C. Hurt, Ole P. Skukkernal, S. E. Joslin, Grace E. Cromwall, A. S. Svatso, Henry Engelhorn, Jessie S. Coggshall, Gunder Olson, F. Blankenberg, Theo. Olson, C. P. Brorby, M. J. Greatinger, F. H. Wright, George P. Bryant, Town of Smiley, to J. M. Tiege and that the Engineer appointed by the County Board of said County to make a survey of the route of said ditch has completed his work and made due report thereon, and filed the same in the office of said County Auditor; and that the Viewers appointed by said County Board to view the same have completed their work and filed their report thereon in the office of said County Auditor.

And that, therefore, the County Board of Pennington County, State of Minnesota, will hold a special meeting on Wednesday, the 15th day of September, 1920, at the County Auditor's office in the City of Thief River Falls, in said County, at 7:30 o'clock p. m. of said day, for hearing and consideration of said petition and of said surveyor's and viewer's report thereon; and that all persons interested in the construction of said ditch are invited to appear and be heard by and before said County Board at said time for or against the construction of said ditch.

T. P. ANDERSON,
County Auditor of Pennington County, Minn.

**FARM BUREAU STARTS INVESTIGATION BUREAU**

At a recent meeting of the executive committee of the Minnesota Farm Bureau Federation it was decided to establish a bureau of investigation as a part of the program of the County Farm Bureau and State Federation.

The purpose of this bureau will be to investigate and obtain information of all enterprises for which the sale of stock is being pushed among the farmers of this state. It will also be the purpose to investigate and eliminate any and all purebred livestock selling schemes which are not operating on a basis to the best interest of both the farmer and purebred breeder. Promotion schemes not under the jurisdiction of the state security commission will be investigated and reports furnished to anyone desiring them.

The need for this burau has been shown by the inquiries continuously coming into the office of the federation from farmers and county agents relative to stock promoting schemes, also schemes for the sale of purebred live stock which are going on throughout different counties.

The plan of operation of this bureau will be as follows: Questionnaires in blank form will be kept at all Farm Bureau offices. All farmers are to be informed of this investigation bureau and advised that before they subscribe for stock in any new enterprise under promotion that they first make sure that the promoter has filled out in duplicate this questionnaire, a copy of which will be kept on file at the county Farm Bureau office, a second copy to be given to the promoter. This promotion propositin( after being carefully investigated will be approved or disapproved by the county Farm Bureau executive board, the action taken being indicated on the questionnaire. In case further information is desired than can be furnished by the promoter, investigation will be made by the State Federation.

The Minnesota Farm Bureau Federation aims to be absolutely fair to all enterprises which are being promoted. Those that are working for the welfare of the farmer and the development of agriculture will be helped along.

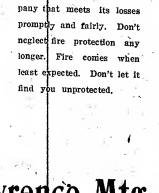
COMMON WITCHHAZEL FINE FOR SORE EYES

It is surprising how quickly eye inflamation is helped by common witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. One elderly lady, who had been troubled with chronic eye inflamation for many years, was greatly helped in two days. We guarantee a small bottle of Lavoptik to help ANY CASE of weak, strained or inflamed eyes. Aluminum eye cup FREE. F. J. Stebbins, druggist. T-1

You're taking the right step when you switch to Spurs

YOU can't do better. After you've smoked through a pack of Spurs, you won't want to go back to other cigarettes. You'll find your old kind sort of flat and uninteresting, like last year's politics.

For Spur's good tobacco taste can't help but stay with you. There's rich, mellow Turkish, flavorful Burley and other home-grown tobaccos blended in a new way that brings out to the full the all-'round goodness of this top-notch cigarette.



And Spurs top all—all ways. They're crimped. That means slow burn, smooth taste—no paste. The smart "brown-and-silver" package is *three-fold* to keep Spurs fresh and fragrant.

Twenty cents will prove that Spurs are your kind of cigarettes—top-notch quality at rock-bottom price. The sooner you try them the gladder you'll be.

### MINNESOTA IS MOVING RIGHT UP AMONG NATION'S BIG CORN STATES

**High Rank Is Gained In Spite of the Short Season.**

Minnesota is climbing as a corn state. Ten years ago its corn acreage was 3,650,000 and its yield not quite 58,000,000 bushels. Last year its corn acreage was 2,970,000 and its yield 118,000,000 bushels. Its acreage has grown about 75 per cent in ten years and its yield a little more than 100 per cent. In point of total yield Minnesota ranks seventh among the corn states of the country. In point of yield per acre it ranks fifth.

**Corn-Growers Handicapped.**

Minnesota has climbed to this position as a corn state in spite of a serious handicap—the shortness of the season.

This handicap imposes the need of special care on the Minnesota corn-grower. For seed he must get corn that has matured before Sept. 20, because the Minnesota corn area has a killing frost not later than that date and seed corn which has matured before that time of year will usually produce corn which will mature before that time the next year. He must select seed corn early, also, so that he may have time to dry it thoroughly before freezing weather comes. If it is not dry before frozen it is sure to be injured.

**Four Things To Do.**

The Agricultural Extension Division of the University, therefore, is urging on the farmers of Minnesota four things:

The selection of seed corn during Seed Corn Time, September 10-20.

The selection of seed corn from a field of corn adapted to the locality.

The storing of this seed corn in a dry well ventilated place where it will dry quickly and stay dry.

The selection of 50 ears of corn for each acre to be planted the following year, in order to provide for reselection in the spring.

A. D. Wilson, extension director of the University Department of Agriculture, is urging these points on all the farmers in Minnesota in a letter being sent directly from University Farm.
